9. Certainly we do not want IAP's of 2 or 3 pages that presume to exhaust a topic, but on the other hand, a 50-page minimum is excessive.

In an attempt to convey some idea of desired length for an IAP, we hit on 50 manuscript pages as a reasonable indicator of level of effort. Fifty double-spaced manuscript pages would translate to approximately 30 single-spaced typed pages or fewer than 20 typeset pages. We consider these to be the minimum number of pages to adequately address most topics.

...Mildred Thorne and Bob Chesley (CERIC)

ERIC's Lament

When Kit and Frank make up their minds
To kick the trace and tie that binds,
It is a sad day in our group.
It makes our smiles and spirits droop.

For twenty-seven years in sum
They've seen the ERIC System hum.
They've made it work in every way.
Won't you change your minds and stay?

When the staff has different views,
They offer things for us to muse.
Their modest ways do not give hint
They've never lost an argument.

You'll miss the names, and faces too
And all the alphabetic stew.
You'll dream of FCRs and such
And EAB you'll never touch.

And RFPs you will not see
Nor DJF nor PCB.
It must be dull to have to speak
In simple words with meanings weak.

We'll miss dear Frank whose awful wit
Has made us groan and want to quit.
We don't think Frank should rest content
Until he's had his punishment.

And then there's Kit whose clearinghouses
Protective instinct soon arouses.
But if a problem comes in sight,
Beware her fearsome, awesome might.

We know the mark that they have made
Will linger long and never fade.
We hate to see them leave our hall
But know that they will have a ball.

We wish you fun on every trip
Or if you wish: to double dip.
A site report is not required—
(Unless you want to be rehired.)

We give you up with saddened eyes,
A sacrifice of no mean size.
We hope retirement's not a rut
And may your budget not be cut.

Retirement bells, retirement bells,
We bid them each our fond farewells.
The ERIC System does lament
We hate to give you up for Lent.

Kit — WITH AFFECTION
BA

THOSE RETIREMENT BELLS ARE BREAKING UP
THAT OLD GANG OF MINE

Not a soul in IR's corner,
That's a pretty certain sign,
That those retirement bells are breaking up
That old gang of mine.
All the people are singing blues songs,
They've forgot Sweet Adeline.
Those retirement bells are breaking up
That old gang of mine.
There goes Kit, there goes Frank
Strolling down happy lane.
Now and then, we meet again
but things don't seem the same.
How we get that lonesome feeling
When we hear those DIP bells chime.
Those retirement bells are breaking up
That old gang of mine.

Clearinghouse Name _____

Name of person
completing form _____

ERIC CLEARINGHOUSE
COMPUTER SEARCHING INFORMATION

The ERIC Online Project can better serve you and searchers outside the ERIC system if we know the online capabilities of each Clearinghouse. Please take a minute to answer a few questions for us and return the form to Sharon Hudack at ERIC/EC.

1. What system do you use to search ERIC?

- BRS
- Lockneed
- SDC
- Other _____

2. If you have access to more than one system, which one(s) are you most proficient in, and which do you feel less comfortable with?

3. Please list the names of all clearinghouse personnel who know how to run computer searches. Please comment for each person on their level of experience with searching.

<u>Searcher</u>	<u>Experience Level</u>
_____	_____
_____	_____
_____	_____
_____	_____

4. Approximately how many computer searches of ERIC does your clearinghouse perform each year?

5. Does someone in your clearinghouse feel comfortable giving workshops on computer searching of ERIC for beginning searchers?

YES

NO

for experienced searchers?

YES

NO

6. For whom do you run searches? (Anyone who calls? Only requests in your scope? Only persons affiliated with your sponsoring agency or institution?)

7. How much do you charge for ERIC searches?

8. Does someone in your clearinghouse feel competent to search other online databases? If so, which ones?

Thanks,
Lynn and Sharon

NEW INFORMATION ANALYSIS PRODUCTS

ERIC Clearinghouse on Adult, Career, and Vocational Education

- REVIEW AND SYNTHESIS OF RESEARCH AND DEVELOPMENT IN TECHNICAL EDUCATION.
Charles R. Doty, Henry E. Tornell, and William Wenzel, 143 pp., 1980, \$8.25.
IN 206.

Examines the literature, provides an overview of the research, and identifies resources and information in technical education. Intended for practitioners and researchers.

- MEASURING CAREER EDUCATION OBJECTIVES: CURRENT STATUS AND FUTURE DIRECTIONS.
Anita Mitchell, 38 pp., 1980, \$2.80. IN 207.

Discusses career education infusion, especially for middle school and junior high school levels. Explores the relationship between student outcomes in curriculum guides and a comprehensive definition of career education.

- COMPETENCY-BASED ADULT EDUCATION: A CHALLENGE OF THE 80s.
Carol Kasworm, 62 pp., 1980, \$3.80. IN 208.

Discusses various notions of functional adult education and describes major strands of diversified program and instructional processes. Presents administrative perspectives and current research issues.

- PREPARING HUMAN SERVICE PRACTITIONERS TO TEACH OLDER ADULTS.
Roger Hiemstra, 68 pp., 1980, \$4.50. IN 209.

Overviews existing research on how one teaches the older person. Suggestions are outlined for the design and implementation of effective education for older persons.

- CREDIT FOR PRIOR OR EXPERIENTIAL LEARNING.
Elizabeth Stanley, 71 pp., 1980, \$4.50. IN 210.

Focuses on the activities of colleges and universities providing options for the assessment of prior learning for adult students. Answers often asked questions concerning the adoption of a policy on credit for prior learning, and suggests appropriate resources for further study.

- CAREER EDUCATION INFUSION: A REVIEW OF SELECTED CURRICULUM GUIDES FOR THE MIDDLE SCHOOL.
Carolyn D. Raymond, 50 pp., 1980, \$3.25. IN 211.

Explores the relationship between student outcomes in curriculum guides and a comprehensive definition of career education. Also examines the congruence of the outcomes and activities in the guides with appropriate theoretical career development stages.

- REVIEW AND SYNTHESIS OF CRITERIA USEFUL FOR THE SELECTION AND ADMISSION OF VOCATIONAL STUDENTS.

David Pucel, 40 pp., 1980, \$2.80. IN 212.

Discusses strategies underlying studies to identify selection and admission criteria of vocational education students, and reviews prediction and classification studies.

- MARKETING AND DISTRIBUTIVE EDUCATION: REVIEW AND SYNTHESIS OF THE RESEARCH—1969-1978—THIRD EDITION.

Robert G. Berns, James L. Burrow, and Harold R. Wallace, 140 pp., 1980, \$2.80 IN 213.

Presents an analysis of the research and new developments in marketing and distributive education for secondary and postsecondary teachers, counselors, teacher educators, and curriculum developers. A summary and reference are included.

- ADULT LEARNING PROBLEMS: INSIGHTS, INSTRUCTION, AND IMPLICATIONS.

Laura P. Weisel, 60 pp., 1980, \$3.80. IN 214.

Offers information on the nature of learning, information processing, problems that can be diagnosed, and strategies suitable for adults with learning problems. Focuses on programmatic implications and services for adults with learning problems.

- CAREER EDUCATION AND THE TEACHING OF ENGLISH.

Marjorie Farmer, 40 pp., 1980, \$2.80. IN 215.

Provides a framework for understanding the relationship between career education and English language arts, and suggests resources that describe specific practices related to career education in language arts.

- HEALTH OCCUPATIONS EDUCATION: A REVIEW OF THE LITERATURE.

Wilma Gillespie and Jeannette Redford, 200 pp., 1980, \$11.00. IN 216.

Contains a review and synthesis of health occupations education covering philosophy, human resources, program planning, curriculum development, learner strategies, continuing education, evaluation, student services, and career education.

ACTION ITEMS

IMPROVING ERIC INDEXING

Over the last few months, increasing numbers of indexing "errors" have been noticed during the editing of RIE. These indexing discrepancies go considerably beyond the use of invalid or "dead" Descriptors (a matter addressed in the August 1980 EAB). Because there is a concern that the quality of indexing might continue to decline unless action is taken, the lexicographic staff at the Facility undertook an intensive review of all input for the April RIE. (Some examples from the February CIJE have also been included.) The complete report appears as Attachment 1. Specific areas for which detailed examples appear in the report are:

1. Scope Notes are often being ignored.
2. Major concepts treated by the document are too often overlooked in indexing.
3. Mandatory educational level terms, when applicable, are not being used consistently and not to the appropriate degree of specificity.
4. The important rule requiring indexing to the specific level of subject matter dealt with by the document is often disregarded, and the wrong level frequently selected.
5. Very broad top-of-the-hierarchy terms, such as those listed in the "Indexing Section" of the revised *ERIC Processing Manual* (page 45), are being used much too often, contrary to the instructions in that section.
6. Indexing is often not being done for the whole document on behalf of the entire ERIC network. Documents, either overlapping or on the fringes of a particular Clearinghouse's concerns are frequently not indexed to reflect the overlapped Clearinghouse's concerns. Often such indexing gives only "lip-service" to an overlapped Clearinghouse's terminology, and some documents are indexed with no such terminology at all, thereby reflecting only the viewpoint and "tunnel vision" of the one Clearinghouse in possession of the document. Indexing is either too general (i.e., use of terms such as "Reading," "Mathematics," etc.) thereby limiting search capability, or it is inappropriate (i.e., second language terminology used to index documents dealing with native language instruction). Two areas of greatest concern are documents dealing with bilingual education and education of the disabled.

The Facility has not the mandate nor funding to review comprehensively the indexing of the sixteen ERIC Clearinghouses for each issue of RIE and to make the necessary corrections. Obvious indexing errors are always corrected; however, it is primarily a Clearinghouse responsibility to index according to ERIC guidelines and to follow the *Thesaurus* and *Identifier Authority List*. Attachment 1 describes some specific corrective actions that you are asked to consider.

...Carolyn Weller (ERIC Facility)

VOCABULARY STATUS REPORT

The March 1981 *Vocabulary Status Report* (VSR) is displayed as Attachment 2. It contains "feedback pages" for the previously issued January 1981 report, as well as several pages of new recommendations received by the Facility lexicographic staff between February 10 and March 11. Each member of the Vocabulary Review Group should vote "aye" or "nay" on the new recommendations and return his/her responses to the Facility by April 17. It is unnecessary to return the feedback pages.

Respondents to the January 1981 VSR were:

CATALOGING WORKBOOK

During 1981 the Facility will be working on a "Cataloging Workbook" for use in training sessions. Since the Workbook is visualized as made up primarily of sample title pages (and other sample cataloging "problems") followed by their "solutions," we are on the lookout for documents that will provide good "problems." If the Clearinghouses have any such examples that they think would be useful to include in the cataloging workbook, we would be grateful for copies. Also, if any Clearinghouses have already prepared cataloging-training materials we would much appreciate the opportunity to review them for possible useful examples.

... Ted Brandhorst (ERIC Facility)

ERIC PROCESSING MANUAL—THE EDITORS' NOTEBOOK

GEOGRAPHIC SOURCE OF DOCUMENT—CATALOGING RULES

The GEO data element is intended to indicate the country of origin of the document. It answers the basic question "Where did the document come from?" Usually the country of origin is identical to the place of publication. Cataloging problems arise with some of the fugitive literature that is not formally published. For example, Clearinghouses frequently have problems deciding the appropriate GEO tag for papers presented at meetings. The author may have been at location A when he produced it, location B when he presented it, and be employed at location C now. In such a case, location A is the best choice for the document's origin. Locations B and C are essentially fortuitous. They both came after the document was produced and therefore should not decide the GEO tag unless location A cannot be determined.

Another situation that sometimes presents a problem is the case of a document produced at location A but distributed from location B. Again, location A is the best choice as the document could presumably have been distributed from any number of locations.

Interestingly, the documents that cause the most problems in deciding the GEO field are probably the ones for which the field is least important. One of the principal purposes of the data element is to be able to pull from the ERIC file subsets of documents that represent the input from, say, given states of the United States. The "papers presented at" and other documents that sometimes look a little "homeless" are usually not the materials of prime interest in such subsets.

The additional guidance provided here will be incorporated into the "Cataloging" section of the revised *ERIC Processing Manual*.

...Christine Taylor (ERIC Facility)

SOURCE NAME/CODE PROBLEMS

The Facility continues to receive many resumes suggesting that new source names/codes be developed for organizations that are already in the *Source Directory*. This takes extra time at our end to do this checking and tends to defeat the purpose of the *Source Directory*.

Some of the problems are due to failure to use the monthly Supplements issued in between the quarterly editions. Other examples are simply due to not looking far enough in the main *Source Directory* itself.

In addition to failure to identify an existing organization name, many Clearinghouse requests are for an unnecessarily small subdivision of an existing organization. Please remember that if the parent organization is already only of modest size, it is not necessary to go below that level.

...Julie Holladay (ERIC Facility)

FAREWELLS

CAROL CWITS CAPS

*It's been 12-plus years since to CAPS I first came,
Thesaurus in hand to learn ERIC's game.
I've learned a lot, and it's been fun;
Now it's time to leave, and head west to the sun.*

*You've all been great, you've all been friends,
But, as in a book, this chapter now ends.
I move on to another place
And Helen M will fill my space.*

*Thank you, ERIC, for an experience rare,
For VIP and Tech Meetings, for fun we could share.
Knowing you all has been my pleasure—
A memory I shall always treasure.*

*We're off to Arizona with azure skies,
With caverns and canyons and mountains that rise.
And, so, a fond farewell to you—
Aloha! Au Revoir! Sayonara! Adieu!*

Love to all—

...Carol Jaslow (CG)

NETWORK NEWS

DIALOG TRAINING SESSIONS RECOMMENDED

I recently completed an outstanding DIALOG Seminar and highly recommend it to Clearinghouse personnel (especially indexers, who need to be knowledgeable about computer searching techniques) and other ERIC users who would find this kind of information valuable. The training course is being offered at Lockheed's Washington office, conveniently located a block away from a Metro stop at 1901 N. Moore Street, Rosslyn, Virginia. An "open session," which runs one-half day, is followed by one full day per seminar on the following dates in June:

- June 2-3,
- June 11-12,
- June 22-23,
- June 24-25,
- June 29-30.

The cost is \$65 per person for the session, including lunch the second day. Some of the advantages of this open session which make it worthwhile are:

- each seminar is limited to 12 people;
- one terminal is provided for every 2 people, so there is ample "hands-on" experience;
- the training personnel are tenured DIALOG personnel and are both well trained teachers and experts in the retrieval system.
- each participant is given an excellent packet, including a catalog of all DIALOG data bases and the DIALOG System Seminar handbook.

For more information, call Ann Caputo at (703) 872-5971 in Rosslyn, Virginia.

...Judi Conrad (Central ERIC)

ERIC FACILITY EDITORIAL DEPARTMENT UNDERGOES MAJOR CHANGES

The ERIC Facility Editorial Department underwent some major changes in January when Lee Schreiber, the Senior Editor for the last two years, retired. Christine St. Lawrence Taylor was appointed acting head of the Department and Mrs. Rochelle Siegel was transferred from ORI's GAO Project to complete the roster. The new lineup of Taylor, Holladay (Julie), and Siegel immediately set to work to get RIE firmly on schedule. With the assistance of Sandra Hixson of the Computer Systems Department, this was accomplished in remarkably short order and the group was able to give Kit Welsh a much appreciated going away present of an on-time and trouble-free March issue, to pass along to her successor. The Facility much appreciates the resolve of the new editorial team and hopes that the Clearinghouses will benefit from their energy and interest.

...Ted Brandhorst (ERIC Facility)

IDENTIFIER AUTHORITY LIST (IAL)

By now all ERIC components should have received the new March 1981 IAL. Additional sales copies are available to Clearinghouses as well as to ERIC users for \$10 postpaid.

...Carolyn Weller (ERIC Facility)

NASSP SEEKS COLUMN FOR NEW JOURNAL

Responding to growing interest in middle/junior high schools, the National Association of Secondary School Principals soon will launch a new bimonthly periodical, *Schools in the Middle*.

In January, George Melton, NASSP's Executive Director, requested of Director Philip K. Piele (ERIC/CEM) that the Clearinghouse contribute a brief digest of research applicable to the middle school setting for each issue of the new journal. Dr. Piele complied, and the staff quickly prepared the first contribution, a summary of results of a study of seventh and eighth graders' attitudes toward disabled students.

Towards the end of March NASSP intends to mail the first issue of *Schools in the Middle* to about 12,000 of its members in middle and junior high schools.

...Stuart Smith (EA)

ERIC/EC INITIATES COOPERATIVE EXCHANGE WITH NARIC

In January the ERIC Clearinghouse on Handicapped and Gifted Children (EC) contacted Eleanor Lynch Bisco, recently appointed Director of the National Rehabilitation Information Center (NARIC), because of EC's concern that many fine documents in the areas of rehabilitation and developmental disabilities are rejected as being peripheral to the field of education.

The initial telephone contact resulted in a visit by Eleanor Bisco to ERIC/EC on January 14 to review mutual scope problems and Clearinghouse activities. Subsequently, Eleanor Bisco invited ERIC/EC to exchange personnel for a day in mid-March. The agenda includes a general orientation to NARIC operations and a one-on-one sharing between counterparts. Plans for specific follow-up exchanges should emerge from this staff experience.

...Marion Cambel (EC)

ERIC ONTAP TO BE REVISED

As we all know, the ERIC data base has been reloaded on the major retrieval systems (DIALOG, BRS, ORBIT). File 201 on DIALOG is called ERIC ONTAP, a subset of ERIC (only 1975 references), which can be used for training and practice. The ONTAP file contains several queries at simple, moderate, and difficult levels, together with "correct" answer sets against which the searcher's results can be compared.

The DIALOG staff intend to reload File 201 to reflect the new *Thesaurus*, new data elements, etc., and have asked ERIC/IR to coordinate an update of the queries which are searched on this file. (Should some queries be deleted and others added? Should the "correct set" be changed so that searchers' results would be compared with a set different from the current answer set?)

At the same time that we assist DIALOG, we will begin to revise and update the IR publication, *ONTAP: Online Training and Practice Manual for ERIC Database Searchers*. You may remember that this publication had to "force" some of the sample searches to fit individual Clearinghouse scopes because the DIALOG file was already in place. Now is the opportunity for the Clearinghouses to devise new queries which better reflect their content areas.

Ergo, we would like help from other Clearinghouses which might want to revise or add a query in their subject area (s), which might want to look at the ONTAP publication and suggest different search strategies, etc. In return for this help, we will provide a DIALOG password for one hour's worth of online searching. To get underway, anyone can search File 1 and restrict the results to 1975 with the following set: "S JA=RIE???75 OR JA=CIJ???75".

If interested, and willing to help during the next month or so, please write Pauline Cochrane at ERIC/IR, or phone the Clearinghouse at (315) 423-3640.

...Bruce Clark (IR)

A BIT OF HISTORY ON ERIC SOURCE CODES

Recently, a Clearinghouse indexer/cataloger raised the question as to why there are two different kinds of source codes in the *Source Directory*—one of a varied 3-letter configuration, e.g., RMQ66000, and the other, by far the majority, of a basic "BBB" configuration. While both prefix types are valid today, the former goes back to the 1966-69 period when source codes were used for:

- Alphabetical sorting of the *Source Directory* and *Institution Index*;
- Geographical sorting of the master file (the function now performed by the "GEO" data field).

The first function was a characteristic of the early, unsophisticated ERIC computer system in which alphabetization was based on the source code numbers, rather than the actual letters in the name of the source entry, as practiced today. Low numbers (e.g., XPT00055) fell at the beginning of the alphabet, and high numbers (e.g., ZZU99950) fell at the end. Deviations from this basic order in the current *Source Directory* are due to a 1969-70 conversion of three early source files (structured differently for early publications each having unique index requirements) into the one main file that we know today. For instance, the first old code (page 1) in the current *Source Directory* is:

XPT83094,

for which the early translation was late in the alphabet, as follows:

Texas, College Station. A and M Consolidated Independent School District.

This alphabetization by code often restricted the growth of the early source files. Number ranges had to be pre-assigned, and, if they happened to be used up, new codes couldn't be issued without fouling up the alphabetical sort.

The second function of geographic sorting was made possible by the letters in these old codes. Each state and country (and even an occasional government agency) had its own unique prefix. For example:

New York City Board of Education, Brooklyn, N.Y.,

has the code:

QPX60300.

A perusal of the same page of the current *Source Directory* on which this entry appears reveals that all the entries on the page beginning with New York (hence, located there) have codes either with the prefix QPX or BBB. QPX was the early prefix assigned to New York State.

Both of these original source code functions were eliminated in 1969 with the discontinuance of certain early publications and the advent of the software capability to alphabetize by the actual name of the organization. Since 1969, new codes have been added in simple numerical sequence with the single prefix "BBB" (though any prefix could have been used).

Knowing that the non-BBB prefixes are geographically oriented can sometimes be helpful in deciphering them when the type of the printed *Source Directory* is not quite clear. For example, Montana had an OWL for the code prefix; all OWL codes for that state carry this OWL.

...Jim Houston (ERIC Facility)

NEW PRODUCTS/NEW IDEAS

FREE LANCE ABTRACTOR/INDEXER TRAINING PROCEDURE

The ERIC Clearinghouse on Adult, Career, and Vocational Education has established a successful new procedure for training and supervising free lance abstractor/indexers. These abstractor/indexers work off-site and are paid on a "per document" basis. Prospective free lancers agree to a 30-40 hour training period which includes 2-3 sessions with the staff trainer, who assigns the section of the *Abstractor/Indexer Workbook* to be studied and who evaluates their progress. At the end of the training period, a 1-month contract is negotiated.

Each week, when the documents are brought in and picked up, the abstractor/indexer and the trainer/supervisor discuss problems and progress. At the end of the month, if both parties wish to continue the arrangement and sufficient progress has been made (i.e., less editing and feedback required), a second 1-month contract is negotiated with the remaining training money. Succeeding

1-month contracts are negotiated individually with the rate per document being raised gradually to the standard rate at whatever point documents are ready to go into the regular processing flow without special attention. The procedure allows both free lancers and staff to "try it out" without a long-term investment or commitment on the part of either during the orientation period.

...Janet Thorngate (CE)

ERIC/EC DEVELOPS TOOL TO AID AUTHORS DELUGED BY REQUESTS FOR THEIR DOCUMENTS

The ERIC Clearinghouse on Handicapped and Gifted Children has developed an initial response and a form letter which is designed to help authors whose documents are being processed to cope with document orders.

The Clearinghouse suggests that the author send a form card to requesters which states that availability information will be forthcoming after the document is processed. The author is informed that as soon as the abstract appears in RIE, Clearinghouse staff will send the author two copies of the abstract, one copy of the microfiche, an EDRS order form, a prototype form letter, and a cover letter giving necessary information. The author may adapt the form letter to his/her current needs and respond to requesters by sending a copy of the adapted form letter and a copy of the EDRS order form. Authors usually appreciate this service. One author has become more and more "fancy" with his order information concerning the availability of his documents (now approaching 50), which are in an emerging field.

The cover letter to the author contains the usual directions for ordering from EDRS, plus the following paragraph:

"If you already have received or expect to receive many requests for any document, you might wish to adapt the enclosed form letter to your needs and send it to a requester with a copy you make of the order form."

A copy of the prototype form letter may be found in Attachment 3.

...Marion Cambel (EC)

NEW PUBLICATIONS FROM ERIC/ChESS

The ERIC Clearinghouse for Social Studies/Social Science Education is announcing two new publications which can be ordered from the Social Science Education Consortium, 855 Broadway, Boulder, Colorado 80302.

- The tenth anniversary of the *Data Base of Social Studies Materials and Resources* (an annual review of new curriculum resources) is marked with the publication of the 1981 volume (SO 013 077). Edited by Laurel Singleton, the 1981 *Data Book* contains detailed analyses of 53 sets of new students materials as well as descriptions of resources in the ERIC system for teachers. (ISBN 0-89994-254-7; \$10.00).
- Also new from ERIC/ChESS and the SSEC is *Ethnic Studies Sampler: The Best of the Title IX Project Materials* (SO 013 154), edited by Frances Haley, which contains selections and reprints from materials

produced by projects funded under the Ethnic Heritage Studies Program, Title IX, ESEA (ISBN 0-89994-251-2; \$20.00).

...Ann Williams (SO)

SCOPE-SPECIFIC RETRIEVAL GUIDES

Some Clearinghouses have developed scope-specific retrieval guides which have proved to be both useful and popular. For example, RC and FL have developed retrieval guides for their Mexican American, American Indian, and foreign language users, respectively.

Because these guides should be: (1) updated to reflect the new *Thesaurus*, (2) used systemwide, and (3) shared via development with the Lexicographer, we are requesting that you let us know if you have developed or intend to develop such a guide and, if developed, what measures you intend to take for updating, sharing, etc. Please send responses to Judi Conrad at Central ERIC.

...Judi Conrad (Central ERIC)

IMAGES: A GUIDE TO FUTURIZING YOUR CLASSROOM—A BESTSELLER AT ERIC/CAPS

The ERIC Clearinghouse on Counseling and Personnel Services has a new Futures resource entitled *Images: A Guide to Futurizing Your Classroom* and it has proved to be a runaway bestseller. As of March 1, 1981, 63 copies had been sold at \$25 each. *Images* is a looseleaf notebook with a bright, attractive cover and is structured to help educators prepare their students for living in the world of tomorrow.

Images was advertised in December 1980 by sending a brochure to the mailing list of the World Futures Society of 1,500 members and by printing an article in the CAPS newsletter (with a readership of 7,000). The initial printing was 114 copies and after the annual spring mailing campaign to promote 1981 publications is completed to 50,000 addresses, it may well sell out. A reprint is anticipated.

PERSONNEL NEWS

NEW ASSOCIATE DIRECTOR AT ERIC/RCS SPEECH MODULE

The Speech Module at the Speech Communication Association welcomes Don M. Boileau, formerly an Associate Professor of Speech and Dramatic Arts at Central Michigan University, as its new Associate Director.

...Mary K Monteith (CS)

DON ELY IN THE NETHERLANDS

Don Ely, Director of the ERIC Clearinghouse on Information Resources, has forsaken the joys of winter in Syracuse this year to spend five months at the University of Twente in Enschede, Holland, assisting in setting up a new department of Educational Technology. He writes that he has been developing an introductory course in Ed Tech, conducting colloquia, producing videotapes, and holding sessions of the Instructional Development Institute. He also notes that ERIC is alive and well in the Netherlands, and that he has been flying the ERIC flag every chance he gets.

MEETINGS, CONFERENCES, SPEAKING ENGAGEMENTS

CS PRESENTATION ON ERIC RESOURCES FOR WRITING TEACHERS

Fran Lehr and Bob Lange, at the ERIC Clearinghouse on Reading and Communication Skills, gave presentations at teacher inservice meetings in both Champaign and Urbana, Illinois in late February. The topics covered in their presentations were: (1) practical materials for writing teachers, and (2) the results of the National Secondary School Writing Project. ERIC resource rooms and materials from all ERIC Clearinghouses were also made available.

ERIC/EC MEETS WITH GIFTED/TALENTED LEADERS

The ERIC Clearinghouse on Handicapped and Gifted Children co-sponsored (with CEC) a half-day meeting on February 23, which brought together a number of recognized specialists in the education of the gifted and talented. The Department of Education's Office of Gifted and Talented was represented by Martha Bokee, Rheable Edwards, and Gail Beaumont. Frances Karnes, President of The Association for the Gifted (TAG) and Joyce Jontune, President of The National Association for Gifted Children (NAGC) were both present and spoke on behalf of their associations.

The National Association of State Boards of Education has a special interest in the gifted and was represented by Patty Bruce Mitchell, Mary Henri Fisher and Jon DeWitt. Suzanne Richard and Jim Alvino spoke on behalf of the Educational Improvement Center—South of Sewall, New Jersey. The National Institute of Education sent Cheryl Chase, Judi Conrad, and Toni Haas to participate in the discussion while CEC was represented by John Crossi, Gifted Specialist, and a majority of its senior management staff.

This meeting concentrated on resources available to parents and educators who are involved with gifted students. The EC Clearinghouse was a major presenter.

WORLD HUNGER SEMINAR

The Presidential World Hunger Commission will hold seven seminars throughout the United States to publicize the findings of the Commission. One of the seven seminars was held at New Mexico State University on February 18-19, 1981.

The ERIC Clearinghouse on Rural Education and Small Schools developed a 7-page handout showing how many citations were in ERIC dealing with world hunger and listing the ERIC microfiche collections and RIE subscriptions located in foreign countries. These handouts were distributed to participants in the seminar packets.

Betty Rose D. Rios and Amelita Hill attended the Presidential Breakfast and staffed an ERIC information booth.

REVIEW OF ERIC INDEXING—APRIL RIE AND FEBRUARY CIJE

—Carolyn Weller (ERIC Facility)*

INTRODUCTION

Over the last few months, concern has been building about the increasing occurrences of faulty indexing, i.e., incorrectly used Descriptors, under-indexing, inconsistent indexing, and other indexing not in accordance with the *ERIC Processing Manual* (EPM) guidelines. This concern led the Facility lexicographic staff to do a comprehensive review of one month's indexing for both RIE and CIJE. The April 1981 issue of RIE was selected because it was a 4-week issue, and input was relatively light—946 resumes. The published February 1981 issue of CIJE was also reviewed.

All indexing errors noted below for the April RIE were corrected by the Facility lexicographic staff during the "pre-pub" editing cycle. The February CIJE has received no post-publication corrections, and all CIJE errors noted below currently exist on the master file.

PROBLEMS

The specific problems that have been identified fall into the following areas:

1. Scope Notes are often being ignored.
2. Major concepts are often overlooked in indexing.
3. Mandatory educational level terms are not being used properly. (Since the status of the mandatory age levelers is currently being questioned by the Ad Hoc Committee on Mandatory Leveling Descriptors, a review of the use of age levelers was not done.)
4. The rule requiring specificity in indexing is often being disregarded.
5. Very broad top-of-the-hierarchy terms are being used much too often.
6. Indexing is often not being done for the whole document on behalf of the entire ERIC network.
7. Variants of Descriptors or the Descriptors themselves are appearing in the Identifier field.
8. Some terms are simply being overused unnecessarily.

Each of the above problem areas has been reviewed and examples chosen from all Clearinghouse input for:

- 1) April RIE—Clearinghouse Accession Numbers cited in those instances;
- 2) February CIJE—EJ Numbers cited followed (or preceded) by the Clearinghouse prefix.

*Gripes, comments, complaints, etc. should be directed to the author.

Some Clearinghouses are represented more frequently in one area than another. This is because several Clearinghouses had relatively light input, have steadily maintained some degree of quality control on indexing, or did not have problems for the particular input included in the review. Absence of input data from a given problem area in no way means that a particular Clearinghouse has no difficulty in that area and need not be concerned with the problem.

1. Scope Notes Are Often Being Ignored.

The Vocabulary Improvement Project (VIP) found abundant evidence that in the past Scope Notes had frequently not been followed. The current review indicates that this problem has not gone away. Every effort should be made to observe Scope Note limitations. Continuing term misuse will have serious repercussions on retrieval and file management as the data base continues to expand. Several Descriptors are regularly being misused by indexers at many of the Clearinghouses:

a. ART EDUCATION

Scope Note: *Education in one or more of the visual arts.*

This term was scoped in the new *Thesaurus*. For the April RIE, it was incorrectly used 100% of the time to cover the total broader area of the Fine Arts. Some examples:

- CE 027 v 8
Abstract of document clearly covered all of the fine arts, not just the visual arts. The Descriptor FINE ARTS had not been used.
- EC 130 846
Title: Arts in Education.
Abstract read "...utilizes all the arts (visual arts, drama/theater, dance/movement, music)."
Descriptor ART ACTIVITIES (also limited to visual arts) also used incorrectly.
- JC 800 617
Title: Humanities through the Arts.
Abstract referred to "...aural, tactile, and visual means by which artists share their experiences..."
Descriptor ART EDUCATION was inappropriate since all arts, not just visual, were treated; while ART EXPRESSION and ART, applying to all of the arts, were appropriate.

Since even the Clearinghouse that includes "Art Education" in its scope (S0) is having difficulty correctly using the terms ART EDUCATION and ART ACTIVITIES, a change in the Scope Notes of both terms has been requested. (See *Vocabulary Status Report* in this issue of the EAB, Entry #1070.)

b. ENVIRONMENTAL INFLUENCES

This term was a much discussed topic during the VIP, and its correct usage has not been followed since the new *Thesaurus*. Its Scope Note is

intended to restrict the term to the influence of the physical environment, i.e., weather, climate, pollution, etc. A review of the Subject Indexes for February CIJE and February RIE reveal so much misuse of this term that it is impractical and unnecessary to single out a particular Clearinghouse's errors. It is suggested that each Clearinghouse simply consult these indexes and see how far the term's usage has strayed from the physical environment context.

c. OLDER ADULTS

Scope Note: *Aged 65 years and older.*

UF: Aged, Elderly, Old Age, Senior Citizens.

A rose is a rose is a rose, but "older adults" in one ERIC document or article may not be the same as "older adults" in another document. Some examples of documents to which OLDER ADULTS was assigned incorrectly are:

- CG 014 797
Document was about preretirement individuals—middle aged adults 45-64.
- EJ 231 642 (CG)
Title: The Older College Student as Viewed by Younger Peers.
Annotation: Results indicate that students under 28 rate students over 35...

The concepts "older workers" or "older adults" should not be automatically converted to the Descriptor, OLDER ADULTS. This term is being misused at least 50% of the time. MIDDLE AGED ADULTS is the term that should be considered for use especially when dealing with future retirement plans. Since there are no terms specifically covering the age range of 31 to 44, the term ADULTS must be used for this group. When the document is concerned with the older work force, the Identifier "Older Workers" should be used, supplemented by a particular age level Descriptor if an age or age range is specified. When the document deals with college students, the Descriptor NONTRADITIONAL STUDENTS can be used to cover students beyond the typical age range.

d. YOUNG ADULTS

Scope Note: *Aged 18 through 30 years.*

At the opposite end of the adult age spectrum, this term is frequently used in the fields of English education and library science as a euphemism for adolescents in their upper teens, e.g., the American Library Association has a division for "young adults" that actually serves students of high school age. Obviously, if a document referring to "young adults" is really about adolescents, then YOUNG ADULTS should not be used as a Descriptor. Example:

- EJ 231 961 (CS)
Title: "Young Adult Literature..." *English Journal* (a journal intended for English teachers at the secondary level).
Descriptors Assigned: ADOLESCENT LITERATURE; YOUNG ADULTS
(Latter term should be corrected to ADOLESCENTS.)

The failure to follow the Scope Notes in indexing is not limited to the foregoing terms. Other Descriptors which were used incorrectly in the April RIE are:

- PS 011 862 LEARNING CENTERS (CLASSROOM)
- SP 017 146 LOCAL NORMS used instead of STATE NORMS for Canadian province norms.
- UD 020 970 DEVELOPMENTAL STUDIES PROGRAMS applied to a secondary program, grades 7-10. (This term is restricted to the postsecondary level.)

Scope Notes should be adhered to. When terms in the document have different meanings than their counterparts in the *Thesaurus*, then the indexer must find other (right) terms. Pure "word indexing" must be avoided. Part of the misuse of terms seems to be the result of indexing strictly from the Rotated Display. Terms should always be checked in the Alphabetical Display to assure conformity to the Scope Notes. Expansion of Scope Notes for terms that take on additional meanings over time may be requested via the Vocabulary Review process, but, in the interim, existing Scope Notes should be followed. Uncertainty about the meaning or coverage of a Scope Note can usually be resolved by looking at the term's full display.

2. Major Concepts Are Frequently Overlooked in Indexing

The title of the document usually bears some clue as to the principal subject matter. Normally, the concepts in the abstract of a document are reflected in the Descriptors or Identifiers assigned. The following examples all had a major concept missing:

- CS 005 764 (MAY RIE)
Is Visual Information Processing Related to Reading?
Missing Descriptor: COGNITIVE PROCESSES.
- CS 205 996
Mothers and Daughters in the Fiction of Joyce Carol Oates...
Missing Identifier: "Daughters"
MOTHERS was included as a Descriptor.
- CS 503 131
Effects of Aging...
Missing Descriptor: AGING (INDIVIDUALS).
- EA 013 094
A Look at Virginia Public Education.
Missing Descriptor: PUBLIC SCHOOLS.
- EC 130 852
A Guide for Exceptional Children and Youth.
Missing Descriptor: GIFTED.
Document covered both disabled and gifted.
EC tends not to use EXCEPTIONAL PERSONS.

- SO 013 020
Effects of Computer Oriented Student Research.
Missing Descriptor: STUDENT RESEARCH.

In almost all of the examples found of a missing major concept, an existing Descriptor could have been used. Perhaps the main concept is in the indexer's head and is so obvious that he or she simply forgets to write the term down.

3. Mandatory Educational Level Terms, When Applicable, Are Not Being Used Consistently and Not to the Appropriate Degree of Specificity.

It is estimated that 85% of all ERIC documents can easily have a mandatory educational level Descriptor assigned. Articles in CIJE are also required to have an educational level assigned in indexing. The following list of selected examples indicates that the failure to assign a leveling term is greater in CIJE than with RIE but that too frequently "mandatory" is not being taken seriously. Almost all of these examples have a population or other term which indicates an educational level.

<u>ACCESSION NUMBER</u>	<u>TERM MISSING</u>
(CE) EJ 231 514 EJ 231 517	TWO YEAR COLLEGES PRESCHOOL EDUCATION
(CS) EJ 231 955	HIGH SCHOOLS
(IR) IR 008 979 IR 008 968 EJ 232 507 EJ 232 539 EJ 232 642	HIGHER EDUCATION HIGHER EDUCATION TWO YEAR COLLEGES HIGHER EDUCATION HIGHER EDUCATION
(PS) PS 011 275 PS 011 747 PS 011 854	ELEMENTARY EDUCATION ELEMENTARY EDUCATION ELEMENTARY EDUCATION
(RC) EJ 232 769 EJ 232 770 EJ 232 801	HIGHER EDUCATION HIGHER EDUCATION JUNIOR HIGH SCHOOLS
(SE) SE 031 474 EJ 232 915	ELEMENTARY EDUCATION INTERMEDIATE GRADES
(SP) EJ 233 106 EJ 233 150	HIGHER EDUCATION JUNIOR HIGH SCHOOLS
(TM) EJ 233 281	HIGHER EDUCATION

The Clearinghouses that seem to be most consistently assigning the mandatory educational level terms generally make a practice of assigning them as the first term in their indexing so that they will not be overlooked. Specificity in selecting the proper educational level is most often ignored for PRIMARY EDUCATION or INTERMEDIATE GRADES, with ELEMENTARY EDUCATION assigned instead. SECONDARY EDUCATION is also used frequently when either JUNIOR HIGH SCHOOLS or HIGH SCHOOLS would be better. When the document applies to all educational levels, of course, no level terms should be used.

4. The Fundamental Principle of Coordinate Indexing Is to Index at the Specific Level of the Subject Matter of the Document in Hand.
(See Indexing Section of EPM, p. 39-42.)

There is a tendency too often to go with BT's even when available NT's are precisely on target. During the VIP, many BT's had the note added "Use a more specific term if possible." However, such notes appear to be largely ignored.

Frequently both BT and NT are indexed. While this may sometimes be appropriate, such occasions are less frequent than current indexing would suggest. Some examples of "specificity" errors are:

PS 011 747	REINFORCEMENT	used instead of	POSITIVE REINFORCEMENT.
PS 011 834	CHILDREN	used instead of	YOUNG CHILDREN.
SE 033 406	SURVEYS	used as a Major instead of	STATE SURVEYS.
UD 020 999	SURVEYS	used instead of	STATE SURVEYS.

Other examples of broad Descriptors used in lieu of more specific Descriptors are:

- CURRICULUM GUIDES instead of STATE CURRICULUM GUIDES.
- IDENTIFICATION instead of NT's HANDICAP IDENTIFICATION, CLINICAL DIAGNOSIS, and ABILITY IDENTIFICATION.
- ADMINISTRATION instead of NT's EDUCATIONAL ADMINISTRATION and PROGRAM ADMINISTRATION.
- POLICY instead of EDUCATIONAL POLICY, PUBLIC POLICY.
- BIAS instead of TEST BIAS, STATISTICAL BIAS, or SOCIAL BIAS (or its NT's)
- DISABILITIES instead of PHYSICAL DISABILITIES, BLINDNESS, DEAFNESS, etc.
- FEMALES instead of or in addition to EMPLOYED WOMEN, PREGNANT STUDENTS, MOTHERS, etc. (PREGNANT STUDENTS was recently added as an NT to FEMALES.)

5. Very Broad Top-of-the-Hierarchy Terms Are Being Used Much Too Often, Contrary to Instructions in the EPM. (See examples listed in the "Indexing Section," p. 45.)

Among the current indexing "favorites" are ACHIEVEMENT, PLANNING, PROGRAMS, STANDARDS, but the most popular are TESTING and TESTS with the newcomer, as of the Revised *Thesaurus*, INFLUENCES leading the list. Top-of-the-hierarchy Descriptors exist mainly for structural purposes.

(In some data bases, such terms are not postable at all.) All carry as part of the Scope Note "Use a more specific term if possible." The Descriptor TESTS has 29 possible direct NT's to select from in order to achieve greater specificity and INFLUENCES has 23. Used alone in indexing, these terms convey relatively little to the ERIC user. Moreover, deletion or merging of the "old favorites" SCHOOL PLANNING, PROGRAM PLANNING, and CURRICULUM PLANNING did not give license to go to the still broader term.

MEASURES (INDIVIDUALS) is a top-of-the-hierarchy term not on the list on p. 45. It was not included on the list because the staff never expected the term to get much use. During the VIP indexing, no hits were identified and thus no postings were available for the Oryx *Thesaurus*. Since that time, 123 postings have occurred. Since not even the TM Clearinghouse could find postings for the term originally, one wonders why all the postings are occurring.

6. Indexing Is Often Not Being Done for the "Whole Document" on Behalf of the Entire ERIC Network.

Documents, either overlapping or on the fringes of a particular Clearinghouse's scope are frequently not indexed to reflect the overlapped Clearinghouse's concerns. Often such indexing gives only "lip-service" to an overlapped Clearinghouse's terminology, and some documents are indexed with no such terminology at all, thereby reflecting only the viewpoint and "tunnel-vision" of the one Clearinghouse in possession of the document. Indexing is either too general (i.e., use of terms such as READING, MATHEMATICS, etc.) thereby limiting search capability, or it is inappropriate (i.e., second language terminology used on documents dealing with native language instruction).

"Tunnel-vision" indexing can frequently be attributed to an over-reliance by certain Clearinghouses on limited term lists. Such lists are developed primarily for Clearinghouse users interested in a limited number of terms for retrieval. The problem comes when indexers get hold of these lists and use them in the indexing process. Clearinghouses are ill-advised to use limited term lists in ERIC indexing.

Two areas currently causing the greatest concern are those dealing with bilingual education and education of the disabled. Since the flow of documents tends to follow the emphasis of federal funding or regulations, these subjects are appearing in documents from all sixteen Clearinghouses. These areas are currently of great interest to many ERIC users and the major concepts, ideas, and "buzzwords" must be reflected in the indexing.

The ERIC network has several aids available to assist indexing of documents overlapping in scope. Documents processed via the ERIC Facility are marked with a Scope Overlap Sticker (see EPM, Section 4: Handling, p. 3-4). This sticker should remain affixed to the document until the document has been indexed and abstracted. It provides

information as to which Clearinghouses probably have an indexing interest in the document. Indexers then can consult the *ERIC Clearinghouse Scope of Interest Guide* which not only lists the scope coverages of all Clearinghouses, but provides a list of "applicable terms" used by each Clearinghouse.

The following examples illustrate "lip-service" (a), "tunnel-vision" (b), or misuse of terminology (c):

- CE 026 941 (c) ENGLISH INSTRUCTION used on a document about English as a Second Language.
- (CE) EJ 231 600 (b) Document on Cree Tribe missing AMERICAN INDIANS, CANADA NATIVES.
- CG 014 792 (c) SELF CARE SKILLS (a term intended for disabled persons) used on a document about pregnant students.
- (CS) EJ 231 993 (b) AFRICAN LANGUAGES, "Kikongo," and/or BANTU LANGUAGES omitted on document about reading Kikongo.
- (EA) EJ 232 058 (c) SPECIAL EDUCATION should be removed; article appears to cover only disabilities, not gifted.
- EC 013 856 (a) EMPLOYMENT used instead of EMPLOYMENT PRACTICES.
- (EC) EJ 232 294 (a) BEGINNING READING needed.
- (FL) EJ 232 354 (c) ESKIMOS should have been added and the Identifier "Inuits" excluded.
- (FL) EJ 232 355 (c) LANGUAGE ACQUISITION used on English as a second language document.
- (HE) EJ 232 465 (a) Educational leveler too broad; TWO YEAR COLLEGES needed.
- IR 008 954 (c) EXCEPTIONAL PERSONS removed; term includes gifted which were not covered in the document.
- (IR) EJ 232 665 (a) INDIVIDUALIZED EDUCATION PROGRAMS should be added. (Since the term may not have graduated to Descriptor status at the time of indexing, the Identifier should have been added. IEP's are a very important aspect of mainstreaming activities and should be indexed.)
- PS 011 850 (a) BILINGUALISM added.
- RC 012 384 (b) Identifier "Teacher Burnout" added; this is a topic of current interest.
- SE 033 225 (b) NORTH AMERICAN HISTORY added; document dealt with prehistory of the North American continent, specifically Kentucky, Illinois, etc.
- SO 012 976 (a) PHYSICAL DISABILITIES removed; document dealt solely with visual impairments.
- (SO) EJ 233 031 (b) READABILITY should have been added.

- SP 017 158 (c) DAILY LIVING SKILLS removed; document dealt with the field of education broadly and not with the disabled.
- TM 810 028 (a) SECONDARY SCHOOL MATHEMATICS added; document dealt with mathematics at junior high level.
- UD 020 950 (c) LANGUAGE HANDICAPS removed; COMMUNICATIVE COMPETENCE (LANGUAGES) added.
- UD 020 970 (a) READING, MATHEMATICS removed. READING ACHIEVEMENT, SECONDARY SCHOOL MATHEMATICS added along with REMEDIAL PROGRAMS. "Mathematics Achievement" added as an Identifier.

7. Descriptors (and Variants Thereof) Are Appearing in the Identifier Field.

Among the terms transferred: FREE SCHOOLS and ACCULTURATION. Population group Descriptors seem to be ignored and a country name used instead unnecessarily. Two Descriptors added: VIETNAMESE PEOPLE and LAOTIANS.

8. Some Descriptors Are Overused Unnecessarily and Seem to Be Used to Fill Up Space.

Many terms presently being overused have also been heavily posted in the past. Postings for TEACHING METHODS exceed 33,000 and PROGRAM DEVELOPMENT 16,000. Other terms that get "salted" in for good measure are MODELS, BILINGUAL EDUCATION (there are other alternatives for this term), and PROGRAM EVALUATION. While some of these very heavily posted terms are no doubt helpful for online retrieval, indexers should consider whether the users are helped in manual Subject Indexes when these terms appear in such profusion. For example, TEACHING METHODS consumes four 3-column pages in the July-December 1980 CIJE Index alone.

CORRECTIVE ACTION RECOMMENDATIONS

The lexicographic staff has already contacted many supervisors of indexing concerning major indexing problems at individual Clearinghouses. From these conversations it has become evident that action necessary to correct these indexing deviations will vary with each Clearinghouse. However, all Clearinghouses should consider carrying out the following activities:

1. A final review of the indexing by a senior indexer or supervisor. (See attached checklist.)
2. Interaction between user specialists and indexers.
3. Interaction among indexers through inservice training or discussions so that the Clearinghouse is handling its own documents consistently and resolving problem terms.
4. Interaction via phone or visits with Clearinghouses that have overlapping scopes.
5. Regular reviews of CIJE and RIE input after publication. Patterns of indexing practice often are easily detected when input can be reviewed in a large quantity.

6. Frequent checks to determine that all indexers—inhouse or free lance—are using only current copies of all ERIC indexing tools (ERIC *Thesaurus* Alphabetical, Rotated, and Hierarchical displays (all November 1980); IAL (March 1981); pertinent sections of the EPM; updates to the ERIC *Thesaurus* and IAL). In addition, all staff concerned with processing for RIE and CIJE should be on the routing for monthly EAB's.
7. Descriptors which need clarification or expansion of scope should be submitted to the Vocabulary Review Group.

During conversations with some indexing personnel, it has become apparent that some of the indexing errors may be the result of changes in staff, realignment of staff assignments, reduction in staff, etc. Improvement in indexing is possible without a lot of extra effort if indexers will read and use the current indexing tools. Several of the Clearinghouses that had to be contacted immediately when a decline in the quality of their indexing was noted have already taken corrective steps. Some improvement was already noticeable by the end of the May RIE shipments.

INDEXING CHECKLIST

1. Are all concepts in the title and/or abstract represented in the Descriptors (or Identifiers)?
2. Are there Descriptors (or Identifiers) being used that reflect a concept not obviously in the title and/or abstract? Are they justified?
3. Are Descriptors being used in accordance with their Scope Notes and Term Displays?
4. Is a mandatory educational level term present? Is it the most specific level term for the document?
5. Do the Major terms represent the emphasis of the document?
6. Are all appropriate concepts included in the indexing, including those outside of the scope of interest of the Clearinghouse doing the indexing? Is there a balance of Majors across scope areas?
7. Are all significant and important concepts in the document covered by Descriptors (or Identifiers)?
8. Are the Descriptors assigned in conformance with the ERIC *Thesaurus* as to spelling, validity, format, etc.?
9. Have any of the 20 Descriptors that correspond exactly to Pubtype Codes been assigned? (See list on page vii of *Thesaurus Working Copy—Alphabetical Display*.) If so, are they the subject of the document? (This rule applies to Minor as well as Major use.)
10. Have NT's been posted along with same-hierarchy BT's? If so, are both hierarchical levels truly appropriate?
11. Are very broad top-of-the-hierarchy terms being used? (See page 45, Section 7, EPM.) Aren't other terms available which are more specific to the document in hand?

Dear Colleague:

Thank you for your recent request for _____ (title of document)

We are pleased that this document has been selected for inclusion in the Educational Resources Information Center (ERIC) data base.

Microfiche or paper copies of the document may be ordered by sending the enclosed order form with ED No. _____ (supply number), number of pages (supply) and your personal check with the exact amount for cost of reproduction and postage to:

ERIC Document Reproduction Service
P.O. Box 190
Arlington, Virginia 22210

Please note that prices may be changed since the abstract was published in Resources in Education or the order form was published. To be certain of correct prices, you may call the number given on the order form.

Again thank you for your interest. We hope the ERIC system adequately meets your request.

Sincerely,

RIEMAR 81

POLICY STATEMENTS

POLICY CLARIFICATION—SUBMITTING JOURNAL ARTICLES TO RIE

Recently a number of journal articles and serial issues have been submitted to RIE, in some cases at Level 3. Although the ERIC Processing Manual (Section III.C.1) does permit inclusion of theme issue journals on an exception basis, journal articles themselves are unsuitable (Section III.C.3). Unless the entire journal falls under the exceptions noted in the EPM and is of high quality and significance as well as being available at Level 1 or 2, it should be submitted as an entry for CIJE.

...Bob Chesley (Central ERIC)

ACTION ITEMS

VOCABULARY STATUS REPORT

The April 1981 Vocabulary Status Report (VSR) is displayed as Attachment 1. It contains "feedback pages" for the previously issued February 1981 report, as well as several pages of new recommendations received by the Facility lexicographic staff between March 12 and April 10. Members of the Vocabulary Review Group (VRG) should vote "aye" or "nay" on the new recommendations and return their responses to the Facility by May 15. It is unnecessary to return the feedback pages.

Responses on the February 1981 report were received from 20 VRG representatives. "No opinion" votes are not tallied. Nonrespondents were:

- Two Clearinghouses —SE & SP
- One User Representative—G. Edwards

Clearinghouse VRG representatives are once again asked to mail to the Facility an extra copy of their monthly VSR response, along with the originals. Last month only 50% remembered to do this.

...Jim Houston (ERIC Facility)

VOCABULARY DEVELOPMENT PROGRAM

Over the past six months, vocabulary activity across the system has been minimal. The efforts of those Clearinghouses which have generated new terms or modifications are applauded, but full participation by all Clearinghouses is the goal. Directors should make sure that the Vocabulary Status Report is reviewed each month and comments and recommendations forwarded on a timely basis. Further, highly posted Identifiers (10 postings or more) should be reviewed and considered as candidate Descriptors.

We are committed to the maintenance and development of the ERIC vocabulary. This continuing effort is supported in all Clearinghouse budgets at approximately 2-3 percent of overall funding. To insure full participation in this program, each Clearinghouse should review its vocabulary development procedures to make certain that this effort receives appropriate attention.

...Patricia Coulcer (Central ERIC)

WANTED: VOCABULARY FEEDBACK

Not that the Vocabulary Review Group has nothing to do, but it is anxious to know if there are serious Thesaurus problems hiding in Clearinghouses. A part of the National Technical Meeting in June will be devoted to resolving vocabulary conflicts such as the proposed transfer of highly specific language terms to Identifier status. Anyone having further comments on the 1980 Thesaurus or pressing vocabulary problems that need systemwide examination should submit them in writing to Lynn Barnett at HE by May 11.

...Lynn Barnett (Chair, Vocabulary Review Group)

INCREASE IN CIJE CITATION QUANTITIES

Despite the FY81 decrease in funding for processing CIJE articles (which began in January for some Clearinghouses), there has been a significant increase in citations for the first three months of 1981 as compared with the same period of the previous year. The monitors will be in touch with a number of the Clearinghouses to determine the cause and to get future projections. Meanwhile, if Clearinghouses are running ahead of the figures estimated in their proposals, they should be in touch with their monitor in order to discuss ways in which the figures can be brought in line without abrupt transitions.

...Bob Chesley (Central ERIC)

CONTRACT RENEWALS

CONTRACT RENEWALS—RC AND SP

The Government has exercised its third option to renew the contracts for the ERIC Clearinghouse on Rural Education and Small Schools and for the ERIC Clearinghouse on Teacher Education.

- ERIC Clearinghouse on Rural Education and Small Schools (RC)

During the contract year (April 1, 1981 to March 31, 1982) RC will undertake a special project to translate into Spanish two ERIC publications—"How to Use ERIC" and "How to Start an ERIC Collection." Initial distribution is planned for the United States. Further distribution to South and Central America will be done in cooperation with the Organization of American States (OAS).

The following Information Analysis Products and other major publications were approved under the RC contract renewal:

- 1) Continuing a College Education: A Guide for the American Indian Student
 - 2) Special Education and the Mexican American Child
 - 3) A Handbook on Migrant Parents' Rights and Responsibilities
 - 4) Role of the Rural School Principal
- ERIC Clearinghouse on Teacher Education (SP)

During the contract period (March 1, 1981 to February 28, 1981), SP will undertake a special project involving the dissemination of Using ERIC To Solve Educational Problems, a comprehensive resource module for teacher educators.

During the contract year, the Clearinghouse will develop the following four Information Analysis Products:

- 1) Competency Assessment in Teacher Education
- 2) Creating Conditions for Professional Practice
- 3) To Develop and Foster Those Qualities (which will deal with the goals of formal education), and
- 4) PE Teacher Preparation: Making It Work.

...Cheryl Chase (Central ERIC)

NETWORK NEWS

HOW TO ORDER A DOCUMENT FROM EDRS—ADVICE FROM EDRS

Orders can be handled much more efficiently if they cite an ED number. If the order cites only a Clearinghouse Accession Number, it is automatically delayed while we search the cross-reference lists to determine an ED number. If we can't determine an ED number, the order cannot be completed at all. Clearinghouses advising users to order by Clearinghouse Accession Number should understand the potential problems that this may inflict on the user.

It is of the utmost importance to proofread and get accurate the titles and ED numbers cited in your newsletters and other publications. Errors in ED numbers lead to considerable user dissatisfaction with the overall system.

When citing items that are available free from the Clearinghouse, please ensure that these are differentiated from items available from EDRS. We have

been receiving requests for such free materials and the users that have such requests returned are disheartened to say the least.

We also occasionally receive requests for computer searches. Please attempt to educate your users on this point. Such requests should go to either the Clearinghouses or to organizations listed in the Directory of ERIC Search Services (1981 edition).

...Ann Sarles (EDRS)

NEW MONITOR FOR EC

When Judi Conrad joined us last December, she was assigned immediately as monitor to a number of Clearinghouses but was phased in more gradually to the monitoring activities at the Clearinghouse for Handicapped and Gifted Children. That transition is now complete, and as of April 8, full monitoring responsibility for EC has been transferred from Cheryl Chase to Judi Conrad.

...Bob Chesley (Central ERIC)

SEARCHING FOR ARTICLES ON THE "PRESIDENT'S COMMISSION ON FOREIGN LANGUAGE AND INTERNATIONAL STUDIES"

The March 1981 Identifier Authority List gives the official form for the Identifier for this group: Presidents Comm Foreign Lang International Studies. Unfortunately, only the most recent ED's contain this form.

To help you find all relevant documents (I won't bore you with the 8 variations on the theme), the following ED/EJ numbers constitute all records containing the preferred form:

- ED 176 599 ● EJ 198 113 ● EJ 212 573 ● EJ 228 246
- ED 177 904 ● EJ 198 176 ● EJ 231 992 ● EJ 232 341
- ED 188 446 ● EJ 198 177 ● EJ 214 459 ● EJ 234 131
- EJ 192 591 ● EJ 209 586 ● EJ 228 022

In addition, there are several documents that are published by the Commission:

- Their report: ED 176 599
- Background papers: ED 179 117
- Some that discuss the findings at length: ED 180 544
ED 186 305
- Some that simply refer to the Commission's work: ED 163 801
ED 170 288
ED 179 009

The backfile will be changed to reflect the official form of this Identifier at the next file update.

...Mary M. Niebuhr (FL)

ERIC NEWS RELEASE

By now every ERIC Clearinghouse should have received the first copy of the new ERIC News Release describing EDRS price increases. The News Release is distributed to approximately 100 key individuals and organizations to make them aware of significant new ERIC system-related events, such as the revised Thesaurus, new timely ERIC publications, etc. Since timing is important, a news item sent to the Facility can, if necessary, be mailed within 48 hours of receipt. Please keep this excellent dissemination method in mind for future significant events.

...Jim Prevel (Central ERIC)

TECHNOLOGY TRIUMPHS (Almost)

The Central ERIC bimonthly meeting with the ERIC Facility and EDRS was teleconferenced, thereby permitting Oryx Press, IR, PS, and SE to listen in via conference call arrangement. Of the 4 telephone attendees, one reported excellent reception, two fair, and one poor, although the sound was intelligible. This is the first such attempt to foster better communication within the ERIC system via the FTS teleconferencing system. Four different Clearinghouses will be asked to listen in at our next bimonthly meeting. In addition, three sessions at the June Technical meeting will be teleconferenced to all ERIC system components. A letter describing details is forthcoming.

...Jim Prevel (Central ERIC)

MARCH 1981 RIE AUTHOR INDEX HAS DEFECTIVE PAGE (p. 303)

When GPO ran the March 1981 RIE tape through the Videocomp photocomposer they experienced a problem with p. 303 of the Author Index. The problem went undetected and led to the failure to compose the bottom third of the page below "Jewell, Timothy Daniel." This is the first time such a problem has gone undiscovered through the entire printing process in over five years.

Since the upcoming RIE Semiannual Index replaces the individual issue indexes, it was decided not to issue an errata page for the issue. For the benefit of the ERIC Clearinghouses, however, we requested GPO to re-do the bad page. A copy of the correct p. 303/304 is appended as Attachment 2 and may be duplicated for any user requesting it.

...Pat Brown (ERIC Facility)

SUMMARY OF CLEARINGHOUSE CATALOGING PRACTICES

Clearinghouse personnel were very prompt in replying and returning the request for information on Clearinghouse Cataloging Practices. Your thoughtful replies and comments have been compiled and the summary appears as Attachment 3. Your 100% response in the time allotted was greatly appreciated.

...Carolyn Weller (ERIC Facility)

UNIVERSITY MARKETING DEPARTMENT ASSISTS CRESS

In-house sales of Information Analysis Products is a new venture at the ERIC Clearinghouse on Rural Education and Small Schools. Therefore, it was decided to utilize all of the resources available to develop a marketing plan.

The Marketing Department at NMSU was contacted for assistance. It was agreed that one professor would have students from the class use CRESS for their class project. An introductory session was held for the class and work with CRESS will begin in April.

...Amelita Hill (RC)

SEMANTIC ROLES AND ABSTRACT QUALITY

In a recent study, college students wrote summaries of eight short passages as a test of their ability to identify important information. After pairing summaries according to length and original passage, those summaries which judges identified as "better" were found to contain significantly more of the major "Semantic Roles," such as Agent and Instrument, than did summaries judged "not as good." It was also found that students wrote significantly better summaries when instructed to base the summaries on the major "semantic roles" within the passage. These summaries were significantly better than summaries based upon the traditional paragraph analysis of "topics" and "main ideas," and they were significantly better than summaries written without benefit of any special instructions.

The complete article was published as "Effects of Knowledge of Semantic Roles on Summarizing Written Prose," by Steven L. Christopherson, Contemporary Educational Psychology, v6, n1, p59-65, January 1981.

...Barbara Wildemuth (TM)

NATIONAL ASSESSMENT OF EDUCATIONAL PROGRESS (NAEP)

The National Assessment of Educational Progress (NAEP) is an NIE-sponsored project within the Education Commission of the States (ECS).

NAEP has made special arrangements with ERIC to ensure that NAEP documents are indexed by both the general Identifier "National Assessment of Educational Progress" and a second level Identifier indicating the specific assessment involved, e.g., "First Music Assessment (1972)."

The indexing agreements reached between ERIC and NAEP will be incorporated into the ERIC Processing Manual. Attachment 4 consists of the relevant material extracted from the "Identifier" section of the Manual.

It is important to note that the agreement stipulates that NAEP will take responsibility for tagging or otherwise identifying for ERIC the correct Identifiers to use for newly-produced NAEP documents.

...Jim Prevel (Central ERIC)

ABTRACTOR/INDEXER WORKBOOK REVISED—AGAIN

Over the past few months I've received several inquiries about the status of the Abstractor/Indexer Workbook. I can now report that the system has a Version 3. It will be announced in RIE and updated copies will be distributed to the Clearinghouses through the Facility within a few months. We should once again applaud the efforts of Sydney Meredith and Betty Rose Rios. Syd updated all the indexing throughout the Workbook to reflect the new Thesaurus. This involved several hundred changes. Betty Rose reviewed and commented on Sydney's revisions. Thanks to you both!

...Marilyn Shorr (HE)

ERIC/EC A SHOPPER-STOPPER (OR THE BEST OF THEM ALL)

An unusual opportunity to acquaint the Saturday shopper with the effective mission of ERIC occurred April 4, 1981 when the ERIC Clearinghouse on Handicapped and Gifted Children displayed its products at an Exceptional Children's Fair in Tyson's Corner Shopping Center mall. Sponsored by the Northern Virginia Chapter of The Council for Exceptional Children, the fair highlighted Exceptional Children's Week by increasing public awareness of agencies and educational organizations which provide services.

...Marion Cambel (EC)

TEACHER CENTER/CLEARINGHOUSE COOPERATION

In an effort to become more closely attuned to the needs and concerns of classroom teachers, the Clearinghouse has joined in an informal arrangement with the District of Columbia Teacher Center for various activities during the current contract year. Included in the arrangements are:

- training at the Clearinghouse for approximately 25 D.C. school librarians in use and promotion of the EPIC system;
- monthly visits by Clearinghouse staff to participate in Center-developed activities;
- special consideration on use of the microfiche collection by Center clients;
- arrangements for 24 at-cost computer searches for classroom use;
- training for the Center librarian at the Clearinghouse;
- donation of surplus RIE and CIJE copies to the Center library;
- donation of duplicate copies of documents and journals not needed for the Clearinghouse collection.

The first formal activity will be an orientation for the Center staff on the value of ERIC to classroom teachers.

...Michael J. Butler (SP)

ERIC/EECE GETS FEEDBACK FROM SCHOOL LIBRARIANS

Staff of the ERIC Clearinghouse on Elementary and Early Childhood Education presented a session entitled "ERIC for Librarians" at the Urbana Midwinter Conference held February 25-27. Because the session was attended by a small number of interested school librarians, it was possible for staff to talk informally with them about their changing role in the public schools and their views of ERIC. Even recent library school graduates wanted more information about ERIC and how they could take advantage of ERIC services. However, the librarians emphasized that public school personnel are overloaded with work (particularly paperwork) and they expressed doubt that teachers would have time to make use of information unless it was both brief and immediately applicable. This feedback may be helpful to keep in mind when planning ERIC services and products targeted for teachers.

...Janet M. Bowermaster (PS)

JULIET MILLER ELECTED PRESIDENT-ELECT ON NVGA

Juliet Miller, Director of the ERIC Clearinghouse on Adult, Career, and Vocational Education successfully competed for the office of President-Elect, National Vocational Guidance Association (NVGA). Her term will begin July 1, 1981.

...Judith O. Wagner (CE)

AID/DoS COMMENDATION FOR SP

The ERIC Clearinghouse on Teacher Education recently received a commendation from the Agency for International Development/Department of State for its contribution to international understanding and educational improvement in relation to a one-month internship in 1980 for Ms. Annette Smith, librarian of the Caribbean Examinations Council. The internship was arranged through the Administrative Internship Program of the International Council on Education for Teaching.

...Michael J. Butler (SP)

ADOPT-A-LIBRARIAN PROJECT

A CRESS special (non-funded) project for FY80-81 was Betty Rose Rios' brainchild called the "Adopt-A-Librarian" project.

The ERIC system has enjoyed acceptance and success in higher education, but the cost of investing in a complete ERIC collection has been prohibitive for most school districts. This situation has caused great concern among the ERIC components. CRESS is, therefore, looking for strategies whereby existing collections can "adopt" nearby schools and some sort of diffusion mechanism can be developed to share the wealth of knowledge stored in the data base. CRESS hopes its work with our "adoptee" will result in a model transferrable to other settings.

So far, a librarian has been selected and has accepted "adoption." The adopted librarian visited the Clearinghouse for a half-day in-depth training session which included a review of all the materials we were to place in the school system. The librarian arranged a special section in their professional library to house the ERIC materials and these were delivered by CRESS personnel.

The materials which CRESS felt would be of use to the school included the extra microfiche for the old "Disadvantaged Collection" and various other microfiche, RIE's from 1966-1976, IAPs, Title Indexes, Source Directories, Descriptor and Identifier postings, Thesaurus, etc.

The "adopted" librarian plans to hold several in-service workshops for teachers and administrators. CRESS staff has agreed to assist in these training sessions, if the librarian feels insecure in doing them.

...Amelita Hill (RC)

SCARECROW PRESS WANTS CHAPTER ON "INDEXING FOR ERIC" FOR BOOK ON INDEXING

The ERIC Facility has been contacted by Dr. Hilda Feinberg who is acting as general editor of a book on Indexing to be published by Scarecrow Press. Dr. Feinberg is interested in soliciting a chapter on "Indexing for ERIC." She is looking for a knowledgeable ERIC indexer with enough writing experience to create such a chapter and enough of an overview of ERIC to relate the indexing process to the Thesaurus, to Identifiers, and, especially, to the need to index both for the printed subject index and for machine retrieval. The honorarium is limited to \$100 and the chapter would be due "the summer of 1981." Interested parties should contact Dr. Hilda Feinberg, 1685 Ocean Avenue, Apt. 2M, Brooklyn, New York 11230. A list of the chapters and authors planned to date, and a set of guidelines for contributors are available from the Facility upon request.

...Ted Brandhorst (ERIC Facility)

ERIC USER'S TEST

The ERIC Clearinghouse on Tests, Measurement, and Evaluation received the "ERIC User's Test" (see Attachment 5), which has been used as a training tool at Bridgewater State College in Massachusetts. Robert Simmons, the Curriculum Librarian, has granted us permission to reprint it here. If you have trouble with any of the answers, the key is also attached.

...Barbara Wildemuth (TM)

CLEARINGHOUSE ADDRESS CHANGES

Several Clearinghouses have changed location or mailing addresses during the past year. As new Clearinghouse publications are prepared, the new addresses and telephone numbers below should be incorporated, when appropriate.

- ERIC Clearinghouse on Elementary and Early Childhood Education
College of Education
University of Illinois
1310 ~~131~~ South Sixth Street
Champaign, Illinois 61820
(217) 333-1386
- ERIC Clearinghouse on Languages and Linguistics
Center for Applied Linguistics
3520 Prospect Street, N.W.
Washington, D.C. 20007
(202) 298-9292
- ERIC Clearinghouse on Teacher Education
One Dupont Circle, Suite 610
Washington, D.C. 20036
(202) 293-2450

...Bob Chesley (Central ERIC)

ERIC/ACVE PRODUCES OVERVIEW INFORMATION BRIEF

The ERIC Clearinghouse on Adult, Career, and Vocational Education's Information Brief, Overview, which is designed to provide practitioners and students with practical information on current interest topics in education, has a unique feature. In the section entitled "For Further Information..." there is an index box containing ERIC Descriptor and Identifier terms directly and indirectly related to the particular subject. (Terms directly related are indicated by asterisks.) The index box, which amounts to a brief search strategy for the subject, has several functions. Beyond the obvious one of providing the user with a pathway to additional and related information, the box is also a kind of built-in update device for the subject. When current information or strategies for a given program or topic have become dated, or even when they haven't and users simply want to check for new information several months after the Overview publication date, new information can be found quickly and simply by searching the referenced index terms. Further, the box is a very select bibliography of a bibliography; students, as well as practitioners and researchers, have easy access to reviewing all the work done to date on a given subject as it is represented in the ERIC Indexes. ERIC/ACVE feels that the addition of such a box gives the Information Brief a new and vital dimension which should enhance user of the total system.

...David Tipton (CE)

NEW PRODUCTS/NEW IDEAS

JOURNAL MONITOR BOARD UTILIZED BY CG

The ERIC Clearinghouse on Counseling and Personnel Services uses a Monitor Board in addition to a record card file to see at a glance the status of journal

arrivals. Journal titles are listed down the left edge of a poster board, with the months designated across the top. From previous information on journal arrivals (card file, date of arrival on journals themselves, previous Monitor Board), the staff ascertains the probably month in which each journal is likely to arrive, and places a red dot under the appropriate month. When the journal does arrive, it is recorded under the actual month of arrival, noting the issue and date of arrival. If the journal is overdue by more than a month, a form letter is sent to the subscription department requesting the missing issue. With a Monitor Board the staff can keep on top of the journals, assuring that they will be announced in CIJE as promptly as possible.

...Carol K. Jaslow (CG)

CAPS MAKES CONTACT WITH SOC'S VIA NEWSLETTER

In an effort to maintain contact with our Standing Order Customers (SOC's), CAPS periodically compiles information which is then sent in the form of a newsletter, to all our SOC's. We try to include searching hints, Thesaurus tips, and items which are felt to be of interest and help to SOC's. This strategy has helped us stay in touch without spending a great deal of money—the armchair travel approach! A copy of CG's most recent newsletter is displayed as Attachment 6 for your perusal.

...Helen Mamarchev (CG)

SP IAP PUBLISHED BY AAHPERD

Managing Teacher Stress and Burnout, a 1980-81 IAP of the SP Clearinghouse, is being offered for sale by the American Alliance for Health, Physical Education, Recreation, and Dance. Requests should be addressed to AAHPERD Publications, P.O. Box 870, Lanham, Maryland 20801. Order number 245-26878. Single copies \$4.00; 10 or more copies, 5 percent discount.

...Michael J. Butler (SP)

ERIC/RCS PUBLICATION ESPECIALLY FOR TEACHERS

The ERIC Clearinghouse on Reading and Communication Skills would like to call special attention to one of the publications included in the new IAP list this month. Especially for Teachers: ERIC Documents on the Teaching of Reading 1966-1980 is the first in a series of ERIC network published bibliographies based on selected documents from RIE and focused on practical materials for teachers. The document abstracts have been divided into fourteen topical sections, and a subject index based on major ERIC Descriptors and an Author Index are also provided. Similarly focused bibliographies are being prepared by several other ERIC Clearinghouses.

Plans are underway to provide approximately 500 sample copies of Especially for Teachers to state capacity building directors, state librarian/media specialists, teacher centers, and other information networks. A flyer describing the bibliography together with an accompanying order blank will be mailed to all Standing Order Customers.

...Mary K Monteith (CS)

PERSONNEL NEWS

STAFF CHANGES AT CG

Carol Jaslow will be leaving the ERIC Clearinghouse on Counseling and Personnel Services on April 24, 1981. She will be replaced by Helen Mamarchev as the new Assistant Director.

Kathy Friedrichs, CIJE Editor, is a new staff member.

...Helen Mamarchev (CG)

IAN TEMPLETON LEAVES ERIC/CEM

The ERIC Clearinghouse on Educational Management is sad to announce that as of March 20, 1981, long-time employee, Ian Templeton, has left the Clearinghouse. Ian has moved from Eugene to Portland where he will be a part-time student and part-time freelance writer for Clearinghouse publications. Ian was a document analyst and workshop coordinator at this Clearinghouse for almost eight years. His many contributions to the Clearinghouse and deep interest in developing and perfecting the system helped us all to understand and do our jobs better. His biting wit and his talent as a natural mime in times of frustration will be much missed.

...Jo Ann Mazarella (EA)

CAROL SHULMAN LEAVES HE

Carol Shulman, a writer at HE for over 11 years, left the staff in April to join the Carnegie Foundation for the Advancement of Teaching. During her tenure she wrote over 35 research reports for the Clearinghouse publications series. She's a fine writer whose skills will be missed by the Clearinghouse.

...Marilyn Shorr (HE)

STAFF CHANGES AT TM

In January, Cindi Post left ERIC to become a secretary at the Educational Testing Service. In March, Pamela Dey was hired as our ERIC clerical assistant. Pam is responsible for OCR typing, clerical assistance in acquisitions, and handling of publication orders.

In February, Marilyn Halpern left ERIC to become head of the ETS Test Collection. In April, Anita Labib was hired as our new User Services Coordinator. She comes to us from the National Library of Canada, where she was the assistant to the chief of the Computer-Based Reference Services Department.

...Barbara Wildemuth (TM)

CONFERENCES, MEETING, SPEAKING ENGAGEMENTS

HE STAFF PARTICIPATES IN AAHE CONFERENCE

All of HE's staff was involved in this year's American Association for Higher Education Conference held in Washington, D.C. Activities included typical conference participation like sponsoring an exhibit, conducting computer searches, selling IAP's and presenting a conference session. In addition, the Clearinghouse co-sponsored with AAHE (meaning HE did all the organizing; AAHE did all the paying), a "Meet the Author" wine and cheese reception where conference participants could talk with IAP authors about their research reports. Also, the Clearinghouse sponsored a meeting of 20 higher education program directors where the favorite topic was Reagan's proposed budget cuts.

...Marilyn Shorr (HE)

FIFE LEADS SESSION AT WOMEN AND MINORITIES SEMINAR AND LEADS SESSION AT AAHE CONFERENCE

Jonathan Fife led a session on "Research Issues in Higher Education," at the recent "Washington Policy Seminar for Women and Minorities in Higher Education," sponsored by the Institute for Educational Leadership at George Washington University.

Dr. Fife also co-presented a session with Joan Stark, Dean, College of Education, University of Michigan, at the recent American Association for Higher Education Conference. The topic, "Resources for Administrators" was one in a series sponsored as part of the New Administrator's Colloquium.

...Marilyn Shorr (HE)

HE COORDINATES SEMINAR ON NATIONAL HIGHER EDUCATION POLICY

Jim Honan, Research Assistant at HE, coordinated the third annual Seminar on National Higher Education Policy, an event co-sponsored by several higher education associations. Twenty-three doctoral level graduate students in higher education were selected to meet in a two-day seminar highlighted by presentations by policy makers from the Department of Education, U.S. Senate and House of Representatives staffs, and higher education association staff.

...Marilyn Shorr (HE)

HE AND UD CO-SPONSOR EXHIBIT

The "Blacks in Higher Education Conference," held in March, provided an opportunity for the Higher Education and Urban Education Clearinghouses to co-sponsor an exhibit. Not only did the "sharing" cut costs for both Clearinghouses, HE's staff reported it was "fun" to work with UD's staff. We'd like to do more of it.

...Marilyn Shorr (HE)

DR. KATZ PARTICIPATES IN INTERNATIONAL EVALUATION ASSOCIATION MEETING

Dr. Lilian Katz, Director of the ERIC Clearinghouse on Elementary and Early Childhood Education, represented the United States at the meeting of the International Evaluation Association (IEA) held in Belgium in February. The purpose of the meeting was for the experts assembled to develop the research question and design for a comparative study of young children in member countries. Dr. Katz reported that the European attendees were very interested in ERIC. In particular, they wanted to know how to obtain microfiche faster and how to get their own work included in ERIC.

...Janet M. Bowermaster (PS)

PUBLIC RELATIONS WORKSHOP PARTICIPATION BY RC

Betty Rose Rios and Amelita Hill attended a 1-day public relations workshop which was sponsored by the New Mexico State Library Association. Sessions covered such topics as public image, public relations policy and responsibility, writing news articles or radio spot articles, and evaluating PR programs.

...Amelia Hill (RC)

EDINGTON ATTENDS RURAL YOUTH CONFERENCE IN GERMANY

Dr. Everett Edington, Director of the ERIC Clearinghouse on Rural Education and Small Schools, was one of the two U.S. rural researchers who were invited to participate in the "1981 International Sociological Society Conference-Fredeburg." The conference was held at Deutsche Landjugend-Akademie, Fredeburg, West Germany, March 23-27, 1981.

The theme of the conference, "The Role and Status of Rural Youth in the Context of Industrialization and Modernization," was emphasized in Dr. Edington's paper entitled "Using Television as a Means of Training Rural Young—Adult Sheet Metal Apprentices in Solar Energy."

Papers were also presented by rural researchers from West Germany, Great Britain, Poland, Rumania, Iraq, India, Yugoslavia, and the USSR.

...Amelita Hill (RC)

VISITORS HOSTED BY ERIC

NEW ZEALAND VISITOR TO EA

On March 23, 1981, the ERIC Clearinghouse on Educational Management was visited by Ian Payne, a school administrator from Auckland, New Zealand. Mr. Payne, who is principal of the Avondale Intermediate School and regional administrator in charge of hiring and teacher promotions, was especially interested in information on staff development and declining enrollment. He

left with a large stack of free Clearinghouse publications that he felt would be especially helpful in these and other aspects of his work. Mr. Payne reported that New Zealand is facing the same problems of declining enrollment and reduction in force as is the United States. Since all teacher hiring is done at the state level, primary teachers applying for jobs now face a three-year wait for positions.

...Jo Ann Mazzarella (EA)

VISITORS AT HE

Staff of the ERIC Clearinghouse on Higher Education met with 55 foreign visitors during the last six months. Most visitors are referred through the Institute of International Education's (IIE) Washington Office. Most recently, Laura Ciarniello addressed a group which was meeting about "Mutual Concerns in Higher Education." The group represented 18 different countries including Egypt, Finland, Poland, Saudi Arabia, and Zambia. In addition to her presentation, she demonstrated computer searching. Sherry Mueller Norton, an IIE staff member, expressed in her thank you letter, "...I think they were a bit flabbergasted by the wonders of ERIC, but delighted to be introduced to such a comprehensive resource."

...Marilyn Shorr (HE)

AUSTRALIAN VISITOR TO SP

The ERIC Clearinghouse on Teacher Education enjoyed a visit on March 17, 1981 from Dr. William Pye, President, Melbourne State Teachers College, Melbourne, Australia. Dr. Pye spent time with the Director and Associate Director as well as with Dr. Frank Klassen, Director of the International Council on Education for Teaching, and discussed new trends in both preservice and inservice teacher education.

...Michael J. Butler (SP)

THE LIGHTER SIDE

ERIC/RCS WRITERS DREAM ON

The ERIC/RCS staff watched the Academy Awards this year with greater than usual enthusiasm, since Fran Lehr, writer and editor at the Clearinghouse, is the sister of Tom Rickman, author of the screenplay of Coal Miner's Daughter, who was nominated for an Academy Award. "There but for the grace of God go we."

...Mary K Monteith (CS)

ERIC WHO??

At ERIC/CAPS we are always on the lookout for a good laugh and frequently one arrives with the daily mail. Imagine our perplexity on receiving an invoice addressed to "ERIC'S Cleaning House." Not that we aren't tidy around here...

A great favorite was the lengthy letter that appeared one day from a school district in New Jersey. "Does your Clearinghouse have an existing director? If so, would you kindly send us a copy?" they inquired. We tried, but he just didn't fit on the Xerox machine.

And, of course, we receive endless mail addressed to "Mr. ERIC CAPS" or "Mr. Kaps" or "Dr. Eric Caps," and once we even received an engraved certificate announcing boldly that Mr. ERIC CAPS is entitled to a free copy of the Hammond World Atlas!

Recently the following letter landed in our mailbox from a school district in the state of Washington, "We would appreciate receiving free copies of the following: ERIC Clearinghouse on Counseling and Personnel Services. May we be placed on your permanent mailing list to receive this publication regularly as it is issued? Thank you very much." Now had that letter come from Hawaii, we would have packed ourselves in a crate, marked it "Bookrate," and left immediately.'

...Penny Schreiber (CG)

CLEARINGHOUSE FOR SALE?

The User Services Department of the ERIC Clearinghouse on Elementary and Early Childhood Education recently received a purchase order from London, England for:

Quantity - 1

Item - ERIC Clearinghouse on Elementary and
Early Childhood Education

The staff voted unanimously to start packing, but alas, the amount was for only \$14.68. A letter requesting clarification of the order was reluctantly sent instead.

...Janet M. Bowermaster (PS)

ERIC/RCS HELPS SUPER STUDENT

Several ERIC/RCS staff members became involved in most unusual user services request last month. A student from Vermont called requesting information concerning miscue analysis and waited in a phone booth for our return call.

...Mary K Monteith (CS)

ERIC CLEARINGHOUSE CATALOGING PRACTICES (REQUEST FOR INFORMATION)

SUMMARY

Numbers will frequently exceed 16 since Clearinghouses reported more than one job category for some assignments.

1. Who does descriptive cataloging for RIE?

<u>Type of Personnel</u>	<u>No. of CH's</u>	<u>Inhouse Only</u>	<u>Inhouse & Free lance</u>	<u>Type of Staff</u>
Indexers/Abstractors	4	2	2	---
Catalogers	11	11	0	---
Typist/Secretary/Clerical	2	2	0	---
Editors	2	2	0	---
Combination of individuals in different job classifications				Acquisitions Personnel

2. Who does descriptive cataloging for CIJE?

<u>Type of Personnel</u>	<u>No. of CH's</u>	<u>Inhouse Only</u>	<u>Inhouse & Free lance</u>	<u>Type of Staff</u>
Indexers/Abstractors	5	3	2	---
Catalogers	5	5	0	---
Typist/Secretary/Clerical	3	3	0	---
Editors	4	4	0	---

3. Is there a review of cataloging work?

<u>Yes</u>	<u>No</u>	<u>If yes, who conducts the review?</u>	
15	1	Editors = 7	
		Catalogers = 3	
		Other = 11	
		Acquisitions Personnel = 2	Peer Review = 1
		Assistant Director = 4	Abstractor = 1
		Information Specialist = 2	Post Publication of RIE = 1

4. Assignment of PUBTYPE done by:

Cataloger	= 2
Indexer (who also does cataloging)	= 4
Indexer	= 8
Other	= 3
Information Specialist	= 1
Acquisitions Personnel	= 1
Assistant Director	= 1

5. Are certain data elements, i.e., source name/codes, geo, pubtype, etc., the responsibility of one individual?

With the exception of the pubtype reported above, only 2 Clearinghouses reported fields that are cataloged by one person. Those fields are:

Source	= 1	Page	= 1
BN	= 1	Note	= 1
Rep No.	= 1	Jnl	= 1

6. What cataloging background do individuals doing cataloging have?

Editing Background	= 4
Library Background	= 10
English Background	= 6
Little or no experience and/or educational preparation in cataloging	= 5

7. What data elements give you specific problems? (Listed in order of frequency of problem reported.)

- a. Institution = 8
Sponsor = 8

Problem experienced:

- How to distinguish one from the other.
- What to do if they are both the institution producing the document and the sponsor of the document.
- Difficult to determine.
- When are subdivisions of an institution/sponsor needed.

- b. Note Field = 6

Problem experienced.

- Proper format.
- What information from the title page or elsewhere in the document should go in this field as opposed to the Title field.
- When should related documents be cited.

- c. Title = 5

Problem experienced.

- Relationship of cover and title page.
- What to do with series titles, especially those that vary.
- Relationship of title and subtitle.

- How to handle collection of works input as one document.
- Sequence of wording when the main, subtitle, series, etc. not clear on title page.

d. Gov = 4

Problem experienced.

- Hard to determine if source funded or prepared the document.
- Clarification as to what constitutes a federal document.
- More examples needed for clarification.

e. Geo = 3

Problem experienced.

- Breakdown of Australian states is difficult to determine and necessitates going beyond the document. Why is it necessary to divide Australia by states?
- More examples needed for clarification.
- What to do if one author is from U.S. and one from a foreign country.

f. Author = 3

Problem experienced.

- Should names be taken from copyright release.
- When to use a project director as the author.
- What to use when there is an editor and an author; administrator, director and an author.

g. Level = 3

Problem experienced.

- Difficulty to decide the reproducibility level for 1 and 2.

h. Availability = 3

Problem experienced.

- Format.
- Could there be standard abbreviations in addition to the state codes.
- How to handle complicated information.

i. Report No. = 3

Problem experienced.

- Relationship to sponsoring agency.
- How to determine what is a report number.
- Importance of number and when to cite it.
- When may it go in the title field.

j. Contract Number = 2
Grant Number = 2

Problem experienced.

- How to distinguish one from the other.
- Relationship to sponsoring agency.
- What to use when the document doesn't indicate which type of number it is.

k. Project Number = 2

Problem experienced.

- Relationship to sponsoring agency.
- Importance of number and when should it be cited.

l. Publication Date = 2

Problem experienced.

- What to do if the only date available is that found in the bibliographic citations.
- When to use more specific date rather than just the year.
- Publication date versus the date of a conference—which do you use.

m. Pubtype = 2

Problem experienced.

- Hard to assign pubtype for CIJE.
- Ambiguity between types, i.e., is a document to teach teachers how to teach children 052 or 051.

INDEXING AGREEMENTS BETWEEN ERIC AND NAEP
EXTRACTED FROM THE "IDENTIFIER" SECTION OF THE ERIC PROCESSING MANUAL

12. Special Indexing Agreements and Recommendations

From time to time ERIC makes formal arrangements with specific organizations or programs to index the document output of that organization in a special way in order to facilitate retrieval. Usually these are organizations and projects funded by some element of the Department of Education, e.g., National Diffusion Network (NDN); National Assessment of Educational Progress (NAEP).

In addition, ERIC sometimes independently makes recommendations to the Clearinghouses concerning the indexing of certain classes of documents, e.g., Information Analysis Products.

All current agreements or recommendations are summarized in Figure VIII-2-7. (This figure also appears in Section 5: "Cataloging" in the discussion on the Identifier field.)

ORGANIZATION NAME OR TYPE OF DOCUMENT	AGREEMENT OR RECOMMENDATION
National Assessment of Educational Progress (NAEP)	<ul style="list-style-type: none"> The NAEP is currently operated by the Education Commission of the States (ECS). All NAEP documents should be indexed: (1) by "National Assessment of Educational Progress, and (2) by one or more of the special Identifiers listed in Table 1.

ERIC USER'S TEST

by
Robert M. Simmons

The purpose of this test is to help you learn about the ERIC microfiche collection. Each question is designed to illustrate some important aspect of ERIC. If you are able to answer most of the questions correctly, you probably have a good basic understanding of ERIC and its use.

Directions. Place an "X" next to the correct response for each question. Each question has only one correct response.

1. ERIC is

- a) The name of the first U.S. Commissioner of Education _____
- b) An acronym _____
- c) A brand of microfilm _____

2. The ERIC microfiche collection is located

- a) In the Periodical Dept. _____
- b) In the Reference Dept. _____
- c) In the Curriculum Library _____

3. The ERIC collection

- a) Is updated with new material monthly _____
- b) Was completed as of December 1975 _____
- c) Is updated once annually _____

4. The range of subjects in the ERIC collection

- a) Is limited to education _____
- b) Extends to the behavioral and social sciences and beyond _____
- c) Is limited to teacher education _____

5. The types of publications represented in the ERIC collection include

- a) Only government sponsored research reports _____
- b) The gamut of periodical literature in education _____
- c) A range of material from research to teaching guides _____

6. Duplication of ERIC microfiche

- a) Is forbidden by U.S. copyright laws _____
- b) Is available on both film and paper copies _____
- c) Must not exceed 5 pages per document _____

7. In addition to the microfiche collection and its accompanying index, ERIC also publishes

- a) The Current Index to Journals in Education (CIJE) _____
- b) The Encyclopedia of Educational Research _____
- c) The Yearbook of International Education _____

8. The ERIC collection is distributed

- a) Only to those institutions receiving a Congressional appointment _____
- b) To one federally designated resource center in each state _____
- c) To any institution able to pay the subscription fee _____

9. An important fact about ERIC is

- a) It is available exclusively to teachers, administrators and students _____
- b) It is a major data base providing information to those who seek it _____
- c) It is administered and subsidized by UNESCO _____

10. Persons doing thorough research in education

- a) Need go no further than ERIC _____
- b) Should consult numerous book and periodical listings in addition to ERIC _____
- c) Need go no further than the Encyclopedia of Educational Research _____

11. What is the meaning of the abbreviation "RT" as used in the Thesaurus of ERIC Descriptors

- a) Research test _____
- b) Related terms _____
- c) Released time _____

12. Descriptors are

- a) Abstracts of ERIC documents _____
- b) ERIC microfiche identification numbers _____
- c) Subject headings used in ERIC indices _____

13. ERIC microfiche are arranged in cabinets

- a) By subject classification _____
- b) By ERIC document (ED) numbers _____
- c) Alphabetically by author _____

14. A double slash mark (//) following an ED number means

- a) The document is continued on two or more sheets of film _____
- b) The document is part of a series _____
- c) The document is not available on ERIC microfiche _____

15. The typical ERIC document is

- a) An uncopyrighted monograph _____
- b) A magazine article _____
- c) A trade publication _____

16. The subject index to Resources In Education (RIE) includes the following information beneath each heading

- a) Author and title _____
- b) Title and date _____
- c) Title and ED number _____

17. The abstract section of Resources In Education (RIE) is arranged by

- a) ED number _____
- b) Author _____
- c) Subject _____

18. The abstracts found in Resources In Education (RIE) may be described as

- a) The full text of the document _____
- b) A one or two sentence note _____
- c) A 200 - 250 word summary _____

19. ERIC abstracts are listed in Resources In Education (RIE), and they are also found

- a) On the first page of every document _____
- b) On the last page of every document _____
- c) In the Thesaurus of ERIC Descriptors _____

20. Besides directing you to correct subject headings, the Thesaurus of ERIC Descriptors can also provide

- a) ED numbers _____
- b) Document abstracts _____
- c) Cross references _____

SOC (ERIC Standing Order Customer) News

Spring 1981

THESAURUS TIPS

•Scope Note

A Scope Note is a brief statement of the intended usage of a Descriptor and is often used to clarify an ambiguous term or to restrict the usage of a term. In the 1980 edition of the *Thesaurus*, be sure to read the entire Scope Note. Special instructions on using a term for materials indexed prior to March 1980 appear in parentheses following the brief definition of the Descriptor.

•Identifiers

"Identifiers" (ID's) are key words or "indexable" concepts intended to add a depth to subject indexing that is not always possible with Descriptors alone. ID's are not found in the *Thesaurus*, since they are generally: (1) proper names, or (2) concepts not yet represented by approved Descriptors. In the resume sections of *RIE* and *CIE* they appear in a separate field below the Descriptors. ID's are used to index geographic locations, personal names, test or program names, special legislation, etc., as well as concepts not found in the *Thesaurus*. Although ID's do not appear in the *Thesaurus*, they may be manually searched in the ERIC Subject Index as if they were Descriptors. In computer searching the term may be run as an Identifier. See instructions for your vendor.

COMPUTER SEARCHING SUGGESTIONS

Many searchers of ERIC are not aware that about 8% of the materials cited in *RIE* are not available on microfiche.

They become frustrated when they are unable to locate such documents in the microfiche files. To prevent such frustration, computer searchers should ask their clients if they want the unavailable documents dropped from their search. Here are search strategies for accomplishing this deletion, in BRS and Dialog.

•Dialog

Run your search to the final set. Separate into ED's and EJ's. Limit ED/AVAIL. Print resulting ED set and EJ set.

•BRS

The PR paragraph includes a code indicating the current price of the *RIE* document available from the ERIC Document Reproduction Service (EDRS). The codes are displayable only, and appear as 4-character codes:

PC07 ERIC PRICE CODE FOR PAPER COPY
MF02 ERIC PRICE CODE FOR MICROFICHE

For documents which are not available from EDRS, BRS has included the code PR-NA in the PR paragraph. For example, to specify documents that are available from EDRS:

1 : career-education not pr-na
RESULT 6794

In the above example, the NOT operator is used to eliminate documents which are unavailable from EDRS. If the document is not available from EDRS a note will be given and additional information regarding the availability of the document will be found in the AV paragraph.

Spring 1981

INTERCHANGE

Interchange is a newsletter designed to share with ERIC users information of interest about the ERIC system. It is prepared several times a year by the ERIC Processing Facility, and is sent, free of charge, to ERIC Data Base Users. *Interchange* provides you with the opportunity to raise issues or make suggestions relative to improving patron use of the ERIC system. Perhaps your patrons have expressed problems in using ERIC--or, conversely, perhaps they have offered ideas and strategies for searching which might benefit others. We encourage you to send your suggestions or questions to:

Interchange
ERIC Processing Facility
4833 Rugby Avenue, Suite 303
Bethesda, MD 20014

(If you are not receiving *Interchange*, please contact the address above.)

EDRS NOTES

The ERIC Document Reproduction Service (EDRS) is solely responsible for the sale and distribution of microfiche and paper copy of (available) ERIC documents cited in *RIE*. All such materials should be ordered directly from EDRS, not from Clearinghouses. Attached is an EDRS order form which you may freely duplicate for your patrons.

CLEARINGHOUSE ADDRESS CHANGES

The ERIC Clearinghouse on Languages and Linguistics (FL) has moved. The new address is:

ERIC Clearinghouse on Languages
and Linguistics
Center for Applied Linguistics
3520 Prospect Street, N.W.
Washington, DC 20007
(202) 298-9292

Although the Clearinghouse on Elementary and Early Childhood Education (PS) has not moved, area boundary lines have shifted. The new address is:

ERIC Clearinghouse on Elementary and
Early Childhood Education
College of Education
University of Illinois
1310 ~~731~~ S. Sixth Street
Champaign, IL 61820

FYI

Bibliographic Format for Citing ERIC Document. Central ERIC recommends that the format below be used in referencing ERIC-cited materials:

Smith, John D. and Johnson, Jane. Career Education for Women. Chicago, Illinois: Central University, 1973. (ERIC Document Reproduction Service No. ED 654 321).

Price, John A. "Native American Techniques of Survival in the Country." Indian Historian 11 (4): 3-11, December 1978. (ERIC No. EJ 123 465).

How to Search the ERIC System (Slide Tape Presentation now available from UCLA) A new reference aid developed by Lorraine Mathies (at the Education Library of UCLA) to facilitate library use of ERIC materials by either individuals or groups is now available and is priced at \$35. The new aid can be adapted to another library with the substitution of a few slides. It consists of:

- 35 millimeter slides,
- 12 1/2 minute recorded cassette, and a
- 12 page guide (script and index to slides)

NEW INFORMATION ANALYSIS PRODUCTS

ERIC CLEARINGHOUSE ON READING AND COMMUNICATION SKILLS

- Mainstreaming the Non-English Speaking Student. Rodrigues, Raymond J. and White, Robert H. 50 pages, March 1981, CS 206 091.

Availability: National Council of Teachers of English, 1111 Kenyon Road, Urbana, Illinois 61801. \$3.45 members; \$3.95 nonmembers.

Information on the nature of language and language acquisition and second language acquisition and learning, a comparison of first and second language learning, and a discussion of pedagogical principles are presented. Suggested classroom practices and activities for mainstreaming the non-English speaking student comprise the major portion of the booklet. The book has been produced in 8½ x 11 format so that teachers can easily photocopy activity pages.

- Especially for Teachers: ERIC Documents on the Teaching of Reading, 1966-1980. ERIC Clearinghouse on Reading and Communication Skills. March 1981, CS 005 873.

Availability: ERIC/RCS, 1111 Kenyon Road, Urbana, Illinois. \$4.00 prepaid.

Designed to supplement the day-to-day planning, teaching, and evaluation activities of reading teachers at all educational levels, this selected bibliography contains 689 citations chosen from RIE. Document abstracts are divided into the following sections: adult literacy education, beginning reading, critical reading, reading comprehension, content reading, curriculum guides, decoding, exceptional children, instructional games, individualized instruction, parent involvement, reading program description, reading techniques, parent involvement, reading program descriptions, reading techniques and materials, and remedial reading instruction. A subject index based on major descriptors and an author index are also provided.

ACTION ITEMS

VOCABULARY STATUS REPORT

The May 1981 Vocabulary Status Report (VSR) is displayed as Attachment 1. It contains nine (9) "feedback pages" for the previously issued March 1981 report, as well as three (3) pages of new recommendations received by the Facility Lexicographic staff between April 13 and May 11. Each member of the Vocabulary Review Group (VRG) should vote "aye" or "nay" on the new recommendations and return your responses to the Facility by June 17. It is unnecessary to return the feedback pages.

Responses on the March 1981 report were received from 21 VRG representatives, including all Clearinghouses and all but two user representatives. Votes shown for a particular entry may not total 21, however, because "no opinion" or "don't know" votes are not tallied.

...Jim Houston (ERIC Facility)

SHARING INFORMATION WITH CERIC ON THE IMPACT OF ERIC PRODUCTS AND SERVICES

This quarter, I was pleasantly surprised to find a section in the quarterly report submitted by the ERIC Clearinghouse on Educational Management which I had never seen before. It was entitled "Impact of Products and Services." It contained a letter from a university requesting permission to reprint two fact sheets and letters from a teacher, a superintendent, and a principal requesting specific products and explaining how useful they have found previous products from the Clearinghouse.

As you know, we at CERIC are often asked to describe who uses what we produce and to provide some indication of its usefulness in the field. Copies of these letters from users help us to understand how the field is reacting to products produced and to respond to inquiries on how the system is used.

Although this is not a requirement, I and the rest of the staff at CERIC would encourage all Clearinghouses to attach similar kinds of letters. We are not interested in copies of letters simply requesting products. We are interested in receiving copies of letters where users have indicated that products were helpful and were used, especially if the letter indicates how they were used or who used them. Our appreciation goes to Phil and the rest of the staff at EA for keeping this in mind.

...Cheryl Chase (Central ERIC)

ERIC PROCESSING MANUAL QUESTIONS REQUESTED PRIOR TO TECHNICAL MEETING

Clearinghouses, as well as any other participants in the forthcoming ERIC National Technical Meeting, are requested to submit to the ERIC Facility in advance any questions and/or comments about the published sections of the *ERIC Processing Manual*. Because the time for discussion of the EPM is limited at the National Meeting, it would be helpful if questions or comments were submitted by June 5, 1981.

...Carolyn Weller (ERIC Facility)

CLEARINGHOUSE INPUT TO INTERCHANGE (2nd QUARTER ISSUE)

All Clearinghouses have now received a memo requesting input for the June issue of *Interchange*. All input should be at the ERIC Facility no later than June 1, 1981 in order to permit us to make our schedule. (See Attachment 2 for an *Interchange* Article Submission Form.)

...Carolyn Weller (ERIC Facility)

MAJOR CLEARINGHOUSE PUBLICATION NEWS

ERIC/SP REVISES ITS GUIDELINES FOR AUTHORS OF CLEARINGHOUSE PUBLICATIONS

The ERIC Clearinghouse on Teacher Education has recently revised its guidelines for authors of information analysis products (IAPs), based partially on the IAP Policy Statement that appeared in the February 1981 *ERIC Administrative Bulletin*. A step-by-step approach for developing the IAP is outlined, and further specifications about style, typing quotations, permission to quote or reprint, headings, lists, footnotes, references, ERIC requirements, and writing in general are also included. The complete text is displayed in Attachment 3.

...Dean Schwanke (SP)

NEW CLEARINGHOUSE PUBLICATION PUBLISHED BY SSEC

A collaborative arrangement between two ERIC Clearinghouses and the Social Science Education Consortium, Inc., resulted in the recent publication of *Teachers Have Rights, Too: What Educators Should Know About School Law*, by Leigh Stelzer and Joanna Banthin (SO 013 200). The ERIC Clearinghouses for Social Studies/Social Science Education and for Educational Management shared the development tasks; the SSEC, sponsoring organization for ERIC/ChESS, is cooperating in publishing and distribution. The paperbound book is available for \$7.95 from both ERIC/CEM and the SSEC.

...Ann Williams (SO)

ERIC/EC ANNOUNCES NEW CLEARINGHOUSE PUBLICATIONS

The following new publications are available from Publications Sales, The Council for Exceptional Children, 1920 Association Drive, Reston, Virginia 22091:

- Newest in the Series, "What Research and Experience Say to the Teacher of Exceptional Children," *Cross Age and Peer Tutoring: Help for Children with Learning Problems*, Joseph R. Jenkins and Linda M. Jenkins.

Not a cookbook detailing how to install and manage a tutoring program in the schools, but a rationale for tutoring as a serious intervention for aiding low performing youngsters. Based on research and experience, the authors have addressed some concerns and some questions actually encountered by practitioners. The monograph focuses on tutoring as a means of improving student achievement. Stock #212. Price \$7.25.

- *Stress and Burnout: A Primer for Special Education and Special Services Personnel*, Stan F. Shaw, Jeffrey M. Bensky, and Benjamin Dixon.

This primer is designed to help professionals regain control over their time and the direction of their efforts. Chapters include: The Problems of Stress and Burnout for Educators; The Problem of Burnout for Special Services Personnel; Assessing Individual and Organizational Stress; Modifying Special Education Policies and Procedures; Inservice Training Program; Managing Stress and Preventing Burnout; What Administrators Can Do; and The Role of the Special Services Professional. Appendices include formats for analyzing observations of stress conditions; a bibliography; and models for intervention. Stock #223. Price \$8.50.

- *Perspectives for a New Decade: Education's Responsibility for Seriously Disturbed and Behaviorally Disordered Children and Youth*, Frank H. Wood, Ed.

A collection of papers selected for their current and future relevance from the August 1980 CEC Topical Conference on the Severely Emotionally Disturbed. Includes overviews of preschool children and adolescents with severe emotional or behavior disorders. Issues related to eligibility and service delivery are explored. Programs, with a special focus on secondary students, are described. Stock #224. Price \$13.56.

- *Recent Concepts in Dyslexia: Implications for Diagnosis and Remediation*, by Steven R. Forness.

Past theoretical approaches to the study of dyslexia, largely rooted in neurophysiological etiology, tended to emphasize perceptual deficits as primary causes of reading disability. More recent thinking has focused on attention, memory, and linguistic deficits as well as on maturational lag and interactive factors. These concepts which have appeared in the past decade are briefly reviewed followed by a discussion of selected implications for common practices in assessment and instruction of reading disabled youngsters.

- *Parent Advocate Groups for the Gifted and Talented*, John A. Crossi, Ed.

A directory of 144 parent advocacy groups from 39 states. Provides name, address, and telephone number of contact person; size of membership; organization focus; past and present activities; and future directions.

...Jean Nazzaro (EC)

CATALOGING ADVISORIES

"CATALOGING" AT THE NATIONAL TECHNICAL MEETING

The agenda of the National Technical Meeting lists a session on "Cataloging." The session is described as: "Cataloging problems will be identified and discussed."

Lately the Facility has been responding to written cataloging inquiries by preparing *Cataloging Advisory* on each problem and publishing them in the EAB. These have been very successful in that they give the Facility time to study the problem (and to consult reference works) and to prepare a thorough answer, suitable both for answering the immediate question and for later incorporation into the EPM.

In order to focus the session at the Technical Meeting, we would very much like to get from the Clearinghouses examples of your most troublesome cataloging problems so that we can feature these problems and their solutions during the session, so whatever it may be, dissertations, monographic series, progress reports, books, analytics, etc., please let us know if there are any special cataloging problems that you would like to see treated at the technical meeting.

...Christine St. Lawrence (ERIC Facility)

ERIC PROCESSING MANUAL (EPM) PROGRESS—VALIDITY OF OLD CATALOGING SECTION

With the publication of the "Identifier" section of the *ERIC Processing Manual* in April, only two significant sections are yet to be completed: "Descriptors" and "Cataloging." The former is approximately 2/3 written and will be completed for Central ERIC review sometime during May. It has numerous examples from the *Thesaurus* which present a composition problem.

Now that the Vocabulary Development sections are essentially written, attention can be turned to the long-awaited "Cataloging" section. It might be well to emphasize at this point that the main changes in this section are going to involve: (1) additional examples to show how problem cases should be handled, (2) additional definitions and guidance to elaborate on areas where catalogers have expressed such a need, and (3) changes to reflect keying for OCR input. There will not be major changes in the guidance that already exists. No basic rules have been changed and the cataloging section of the old 1974 EPM is still essentially valid. We take this opportunity to state this because we have heard "rumors" that the Clearinghouses anticipate major changes in "Cataloging" and have therefore taken to not trusting or consulting the existing guidelines. Please do not fall victim to this misconception. The existing cataloging guidelines are valid and are merely going to be elaborated upon extensively.

...Ted Brandhorst (ERIC Facility)

CATALOGING ADVISORY—LANGUAGE OF DOCUMENT (LANG)

The language (of document) data element was added to the ERIC data base primarily in order to permit searchers to restrict their output to materials in the language(s) they can utilize. To handle multi-language documents, the field permits the entry of up to five (5) different languages. If no language is entered by the Clearinghouse, the ERIC computer system automatically adds "English" to the record. The purpose of this "default to English" is to save the Clearinghouse data entry time, since the vast majority of ERIC accessions are English-language documents.

A question has been raised by the FL Clearinghouse concerning the proper way to catalog the language of documents that are instructional texts in one or more languages. Typically such documents are basically in English, but may contain large amounts of material in the language being taught (usually in the form of examples or passages to be read).

If we base the advice here on the original purpose of the data element, it can be clearly seen that such a document should be cataloged as in the language that its basic instructional text is in. The examples or illustrative passages in a language-teaching document are not the basic instructional text of the document and do not contain its "message." They would be meaningless without the accompanying text.

As a rule, therefore, language-teaching documents should not be cataloged as if they were actually in the language being taught. This would be misleading.

...Christine St. Lawrence (ERIC Facility)

CATALOGING ADVISORY—GEOGRAPHIC FIELD (GEO)

Continued experience with the GEO field reveals that the cataloging guidelines need to include additional guidance to cover the following situations:

Question: The document is a separate paper presented at a conference. The author is affiliated with an institution in state A; the conference was held in state B. What should the GEO code be?

Answer: *The location of the conference is strictly incidental. Groups move their conferences around for a wide variety of reasons, more having to do with the accidents of space availability than anything else. More fundamental is the location where the author resided when he prepared the paper. If the GEO choice is between these two, choose the author's location. If all you have is the conference location then you are forced to use what you have.*

Question: The document has two authors each of which is affiliated with an institution in a different state. There is no other location information. What state should be used to determine the GEO code?

Answer: *The first-named author is usually the principal author and should take precedence over second and subsequent authors in determining GEO code. If the authors are listed alphabetically, or there are other reasons to question principal authorship, it is always permissible to simply cite the "U.S." (for a domestic document), without a further breakdown by state.*

Question: The parent document is a formal Proceedings of a conference. The individual papers contained in the Proceedings have been "analyzed" out as separate accessions. The Proceedings volume itself has a formal publisher (e.g., Academic Press). Should the individual papers be given the same GEO code as the parent document or a GEO code in accordance with the particular author's affiliation?

Answer: It seems to us that it would be best to treat the "analytics" exactly as you would if they came through as separate papers (i.e., not published in the one-volume Proceedings). ERIC processes a lot of such material and whether ERIC gets it early (in the form of separate papers) or late (as part of a published Proceedings), it is probably best to have a consistent approach to the coding thereof. The entire Proceedings volume itself should, of course, be coded to the location of its publisher.

...Christine St. Lawrence
(ERIC Facility)

CATALOGING ADVISORY--GOVERNMENT FIELD (GOV)

Continued experience with the GOV field reveals that the new cataloging guidelines need to reinforce the following guidance already appearing there:

- Contractor Reports are not governmental reports. Contractor reports usually carry a disclaimer stating that they are not to be construed as "official" documents. Contractor Reports should, therefore, not be coded as "Federal," "State," or "Local" governmental reports, unless they have been reissued as such, complete with seal and other official apparatus.
- ERIC contains a vast number of documents emanating from school systems and school districts. If they were all coded as governmental, they would swamp the category and prevent the retrieval of regular government agency publications. For this reason, school systems/school districts are not to be considered official arms of state or local government, at least for the purposes of ERIC cataloging.

...Ted Brandhorst (ERIC Facility)

CATALOGING ADVISORY--HOW TO CATALOG CONGRESSIONAL HEARINGS

It has been suggested that the *ERIC Processing Manual* (EPM) should contain specific examples of how to catalog Congressional Hearings. We entirely agree. These are important documents. ERIC contains a significant number of them. They are complex and difficult to catalog. The EPM should clearly contain guidance as to their processing.

The kind of guidance we would propose to include is displayed in Attachment 4.

...Christine St. Lawrence (ERIC Facility)

NETWORK NEWS

ERIC TECHNICAL MEETING: TELECONFERENCING EQUIPMENT REQUIREMENTS

By now all Clearinghouses should have received the 1981 ERIC National Technical Meeting agenda.

The following sessions will be teleconferenced to all members of the ERIC system:

Tuesday, June 16, 11:15 a.m. - 12:15 p.m., ERIC System Reports
Wednesday, June 17, 11:00 a.m. - 12:00 p.m., Cataloging
3:00 p.m. - 4:45 p.m., Approach to Cost Cutting

To best allow Clearinghouse staff to listen as a group at their respective locations, it is suggested a telephone amplifier be used. Since most telephone amplifiers allow for the listener to speak and be heard by the calling party, this equipment feature should be disabled so that comments and conversation at the Clearinghouse will not interfere with the ongoing technical meeting.

Technical limitations of the Government FTS teleconferencing system prevent the use of extension telephones to listen in. Their use would severely reduce the incoming voice at the main telephone and make it unintelligible.

Should a telephone amplifier be purchased, a minimum of \$50 must be allocated since lower priced units are generally inferior. The following models should be considered:

- Radio Shack #43-295 \$59.95
- Panasonic Speakerphone, Pro-Series \$99.00
- GTE Compact Speaker Phone #1020 \$69.95

In addition, your local private telephone store should have other suitable models available between \$50 and \$100.

Please don't hesitate to call me with any questions or even to purchase your equipment here in Washington, D.C.

Remember, if only one person will listen to the teleconference, you don't have to buy anything. Just pick up your phone and listen.

...James Prevel (Central ERIC)

ERIC PROCESSING MANUAL—"IDENTIFIER" SECTION DELIVERED

Clearinghouses and other ERIC components have now received 5 copies each of the new "Identifier" section of the *ERIC Processing Manual*, Section 8, Part 2. Additional copies are available for \$3.75 postpaid from the Facility, if Clearinghouses need additional copies in order to supply all their indexers.

...Carolyn Weller (ERIC Facility)

CIJE SCHEDULE FOR REMAINDER OF 1981

A revised CIJE schedule for the remainder of 1981 was recently forwarded to the Facility from Oryx Press (Susan Slesinger). We have organized this schedule into the attached tabular format previously used and it appears in Attachment 5.

...Ted Brandhorst (ERIC Facility)

NAASP REPRINTS "THE BEST OF ERIC ON EDUCATIONAL MANAGEMENT"

The National Association of Secondary School Principals has been showing increased interest in the ERIC Clearinghouse on Educational Management's long-standing series, "The Best of ERIC on Educational Management."

With the Clearinghouse's permission, NAASP reprinted the January 1981 issue ("Administrators and the Courts") for distribution to its 35,000 members. On two previous occasions, when the Association chose to distribute copies of "The Best of ERIC" to its membership, it obtained copies directly from the Clearinghouse. The new arrangement has mutual benefits. By printing its own copies with negatives supplied by the Clearinghouse, NASSP avoids paying transcontinental shipping costs, and the Clearinghouse obtains wider distribution of its products at no increase in its printing costs. NASSP anticipates reprinting several issues of "The Best of ERIC" each year.

...Stuart Smith (EA)

INDEXING FORM AT ERIC/EC CONTAINS HELPFUL "REMINDERS"

Indexers at the ERIC Clearinghouse on Handicapped and Gifted Children have begun doing all their indexing on prepared forms to improve indexing. The form specifically asks for Population, Level, PUBTYPE, and Identifiers. Indexers find that the form serves as a reminder that a Level descriptor should always be there unless clearly not appropriate. We think "forgotten" elements in indexing have been minimized through use of this form.

...Dorothy Bloch (EC)

THE "MACNEIL-LEHRER REPORT" GETS ITS INFORMATION FROM ERIC/HE

The ERIC Clearinghouse on Higher Education was contacted by a researcher from the MacNeil-Lehrer Report television show who needed information about today's college students—QUICK! The staff pulled together a profile and returned the call. The researcher, Jane Villon, was extremely grateful for the prompt reply and indicated she was aware of the problems created when people ask for information at the last minute. We made sure she had the ERIC name correct (we've been there before!), so be listening in case we make the Big Time.

...Lynn Barnett (HE)

SOLICITATION OF AERA PAPERS BY ERIC/TM

Solicitation letters were sent by the ERIC Clearinghouse on Tests, Measurement, and Evaluation to over 2,700 participants in AERA. As of April 24, over 200 papers had been received at the ERIC/TM Clearinghouse. An additional pile of papers over four feet high is still in transit from Los Angeles to Princeton. They continue to arrive at the rate of about 20 per day, so we consider this solicitation effort to be very successful. Many of these papers will be transferred to more appropriate Clearinghouses, so you will be receiving papers throughout May.

...Barbara Wildemuth (TM)

ERIC/CS SELECTED MAILING LIST

All Standing Order Customers, members of the Clearinghouse Evaluation Committees, and other information networks automatically receive the newsbulletin and minibibliographies developed by the Clearinghouse every spring and fall, thus insuring a distribution to 1,270 individuals. The brochures, and especially the minibibs, have been so popular that this year the Clearinghouse has received twenty requests from state departments of education and regional laboratories for multiple copies of the minibibs and brochures for a total distribution of 26,600. Librarians requesting multiple copies have accounted for a distribution of another 2,100 items.

...Mary K Monteith (CS)

BIBLIOGRAPHIES DISTRIBUTED AT CONFERENCES BY JC

During March, a number of bibliographies were distributed by JC at conferences:

- "Transfer, Vocational, and Basic Skills Education"
(Conference of the California Community Junior College Association's Research and Development Commission)
- "Allied Health Occupations and Nursing"
(League for Innovation Conference, in Ohio)
- "Innovative Approaches to the Teaching of Composition"
(Northern California Meeting of the English Council)

...Gayle Byock (JC)

ARTICLES BY THE ERIC/JC STAFF

Dr. Arthur M. Cohen, Director of the ERIC Clearinghouse for Junior Colleges, published an article entitled "A Funny Thing Happened on the Way to the Eighties" in the *ADE Bulletin* (spring 1981), published by the Association of Departments of English. A second article by Dr. Cohen, "Private Concern and Major Concepts in General Education" appeared in *Community College Review* (winter 1981).

...Gayle Byock (JC)

ERIC/CS STAFF JOURNAL ARTICLES MAKE IMPACT

Each year the ERIC Clearinghouse on Reading and Communication Skills contributes articles to regular columns in educational journals. Last year staff members wrote a total of 44 articles on topics in our scope based on materials in the ERIC data base. We estimated, with the aid of journal editors, that 1,084,838 copies of ERIC/RCS journal articles are printed regularly each year and distributed to 161,141 individual subscribers. Since market researchers have indicated that a minimum of five people read each journal issue, the total exposure of articles produced by the Clearinghouse should be somewhere over 5.4 million. Additionally, our user services staff send many copies of journal articles in response to questions they receive.

We always wonder what impact these articles may be making on readers. Two years ago, a survey by the International Reading Association of readers of their journal found that our work was reaching 95% of the members who received their journals. However, for the staff writers, tangible proof that we are "being read" comes in other forms. Recently, Bob Lange's article, "Making Sense with Schemata," originally published in the *Journal of Reading* was selected for inclusion in the Rutgers University 1981 Reading Conference Proceedings. Another way that we know the articles have actually been read occurs when someone takes the time to write, such as the recent note to Holly O'Donnell from an instructor of western literature complimenting Holly on her article on western literature in the *English Journal*.

Sometimes we find ourselves cited in articles we are abstracting for RIE, either with a direct quote or reference in the article or by noting a particular collection of sources that could only be ours and finding an ERIC/RCS article listed in the bibliography. We are particularly delighted with a full-page advertisement in both the April 1981 *Reading Teacher* and *Journal of Reading* by the Classical Association of the Middle West and South. The advertisement for Latin instruction as a way to improve vocabulary cites supporting evidence from Fran Lehr's 1979 *Journal of Reading* article.

...Mary K Monteith (CS)

FACT SHEETS FROM ERIC/SO

The first two fact sheets produced by the ERIC Clearinghouse on Social Studies/Social Science Education during the 1981 contract year, "The Teacher and Academic Freedom" and "Saving Money on Printing and Reproduction," were distributed as an insert in the April issue of *Keeping Up*, the ERIC/ChESS newsletter. Additional copies of both the newsletter and the fact sheets are available free from the Clearinghouse.

REMINDER ABOUT DAYLIGHT SAVINGS TIME IN ARIZONA—THERE ISN'T ANY

Just a reminder—Arizona doesn't go on Daylight Savings Time, therefore, Oryx Press is now three hours behind the East.

...Carolyn Weller (ERIC Facility)

MEETINGS, CONFERENCES, SPEAKING ENGAGEMENTS

FIFE SERVES ON COMMITTEE TO RESEARCH THE INDEPENDENT COLLEGE

The Council for the Advancement of Small Colleges (CASC) recently created a National Commission on the Independent College. Jonathan Fife participated in a three-day conference at Wingspread in Racine, Wisconsin, to plan the Commission's agenda.

...Marilyn Shorr (HE)

ERIC/HE SPONSORS MINI-COURSE AT AERA

Lynn Barnett developed the program and handout materials for a four-hour mini-training course at AERA's National Conference in Los Angeles, California. Co-presenters were Jonathan Fife (HE), Barbara Wildemuth (TM), and Donna Dzierlenga (JC). The session entitled "Literature and Research Identification through Computerized Information Systems" was highlighted by online demonstrations of ten data bases (including ERIC) that contain information of interest to educators and researchers. The handout packet summarized and compared the ten data bases. Twenty-seven individuals participated in the mini-course.

...Marilyn Shorr (HE)

AERA EXHIBIT

The ERIC Clearinghouse on Tests, Measurement, and Evaluation coordinated the ERIC exhibit booth at AERA/NCME. The exhibit area was open for three days, April 14-16. Six ERIC representatives participated in staffing the booth: Lynn Barnett (HE), Elaine Benally (RC), and Donna Dzierlenga (JC), Don Melville (TM), Barbara Wildemuth (TM), and Jerry Wright (UD). Several hundred conference attendees stopped by to drop off their papers, have a demonstration ERIC search run, or ask questions about ERIC.

...Barbara Wildemuth (TM)

CAPS AT APGA

The ERIC Clearinghouse on Counseling and Personnel Services was represented at the annual conference of the American Personnel and Guidance Association (April 12-15, 1981 in St. Louis, Missouri) by Garry Walz, Libby Benjamin, Doris Priehs, and Carol Mills. Doris and Carol promoted the uses of ERIC as well as the Information Analysis Products produced by CAPS at the display booth, where more than 300 people stopped by to visit or to see what was available.

Although conference attendance was lower than in previous years, Drs. Walz and Benjamin's workshop on Stress Management was filled to capacity—twice the number expected. Its success elicited many favorable comments and enthusiastic responses from the participants. Drs. Walz and Benjamin also conducted a pre-conference session and a workshop on Adult Counseling.

...Carol S. Mills (CG)

ERIC/JC CONDUCTING MEMBERSHIP DRIVE FOR COMMUNITY COLLEGE HUMANITIES ASSOCIATION

The ERIC Clearinghouse for Junior Colleges is actively conducting a membership drive for the Community College Humanities Association, Western-Pacific Division. Dr. Arthur Cohen is on the executive board. At their conference on April 24, Donna Dzierlenga presented information about ERIC.

...Gayle Byock (JC)

ERIC/JC PRESENTS PAPER AT AERA

Dr. Arthur Cohen, Dr. Jack Friedlander, and Dr. Florence Braver of the ERIC Clearinghouse for Junior Colleges presented papers at the American Educational Research Association (AERA) in Los Angeles and at the American Association of Community and Junior Colleges (AACJC) in Washington, D.C. in April.

...Gayle Byock (JC)

ERIC AT THE CALIFORNIA STATE DISSEMINATION MEETINGS

The Northern California State Dissemination conference was held at Far West Laboratory for Educational Research on April 3, 1981. Donna Dzierlenga of ERIC/JC and Sue Long of SMERC were available to search ERIC and answer questions. James Palmer, abstractor/indexer at ERIC/JC, also attended and helped Donna. He was able to experience the use of ERIC from another angle. The southern meeting was held on April 10 at SWRI (Southwest Regional Laboratory). ERIC was represented by Donna Dzierlenga and Gayle Byock.

...Gayle Byock (JC)

ERIC/ChESS AT ROCKY MOUNTAIN REGIONAL SOCIAL STUDIES CONFERENCE

The Rocky Mountain Regional Social Studies Conference was held on April 8-10, 1981 in Denver, Colorado, at the Cosmopolitan Hotel. Staff of the ERIC Clearinghouse on Social Studies/Social Science Education participated in a number of sessions and conducted computer searches at their booth.

...Char Purvis (SO)

ERIC/UD LINKS WITH TWO ASIAN AMERICAN EDUCATION ASSOCIATIONS

Jerry Wright, Associate Director of the ERIC Clearinghouse on Urban Education, attended the Second Annual National Conference on Indochinese Education and Human Services in Anaheim, California on March 26-28, 1981. A presentation was made to illustrate the kinds of materials found in the ERIC system which support the aims of the Indochinese refugees' concern with easy transition into the American cultural tradition. The attendees represented numerous school districts, private organizations, and government officials who are involved in the resettlement programs.

As part of the same trip, an ERIC/UD display was provided at the National Association for Asian and Pacific American Education in Honolulu from April 23-25, 1981. Teachers, students, and librarians in Hawaii are enthusiastic about ERIC and express hope that its effectiveness will not be threatened by the proposed budget alterations.

One of the highlights of the trip was a visit to the famed Kamehameha School. Funded by a trust from the late Princess Bernice Pauahi Bishop, this school is one of the most exciting educational endeavors in America. The staff of the school's research department has promised to ensure the input of the school's research findings into the ERIC system.

...Jerry Wright (UD)

VISITORS HOSTED BY ERIC

WELSH EDUCATORS AT ERIC/JC

Dr. John Edward Williams of University College, Swansea, Wales, spent part of March 27, 1981, at the ERIC Clearinghouse for Junior Colleges in order to obtain information about the teaching of political science in two-year colleges in the United States. Louise Douglas, assistant chairperson of the Humanities Division, and Ann McCartney, a humanities instructor, from Shoreline Community College in Washington, State, spent the afternoon at ERIC/JC on March 26, 1981.

Clearinghouse on Teacher Education

ONE DUPONT CIRCLE, N.W., SUITE 610 • WASHINGTON, D.C. 20036 • 202/293-2450

AUTHORS' GUIDELINES FOR PREPARING INFORMATION ANALYSIS PRODUCTS (IAPs)

Information analysis products (IAPs) constitute ERIC's response to the specific information needs of the targeted audiences for the 16 clearinghouses in the system. For each product, or monograph, authors should examine, analyze, and organize all relevant literature/information in the ERIC data bases (both document and journal literature) and from other sources (libraries, agencies, organizations, individuals) into "new" information. Monographs should bear witness that authors have investigated and reported as objectively as possible all perspectives on the specified topic (an IAP should not advocate a single perspective). The various perspectives should come from multiple sources and not from a single individual. Although IAPs are not vehicles for advocacy because of the nature of ERIC as a government-sponsored program, authors are encouraged to draw from their research conclusions and implications for educational practice. Simply, it must be apparent that conclusions are derived from the literature. Statements such as the following are appropriate: "The literature indicates that..."; "It can be concluded that..."; "This implication can be drawn from the literature...."

Guidelines for Developing IAPs

1. The Clearinghouse provides authors of its products with complimentary searches of its computer data bases. Authors should arrange with the Clearinghouse user services specialist to perform as early as possible a computer search of both ERIC data bases--the document literature indexed in Resources in Education and the journal literature indexed in Current Index to Journals in Education. Searches can be arranged via telephone and take approximately two weeks for receipt.
2. Review the computer search to determine the extent and nature of coverage of the subject in the ERIC data bases. If limited or inadequate, seek other sources of information (libraries, agencies, organizations, individuals).
3. Submit a preliminary outline of the monograph to the Clearinghouse to show the scope, contents, sources, and style of treatment.

Sponsored by the **Educational Resources Information Center (ERIC)**, National Institute of Education
under a contract with the American Association of Colleges for Teacher Education

SCOPE

The preparation and continuing development of elementary, secondary, and collegiate level instructional personnel, their roles and functions and selected aspects of health education, physical education, and recreation education

4. Perform the necessary reading and research. Analyze the data, discussions, and personal experiences. Prepare the draft manuscript. (Note: When performing research, record complete bibliographic information on all resources and double check accuracy of spelling names and titles and recording dates of publication--see specifications for preparation.)
5. Submit the draft manuscript for review by the Clearinghouse staff and subject consultants appointed by the Clearinghouse.
6. Revise the draft manuscript as necessary to incorporate the recommendations of the referees and Clearinghouse staff.
7. Prepare the final manuscript in accordance with the specifications that follow. In this final manuscript, the Clearinghouse assumes that the writer has indicated appropriately all verbatim quotations; and that documents in the bibliography have been selected with care and do not require further evaluation by the Clearinghouse in terms of relevance, appropriateness, or currency. When questions arise, the writer should consult with the Clearinghouse editor so that the product may be satisfactory to all concerned.
8. Following technical editing and preparation of camera copy, authors will receive a copy of their manuscript as it will appear in the published monograph. Authors are requested to proofread this copy carefully, as it is the last opportunity to ensure the factual accuracy of the work.
9. Each author will receive two complimentary copies of the published monograph.

Specifications for Preparation

1. STYLE. In questions of style, spelling, punctuation, and other grammatical elements, the Clearinghouse uses the University of Chicago Press' A Manual of Style, 12th ed., 1969, and Webster's Seventh New Collegiate Dictionary. To minimize the amount of technical editing by the Clearinghouse, authors are encouraged to consult these references. Both can be found in most libraries.
2. TYPING INSTRUCTIONS. Manuscripts must be typed double spaced with one-inch margins on all sides; this requirement includes all quotations, bibliographic citations, charts and tables, as well as text and headings. The Clearinghouse needs one clean, legible, complete manuscript. All pages should be numbered sequentially.

3. QUOTATIONS. Direct quotations can enhance a monograph, but authors should keep in mind that an abundance of quotes makes the reader's task more difficult. Quotations of more than five lines should be typed with a five-space indent on both left and right margins and still double spaced. Use of ellipses (...) in quoted passages should be kept to a minimum, but should be used in any quotation where words, sentences, or paragraphs have been omitted in the middle of the quote. Clearinghouse style for citing references in the text is as follows: "We suggest that whenever anyone sits down to write he should imagine a crowd of his prospective readers (rather than a grammarian in cap and gown) looking over his shoulder" (Graves and Hodge 1979, p. 19). (note punctuation) Always double check quotations for accuracy and remember to cite the page number.
4. PERMISSION TO QUOTE OR REPRINT. As the author, you are responsible for securing the permission to quote or reprint copyrighted material. Permission is required (a) when you borrow more than 150 words of text (or one percent of a short article), (b) when the material quoted is poetry or a table or chart, and (c) when the material is exceptional and indispensable to the quoted document. If you are sued for violation of copyright, in addition to quantitative measures, your use of the quoted material will be judged on the importance of the quotation to your work and the work from which you borrowed, and the effect of your use on the borrowed work's value.

To obtain permission, you must send a letter of request to the copyright holder, which is usually the publisher of a book, and both the editor and the author of a journal article. Your letter should contain the following information:

- your name and address
- author and full title of the publication or article to be quoted
- precise details of material to be quoted, i.e., page numbers, paragraphs, number of words, and any other identifying information to make clear exactly what you want
- author and full working title of publication to use quote
- publisher: ERIC Clearinghouse on Teacher Education, a nonprofit, federally funded educational institution, One Dupont Circle, Suite 610, Washington, DC 20036
- form of publication: monograph typed camera-ready
- printed copies (at least 100) to be distributed free of charge by the Clearinghouse; sale copies on microfiche, which are usually purchased by holders of the ERIC microfiche collection (most of whom are libraries); reprints available from the ERIC Document Reproduction Service

Also as the author, you are responsible for payment before publication of any fees required by the copyright holder. The Clearinghouse will assume responsibility of sending one confirmation copy of your publication to the copyright holder. Credit will be listed however the copyright holder desires, the standard form of which is:

Reprinted with permission from Title of Book or Magazine by Author(s), "Title of article where appropriate," copyright year, Name of Publisher.

The original signed letter granting permission to quote must accompany submission of your final manuscript to the Clearinghouse.

5. HEADINGS. The number of headings used to organize your presentation will depend on your content. Headings should be short, specific, and unambiguous in reflecting the passage to come. Humor in headings (when appropriate) is an added attraction for your reader, who is inclined to view the headings as an outline to your paper. The following levels of headings should allow sufficient latitude for you to emphasize successive points:

- a. First level--This is the title of your paper and should be typed centered in capital letters at the top of the first page.
- b. Second level--With two blank lines above and below it, this heading should be typed centered in capitals and lower case letters.
- c. Third level--With two blank lines above and one below, this heading is typed flush with the left margin in caps and lower and is underscored.
- d. Fourth level--This heading begins a paragraph; that is, it is indented and typed with an initial capital only; it is underscored and followed by a period and the text.

Headings such as "Introduction" and "Conclusion" are considered weak because they don't tell the reader anything about the content other than what it is. Be creative in writing headings. Note also that different levels of headings should be separated by text.

6. LISTS. Numbered lists should be indented in their entirety (note how text aligns in these guidelines). Lists included as part of a paragraph (a) should run into the sentence; (b) should have the letters enumerating the list enclosed in parentheses with no punctuation; and (c) should be separated by commas or semicolons. In a numbered vertical list, complete sentences require appropriate punctuation; incomplete sentences need no punctuation.

7. FOOTNOTES. In lieu of reference footnotes, the Clearinghouse has adopted the style of listing references at the end of the monograph. Footnotes, then, are used only to explain a text passage or to add information that is of interest, but is inessential to the text. An asterisk should be used in the text where the reader is referred to the footnote, which is preceded by an asterisk at the bottom of the page.

8. REFERENCES AND ADDITIONAL SELECTED READINGS. The reference list at the end of the monograph should contain only those works used in preparing the text and cited therein. If you want to assist your reader with more sources of information than your reference list, add a separate list of Additional Selected Readings. Entries in both lists should be arranged in alphabetical order by author's surname. When citing multiple authors, all names are inverted (last name first). Complete names should be used unless the author is known to prefer initials.

Bibliographical style for books includes: Author(s). Title. City, State of publication: Publisher, year.

Example:

Graves, Robert, and Hodge, Alan. The Reader over Your Shoulder: A Handbook for Writers of English Prose. 2d ed., rev. New York: Random House, Vintage Books, 1979.

Bibliographic style for magazines includes: Author(s).
"Article Title." Publication Title vol, issue (month and year):
inclusive pages.

Example:

Woodring, Paul. "Writing About Education." Phi Delta Kappan
62, 7 (March 1981):500-01. (ERIC EJ 000 000.)

(Note: Many journals are indexed in ERIC's Current Index to Journals in Education. The ERIC journal number gives the reader valuable information for use when seeking reprints. Because you are writing for the ERIC Clearinghouse on Teacher Education, you are expected to include these ERIC numbers in your bibliography.)

Bibliographic style for unpublished papers includes: Author(s).
"Title." Photocopied or Mimeographed. City, State: Institution,
year published.

Example:

Boardman, Sharon G. "Authors' Guidelines for Preparing
Information Analysis Products (IAPs)." Photocopied.
Washington, D.C.: ERIC Clearinghouse on Teacher Education,
1981.

Bibliographic style for dissertations and theses includes:
Author. "Title." Ph.D. dissertation, Name of University, year.
(Use same format for Master's thesis; if no date is provided, use
the abbreviation n.d.)

Bibliographic style for a paper presented includes: Author(s).
"Title." Paper read at Name of Conference or Workshop, day month
year, at Name of Institution. Photocopied or Mimeographed.

Example:

Public, John Q.; Public, Sally; and Popup, T.J. "The Letter
'A.'" Paper read at Mobilization for Better Writing
Workshop, 1 April 1981, Washington, D.C. Photocopied.
(ERIC Document Reproduction Service No. ED 000 000.)

(Note: In many cases, unpublished papers are indexed and abstracted
in ERIC's Resources in Education. If so, you must list this
availability (as above), because ERIC may be the only source for
reprints. ERIC's cumulative title index is the handiest reference
to the documents in the system.)

Bibliographic style for articles in published collections
includes: Author(s). "Article Title." In Title of Publication,
edited by Name of Editor(s), pp. inclusive. City, State:
Publisher, year.

Example:

Public, Sally. "If Only I Could Write." In Writer's Block,
edited by John Q. Public and T.J. Popup, pp. 73-9.
Wano, Kan.: St. Francis Publishers, 1950.

In summary, if you are not sure that a bit of information is
needed for a citation, put it in anyway and let the editor decide.
Also, keep in mind that the Clearinghouse does not have the staff
to check the accuracy of your references. If a name or a title is
misspelled or the date of publication is wrong, your readers will
be misled. Be advised to double check the accuracy of references
and also to cross-check names and dates referred to in the text with
names and dates in your reference section. If you have any
questions, call your editor.

ERIC Requirements

1. The ERIC Clearinghouse on Teacher Education operates under Federal contract no. 400-78-0017 with the National Institute of Education, U.S. Department of Education. Authors are expected to observe appropriate provisions of the U.S. Civil Rights Act and other pertinent acts of Congress.
2. Because your work is commissioned and produced with Federal funds, you are required to reassign your copyright to the ERIC Clearinghouse on Teacher Education, agent for the United States Government. Your work will be in the public domain. A separate contract is used for this reassignment; you must sign the contract before publication.
3. The ERIC Clearinghouse on Teacher Education operates on a one-year contract that runs from March 1 to February 28 (29). Projects begun in a contract year must be completed in that year. In conjunction with the Clearinghouse editorial staff, you have agreed to meet a set schedule for delivery of draft and final manuscripts. Failure to meet your schedule may result in cancellation of your contract.

On Writing in General

Every author has his or her personal style of writing (literary expression), a fact of which editors are well aware. However, editors also must think of the reader who is inundated with papers of every description, journals, magazines, brochures, pamphlets, newspapers, etc. (You probably experience the same flood of reading material, so you know that other people are likely to have little time to devote to your monograph if its not a hot, burning issue that interests them personally.) Clarity in writing is as important as accuracy in research. You should understand that your manuscript will be edited for clarity and conciseness in addition to the usual editing for grammatical mistakes, punctuation, and spelling. However, you will be given the opportunity to proofread a typescript of your manuscript after editing and before it is published.

The best advice on writing appears in the introduction to The Elements of Style by William Strunk, Jr. and E.B. White (1979):

Vigorous writing is concise. A sentence should contain no unnecessary words, a paragraph no unnecessary sentences, for the same reason that a drawing should have no unnecessary lines and a machine no unnecessary parts. This requires not that the writer make all his sentences short, or that he quoid all detail and treat his subjects only in outline, but that every word tell.

Many of the suggested readings on the next page also provide valuable tips on writing. Check them out before you begin writing.

NEW ACQUISITIONS ARRANGEMENTS

Seven new Facility Acquisitions Arrangements should be added to the EAA List as follows:

- EFAA 251: Agency for Educational Development, Clearinghouse
on Development Communication
Level 1 Blanket release signed by J. Merrick, Director
- EFAA 252: The Foundation for the Advancement of Computer-Aided Education
Individual Release
- EFAA 253: Council for Basic Education
Blanket pending
- EFAA 254: Massachusetts State Dept. of Education,
Bureau of Research and Assessment
Level 1 Blanket release signed by M. Towle
- EFAA 255: Development Associates, Inc.
Blanket pending
- EFAA 256: Arizona State Dept. of Education
Individual Release
- EFAA 257: Education Development Center, Women's Education
Equity Act Publishing Center
Level 2 Blanket release signed by T. Sidberry for sales publications

Change in EFAA 172: Facility has on file a Level 1 Blanket release signed by D. Bassett, Colorado Dept. of Education, for all Colorado State Dept. of Education publications received by the Facility from the Colorado State Library.

POLICY STATEMENTS

POLICY STATEMENTS—MORE ABOUT COPYRIGHT

When both Government and non-government funds are involved in the production of a document, a copyright release should generally be obtained in order to be safe. Government funding may have been only minimal, and the author or institution may have assumed copyright ownership.

When it is indicated that a paper or other document is "based on" research supported by the National Institute of Education, or other Government agency, a copyright release should be obtained. The author may have produced the document independently of Government funding.

...Bob Chesley and Frank Bryars
(Central ERIC)

ACTION ITEMS

VOCABULARY STATUS REPORT

The June 1981 Vocabulary Status Report (VSR) is displayed as Attachment 1. It contains six "feedback pages" for the previously issued April 1981 report, as well as twelve pages of new recommendations received by the Facility Lexicographic staff between May 12 and June 10, 1981. Each member of the Vocabulary Review Group (VRG) should vote "aye" or "nay" on the new recommendations and return his/her responses to the Facility by July 17. It is unnecessary to return the feedback pages.

Responses on the April 1981 report were received from eighteen VRG representatives. Votes shown for a particular entry may not total eighteen, however, because "no opinion" or "don't know" votes are not tallied. Nonrespondents this month were EC, IR, PS, Smarte, and Edwards.

...Jim Houston (ERIC Facility)

REQUEST FOR FACT SHEET SUBJECTS

It has been helpful in planning new publications for the Clearinghouses to know the subjects of all forthcoming major Clearinghouse publications. We would now like to extend this level of awareness even further by requesting Clearinghouses to report, for the EAB, the subjects of Fact Sheets when work on them is initiated. This will prevent possible duplication and may also encourage assistance from other Clearinghouses. A Fact Sheet subsection in the EAB will be initiated. For the next issue, please report Fact Sheets begun since January. Also report when Fact Sheets are published.

...Bob Chesley (Central ERIC)

CONTRACT RENEWALS AND COMPETITIONS

CONTRACT RENEWALS FOR FL AND RC

The National Institute of Education has renewed the contracts for the ERIC Clearinghouse on Languages and Linguistics (June 1, 1981 - May 31, 1982) and the ERIC Clearinghouse on Rural Education and Small Schools (April 1, 1981 - March 31, 1982). The following major Clearinghouse publications and special projects are being funded:

- ERIC Clearinghouse on Languages and Linguistics

- Special Projects

1. Operation of the Council of ERIC Directors
2. The Development of Scope Notes for Certain Language Names in the Identifier Field

- Major Clearinghouse Publications

1. Classroom Adaptation of Notional/Functional Concepts
2. Creative and Imaginative Activities for the Foreign Language Classroom
3. Teaching English to Young Children: K-2
4. Foreign Language Teacher Certification: State of the Art
5. Teaching ESL Literacy
6. Teaching FL Composition: A Text Editing Approach
7. The Listening Skill in ESL: Theory and Practice
8. Training Translators and Interpreters in the U.S.

- ERIC Clearinghouse on Rural Education and Small Schools

- Special Projects

1. Spanish translation of How to Use ERIC
2. Spanish translation of How To Start an ERIC Collection

- Major Clearinghouse Publications

1. Continuing a College Education: A Guide for the American Indian Student
2. Special Education and the Mexican American Child
3. A Handbook on Migrant Parents' Rights and Responsibilities
4. Role of the Rural School Secondary Principal

...Pat Coulter (Central ERIC)

COMPETITIONS UNDERWAY FOR THE CE AND EC CLEARINGHOUSE CONTRACTS

Two Requests for Proposals (RFPs) are on the street for recompeting the ERIC Clearinghouse on Adult, Career, and Vocational Education and the ERIC Clearinghouse on Handicapped and Gifted Children. The closing dates for submission of proposals are June 9, 1981 (CE) and June 17, 1981 (EC).

All ERIC Clearinghouses will be interested to learn of a recent Government contracting regulation that will affect new ERIC Clearinghouse contracts: it requires that contracts be awarded for a 3-year time period instead of 1 year with four options to renew, as has been the case in recent competitions. This means that proposals must project work to be done over the 3-year period and must include a 3-year budget to cover that work. It also means, however, that Clearinghouses will not have to submit new proposals and budgets each succeeding year, although adjustments/modifications to the contract may be initiated by either party (the Government or the contractor) during the 3-year time period.

...Mildred Thorne (Central ERIC)

MAJOR CLEARINGHOUSE PUBLICATIONS

CS - NEW PUBLICATIONS

Learning to Spell by Richard Hodges (May 1981) is available from the National Council of Teachers of English, No. 27894 for \$2.00 for members and \$2.50 for nonmembers. This new TRIP (Theory and Research Into Practice) booklet reviews important theoretical views and emerging research evidence about the nature of English spelling and its acquisition, and considers their implications for teaching spelling. The major portion of the booklet presents word games and other activities as examples of exercises that can both enhance the young child's growing awareness of words and how they are spelled and provide enjoyable written language encounters.

...Mary K Monteith (CS)

JC - NEW PUBLICATIONS

New Directions for Community Colleges: Occupational Education was recently published by Jossey-Bass, Publishers. The sourcebook included topics such as articulation with industry, vocational education and jobs, college responsiveness to community needs, and the marriage of the humanities and the trades.

...Gayle Byock (JC)

IR - NEW PUBLICATIONS

Computer-Based Education. The Best of ERIC, June 1976-August 1980 by Keith A. Hall is available from Syracuse University Printing, 125 College Place, Syracuse, New York 13210. Its price is \$6.50 (IR-48), (ED 195 288; 96 pages). A brief discussion of trends in computer-based education is followed by a

bibliography of more than 200 abstracts and annotations of reports, reviews, conference proceedings, other ERIC documents, and journal articles. Items are listed in categories including new technology, new audiences, content area applications, developmental efforts, basic research, and collections of papers and reports.

School Library Media Centers: Research Studies and the State-of-the-Art by David V. Loertscher, Editor is also available from the Syracuse University Printing Services. Its price is \$6.50 (IR-49), (ED 195 287; 62 pages). Six capsulized reports on research in learning resource centers include preview questions, introduction, methodology, findings, conclusions, marginal notes, and a pathfinder. Guidelines for local research projects and the implementation of change are also provided.

Published by IR for the International Division of AECT, Masters Curricula in Educational Communications and Technology: A Descriptive Directory, March 1981 contains listings of 154 programs, including two in Australia and one in Canada, Colombia, Hong Kong, and Nigeria. These listings are designed for use by students and their faculty advisers, and the information on each program includes a list of courses, prerequisites, acceptance of transfers, program duration, summer sessions, thesis requirements, program content, major and minor fields, course waiver policies, areas of emphasis within the curriculum, instructional techniques used, grading and evaluation, and number of faculty. A separate list of faculty includes their academic preparation and current research interests. Any ERIC Clearinghouse desiring a complimentary copy should contact either Barb Minor or Bruce Clark; additional copies are available through Information Resources Publications, 130 Huntington Hall, Syracuse University, Syracuse, New York 13210 for \$12.00 each.

...Barbara Minor (IR)

RC - NEW PUBLICATIONS

Resolving Discipline Problems for Indian Students: A Preventive Approach by Barbara Lockart is priced at \$6.90 (50p.; ED 197 907). Cultural differences concerning discipline methods are described in terms of the American Indian student. Traditional Indian disciplinary methods are presented along with suggested ways for parents, students, and teachers to cope with the problems that occur in the classroom setting.

Theories and Research in Second Language Acquisition by Ricardo J. Cornejo and Luz O. Cornejo is priced at \$9.55 (101p.; ED 198 982). Intended for students, teachers, parents, and administrators in charge of educating bilingual children, the monograph provides a summarized account of information available regarding theories and research in second language acquisition. The book is divided into the following four chapters: an historical overview; modern theories, research, and controversies; recent research on first and second language acquisition; and summaries of fifty exemplary research projects on language acquisition.

Hispanics, Engineering, and the Sciences: A Counseling Guide by Roy C. Rodriquez and Robert L. Gallegos is priced at \$6.85 (51p. ED 197 905). Fewer than 1% of all practicing scientists are Hispanics. In the field of engineering, Hispanics represent only 3.2% of all full-time students, 1.2% of all masters

students, and .7% of all doctoral students. Hispanic underrepresentation in engineering and science results from several factors. These factors are discussed and recommendations for solutions are presented in this monograph.

Community Resources for Rural Social Studies Teachers by A. Earl McCain and Murray Nelson is priced at \$6.20 (34p. ED 197 906). This guide provides an inventory of over 100 kinds of readily available community resources for elementary and secondary social studies teachers, especially those in rural areas.

The Science Program in Small Rural Secondary Schools by R. W. Colton is priced at \$6.40 (49p.; ED 197 913). Rural schools may have an advantage over urban schools in science teaching if sciences are perceived as means of exploring our surroundings, are presented as many viewpoints of one overall picture, and are taught in a form that deals with human situations. Collectively taught, rural science curricula can include study of agricultural ecology, rural biology, rural science, rural studies, world food supplies, the energy crisis, and solar energy. This teaching guide provides specific topics for each course suggested.

Meeting Educational Needs in Rural Communities Confronting Rapid Growth by Lynne Clemmons Morris and Judson Henry Morris, Jr. is priced at \$7.55 (55p.; ED 199 002). A strategy to enhance community development can help rural schools in rapidly growing areas meet the changing educational needs of their communities. As rapid growth manifests itself in a community, schools can provide leadership and decision making simulations to improve the community's ability to respond to growth and related change. Discussion of the types of problems faced in rapid growth communities and suggested solutions are provided in this book.

Special Funding for Small and/or Isolated Rural Schools by Lyle O. Wright is priced at \$8.35 (53p.; RC 012 498). Chief state school officers in all 50 states were surveyed to gather information regarding various states' funding arrangements for small and/or isolated rural schools and to develop a financial planning tool for use by state legislators and boards of education. Data were gathered from every state except Hawaii. Completing the study is a detailed explanation of each states' funding arrangement.

Directory of Outdoor Education Internship Opportunities by Russell Bachert is priced at \$8.50 (91p.; ED 197 889). In an attempt to facilitate the professional preparation of outdoor educators, the directory lists and describes 46 outdoor or environmental education internship programs in 21 states.

The above RC publications are available from ERIC/CRESS, Box 3AP, Las Cruces, New Mexico 88003.

...Amelita Hill (RC)

SE - NEW PUBLICATIONS

Recent publications produced by the ERIC Clearinghouse for Science, Mathematics, and Environmental Education are announced in a new publication list released this spring. Free copies of the list (which supplements previous lists) are available from the SMEAC Information Center, 120 Chambers Road, Room 310, Columbus, Ohio 43212.

ERIC/SE and ERIC/RCS (the ERIC Clearinghouse on Reading and Communication Skills) have cooperated to produce a publication entitled Epecially for Teachers: ERIC Documents on the Teaching of Mathematics 1966-1980. This publication contains practical materials for teachers. Abstracts are grouped by topics; subject and author indexes are included.

This publication can be obtained on microfiche from EDRS and in paper copy (\$6.00) from the SMEAC Information Reference Center.

...Robert W. Howe (SE)

SO - NEW PUBLICATIONS

Social/Political Education in Three Countries: Britain, West Germany, and the United States (SO 013 204), edited by Irving Morrisett and Ann M. Williams, is based on the proceedings of an international conference of educators held in Gildford, England in July 1980. The introductory overview was written by Dr. Morrisett, Director of the ERIC Clearinghouse for Social Studies/Social Science Education and Executive Director of the Social Science Education Consortium, Inc. (SSEC), primary sponsor of the conference and the host organization for the Clearinghouse. The book is being distributed through the SSEC publications program (ISBN 0-89994-253-9, \$14.95).

Essential Social Studies Skills for Senior High School Students (SO 013 356) edited by Stuart Stockhaus, is a spiral-bound handbook containing test items and reinforcement lessons for four major categories of social studies skills: locating information, evaluating information, using time and place, and analyzing social problems. Each broad skill area is divided into several subskills. Between one and thirty lessons are devoted to each subskill. This handbook is also available from the SSEC (ISBN 0-89994-262-8, \$15.00.)

To order either book, send prepayment or institutional purchase request to SSEC Publications, 855 Broadway, Boulder, Colorado 80302.

...Ann Williams (SO)

NETWORK NEWS

CLEARINGHOUSE INPUT FOR INTERCHANGE REQUESTED

Several of the Clearinghouses having access to the electronic mail system (EIES) have submitted their Interchange input using the system. Bob Howe of the ERIC Clearinghouse for Science, Mathematics, and Environmental Education, has suggested that Clearinghouses submitting input to the EAB and desirous of having the same article appear in Interchange send one message to their project monitor and another to the ERIC Facility to the attention of the Interchange editor.

Clearinghouses not currently up on the Electronic Mailbox or that wish to mail their input for Interchange may duplicate the Interchange Article Submission Form which appeared in the May EAB (Attachment 2, page 33) and submit it to the Facility.

The June Interchange is just being completed. The deadline for input for the September issue is September 1. Please mark your calendars.

...Carolyn Weller (ERIC Facility)

PUBLICATION TYPES IN THE ERIC DATA BASE

The coding of documents by Publication Type has been with us now for over six years. Most of the categories were added in September 1974, but the scheme was expanded in July 1979 when thirteen new categories were added.

In order to see whether the desired differentiation of documents was taking place, a statistical run was made on the RIE file extending through December 1980. The results of that run are presented in Attachment 2.

As with previous examinations of this data, Research/Technical Reports are holding steady at around 30-33% of total input. The spread seems adequate across the other categories and all categories were put to use. Please note that use of the Miscellaneous category occurred almost entirely prior to the 1979 expansion.

...Ted Brandhorst (ERIC Facility)

DIALOG TO BECOME FULL-FLEDGED SUBSIDIARY OF LOCKHEED

The DIALOG information retrieval service, once a virtually one-man research effort within Lockheed, has confirmed its commercial success by becoming a full-fledged wholly-owned subsidiary of Lockheed, effective June 1, 1981. The name of the new company is DIALOG Information Services, Inc. A news release containing complete details appears as Attachment 3.

...Ted Brandhorst (ERIC Facility)

CLEARINGHOUSE STATISTICAL DATA—1980

A summary of statistical data from 1980 quarterly reports is contained in Attachment 4. It is clear that a few categories are being interpreted differently by some Clearinghouses. We hope the soon-to-be revised ERIC Administrative Guidelines will clarify these questions.

...Bob Chesley (Central ERIC)

ERIC/SMEAC INITIATES SUBSCRIPTION PLAN FOR INFORMATION BULLETINS AND FACT SHEETS

During the past two years, requests for SMEAC Information Bulletins and Fact Sheets have frequently exceeded 80,000 and on several occasions exceeded 100,000. Federal (NIE) support provided funds for about 3,000 copies of each

issue and other funds provided support for 17,000 to 22,000 copies of each issue; many people requesting copies were told no more were available and that they would have to order a set through EDRS.

Due to budget restrictions with ERIC and with our local funds, we could not expand our free bulletin and fact sheet service; hence, we decided to go with a subscription plan. Subscriptions for the ERIC/SMEAC bulletins go for \$3.00 for four issues. Fact sheets are available in science (4 for \$1.00), mathematics (4 for \$1.00), and environmental education (4 for \$1.00). A limited number of bulletins and fact sheets are being distributed free of charge in 1981 to ERIC SOCs, state departments of education, professional associations, federal offices, and others. We plan to do a survey of about 1,200 of these users to determine how they use the bulletins.

We sent announcements to about 25,000 people and agencies; responses are being received at a very good rate and subscriptions are running ahead of our projected rate. We are receiving some complaints about charges, but complaints are running only about 3% of the responses.

We estimate this procedure should save ERIC/SMEAC and our local funds between \$50,000 to \$60,000 in personnel, materials, and postage. Early responses suggest the procedure will reduce our contact with users by about 20%.

...Robert W. Howe (SE)

ERIC/RCS LOCAL ADVISORY BOARD IS ALMOST FIVE YEARS OLD

For the past four and one-half years a local Advisory Board of practicing teachers has met with Karl Koenke, Associate Director, and other staff members of ERIC/RCS to evaluate and discuss the needs of teachers that might be addressed through the publications and services of the Clearinghouse. This year, specific topics discussed by the Board members included thoughts on the future of the profession, ways to secure documents from teachers, the selling of computer searches, and the use of computers in the classroom. The Board members reacted to our recent publications, a list of proposed publications, and the special project bibliography. The seven members of the board represent diverse areas of interest and specialization within our scope and include a first grade teacher, a junior high school reading teacher, the chair of a high school English department, a junior college reading instructor, a librarian who is coordinator of staff development for a large school district, an elementary curriculum consultant, and a district language arts specialist from the Illinois Office of Education. Additionally, each year two members of the local Advisory Board also serve on the ERIC/RCS National Advisory Board.

THE RIPPLE EFFECT WORKS...TA WORKSHOPS CONTINUE

Last year, in conjunction with Theresa Montgomery of Howard University, Laura Ciarniello developed a workshop on "How To Use ERIC" for Teacher Aides (TAs) in Howard University's Education Program. The TAs then instructed undergraduates on how to use ERIC. The ripple effect worked well and Ms. Ciarniello contacted the TA's at intervals throughout the year to be sure all was well. The TA workshop was recently evaluated by all parties concerned

and it was decided to use the same program with the new TAs for the 1981-82 school year. The idea ripples on!

...Laura Ciarniello (HE)

EIGHT ERIC/HE PUBLICATIONS CITED

The ERIC Clearinghouse on Higher Education has had eight of its recent publications cited in the newly published (January 1981) Collective Bargaining in Higher Education, Bibliography No. 8-9. Among the topics covered in these publications are middle managers, administrator evaluation, faculty workload, academic planning, and tenures. Several of the HE publications cited are from the 6-page Research Currents Series which has been so popular among faculty and administrators for several years.

...Lynn Barnett (HE)

SO NOW SENDS WEEKLY RIE INPUT SHIPMENTS VIA WORD PROCESSING TELEPHONE COMMUNICATIONS

Starting with the first shipment in June of 1981, the ERIC Clearinghouse for Social Studies/Social Science Education sent to the ERIC Facility both RIE and CIJE shipments across the telephone lines using its IBM System 6 as a word processor. SO has consolidated its operations to include a word processing center for acquisitions letters, user service products, Clearinghouse publications, mailing list and typing of the shipment. At this date, we estimate that the consolidation will save approximately \$4,000 annually. For any further information, contact Jim Davis.

...Jim Davis (SO)

HE PREPARES A BIBLIOGRAPHY FOR UNESCO

The ERIC Clearinghouse on Higher Education was contacted by the Office of International Affairs of the Department of Education to help prepare materials for an upcoming UNESCO meeting. Although HE was not invited to attend the November 1981 meeting in Geneva, Switzerland, it did prepare a bibliography on "the development of U.S. higher education" in the past two years. UNESCO specifically asked for the inclusion of non-governmental publications. The annotated bibliography, which included several Clearinghouse publications, is planned as part of Progress of Education in the United States, a publication of UNESCO's International Bureau of Education.

...Lynn Barnett (HE)

ENTHUSIASTIC RESPONSE TO ERIC MINI-FILE BY OKLAHOMA LIBRARIANS

Efforts by the ERIC Clearinghouse for Social Studies/Social Science Education to cooperate with the Oklahoma State Capacity Building Projects have paid off. A very supportive letter was sent to me by the Oklahoma project director describing a workshop provided by SP (see Attachment 5). The workshop focused on ERIC and on the Mini-File. I would like again to encourage all Clearinghouses to explore possible cooperation with Capacity Building Projects in SEAs.

...Bob Chesley (Central ERIC)

PORTABLE FICHE READERS

Library Technology Reports (November-December 1980) includes evaluations of four portable microfiche readers in the \$200 to \$300 range. In addition to a general description of each, information is provided on electrical requirements, the screen, fiche transport and focusing mechanisms, image rotation, projection lenses, cooling, light source, fuse, accessories, operation, and laboratory observations. The four models are the MAP Cube, MicroDesign Portable, Realist Agent, and Topper Dual.

...Marilyn Laubacher (IR)

SUMMER HOURS FOR CE, CG, AND UD

Three ERIC Clearinghouses have reported changes in their hours for the summer:

- CE - 7:30 - 4:30 - June 15 to the beginning of the fall semester.
- CG - 7:30 - 4:00 - Until the end of August.
- UD - 8:30 - 5:30 - June 5 - August 28. The Clearinghouse will be closed on Fridays. Friday calls can come in on (212) 678-3433, 3437, or 3438. The will be monitored by a special Teachers College operator; calls can be returned on Mondays.

...Carolyn Weller (ERIC Facility)

NEW PRODUCTS/NEW IDEAS

DIRECTORY ASSISTANCE FOR CIJE USERS

The ERIC Clearinghouse on Counseling and Personnel Guidance has compiled a journal directory for its users, which provides the locations of CIJE journals available on the University of Michigan campus. Information about journal locations is taken from the journal directory at the graduate library, which is the central source for all library holdings on the University of Michigan campus. The CIJE directory contains an abbreviations key for all the campus libraries (i.e., Graduate Library - GL), a map showing their location, and an alphabetical listing of the ICJE titles. It is updated once a year. Resource users find this a very handy tool for locating desired materials quickly.

...Carol S. Mills (CG)

RIE/CIJE RETROSPECTIVE CUMULATION ON MICROFICHE

The Oryx Press cumulation of the RIE file (1966-1980) and the CIJE file (1969-1980) on microfiche continues to find a warm reception by users and is moving closer to its publication date. The latest flyer from Oryx on this ambitious project is reproduced as Attachment 6.

...Ted Brandhorst (ERIC Facility)

CE USES WORD PROCESSOR FOR CLEARINGHOUSE PUBLICATION PRODUCTION

The ERIC Clearinghouse on Adult, Career, and Vocational Education has begun using a word processor to reduce production time on major Clearinghouse publications. Following an initial edit, the paper is prepared for input to the word processor by the Clearinghouse at the same time it is being reviewed by three individuals external to the project. Once review of the paper is completed, it is quite simple to make suggested changes or revisions, as well as perform further editing on the paper, using the word processor. In addition, papers will be automatically typeset using word processor output when they are ready for publication.

...Susan Imel (CE)

ERIC/EECE INTRODUCES "READY SEARCHES"

The publications office of the College of Education, in cooperation with the ERIC Clearinghouse on Elementary and Early Childhood Education (ERIC/EECE) is now selling duplicate printouts from recent EECE computer searches of the ERIC data base. These printouts, called "Ready Searches," contain from 35 to 75 citations for ERIC documents and journal articles. The Ready Searches cost \$10 each and are mailed within 48 hours of receipt of order. Some of the topics for which Ready Searches are currently available include: effects of divorce on children; computers in education; day care staff training; and stress in schools.

...Janet Bowermaster (PS)

KEEPING TRACK OF CLEARINGHOUSE PUBLICATIONS AT ERIC/CAPS

The ERIC Clearinghouse on Counseling and Personnel Services has a new way of instantly "eye-balling" progress on Clearinghouse publications. In the old days, dates slipped by and authors remained unprodded because contracts and correspondence were kept in folders hidden away from view—organized, neat, labeled, but easily forgotten in the press of seemingly more important matters. CAPS now has a huge (6' x 9') chalkboard on which proposed titles and authors' names, and dates regarding all the nitty-gritty things like drafts, reviews, payments, editing, typing, and printing are displayed.

It's easy now to call authors if they are even a day late, and very easy to know just where we are in the publication process on any of our Clearinghouse publications. Knowing that we are concerned and on top of agreed-upon dates also seems to help authors adhere more closely to their commitments.

...Libby Benjamin (CG)

ERIC DRAWING

The ERIC Clearinghouse on Rural Education and Small Schools (ERIC/CRESS) recently developed a means to keep track of the number of persons visiting our booth during conferences and to increase attendance. Have a drawing! We gave away a free computer search! The response to our give-away was excellent.

The visitors were requested to give a search topic (if they knew what they wanted) and write down their name, address, and phone number. The search topics will provide input for off-the-shelf items and the names were added to our mailing list (which we are trying to build up to strengthen our publications marketing project).

A form letter, announcing the name of the person who won the search, was sent to all who had signed up for the drawing.

...Amelita Hill (RC)

"SPOTLIGHTING" CAPS

As part of its outreach efforts, the ERIC Clearinghouse on Counseling and Personnel Services has created multi-colored information cards each entitled "Spotlight." Spotlights focus on ERIC documents targeted to current topics of interest for the purpose of helping professionals. After a topic has been selected, Clearinghouse staff review recent issues of RIE for appropriate documents. Our 1981 titles include: Counseling Bilingual Students, Counseling Displaced Homemakers, Counseling for Business and Industry, Counseling Reentry Students, Counseling the Exceptional, and Counseling to Reduce Family Violence.

Spotlights are available to our patrons, are included in workshop and information packets, and are eye-catching for our bulletin board readers. (Samples of our Spotlight collection are enclosed; ink and paper colors have been written on each Spotlight to provide you hopefully with a stronger visual image.) (See Attachment 7.)

...Doris Priehs (CG)

PERSONNEL NEWS

JANE McCLELLAN APPOINTED TO STEERING COMMITTEE

The ERIC Technical Steering Committee is comprised of three regional representatives, one Facility representative, and a chairperson. Jane McClellan from the Clearinghouse on Reading and Communication Skills has recently been appointed to represent the midwest region. Jane has been with the ERIC system a total of nine years. Jane has worked at demanding positions over the years (abstracting, indexing, coordination of publication production, vocabulary improvement, and administration.) Jane will be replacing Janet Thorngate, who will be missed for her outstanding contributions to the Steering Committee and the ERIC system.

Other Steering Committee members include Sydney Meredith, Marilyn Laubacher, Marilyn Shorr, and Grace Sundstrom.

...Judi Conrad (Central ERIC)

MARY NIEBUHR APPOINTED TO ERIC STEERING COMMITTEE

Mary Niebuhr (ERIC Clearinghouse on Languages and Linguistics) has been appointed to the ERIC Technical Steering Committee. The Steering Committee will continue to be chaired by Marilyn Shorr (ERIC Clearinghouse on Higher Education) through the Regional Technical Meeting next spring. In June 1982 Mary Niebuhr will assume the chair.

...Bob Chesley (Central ERIC)

ANITA COLBY TO HEAD VOCABULARY REVIEW GROUP

Lynn Barnett (ERIC Clearinghouse on Higher Education) will continue to chair the Vocabulary Review Group (VRG) until the new Thesaurus is produced at the end of the year. In March 1982 Anita Colby (ERIC Clearinghouse for Junior Colleges) will become chairperson of the VRG.

...Bob Chesley (Central ERIC)

JANET THORNGATE LEAVES ERIC (AGAIN)

Janet Thorngate, who has the sole (I think) distinction of being the only person to work at three ERIC Clearinghouses, has left the ERIC Clearinghouse on Adult, Career, and Vocational Education for New Jersey. Janet's skills and talents in abstracting, training, and vocabulary building will be greatly missed by the whole ERIC system. We will miss her quiet wit, her stability, her sense of humor. We will miss Janet.

...Judy Wagner (CE)

ERIC/CEM HIRES TWO DOCUMENT ANALYSTS

Roger Walke joined the ERIC Clearinghouse on Educational Management staff in May as a document analyst. He recently completed a job as a research analyst for the Oregon Bureau of Labor and Industries. In 1979 he produced for the Oregon State System of Higher Education a report informing prospective handicapped students of the services available to them in Oregon's public colleges and universities.

Wynn De Bevoise, a former teacher of English as a Second Language in Eugene at the secondary and community college levels, has been a part-time document analyst with ERIC/CEM since February. Before coming to Oregon in 1979, she had taught English in Thailand and Chile. She received a B.A. in creative writing from Stanford University in 1966.

...Stuart Smith (EA)

STAFF CHANGES AT ERIC/EECE

Lisa Zschunke has joined the ERIC Clearinghouse on Elementary and Early Childhood Education's clerical staff, assuming responsibility for the final stages of RIE and CIJE preparation. Lisa has a bachelor's degree in English Literature from the University of Illinois. She replaces Rita Nason who resigned to return to New York.

Jane Amundsen in ERIC/EECE's new abstractor/indexer. Jane was the director of a local day care center and has a bachelor's degree in elementary education and a master's degree in child development. Her degrees are from the University of Illinois.

...Janet Bowermaster (PS)

FIFE APPOINTED TO AIR COMMITTEE

Jonathan D. Fife has been appointed to the Association for Institutional Research Articulation Committee. The task of this Committee is to identify ways that the major higher education research associations (Association for Institutional Research, American Educational Research Association, Society for College and University Planning, and the Association for the Study of Higher Education) can work together to improve the quality of their publications, minimize costs, and reduce unnecessary duplication of effort.

...Laura Ciarniello (HE)

JAMES HONAN OF HE APPOINTED HEG SECRETARY

Research Assistant, James Honan was elected secretary of the Higher Education Group of Washington, D.C. (HEG) at their monthly dinner meeting on June 9, 1981. Congratulations, Jim!

...Laura Ciarniello (HE)

PAULINE COCHRANE NAMED OCLC VISITING SCHOLAR

Pauline Cochrane, Associate Director of the ERIC Clearinghouse on Information Resources, views her appointment as Visiting Scholar for 1981 with OCLC's Research Department as a tremendous opportunity to be involved in the development of online catalogs. Pauline's primary interest is to better understand how people use catalogs and how they can be made easier to use. She will be working closely with the Retrieval Advisory Group at the Library of Congress as they study current online catalog use in the LC Computer Catalog Center.

...Barbara Minor (IR)

SOME PROFESSIONAL ACTIVITIES AT JC

Dr. Florence B. Brawer made an accreditation visit to Santa Barbara City College in April. Dr. Arthur Cohen and Dr. Brawer have been asked to give a "Functional Literacy" presentation in which they discuss some of their findings from recent research projects. The presentation will be at the Literacy in the 1980's at the University of Michigan.

Dr. Jack Friedlander has been working with Clark County Community College on a project to improve the quality of education provided to students. Dr. Friedlander is presenting the results to the Board of Trustees and to the Postsecondary Board of Nevada.

Assistant Director Gayle Byock has been appointed a member of the Publications Committee and the Newsletter Committee of Division J, AERA's Postsecondary Division. The Community College Special Interest Group recently joined the Division.

...Gayle Byock (JC)

DIRECTOR OF JC PERFORMS MARRIAGE CEREMONY!

Dr. Arthur M. Cohen is very versatile, but his newest vocation is quite unusual. He obtained a special license to perform the ceremony for Dr. Jack Friedlander's marriage to Marcie Cox on Sunday, June 7, 1981. Dr. Friedlander is a staff writer for the ERIC Clearinghouse for Junior Colleges and a former student of Dr. Cohen. Staff members of the Clearinghouse were at the wedding to cheer on both Dr. Friedlander and Dr. Cohen...and, of course, Marcie.

...Gayle Byock (JC)

PERSONNEL CHANGE AT SO

Char Purvis will retire from her position as Administrative Assistant effective June 11. Cindy Cook will be replacing Char and will have the title Administrative Secretary. We will miss Char and wish her the best in her retirement. We look forward to having Cindy with us. Cindy has been a member of the Social Science Education Consortium staff for the past seven years.

...Jim Davis (SO)

MEETINGS, CONFERENCES, SPEAKING ENGAGEMENTS

ERIC EXPLAINED TO CINTERFOR

Juliet Miller participated in a two-day meeting for representatives of the technical committee of CINTERFOR* of the International Labour Organisation (ILO). At the meeting, which was attended by representatives of twenty-six countries, Joel Magisos presented information about ERIC. Both Dr. Miller and Dr. Magisos held individual discussions with participants about possible uses of ERIC on an international basis.

*CINTERFOR = one of the ILO's regional vocational research and development centers, headquartered in Montevideo.

...Judy Wagner (CE)

IR HITS THE TRAIL

IR activities at the Association for Educational Communications and Technology convention, held in Philadelphia, Pennsylvania on April 5-10, 1981, included both an exhibit and a series of workshops. Both sessions of "ERIC Basics" were well attended, and the microcomputer projects aroused a great deal of interest. Franz Frederick, author of the recent IR/AECT publication Guide to Microcomputers, sat in on one workshop and helped field questions on the potential of microcomputers for online searching.

On IR's conference schedule are Special Libraries in Atlanta, June 13-18; American Library Association in San Francisco, June 26-July 1; and the Association of Jewish Libraries in Liberty, New York, June 21-24, where ERIC will have a prominent place on the program as well as an exhibit.

...Barbara Minor (IR)

WORKSHOP AT THE UNIVERSITY OF SOUTHERN MISSISSIPPI

Nevin Robbins, former Assistant Director at the ERIC Clearinghouse on Adult, Career, and Vocational Education, has recently completed a training session on ERIC for over 70 faculty members at the University of Southern Mississippi. The seminar used material adapted from the training module of the ERIC Clearinghouse on Teacher Education, RIE and CIJE issues, and other material loaned by Oryx Press and the ERIC Facility, and Nevin's own background and enthusiasm. It was a highly successful meeting. Nevin has offered to summarize the content and format in a brief report which may be of use to others. Meanwhile, if you would like to put Education School faculty in touch with him, the address is:

College of Educational Psychology
Adult Education
University of Southern Mississippi
Southern Station, Box 5154
Hattiesburg, Mississippi 39401
Telephone: (601) 266-4147

...Bob Chesley (Central ERIC)

EC DEVELOPS SELF-CONTAINED WORKSHOP

In April, the ERIC Clearinghouse on Handicapped and Gifted Children exhibited at the Council for Exceptional Children's Annual International Convention in New York. Lynn Smarte gave a student-oriented CEC-sponsored workshop session at the convention entitled, "Discovering Special Education Resources: A Workshop on ERIC/ECER." This will soon be available as a self-contained workshop for use by individuals or groups.

...Dorothy Bloch (EC)

UD HOSTS TWO ADVISORY COMMITTEES

In addition to regular contacts with its own Advisory Board, the staff of the ERIC Clearinghouse on Urban Education invited two ad hoc advisory groups to a day-long meeting at the Clearinghouse. One group was made up of individuals representing seven ethnic professional associations and the other was made up of urban educators.

Meeting within a week of each other, each group met with the staff to discuss ways in which the Clearinghouse could provide more effective ongoing services to the constituencies of the two groups, and to identify new issues on which the staff should focus acquisition efforts in order to meet some of the present and future needs of the groups.

The meetings proved to be valuable. We gained considerable insight into the concerns, issues, and future needs of the groups represented. A resounding cry from all concerned was that, "We need ERIC more than ever now that we've been flooded with more and more information and have too little time to synthesize it. The fact sheets provide us with one way of coping with this problem." Our only regret was the one day sessions allowed us to only begin to critically examine the issues.

...Jerry Wright (UD)

ERIC/EECE STAFF ATTEND INFORMATION TECHNOLOGY CONFERENCES

Mima Spencer and Dianne Rothenberg exhibited for ERIC at the Second Annual National Online Meeting, sponsored by Learned Information, Inc., which was held March 24-26, 1981 in New York. They also presented a product review session on ERIC which was attended by approximately forty people. The conference centered on the speed of new developments in the information technology field, growth in online activity and proliferation of new data bases and computer graphics. At the exhibit booth, many visitors complimented ERIC on the revised ERIC Thesaurus and expressed interest in the kinds of ERIC documents which were not strictly for education (e.g., information on management, staff training, career and technology development).

On March 2-4, Linda Baskin and Mima Spencer attended the First Annual Information Utilities Conference sponsored by ONLINE in New York. As the name suggests, this group expects computerized information services to be offered to a mass market and to be available in consumer homes by mid-decade, just as electric, water, and telephone utilities presently are. Attended primarily by business and computer executives and managers, topics covered by the conference included personal computers, videotext systems, electronic publishing and cable television. Of particular interest was the emergence of information conglomerates as businesses, publishing houses and computer firms merged. Some data base producers are also becoming their own vendors, providing access and training. Baskin and Spencer plan to send a formal report to Central ERIC on the new trends and their implications for the ERIC system.

...Janet Bowermaster (PS)

JC HOLDS WORKSHOP FOR LIBRARIANS

Anita Colby and Donna Dzierlenga conducted an ERIC workshop at the SMERC facilities in San Mateo, California. The staff members of SMERC were active in each aspect of the workshop, especially in the tour of the facilities and the demonstration of the minicomputer. The workshop was well attended, and at least one librarian has phoned the Clearinghouse with requests resulting from the workshop.

...Gayle Byock (JC)

ERIC/EECE AT ASCD MEETING

Dr. Lillian Katz, Director of the ERIC Clearinghouse on Elementary and Early Childhood Education, presented a paper at the Annual Conference of the Association for Supervision and Curriculum Development (ASCD), which was held in St. Louis from March 7-10, 1981. Norma Howard and Diane Rotenberg also represented ERIC/EECE, helping to staff an ERIC exhibit booth and demonstrating online computer searching of the ERIC data base.

...Janet Bowermaster (PS)

VISITORS HOSTED BY ERIC

AUSTRALIAN EDUCATOR/INFORMATION SPECIALIST VISITS ERIC/SP

Dr. Peter Wilkenson, Director of the Australian Institute for Multicultural Affairs, visited the Clearinghouse on May 29 and June 1, 1981 for an in-depth look at the technical processes involved in Clearinghouse input into the ERIC system. Dr. Wilkenson is organizing a national data base on multicultural information for the government of Australia, and spent lengthy periods of time examining each function the Clearinghouse performs.

...Michael J. Butler (SP)

VISITORS FROM THE NETHERLANDS AT ERIC/IR

Two visitors from the Ministry of Education of The Netherlands, Dr. L. E. H. Vredvoogd, Deputy Director General for Higher Education and Scientific Research, and Dr. R. E. Paulus, Deputy Director for Higher Vocational Education, visited the ERIC Clearinghouse on Information Resources on May 22, 1981. Their primary interest was research on computer-assisted instruction, and it was a pleasant surprise to find, among numerous reports on PLATO, a study in Dutch (with a 2,000 word resume) on the feasibility of using PLATO software at the university level in The Netherlands.

...Barbara Minor (IR)

VISITORS TO ERIC/JC

Claus Leuthold from the University of Zurich visited the ERIC Clearinghouse for Junior Colleges in search of information about economics and political science in two-year colleges. He especially wanted to see how the ERIC system worked and the types of publications available.

1757

On June 5, 1981 Gail Urato of the College of Education at the University of Hawaii visited the Clearinghouse, especially to understand the processing and methods of abstracting used at JC.

...Gayle Byock (JC)

THE LIGHTER SIDE

SELECTION CRITERIA: THE USE OF "HARD" DATA

The Winter 1980-81 issue of the Educational Research Quarterly contains an article by J. T. Dillon, entitled "Functions of the Colon: An Empirical Test of Scholarly Character." He identified a phenomenon called titular colonicity (presence of colon in title), and used it to study the degrees of scholarship in published work. Journals were categorized as theoretical, empirical, or pedagogical. Three journals in each category were selected and all articles in a year's volume were rated for colonicity. Theoretical journals exhibited the greatest colonicity (34%), empirical next (18%), and pedagogical least (10%).

Based on this research, we might want to include titular colonicity as one criterion for selection of research papers. It might also be useful as a criterion for assignment of Publication Type 143. What do you think?

...Barbara Wildemuth (TM)

RECENT REAL REQUEST

"Dear ERIC,

Please send me information about the contents of your memory.

Kind Regards,"

...Judy Wagner (CE)

LOCKHEED WORLDWIDE DIALOG SERVICE
BECOMES NEW CORPORATE SUBSIDIARY

Lockheed's Dialog service -- the largest online information retrieval service in the world -- will become a subsidiary of the Lockheed Corporation on June 1.

To be known as DIALOG Information Services, Inc., the new company will be headed by Dr. Roger K. Summit, president.

The Dialog service has operated within the Advanced Systems Division of Lockheed Missiles & Space Company in Sunnyvale, California, since its inception in the mid-60s. It now provides users worldwide with immediate computerized access to more than 40 million references and abstracts in 132 public database files. References available through the Dialog service cover virtually all fields of study in business and economics, humanities and sciences.

Under its new corporate structure, the Dialog service will be a wholly owned subsidiary of the Lockheed Corporation but will continue its centralized computer operations from its recently upgraded facilities in Palo Alto, California.

Summit has been with the information retrieval program since its beginning and directed its growth from a fledgling project involving a single, local terminal in 1966.

As an international clearing house for information, the Dialog service is used by scientists, librarians, engineers and others in more than 60 countries. It serves all 50 states of the U.S., and its databases are drawn not only from the U.S. but from other countries including Great Britain and The Netherlands. The service has offices in Toronto, Canada; Sydney, Australia; Tokyo, Japan; and London, England.

Although Summit plans no immediate changes in staff or facilities, he expects the new structure to provide greater organizational strength and to serve as a basis for continued growth.

Lockheed's Dialog service enables the user to talk directly with a computer through a typewriter-like terminal that connects to the service via a common telephone. The references sought by the user are displayed on a cathode ray tube or printed out on a high-speed typewriter. The system is interactive -- that is, the user can continuously see search progress and re-direct the computer as necessary to further narrow the search to the specific material being sought.

The Dialog service is an outgrowth of company research into information retrieval that began in 1962. In 1966 the company won a contract from NASA to establish a retrieval system for a collection of some 260,000 aerospace technical documents -- a collection indicative of the mushrooming growth of technological information that would accelerate further in the years following.

The success of this early NASA/RECON system led to other contracts from government agencies, and ultimately to a full-fledged commercial service providing online interactive access via terminal in any user's office.

The Dialog service now covers an array of subjects that includes medicine, arts, technology, business, law, economics, and a full range of sciences. Expansion of databases will continue as user requirements continue to grow.

Project SEEK
ERIC IAP Workshop

April 30, 1981

Conducted by Dr. James Davis, Associate Director;
ERIC/Chess, Boulder, Colorado

Workshop Objective

To have participants know how the ERIC system functions and how ERIC Information Analysis Products (IAP) can be used to help solve educational problems.

Agenda

- | | |
|------------|--|
| 9 a.m. | Workshop Introduction |
| 9:15 | Educational Problem Solving
(See Handout No. 1, Brainstorm Sheet No. 1) |
| 9:40 a.m. | Introduction to ERIC and Project SEEK
(See Registration Packet) |
| 10:15 a.m. | A Quick Search of ERIC Using Resources
In Education (RIE, CIJE, Thesaurus, Packet) |
| 10:45 a.m. | How an ERIC Clearinghouse Functions
(See Posting Sheet No. 1) |
| 11 a.m. | Introduction to IAP Mini-File |
| 11:10 a.m. | Lunch |
| 12:15 p.m. | Using the IAP Mini-File |
| 12:45 p.m. | Search Question Negotiation
(See Handout No. 2, Posting Sheet No. 2) |
| 1:30 p.m. | Mini-File Follow-up, a Discussion |
| 1:45 p.m. | What Project SEEK Can Do to Help
Proposing to Use the Mini-File |
| 2:15 p.m. | Small Group Brainstorming - Mini-File Use and
Mini-File Marketing

(See Posting Sheets 3,4,5,6) |
| 2:35 p.m. | Debriefing |
| 2:45 p.m. | Wrapup and Evaluation
(See Evaluation Summary) |

**Announcing
the most complete,
up-to-date educational
index available!**

Dear ERIC Subscriber:

The RIE/CIJE RETROSPECTIVE CUMULATION ON MICROFICHE 1966-1980 is almost ready.

The ERIC control vocabulary has been completely revised; the new Thesaurus has been published, containing the 8500 changes that were made; all the ERIC computer tape backfiles have been updated to reflect all the changes made in the vocabulary since 1966.

These developments make possible a complete retrospective cumulation on microfiche of the entire RIE and CIJE files, from 1966 - 1980!

Ordering the CUMULATION will enable you to fill in gaps in your RIE/CIJE collection; make more shelf room by discarding old RIE and CIJE issues and indexes; and will enable you to offer a complete, up-to-date, *cumulated* file—using the new ERIC vocabulary—to users at all times!

The CUMULATION includes the following sections:

Main Entry:

All the RIE and CIJE document and journal article resumes published from 1966 - 1980—approximately 413,000 entries!

Subject Index:

A completely integrated cumulation of all document and journal article titles arranged by subject descriptor—using the brand-new 1980 vocabulary.

Fiche Index:

Provides fiche number and frame location for each subject entry.

The RiE/CIJE RETROSPECTIVE CUMULATION is an easy-to-use, complete, *compact* reference tool. With it, access to fourteen years of educational literature is only minutes away!

Instructions for ordering are below. Order today—take advantage of this convenient new way to search CIJE/RIE:

Cordially yours,

Phyllis B. Steckler, President

Counseling Bilingual Students

HUMANISTIC COUNSELING OF BILINGUAL STUDENTS: A CONTINUOUS PROCESS K-12. Leodoro Hernandez and Karen Carlquist-Hernandez. Field independence, traditions, and assertiveness of counselors and Latino students are explored to help counselors function more effectively with Latino students. Latino students can be taught to be bicultural, bi-affective, and assertive. A model is offered to assist counselors in this effort. Six examples of counseling methods, using teacher-counselor teams, are presented and analyzed. Suggestions are offered for strong, innovative counseling teams to serve students. (1976, ED 174 915, EDRS Price: MF \$0.91, PC \$2.00 Plus Postage, 30 p.)

MEXICAN AMERICANS IN SCHOOL: IMPLICATIONS FOR THE COUNSELOR-EDUCATOR. John Michaelson. The opportunities and role of the counselor in education are expanding, partially due to the increasing numbers of Mexican American students and their demands for equal education. While many researchers have traced the problem of poor education for Mexican American children to their cultural and family background, both teachers and counselors have contributed to the situation by setting lower expectations for Mexican American students and by using rigid "tracking" systems which tend to limit student achievement. One much-heralded approach to the problem is bilingual/bicultural education. Another approach is using counselors, preferably bilingual, at all educational levels and expanding the counselor role to include parent orientation, community liaison, and student placement, as well as helping the student with problems. In particular, the counselor can assist with the growing numbers of elementary aged minority students who exhibit high anxiety and low self-concept, and the "bilingual" or "bicultural illiterate" student. Currently, counselors are often misused by the institutions that employ them, but they are generally well trained. Anglo counselors must be versatile, skilled, more culturally aware of their minority students, and must know which methods work best with those clients. (1978, ED 173 011, EDRS Price: MF \$0.91, PC \$2.00 Plus Postage, 14 p.)

ENTRE DOIS MUNDOS: VIDA QUOTIDIANA DE CRIANCAS PORTUGUESAS NA AMERICA (BETWEEN TWO WORLDS: THE DAILY LIFE OF PORTUGUESE CHILDREN IN AMERICA). Fernando de Meneses. This Portuguese reader describes the culture shock that Portuguese children and their families face when they immigrate to North America. The reader, divided into 75 short stories about families coming from the rural areas of Portugal where there has been little industrialization, is designed to help children grow to modes of thinking adaptable to the industrial city without losing the values implicit in the life and culture of their village. To achieve this goal, four steps are suggested: (1) listening with respect to all elements of the old culture; (2) searching for the general values that are at the origin of the different customs; (3) finding the economic and historic reasons why those values were expressed in such customs; and (4) finding ways that permanent values can be incorporated into practices consistent with life in the modern city. For each story, the teacher's guide contains the counseling goal for dealing with the certain cultural aspect of the story, discussion questions, project suggestions, and explanations of certain language and cultural terms. The text is in Portuguese and the teacher's guide is in English. (1977, ED 179 075, EDRS Price: MF \$0.91, PC \$16.85 Plus Postage, 228 p.)

The documents cited in this issue of SPOTLIGHT are among the many indexed and abstracted in the ERIC system. Documents are generally available in two forms: microfiche (MF) and/or paper copy (PC). Both forms may be ordered from EDRS/CMIC, P.O. Box 190, Arlington, VA 22210. Payment must accompany orders.

Other documents may be searched in the monthly ERIC indexes, Resources in Education (RIE) and Current Index to Journals in Education (CIJE), both available in most education resource centers and university libraries. For additional information contact the ERIC Clearinghouse on Counseling and Personnel Services (CAPS).

Counseling Reentry Students

THE EFFECTS OF CAREER COUNSELING ON SUBSEQUENT JOB SATISFACTION IN MATURE WOMEN RETURNING TO COLLEGE. Sharon B. Covitz. The effects of career counseling on subsequent job satisfaction in mature women returning to college was investigated. Subjects, women 25 years or older upon graduation, were drawn from two populations—one that had been involved in career counseling through an established counseling program for mature women, and one that had not. While career counseling did not have a measurable effect on job satisfaction, other variables such as income, marital status, number of children, level of education, and profession did. It is possible that, over time, the positive effects of career counseling were obscured by other factors which fulfilled needs of the subjects. (The questionnaire administered for the study is included.) (1980, ED 186 786, EDRS Price: MF \$0.91, PC \$2.00 Plus Postage, 18 p.)

BARRIERS TO REENTRY WOMEN: COLLEGE TRANSFER POLICIES, RESIDENCY AND GRADUATION REQUIREMENTS. Jeanne Fisher-Thompson. Problems and barriers concerning transfer policies, residency, and graduation requirements that women often face when reentering the educational system are identified. Additionally, ways in which institutions can be more responsive to the needs of reentry students are suggested. A wide range of possible actions is included so that institutions can pursue those appropriate to their individual circumstances. Credit transfer is one of the major barriers to women seeking to reenter college. The following topics are considered: credit by examination; the time limit for completion of graduate study; credit for prior experience, the requirement that all or a certain number of credits can be earned as a full-time student; extension courses and residency; courses for military personnel, special populations; legal considerations; recruitment of reentry women as transfer students; admissions, counseling; registration; and other student services. (1980, ED 189 909, EDRS Price: MF \$0.91, PC \$2.00 Plus Postage, 13 p.)

REENTRY: A HANDBOOK FOR ADULT WOMEN STUDENTS. Nancy Maes. In this handbook of practical advice for adult women who are reentering undergraduate and graduate programs at institutions of higher education, interviews with 60 reentry women provide helpful suggestions for organizing time inside and outside the university while balancing other relationships and responsibilities with academic demands. The majority of reentry women manage a household and care for a family while pursuing a university career. Priorities often need to be reshuffled when adult women return to the university, and time management techniques become crucial in negotiating compromises with husbands, children, friends, and relatives. Within the university, adult women students can find useful information on selecting classes, university publications, faculty advice, student responses, scheduling classes, registration, study habits, career counseling, financial aid, discrimination, and relationships with students and faculty. (1979, ED 187 215, EDRS Price: MF \$0.91, PC \$2.00 Plus Postage, 26 p.)

Counseling Displaced Homemakers

NEW BEGINNINGS. A MANUAL FOR FACILITATING GROWTH FOR DISPLACED HOMEMAKERS. Nancy Burnside and Others. This resource manual shares ideas and exercises with those persons interested in and working with the specific concerns of displaced homemakers. Sections correspond to steps in an adjustment process leading to job search. An introduction provides helpful hints for use by peer counselors, professional therapists, and group leaders. Part 1 contains 17 exercises which look at the person and the identity from childhood to adulthood, from past experience to present, from outside influences to inside characteristics. Four exercises on communications are intended to facilitate the movement from knowledge about self to sharing that self with others. Other exercises evaluate interests, skills, needs, and wants to assist the displaced homemaker to mold her characteristics with her identity and establish career goals. Additional exercises cover necessary skills in finding employment and provide a list of agencies, organizations, colleges, people, and places of assistance to displaced homemakers and leaders/counselors. (1980, ED 189 449, EDRS Price MF \$0.91, PC \$10.25 Plus Postage, 130 p)

NEGLECTED WOMEN: THE EDUCATIONAL NEEDS OF DISPLACED HOMEMAKERS, SINGLE MOTHERS, AND OLDER WOMEN. Carol Eliason. The educational needs of neglected women are described in the form of testimony from nationwide hearings on the subject, profiles of specific types of women, and case histories. Following each profile, solutions to the problems presented are suggested and existing programs are listed. Recommendations are made to revise existing legislation and programs so that they will be of greater benefit to displaced homemakers, single mothers, and older women. Also recommended is new legislation which would aid educationally disadvantaged women by: (1) providing financial assistance for such women; (2) providing for non-taxable assistance by employers for career advancement education for such women; and (3) including in new legislation on displaced homemakers a broad definition of eligibility. (1978, ED 163 150, EDRS Price: MF \$0 91, PC \$5 30 Plus Postage, 63 p)

DISPLACED HOMEMAKERS: A CETA PROGRAM MODEL, FITCHBURG, MASSACHUSETTS. Lynne Billman. Divorced, widowed, or separated women need help in three basic areas in the transition from sheltered home life to the world of work in: (1) recognizing their own interests and abilities; (2) obtaining up-to-date, salable skills, and (3) finding support services such as counseling, job placement, peer support, and role models. A Homemakers Reentry Program (HRP) addressing these needs was developed using CETA (Comprehensive Employment and Training Act) funding. Groups of women were enrolled every three months following an assessment and testing preselection phase. The program stressed individual development rather than skills development per se, and involved orientation for self-assessment and study of career options. A work experience component consisted of two two-month stints working for nonprofit agencies and a final two-week job-readiness seminar or series of workshops. Some women chose basic education or other training prior to the work experience, and some were referred to CETA for courses following graduation. Weekly seminars and peer support continued throughout the five-month program. (1978, ED 179 778, EDRS Price: MF \$0 91, PC \$5 30 Plus Postage, 58 p)

Counseling to Reduce Family Violence

FAMILY VIOLENCE: THE WELL-KEPT SECRET. Melinda Longtain. The myths maintaining the violence between men and women are woven deeply into the matrix of society's norms and values. Crisis intervention succeeds to the extent that it is supported by wider reaching interventions—interventions that challenge the myths. Such programs include day care for mothers wanting to work and flexible time schedules for working mothers. Other examples of preventive mental health in this area include allowing men to be more nurturant and relieving them of the pressure to achieve constantly. (1979, ED 177 410, EDRS Price: MF \$0.91, PC \$3.65 Plus Postage, 39 p.)

SPOUSE ABUSE: A SELECTED BIBLIOGRAPHY. Carolyn Johnson (Comp.) and Others. This collection of resources is designed to assist those helping professionals dealing with victims of spouse abuse as well as those individuals interested in learning more about this particular subject area. This annotated bibliography has been compiled to highlight the problem of spouse abuse and the various forms of intervention currently available. The citations are presented in two sections, the first covering the nature of the problem with a focus on descriptions of spouse abuse and violence in the family, analyses of the causes, and suggestions for change; and the second covering intervention strategies with an emphasis on the role of the law enforcement system, options available to battered spouses, and examples of places of refuge. (1978, ED 174 892, EDRS Price: MF \$0.91, PC \$5.30 Plus Postage, 66 p.)

FAMILY VIOLENCE. Carol Sorgen (Ed.). This quarterly publication, issued by the National Institute on Alcohol Abuse and Alcoholism (NIAAA), contains articles dealing with family violence and alcohol abuse, children of alcoholic parents, training programs for counselors, and confidentiality of client records. The three articles on alcohol abuse suggest that: (1) there is a clear association between alcoholism and all kinds of domestic violence such as wife battering, child abuse, and incest; (2) many abuse victims are "silent" victims until threat of serious

injury or death appears imminent; and (3) social services and the criminal justice system are beginning to develop programs involving hotlines, emergency shelters, and crisis centers to help with these problems. Other articles focus on the provision of services for all children of alcoholics, not just those who exhibit behavioral problems, a program model for training counselors to handle referrals to child protective services, and policy issues related to federal regulations governing confidentiality of patient records and child abuse/neglect reports. A partial listing of family violence agencies is also provided. (1979, ED 184 008, EDRS Price: MF \$0.91, PC \$3.65 Plus Postage, 39 p.)

SCHOOL-AGED VICTIMS OF SEXUAL ABUSE: IMPLICATIONS FOR EDUCATORS. Phillip M. Wishon. Each year in the United States, thousands of school-aged children become involved in sexual activities arranged by adults for purposes of pleasure and profit. Nationwide, annual profits from the child pornography industry and from female and male child prostitution are in the tens of millions of dollars. Heretofore, the majority of child-care-givers have been largely unmindful of the problems of childhood sexual exploitation and its educational and sociological concomitants. An overview of the problem of child sexual abuse is provided. Measures are recommended which can assist professional educators in responding to the needs of child victims and to the concerns of high-risk individuals. (1979, ED 181 373, EDRS Price: MF \$0.91, PC \$2.00 Plus Postage, 13 p.)

Counseling the Exceptional

COUNSELING EXCEPTIONAL PEOPLE. Libby Benjamin and Garry R. Walz (Eds.). This guide offers counselors and special education and classroom teachers assistance in counseling handicapped children. Major articles focus on counseling children who are mentally retarded, emotionally, visually and hearing impaired, learning disabled, and gifted. Additional information is provided on: (1) sexual fulfillment for the handicapped; (2) prescriptive interventions for exceptional children; and (3) a model of consultation for exceptional children and youth. (1980, ED 181 397, EDRS Price: MF \$0.91, PC \$18.50 Plus Postage, 263 p.)

RESOURCE GUIDE: VOCATIONAL COUNSELING FOR THE HANDICAPPED. Thomas H. Hohenshil and Carolyn Maddy-Bernsteir. This resource guide is designed to assist educational personnel to expand and increase the effectiveness of their vocational guidance and counseling programs for the handicapped. The guide includes a combination of articles, books, research reports, audiovisual materials, staff training materials, organizations, and directory lists. The references, which were compiled from a variety of sources, i.e., ERIC, federal and state research and training projects, and private and governmental agencies, address the following areas of concern for the handicapped: (1) counseling; (2) education; (3) job placement; (4) career education; (5) legislation; (6) family counseling; and (7) national and Virginia-based organizations. (1980, ED 186 789, EDRS Price: MF \$0.91, PC \$10.20 Plus Postage, 133 p.)

COUNSELING YOUR GIFTED CHILD. OREGON SERIES ON TALENTED AND GIFTED EDUCATION. Alfreda Ebeling. Intended for parents, this booklet discusses how parents can counsel their gifted or talented child. Some tips for effective counseling are presented, focusing on observation, listening, accepting, and making suggestions. The question of when a parent should counsel his/her gifted child is considered. Some helpful attitudes a parent can have toward giftedness are described, such as being different, using one's ability responsibly, and having others appreciate one's achievement. A list of sources of information on the talented and gifted is also provided. (1979, ED 185 721, EDRS Price: MF \$0.91, PC \$2.00 Plus Postage 24 p.)

THE CAREER DEVELOPMENT NEEDS OF TALENTED STUDENTS: A PERSPECTIVE FOR COUNSELORS. Philip A. Perrone and Others. Intended for counselors, this paper discusses the critical periods and patterns of gifted child development related to career and life style determination. Case histories of two gifted and talented students are offered, following their lives from early childhood through early adulthood. Twelve critical issues with regard to the development of gifted and talented children are outlined, including that talented people: (1) are likely to look for a career as their principal means of self expression; (2) experience conflict between achieving excellence and being accepted as normal; and (3) if female, still perceive marriage and career as mutually exclusive and make unnecessary compromises in career planning. General career guidance needs of the gifted are also discussed and summarized. (1979, ED 185 731, EDRS Price: MF \$0.91, PC \$2.00, Plus Postage, 20 p.)

LIFE COPING SKILLS FOR EXCEPTIONAL CHILDREN. Laura L. Mohr and Others. A role playing technique designed to promote good mental health in exceptional children is described. This life coping skills approach emphasizes that exceptional children are first of all children. A sequence for guiding role playing is provided: building comfort, building involvement, introducing interaction among players, adding dialogue, involving the class, and using role play in the classroom. The appendices contain tips on role playing as well as examples of role playing activities for exceptional children. (1980, ED 188 405, EDRS Price: MF \$0.91, PC \$2.00 Plus Postage. 23 p.)

The documents cited in this issue of SPOTLIGHT are among the many indexed and abstracted in the ERIC system. Documents are generally available in two forms: microfiche (MF) and/or paper copy (PC). Both forms may be ordered from EDRS/CMIC, P.O. Box 190, Arlington, VA 22210. Payment must accompany orders.

Other documents may be searched in the monthly ERIC indexes, Resources in Education (RIE) and Current Index to Journals in Education (CIJE), both available in most education resource centers and university libraries. For additional information contact the ERIC Clearinghouse on Counseling and Personnel Services (CAPS).

Counseling for Business and Industry

DESIGNING CAREER DEVELOPMENT PROGRAMS FOR BUSINESS AND INDUSTRY. Zandy Leibowitz and Nancy Schlossberg. This staff development module is designed for helping professionals who have the responsibility of providing career development services to adults employed in business and industrial settings. The goal of this module is to help participants: (1) apply concepts of adult career development to client problems; (2) gain skills in organizational needs assessment; (3) plan a career development program, and (4) design a program evaluation plan. The module format consists of an overview, goals, objectives, outline, time schedule, glossary, readings, skill development activities, and bibliography. A Coordinator's Guide is also included. (1979, ED 182 675, EDRS Price: MF \$0.91, PC \$13.55 Plus Postage, 189 p.)

FIRST-LINE SUPERVISORY TRAINING. This document contains 10 information modules designed for use in an industrial supervisory training seminar. Module 1 focuses on the role of the supervisor as well as a definition of supervision and its four basic functions: planning, organizing, directing, and controlling. Module 2 deals with authority, power influence, and the supervisor's responsibility. Module 3 explores the uses and disadvantages of the informal organization. Module 4 focuses on human relations in organizations. Module 5 deals with factors that influence morale, unions and morale, and improvement techniques. Module 6 examines the motivation of people. Module 7 looks at the problems of handling grievances and taking disciplinary actions. Module 8 discusses communication, including its purpose, barriers, techniques, channels, and written versus oral methods. Module 9 focuses on the training of employees, i.e., methods and techniques, the purpose of evaluation, and the art of questioning. Module 10 identifies time pressures and ways to make more time available for dealing with top priority items. (1979, ED 178 710, EDRS Price: MF \$0.91, PC \$8.60 Plus Postage, 107 p.)

COMMITTEE LEADERSHIP: GROUP PROBLEM-SOLVING AND CONFLICT RESOLUTION. PAPER NO. 85. John P. Fry. This guide presents suggestions to committee chairpersons for making meetings more effective, including: (1) preparation of the agenda and physical arrangements for the meeting; (2) management of meetings to avoid negative outcomes; and (3) methods to overcome blocks in conflict resolution and decision-making. Examples of frequent problems occurring at committee meetings are illustrated along with several solutions. Appendices include tips on problem-solving, identifying constraints before brainstorming for ideas, comparing and ranking ideas, and gaining acceptance for a proposal (1979, ED 191 829, EDRS Price: MF \$0.91, PC \$8.60 Plus Postage, 102 p.)

A REGRESSION APPROACH TO IDENTIFYING WAYS TO INCREASE LEADERSHIP EFFECTIVENESS. Dana L. Farrow and Others. The possibilities of providing, for a manager, an individualized prescription of what he can do to increase the performance of his work unit on designated criteria in selected organizational settings are demonstrated. The information is couched in terms of a 31-variable system described by the manager and his immediate subordinates. Regression analyses combine each of five leadership styles and situational elements to isolate the variables of consequence. Results reflect a validation sample of 78 managers and their 312 subordinates for a variety of profit organizations on three criteria: workgroup effectiveness, satisfaction and supervision, and job satisfaction (1979, ED 181 364, EDRS Price: MF \$0.91, PC \$2.00 Plus Postage, 14 p.)

The documents cited in this issue of SPOTLIGHT are among the many indexed and abstracted in the ERIC system. Documents are generally available in two forms: microfiche (MF) and/or paper copy (PC). Both forms may be ordered from EDRS/CMIC, P O Box 190, Arlington, VA 22201. Payment must accompany orders.

Other documents may be searched in the monthly ERIC indexes, Resources in Education (RIE) and Current Index to Journals in Education (CIJE), both available in most education resource centers and university libraries. NEW ACQUISITIONS ARRANGEMENTS

Two new Facility Acquisitions Arrangements should be added to the EAA List as follows:

EFAA 258: National Institute for Work and Learning
(formerly National Manpower Institute)
Level 2 Blanket Release signed by Archie E. Lapointe, Pres.

EFAA 259: Mid-Atlantic Regional Resource Center
The George Washington University, Dept. of Spec. Ed.
Level 1 if documents show federal funding, otherwise
a release is necessary.

Change information on EAA for two EFAAs:

EFAA 138: American Driver and Traffic Safety Education Association
Level 2 Blanket Release now signed by Laura Cuthbertson.

EFAA 238: Western Australian Post Secondary Education Commission
Level 1 Blanket Release signed by W.J. Howse has been
received

Administrative Bulletin

Volume: 5
Number: 7
Date: July 1981

Educational Resources Information Center, National Institute of Education, Washington, D.C. 20208

This issue of the ERIC Administrative Bulletin is an abbreviated one. The "raw data" for the EAB was lost in transit between Central ERIC and the ERIC Facility and was not located until after the decision was made to "go to press" with the material available. Articles which were submitted for the July issue (and do not appear within) will be included in the August issue.

NEW ERIC PUBLICATIONS

FACT SHEET REPORT

The ERIC Clearinghouse for Social Studies/Social Science Education has published the following fact sheets during 1981:

- Fact Sheet No. 1: The Teacher and Academic Freedom (March 1981)
- Fact Sheet No. 2: Saving Money on Printing and Reproduction (April 1981)

The following fact sheets are now in preparation:

- Fact Sheet No. 3: Getting What You Need Out of ERIC (September 1981)
- Fact Sheet No. 4: Teaching About Global Issues (September 1981)

...Ann Williams (SO)

NEW PUBLICATIONS FROM EECE

The following publications are available from EECE:

1. Classroom Management in the Elementary School, by Janet Bowermaster, May 1980. Cat. #192, 44pp., \$3.00.

A review of classroom management research with emphasis on practical implications for teachers.

2. Final Report of the National Day Care Study, Vols. II & IV, by Abt Associates. 1980. Cat. #191, 1,505 pp. on microfiche, \$5.50.

The two newest volumes of the National Day Care Study are available in inexpensive microfiche with the summary on paper copy. Vol. II describes the study design and sample, analytic issues and approaches, instruments, analyses, and results. Vols. IV A-C contain the technical appendices including background materials, measurement and methods, and effects analyses.

3. Parenthood in A Changing Society: Papers From A Symposium at Memphis State University. Dec. 1980. Cat. #190, 100 pp., \$5.00.

A collection of papers on contemporary views of the family by Jean Carew, Ellen Goodman, Edith Grotberg, Lilian Katz, William Wattenberg, and Edward Ziegler and Rose Cascione.

4. School-Age Child Care: Programs and Issues, edited by Andrea Genser and Clifford Baden. Nov. 1980. Cat. #189, 106 pp., \$5.00.

Papers from a conference at Wheelock College. A collection of reports and discussions on needs of school-age children and their caregivers, models for school-age programs, and issues in program planning and operation.

NETWORK NEWS

COUNCIL OF ERIC DIRECTORS (COED) MEETING

Irving Morrissett, acting chairman of the Council of ERIC Directors (COED) since Peter Eddy's resignation as the Director of the ERIC Clearinghouse on Languages and Linguistics, will chair a meeting of COED in Washington, D.C. on July 9 and 10, 1981. The major agenda items are preliminary planning for the fall Directors' meeting and consideration of implications for the Clearinghouses of the current status of NIE and ERIC funding for FY 1981 and 1982. A meeting to discuss budget matters and the status of ERIC is scheduled for July 9 with Dr. Arthur Goldberg, Acting Director of NIE, and Dr. Donald Senese, Assistant Secretary for Educational Research and Development. All ERIC Directors have been asked to submit agenda items for the COED meeting and for the fall Directors' meeting.

...Irving Morrissett (SO)

CUMULATIVE LIST OF LEVEL 3 ACCESSIONS (DOCUMENTS NOT AVAILABLE FROM EDRS IN MICROFICHE OR PAPER COPY)

This publication was first issued in April 1978 and covered the eleven-year span 1966-1977. It was intended as a useful adjunct to the ERIC microfiche collection (where it readily explained a missing microfiche), and for those ordering ERIC documents from EDRS (it prevented abortive orders for documents that couldn't be reproduced).

There has been enough interest expressed by librarians and others in this reference tool to warrant a supplement and one has been prepared covering the 3½ year period 1978-1981 (June). This item can be purchased from the ERIC

Processing and Reference Facility for \$3.75 postpaid. Pre-publication orders already in hand will be filled and an invoice will accompany the shipment.

...Ted Brandhorst (ERIC Facility)

RESULTS OF FACILITY SURVEY ON CURRENT AVAILABILITY OF OLD LEVEL 3 DOCUMENTS

The results of the ERIC Facility survey on the current availability of Level 3 documents from a sampling of 1968, 1973, and 1978 previously announced documents was reported at the National Technical meeting. (See Attachment 1 for the full report.)

...Grace Sundstrom (ERIC Facility)

REPRINT OF 50 ARTICLES IN STANDARD EDUCATION ALMANAC (SEA)

"Breaking Into ERIC: Here's How to Do It," the lead article in the January 1981 issue of Keeping Up, the news bulletin of the ERIC Clearinghouse for Social Studies/Social Science Education, will be reprinted in the 14th edition of the Standard Education Almanac (SEA), published by Marquis Academic Media, a division of Marquis Who's Who, Inc., publisher of various reference works, including Who's Who in the United States. The article described guidelines and procedures for submitting documents into the ERIC system.

SEA is described by its publisher, Marquis Academic Media, as "a compendium of educational information, including representative viewpoints on current issues as well as government and private statistics, evaluative studies, specially selected educational articles and reports, and lists of resources and addresses covering all aspects of education in the United States and Canada." The 14th edition will be available in October 1981.

...Ann Williams (SO)

CAPS ORIENTATION FOR TEACHERS

Many teachers working on their Masters degrees or returning for refresher courses attend summer school classes in the School of Education at the University of Michigan. CAPS presents ERIC orientations to these students, at the instructor's request, showing them how to retrieve ERIC documents and journal articles by using the three basic reference tools (Thesaurus, RIE Index, and CIJE Index). One hour sessions are preferred (a half hour for the presentation and a half hour for some "hands on" experience in locating information for their papers). The types of classes vary from a two-week workshop on Global Education to Elementary School Curriculum and Remedial Reading. These efforts promote ERIC to teachers already in the classroom, by identifying useful teaching materials. The majority of these new users become avid ERIC "fans" and tell others, thus increasing patronage of our Learning Resource Center. The worksheet used for ERIC presentations is presented in Attachment 2.

...Carol S. Mills (CG)

INTERCHANGE MAILING LIST AVAILABLE

The ERIC Facility can provide interested Clearinghouses with the 1,800-address Interchange mailing list. In mailing label form the list can be obtained for \$50, to cover the costs of running it. In Xerox form the list can be obtained free of charge; however, only those genuinely having a use for the list should request it. It is recognized that this mailing list contains numerous obsolete addresses. The next issue of Interchange will carry with it a postcard for the use of those wishing to discontinue distribution or to change addresses in any way.

...Ted Brandhorst (ERIC Facility)

NEW ZIP CODE FOR THE ERIC FACILITY

The Zip Code for the ERIC Facility has been changed from 20014 to 20814, effective June 30, 1981. While the Postal Service will continue to deliver mail bearing the old Zip Code for one year, please start using the new code on all material sent to the Facility. Facility forms and stationery will continue to bear the old code for the time being; they will be changed as the stock is reprinted.

...Carolyn Weller (ERIC Facility)

SUMMER HOURS AT CAPS

CAPS is now open Monday through Friday from 7:30 a.m. to 4:00 p.m., in accordance with the University of Michigan summer hours policy. These hours will be in effect through 1 September 1981. Please note that we are on Eastern Daylight Savings Time (just like the East Coast!).

...Helen Mamarchev (CG)

THE BRITISH LINK!

CAPS recently sold a copy of the ERIC Answer Van to the British Embassy in Washington, D.C. While the Answer Van has always been popular, we were wondering why the British Embassy would want a copy. CAPS has learned through reliable (?), anonymous sources that the British Ambassador is planning to make a gift of the Answer Van to Prince Charles and his bride-to-be, Lady Diana.

VISITORS

HIGH SCHOOL DEBATERS LEARN ABOUT ERIC

In June, 67 high school forensic students from Michigan, Illinois, and Ohio, attending the University of Michigan High School Debate Institute, visited CAPS to learn about the ERIC system. They quickly began locating descriptors, retrieving information from RIE and CIJE, and reading the microfiche. Their nationwide debate topic for 1981-82 is "Resolved that the Federal government should establish minimum educational standards for elementary and secondary schools in the United States." The students were surprised and pleased to find a wealth of material in ERIC.

Study of Current Availability of Level 3 Documents Previously Entered in RIE (SIP-I-23)

In response to SIP-I-23, the Facility selected at random 300 Level 3 documents (100 each from 1968, 1973, and 1978). The Sample was subdivided by nine (9) categories of source--Commercial, Non-Profit, Foreign, Government, Individual, Journal Article, University Microfilms, National Technical Information Service (NTIS), and Other, so that statistical results could be examined in each category. The enclosed chart has been prepared to show in detail the results of the survey. It provides figures and percentages in each category sampled.

A letter questionnaire was drafted and approved (letter enclosed). The questionnaire requested information concerning the present accuracy of the original RIE ordering information and contained a space to attach a Xerox copy of the original resume. This letter was sent to all organizations whose documents required verification of availability (with the exception of the Government Printing Office (GPO) where availability was checked telephonically). Fifty (50) documents did not need any verification. These were documents available from NTIS or University Microfilms, or journal articles available in the original journal issues in library collections. (We did not sample this group to determine pricing changes.)

Mailing of the letters began on February 24th. Six weeks were allowed for response. At the end of the 6 weeks a second attempt was made to readdress those letters that had been returned by the Post Office as undeliverable. A simple check for a better address for these documents was made in order to emulate the kind of effort an actual ERIC user might make using only easily available tools, e.g. the list of publishers in Books in Print, the telephone book for local associations, and a long distance operator for those organizations outside the Washington Metropolitan area. If we came up with a newer address through these limited means, a second mailing was initiated. If we could not locate a better address, the document was counted as "Undelivered (2d Attempt)". The first two columns on the chart indicate these figures.

The third column shows the figures for those letters sent out for which we had no reply and no post office return, i.e. ostensibly delivered but no response back. We asked on the questionnaire for the current correct price and/or address information. If the ordering information has changed over time, this fact is indicated in the column headed "Availability Information Changed". The figures shown combine price and/or address changes; however, more often it was the price that had changed.

Out of the total sample of 300 documents, 52.5% can still be obtained and 47.5% are no longer available. The percentage still available decreases with age:

1978	73% available
1973	47% available
1968	38% available

It should be noted that the 1968 figure is boosted by 29 documents where no verification was necessary. At that time the ERIC selection policy did not eliminate as many NTIS, University Microfilms, or journal articles as the present policy. If the figure 29 is disallowed and a sample figure of 71 is taken as a base figure for that year instead of 100, only 9 documents or 12.5% could still be ordered from 1968. Extending this reasoning to 1973 and eliminating the 17 in the above categories, only 21 documents (25.5%) would still be available from 1973.

Documents from the commercial and non-profit sectors follow the overall percentages closely. Foreign documents, did not hold up well with age (1968 foreign documents were all unavailable) but scored better than other categories for the more recent time periods. Surprisingly, the undeliverable category was not as large for foreign documents as might have been expected.

In the Government category, all documents listed in 1968 as available from GPO are no longer available. However, all GPO documents are now entered at Level 1 and this problem is no longer a concern.

Individuals cited as sources score poorly. Of the total of 4 in the sample, only 1 is still available.

There are few surprises in the study. For an archival data base, Level 3 documents appear to fade away to unavailability rather rapidly, and ordering information (mostly prices) goes out-of-date fairly quickly. The only "dependable" Level 3 documents are those available from another data base or as journal articles. It seems the present policy of deemphasizing Level 3 documents in ERIC is substantiated by this study.

STUDY OF CURRENT AVAILABILITY OF LEVEL 3 DOCUMENTS PREVIOUSLY ENTERED IN RIE

SOURCE OF DOCUMENT	UNDELIVERED OR NO RESPONSE				DELIVERED AND RESPONSE RECEIVED				TOTAL STILL AVAILABLE	TOTAL NO LONGER AVAILABLE	TOTAL SAMPLE SIZE	PERCENTAGES

ERIC MANUAL SEARCH WORKSHEET

1. State your search question _____

2. Locate the Thesaurus of ERIC Descriptors. There are abbreviations in the Thesaurus which you should know: NT - Narrower Term; BT - Broader Term; RT - Related Term; UF - Used For; and SN - Scope Notes. (For more information about these abbreviations, you can read pages xvi and xvii in the Thesaurus.
(Due to inconsistent usage, some Descriptors have been entered into the Revised Thesaurus as "invalid" terms. For further explanation of the terms, see page xviii of the Thesaurus.)
3. Using the listing of Descriptors in the Thesaurus, identify as least two Descriptors to use in searching your topic.

4. Locate a RIE (monthly or cumulative).
5. Looking at the top of the page, find the section called the Subject Index.
6. Find the Descriptors you chose in item 3 in the Subject Index. List the ED number for at least one document under those Descriptors.

7. Looking at the top of the page in the RIE, find the section labeled Document Resumes. Find the ED number noted in item 6. (ED numbers followed by "/" are not available through ERIC. Other availability is cited.)
8. Read the resume.
9. If you want to read the entire document, locate it by number in the microfiche collection. If not, go back to Step 4 and search for another ED number.

(over)

JOURNAL SEARCH

10. Locate a monthly CIJE; find the *Subject Index*. Find the Descriptors you chose in item 3. List the EJ number for at least one article under those Descriptors.

11. Looking at the top of the page in the CIJE, find the *Main Entry Section*. Find the EJ number listed in item 10.
12. Read the annotation. If you want to read the entire journal, copy the journal title, volume number, page numbers and dates.
(NOTE: Journal articles are not available on microfiche.)
13. Using the *Journal Directory* (brown folder) located on the shelf below the CIJE, discover the location of the journal in the University library system.

GOOD LUCK

ACTION ITEMS

NON-USE OF ELECTRONIC MAIL (IF THE SHOE FITS, WEAR IT!)

Much to my disappointment, the initial group of ERIC Clearinghouses to access the Electronic Mail system are guilty of NON-USE!

During the first 30 to 60 days there was indeed excellent use by each Clearinghouse. Apparently once the initial novelty wore off, the Electronic Mail system was used less and less. Hopefully with the third group of Clearinghouses just beginning, the communications lines should start to hum again.

To all those users holding back, for whatever reason, let's get going again. (See also article entitled "Electronic Mail—All Clearinghouses Now Up" in the Network News section.)

...Jim Prevel (Central ERIC)

CLEARINGHOUSE INPUT TO INTERCHANGE (3RD QUARTER ISSUE)

All Clearinghouses are requested to submit input for the next issue of Interchange. All input should be at the ERIC Facility no later than September 1, 1981 in order to permit us to make our schedule. You may use EIES to submit input or, if the input is relatively short, you may phone in the information and follow it by a written copy. Of interest to Interchange readers are: IAPs, briefly described, accompanied by price, ED no., and other availability information; search techniques or tips (these should be at least a paragraph); education news; a new user reference tool; RIE input such as difficult-to-obtain hearings, new "hot topic" documents, etc.

...Carolyn Weller (ERIC Facility)

CATALOGING ADVISORY (CORRECTION)

Christine St. Lawrence, Senior Editor of RIE, offered a reminder in the July 1981 EAB (p. 4) as to how "Paper presented at..." documents should be formatted. In typing her article, I misread "DC" (which is correct) for "D.C." (which is incorrect).

The sentence should have read: "Paper presented at the Annual Meeting of the American Anthropological Association (Washington, DC, December 6, 1980)." In this particular situation, the state is displayed as the standard two-letter postal code, without punctuation. I hope that this error has not caused any inconsistency to occur in your cataloging practices.

...Elizabeth Pugh (ERIC Facility)

"IN-HOUSE" INDEXING GUIDELINES

At the National Technical Meeting this year, Sydney Meredith (SO) and Anita Colby (JC) agreed to review Clearinghouse "in-house" indexing guidelines and rules. These are guidelines which are practiced within the Clearinghouses, but have not been shared with other Clearinghouses and users. One of the tasks is to recommend

a mechanism for sharing these rules; i.e., see that the ideas are incorporated in the Thesaurus, Identifier Authority List, ERIC Processing Manual, or the Abstractor/Indexer Workbook, as appropriate.

If you are aware of any indexing rules which have not been written down and which you are using in a particular manner at your Clearinghouse, will you please let us know?

...Sydney Meredith (SO)

CLEARINGHOUSE PRODUCTS ON BILINGUAL EDUCATION REQUESTED BY FL

For FL's ERIC exhibit at the National Association for Bilingual Education in May, we invited other Clearinghouses to send any materials they had developed on bilingual education which they wanted us to distribute. Frankly, we were amazed at the numerous items other ERIC Clearinghouses have done in what we thought was basically our scope area (with a little overlap at RC and UD)! In order for us to more adequately represent what ERIC is doing in this area, we would like all Clearinghouses to send one copy of any past/present/future publications (and ordering information) to Mary Niebuhr at FL (fact sheets, minibibs, IAPs) to CS, JC, RC, and UD. Hopefully, we can be of more help than we have been in the past when bilingual education questions come our way. Thanks.

...Mary : Niebuhr (FL)

CIJE JOURNAL LOG FORMS NO LONGER REQUIRED WITH QUARTERLY REPORTS

In the November issue of the EAB, Clearinghouses were asked to submit a CIJE journal log with each Quarterly Report. Since this time CIJE processing time has been reduced considerably. Therefore, we wish to suspend, at least temporarily, the requirement that this log be submitted with Quarterly Reports. Hopefully this will reduce some extra paperwork.

The Central ERIC policy on processing articles for CIJE remains the same—journal articles should be processed as rapidly as possible, with 3 weeks considered the maximum acceptable elapsed time under normal circumstances.

...Pat Coulter (Central ERIC)

ABSTRACT EVALUATION PROJECT RESPONSES NEEDED

Very few responses to the checklist for the abstract evaluation project (that was distributed at the National Technical Meeting) have been received so far. Please send your comments to the ERIC Clearinghouse for Junior Colleges as soon as possible. See Attachment 1.

...Anita Colby (JC)

NETWORK NEWS

"THANK YOU" TO THE ERIC NETWORK

CERIC has been experiencing some rather hectic moments lately due to staff vacations, the tremendous gap from Bob Chesley's absence, requests from policy makers for information to be used in Congressional hearings, and papers that indicate "what would happen if."

We here in CERIC are somewhat used to this, although the anxiety about reorganization of the Department does exacerbate the concerns this year. My point in all of this is that we thank all of you—the ERIC family—for your patience, understanding, and most important, your prompt response for information. I wish that I could predict what will be the results of our joint efforts, but at the moment all I can say is that what you've done has helped us tremendously. We are grateful.

Final decisions on the FY82 budget have not been made. The best information seems to indicate that ERIC will probably have a reduction of 13 to 20 percent. With your help, once the final figure is set, we will try to adjust activities and functions so that we will continue to maintain as effective and efficient a system as possible. We also intend to continue to seek your advice and counsel in these times "which try women's souls."

...Chuck Hoover (Central ERIC)

TELENET AND TYMNET ACCESS PRICES CHANGE

Effective August 1, 1981, there will be a change in TELENET and TYMNET access prices. The price for TELENET will be raised to \$6.00 per hour and price for TYMNET will be lowered to \$6.00. Access prices will thus be the same for both networks.

...Carolyn Weller (ERIC Facility)

DUPLICATE SOURCE NAME/CODE

The "Office of Vocational and Adult Education (ED), Washington, D.C." was inadvertently established twice in the Source Directory.

The Clearinghouses should use the correct code: BBB18325. The incorrect code (BBB18589) will be deleted.

...Julie Holladay (ERIC Facility)

ELECTRONIC MAIL—ALL CLEARINGHOUSES NOW UP

By now all Clearinghouses should have received the red looseleaf binder from EIES. If you have not received the EIES binder, or need assistance in using the electronic mail system, contact Sandra Hixson at the ERIC Facility. **PLEASE USE THE SYSTEM.** (See also the article entitled "Non-Use of Electronic Mail" under the Action Items section.)

...Jim Prevel (Central ERIC)

COUNCIL OF ERIC DIRECTORS (COED)

Irving Morrissett, chairperson, and other members of COED (Erwin Flaxman, Julie Miller, and Art Cohen) met in Washington, D.C. on July 9 and 10 to make plans for the meeting of Directors on September 16 and 17 and to consider other matters of concern to the Directors and the ERIC system. All matters referred to the Council by ERIC Directors were considered for inclusion in the agenda, and a provisional agenda was later sent to all Directors. Chuck Hoover met with the Council, representing Bob Chesley.

The Council also met with Donald Senese, Assistant Secretary for Research and Improvement of Education of the Department of Education, with Milton Goldberg, Acting Director of NIE, and with David Florio, a staff member of the American Educational Research Association, for the purpose of getting an update on budget prospects for NIE and ERIC.

The September meeting will be at the new Holiday Inn, near the Capitol building. Clearinghouse directors who have not made their hotel reservations well before they read these words may expect the wrath of Pat Coulter, the CERIC coordinator for logistics. (They may also find themselves without accommodations.)

...Irving Morrissett (SO)

DEPARTMENT OF HEW/HHS/ED

Several calls have been received from Clearinghouses pertaining to the old HEW Source Directory names versus the new HHS/ED names.

ERIC is still processing documents that bear the HEW name. For this reason alone it would be necessary to retain HEW as a distinct organizational entity. In addition, however, there are the thousands of documents in the data base that are validly cataloged under the older HEW names. In order to retrieve these documents properly it is necessary to retain the HEW name forms.

New agency names are set up as we receive documents that carry those names. the National Institute of Education is currently in the Source Directory two ways:

BBBO6621 National Inst. of Education (DHEW), Washington, D.C.

BBB18183 National Inst. of Education (ED), Washington, D.C.

As subdivisions of the latter name are required to catalog documents and are requested by catalogers, they will be established.

...Julie Holladay (ERIC Facility)

PUBLICATION DATE SEARCHING PROBLEMS

The ERIC Data Base carries publication date information in a standard format, e.g.:

14MAY81

MAY81

81

[81] Date Supplied

When the ERIC file was recently reloaded by DIALOG, this data was manipulated so that the year would look like year data in other DIALOG data bases. Specifically, "19" was added in front of the last two characters so that "81" became "1981." While this worked fine for most of the records, it did not work for the records carrying supplied dates. The conversion system identified the last numeric and then placed the "19" after the second character from the right. This resulted in "[80]" becoming "8190," a futuristic date indeed. Through the June 1981 issue of RIE this mishap has impacted some 13,015 records with a supplied publication date ranging between 1970 and 1979 and 263 records with a supplied date of 1980.

DIALOG has been informed of the problem and it was corrected for new input beginning with May 1981. Until the backfile situation is fixed (expected by the end of August), however, users interested in searching on publication year and on getting comprehensive results will have to use not only the valid format "PY = 1979," but also the format created for supplied dates by the faulty conversion, i.e., "PY = 7199."

Since supplied (i.e., formerly bracketed) dates have actually been changed by DIALOG on the ERIC citation file and appear in the printed output in their faulty form, information centers dealing in ERIC searches may wish to explain to clients why certain publication dates look so peculiar.

...Carolyn Weller (ERIC Facility)

ERIC/EC ANNOUNCES CHANGES IN JOURNALS MONITORED FOR CIJE

The following publications have been dropped:

- Bureau Memorandum
(no issues received for several months)
- American Journal of Orthopsychiatry
(few education-related articles)

The following journals have been added:

- Journal of Special Education Technology
- Journal for Special Educators

...Marion Cambel (EC)

CIJE JOURNALS DELETED

Due to the low number of journal articles within our scope and the difficulty in obtaining issues on a regular basis, the ERIC Clearinghouse on Reading and Communication Skills will no longer (as of June 24, 1981) be annotating the following journals:

- CEA Critic
- English in Education
- ETC: A Review of General Semantics
- Journalism History
- Media and Methods
- Public Opinion Quarterly

...Hilary Holbrook (CS)

THE UNKNOWN ERIC

Scarecrow Press has just published a 239-page book by Joseph Gerald Drazan entitled The Unknown ERIC: A Selection of Documents for the General Library. It is described as a bibliography which lists 516 ERIC documents which are "worthwhile" and "of special merit," but which "are only remotely related to the discipline of education." The book is priced at \$12.50.

...Barbara Wildemuth (TM)

COMPARATIVE DATABASE CHART WELL RECEIVED

A chart comparing features of 11 computerized databases relevant to education was used as a handout at the April AERA mini-training session sponsored by HE. Compiled by Lynn Barnett to help summarize details presented at the session, the chart provides information on DIALOG databases covering such subjects as business, psychology, finance, and general news, as well as "pure" education. Session participants found it to be a convenient guide to the types of information available. The chart appears as Attachment 2.

...Lynn Barnett (HE)

VOCABULARY PAPERWORK CLEANUP (VPC?)

Questions have been raised about what to do with the old VIP Vocabulary Review Forms (i.e., "Can we throw them away?"). In case memories fail, those were the forms showing the display and postings for each descriptor. Roughly 130,000 review forms were produced by the Facility (5,200 terms times about 25 reviewers). It's the remains of these 130,000 pieces of paper divvied up among the Clearinghouses for analysis, that we are talking about. It is the current consensus of the VRG/CERIC authorities that those various piles of paper across the country may not be sent to Descriptor Heaven. HOWEVER, please save those related to descriptors (probably VIP second-priority terms) that still need to be worked on.

...Lynn Barnett (HE)

RURAL DIFFUSION STRATEGIES PROGRAM

The ERIC Clearinghouse on Rural Education and Small Schools and the Center for Resource Management (from New York), which is the contractor for technical assistance to the National Diffusion Network (NDN), are working with Western Montana College at Dillon, Montana to develop diffusion strategies for rural schools. A week long workshop will be held in late September in a rural school at Jordan, Montana with the staff at Western Montana College and a follow-up workshop will be held in May 1982. One of the matters being addressed is how the rural schools in Montana can utilize the ERIC Standing Order Customers within the state.

...Amelita Hill (RC)

VISIT TO GELMAN LIBRARY (GEORGE WASHINGTON UNIVERSITY)

Lynn Barnett, Assistant Director at the ERIC Clearinghouse on Higher Education, met with Martha Bowman, Associate University Librarian, George Washington University, to discuss online database systems. Lynn toured the Gelman Library's new online circulation system facilities and OCLC section. Useful information was shared and a working relationship established.

...Jim Honan (HE)

NEW PUBLICATIONS

NEW PUBLICATIONS—EC

The following were fact sheets initiated since January 1, 1981:

- New Titles

- Learning Related Visual Problems (3/81)
- Serving the LD Student in a Vocational Classroom (3/81)
- Programing for the Gifted—Facts for the Administrator
- Cost Effectiveness of Special Education
- Advocacy for the Handicapped

- Revised Titles

- Parents of Handicapped Children (6/81)
- Parents' Rights and Responsibilities (6/81)
- Children on Medication (6/81)
- Individualized Education Programs (6/81)
- Procedural Safeguards (6/81)
- Educational Rights of American Indian and Alaskan Native Handicapped Children (6/81)
- Rights of the Handicapped (6/81)
- Arts and the Handicapped (6/81)
- Argument for Early Intervention (6/81)
- Careers in Special Education (3/81)

The following are new major publications produced by the Clearinghouse:

- Overcoming Communication Barriers: A Cooperative Action Planning Workshop for Parents and Educators of Exceptional Children, Susan Gorin, Mary S. Lowry, Jean N. Nazzaro, Barbara Scheiber.

Directions for a full day workshop for parents and educators aimed at uncovering barriers to communication and developing a plan of action that will address a problem area that both groups feel needs attention. 25pp. \$1.00 for postage and handling.

- ERIC Hot Topic Papers

- Computers for Special Education Management: Progress, Potential, and Pitfalls. Kirk Wilson.

Provides an overview of current approaches to special education management, answers questions about what a computer can do for teachers and administrators. Gives examples of existing management systems. Describes pitfalls to be avoided. 36 references. 10pp. \$1.00 for postage and handling.

- Make IYDP a Hot Topic

1981 is the international year of the disabled person (IYDP). The paper provides some background information and suggests ways of getting involved including public awareness projects, prevention and early intervention, and educational, social, and medical projects. 10 resources. 6pp. \$1.00 for postage and handling.

- ERIC Exceptional Child Education Reports: A Directory of Special Education Resources, Carol Lloyd and Donald K. Erickson.

A directory of agencies, publications and services that include addresses, contact person, telephone numbers, and IEF descriptions of the entry. Resources are broken down into seventeen categories such as general information, statistical/incidence/demographic data, research and development, exceptional ITY specific organizations, and legal resources. 66 pages. \$1.00 for postage and handling.

...Jean Nazzaro/Dorothy Beling (EC)

NEW PUBLICATIONS—HE

- A Question of Quality: The Higher Education Ratings Game. Judith K. Lawrence and Kenneth C. Green. AAHE-ERIC/Higher Education Research Report No. 5, 1980. (\$4.00). (ED 192 667).

This report reviews the literature on three types of assessment: the accreditation process, academic studies and state program review.

- Accreditation: History, Process, and Problems. Fred F. Harclerod. AAHE-ERIC/Higher Education Research Report No. 6, 1980. (\$4.00). (ED 198 774).

This report is a definitive review of what is accreditation. It includes such areas as: How did accreditation start? What is the accreditation process? What are the legal implications of accreditation? What role will accreditation play in the 1980s?

- The Politics of Higher Education. Edward Hines. AAHE-ERIC/Higher Education Research Report No. 7, 1980. (\$4.00). (HE 013 741).

The objective of this research is to use a limited number of major issues, such as accountability through fiscal oversight, state and federal information requirements, and academic program review, as the means to identify and explicate the broader political contexts in which these and other salient public policies are formulated for higher education.

- Student Retention Strategies. Oscar Lenning, Ken Sauer, and Phillip E. Beal. AAHE-ERIC/Higher Education Research Report No. 8, 1980. (\$4.00). (HE 013 602).

This monograph reviews both the state-of-the-art and the state of practice in the area of student retention.

- The Financing of Public Higher Education. Jacob Stampen. AAHE-ERIC/Higher Education Research Report No. 9, 1980. (\$4.00). (HE 014 033).

Reviewed is the relationship of low-tuition public institutions with the goals of equal educational opportunity and the underlying assumptions of financing higher education. Examined is the research on levels of tuition, types of student aid, and enrollment, and the interaction of these elements.

- University Reform: An International Perspective. Philip G. Altbach. AAHE-ERIC/Higher Education Research Report No. 10, 1980. (\$4.00). (HE 014 034).

Discussed are the various definitions of reform, some approaches which have been taken to it in various countries, and the like. The report will sensitize the reader to the importance of looking at the issue from the cross-national perspective and indicate that this perspective has relevance for American policy makers and administrators.

Copies of the above publications may be ordered from: Publications Department, American Association for Higher Education, One Dupont Circle, Suite 780, Washington, D.C. 20036.

The following are new Fact Sheets from ERIC/HE:

- Organization Theory: Implications for Design. David A. Young. AAUA-ERIC/Higher Education Administrator Update. Vol. 1, No. 3, Winter, 1980. (ED 189 915).
- Federal Regulations and Higher Education: An Overview for College and University Administrators. Ronald H. Stein and Judy Zuckerman. AAUA-ERIC/Higher Education Administrator Update. Volume 2, No. 1, Summer 1980. (ED 190 011).
- Federal Regulations and Higher Education: An Overview for College and University Administrators: Part II. AAUA-ERIC/Higher Education Administrator Update. Volume 2, No. 2, Fall 1980. (ED 195 211).
- Women in Higher Education Administration: Status and Strategies. Cheryl S. Finlay and Patricia H. Crosson. AAUA-ERIC/Higher Education Administrator Update. Volume 2. No. 3, Winter 1981. (HF 013 604).

Copies of Administrator's Update may be ordered for 50¢ from the American Association of University Administrators, P.O. Box 536, Oneonta, N.Y. 13820.

- Mandatory Retirement of Higher Education Faculty. Janet Novotny. AAHE-ERIC/Higher Education Research Currents. February 1981. (ED 197 693).
- Faculty Development: A Survey of Literature of the 70's. Barbara Stordahl. AAHE-ERIC/Higher Education Research Currents. March 1981. (HE 013 603).
- In Search of the Meaning of Yeshiva. Perry Alan Zirkel. AAHE-ERIC/Higher Education Research Currents. April 1981. (ED 198 788).
- Instructional Television—Higher Education Without Commercial Interruption. Carl H. Shulman. AAHE-ERIC/Higher Education Research Current. May 1981. (HE 013 740).
- Faculty Response to Retrenchment. Margot S. Eddy. AAHE-ERIC/Higher Education Research Currents. June 1981. (HE 013 987).

Copies of the Research Currents listed above are available for 75¢ a single copy from the Publications Department, American Association for Higher Education, One Dupont Circle, Suite 780, Washington, D.C. 20036.

...Lynn Barnett (HE)

NEW PUBLICATIONS—JC

The following are new publications from ERIC/JC:

- New Directions for Community Colleges: Women in Community Colleges is available from Jossey-Bass, Publishers, for \$6.95. The sourcebook discusses current contributions of and opportunities for women in community colleges.
- Responding to Community Needs Through Community Follow-Up is the most recent Junior College Resource Review. It is by Mantha Vlahos Mehallis and can be ordered from the ERIC Clearinghouse for Junior Colleges free of charge. The review analyzes the literature on determining and responding to community needs and makes recommendations for community colleges seeking to improve accountability.

The following is a new Fact Sheet available from ERIC/JC:

- Community Needs Assessment Surveys is available from the ERIC Clearinghouse for Junior Colleges. This Fact Sheet explains the steps in the needs assessment process and cites examples of such surveys conducted by community colleges.

A Fact Sheet on two-year colleges and another one on grant opportunities and proposal writing for community college administrators and practitioners will be published in the next month.

...Donna Dzierlenga (JC)

NEW PUBLICATIONS—TM

The following ERIC/TM Reports listed below are available from:

ERIC/TM
Educational Testing Service
Rosedale Road
Princeton, New Jersey 08541

- How Attitudes are Measured: A Review of Investigations of Professional, Peer, and Parent Attitudes Toward the Handicapped. Marcia D. Horne. \$5.50.

Because recent legislation mandates mainstreaming of handicapped students, it is important to understand attitudes and expectations of those populations who will be interacting with the handicapped. Types of attitudinal measures and commonly used instruments are reviewed. Measurement techniques include attitude scales; rank-order scales and items; Q-sorts; paired comparisons; semantic differential measures; adjective checklists; sociometric procedures; interviews; observational techniques; projective methods; and special techniques, including mainstreaming questionnaires.

- The Reviewing Processes in Social Science Publications. Susan E. Nelson and Carnot E. Nelson. \$4.00.

Publication of articles in archival journals is governed by strict social norms, among them refereeing of manuscripts by peers, a method almost universally used by American and British Commonwealth journals. The high rejection rate of articles submitted to social science journals and the increased pressure on faculty to publish are some of the reasons which have led to increased concern with the refereeing process. There have been a number of studies which have examined parts of this process. This research review describes the methods used by the various scientific communities to evaluate manuscripts, and discusses the research findings related to the evaluation process, and the reliability and validity of referee ratings and other criteria.

- Intelligence Testing, Education, and Chicanos: An Essay in Social Inequality. Adalberto Aguirre, Jr. \$5.50.

Intelligence testing evolved in the early 20th century to meet demands brought about by increased socialization of the population, an increasing demand for specialization, and the belief in common solutions across institutions. Intelligence testing was incorporated into educational processes as an instrument for formalizing individuals' acceptance of external, institutional demands. Whatever the original and evolving rationale for testing has been, the author concludes that intelligence testing and the correspondent ideology of equal educational opportunity are instrumental in justifying and maintaining current patterns of inequality by suggesting that Chicanos are not intelligent enough to share in the high quality of American life.

- Contract Grading. Hugh Taylor. \$7.50

Although the philosophical and psychological roots of contract grading go back many years, the procedure is a phenomenon of the 1970s. More than 130 articles on contract grading are reviewed and listed in an annotated bibliography. The purpose of this review is to provide information for instructors who may be considering contract grading and for others who wish to improve their grading practices or to use the method in research studies.

- Intelligence, Intelligence Testing, and School Practices. Richard DeLisi. \$4.50.

The intended audiences for this paper are parents and teachers who want information on intelligence testing as a school practice. It focuses on an account of the factors which led to intelligence testing and its use in schools. Opinions about the use of intelligence tests are not only based on knowing terms, facts, and concepts, but are also a matter of individual views on the role of education. The author's purpose is to make individuals aware that there are no right or wrong answers on the subject of intelligence testing, but that the knowledge gained from learning more about intelligence testing will help in formulating more informed opinions.

- Measuring Attitudes Toward Reading. Ira Epstein. \$9.50.

Although information sources on reading achievement measures or issues are abundant, the same cannot be claimed for reading attitude measures. Information on reading attitude evaluation is scattered in dissertations, journal articles, unpublished research reports, and various other sources. This sourcebook attempts to provide some control over the information scatter by exploring issues related to reading attitude assessment and by providing a wide-ranging sample of existing measurement instruments. The publication is divided into two basic sections: (1) a general discussion of the nature of attitudes and a more specific discussion of attitudes toward reading, and (2) copies of 14 representative reading attitude measures, including information on availability and administration and scoring guidelines.

- Methods of Identifying Gifted Minority Students. Ernest M. Bernal. \$4.50.

Several problems are discussed in this publication: Methods of identifying gifted students from minority populations; the potential changes which these methods may cause; and the issues which will be raised in redefining the concept of giftedness and in selecting students for gifted programs. Redefining giftedness by recognizing characteristics or patterns of ability previously outside the conceptualization of giftedness has implications for curriculum development and planning.

NEW PUBLICATIONS—PS

The ERIC Clearinghouse on Elementary and Early Childhood Education has completed its first short report (Fact Sheet), a mini-review of research on effective classroom management practices in the elementary school. Another short report on sources of statistical information in early childhood education is currently in progress. Other reports planned for this year are: an early childhood education expert's common sense view of emerging issues in the field of children's rights and a look at sources of stress that affect children's school behavior and performance, with suggestions for teachers who wish to help children reduce stress.

...Janet M. Bowermaster (PS)

NEW PRODUCTS/NEW IDEAS

CE USES WORD PROCESSOR FOR IAP PRODUCTION

The ERIC Clearinghouse on Adult, Career, and Vocational Education has begun to use a word processor in order to reduce the time spent on information analysis products. Following an initial edit, the paper is prepared for input to the word processor at the same time it is being reviewed by three individuals external to the project. Once reviews of the paper are complete, it is quite simple to make suggested changes or revisions as well as perform further editing on the papers using the word processor. In addition, papers will be automatically typeset using word processor copy when they are ready for publication.

...Susan Ime! (CE)

IAP AUTHORS ASKED FOR MARKETING SUGGESTIONS BY CE

CE sends every IAP author a final copy of his/her paper (the one signed off on) and a questionnaire designed to solicit ideas for the marketing of the IAP. The suggestions are given to National Center Publications, which picks up on those deemed appropriate. See Attachment 3 for a copy of the questionnaire.

...Judy Wagner (CE)

WHERE DO ALL THOSE FREEBIES COME FROM?

There are many free publications/brochures which are not produced by the Clearinghouse, but which are available through the Clearinghouse. The ERIC Clearinghouse on Languages and Linguistics maintains a list of such publications and their sources and this is reproduced as Attachment 4. This list is updated when new products are received from NIE or the ERIC Facility. Several people on the staff have copies beside the User Services Coordinator. We have found

the list useful for training new staff, especially when there is no overlap between the old and the new person, or when the person in charge is gone and we run out of something.

...Mary Niebuhr (FL)

ERIC/ECE COOPERATES IN HHS BIBLIOGRAPHY PREPARATION

The ERIC Clearinghouse on Elementary and Early Childhood Education recently added ED numbers to citations in a bibliography of parenting materials compiled by the Office of Families of the Department of Health and Human Services. By assisting in the compilation of this bibliography, we have been able to insure: (1) that information included about ERIC and our Clearinghouse is correct, and (2) that price information and address listing are up-to-date. We were also able to check this newly compiled listing of documents against our own acquisition effort to see if we should solicit any additional documents. We feel that the small amount of staff time spent on this type of project increases our visibility to the general public and insures the dissemination of accurate information about ERIC.

...Dianne Rothenberg (PS)

PERSONNEL NEWS

JULIE HOLLADAY OF THE ERIC FACILITY TO MARRY

Julie Holladay, RIE Editor at the ERIC Facility, will be married on August 29, 1981 to Frederick Mann. We wish them the very best of everything in their new life together.

...Elizabeth Pugh (ERIC Facility)

DOROTHY BLOCH BECOMES DOROTHY BELING

Dorothy Bloch of the ERIC Clearinghouse on Handicapped and Gifted Children recently married and is now Dorothy Beling. Best wishes to both her and her new husband.

...Elizabeth Pugh (ERIC Facility)

STAFF CHANGES AT CS

Mary K Monteith recently left the Clearinghouse to relocate near Detroit, Michigan. Anne Auten has returned to the Clearinghouse, and will be working part-time in abstracting and user services and part-time on a special project on writing.

...Hilary Holbrook (CS)

ERIC/CEM STAFF MEMBER GIVES BIRTH

Jo Ann Mazzarella, a very capable writer for the ERIC Clearinghouse on Educational Management during the past six years, is taking a six-month leave of absence in order to be a full-time mother. Kathryn Ann (Katie) was born to Jo Ann and Richard on June 11, 1981. Jo Ann plans to return to half-time employment at the Clearinghouse in January.

...Stuart Smith (EA)

STAFF CHANGES AT FL

After six months of being directorless (not to be confused with directionless), the ERIC Clearinghouse on Languages and Linguistics has a new director, Dr. John L. D. Clark. Dr. Clark comes to FL after fifteen years at the Educational Testing Service where he was a Senior Test Examiner. He officially began full-time work at the Center for Applied Linguistics on July 1, 1981.

Jeanne L. Rennie started as the new User Services Coordinator on June 15. Jeanne has a degree in French from Michigan State University and comes to us from the National Association of Social Workers, where she was a correspondent.

...Mary Niebuhr (FL)

STAFF NEWS AT PS

Director Lilian Katz recently returned from a 3-month stay in Germany, where she served as a Visiting Professor of Comparative Education at the University of Hamburg. Dr. Katz has resigned as the chairperson of the Elementary and Early Childhood Education Department at the University of Illinois and will increase her time at ERIC to fifty percent.

Dianne Rothenberg, Acquisitions Coordinator, has been promoted to the position of Assistant Director at ERIC/EECE. She will continue to be responsible for acquisitions.

Jane Amundsen, Abstractor/Indexer, will be leaving ERIC/EECE in the fall. She will be annotating documents for the CDA Resource Center at the University of Illinois.

Janet Bowermaster, User Services Assistant, will be leaving ERIC/FECE after six years on the staff to enter law school at the University of Illinois.

Charlotte Watkins, Publications Coordinator, will also be leaving ERIC/EECE after six years to enter law school at Harvard University. Paula Wagemaker, currently Assistant Editor, will become Senior Editor for the Clearinghouse.

Lisa Azchunke will be leaving ERIC/EECE's clerical support staff this fall to travel in Europe.

...Janet M. Bowermaster (PS)

MEETINGS/CONFERENCES/WORKSHOPS

EC CONDUCTS WORKSHOP

On May 13, 1981, Sharon Brecher conducted a five-hour ERIC workshop for 25 SOCs and ERIC searchers at the University of South Florida in Tampa, Florida.

...Lynn Smarte (EC)

HE HOSTS BREAKFAST MEETING AT AIR CONFERENCE

The ERIC Clearinghouse on Higher Education took full advantage of its presence at the conference of the Association for Institutional Research (AIR) held in Minneapolis/St. Paul, Minnesota on May 17-20, 1981. Besides sponsoring an ERIC exhibit, Dr. Jonathan Fife and Laura Ciarniello hosted a breakfast meeting for a representative group of AIR members. The purpose of the meeting was to update the AIR members on some of the Clearinghouse's activities and to seek their advice on several projects and system improvements. The meeting served its purpose well—engendering good suggestions, as well as encouraging feedback. A well digested meeting for ERIC!

...Laura Ciarniello (HE)

STATE ACADEMIC OFFICERS LEARN ABOUT ERIC

Lynn Barnett represented her Clearinghouse and ERIC at the fifth annual State Academic Officers Seminar in St. Paul, Minnesota, July 19-21, 1981. Participants included staff members from state boards or commissions of higher education from across the U.S. Many were aware of ERIC, but were not familiar with many details of the system. The Clearinghouse prepared a special bibliography on the two themes of the seminar, program planning and instructional technology in academe, and provided information packets for each participant. In addition, Lynn was a speaker on the panel "From Theory to Practice," and demonstrated computer searching.

...Marilyn Shorr (HE)

HOWARD UNIVERSITY WORKSHOP SPONSORED BY ERIC/HE

Ms. Laura Ciarniello conducted an ERIC workshop for 25 professors from black colleges and universities taking part in a 4-week seminar at Howard University on information utilization. The session targeted on how ERIC can be a useful resource tool in proposal writing.

...Laura Ciarniello (HE)

SP EXHIBIT AT NATIONAL TEACHER CENTERS WORKSHOP

The Clearinghouse staffed an exhibit at the National Teachers Center Workshop on "New Strategies for Inservice Education," held in Washington, D.C. on June 24-27, 1981. An effort was made to present the exhibit as an all-ERIC booth, rather than a specifically ERIC/SP effort. As a consequence, four tables

were filled with all of the latest publications and brochures of all Clearinghouses and network components, and attracted a large number of interested workshop participants.

...Michael Butler (SP)

SUMMER WORKSHOP ACTIVITIES BY UD

Mike Webb and Jerry Wright of the ERIC Clearinghouse on Urban Education were involved in the National Urban League conference held in Washington, D.C. At the ERIC exhibit, attendees were able to obtain computer searches and fact sheets, as well as being able to browse through an array of ERIC materials, including IAPs from several of the Clearinghouses. We thank the NIE Library and Reference Center for sending over Bill Higgins to do our computer searching.

Brian Maruffi and Jerry Wright travelled to Los Angeles and San Diego where they held two workshops on ERIC. These programs were organized in conjunction with Ms. Jo Bonita Perez, Multicultural Curriculum Specialist with the Los Angeles County Schools, and Ms. Dorothy Collins, Head of the Instructional Resource Center at the San Diego County Schools. The attendees were primarily researchers and information specialists from various educational institutions in the two areas. Sessions included an overview, manual searching, computer search negotiations, and strategy information. Emphasis was placed on securing information on urban education and urban schools, although the specific resources available through all of the Clearinghouses were highlighted.

We want to especially thank the staff of the ERIC Clearinghouse for Junior Colleges for coming to our aid when it seemed as if UPS had forgotten to deliver our handouts and display materials.

...Jerome Wendell Wright (UD)

VISITORS HOSTED BY ERIC

GRADUATE STUDENTS HOSTED BY CS

On June 26, 1961, Fran Lehr and Bob Lange hosted two groups of graduate students in Elementary Education from the University of Illinois. The 79 students were in Language Arts and Children's Literature classes.

...Hilary Holbrook (CS)

ERIC/HE HOSTS SRI LANKA MINISTER OF EDUCATION

Dr. Jonathan Fife, Director of the ERIC Clearinghouse on Higher Education, met with Mr. Ranil Wickremesinghe, the Minister of Education from Colombo, Sri Lanka. The Government of Sri Lanka is reorganizing its educational system to increase the relationship between curricula and the needs of the job market. Discussed was ERIC in general, as well as the experience of the American educational system and how its experiences may serve as examples and lessons

for the Sri Lanka system. Dr. Fife and Lynn Barnett were later guests at a reception held in honor of Mr. Wickremesinghe at the Sri Lanka Embassy.

...Laura Ciarniello (HE)

HIGH SCHOOL STUDENTS VISIT HIGHER EDUCATION

Announcing that they were "terrorists" and carrying briefcases galore, a group of high school students entered the ERIC Clearinghouse for Higher Education and stayed for four days! They were part of a group of 500 students participating in the Georgetown University Forensics Institute. The three-week summer program is for members of high school debate teams from all over the country. The topic for this year is minimum standards in education. The students rapidly learned about the wealth of material in ERIC, calling the system "extremely helpful," "fantastic," "great." All agreed that "the materials are very useful." Jim Honan, Laura Ciarniello, and Lynn Barnett enjoyed having such an enthusiastic audience in the ERIC reading room, and Jim and Laura were especially pleased to hear that their home states of New York and Ohio had a lot of debate teams. (They carry on the tradition in the Clearinghouse.) (See story from SP below.)

...Lynn Barnett (HE)

HIGH SCHOOL DEBATERS USE ERIC

A group of 450 secondary school debaters recently converged on Washington, D.C. for three weeks to attend a workshop and tournament. The workshop was sponsored by the Georgetown University Forensics Department; the topic for the debate was: "Resolved: The federal government should establish minimum educational standards for elementary and secondary schools in the U.S." This topic was controversial and definitely "debatable."

The students were referred to a number of ERIC publications (including a publication by the ERIC Clearinghouse on Reading and Communication Skills written especially for this debate topic), and given mini-lessons in searching the ERIC indexes under terms such as "Minimum Competency Testing." The use of ERIC by these students illustrated clearly that ERIC is not only for educators, but for students as well. The staff was delighted to have the opportunity to participate directly in the educational process. (See story from HE above.)

...Dean Schwanke (SP)

KUWAIT VISITOR AT HE

Dr. A. E. Noor, a professor of commerce at Kuwait University, visited the ERIC Clearinghouse on Higher Education on July 24, 1981, where he discussed ERIC with Dr. Jonathan Fife. Research Assistants Laura Ciarniello and Jim Honan conducted an in-depth orientation to ERIC for Dr. Noor, whose interests lie in management systems and information networks.

...Jim Honan (HE)

HE ROLE IN FACULTY DEVELOPMENT AT WESLEY COLLEGE

For the third time in as many months, Dr. Jerry Mars, Academic Dean of Wesley College, Dover, Delaware, visited the ERIC Clearinghouse on Higher Education for information relevant to current issues at Wesley. He was accompanied by Dr. David Bakerian, Director of Continuing Education for the college, who was given an introduction to ERIC. Dr. Mars is enthusiastic about using ERIC in day-to-day problem-solving, and plans to continue introducing his faculty to the system. There are tentative plans for the HE staff to conduct an ERIC workshop at the Delaware college as a faculty development project.

...Lynn Barnett (HE)

ITALIAN VISITORS TO LEARN ABOUT ERIC

Giovanni Biondi and Flora Imberciadori-Polito, educators from Florence, Italy, will be spending 10 days with various components of the ERIC system in an attempt to learn exactly how ERIC works. The representatives from the Italian Ministry of Education are hoping to apply what ERIC teaches them to the development of a similar system in Italy. Chuck Hoover (Central ERIC) and Laura Ciarniello (HE) have developed an agenda for the visitors; Wright Baker (Institute of International Education) has handled travel and lodging arrangements. A very special "thank you" must go out to all the ERIC components involved who have responded in the usual enthusiastic manner: Central ERIC, the ERIC Facility, EDRS, EC, FL, HE, IR, SP, TM, and SO. The travel schedule for the visitors is displayed in Attachment 5. Benvenuto!!

...Laura Ciarniello (HE)

YUGOSLAVIAN VISITORS AT HE

Mr. Janez Benkovic and Mr. Janko Urbanc from the University of Ljubljana in Yugoslavia spent a morning at the ERIC Clearinghouse on Higher Education and the ERIC Clearinghouse on Teacher Education learning about the ERIC system. The Yugoslavian visitors were sponsored by the UNESCO Center For Chemical Studies. Both professors expressed interest in having the ERIC file in their country and plan to pursue the matter with UNESCO.

...Laura Ciarniello (HE)
Michael Butler (SP)

EDITOR FROM CHINA VISITS ERIC/JC

The editor-in-chief of the Science and Technology Review, a Chinese educational journal published in Beijing, visited the ERIC Clearinghouse for Junior Colleges on July 1. Ning Chien was interested in discussing the development of the American community college and the future of short-cycle education in the People's Republic of China.

...Donna Dzierlenga (JC)

FOREIGN NATIONALS VISIT TM

During June, 33 foreign nationals visited the ERIC Clearinghouse on Tests, Measurement, and Evaluation. These scholars were participants in the Educational Testing Service's International Program in Educational Testing. The Clearinghouse provided the visitors with an overview of the ERIC system, and distributed relevant literature.

...Anita Labib (TM)

AUSTRALIAN VISITOR AT UD

Dr. Peter Wilkinson, Senior Research Fellow with the Australian Institute of Multicultural Affairs, spent the afternoon of June 10, 1981 at the ERIC Clearinghouse on Urban Education. Established by the Australian government as a Federal statutory authority, the Institute's principal responsibilities are to provide advice to the Commonwealth Government on multicultural matters, to carry out research, to undertake community education and information activities, and to establish a repository of ethnic cultural heritage materials.

Dr. Wilkinson met with Stella Torgoff and Jerry Wright to discuss information activities and Clearinghouse operations on migration and multicultural affairs.

...Jerry Wright (UD)

THE LIGHTER SIDE

CONVICT INDEXING?

Your list of required reading should include an article by Joseph Drazon (Acquisitions Librarian, Whitman College, Walla Walla, Washington), taken from The Indexer, 12(1): 27-28, April 1980. Please refer to Attachment 6.

...Barbara Wildemuth (TM)

CAN ANYONE TOP THIS???

Over the years I've kept a list of inventive author excuses for missing IAP deadlines. The most recent contribution has to be one of the best: "It's sheep-shearing time at the farm." (!!)

...Sophia Behrens (FL)

STOP, YOU'RE DRIVING ME CRAZY!

The following wins a "statement of the month" award from the SO Clearinghouse. Borrowed from one of our documents, it appears here verbatim for your reading pleasure. The author shall remain nameless.

"A word about where we are now in respect to some aspects at least of these pursuits may be in order at the outset."

...Diana Beer (SO)

ABSTRACTOR EVALUATION FORM
(WORKING DRAFT)

ERIC Document No. _____ Evaluator/Clearinghouse _____
 Clearinghouse Accession No. _____ Document Type _____
 Abstractor _____

A. Selection of Abstract Type

- | | YES/NO |
|--|--------------------------|
| 1. Is the type of abstract (informative, indicative, mixed) appropriate to the document? See EPM, p. 9-10. | <input type="checkbox"/> |
| 2. Is the reader always certain as to whether the viewpoint expressed in the abstract is that of the author or that of the abstractor? | <input type="checkbox"/> |

Comments:

B. Style and Vocabulary

- | | YES/NO |
|--|--------------------------|
| 3. Is the abstract a single, coherent paragraph containing connected sentences each following the other in logical order? | <input type="checkbox"/> |
| 4. Does the abstract have a topic sentence, i.e., some coherent statement of the document's major thesis from which the rest of the abstract develops? | <input type="checkbox"/> |
| 5. Are complete sentences used? | <input type="checkbox"/> |
| 6. Does the abstract avoid confusingly long and complex sentences? | <input type="checkbox"/> |
| 7. Does sentence length vary as much as possible? | <input type="checkbox"/> |
| 8. Are new or technical terms and abbreviations or acronyms defined? | <input type="checkbox"/> |
| 9. Is the abstract clear, so that it can be read with understanding by all users of the ERIC system? | <input type="checkbox"/> |
| 10. Is the abstract free of grammatical or spelling errors? | <input type="checkbox"/> |

Comments:

C. Information Content (General)

YES/NO

- 11. Are all important topics covered in the document reflected in the abstract?
- 12. Is the abstract weighted in the same proportion and with the same emphases as the document?
- 13. Is the reader able to find in the document the full and corresponding information mentioned in the abstract?

Comments:

D. Information Content (Specific Types of Documents)

YES/NO

- 14a. If written for a research or technical report, does the abstract contain objectives and hypotheses of the research, methodology, findings and emphasized conclusions, implications, or recommendations, and limitations?
- 14b. If written for a speech or presentation, does the abstract contain a statement of the premise or thesis, development or ideas or arguments with proofs and major supporting facts, and conclusions?
- 14c. If written for a program description or administrative report, does the abstract contain information on the objectives of the program; the target population; types of special teachers and other personnel involved; total number of students or classes involved; means used to carry out the program; special methods used to overcome problems; progress to date on the program?
- 14d. If written for a textbook or other instructional materials, does the abstract deal with the objectives of the text, the general nature of the subject matter, and special methods used in meeting objectives, such as illustrations, exercises, and accompanying activities?

	YFS/NO
14e. If written for a <u>curriculum or teacher guide</u> , does the abstract indicate the guide's subject and grade level, specific course or program objectives, methods used, and whether supplementary activities and materials are suggested?	<input type="checkbox"/>
14f. If written for a <u>bibliography or directory</u> , does the abstract detail subjects considered; the presence of annotations; dates of materials included; types of materials listed; potential users or target audience; and the number of entries?	<input type="checkbox"/>
14g. If written for a <u>multiple-author work</u> , does the abstract state the subject and scope of the collection and provide a narration of the table of contents, including authors and titles?	<input type="checkbox"/>
14h. If written for a <u>test or measurement materials</u> , does the abstract detail the purpose and objective of the test, forms and levels of the test, including length and whether verbal or non-verbal; group to be tested; methods of testing, scoring, and grading; normative data; and information concerning reliability, validity, and test development?	<input type="checkbox"/>
Comments:	

E. Indexing Basics

- 15. Is one of the mandatory educational level terms in the resume, if appropriate?
- 15a. Is the appropriate educational level term on the resume?
- 16. Is the population discussed in the document indexed by other than educational or age level descriptors (i.e., are appropriate student groups, ethnic groups, religions, etc. indexed)?

Indexing as hard labor: 'Convict indexing' in the 1880s

Joseph Drazan

The author is Acquisitions Librarian for Whitman College, Walla Walla, Washington; author of a biography of Alaskan librarianship and a complete index to the journal Research studies (Washington State University)

Reading through the Letters to the Editor of *The Nation* of the last century is a delightful experience. *The Nation* is that American newspaper, weekly, still going strong, that began publication prior to the US War of Rebellion and has a history of fascinating correspondence by names great and unknown (and often cryptic or unsigned). Many of the letters are hot debates by writers scattered around the country on such diverse topics as football in colleges, George Washington's ancestry, the best way to eat an orange, faculty salaries, is it 'one hundred twenty' or 'one hundred and twenty'? much on philology due to Murray's segments of the *New English Dictionary* that were coming out, and, of all things, the indexing of books!

During the 1880s and 1890s over a dozen letters were written on this subject, many by librarians, and several prompted in part by the indexing efforts of Poole and others. Many of these seem mundane today, but perhaps were controversial or startling at the time. Here I have chosen to follow a flurry of letters on indexing, that while amusing, can still be viewed as relevant to today's issues and the purpose of indexing societies.

Ninety-six years ago in *The Nation*, a writer calling himself Anobium Pertinax from Johns Hopkins University set the stage with this blast which the editor titled 'A New Field for Convict Labor'. He said, 'Let all convicts who can read and write be set, under competent supervision, to indexing books; and let those who cannot, receive the necessary instruction as soon as may be.'

Pertinax then stated these two claims for his scheme. 'That it will not conflict with the interests of any class of laboring persons, or at least any that has a claim to consideration,' and, 'That the kind of labor proposed is peculiarly suited to the reformatory idea, being incomparable for teaching order, patience, humility, and for thoroughly eradicating the last trace of the Old Adam in whoever pursues it.'

A few months later, William Hand Browne joined the row with this barb in response to an 'onslaught' upon him by W. F. Poole. Browne reiterated that his idea that convict labor be used in the making of indexes was not his (Browne's) original thought, but that of one Joseph Scaliger. Browne says that Scaliger looked only to the penal advantages, while he liked the idea of relieving 'many worthy persons of an humble, though certainly useful, drudgery, of which I can speak feelingly, having made indexes myself'.²

In the very next issue of *The Nation*, W. I. F. of Hartford, Connecticut, lambasted Mr Browne with a terse reply. In part, he said, 'No more can we, who have made indexing the field for the exercise of our best energies and efforts, and found in it ample scope for all our powers and all possible culture and scholarship, consider inoffensive the suggestion that it is mere hack-work, drudgery, convict labor.' He goes on to say that this suggestion '... voices one of the rankest literary heresies of the age—namely, the idea that anybody can make an index, if he only knows the alphabet'. W. I. F. then lists four instances of hack-work indexes he has noticed recently; they are to *Scribner's Monthly*, *Harper's Magazine*, *Appleton's Journal*, and *Popular Science Monthly*. *Appleton's* article on the East River Bridge is found in the index under one entry only—'Spiders, Up among the'! W. I. F. concludes, 'Shall we, who rejoice in the character of professional indexers, take it kindly if we are asked to let the "convicts" take all indexing into their own hands? Rather shall we not magnify our office, and insist that such first-class literary work be no longer butchered by being put into the hands of hacks and drudges?'

The whole issue must have heated up rapidly, because just one week later W. M. G. of the Library of Congress wrote to contradict W. I. F. on three points. W. M. G. thinks that it is only an assumption that convict labor is bungling:

The Indexer Vol. 12 No. 1 April 1980

'convict hat-makers, of course, have to be trained, but so, also, do indexers'.⁴ He also thinks it is unjust to the prison system to conclude that they would allow such bungling of indexing to be done. Finally, he says that '... certain "professional indexers" must be convicts in disguise...' since many important indexing errors have been exposed in the columns of *The Nation* as occurring in Poole's Index.

A week later, W. I. F. got in the last word of the debate (often the Editor of *The Nation* would end these types of exchanges simply by saying he could not print any more letters on a certain topic). W. I. F. elaborates by saying that convict indexing '... lacks brains and heart, and that indexing which shows neither intelligence in nor

love for the work is fairly called convict indexing'.⁵

In the end a stalemate seems to have been reached, but tempers must have flared more than a little throughout. After reading these five letters, one well might wonder why indexing societies were not formed as early as 1883

ACTION ITEMS

"ONCE MORE INTO THE BREACH..."

A number of clearinghouses are still not identifying on their log sheet the Clearinghouse publications (IAPs) they want included on the "Highlights" page at the front of RIE. Please write "IAP Highlights" or some similar tag in the "Comments" column on the log sheet. Those ERIC IAPs that are not to be included on the "Highlights" page should also be identified in the "Comments" column. Incidentally, the PUBTYPE code 888, which the clearinghouses have probably noticed in corrected printouts returned to them, is a strictly internal Facility device used to distinguish the two types of IAPs. Only those pubtyped 888 will be featured on the "Highlights" page. This code is applied internally after review of the IAPs by Facility and NIE staff. It does not appear on the final tapes.

...Christine St. Lawrence (ERIC Facility)

RE-SUBMISSION OF DOCUMENTS REMOVED FROM PRIOR ISSUES OF RIE

Documents submitted for announcement in RIE are occasionally removed by Central ERIC or the Clearinghouse. The reasons vary, e.g., legibility questions, suitability questions, copyright questions, author requests, missing pages, etc. If it appears to the Facility that the problems may be resolved and the document may later be resubmitted, we keep the computer record "alive and waiting." We may even have some manual records pertaining to the document.

For this reason, when removed documents are later resubmitted, it is important to clear our records and to keep our statistics straight. The best way to do this is to simply send them in on a separate log sheet (with a notation such as "resubmission" so that we can distinguish them from the routine input.)

In the future we would be grateful if all re-submissions could be distinguished for our benefit in this way. It would really help us in our work.

...Christine St. Lawrence (ERIC Facility)

NIE DISCLAIMER STICKERS

The Facility has noticed that a number of clearinghouses have been neglecting a small procedure of checking the NIE disclaimer stickers placed on documents. A check mark in one of the spaces provided on the document indicates whether any changes have been made to improve reproduction quality, or if the document has been reproduced exactly as it was received from the author or performing agency. We appreciate your cooperation.

...Julie Mann (ERIC Facility)

TO CAP OR NOT TO CAP

There seems to be inconsistency throughout the system concerning the capitalization of clearinghouse when referring to the ERIC clearinghouses. The GPO Style Manual provides guidance on this in Sections 3.5 (page 23) and 3.17 (page 26). Both of these rules call for lower casing a common noun when used alone as a substitute for the name of a place or thing.

In order to standardize practice across the system, CERIC recommends that the GPO Style Manual rule be followed. Accepted practice will be as follows:

Name of a specific clearinghouse: ERIC Clearinghouse on ...
(upper case)

Common-noun substitut .: The 16 ERIC clearinghouses...
(lower case)

...Mildred Thorne (CERIC)

SOURCE DIRECTORY - SAVE THE SEPTEMBER 1981 EDITION

The September 1981 edition of the Source Directory is a complete authority list containing the names of nearly 25,000 organizations that have either prepared or sponsored documents entering the ERIC system.

Analysis reveals that a large number of these organizations have not been used by ERIC catalogers in recent years. In the interests of creating a streamlined, more usable, and cheaper-to-print authority list, the Facility has decided to experiment in the next Source Directory by including only those organizations that have been used in cataloging within the last five calendar years.

This means that the clearinghouses (and any other users) must save the "complete" September 1981 edition for use if a name cannot be found in the reduced size December 1981 edition. Do not throw the September 1981 edition away; it will not be replaced by the December 1981 edition.

...Julie Mann (ERIC Facility)

NETWORK NEWS

CLEARINGHOUSES RISE TO THE OCCASION

Central ERIC very much appreciates the graciousness with which all affected clearinghouses responded to work presented by the recent Educational Encyclopedia Project. Not only did you perform a rather difficult and time consuming task, but you did it without the luxury of prior planning. While we do not like to have to ask for this kind of immediate response, it is most gratifying to know that when such an opportunity presents itself, the ERIC clearinghouses can and will rise to the occasion. It is equally gratifying to know that we have personnel at hand who with very little notice will assume major responsibility for coordinating such a project. Thank you, Lynn Smarte, for a job well done!

...CERIC Staff/Chuck Hoover (CERIC)

ERIC REGIONAL MEETINGS

ERIC Regional Meetings will be held only in alternate years, when there is not a National Meeting, i.e., 1982, 1984, 1986, etc.

...CERIC Staff

EDRS ORDER DATA ANALYSIS

The Facility prepared and distributed to all ERIC components an analysis of data found on the EDRS sales data tape. Some of the more interesting statistics were:

- 77% (122,837) of all Level 1 and 2 documents have experienced sales; 23% (37,067) have never been ordered.
- There is a direct correlation between the age of an announcement and the chance that it has been sold. The longer an announcement has been out there "on the market," the greater the chance that it has been sold. The range extends from 100% for 1966 accessions to 52% for 1979 accessions (the last year with a full year of sales behind it).
- The Clearinghouse reporting the most "popular" accessions sold 90% of their "sellable" input. The clearinghouses whose input sold least as a percentage of "sellable" input sold 67.4% of their Level 1 and 2 input. For all Clearinghouses, 77% of their Level 1 and 2 input has experienced sales.
- Since order data have been captured, 1,047,804 on demand orders have been recorded. 543,866 (52%) were for microfiche; 503,938 (48%) were for paper copy.
- Approximately 761,412 microfiche cards have been ordered on an on demand basis.

- Approximately 36,283,536 reproduced paper pages have been ordered on an on demand basis.
- The best selling accession overall (ED-106 376) sold 1,160 copies. The best selling microfiche (ED-092 164) sold 414 copies. The best selling paper copy (ED-106 376) sold 1,085 copies.
- The Clearinghouse with the most "Best Sellers" in the top 200 had 29. The Clearinghouse with the fewest "Best Sellers" in the top 200 had 0.

...Ted Brandhorst (ERIC Facility)

ERIC/ACVE DEVELOPS OUTREACH BROCHURES

The ERIC Clearinghouse on Adult, Career, and Vocational Education has developed Outreach brochures for professional associations, SOCs, and state departments of adult, career, and vocational education. The program is designed to establish relationships with those who disseminate information about ERIC and to enhance their services to ERIC users. Again, copies of the brochures are available.

...Judy Wagner (CE)

ATTENTION ACQUISITION COORDINATORS!

The ERIC Clearinghouse on Counseling and Personnel Services is now sending document solicitation letters to individual presenters at the American Psychological Association, the 89th Annual Convention, August 24-28, 1981, Los Angeles, California. For those acquisitioners who may be new to ERIC, please remember that CAPS solicits the entire APA program book for all the clearinghouses and then transfers documents as necessary. We anticipate sending over 1,000 form letters in this acquisition effort.

...Helen Mamarchev (CG)

CAPS CONTACTS UNIVERSITY OF MICHIGAN SCHOOL OF EDUCATION FACULTY

At the beginning of each academic term, a memo and information packet filled with brochures and fliers about ERIC and CAPS are sent to each faculty member in The University of Michigan School of Education. Faculty members are encouraged to schedule a class session in the Learning Resources Center so that students can become familiar with ERIC. This "reminding" process has always generated a great deal of interest in CG's facilities, and has offered a way to identify a group of professors who are "repeat customers." A sample of the memorandum is included as Attachment 1.

...Carol Mills (CG)

OFFICE HOURS CHANGE AT CAPS

As of September 8, 1981, CAPS returned to regularly scheduled hours of 8:00 a.m. to 5:00 p.m., Eastern time, Monday-Friday. With the termination of summer hours, the first snows of winter may not be far behind.

...Helen Mamarchev (CG)

MODEL ERIC SEARCH WORKSHOP SENT TO CLEARINGHOUSES

On August 27, 1981, each clearinghouse was sent a copy of the model workshop on searching the ERIC database online which was developed by Lynn Smarte and Sharon Brecher at the ERIC Clearinghouse on Handicapped and Gifted Children. The workshop is housed in a 2-pocket folder and includes an outline and handouts.

...Lynn Smarte (EC)

ERIC/EC DIRECTOR VISITS NTID

The National Technical Institute for the Deaf (NTID) is the first and only effort to educate deaf persons on a college campus planned primarily for the hearing students. NTID, located at the Rochester Institute of Technology (Rochester, New York), provides postsecondary educational opportunities for technical and professional careers for the deaf through "mainstreamed" classes. NTID staff provided a day-long orientation to ERIC/EC Director Don Erickson focusing on the instruction and research carried on at the Institute.

...Don Erickson (EC)

ARTHUR COHEN, FEATURED SPEAKER

"Curriculum Trends in the Community College" was the title of Dr. Cohen's presentation as the guest speaker at the opening of Triton College in Illinois. On August 17, Dr. Cohen opened Vincennes University Junior College with a speech entitled "Some Recent Problems in Literacy," and on August 24, Dr. Cohen gave the opening address at the Community College of Denver on "Searching for Quality."

...Gayle Byock (JC)

ERIC RESOURCE MODULE FOR TEACHER EDUCATION

Professional preparation and development require access to the thinking and experience of professional practitioners. That thinking and experience make up the knowledge base for the profession, and ERIC is a primary resource for accessing that knowledge. The ERIC Clearinghouse on Teacher Education recently developed a new module that can be used by teacher educators, prospective teachers, and practitioners for enhancing both preservice and inservice teacher education.

Entitled "Using ERIC to Solve Educational Problems," the module has several distinctive features. First, it is oriented around the solution of educational problems, and demonstrates how to use ERIC for that purpose. Secondly, it consists of both an instructor-directed learning unit and an independent learning unit, to provide flexibility. Thirdly, it incorporates a simulation exercise which provides the student with an opportunity to work on an educational problem using ERIC resources; it guides the student's thinking through this process. In addition, it includes an instructor's guide and a list of references to enrich instruction as desired or needed.

The Clearinghouse on Teacher Education was fortunate in securing the services of Dr. W. Robert Houston, University of Houston, to develop this module.

A limited supply of this module has been produced for free distribution to libraries and teacher educators. Orders will be filled on a first-come first-served basis, so mail your request today to the ERIC Clearinghouse on Teacher Education, One Dupont Circle, Suite 610, Washington, D.C. 20036.

...Mike Butler (SP)

ERIC FOR SCHOOL-BASED STAFF DEVELOPERS

The ERIC Clearinghouse on Teacher Education was recently invited to submit occasional articles for inclusion in the new Journal of Staff Development, published by the National Staff Development Council. The journal is directed toward school-based staff developers. We are pleased to be able to reach out through new channels to what we feel is an important audience for ERIC materials.

...Dean Schwanke (SP)

NEW PUBLICATIONS/FACT SHEETS

FACT SHEET REPORT - CE

The ERIC Clearinghouse on Adult, Career, and Vocational Education has developed overviews (fact sheets) on the following topics: experiential education, military curriculum, career education and guidance for gifted and talented students, vocational education and CETA, computer-based career information systems, energy and vocational education, career resource centers, career assistance for older adults, adult learning disabilities, and competency-based adult education. Copies of any or all are available upon request (via EIES, if you prefer).

...Judy Wagner (CE)

NEW PUBLICATIONS - CG

Eight new information analysis products will be available this fall from CAPS.

- The Searchlight Plus series has four new titles on topics of major interest:
 - Counseling for Stress Management
 - Peer Counseling
 - Sex Equity in Guidance and Counseling
 - Counseling the Bilingual Student

These are computer searches with abstracts of the entire ERIC database from 1968-80 and in-depth analyses of issues, programs and trends. They may be ordered in September at a cost of \$3.95 each from ERIC/CAPS Publications, 2108 School of Education, The University of Michigan, Ann Arbor, Michigan 48109.

- Highlights, an ERIC/CAPS Fact Sheet, will make its first appearance in November. This is a succinct, up-to-date factual summary of a single topic. The "inaugural issues" will cover:

- displaced homemakers
- teenage pregnancy
- career guidance in two-year colleges
- counseling the gifted student.

We plan to offer four new sheets each year, free of charge.

...Debbie Herbert (CG)

FACT SHEETS - EC

The following fact sheets have been initiated since January 1, 1981:

- New Titles

- Learning Related Visual Problems (3/81)
- Serving the LD Student in a Vocational Classroom (3/81)
- Programming for the Gifted...
- Facts for the Administrator
- Cost Effectiveness of Special Education
- Advocacy for the Handicapped

- Revised Titles

- Parents of Handicapped Children (6/81)
- Parents' Rights and Responsibilities (6/81)
- Children on Medication (6/81)
- Individualized Education Programs (6/81)
- Procedural Safeguards (6/81)
- Educational Rights of American Indian and Alaskan Native Handicapped Children (6/81)
- Rights of the Handicapped (6/81)
- Arts and the Handicapped (6/81)
- Argument for Early Intervention (6/81)
- Careers in Special Education (3/81)

...Jean Nazarro (EC)

FACT SHEETS - JC

A fact sheet on grant getting for two-year colleges points out how an ERIC search can enhance a grant proposal. ERIC provides a means of finding what has been done in the area of the prospective proposal and lets the funding agency know that the applicant has done his/her homework. Each clearinghouse will be sent a sample.

...Gayle Byock (JC)

REVIEW OF CLEARINGHOUSE PRODUCT IN "CHANGE"

Roger Yarrington of AACJC gave a very favorable review of New Directions for Community Colleges: Questioning the Community College Role in the July/August issue. The IAP addressed the necessity of taking a critical stance when investigating community colleges and included as its authors those scholars who over the years have the reputation of being most critical, such as Burton Clark, Arthur Cohen, as well as David Riesman, David Breneman, and Steven Zwerling.

...Gayle Byock (JC)

FACT SHEETS (RC)

The following are new fact sheets available from RC since January 1, 1981:

- American Indian Enrichment Activities
- Mexican American Special Education
- Educational Testing for Migrant Students
- People and Organizations in Rural Education
- Outdoor Programs for Gifted Children

The following are fact sheets initiated since April 1, 1981:

- Strategies for Locating American Indian Materials in ERIC
- Motivating the Mexican American Student
- Measuring the Accountability of Migrant Programs
- Developing an Outdoor Education Program for Public Schools
- Status of Rural School Personnel Preparation Programs
- Independent Schools: A Quick Look at ERIC

...Manuela L. Quezada-Aragon (RC)

NEW PUBLICATIONS (TM)

The following publications are available from the ERIC Clearinghouse on Tests, Measurement, and Evaluation, Educational Testing Service, Rosedale Road, Princeton, New Jersey 08541.

- Evaluation of Gifted Programs. Free.

In an age of accountability, sufficient documentation is necessary to justify gifted programs as beneficial to those for whom they were developed; that is, those children whose unique needs are best served through educational programs that differ significantly from those offered to the general school population. Gifted program evaluation provides information useful in making decisions about the future of such programs at local, state, and national levels, and helps to assess the effectiveness of the program development steps followed in establishing the gifted program. This bibliography includes citations to documents cited in Resources in Education through January 1981.

- Research and Evaluation Studies from Large School Systems.
Compiled by Reba Lippincott. \$6.00.

This overview of the research and evaluation activities sponsored or conducted by the larger school systems in the United States and Canada provides excellent references to studies in areas of concern to educators today. As an index to research and evaluation efforts, this annotated bibliography will facilitate the exchange of information by local school system. The 168-item bibliography is based on a search of the material announced in Resources in Education (RIE) and Current Index to Journals in Education (CIJE) from January to December 1980. The document resumes are arranged by school system. Subject and institution indexes appear at the end of the bibliography. The institution index includes the full address of each school district and the name and phone number of a contact person.

- Field Dependence-Independence: Matching Teacher and Learner Styles.
\$3.00.

Two learning styles, field independence and field dependence, refer to a students' consistent way of responding and using stimuli in the context of learning. Field independent people see things analytically, whereas field dependent people take a more global view. Matching learning style with instructional mode facilitates positive interpersonal relations, and may lead to more effective learning. This bibliography includes citations to documents cited in Resources in Education and articles announced in Current Index to Journals in Education through January 1981.

...Anita Labib (TM)

PERSONNEL NEWS

CHANGE OF DIRECTORS AT SP

After five years as Director of the ERIC Clearinghouse on Teacher Education and 15 years as Associate Director of the American Association of Colleges for Teacher Education, Dr. Karl Massanari announced his retirement last month, effective September 1, 1981. Karl will be moving with his wife Chris to Florida, where he intends to spend his time gardening, playing the piano and organ, and pursuing various other recreational as well as professional activities. We know he'll be busy, and we wish him well.

Stepping in as new Director on September 1 was Dr. Joost Yff. Dr. Yff is no stranger to ERIC, having served as Manager of the Clearinghouse from 1968 to 1969, as Assistant Director from 1969 to 1973, and as Director from 1974 to 1976. During the past several years, Dr. Yff has worked in Jamaica, and at the University of Maryland, College Park.

...Dean Schwanke (SP)

CATHY KENDALL LEAVES ERIC/ACVE

Cathy Kendall is leaving the ERIC Clearinghouse on Adult, Career, and Vocational Education after 5 years with the project. She came to ERIC when the center got the contract 5 years ago and will miss the full five years by 2 days. She and Phil and Matt are moving to Chicago where Phil works for the Hyatt Hotel chain. We wish them all the best and will greatly miss her organization, her efficiency, and her unfailing good humor.

...Judith O. Wagner (CE)

LARRY ARRINGTON LEAVES ERIC/ACVE

Larry Arrington, former graduate research associate, received his doctorate in June and is teaching at Florida State University in Gainesville. We wish him well and miss him greatly.

...Judith O. Wagner (CE)

DONNA DZIERLENGA LEAVES JC

Donna Dzierlenga, user services specialist, will be leaving the Clearinghouse at the end of September to attend the UCLA School of Library and Information Sciences. Fortunately for us, Donna will be just upstairs from the Clearinghouse. Donna was the first full-time user services specialist at JC and has done a terrific job. We will miss her and wish her luck at the library school.

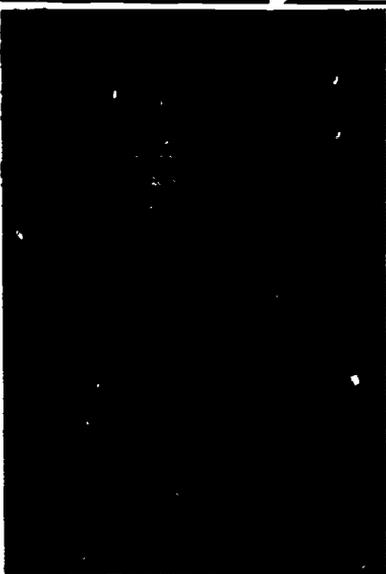

At the same time, we will be gaining a new user services specialist from the UCLA library school. Jim Palmer, who recently received his MLS and whose initials you have seen for the last two years as the JC abstractor, will be moving from processing to user services. We are pleased that Jim is staying with the Clearinghouse and look forward to his implementing some of his ideas about the direction of the Clearinghouse services.

...Gayle Byock (JC)

ANN FAUSTINI JOINS TM

Ann Faustini recently joined the ERIC Clearinghouse on Tests, Measurement, and Evaluation as an abstractor/indexer. A native of England, Ann studied in Worcester for her degree in education, art, and English and comes to TM from the Educational Testing Service in Princeton, where she was a client relations assistant. Ann replaces Reba Lippincott who is now a school librarian with the Watchung Hills Regional High School in New Jersey.

...Anita Labib (TM)

DOROTHY ALTMAN SLAWSKY

**Reference Librarian,
Former D.C. Teacher**

Dorothy Altman Slawsky, 58, a reference librarian for the Educational Resources Information Center (ERIC) in Bethesda, a division of Operations Research Inc. of Maryland and Virginia, died of cancer Saturday at her Chevy Chase home.

Mrs. Slawsky was born in Washington. She graduated from Roosevelt High School and the old Wilson Teachers College.

After service in the WAVES in World War II, she taught for four years in D.C. public schools.

She joined ERIC after earning a master's degree in library science from the University of Maryland in 1969.

She was a member of Adas Israel Congregation.

Survivors include her husband, Dr. Zaka I. Slawsky, of Chevy Chase, whom she married in 1945; two sons, Albert, of New York City, and Dr. Richard Slawsky, of Pittsburgh; her mother, Sadie Altman of Chevy Chase, and three sisters, Anne Strassman, of Hallandale, Fla., and Zalma Slawsky and Ellen Glassman, both of Silver Spring.

The family suggests that expressions of sympathy be in the form of contributions to the Slawsky Memorial Fund, c/o the University of Maryland Foundation Office of Development in Adelphi.

THE WASHINGTON POST

Monday, August 24, 1981

FAREWELL...

When Dorothy Slawsky retired in June of 1981, it was not generally known that she had been waging a war with cancer which had consumed more than a decade. In all that time, she never once failed to maintain her characteristic charm and dignity in performing her duties as the Reference Librarian for the ERIC Processing and Reference Facility. Dorothy believed in ERIC and made its presence and its value known to all who came in contact with her. In the more than ten years she was at the Facility, she touched the lives of thousands of ERIC users, many of whom came to know her not only as a dependable resource, but as a friend who genuinely cared about them and saw that their needs were fulfilled.

A Book of Letters is being compiled from friends and colleagues of Dorothy's to be presented to her husband, Dr. Zaka Slawsky, as a remembrance of ERIC's respect and affection for her. The directors of the clearinghouses have had the opportunity to contribute to this gift. If, however, any others in the network would like to have their letter included, please send them to Elizabeth Pugh at the ERIC Facility.

Elizabeth is also acting as a collection point for any individual or clearinghouse wishing to make a contribution to the Slawsky Memorial Fund. Some of you have submitted contributions independently, others have expressed an interest, but have not known how to go about it. Please mail a check made out to "Slawsky Memorial Fund" to Elizabeth Pugh, who will forward it to the University of Maryland, Office of Development, Adelphi, Maryland 20783. This fund supports the Slawsky Physics Clinic, which is a tutorial program for all students who must take physics at the University. This program is taught without charge by Dr. Zaka Slawsky (Dorothy's husband) and his twin brother, Dr. Milton M. Slawsky.

Dorothy was proud of ERIC and served it well. She will be missed.

...The ERIC Facility

VISITORS HOSTED BY ERIC

AFRICAN TEACHERS VISIT CS

On August 3, 1981, Holly O'Donnell and Anne Auten hosted 13 French-speaking teachers from various African nations. Instructors in college-level English as a Second Language, the Africans were attending a summer seminar at the University of Illinois in order to become familiar with teaching materials, methods, and programs. Several of the visitors expressed an interest in making ERIC collections available at their universities.

...Hilary Taylor Holbrook (CS)

INTERNATIONAL STUDENTS VISIT CRESS

Eighteen students representing 10 foreign countries and the United States were given an ERIC presentation and computer searching demonstration. In addition to the ERIC files, AGRICOLA and Commonwealth Agriculture Bureau (CAB) were explored.

The New Mexico State University Office of International Programs provided funds for a computer search for each student.

...Amelita Hill (RC)

ITALIAN EDUCATORS

As announced in the August EAB, a number of ERIC components, including SO, were to receive visits of two Italian educators. Giovanni Biondi and Flora Imberciadori-Polito, of the Biblioteca Di Documentazione Pedagogica, in Florence, Italy, visited SO on August 21, near the end of their 15-day tour, which started and ended at CERIC. It was a pleasant visit for all of us. We assumed that SO was chosen for their only visit west of the Cumberland Gap as a result of our outstanding reputation. As it turned out, their reason was that they are both social scientists—Imberciadori-Polito (we all practiced the pronunciation), a sociologist and Biondi, a historian. Both were interested in learning about social science education in the United States, after having been so well educated about ERIC in the vicinity of Washington (and at Syracuse). The acumen of the visitors was further evidenced by their plan to visit SO on a Friday, making it entirely logical for them to spend Saturday and Sunday sampling the grandeur of Colorado before returning East. The visitors were accompanied by a State Department interpreter, Elio Grande, but it turned out that wasn't entirely essential, since Imberciadori-Polito (there it is again) is quite fluent in English. With considerable effort, we managed to persuade the entire SO staff to volunteer for foreign duty when the Florence library is ready to install an ERIC-like system.

...Irving Morrisett (SO)

THE LIGHTER SIDE

A DILLY OF A STORY!

Promoting the *dilliciousness* of pickles at a recent APGA convention doesn't seem quite kosher, but it broke the ice and led to some interesting conversations, which resulted in the dubious acceptance of an offer for a free sample. A box arrived three months later and was opened with relish. Anyway you slice it, 12 jars of an assortment of Aunt Jane's pickles is a dilly of a sample! The CAPS staff think the donor is one cuke counselor.

...Carol Mills (CG)

ERRATA

CORRECTION TO STORY IN AUGUST EAB

The story entitled "Vocabulary Paperwork Cleanup (VPC?)" in the August issue of the EAB carried a sentence which read:

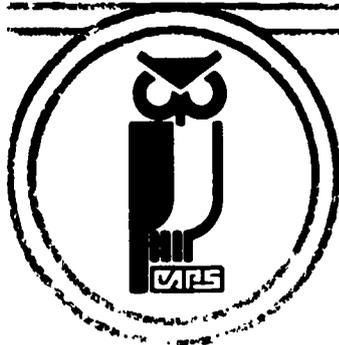

"It is the current consensus of the VRG/CERIC authorities that those various piles of paper across the country may not be sent to Descriptor Heaven."

The sentence should have read, of course, "...may now be sent..." Perhaps the keyer could not believe her eyes. In any event, the error is sincerely regretted.

...Elizabeth Pugh (ERIC Facility)

Counseling and Personnel Services Clearinghouse

2108 School of Education The University of Michigan
Ann Arbor Michigan 48109 (313)764-9492

DATE: August 1981
TO: School of Education Faculty
FROM: Garry R. Walz *GRW*

DO YOU KNOW...

- that the ERIC/CAPS Clearinghouse is located right here on our campus?
- that ERIC stands for Educational Resources Information Center? ERIC is a national information system containing about 400,000 documents on education.
- that CAPS stands for Counseling and Personnel Services and we are one of the sixteen clearinghouses, located around the country, that comprise the ERIC system?

ERIC/CAPS CAN HELP YOU AND YOUR STUDENTS...

- locate valuable information on topics of interest in our Learning Resources Center (2nd floor SEB, open Monday-Friday, 9-5).
- obtain computer searches on topics requiring comprehensive coverage.
- become familiar with the ERIC system through individual or class orientation sessions. Contact our Learning Resources Coordinator, Mrs. Carol Mills, at 764-9492 to set up an orientation appointment for your class.

Mr. Jim Prevel
National Institute of Education
1832 M Street, N. W.
Washington, D. C. 20208

Dear Jim:

We have reviewed the RIE July 1981 Microfiche Inventory and Quality Check and the following is submitted.

1) Remakes: ED 198 789 (3 & 4 of 4)
ED 198 812

2) The following documents are not recommended for refilming:

<u>ACCESSION</u>	<u>CLHSE</u>	<u>LEVEL</u>	<u>NOTE</u>	<u>REASON FOR NOT REFILMING</u>

ACTION ITEMS

ELECTRONIC MAIL PILOT PROJECT COMPLETED

As of October 15, the ERIC electronic mail pilot project comes to an end. Clearinghouse staff directly involved with the EIES system should discuss the experienced and potential utility of the system at their next staff meeting and let me know the results of their discussions. It is only by virtue of such responses that we at CEaIC are provided the information necessary to plan future systemwide improvements.

...Jim Prevel (Central ERIC)

IDENTIFIERS READY FOR "GRADUATION"

Following the production of the latest IAL, we reviewed the IAL and prepared a list of candidates for Thesaurus status (either as Descriptors or UFs) (Attachment 1). All candidate terms have 40 or more postings (or are similar to terms with more than 40 postings). We believe most clearinghouses will recognize their own terms and we recommend that an effort be made to "graduate" these identifiers to the Thesaurus as soon as possible.

...Carolyn Weller (ERIC Facility)

INDEXING ADVISORIES

BILINGUAL STUDENTS

"Bilingual" terms used in the ERIC Thesaurus generally refer to the ability to communicate effectively in more than one language. Except for "Bilingual Education," which covers the educational process involved in acquiring or teaching a second language, all other "Bilingual" terms ("Bilingual Teacher Aides," "Bilingual Students," "Bilingual Teachers") assume that the individuals possess more than one language. (FL has already scoped "Bilingual Teachers" and "Bilingual Teacher Aides" and they will be submitting a Scope Note for "Bilingual Students.") Regardless of the document, if the student is non English speaking and attempting to learn English, he/she is not bilingual unless the student possesses the ability to communicate in more than one language (Spanish and French, for example).

The concept of non English speaking students enrolled in classes for the purpose of acquiring English should be indexed (at least) by the Descriptor "English (Second Language) in combination with "Non English Speaking," or "Spanish Speaking" or other appropriate Descriptors. The Identifier "Limited English Speaking" should be used when that population group is specifically discussed. Please note that "Non English" and "Limited English" are different populations and should be so distinguished in indexing practice. The ethnic group should be identified, when appropriate. Specific groups within a population, e.g., Indochinese, can be delineated further by Identifiers, if no appropriate Descriptor(s)

exist. To cite one example, "Spanish Speaking" is usually more appropriate than "Hispanic Americans" and is so used by FL.

In addition to a Scope Note for "Bilingual Students," FL will soon be submitting Vocabulary Input Forms for the Identifiers: "Limited English Speaking"; "Bilingual Programs"; and possibly "Bilingual Materials." Indexing supervisors are urged to call Mary Niebuhr at FL if they have any special questions about indexing documents in the area of bilingual education.

...Carolyn Weller (ERIC Facility)

INVALID DESCRIPTORS ON INCREASE

Indexing with invalid Descriptors seems to be once again on the increase. Moreover, a few clearinghouses within the last month have been entering Identifiers in the Descriptor field. As before, the problem appears to arise as a result of depending on memory (instead of on the Thesaurus) and also from not using the Thesaurus updates. The Thesaurus updates should be circulated and implemented by all indexers upon receipt. This applies to CIJE staff as well as RIE staff.

...Carolyn Weller (ERIC Facility)

GEOGRAPHIC LOCATION OF ORGANIZATIONS USED AS IDENTIFIERS

In the last month or so there has been a significant increase in the assignment of incorrect geographic locations to organizations being used as Identifiers. This "relocation" appears to be the result of guesswork rather than verification. Some examples of the problem:

1. Manhattan Christian College was identified as in New York because the ERIC reply card had a New York address. (The college is actually in Kansas.)
2. East Saint Louis (a city on the east bank of the Mississippi River) was identified as in Missouri instead of Illinois.
3. Clark University was identified as in Minnesota because it was in a study along with the University of Minnesota. (The school is actually in Massachusetts.)

While the locations of institutions are often not specifically stated, usually the text will provide adequate clues to the location. All locations should be verified in one of the standard reference sources cited in Section VIII (Part 2) of the ERIC Processing Manual. If the location proposed by the indexer does not agree with that in the standard reference, it probably means that the proposed location is incorrect.

If the name of the institution cannot be verified in any source, even at a different location, it is probable that either the institution is very new (rarely the case) or that the name is a fictional creation of the author (a device used surprisingly often). All other facts in the document may be true,

including the population studied, age groups, etc. but the institutional name changed to permit the author to make recommendations or conclusions that might be "embarrassing" to the institution studied (or to the author).

...Carolyn Weller (ERIC Facility)

DOCUMENT PREPARATION ADVISORY

DOCUMENT PREPARATION REMINDERS

The following are reminders for those who prepare documents for entry into the ERIC system:

- Space for ED Numbers

Guidelines in the ERIC Processing Manual, Section 4: "Handling and Shipping" state that the ED Number will be affixed to the document in the upper left hand corner of the cover (or first page to be filmed) of the document (p. IV-13). The upper left hand corner should, therefore, not be used to affix the disclaimer and/or permission stickers, as some clearinghouses have been doing. When the document is shipped to the Facility, that space must be left open for the ED number to be stamped on (see Figure IV-15 in the Manual).

- Location and Legibility of Clearinghouse Accession Numbers

Clearinghouse Accession Numbers are to be entered on the lower left hand corner of the cover (or first page to be filmed) of the document (ERIC Processing Manual, p. IV-28). Not only does this placement balance the ED number and give the document a neater appearance, but the standardized format is needed during processing in order that documents may be easily and quickly located.

Accession Numbers are to either be stamped or legibly printed. Legibility in the Clearinghouse Number is of importance throughout the entire processing cycle:

- Accession Numbers on the documents are checked against the logsheets
- Documents are filed at the Facility by Accession Number
- Numbers are checked against the resumes
- Documents are arranged in Clearinghouse Number order prior to the attachment of the Single Frame Resumes.

Illegible numbers may cause confusion at any or all steps in the process, thus adding extra work where it might be avoided by legible numbers.

- NIE Disclaimer Labels and Reproduction Release Labels

The NIE Disclaimer Labels and Reproduction Release Labels, if appropriate, are to be affixed to the cover (of the first sheet to be filmed) of the document. These labels may be placed anywhere there is vacant space on this page, except for the upper and lower left hand corners, which are reserved for the ED and Clearinghouse Accession Numbers.

They should be placed in such a manner and location that they do not cover, even slightly, the text, title, author's name, etc. They may be trimmed down in order to fit; it is not recommended, however, that the labels be cut into parts. They especially should not be cut into parts and distributed perpendicularly, to the text. If there is no space for the labels (for instance, when the document's first page is the first page to be filmed and is packed with text, or when the margins are narrow at both the top and bottom), the simplest and neatest thing to do is to type a title page and place the labels there. Contrary to "oral tradition" there is no EPM requirement that either or both of these labels be placed in the upper center of the document. Other than the "off limits" space in the left hand corners, labels may be placed anywhere, in any empty space on the title page as long as they can fit without overlapping the text.

Labels, however, should never hang over the document's edge. Labels are to be placed entirely on the document—overhangs must be trimmed. Overhanging labels not only look carelessly applied, but, more importantly, attach themselves to other documents. Overhanging labels can catch on surfaces or other documents and the document itself can be damaged. ERIC documents are handled numerous times at the Facility and at EDRS; protruding labels can get bent over, wrinkled, or torn off during the processing.

Remember that when you are preparing that critical first page of the document, it will reflect on you (to insiders) and on ERIC (to outsiders) what pride you take in your work. All labels should be straight, balanced, attractive, and in the proper position.

...Christine St. Lawrence (ERIC Facility)

CONTRACT RENEWAL

CE AND EC CONTRACTS AWARDED

Central ERIC is pleased to announce the award of the ERIC Clearinghouse on Adult, Career, and Vocational Education contract to the incumbent, the National Center for Research in Vocational Education at Ohio State University. Dr. Juliet Miller will continue as Clearinghouse Director and Dr. Susan Imel as Assistant Director. (Details concerning the award of the contract to the Council for Exceptional Children (the incumbent) to operate the ERIC Clearinghouse on Handicapped and Gifted Children will appear in the November issue of the EAB.)

During the first year of the 3-year contract, CE will produce 5 major publications, 1 practice application paper, and 2 compilations of scholarly articles. Their titles are:

- "Adult Education for Handicapped Adults"
- "Leisure: The Neglected Component in Life Planning"
- "The Quality Circle: Its Implications for Worker Training"
- "Adult Learning in Noninstitutional Settings"
- "Career Education: Collaboration at the Local Level"
- "Guidelines for Developing Career Assistance Programs Within Business and Industry"
- "New Directions in Retirement Policy"
- "Communications Technology: Changing Roles for Adult, Career, and Vocational Educators"

We look forward to a continued pleasant working relationship with CE.

...Mildred Thorne (Central ERIC)

NETWORK NEWS

CIJE SCHEDULE FOR 1982

The old CIJE schedule has run out. We have received a new schedule from Oryx that covers the first six issues for 1982 (January-June). The calendar period covered is October 1981-March 1982. Oryx prefers to schedule for the half-year period, insofar as their experience has shown that usually something occurs to change a schedule done any further ahead than that. The new schedule, prepared in the same format as the old schedule, is provided as Attachment 2.

...Ted Brandhorst (ERIC Facility)

CLEARINGHOUSE PROCESSING OF JOURNALS FORMERLY PROCESSED BY SMERC

Just a reminder that by now all clearinghouses have been supplied titles of those CIJE journals previously processed by SMERC and in the future to be processed by the clearinghouses. (Re: Hoover memo to Directors, August 25, 1981.) Please take whatever steps are necessary to insure that your clearinghouse begins processing those journals assigned to you beginning with their January 1982 issues.

...James Prevel (Central ERIC)

MORATORIUM ON DEPARTMENT OF EDUCATION PUBLICATIONS

Last fiscal year the Department of Education put a moratorium on all Department publications to be published at GPO, and two ERIC publications have been caught in this moratorium: All About ERIC (a revision of How to Use ERIC) and ERIC—The First Fifteen Years, 1964-1979 (the long awaited

history of ERIC). The moratorium is continuing into this fiscal year, and there is no indication of when it will be lifted.

The Facility's supply of How To Use ERIC is exhausted; fortunately, however, we recently reprinted an adequate supply of the Pocket Guide to ERIC, which can be used as a substitute mailout or handout until the new publication becomes available. Request copies from the Facility if your supply of this folder is running low.

...Mildred Thorne (Central ERIC)

TECHNICAL ASSISTANCE TO STATES ENGAGED IN FILE BUILDING

For the past three years, ERIC has offered the assistance of a team of experienced file builders to state education agencies engaged in such activity. The consultation is performed without charge to the agency and typically consists of a 1½ day meeting at which the agency activity is reviewed and problem areas are discussed. The ERIC team usually consists of one person from Central ERIC at NIE (who can discuss policy matters), one person from an ERIC clearinghouse (who can discuss cataloging; indexing, and abstracting), and one or two members from the ERIC Facility (who can discuss file design, data processing, and computer systems matters).

Thus far the ERIC team has visited seventeen (17) states across 42 months, for an average of one visit every 2.4 months. The situations in the states vary considerably and it is necessary for the team to spend most of the first morning grounding itself in the problems faced by the state. (Often in this process a great deal is learned about the state's "capacity building" project (funded by NIE). The sessions are intended to be brain-picking, advice-giving, and non-prescriptive. The objective is for the states to take advantage of the team's expertise developed over 15 years of operating the ERIC system. The states are free to use or not use any of the information exchanged. Options and the impact of alternative courses of action are covered at length. The advantage of using various standards and of compatibility between information systems is discussed.

Attachment 3 lists the states visited thus far in this inexpensive but very useful program.

...Ted Brandhorst (ERIC Facility)

ERIC FACTS

The annual updating of the ERIC Fact Sheet was distributed to the Clearinghouses in August. It is reprinted in this EAB as Attachment 4 for those who may have missed the first distribution (and, frankly, so that it can be easily found when it is wanted.)

...Ted Brandhorst (ERIC Facility)

NEW IDENTIFIER AUTHORITY LIST HAS POSTINGS

A new edition of the Identifier Authority List was distributed recently to Clearinghouse Vocabulary Coordinators. This latest edition for the first time contains postings for all authorized Identifiers. Clearinghouses are urged to circulate this publication among their user services personnel as well as among their indexers.

...Carolyn Weller (ERIC Facility)

AERA ENCYCLOPEDIA PROJECT: FINAL REPORT

The ERIC Clearinghouse on Handicapped and Gifted Children (EC) has submitted a final report (reprinted as Attachment 5) on the AERA Encyclopedia Project. Central ERIC is highly pleased with both the results of this project and the fact that AERA has requested that we write a couple of paragraphs for inclusion in the Encyclopedia describing ERIC's contribution to its development. April 1982 is the projected publication date.

...Judi Conrad (Central ERIC)

COLOMBIA

The correct spelling of the South American country of this name is, as you see above, "Colombia." Documents (and their authors) frequently misspell this name "Columbia." No matter what the document may say, the usage of this name in the Identifier and Geographic Source fields should use the correct spelling.

...Carolyn Weller (ERIC Facility)

ERIC/EC WILL BE LINKED WITH FIVE NEWLY ESTABLISHED RESOURCE CENTERS IN LATIN AMERICA AND THE CARIBBEAN

Marion Cambel represented the ERIC Clearinghouse on Handicapped and Gifted Children at a Partners of the Americas' briefing on their new PATH Project on September 23, 1981. The project has evolved from partnerships, now numbering 50, which link 44 U.S. states with 21 Latin American and Caribbean states. The Partners Appropriate Technology for the Handicapped Program (PATH), endeavors to promote use of simple techniques, low cost equipment, and practical methods to prevent disabilities and rehabilitate people.

Central to the Project are 5 newly established Resource Centers in Ecuador, Costa Rica, Uruguay, Brazil, and Jamaica. Presently, PATH is preparing a multivolume resource catalog (some ERIC documents are cited therein) for the Centers, the reason for the briefing and brainstorming session. Others present were representatives from Closer Look, National Rehabilitation Information Center, Peace Corps Information Collection and Exchange, and Volunteers in Technical Assistance. The role of ERIC/EC will be to cooperate with the Resource Centers to "provide teachers with the best available low-cost methods and materials to educate handicapped children."

...Marion Cambel (EC)

EA DOCUMENT ANALYSTS RECEIVE ADDED DIALOG TRAINING

Three EA document analysts (Mary Lou Finne, Roger Walke, and Wynn DeBevoise) recently received training on the DIALOG information retrieval system. The training included 8 hours of instruction by the University of Oregon's Coordinator of Search Services and four hours of connect time for demonstration and application of search techniques.

The training covered a brief history of online information retrieval and telecommunications, logging on to DIALOG, basic system commands, ERIC vocabulary handling, free-text searching, and search strategies.

The participants found the training most useful, not only for conducting searches on particular topics, but also for preparing DJFs, clarifying the use of Identifiers, compiling statistics, and understanding the ERIC system from the user's point of view.

...Wynn DeBevoise (EA)

CE REACHES 30,000TH DOCUMENT!

Fanfare, please! October is a red letter month for ERIC/ACVE. Brenda Hemming announced that we have accessioned our 30,000th document since 1976. Let's hear it for acquisitions!

...Judy Wagner (CE)

SOC MEDIA SPECIALIST PROMOTES ERIC

Ferris State College in Michigan has a "special" specialist. Ann Breitenwischer, who is not hiding their recently purchased ERIC collection in a corner, is presenting a series of workshops on educational resources, including ERIC, to the Ferris School of Education faculty. Ann is also a speaker at an AAUW workshop at Alma College and is using the "ERIC Basics" kit to introduce her audience to ERIC. We at CAPS were delighted to assist her by loaning our slide/tape kit and providing copies of the new brochure, "A Pocket Guide to ERIC," for distribution.

...Carol S. Mills (CG)

FOR YOUR CONSIDERATION

A recent opportunity to do some intensive searching of the Psych Abstracts files made me aware of their practice of tagging the number of references at the end of the abstract for their documents. It seems to me that this can be, in many cases, a valuable service for the user, who may be looking for a spring board for additional information, or as an indication of the level of information the document would provide. At IR, we have begun to include the number of references at the ends of abstracts and annotations (omitting the op. cit.'s and ibid's) with an occasional note for an "extensive bibliography" rather than an actual number. I wonder if we would want to come to an agreement on how to handle this kind of information consistently throughout the system, or whether I am alone in considering this important.

...Barb Minor (IR)

ERICKSON SERVES ON NARIC ADVISORY BOARD

On Friday, October 2, EC Director Erickson represented the clearinghouse by serving as a member of the Advisory Board to the National Rehabilitation Information Center (NARIC). NARIC, housed at and operated by Catholic University, seeks to provide database and information services to the rehabilitation community in much the same way as ERIC does to the education community. A large portion of NARIC's database comes from project reports funded through the National Institute of Handicapped Research and the Rehabilitation Services Administration. ERIC/EC has been very much involved with NARIC over the past 12-18 months in order to avoid duplication and to insure appropriate coverage of literature that could "fall between the cracks" of education and rehabilitation. A good working relationship now exists between ERIC/EC and NARIC.

...Donald K. Erickson (EC)

NEW PUBLICATIONS

NEW PUBLICATIONS—CE

The following nine major publications have been submitted to ERIC by the ERIC Clearinghouse on Adult, Career, and Vocational Education (CE)

- Organizing to Work with CETA. Thomas J. Jacobson.

Discusses ways in which local educational authorities can coordinate with the CETA prime sponsor. Describes steps for seeking and obtaining funds from external sources.

- Retaining Adult Students. Gordon G. Darkenwald.

Provides a synthesis of research and theory directly related to adult students and presents a general theoretical model of the dropout-persistence process in adult education. Includes general guidelines for promoting adult student retention.

- Developing Career Education at the College Level. Robert C. Reardon.

Presents a review of the literature on postsecondary career education including an overview of its history and a summary of the state of the art. Discusses some persistent issues and their implications for practitioners.

- Educating for the Future in Family Life. Elizabeth J. Simpson.

Utilizes knowledge gained from work on future issues related to families, the work of futurists on social issues, and technological development and recent studies in home economics to draw conclusions regarding what people will need to know in the eighties and beyond to be intelligent consumers and effective homemakers.

- From School to Work: A European Perspective. Beatrice Reubens.

Surveys school-to-work transition issues as they have developed in Europe. Discusses the activities, research, and programs of each of the following organizations: the European Community, the Organisation for Economic Cooperation and Development, the Council of Europe, and the Nordic Council.

- Career Education for the Gifted and Talented. Barbara A. Kerr.

Presents an overview of the research on gifted and talented students and discusses their major career development problems. Includes model programs for the gifted and suggests strategies for meeting career development needs of gifted and talented students.

- Employer-Sponsored Career Development Programs. Anita Sklare Lancaster and Richard R. Berne.

Overviews employer-sponsored career development program. Reviews pertinent theories and research in the area of adult development and adult career development and examines career programs and practices for adult workers including factors contributing to their development. Concludes with case studies of career development programs in specific settings.

- Business and Office Education: Review and Synthesis of Research. Judith Lambrecht, J. Eugene Jones, Marianne D'Onofrio, Thomas Bichanich, and Patricia A. Merrier.

Contains a review and synthesis of business and office education research during the past ten years. Includes sections on philosophy, social and business environment, accounting and bookkeeping, basic business, and data processing.

- Tailoring Vocational Education to Adult Needs. Norma B. Brewer.

Examines adult vocational education in the context of the current vocational education system. Discusses the background of adult vocational education and suggests models for designing a learning environment for adult vocational education. Examines selected adult populations with special needs for vocational education.

...Judith O. Wagner (CE)

NEW PUBLICATIONS—CS

The following publication has been announced by CS:

- Beginning Readers Theatre: A Primer for Classroom Performance. Gerald Lee Ratliff. 40 pages. September 1981. CS 503 579. Available from: Speech Communication Association, 5105 Backlick Road, Suite E, Annandale, Virginia 22003. \$3.00.

This new TRIP (Theory and Research Into Practice) booklet explains the basic principles of Readers Theatre as a technique for enhancing students' appreciation of literature and spoken language, and provides nineteen specific readers theatre exercises.

...Hilary Taylor Holbrook (CS)

NEW PUBLICATIONS—EC

The following are new major publications produced by EC:

- Days of Reckoning—Days of Opportunity. James J. Gallagher. 19 pp.

This is the Statesmen's Roundtable presentation from the 1981 CEC Convention, which reviews public reaction to special education's past and present, and challenges the field in general and CED in particular to meet the demands of the future. Specifically, Gallagher is proposing a campaign to have special educators assume a leadership role in comprehensive self-evaluation and self-improvement. Responses of 14 other past CEC presidents and Wallin Award recipients are also included.

- Computerized Aids for the Handicapped. Donalee Flaningam.

Using computers in rehabilitation engineering and education of the handicapped is a fairly new concept. A brief description of many computerized aids is given. The first section of this Report deals with visual and auditory aids such as talking meters for technicians, and devices to enable those with visual handicaps to read standard print. The next section discusses aids for paralyzed individuals: motorized wheelchairs, environmental controllers, and office-like worktables which utilize robotic arms. The last parts deal with communication devices for the vocally impaired and education of those with mental and emotional handicaps.

- Discovering Special Education Resources: A Workshop on ERIC and ECER.

A step by step procedure for locating resources in the ERIC and ECER databases. Describes RIE, CIJE, ECER, and the Thesaurus. Shows how to conduct a manual search of printed indexes, how to initiate a computer search and how to access other ERIC resources.

...Jean Nazzaro (EC)

NEW PUBLICATIONS---HE

The following new fact sheet has been produced by HE:

- Quality Control in Off-Campus Degree Programs. James P. Honan. AAHE-ERIC/Higher Education Research Current. September 1981.

...Laura Ciarniello (HE)

NEW PUBLICATIONS---IR

The following new fact sheets have been produced by IR:

- The Field of Educational Technology: A Dozen Frequently Asked Questions
- Educational Technology and Distance Education
- School Library Public Relations
- Competency Based Education

...Bruce Clark (IR)

NEW PRODUCTS/NEW IDEAS

KEEPING UP WITH CONFERENCES

As part of the acquisition process, CAPS uses a Pendaflex file system of 12 folders labeled month-by-month into which notices of upcoming conferences, workshops, programs, and the like are placed by staff members. At the beginning of each month, the Acquisitions Coordinator reviews the file contents and determines which programs should be requested. The Facility Conference Calendar information is also placed in the files to eliminate the problem of soliciting a program which is already being covered by another Clearinghouse.

...Helen Mamarchev (CG)

ADDITIONAL RESOURCES FILE

User Services staff at CS maintain a vertical information file on topics related to the scope of the clearinghouse. These files contain pertinent newsletter clippings, journal article reprints, relevant pages copied from

books, materials from educational organizations, etc. These are used when a response requires a more complete answer than an off-the-shelf item can provide or when the ERIC file yields little or no information. This vertical file is reviewed and updated annually.

...Holly O'Donnell (CS)

PERSONNEL NEWS

NEW ADDITION TO CE'S FAMILY

Cathy Thompson, Publications Specialist at ERIC/ACVE, and her husband, Ed, are the proud parents of a son, Daniel. Cathy has returned to work half-time. Our congratulations!

...Judy Wagner (CE)

BART BEAUDIN JOINS CE STAFF

Bart Beaudin has joined ERIC/ACVE as a graduate research associate. A native of Canada, Bart has spent the past several years as a department director for the Kenya Technical Teachers College. He's a welcome addition to our staff.

...Judy Wagner (CE)

NEW STAFF MEMBER AT CAPS

CAPS welcomes Lynette Kosky as the new Secretary to the Director. Lynette comes to us from Green Bay, Wisconsin, where she worked at a branch office of The Rand Corporation.

...Helen Mamarchev (CG)

NEW COORDINATOR OF USER SERVICES AT CS

To pursue her studies in nursing, Holly O'Donnell has switched roles from Coordinator of User Services to Research Associate and will continue half-time with the Clearinghouse. In turn, Anne Auten has switched roles from Research Associate to the new Coordinator of User Services. We wish success to each in her endeavors.

...Hilary Taylor Holbrook (CS)

ERIC/CEM HIRES ACQUISITIONS ASSISTANT

Janet Hiley joined the ERIC Clearinghouse on Educational Management staff on October 1, 1981, as assistant to Acquisitions Librarian Clarice Watson.

Janet has a B.A. in fine arts from the University of Oregon and has done graduate work in counseling and art education. She has served as a teacher at Echo Hill Outdoor School in Worton, Maryland.

...Stuart Smith (EA)

PAULINE COCHRANE'S TRAVELS

Pauline Cochrane, Associate Director of the ERIC Clearinghouse on Information Resources, recently returned from a working vacation in Australia, where she delivered six lectures in nine days under the auspices of the Library Association of Australia's cataloging sections in four states (Western Australia, South Australia, Queensland, and New South Wales). All of these lectures were concerned with subject access and online library catalogs. En route, she stopped in London, Nairobi, Johannesburg, and Praetoria, where she met with members of the library/information community to discuss international and/or local concerns and promised to send information on ERIC as well as OCLC.

...Barb Minor (IR)

NEW STAFF ASSIGNMENTS AT PS

Karen Steiner has joined the staff of PS as half-time Assistant Editor. She has ERIC expertise as well as editorial expertise, as some years ago she served on the staff of CS. In her spare time, she is a graduate student majoring in poetry.

Linda Baskin, Assistant Director, has resumed her duties as User Services Coordinator (after having served as project manager of the Child Development Associate contract last year, in addition to being at ERIC.)

Norma Howard is now serving again as Vocabulary Coordinator, in addition to working with Linda Baskin as User Services Associate.

...Norma Howard (PS)

EDINGTON NEW MEXICO DELEGATE

Dr. Everett Edington, Director of the ERIC Clearinghouse on Rural Education and Small Schools, will be a delegate for the State of New Mexico at the Rural Education Association conference to be held in Tucson, Arizona on October 10-14, 1981. Cress will also have a booth at this national conference.

...Amelita Hill (RC)

NEW FACE AT CRESS

Theresa (Terry) Johnson has replaced Isauro (Sonny) Gonzales in the half-time Administrative Assistant position at ERIC/CRESS. Terry worked in the NMSU Business Office for six years before joining CRESS and is pursuing a degree in Business at NMSU.

...Amelita Hill (RC)

STAFF CHANGE AT UD

Nothing lasts forever. At the end of the summer Ms. Stella Torgoff, Assistant Director, and Dr. Jerry Wright, Associate Director, officially left the Clearinghouse. Stella left to take care of personal business and Jerry accepted an appointment to the Anthropology Department at California State University at Fullerton. We wish them well.

To start a new chapter as of September 1981, Mr. Michael Webb has been appointed Assistant Director of the Clearinghouse. He has a diverse background in educational research and development. Prior to coming to Teachers College, he was a Development and Training Specialist at the Far West Laboratory for Educational Research and Development in San Francisco, an intern in the National Institute of Education's Women's and Minority Leadership Program in Educational Research and Development Management, an adult education practitioner, and a consultant in various staff development and community projects. He has also authored several state-of-the-art papers dealing with high-risk students.

...Maryellen LoBosco (UD)

MEETINGS, CONFERENCES, WORKSHOPS

CE STAFF TO ATTEND CONVENTIONS

Susan Imel, Assistant Director of the ERIC Clearinghouse on Adult, Career, and Vocational Education, will attend and make presentations at the Adult Education Association Convention to be held in Anaheim, California on October 28-November 1, 1981.

Juliet Miller, Director, will be attending and making several presentations at the American Vocational Association, which will hold its annual convention in Atlanta, Georgia in early December.

...Judy Wagner (CE)

EC SOLICITS CLEARINGHOUSE PRODUCTS FOR DISPLAY AT NOVEMBER GIFTED CONFERENCE

Lynn Smarte will have an ERIC exhibit and workshop at the CEC/TAG National Topical Conference on the Gifted and Talented Child in Orlando, Florida. (Other clearinghouses are welcome to send relevant materials to Lynn at ERIC/EC by November 9, 1981.)

...Lynn Smarte (EC)

JIM HONAN PRESENTS PAPER AT CONFERENCE

James Honan presented a paper entitled "The State of Quality Control in Off-Campus Credit Programs" at the fourth annual Quality in Off-Campus Credit Programs conference in Nashville, Tennessee, October 4-7, 1981. The conference

was hosted by Kansas State University, National Issues in Higher Division of Continuing Education. Word has it that Jim gave the Grand Old Opry a hard act to follow!

...Laura Ciarniello (HE)

PS PRESENTS COMPUTER LITERACY WORKSHOPS

Mima Spencer and Linda Baskin recently presented a workshop on computer literacy for CS and PS staffs. Another computer literacy workshop is planned this month for the College of Education faculty.

...Norma Howard (PS)

BOOTH AT NEA CONFERENCE

CRESS will have an ERIC booth at the New Mexico National Education Association Conference, Las Cruces, New Mexico, October 22-23, 1981.

...Amelita Hill (RC)

BORDER REGIONAL LIBRARY ASSOCIATION

Amelita Hill, User Services, and Betty Rose Rios, Assistant Director, of the ERIC Clearinghouse on Rural Education and Small Schools, conducted an ERIC orientation for participants of the Border Regional Library Association meeting in El Paso, Texas on September 26, 1981.

...Amelita Hill (RC)

THE "WHOLE ENCHILADA FESTIVAL"

CRESS displayed ERIC materials in the Phi Delta Kappa booth at the "Whole Enchilada Festival," Las Cruces, New Mexico, on October 2-4, 1981. The theme of the PDK booth was "What's Right with Education."

...Amelita Hill (RC)

BENALLY OFF TO AMERICAN INDIAN CONFERENCES

Elaine Roanhorse Benally, Information Specialist for American Indian Education will give an ERIC presentation at the National Indian Education Conference, Portland, Oregon, October 12, 1981. From Portland, Ms. Benally will travel to Anchorage, Alaska, where she will participate in the National Congress of American Indians Conference, October 13-16, 1981.

.. Amelita Hill (RC)

STRENGTHENING UNIVERSITY-MINORITY COMMUNITY TIES IN THE 80's

The Third Annual National Multicultural Conference was held on October 1-3, 1981, at the University of Wisconsin, Oshkosh, Wisconsin. The theme of this year's conference was strengthening ties between the University and the minority community. ERIC/CUE was represented at the conference by an information table. Materials displayed included IRCD Bulletins, editions of the Equal Opportunity Review, Fact Sheets, and publications of the Clearinghouse on Higher Education. Approximately 150 persons were in attendance.

Assemblywoman Shirley Chisolm, the keynote speaker, addressed "the potential phasing out of the United States Department of Education." Michael Webb, Assistant Director of ERIC/CUE paid a courtesy call to the University Library; the reference librarian was pleased to receive fifty copies of "A Pocket Guide to ERIC."

...Michael Webb/Maryellen LoLosco (UD)

VISITORS HOSTED BY ERIC

VISITORS HOSTED BY RCS

On September 17, 1981, Anne Auten presented an ERIC orientation for 10 undergraduate students from the University of Illinois. The students were in an Elementary Education seminar in preparation for student teaching. On October 1, Anne presented a similar workshop for 22 University of Illinois students in English Education.

...Hilary Taylor Holbrook (CS)

INDIA (MINISTER OF EDUCATION) EXPRESSES SUPPORT FOR ERIC

The Minister for Education from India visited the ERIC Clearinghouse on Higher Education this summer and was very impressed with the mission and workings of the ERIC system. He expressed concern about the future of ERIC and recently sent us a very supportive and encouraging letter. We hate to tell him that ERIC's budget picture is still unsettled, but it was good to get such an obviously sincere expression of sympathy and concern from such a source.

...Laura Ciarniello (HE)

VISIT BY TIMOTHY RAISON, MP, HOME OFFICE FOR RACE, LONDON, SW1

Mr. Timothy Raison, MP of the Home Office for Race, visited the ERIC Clearinghouse on Urban Education to discuss race relations in the United States. In attendance were Michael Webb, Assistant Director of ERIC/CUE, Dr. George

Bond from the Department of Anthropology at Teachers College, and Dr. Marguerite Ross Barnett, Director of the Institute for Urban and Minority Education. Mr. Raison was accompanied by his personal secretary and aide. Topics discussed included bilingual education, current thinking about black English (as an academic area), problems of race relations in Great Britain, Compensatory Education in the United States, and current efforts on the part of the British Government to provide educational services to Great Britain's minorities (West Indians in particular).

I. ABSTRACT JOURNAL SERVICES

A. *Resources in Education (RIE)*

- | | |
|---|---------|
| 1. Subscriptions (primarily libraries, including approximately 1,000 foreign) | 4,000 |
| 2. Documents announced in RIE | |
| a. Monthly (Average) | 1,250 |
| b. Annually (Current Level) | 15,000 |
| c. To date (1966 through June 1981) | 191,197 |
| 3. Documents Evaluated Annually for Possible Announcement in RIE | 35,000 |

B. *Current Index to Journals in Education (CIJE)*

- | | |
|---------------------------------------|---------|
| 1. Subscriptions | 1,700 |
| 2. Journals Covered | 760 |
| 3. Journal Articles Announced in CIJE | |
| a. Monthly (Average) | 2,000 |
| b. Annually (Current Level) | 24,000 |
| c. To date (1969 through June 1981) | 241,678 |

II. DOCUMENT REPRODUCTION SERVICES

- | | |
|--|------------|
| A. Organizations Subscribing to Complete ERIC Microfiche Sets (including approximately 75 foreign) | 700 |
| B. Titles Filmed (less than 5% of current document input is copyrighted) | |
| 1. Monthly (per RIE issue) | 1,200 |
| 2. Annually | 14,500 |
| C. Microfiche Delivered Per Subscriber | |
| 1. Monthly (per RIE issue) | 1,700 |
| 2. Annually | 20,000 |
| D. Sales (Annually) | |
| 1. Microfiche on Subscription (including back sets) | 16,000,000 |

*Many of these statistics are constantly changing and therefore have been rounded rather than made exact as of any one day.

2. Microfiche Titles On Demand	23,000
3. Hard Copy Titles On-Demand	45,000

III. DATA BASE SEARCHING SERVICES

A. Subscriptions to ERIC Magnetic Tapes (via ERIC Facility) (including 10 foreign and all major online vendors)	50
B. Locations Offering Computer Searches of ERIC Files	500

IV. REFERENCE SERVICES (NON-COMPUTERIZED)

A. Inquiries/Questions Answered Annually	
1. ERIC Facility	20,000
2. Clearinghouses (16)	75,000

V. MISCELLANEOUS STATISTICS

A. <i>Thesaurus</i> Descriptors	
1. Main (Indexable) Terms	4,863
2. Synonyms	3,584
3. "Dead" terms (valid at one time, but no longer)	137
4. Total Terms	8,584
B. Information Analysis Publications (IAPs) Produced by ERIC Clearinghouses (1967-1980)	3,662
C. Organizations/Institutions Represented by Documents in ERIC Data Base (Source Directory)	25,000

ERIC/AERA PROJECT: FINAL REPORT OF ACTIVITIES

I. Brief Background on Project.

In January 1981, ERIC/EC was asked to conduct a special project involving computer searches for authors contributing to the American Educational Research Association's Encyclopedia of Education Research.

The contract included the following objectives:

- Receive, analyze, and distribute to the appropriate ERIC Clearinghouses all search requests from the AERA/Macmillan Encyclopedia of Education Research (Encyclopedia) authors.
- Provide assistance to the ERIC Clearinghouses in search strategies for the Encyclopedia papers.
- Followup with Encyclopedia authors to insure that the authors received the searches.
- Reimburse ERIC Clearinghouses for searches they conduct.

II. Project Activities.

Between January 1981 and August 1981, ERIC/EC has conducted the following ERIC/AERA Project activities:

- Received, analyzed, and distributed to the appropriate ERIC Clearinghouses all 86 search requests received from Encyclopedia authors.
- Provided assistance to the ERIC Clearinghouses which had questions about search strategies for the Encyclopedia papers.
- Sent a followup letter to all authors to ensure that they had received their searches and requested return of Search Evaluation forms.
- Initiated reimbursement to the 14 Clearinghouses from which invoices had been received.
- Received and distributed to various Clearinghouses approximately 200 reference lists from Encyclopedia papers to be checked for appropriate citing of ERIC documents.

III. Project Evaluation.

Of the search requests received, 82 searches were run and distributed to AERA authors at a mean cost of approximately \$50 per search.

Search evaluation forms were obtained from 59 of the 82 AERA authors receiving searches.

A breakdown of evaluation form questions and responses follows:

- Was the search useful to you?

Yes 47 No 10 No response 2

- Of the citations you received, approximately how many of them were useful to you?

<u>% of Citations</u>	<u>No. of Respondents</u>
0-10%	18
15-25%	10
30-45%	8
50-75%	11
Above 75%	3
No response	9

- For how many of the journal article references did you actually attempt to locate a copy of the article?

<u>No. of Articles</u>	<u>No. of Respondents</u>
0	8
1-10	12
11-25	14
26-50	7
No response	8
Other comments	10

- "...already had located most of these"
- "...came too late..."
- "All"
- "Few/several"

- For how many of the ERIC documents did you actually attempt to locate a copy of the document?

<u>No. of Documents</u>	<u>No. of Respondents</u>
0	18
1-10	13
11-25	9
26-42	3
No response	8
Other comments	8

- "Several"
- "We had already done this."
- "Deadline had passed."

- Would you consider searching the ERIC database for future information needs?

Yes 55 No 1 No response 3

- Had you had an ERIC search run before?

Yes 37 No 20 No response 2

Forty-two authors wrote additional comments, 32 of which were positive such as:

- "Very excellent service..."
- "Good 'P.R.' for ERIC"
- "Very excellent response - helpful"
- "Turned up several papers that were completely new to me"

The 10 critical comments included:

- "Major deficiency...failure to include significant research in the field published in books and monographs"
- "Too late..."
- "Difficult to relate Thesaurus descriptors to specific questions such as this one."

IV. Summary.

Despite the short notice and the "rush" nature of the project, all the ERIC Clearinghouses cooperated enthusiastically. The original AERA mailing which offered the complimentary ERIC searches went out to approximately 280 authors, of which 30% (or 86) responded. Several Clearinghouses, those who had run the fewest searches for authors, checked through Encyclopedia reference lists (approximately 200) for documents available from EDRS. A guesstimate of 75% of all references "looked like" possible ERIC documents and were therefore checked against the title/author indexes. Of these, approximately 50% did indeed turn out to be available through EDRS and were appropriately cited with ED numbers.

V. Suggestions for Improvement in Future Similar Projects.

- Start project early enough to be useful to authors.
- Limit size of searches (no. of abstracts) and/or total amount that can be spent per search.
- Give authors deadline for submitting requests for searches.
- Provide clearer guidelines to Clearinghouses regarding reimbursement (e.g. whether and how they should charge the project for staff time).
- Standardize search package sent to authors. (In this case each Clearinghouse used their own style.) Have special project cover letter, cover sheet ("Here is your special complimentary search..."). Include other ERIC brochures and promotional materials such as brochures on how to submit documents for ERIC.

POLICY/ACTION ITEMS

RIE HIGHLIGHTS PAGE EXPANDED

Several clearinghouses have requested that the highlights page in each monthly issue of RIE be broadened to include any and all clearinghouse publications submitted for RIE that are deemed significant enough to call them to the attention of practitioners. Such publications would include not only in-depth information analysis products, but also research briefs and directories which have proved to be popular with educators in the past. There would no longer be any restriction on the number of pages in a document for it to qualify, just so long as the clearinghouse considered it to be "significant."

Central ERIC has discussed the matter and agrees that many clearinghouse products which do not fall in the "major publications" category merit this highlight treatment. We have therefore revised the introductory narrative material on this page to reflect this new focus. We will continue to rely on the clearinghouses to select those publications which should be included on this page; and as in the past, those selected should be starred on the log sheet sent to the ERIC Facility. Keep in mind that educational significance should be the prime criterion for a publication being highlighted.

This expansion of scope will be effective with shipments for the March 1982 issue of RIE.

...Mildred Thorne (Central ERIC)

CONTRACT RENEWALS

RENEWAL OF ERIC FACILITY CONTRACT

The contract to operate the ERIC Facility for the second year was recently signed with ORI. Due to ongoing budget cuts, certain tasks and services that have been a regular part of the Facility operation in past years have been reduced or eliminated, as follows:

1. The frame-by-frame examination of ERIC microfiche will be eliminated. The system will henceforth have to depend on EDRS to maintain their excellent quality control procedures of the past few years.
2. State Technical Assistance visits will be reduced from 5 to 2. These popular and very effective assistance visits by members of the Facility and Central ERIC staff will be greatly reduced in number and will be concentrated in states that are far along in their planning and support for state-wide educational information systems.

3. The purchase of reference works and lexicographic tools, and other printed aids to the Facility's work will be sharply curtailed. The Facility will use 1981 copies of such works until 1983, when they will again update their reference collection.
4. Production of duplicate computer tapes of the ERIC master file paid for by the contract will be reduced.
5. Messenger/courier service between Central ERIC and the ERIC Facility will be reduced from 5 to 3 times per week.
6. The following Facility-generated publications will be eliminated or reduced in frequency:
 - a. Source Usage Report
reduced from 2 to 1
 - b. Contract/Grant Index
cumulative eliminated; supplements kept.
 - c. Report Number Index
eliminated
 - d. Source Directory
reduced from 4 to 2; with supplements made cumulative
 - e. Thesaurus of ERIC Descriptors
alphabetical, rotated, and hierarchical displays
reduced from 2 to 1
 - f. ERIC Directory
reduced from 2 to 1
 - g. Interchange
reduced from 4 to 2
 - h. Directory of ERIC Search Services
will not be updated in 1982.
 - i. Directory of ERIC Microfiche Collections
will not be updated in 1982
7. Electronic Mail - Eliminated (cannot be continued, much as we would like to have done so).
8. System Improvements—none in 1982; hopefully there will be some activity in this category in 1983.

In addition to the above, the Facility operation is being carefully examined to reduce staff hours wherever possible. As members of the ERIC system are discovering, the budget cuts are real and are here to stay. It is only with careful attention to costs and everyone's effort to achieve maximum efficiency that the ERIC system will be able to survive these difficult times.

...Jim Prevel (Central ERIC)

CEC WINS EC CONTRACT

As announced last month, a three-year contract has been awarded to the Council for Exceptional Children to operate the ERIC Clearinghouse on Handicapped and Gifted Children. Working titles of the EC Information Analysis Products scheduled for FY82 include the following:

1. The School Psychologist and the Exceptional Child
2. Your Students with Physical Disabilities - A Handbook for Teachers
3. A Multi-Arts Approach to Fostering Creativity in Gifted Handicapped Children
4. Counseling the Gifted - Guidelines for School Personnel
5. A Handbook on the Assessment and Placement of the Culturally Diverse Exceptional Child.

...Judi Conrad (Central ERIC)

NETWORK NEWS

RIE SCHEDULE FOR 1982

The RIE Schedule for 1982 is displayed as Attachment 1. The "full-size" RIE Master Schedule will be available at the end of November.

...Ted Brandhorst (ERIC Facility)

RESOURCES IN EDUCATION: FREE FOR THE ASKING!

Every six months the Government Printing Office discards surplus copies of subscription items. These are offered to the originating government agency at no charge, and unless the agency accepts them, they are, to use GPO's term, "trashed."

Each month, approximately four hundred copies of RIE are available; semiannual indexes are available every six months. These surplus RIE's can be used in several ways and it is a shame to let them be discarded, especially in these austere times when funds are scarce and there is no reliable source for back issues.

They are valuable tools for use in training sessions, especially since each participant can be supplied with the same issue. They can be offered to universities and colleges for use in conducting courses in the use of ERIC. Libraries can use copies to replace missing or worn issues; others would like to have duplicate copies.

In addition to the surplus GPO stock, the ERIC Facility has a limited stock of single copies of RIE and semiannual indexes that are also available for the asking.

...Frank Bryars (Central ERIC)

SYNTHESIS PRODUCTS FROM STATE CAPACITY BUILDING PROJECTS

State Capacity Building Projects have, over the years, created products that meet the needs of educators in their states. Many of them have met National needs and a number have been put into ERIC in the past.

We have recently requested (through the Office of Regional Programs (RP) in NIE) that these products be systematically submitted to ERIC (through the Facility) for consideration. They will be forwarded to the appropriate clearinghouse.

...Bob Chesley (Central ERIC)

ERIC ADMINISTRATIVE MANUAL

Replacement pages for the recently revised ERIC Administrative Manual are enclosed with this issue of the EAB in three sets. These changes are based on suggestions and comments from several clearinghouses. Please discard the older pages.

...Patricia Coulter (Central ERIC)

RETURN TO TWO RIE SEMIANNUAL INDEXES

Prompted by user demand, Central ERIC discussions with the Joint Committee on Printing have resulted in a return to publication of two semiannual indexes to Resources in Education, starting in 1982. The two indexes (January-June and July-December) will, as before, be available from the Superintendent of Documents, U.S. Government Printing Office (GPO) on a subscription basis. When the prices for domestic and foreign subscriptions have been determined by GPO, they will be announced here and in future issues of RIE.

...Mildred Thorne (Central ERIC)

INDEXING CHAPTER TO BE PUBLISHED BY SCARECROW PRESS

Lynn Barnett of the ERIC Clearinghouse on Higher Education, has recently completed a 50-page manuscript entitled "Indexing in ERIC" that will appear as one of 23 chapters in a book on indexing due to be published by Scarecrow Press next summer. Dr. Hilda Feinberg is the editor. Other chapters will include descriptions of various kinds of indexing systems and databases.

...Laura Ciarniello (HE)

ERIC/CRESS ADVISORY BOARD MEETS

The ERIC Clearinghouse on Rural Education and Small Schools (CRESS) held its Annual Advisory Board Meeting in Las Cruces, New Mexico, October 26-27, 1981. Members and the CRESS scopes they represent are as follows:

- Stuart Tonemah
Native American Research Institute
Norman, Oklahoma
(American Indian Education)
- Oscar Mendoza
Hatch New Mexico Public Schools
(Migrant Education)
- Norman Skliar
BOCES of Nassau County
Office of Outdoor and Environmental Education
Westbury, New York
(Outdoor Education)
- James Jess
CAL Community School
Latimer, Iowa
- Wilma Jo Lane
Cloudcroft New Mexico Public Schools
(Rural Education and Small Schools)
- Russell Vlaanderen
Education Commission of the States
- Darrell Willey
NMSU Educational Research Center
(General)

Rebecca Robbins, Arizona State University, who is a former CRESS board member, was also present (American Indian Education). Leobardo Estrada, UCLA, representing the Mexican American scope area was unable to attend.

James Jess and Russell Vlaanderen, who have completed their three-year term on the CRESS Advisory Board, were presented plaques of appreciation.

...Amelita Hill (RC)

"PHOOEY" ON THAT OCR THIEF!

Imagine my dismay upon walking into the office early Monday morning, September 21, and discovering a blank space where my typewriter should be! Sometime during the previous weekend, some desperate IBM Selectric typewriter

thief had stolen the only relatively new Selectric that had not been bolted down—my OCR! How was I to finish corrections on CIJE?! How was the RIE shipment going to get out?! Well, the answer was right there in its cubbyhole, beckoning for understanding and use. It was/is our Datamedia 3000, a CRT previously used only for records upkeep and now to serve as our vital link to the ERIC Facility via on-line transmission of RIE and CIJE input.

Understanding did not come overnight. It took many days of frustration and aborted communication attempts with academic computer services where only one per on understood the many uses (and pitfalls) of SCRIPT, the computer program language used for text input. Finally, the day came when Pat Brown at the Facility called to say, "Only a few minor changes and your input is looking good." Hallelujah! Of course those "few minor changes" were not so minor for one who had less than a bare minimum of computer knowledge, but they were eventually ironed out and we have now transmitted a total of 34 RIE abstracts and 12 CIJE annotations. And "phooey" on that OCR thief!

...Laura Connolly (RC)

CRESS CITED IN EUROPEAN NEWSLETTER

"The ERIC Clearinghouse on Rural Education and Small Schools (ERIC/CRESS)," CONTACT, Newsletter of the European Society for Rural Sociology, No. 5, July 1981, provides an overview of ERIC in general and CRESS in particular. The article also gives information on how to submit materials for inclusion in the ERIC system.

...Amelita Hill (RC)

DEMAND FOR ERIC WORKSHOPS

Recently the ERIC/Teacher Education Quarterly Information Bulletin ran a front page article on the availability of ERIC workshops. The article stipulated that the Clearinghouse was willing to conduct a workshop for any institution that was willing to foot the travel and per diem expenses. Five inquiries were immediately received from various parts of the country, and our response has been to refer some of the inquiries to clearinghouses that are responsible for the state in question while offering to perform others ourselves. Considering that our mailing list consists of only 2,500 names, and that travel and per diem expenses would range between \$200 and \$600, I was surprised to receive so many inquiries. Although five responses is by no means overwhelming, it does lead me to believe that there is a significant demand for information about ERIC that has not yet been met.

...Dean Schwanke (SP)

NSBA A VOCAL ERIC ALLY

The National School Boards Association, under the leadership of Executive Director Thomas A. Shannon, has long been supportive of the ERIC system and the ERIC Clearinghouse on Educational Management. Shannon is a veteran member

of the Clearinghouse's National Advisory Board. In recent weeks Shannon has given an extra measure of expression to this support in the following ways:

1. In a letter dated September 15, 1981, Shannon wrote to the executive directors of NSBA's state associations soliciting their recommendations of topics for Clearinghouse information analysis products. He recalled in the letter that last year NSBA, in cooperation with the state associations, recommended two topics on which the Clearinghouse subsequently prepared Research Action Briefs for distribution by NSBA.
2. On September 15, NSBA hosted the annual meeting of the Clearinghouse's National Advisory Board at the association's headquarters office in Washington, D.C. NSBA then followed up its gracious hospitality with a story and picture on the meeting in the September 30 issue of "School Board News," mailed to its entire membership.
3. On October 21, Shannon wrote a strongly worded letter of support for ERIC and the Clearinghouse to NIE Director Edward Curran. Writing "on behalf of the nation's 95,000 local school board members," Shannon referred to ERIC information analysis publications as "the primary back-up system that we at the National School Boards Association use to provide ready and usable information to local school board members, state school boards associations, and to respond to a plethora of inquiries—literally hundreds of them that come in each month."

NSBA's vocal support of ERIC is a strong testimony to the importance of Clearinghouse advisory boards in maintaining relationships with important user groups. It also provides gratifying evidence that ERIC's many products do meet its users' needs.

...Stuart Smith (EA)

MICROFICHE QUALITY CHECK (POST PRODUCTION)

Due to budget considerations, the monthly Microfiche Inventory audit will no longer be performed by the ERIC Facility. A minimal number of remakes have resulted from this audit in recent years.

EDRS is anxious that quality and correctness of data continue in future microfiche distribution. We would appreciate it if clearinghouses would please advise us of any and all inadequacies detected so that we may determine what corrective action may be taken.

...Jack Veale (EDRS)

A REAL, LIVE PRACTICE FILE

All clearinghouses should have received information for the Education Service Group (associated with BRS) about the formation of SPIN (School Practices Information Network) and SPIF (School Practices Information File).

If it has been buried beneath the stack of "things to do next week," it may be useful to retrieve it or request a new set of information from Ms. Deborah Pietro, Director, SPIN/SPIF, BRS/Education Service, 1200 Route 7, Latham, New York 12110.

The COED Committee on Database Linkages (Ely - IR, Erickson - EC, Spencer - PS, and Wildemuth - TM) received a briefing from Charles Mojkowski of ESG as did the Central ERIC staff on October 27.

SPIN has about 50-60 members (including ERIC/IR and ERIC/SMEAC). SPIF has about 5,000 records and is growing at the rate of 500/month. Its scope includes practices, programs and materials which are currently in use. Access is gained by using the ERIC Thesaurus, 1980 Edition as a search aid plus additional search terms which are not in the Thesaurus. Document delivery is through the contact person/place named on each record.

The Committee on Database Linkages is exploring ways in which ERIC can cooperate with SPIN/SPIF and avoid overlapping, duplication of effort, and confusion with terminology. Meanwhile, it would be helpful if each clearinghouse became familiar with this non-government-sponsored database.

...Don Ely (IR)

A THANK YOU

In October, the Ad Hoc Committee on Mandatory Leveling Descriptors submitted its final recommendations to the Technical Steering Committee. This group was charged with a difficult task and has worked hard to resolve several important issues with systemwide implications. We thank the following members of this committee for a job well done—Dorothy Beling, Chairperson, John Brosseau, and Jim Houston.

...Pat Coulter (Central ERIC)

IAP PUBLICATIONS DATA RECORD

Keeping track of IAP inventory and sales is easier with the use of a month-by-month publications data chart. Every month the following information is recorded for each IAP:

- Number sold
- Cumulative number sold
- Number remaining
- Dollar amount sold
- Cumulative dollar amount sold

This procedure helps us to identify, at a glance, best sellers and non-best sellers, as well as peak selling periods.

...Carol S. Mills (CG)

CORRECTION

In the second paragraph of "Network News" (p. 9, October 1981 issue of the EAB) concerning processing of journals formerly processed by SMERC, it is stated that the clearinghouses taking over these journals begin indexing with their January 1982 issues. This is incorrect. They should begin with the issue directly following the last issue indexed by SMERC.

...Susan Slesinger (Oryx)

NEW PUBLICATIONS

NEW PUBLICATIONS—CE

The following major publications have been submitted to ERIC:

- Organizing to Work with CETA. Thomas J. Jacobson.

Discusses ways in which local educational authorities can coordinate with CETA prime sponsor. Describes steps for seeking and obtaining funds from external sources.

- Retaining Adult Students. Gordon G. Darkenwald.

Provides a synthesis of research and theory directly related to adult students and presents a general theoretical model of the drop-out persistence process in adult education. Includes general guidelines for promoting adult student retention.

- Developing Career Education at the College Level. Robert C. Reardon.

Presents a review of the literature on postsecondary career education including an overview of its history and a summary of the state of the art. Discusses some persistent issues and their implications for practitioners.

- Educating for the Future in Family Life. Elizabeth J. Simpson.

Utilizes knowledge gained from work on future issues related to families, the work of futurists on social issues, and technological development and recent studies in home economics to draw conclusions regarding what people will need to know in the eighties and beyond to be intelligent consumers and effective homemakers.

- From School to Work: A European Perspective. Beatrice G. Reubens.

Surveys school-to-work transition issues as they have developed in Europe. Discusses the activities, research, and programs of each of

the following organizations: the European Community, the Organisation for Economic Cooperation and Development, the Council of Europe, and the Nordic Council.

- Career Education for the Gifted and Talented. Barbara A. Kerr.

Presents an overview of the research on gifted and talented students and discusses their major career development problems. Includes model programs for the gifted and suggests strategies for meeting career development needs of gifted and talented students.

- Employer-Sponsored Career Development Programs. Anita Sklare Lancaster and Richard R. Berne.

Overviews employer-sponsored career development programs. Reviews pertinent theories and research in the area of adult development and adult career development and examines career programs and practices for adult workers including factors contributing to their development. Concludes with case studies of career development programs in specific settings.

- Business and Office Education: Review and Synthesis of Research. Judith Lambrecht, J. Eugene Jones, Marianne D'Onofrio, Thomas Bicanich, and Patricia A. Merrier.

Contains a review and synthesis of business and office education research during the past ten years. Includes sections on philosophy, social and business environment, accounting and bookkeeping, basic business, and data processing.

- Tailoring Vocational Education to Adult Needs. Norma B. Brewer.

Examines adult vocational education in the context of the current vocational education system. Discusses the background of adult vocational education and suggests models for designing a learning environment for adult vocational education. Examines selected adult populations with special needs for vocational education.

...Judith O. Wagner (CE)

NEW PUBLICATIONS—HE

The following publications have been produced by HE:

- Minority Access to Higher Education. Jean L. Preer.
AAHE-ERIC/Higher Education Research Report #1. 1980.
(\$5.50). HE 014 491

This report takes a careful look at the status of minority access to higher education by examining the current status of minority enrollment and specific concerns that affect students in institutions.

- Institutional Advancement Strategies in Hard Times. Michael D. Richards and Gerald Sherratt. AAHE-ERIC/Higher Education Research Report #2. 1980. (\$5.50). HE 014 492.

This report examines the historical role of institutional advancement and then reviews specific activities and trends currently affecting it.

Copies of the above publications may be ordered from the Publications Department, American Association for Higher Education, 1 Dupont Circle, Suite 780, Washington, D.C. 20036.

...Laura Ciarniello (HE)

NEW PUBLICATIONS—SP

The following new Fact Sheets have been produced by SP since March 1, 1981:

- Teaching as a Career and a Profession
- Teacher Centers and Higher Education
- Competency Assessment in Teacher Education

Three others are planned, one on physical education curricula, one on federal block grants and education, and one yet to be decided.

...Dean Schwanke (SP)

NEW PUBLICATIONS—UD

The ERIC Clearinghouse on Urban Disadvantaged has recently incorporated its ongoing fact sheets, brief bibliographies, and resource directories under the umbrella heading of "Compact Guides," seminal tools which can quickly provide information on a specific field of interest within Urban Education.

Most recently published in the series is Alternative Schools—Some Answers and Questions. Fact sheet number seven succinctly portrays the current state of alternative schools and reviews the research and practice which tracks successes and failures.

- Fact Sheets

School Crime and Disruption

Complying with Title IX Regulations

Burnout in Schools and Other Human Service Institutions

Instructionally Effective Schools

How to Make School Desegregation Work—Some Advice from the Research

- Brief Bibliographies

Strategies for Community Organization: Asian Americans
Communities and School Closings
Minority Groups and the Arts

- Refugee Resettlement and Integration: An Organizational Guide

The following have recently been published:

- IRCD Bulletin, Volume XV, numbers 3 & 4 excerpts and reprints "Title IX Compliance and Sex Equity." Rita Bornstein.
- "Research and Evaluation in Urban Education Policy." Michael Kean.

Both articles were originally published in the Urban Diversity Series. Rita Bornstein presents guidelines which will help formulate a concrete campaign to achieve maximum compliance with the spirit of Title IX.

IRCD Bulletin is a publication of the Institute for Urban and Minority Education.

Equal Opportunity Review is an annotated bibliography of ERIC References on Urban and Minority Education which is meant to be a guide to the literature on urban and minority education accessible through the ERIC system. Citations from Resources In Education are from January through December of 1980, and are meant to update the bibliographies published by the Clearinghouse covering similar topics in previous issues of Resources in Education (see ED 128 492, ED 143 720, ED 162 013, ED 173 506, and ED 190 736).

...Maryellen LoBosco (UD)

PERSONNEL NEWS

FACILITY EDITORIAL DEPARTMENT CHANGES

Julie Mann has resigned from her post as an RIE Editor to accept a position with the Alumni Office of the University of Maryland. She will be considerably closer to the new home she has resettled in since her recent marriage.

Rochelle Siegel has transferred internally from the ERIC Facility to ORI's GAO Project, an activity with which she has been engaged off and on as lead Editor for several years.

Kathleen Crim has been hired as an RIE Editor and is currently being trained by Christine St. Lawrence in the various RIE editorial responsibilities.

The Source Name/Code work (i.e., Source Directory maintenance) formerly handled by Julie will henceforth be handled by Carolyn Weller, who will also continue her regular work dealing with new Identifiers coming into both RIE and CIJE.

...Ted Brandhorst (ERIC Facility)

STAFF CHANGES AT CE

Brenda Hemming, Acquisitions Secretary, is leaving to assume a secretarial position in the German Department at The Ohio State University. We will miss her.

Valentina Rojo, our OCR typist of the last year, has left ERIC/ACVE. She has joined the staff of Ceramics Monthly. We wish her well.

Josephine Waiters has joined the staff as a graduate research assistant. A native of North Carolina, Jo is a welcomed addition to our staff.

...Judy Wagner (CE)

NISSEN JOINS CRESS STAFF

Connie Nissen is the new secretary for acquisitions at ERIC/CRESS. Connie replaces Bertha Nava who had been with the Clearinghouse for a year and a half.

...Amelita Hill (RC)

MEETINGS, CONFERENCES, WORKSHOPS

HIGHER EDUCATION STAFF MEETS ASIS PARTICIPANTS

The ASIS annual meeting was held in Washington, D.C. last month. Laura Ciarniello helped staff the ERIC/IR booth at ASIS while Lynn Barnett attended sessions. Lynn particularly enjoyed chatting with Valery Martinov, the cultural affairs attache at the Russian Embassy in Washington.

...Laura Ciarniello (HE)

JIM HONAN SPEAKS AT GRANTSMANSHIP WORKSHOP

James P. Honan, Research Assistant, was a panel speaker at the "Grantsmanship Workshop for Minority Research Organizations" which was sponsored by the National Endowments for the Humanities. The workshop was held in Washington, D.C. from October 25-27, 1981.

...Laura Ciarniello (HE)

RCS STAFF ATTEND CONFERENCE

The following clearinghouse staff, attended three annual conferences during the last week in October:

- Karl Koenke, Associate Director, attended the College Reading Association in Louisville, Kentucky where he was elected chairperson of the clinical division of CRA. He will share in the program responsibilities for next year's meeting.
- Anne Auten and Fran Lehr attended the annual convention of the Illinois Association of Teachers of English in Peoria, Illinois. In addition to staffing the ERIC display, both Fran and Anne attended several presentations. Anne noted that interest in computer literacy and computer applications in English and Language Arts was extremely high. Fran and Anne also contacted the director of the convention, who informed speakers that ERIC materials were available for distribution at their presentations.
- Hilary Holbrook staffed the ERIC display at the annual East Central-Eastern Illinois University Reading Conference in Charleston, Illinois. ERIC materials on creative writing were very popular, indicating a trend toward interest in the reading writing relationship.

...Hilary Taylor Holbrook (CS)

CAPS GOES INTERNATIONAL

Right after the Directors' meeting in September, Garry Walz and Libby Benjamin boarded a plane for Brisbane, Australia (say "Brisbane" like "Lisbon"), where they conducted a career development workshop for 91 counselors, counselor educators, and career guidance officers from various academic settings in Queensland, plus guidance personnel from the Queensland State Department.

The trip was made at the invitation of the Senior Counsellor (note those double "ll's"!) at the University of Queensland who had attended a Walz-Benjamin workshop and visited for six weeks at ERIC/CAPS in 1979 while on sabbatical leave. Australians are wonderful and the trip was highly rewarding both professionally and personally.

After one day at home, they left for Offutt Air Force Base in Omaha where they were responsible for three days of a five-day program presented every three years for counselors from the 26 Air Force bases of the Strategic Air Command (SAC). The journey included a tour of the underground which was awesome indeed. They reported that counselors in a governmental milieu live in a truly different world. Both trips were taken at no cost to the ERIC budget.

...Libby Benjamin (CG)

VISITORS

VISITING PROFESSOR AT CAPS

Educators from foreign countries often visit the CAPS clearinghouse to become familiar with the ERIC system. One such individual is Dr. Wu-tien Wu from the National Taiwan Normal University, where he is a professor in the Department of Educational Psychology and Director of the Special Education Center. Dr. Wu has become an avid fan of ERIC and will be returning to Taiwan with numerous documents and publications.

...Carol S. Mills (CG)

CANADA NATIVES VISIT CRESS

Adam Eneas, President, Native Courtworker and Counselling Association of British Columbia and Stephen C. Olson, Director of Programs, Indian Training and Research Institute of British Columbia, visited ERIC/CRESS on September 26, 1981. Elaine Roanhorse Benally spent four hours with the visitors explaining the functions/services of ERIC. The visitors were gathering resources to assist in the planning and development of a training institute in British Columbia. A computer searching demonstration was provided by Amelita Hill.

...Amelita Hill (RC)

CRESS VISITORS

The proximity of the Rural Education Association Conference in Tucson, Arizona, to the ERIC Clearinghouse on Rural Education and Small Schools in Las Cruces, New Mexico, made it feasible for two of the conference participants to visit the clearinghouse on October 14, 1981.

Tom Schultz, Chairman of the NIE Task Force on Rural Education, spent the entire day with Everett Edington discussing the services and functions of CRESS. This was Tom's first visit to an ERIC clearinghouse.

Doyle Slater, Rural Education Center, Eastern Oregon College, La Grange, was given an orientation to ERIC and the Clearinghouse on Rural Education and Small Schools by Manuela Quezada-Aragon.

...Amelita Hill (RC)

AMERICAN INDIAN EDUCATOR OF THE YEAR

An ERIC/CRESS Advisory Board member, Stuart Tonemah of Norman, Oklahoma, received the "American Indian Educator of the Year" award at the National Indian Education Conference held in Portland, Oregon on October 11, 14, 1981.

...Amelita Hill (RC)

UD MEETS AND GREETES HER MAJESTY'S INSPECTORS

Sybil Woodroffe and Gordon Benefield, Her Majesty's Inspectors of the Department of Education and Science of the British Government, and Bev Woodroffe, Head of the Multi-ethnic Unit in the Inner London Education Authority visited the ERIC Clearinghouse on Urban Education on October 21, and met with Dr. Erwin Flaxman, Director, and Dr. Marguerite Barnett, Senior Research Associate. Discussed was current knowledge about multicultural/multi-ethnic education in the United States.

Dr. Flaxman explained the workings of the ERIC system, and initiated a dialogue about how more exchange of information between the U.S. and the United Kingdom concerning the education of minorities could be implemented.

POLICY STATEMENT

FUNDING GUIDELINES

Guidelines for FY82 funding indicate a call for a decrease of 10% to 15% in CIJE cost (PCB line item). If a clearinghouse has recently assumed responsibility for journals formally processed by SMERC, then before calculating the decrease, the clearinghouse's base cost should first be increased to include the cost of processing the additional CIJE articles.

...Bob Chesley (Central ERIC)

ACTION ITEMS

QUARTERLY REPORTS

Central ERIC is frequently asked for the current "hot topics" or priority areas in a given subject area. Department, NIE staff, and others need this information for a variety of reasons, including establishing priorities and confirming trends. While we often manage to obtain this kind of information during clearinghouse annual review sessions, a more systematic method is now needed.

We are, therefore, asking that a short section be added to the Clearinghouse Quarterly Report. On page VI-10 of the Administrative Manual please add the following item:

- F. Current "cutting edge" topics or subjects within the clearinghouse scope area(s) are:

A list of these topics is sufficient; further elaboration is not necessary.

This item should be added to the Administrative Manual; an appropriate replacement page will follow.

...Pat Coulter (Central ERIC)

COST CONSCIOUSNESS

As the ERIC budget is made less both by reduction and by inflation, the system has to make special efforts to reduce costs in all activities. A significant proportion of ERIC's budget is for travel. The following tips on cutting travel costs are timely and effective. I hope other clearinghouses will investigate and use these and other innovative methods to reduce operational costs.

...Bob Chesley (Central ERIC)

SOME TECHNIQUES FOR SAVING MONEY WHILE TRAVELING—
GOOD FOR BUSINESS OR PERSONAL TRAVELING

At a recent ERIC Technical Meeting, Dr. Patricia E. Blosser and Dr. John F. Disinger of ERIC/SMEAC presented several ways we try to save funds while on travel status. Several people have asked for some of this information to be reported.

We have used several techniques during the past several years and have saved over \$10,000 per year on travel costs. Our savings in 1980 exceeded \$20,000 and savings for 1981 will equal or exceed this.

● Money Saver #1

We try to schedule workshops going to and returning from conferences or meetings. If expenses are paid for any one of the three, we can reduce travel expenses and frequently cover nearly all expenses. This procedure also allows us to conduct more workshops with less net travel (fewer returns to Columbus and less travel distance in going to the workshops or conference sites).

● Money Saver #2

A few times each year we try to schedule as many as three or four workshops in a trip combination with one or two conferences. In 1980 we had two trips with six workshops and several with four or five. In 1981 we had two trips with four or five and several with three. We have used Eastern Airline Fly Anywhere tickets on many of these trips. If two people are involved in the workshops and conferences we have been able to save substantial amounts of money. If one person is involved we usually still save, but the savings depend on distance and cities involved.

We have always checked multiple sources on ticket prices to be certain the Eastern price is or is not the best. For combination trips of four or more distant sites it has been our best buy about 80% of the time.

● Money Saver #3

These coupon books are available for \$20 or less per book. The Entertainment book covers primarily local areas, but does include some out of state listings. The Travel America book covers much of the United States. Coupons provide 50% off the cost of a room (or two nights for the price of one), some meals (two for the price of one), and some events.

In many cases we have used non-convention hotels and motels at meetings or used coupon hotels or motels when giving workshops. Savings from these procedures have been substantial. Many of the

hotels and motels are fine facilities. Many are rated three star by AAA. Some are rated four star.

We order our Travel America books from our Entertainment 82 office in Columbus. They cost \$20 (or \$12 each if you have an Entertainment 82 book).

If you are interested and do not have an Entertainment office in your area, you can contact me and we will provide you with a source of books.

These are a few of the techniques we have used to save funds and to provide more services to users. We would be interested in other ideas and we will share some others we use in future EABs.

...Robert W. Howe (SE)

PLACEMENT OF ERIC REPLY CARDS ON DOCUMENTS

At present the ERIC Reply Card is placed on the front page of the documents coming into the ERIC Facility. Because they catch on other documents, this has resulted in torn or lost cards. Please staple these cards on the inside lower right corner of the document cover in future shipments. By putting them on the reverse side of the front cover, they will remain neat, out of the way, and safe.

...Frank Bryars (Central ERIC)

ERIC COST AND USAGE STUDY

A draft copy of the ERIC Cost and Usage Study has been received from King Research by Central ERIC. It has been reviewed by DIP staff and final copy is being prepared. The information contained in the report will be useful during the coming year of budget justifications. The Final Report will be entered into the ERIC system as soon as it is received. An executive summary of the cost and usage report is being prepared and will be shipped to the clearinghouse directors as soon as it is completed.

...Bob Chesley (Central ERIC)

VOCABULARY STATUS REPORT

The December 1981 Vocabulary Status Report (VSR) is displayed as Attachment 1. It contains twenty (20) "feedback pages" for the previously issued July 1981 and August 1981 reports, as well as nine (9) pages of new recommendations received by the Facility lexicographic staff through December 11. Each member of the Vocabulary Review Group (VRG) should vote "aye" or "nay" on the new recommendations and return your responses to the Facility by January 18, 1982. It is unnecessary to return the feedback pages.

Responses were received from 17 VRG members on the Jul81 VSR (entries 1134 - 1164) and from 20 members on the Aug81 report (entries 1165 - 1195). "No opinion" and "don't know" votes are not tallied on the VSR forms. July nonrespondents

were IR, PS, RC, UD, Davison, and Edwards. August nonrespondents were HE, UD, and Edwards. (Gwen Edwards has resigned from the VRG, effective November 25.)

Please note that the July and August VSRs did not appear in the EAB. Both reports were late being completed and had to be sent to the VRG in other distributions. No VSRs were issued by the lexicographic staff from September through November in the interest of meeting the production schedule for the new 1982 published Thesaurus.

...Jim Houston (ERIC Facility)

CATALOGING/INDEXING ADVISORIES

CATALOGING ADVISORY—MISCELLANEOUS MATTERS

Some of the points covered below, we know, have been directed your way on previous occasions, but recent input still exhibits these problems and they cause significant editing work.

- State Abbreviations

The two letter postal abbreviations for the states should be used in both the Note and Availability fields.

- Periods

The Title, Note, and Availability fields should all close with a period, just like the Abstract field.

- Series Titles

Series titles should generally be entered following the unique and distinctive specific title of the document (see EPM, p. 163).

- NIE Source Name/Code

Documents prepared by or sponsored by NIE as a part of the Department of Education should use the new code BBB18183. Older documents prepared or sponsored by NIE as a part of DHEW should use the code BBB06621.

- Publication Type Code 150 (Conference Papers)

Individual papers presented at conferences should be assigned PUBTYPE 150. The proper format for Notes describing such papers is: "Paper presented at the Annual Meeting of the American Psychological Association (Washington, DC, December 6, 1980)."

- Duplicates

The number of duplicates detected by the Facility (prior to publication) is on the rise. Every duplicate represents some amount of wasted resources. Please make sure that you check the Acquisitions Data Report (ADR) under all possible versions of the title. This is a serious problem which we will continue to monitor closely.

- Institutions and Sponsoring Agencies

A surprising number of resumes sent from the clearinghouses have ignored legitimate Institutions and Sponsoring Agencies that should have been cataloged. In most cases, these are organizations already in the Source Directory so we are at a loss to explain the omission of this important information. A second problem in this area pertains to incorrect source codes (i.e., transposed digits) apparently due to errors made at look-up time. These errors, if not caught, can lead to totally inappropriate institutions being cited and are one of the most embarrassing errors that can be made.

- OCR Keying

- (a) The first character of the Clearinghouse Accession Number should always be lined up in the box provided on the form. Incorrect placement or alignment results in the resume overlaying the previous record and requires a total re-keying by the Facility.
- (b) Refer to the OCR Keying Manual for how to make line corrections if at all uncertain about how to do so. We have had to contact several clearinghouses who were doing this incorrectly and thereby forcing the Facility to key several lines of additional corrections.

...Christine St. Lawrence (ERIC Facility)

INDEXING ADVISORY—DESIGNATING MAJOR INDEX TERMS

Recently, several clearinghouses have tried to use 8 (eight) or more major (asterisked) subject index terms. The total number of major terms which may be used is restricted by the ERIC Processing Manual to 7 (seven). Indexers may assign as majors a maximum of either 6 (six) Descriptors and 1 (one) Identifier or 5 (five) Descriptors and 2 (two) Identifiers.

While fewer than 7 (seven) majors may be assigned, there must be a minimum of 1 (one) major Descriptor assigned to each item, so that all resumes will have at least one appearance in the Subject Index.

In assigning major index terms, the indexers should not treat the maximum as a quota to be reached if at all possible. The maximum is necessary for two basic reasons:

- (a) to limit the size of the printed index;
- (b) to provide additional discrimination for the searcher while still indexing deeply.

Searchers seeking highly relevant output depend on the major index terms. The assignment of major index terms should, therefore, be done with discretion and not carelessly. Generally, there is a correlation between the size of a document and the total number of Descriptors needed to index it. For this reason, CIJE articles, being shorter, will often not require the maximum of 6 (six) major Descriptors.

Please check your major term totals before submitting ED or EJ resumes. It will save editing effort and will save you effort in responding to Facility or Oryx telephone calls.

...Carolyn Weller (ERIC Facility)

INDEXING ADVISORY—NON-ENGLISH LANGUAGE DOCUMENTS

Many clearinghouses are now processing materials that are written in a language other than English or that are bilingual (usually English and another language). Examples of such documents are:

- (1) a guide on job safety, written in Japanese;
- (2) a bilingual handbook in Greek and English on Greek American contributions to U.S. history;
- (3) a handbook in Spanish for parents of school age children.

In such cases, the language is not the subject but merely the vehicle of communication. Therefore, do not use Descriptors in these cases to denote the language, rather use the Language field.

In those rare cases where documents in a non-English language also have that language as their subject matter, appropriate language Descriptors may be used.

...Carolyn Weller (ERIC Facility)

NETWORK NEWS

FORMATION OF A COMMITTEE ON THE FUTURE OF ERIC

During the annual meeting of the American Society for Information Science, on October 28, a group of ERIC directors, associate directors, and Central ERIC ERIC staff met informally to discuss some issues related to the future of ERIC. A number of people within the system felt that some of the planning at the September directors meeting should go forward during the next year.

From the clearinghouses, the attendees were:

- | | |
|------------------------|---------------------------------|
| ● Michael Butler (SP) | ● Marilyn Shorr (HE) |
| ● John Clark (FL) | ● Mima Spencer (PS) |
| ● Donald Ely (IR) | ● Barbara Wildemuth (TM) |
| ● Donald Erickson (EC) | ● Joost Yif (SP) |
| ● Jonathan Fife (HE) | ● Robert Chesley (Central ERIC) |
| ● Erwin Flaxman (UD) | ● Judi Conrad (Central ERIC) |
| | ● Charles Hoover (Central ERIC) |

The group felt that the following issues and tasks could appropriately be considered a formal committee:

- (1) provision of information support by the ERIC system in order to meet the changes in education in the 1980s;
- (2) articulation of the ERIC structure and services with the general education service and information delivery system;
- (3) alternative sources and means of funding Clearinghouse operations and activities in response to reduced funding;
- (4) political realities in which the clearinghouses and the system function;
- (5) proposed changes in Federal dissemination policies;
- (6) examination of the current structure and configuration of the system in the context of one to five of the above;
- (7) promotion of the use of the system and greater exposure of ERIC services and products; and
- (8) refinement of existing technology to improve or make ERIC operations more cost effective, and adoption of new technology to advance the system.

On November 24, 1981, a working group of directors met to devise a plan for gathering information relating to these questions. This group is called "A Committee on the Future of ERIC." Members include:

- Don Erickson (EC)
- Erwin Flaxman (UD)
- Bob Howe (SE)
- Julie Miller (CE)
- Joost Yff (SP)

In order to formulate questions for consideration, this group is currently examining some of the Federal dissemination policies, various studies of the ERIC system, the Walz future study, directors' ideas for the future of education, and outreach activities developed for the small group sessions at the last directors meeting. The Committee plans to meet again in early February 1982. The members will be writing or speaking to individual directors soon afterward.

...Erwin Flaxman (UD)

REMINDER FROM IR—INFORMATION CONCERNING COMPUTERS IS IN IR'S SCOPE

The increasing volume of documents and journal articles concerned with the computer in general and microcomputers specifically offers an opportunity to remind all clearinghouses that information regarding computers is within the scope of the ERIC Clearinghouse on Information Resources. IR is following the same guideline for computers as for other audiovisual media when selecting items for input; if the document or journal article deals primarily with the computer as a tool, instrument, or medium in teaching, learning, management, and information retrieval, it is within the scope of IR. This includes the design and use of computer software which emphasizes the instrumentation itself. When the primary focus is on substantive knowledge and concepts within a field or discipline, the clearinghouse which normally handles information in that field or discipline would process the document or journal article.

...Donald P. Ely (IR)

GPO INCREASES RIE PRICES

Clearinghouses have been notified of an RIE price increase that will become effective on January 15, 1982. (There has not been a price increase since January 1975.) The scheduled price increases are as follows:

	<u>DOMESTIC</u>	<u>FOREIGN</u>
Annual Subscription (12 issues)	\$70.00	\$87.50
Single Issue of RIE	7.00	8.75
Semiannual Index*	21.00*	26.25*
Single Issue of Semiannual Index	12.00	15.00

*2 per year (January-June; July-December)

...Mildred Thorne (Central ERIC)

REVIEW OF ERIC ABSTRACT PROJECT

As clearinghouse personnel are aware, the ERIC Clearinghouse for Junior Colleges is undertaking a special project dealing with document abstracting. The project is designed to allow clearinghouses to receive feedback from other members of the ERIC system concerning abstract elements and quality. The project will focus needed attention on abstracting practices and guidelines and should result in more consistent abstracts being prepared across the system.

The primary goal of this activity is to improve abstract quality and consistency and to provide a training opportunity for clearinghouse staff. It is expected that all clearinghouses will be fully involved. The project is not designed to rate or rank the clearinghouses. I have asked that, barring serious or unresolved problems, the report to Central ERIC not specifically identify clearinghouses.

...Bob Chesley (Central ERIC)

SDC RELOAD OF ERIC DATABASE

SDC has informed us that when they last reloaded the ERIC database a substantial number of accessions (some 50,000) on the tapes sent to them were inadvertently overlooked. This came to their attention via users who noticed decreased numbers of hits on old searches being re-run.

SDC plans to reload the missing data in approximately 2 weeks (i.e., early December). The reloaded data will be out of sequence on their files, however, and will result in regular search output not being in strict accession number sequence, unless the user specifically requests a sort by accession number.

...Ted Brandhorst (ERIC Facility)

EPA INSTRUCTIONAL RESOURCES CENTER TO CONTINUE AT OHIO STATE UNIVERSITY

The SMEAC Information Reference Center which operates the ERIC Clearinghouse for Science, Mathematics, and Environmental Education was recently awarded a grant to continue education and training information services related to water quality for the Environmental Protection Agency.

The name of the EPA Information Dissemination Project at Ohio State University has been changed to the EPA Instructional Resources Center to reflect changes in activities. The center will continue acquiring instructional materials, abstracting and indexing items, developing a database, and providing a variety of user services and products. In addition, EPA has moved its audio/visual aids library to Columbus. The EPA IRC will provide a loan service, on a cost recovery basis for several hundred films, video-cassettes, and tape/slide packages.

The grant provides funds to continue the EPA IRC at Ohio State University for approximately another 30 months.

...Robert W. Howe (SE)

ADVISORY BOARD NEWS

During the present contract year, the ERIC Clearinghouse on Elementary and Early Childhood Education is publishing a twice-yearly newsletter, Advisory Board Alert. The Alert lists new publications, resource lists, fact sheets and Ready Searches and summarizes recent clearinghouse activities in a simple two-page format. The Advisory Board Alert has been well received by our national board membership.

As a way of reducing costs, Advisory Board meetings will be held in conjunction with professional association conferences. Board members met for lunch with the ERIC/EECE staff attending the annual convention of the National Association for the Education of Young Children held in Detroit, November 5-8, 1981. Most advisors liked the informal structure of the two-hour meeting and offered to meet at conferences at other times throughout the year.

...Dianne Rothenberg (PS)

A HELPFUL HINT FOR THE CATALOGER

Whenever we have received only one copy of an RIE document, we copy the title page and all other pages that have information used in cataloging. This procedure enables us to refer back to the "why and wherefore" of the cataloging should questions arise from the Facility or from a review of the monthly LIDS.

...Carol S. Mills (CG)

RECENT PUBLICATIONS FROM ERIC/SMEAC AND THE SMEAC INFORMATION REFERENCE CENTER

A publication list that included many recent publications available from ERIC/SMEAC and the SMEAC Information Reference Center was sent to all clearinghouses last spring. (The publication list was dated March 1981.) A Supplemental list will be sent to people on our mailing lists including clearinghouses, in December 1981. If clearinghouses desire single copies of any publications on those lists, contact Dr. Robert W. Howe or Dr. Patricia E. Blosser.

...Robert W. Howe (SE)

1982 SCHEDULE FOR RIE (REVISION)

A "shorthand" version of the 1982 RIE schedule was included in the November issue of the EAB. It was prepared and distributed before the formal "Master Schedule" was completed and does not reflect true shipment and delivery dates. A revised version of this schedule is displayed as Attachment 2.

...Janet Bailey (ERIC Facility)

DR. HUSSEIN MAHMOUD RETURNING TO EGYPT

Dr. Hussein Mahmoud recently completed his doctoral studies in science education while working as an information analyst at ERIC/SMEAC. He has also been working on technical publications with both ERIC/SMEAC and the EPA IRC. He and his family will be returning to Egypt in December. Hussein will be working in the National Center for Educational Research in Cairo when he returns.

...Robert W. Howe (SE)

HISTORY OF ERIC IN PRESS

The story of how ERIC developed into the largest information database in education that it is today will be preserved in print for posterity through the soon-to-be-released publication, ERIC: The First Fifteen Years (1964-1979). The history represents a significant writing effort by an author who is thoroughly familiar with the system—Del Trester. Dr. Trester was ably assisted in this undertaking by many of you who are still working in the system.

The publication is in press (through arrangements with SE), and copies are expected in early January. It will contain over 350 pages, and each clearinghouse will receive two copies. Copies will also be on sale from: ERIC/SMEAC Information Reference Center, The Ohio State University, 1200 Chambers Road, Columbus, Ohio 43212 (price to be announced).

...Mildred Thorne (Central ERIC)

NEW PUBLICATIONS

NEW PUBLICATIONS—SO

Hot off the press from the ERIC Clearinghouse on Social Studies/Social Science Education is Global Issues in the Intermediate Classroom, Grades 5-8 (SO 013 647), by Jacquelyn Johnson and John Benegar, a handbook of lessons for promoting global perspectives and learning in the middle-school classroom. The Social Science Education Consortium and Global Perspectives in Education are copublishers (ISBN 0-89994-265-2; \$8.95).

...Ann M. Williams (SO)

NEW PUBLICATIONS—UD

The ERIC Clearinghouse on Urban Education announces the recent publication of two monographs in The Urban Diversity Series.

- Special Education and the Hispanic Child, edited by Herminio Martinez.

Collected here are the written versions of five conference papers delivered at the Second Annual Colloquium on Hispanic Issues held in February of 1981 at Teachers College, Columbia University. The theme of the conference recognized the plight of this nation's fastest growing ethnolinguistic minority—the handicapped child in need of bilingual special education. Addressed in this collection are legal issues, assessment techniques, state-of-the-art evaluations, teacher-training strategies, and the attitudes of parents toward their handicapped children (UDS #74; 72p.)

- The United States' New Refugees, by Carol Ascher.

Dr. Ascher, Research Associate at the Clearinghouse, offers administrators and policy makers in education and other human services an overview of the research on resettlement for this country's newest ethnic minority immigrants: Indochinese, Cubans, and Haitians. The major issues related to the successful resettlement of the new refugees which are covered in this paper include education for cultural pluralism, federal policy concerning these groups, and their employment, sociocultural and emotional adjustment needs. The experience of immigration and life in the refugees camps, cultural background, and culture shock are explored as factors which affect the acculturation process. This paper is a resource tool for those who are treating the problems of the new refugees and grappling with possible solutions. (UDS #75, 40p.)

PERSONNEL NEWS

PAT NAPPER LEAVES ERIC/ACVE

Pat Napper, User Services Secretary at ERIC/ACVE for the past three and a half years, recently left the Clearinghouse. She is now working in the Records and Admissions Office at The Ohio State University. Our best wishes go with her.

...Judy Wagner (CE)

GOODBYE, LIBBY

Libby Benjamin is retiring from our Clearinghouse at the end of this contract year and will move to Florida with her husband for the winter, returning to northern climes in the late spring to enjoy the truly lovely Michigan summer weather in their lakeside cottage. Libby has been the Associate Director of

ERIC/CAPS for eight years. Her major responsibilities were the coordination of the user services program and the production of IAPs.

...Garry Walz (CG)

JULIE STITT JOINS PS

Julie Stitt has joined the staff of the ERIC Clearinghouse on Elementary and Early Childhood Education as Clerk-Typist (Processing). Julie has a degree in elementary education from Northern Illinois University, as well as good clerical skills, and is a welcome addition to our staff.

...Norma Howard (PS)

PATRICIA E. BLOSSER ELECTED CHAIRPERSON OF COLLEGE OF EDUCATION SENATE AT THE OHIO STATE UNIVERSITY

Dr. Patricia E. Blosser, Associate Director of ERIC/SMEAC and Professor of Science Education, was elected to serve as Chairperson of the College of Education Senate at The Ohio State University. The College Senate consists of representatives from all the faculties in the College; it is the faculty group that establishes policies for the operation of the College.

MEETINGS, CONFERENCES, WORKSHOPS

CE ADULT EDUCATION ADVISORY SUB-GROUPS MEETS

The Adult Education Sub-group of the ERIC/ACVE Advisory Committee met recently during the National Adult Education Conference held in Anaheim, California. Members of the Adult Education Sub-group are:

- Don Dutton, Professor of Adult Education, University of Arkansas, and Member, National Adult Education Advisory Committee, and former president of the Adult Education Association of the USA (AEA-USA)
- Carol Kasworm, Assistant Professor of Adult Education, University of Texas at Austin, and Chairperson, Publications Committee, AEA-USA
- Violet Malone, associate Professor, Cooperative Extension Service, University of Illinois, and Immediate Past-president, AEA-USA
- Fran Spinelli, Director, National Adult Education Clearinghouse, Montclair State College

THANK YOU FROM IR FOR CONFERENCE ASSISTANCE

I would like to thank all of those who helped to staff the ERIC/IR booth at the American Society for Information Science Conference in Washington, D.C., and also those who offered to help who were not needed (I'll contact you first next time!). It was good to see so many ERIC faces at the conference and on the program.

...Marilyn Laubacher (IR)

MINI-BIBLIOGRAPHIES FOR CONFERENCE SESSIONS

This year I tried approaching leaders of workshops or continuing education sessions (scheduled to occur at conferences) prior to the conference to see if they would be interested in handing out one of our "Information Resources on..." mini-bibliographies on the topic to be covered at the meeting. Before making the initial contact, I obtained a copy of the program to get the session title and contact person's name and address, did a brief-search to make sure that ERIC contained current and appropriate resources on the topic, and sent sample copies of the title I found and one of our other mini-bibliographies along with the inquiry. A copy of the letter I used is displayed as Attachment 3. We have provided 13 mini-bibs to groups this year and the service seems to have been appreciated, as well as providing good exposure for ERIC materials. I also sent copies of our Clearinghouse brochure and/or "A Pocket Guide" to be handed out with the bibs.

...Marilyn Laubacher (IR)

PS ATTENDS THE NATIONAL ASSOCIATION FOR THE EDUCATION OF YOUNG CHILDREN CONFERENCE

Five staff members from the ERIC Clearinghouse on Elementary and Early Childhood Education attended the annual conference of the National Association for the Education of Young Children (NAEYC) in Detroit, Michigan on November 5-8, 1981. There was much interest in information on industry-sponsored day care, which has surfaced throughout this past year as a "hot topics." This conference attracted approximately 11,000 educators.

...Norma Howard (PS)

CRESS CONFERENCES

Elaine Roanhorse Benally gave an ERIC presentation at the National Outdoor Education Council Conference sponsored by AAHPED in Alisomar, California on November 15-19, 1981.

Elaine Roanhorse Benally and Maruella Quezada-Aragon had a booth at the New Mexico Women's Studies Conference, Las Cruces, New Mexico, November 7, 1981.

Everett Edington presented a paper at the Kansas Rural Education Conference, Manhattan, Kansas, November 16-17, 1981.

Everett Edington gave a presentation at a "Small Schools Boards Meeting," Elida, New Mexico, November 4, 1981.

...Amelita Hill (RC)

Dr. Susan Imel, Assistant Director and Adult Education Specialist at ERIC/ACVE, met with the group and discussed their role as advisory committee members. Members of the group made suggestions about emerging trends in the field of adult education and began identifying possible topics for clearinghouse user service products and publications.

...Susan Imel (CE)

ERIC PRESENTATION AT D&U CONFERENCE

Judy Wagner made two presentations on the ERIC system at the 4th Annual Dissemination and Utilization Conference held at the National Center for Research in Vocational Education in mid-November. The Conference was attended by about 85 people from 39 states working in all aspects of vocational education.

...Judy Wagner (CE)

WORKSHOPS/CONFERENCES ATTENDED BY CS

Anne Auten, new Coordinator of User Services at the ERIC Clearinghouse on Reading and Communication Skills presented an ERIC workshop for the Hammond Area Reading Council in Indiana on November 19, 1981. The majority of the 40 reading researchers attending the workshop were not familiar with ERIC, and were equally interested in manual and computer searching.

Anne also attended a day-and-a-half DIALOG Systems Seminar in Chicago, November 23 and 24. RCS searches DIALOG primarily, and Anne learned several time-saving (and consequently cost-saving!) techniques now available from the Lockheed subsidiary. Four files are currently available for training novice searchers: three ONTAP files (ERIC, Chemical Abstracts, and CHEMNAME) and DIALINDEX. Seminar participants received passwords for free online training time.

Bernie O'Donnell, Jame McClellan, Karl Koenke, and Holly O'Donnell attended the NCTE Annual Convention in Boston, Massachusetts, November 19-25. In addition to staffing the ERIC display, Jane organized and chaired an ERIC co-sponsored session on teaching English as a second language; Karl participated in the meeting of NCTE's Commission on Reading as an ERIC representative; and Holly conducted an ERIC sponsored workshop on minicomputers in the language arts classroom. Materials distributed at Holly's workshop are available from RCS for \$12.50 for each packet, which includes a search printout on computers in the English classroom. A very special thanks to Sally Standiford and Kathy Haycox for their assistance. Thanks also to Mary Niebuhr of FL who answered some ERIC questions at the RCS display while straying from the booth of the Center for Applied Linguistics.

A successful RCS Advisory Board meeting was also convened during the NCTE Convention.

Penny Demo and Don Boileau, from the Speech Communication Module, attended the SCA Convention in Anaheim, California, November 13 and 14. Don conducted and contributed to a session on getting materials accepted in the ERIC system. Penny organized a walk-in "ERIC Resource Room," featuring computer search demonstrations conducted by Jim Palmer from ERIC/JC.

...Hilary Taylor Holbrook (CS)

NEA PARTICIPANTS WIN FREE CRESS SEARCHES

The ERIC Clearinghouse on Rural Education and Small Schools had a booth at the New Mexico NEA Conference, Las Cruces, New Mexico, October 22, 1981. There were 96 educators who signed up for our free computer searches.

The out-of-town winner was Margaret Fernandez, Cultural Awareness Bilingual Assessment Center (CABAC), University of New Mexico, Albuquerque, New Mexico. The local winner of a computer search was Leo Cervantes, a student at New Mexico State University.

...Amelita Hill (RC)

SO AND SMERC PARTICIPATE IN ONLINE CONFERENCE

Jim Davis, Associate Director of the ERIC Clearinghouse for Social Studies/Social Science Education, participated with Kathy Clay and Susan Long of SMERC in an Education and Training Track of the national ONLINE conference, held in Dallas, Texas, on November 3. Davis talked about knowledge utilization and educational change; Clay and Long discussed the training of linking agents.

...James E. Davis (SO)

SO ATTENDS NATIONAL COUNCIL FOR THE SOCIAL STUDIES CONFERENCE

Irving Morrisett, Jim Davis, and Sheryl Robinson attended the National Council for the Social Studies (NCSS) conference in Detroit, Michigan, November 21-24, 1981. There were approximately 2,500 people in attendance. Jim and Sheryl held a session on knowledge acquisition and utilization. In addition, a number of acquisition contacts were made.

...Jim Davis (SO)

STAFF FROM ERIC/CUE ATTEND ANNUAL CONFERENCE OF THE NATIONAL ALLIANCE OF BLACK SCHOOL EDUCATORS

Michael Webb, Assistant Director, and Darryl Alladice, Processing Coordinator for ERIC/CUE, attended the Ninth Annual Conference of the National Alliance of Black School Educators held at the Hyatt Regency Hotel Convention Center in Baltimore, Maryland on November 18-22, 1981. New contacts were made with over fifty educators, and contacts were reestablished with many others, particularly Dr. Chris Moody of the Ann Arbor Public Schools (Michigan), Dr. Ogle Duff of the Race Desegregation Assistance Center at the University of Pittsburg, and Dr. Albert G. Oliver, Director of the New York City Board of Education.

Interest was expressed in most of the ERIC/CUE's fact sheets, especially Burnout in Schools and Other Human Service Institutions, Reforming the Large Urban High School, and Instructionally Effective Schools, and (in the most recent newsletter) "Special Report on the Urban Schools Project." Some of the topics of the seminars conducted at the conference included district administration, local school administration, higher education, and instruction and instructional support. Deputy Secretary of the Department of Education, Dr. Vincent Reed, gave the keynote address.

...Darryl Alladice (UD)

CONFERENCE ON THE ERIC THESAURUS HELD BY UD

On November 6, 1981, the ERIC Clearinghouse on Urban Education held a librarian's conference on the use of the ERIC Thesaurus. In attendance were members of the Clearinghouse staff and local librarians who wished to gain expertise in the use of the Thesaurus so that they could more easily assist researchers in both manual and computer searches of the database. Sample project titles submitted by one librarian were used to explore possible research strategies.

...Maryellen LoBosco (UD)

VISITORS HOSTED BY ERIC

EDUCATORS FROM THE NETHERLANDS VISIT SO

Four educators from the Foundation for Curriculum Development in the Netherlands visited the ERIC Clearinghouse for Social Studies/Social Science Education on October 12 and 13, 1981. Frans Tielens, Han Plas, Jan Mistrade, and Jan Greven were on an educational tour of the United States. Their special interest was elementary social studies education.

During their Boulder, Colorado visit, they learned about the ERIC system, talked with staff about the Consortium's Social Studies/Social Science Education: Priorities, Practices, and Needs (SPAN) Project, and visited some elementary schools.

...Regina McCormick (SO)

ERIC PRESENTATION IN SPANISH

On November 9, 1981, 25 educational administrators from technical institutes in Mexico visited the ERIC Clearinghouse on Rural Education and Small Schools. Manuela Quezada-Aragon gave an ERIC orientation in Spanish. Following the orientation, Amelita Hill provided an online computer searching demonstration. Guests were also shown how to pull their own microfiche and how to work the reader-printer.

...Amelita Hill (RC)

BOARD OF REGENTS VISIT RC

The New Mexico State University Board of Regents and 27 other dignitaries visited the ERIC Clearinghouse on Rural Education and Small Schools during the Regent's annual meeting on November 20, 1981. Everett Edington welcomed the guests and presented a report on the status of the Clearinghouse. Betty Rose Rios provided an orientation session on ERIC in general and CRESS in particular. Amelita Hill conducted an online computer searching demonstration using topics generated by the guests to emphasize the utility of ERIC.

...Amelita Hill (RC)

BRITISH EDUCATIONAL RESEARCHER VISITS ERIC/CUE

On November 18, 1981, Erwin Flaxman, Director of the ERIC Clearinghouse on Urban Education, met with a visitor from Slough, England, David Streatfield, of the National Federation for Educational Research. The meeting focused on an information dissemination project in England and Wales, and Dr. Flaxman spoke about his perceptions of the British educational system.

1220	LANGUAGES (Hierarchy) Delete all language names with 20 or fewer postings (i.e., uncommonly taught languages)* and transfer them to the Identifier field. Under the FL plan, these language names and the many similar names that have always been identifiers will be handled consistently, i.e., specific names coordinated with family names -- family names majored when specific names are majored. Each language name in the Identifier Authority List will be scoped with indexing (CONT'D UNDER "REVIEWER'S REMARKS" COLUMN) *The plan does not include any American Indian language names, which are in the province of the RC Clearinghouse.		X		FL	10/81					notes like the one below: BIELORUSSIAN SN: Coordinate with the Descriptor "Slavic Languages" -- Major/minor designators should be the same for both terms UF: Belorussian; Byelorussian A corresponding note will also be included in the Thesaurus under the language family name that indicates that the family name Descriptor should be coordinated with any specific language name in that family that is not also a Thesaurus Descriptor. There are 86 language names to be transferred under this plan. They are listed on page 29 of this report.

Dear

As part of our User Services program at the ERIC Clearinghouse on Information Resources we have provided free mini-bibliographies for conference sessions within our scope areas of library and information science and educational media and technology. We feel that this serves as an awareness and outreach service for the ERIC system, as well as providing participants with a chance to pursue conference topics in which they are interested.

Your continuing education workshop topic for the _____ meeting in _____, is represented by resources in the ERIC database. Sample titles found in an ERIC search are listed below:

I am enclosing a mini-bibliography done this year for the _____ conference. If you are interested in receiving one for your workshop, please contact me to let me know how many copies you will need and where to send them.

Please contact me if you have further questions. I hope you will take advantage of our offer to provide this service, or let me know if I can assist you in some other way.

Sincerely,

Marilyn R. Laubacher
User Services Librarian

RIE SCHEDULE (1982) (REVISED)

ACTION ITEMS

VOCABULARY STATUS REPORT

The January 1982 Vocabulary Status Report (Attachment 1) includes all Thesaurus recommendations received by the Facility lexicographic staff over the last 30 days (through January 8). Members of the Vocabulary Review Group are asked to vote "aye" or "nay" on this month's 15 recommendations and to return two copies of all responses to the Facility by February 17, 1982.

All recommendations this month are for new Descriptors. Most have significant Identifier postings and are recommended in response to the action item on Identifier "graduation" in the October 1981 EAB. We are looking forward to additional clearinghouse responses to that appeal.

Voting results of the December 1981 report and final dispositions of the recommendations therein are expected to be ready for announcement in next month's report.

...Jim Houston (ERIC Facility)

TRANSFER OF DOCUMENTS

Occasionally conference information does not appear on papers received for processing. In these cases, conference papers transferred from clearinghouse to clearinghouse should include on the Transfer Form (or attached note) complete information on the conference. Also, to avoid confusion, do not use acronyms when giving this information. Cooperation between clearinghouses in the exchange of information is vital in the preparation of accurate resumes.

...Grace Sundstrom (ERIC Facility)

REQUEST FROM CS TO FORWARD SPEECH-RELATED DOCUMENTS DIRECTLY TO SPEECH MODULE

The ERIC Clearinghouse on Reading and Communication skills has asked that when clearinghouses or the Facility have documents clearly within the Speech Module's scope of interest that they forward them directly to Penny Demo at the Speech Communications Association rather than to CS at Urbana. The previous practice was to forward everything to CS and to let them decide what was to be re-routed to the Speech Module.

...Grace Sundstrom (ERIC Facility)

CLEARINGHOUSE PROCESSING OF SMERC JOURNALS

Clearinghouses should expect to receive a letter from Oryx Press listing all titles of journals previously covered by SMERC and identifying the first issue each clearinghouse will be expected to process. Please try to maintain continuity in handling these journals.

...Jim Prevel (Central ERIC)

NETWORK NEWS

CIJE ON MICROFICHE

The January 1982 issue of CIJE is the first example of ERIC's new arrangement with the Joint Committee on Printing to supply the GPO depository libraries with CIJE products. ERIC will be providing GPO with microfiche masters of CIJE monthly, CIJE semiannual indexes, RIE semiannual indexes and the Thesaurus of ERIC Descriptors. This will be a continuing program permitting GPO to give free microfiche copies to depository libraries of publications they previously had to pay for.

...Jim Prevel (Central ERIC)

SDC RELOAD PROBLEM

A second problem has surfaced with the recent SDC reload of the ERIC file. The ERIC Clearinghouse for Junior Colleges was the first to notice that the accessions ED-182 414 through 187 825 (5,412 records) and ED 200 707 through 201 718 (1,012 records) were on the SDC resume file in two duplicative sequences. Hence, whenever they were "hits" they were printed out twice.

SDC plans to remedy the situation by the end of January. Meanwhile they are giving credit to those who are mischarged due to duplicate output.

...Ted Brandhorst (ERIC Facility)

"PHANTOM" RECORDS ON DIALOG'S ERIC FILE

Several users have called our attention to the record for ED 162 407, which seems to have lost its ED number during the recent DIALOG reload of the ERIC file and seems to emerge in searches willy-nilly without rhyme or reason.

An inquiry to DIALOG revealed that during the recent reload, record ED 131 586 was "lost" and then incorrectly re-assigned to the range ED 162 400 - 162 407. They have asked us for replacement records for all nine records involved. As soon as these records are received they plan to delete the faulty records and re-load the correct records, which should rectify the situation.

If any of your search output has been bothered by these "phantom" records, please be patient. They are about to be laid to rest.

Ted Brandhorst (ERIC Facility)

HANDOUT LITERATURE RATIONED DUE TO PRINTING FREEZE

The NIE printing freeze is putting a severe strain on the Facility's ability to respond to clearinghouse requests for brochures, directories, and other handout literature. Since it is not known how long the freeze will last, we have to assume that we must make the existing stock last for at least several months.

In addition to supplying the clearinghouses, the Facility must supply its own letter-answering activity. For these reasons, the clearinghouses will find that requests for large quantities of handout literature are being cut to very modest numbers, e.g., request for 1,000 copies cut to 100. Some of the items that are being rationed in this way are:

- Pocket Guide to ERIC;
- Submitting Documents to ERIC;
- How to Start an ERIC Collection;
- Directory of ERIC Microfiche Collections;
- Directory of ERIC Search Services.

Forms and labels are not affected by the freeze as they are printed directly by the Facility.

...Ted Brandhorst (ERIC Facility)

DEPARTMENT OF EDUCATION—ORGANIZATIONAL STRUCTURE

The other day, in connection with setting up some names for the Source Directory, we had occasion to examine and summarize the organizational structure of the Department of Education (ED). The resultant table seemed nicely compact and is duplicated here as Attachment 2 for whatever use you may make of it.

...Liz Pugh (ERIC Facility)

ERIC/ACVE PREPARES UPDATES

The ERIC Clearinghouse on Adult, Career, and Vocational Education has prepared ten packaged searches, UPDATES, which are available from National Center Publications at \$3.80 each. The titles are:

- Employer-Sponsored Training;
- Adults in Career Transition;
- Employment Policy for Older Workers;
- Postsecondary Career Education;
- Educational Technology in Adult, Career, and Vocational Education;
- Program Evaluation in Adult, Career, and Vocational Education;
- Bilingual Curriculum Materials for Vocational and Adult Education;
- Vocational Education for the Handicapped;
- Adult Learning Disabilities;
- Entrepreneurship.

...Judy Wagner (CE)

NASSP PUBLICIZES ERIC JOURNAL INDEXING

Last September, at the ERIC Clearinghouse on Educational Management's National Advisory Board meeting, Director Philip K. Piele gave each board member a chart showing the total number of articles indexed in CIJE from journals of the major professional organizations.

The National Association of Secondary School Principals, whose NASSP Bulletin ranked first in the number of articles indexed, decided to inform its members about their association's preeminence. In the November 1982 issue of NASSP News Leader, mailed to 35,000 members, the association reprinted the chart over a caption that said, "The NASSP Bulletin led the list of 45 journals indexed by the ERIC Clearinghouse on Educational Management from January 1970 to August 1981 for inclusion in Current Index to Journals in Education."

Now if we can just find a category about which each of the other professional organizations represented on our advisory board can boast to its members!

...Stuart Smith (EA)

CHRISTMAS GIFT IDEA: GIVE AN EDRS PAPER COPY OF YOUR DOCUMENT TO YOUR SIGNIFICANT OTHER

Which is exactly what one of our authors decided to do for Christmas 1981! She called on December 8 to ask whether EDRS could blowback her document in time for her to wrap it and take it with her when she visits her family for Christmas. She still had my letter with the abstract I had sent her in 1975. Perhaps for next Christmas we should all make rubber stamps and stamp each outgoing microfiche card sleeve with the above headline in green ink.

...Marion Cambel (EC)

ERIC/HE DIRECTOR WELCOMES BURMESE EDUCATORS

Dr. Jonathan Fife met on January 5, 1982 with five scholars from Burma who are presently at the University of Illinois under the Fulbright Program. The visit was arranged by the Council for International Exchange of Scholars because of the visitors interest in the U.S. national educational policy, curriculum development, accreditation and teacher education.

...Laura Ciarniello (HE)

MILITARY BUYS HE IAP IN BULK

Stars and Stripes, the armed forces newspaper, has ordered 45 copies of a recent HE IAP, Adult Development: Implications for Higher Education, by Rita Preszler Weathersby and Judith Mattuck Tarule.

...Lynn Barnett (HE)

HE SELLS CRIB SHEETS

CRIB Sheets are HE's version of pre-packaged annotated bibliographies on popular topics in higher education. These Critical Issues Bibliographies are promoted through displays at conferences and special mailings. The Clearinghouse sells the CRIB Sheets for \$7.50 each. A photocopy of the promo advertising the searches is displayed as Attachment 3.

...Marilyn Shorr (HE)

SHARING EXPERTISE

Dr. Jonathan Fife met with David Streatfield who is the project head for the Education Management Information Exchange (England). The aim of the EMIE project is "to launch and develop a system for computerized search, retrieval and exchange of 'quality controlled' management information on educational policy and practice." Mr. Streatfield described his discussion with Dr. Fife on management information systems as "very useful and it provided a first class preparation for later encounters with the ERIC system."

...Laura Ciarniello (HE)

BLANKET RELEASE REPORT FROM HE

Carla Kreppein recently contacted institutions and authors for blanket releases. The response was very impressive. HE now has 107 institutional blanket releases and 81 author blanket releases. Although very satisfied with the responses, Carla's acquisitions projects continue!

...Laura Ciarniello (HE)

FREL SUBSCRIPTIONS TO JOURNALS

In an effort to secure free subscriptions to journals it indexes for CIJE, the ERIC Clearinghouse on Information Resources has tried the following with some success and recommends:

1. Conduct a contest between the Director and Associate Director to see which can talk the greatest number of freebies out of their friends and acquaintances who are editors. Since the staff will help the victor celebrate, make sure the prize is of a year and vintage acceptable to the staff. (See Attachment 4 for successful letter.)
2. Trade free copies of IAPs for a free subscription to the journal.

To date, of 25 editors contacted, 11 responded "Yes," two said "No," and we are awaiting responses from the rest.

...W. Bruce Clark (IK)

ERIC BASICS

The color fiche/sound package, "ERIC Basics" produced in 1979 by IR as an introduction to using the ERIC Indexes and Thesaurus, was recently reviewed favorably by College and Research Libraries. Given the renewed interest in this package by the library community, we would like to remind other ERIC clearinghouses of its existence. Following is the "official" description of the product.

ERIC BASICS

Intended for new users of ERIC who ask general questions about what ERIC is and how to use it. Provides information about types of materials included in RIE and CIJE, the Thesaurus of ERIC Descriptors, how to find information, and how to obtain copies of relevant titles.

53 frame color microfiche, 12 minute audiocassette, 1979. \$10.00.

Available from Information Resources Publications, 130 Huntington Hall,
Syracuse University, Syracuse, New York 13210.

...W. Bruce Clark (IR)

INSTRUCTIONAL DESIGN/DEVELOPMENT

In these post-VIP days, the Thesaurus contains two terms, "Instructional Design" and "Instructional Development" where the old Thesaurus contained only "Instructional Design." I've been concerned in some recent searches to find the two terms being interchanged, and would like to take this opportunity to clarify their meaning in the interest of confusing everybody.

The general rule is, "For 'Instructional Development,' think comprehensive; for 'Instructional Design,' think focused."

"Instructional Development" describes the systematic process which examines the nature of a body of knowledge that must be taught, analyzes the organization and context in which it must be taught, selects and/or develops materials and methods to teach it, and engages in a cycle of evaluation and revision until satisfactory results are achieved. Also included are the management functions which support this process. Some of the jargon used to describe components of the instructional development process includes: Front End Analysis, Needs Assessment, Audience Analysis, Constraint Analysis, Instructional Design, Formative and Summative Evaluation, Product Validation.

"Instructional Design" focuses upon the organization of the content for the actual process of instruction, including the prescription of optimal instructional methods and such student aids as "advance organizers," "inserted questions," and "mnemonics." This applies both at the "macro" level—whole courses like teaching how to index and abstract for ERIC, and at the "micro" level—small bits of instruction like how to assign Pubtype Codes. Among the jargon of instructional design are: Task Analysis, Learning Prerequisites, Hierarchical Analysis. Instructional Design is often a component of Instructional Development.

A major problem for indexers is that some writers use "design" when the process they are describing is really "development." I would suggest that we let that be their problem, that we continue to index according to our scope notes, and may the Lord have mercy on our souls.

..W. Bruce Clark (IR)

ABSTRACT EVALUATION PROJECT UNDERWAY

I want to pass on a suggestion from Helen Marmarchev at CG. She suggests either making a copy of the single frame resume on your reader printer or making a photocopy of the abstract from RIE. She finds it much easier to complete the evaluations when she can refer back to this copy as she looks at the document. Thanks, Helen. I also want to thank the rest of you for your cooperation with this project.

...Anita Colby (JC)

INHOUSE INFORMATION SERVICE AT PS

One function of the ERIC User Services department is to keep the staff informed of new developments in early childhood and elementary education. Last spring PS developed a biweekly inhouse newsletter, the Bluesheet NewsAlert, for this purpose. The NewsAlert presents highlights from incoming newsletters, journals, legislative reports, new books, etc., along with special information about user service requests that have been received or noteworthy information about early childhood educators and practitioners. The news summaries are prepared from notes made by the User Services Associate while scanning newsletters and publications received by the Clearinghouse. The highlighted publications are kept on a rack in the PS library for use by staff and visitors.

...Norma Howard (PS)

PS SUPPLIES INFORMATION TO NEWSPAPERS

The New York Times and Newsday (a Long Island newspaper) called the ERIC Clearinghouse on Elementary and Early Childhood Education in November to request information on specific topics they were researching for news articles. The Times wanted information on how effective magnet schools have been in bringing about voluntary desegregation. Newsday needed materials on children's toys. Staff at the newspapers said they had used ERIC before and were pleased with the content of the database and our Clearinghouse response. It's good to know ERIC is appreciated.

...Norma Howard (PS)

TEACHER CORPS AND AGENDAS FOR TEACHER EDUCATION

Because Teacher Corps will soon be phased out, interest has arisen concerning what has been learned over the past 15 years of the program's existence. The American Association of Colleges for Teacher Education, Teacher Corps, and the ERIC Clearinghouse on Teacher Education are collaborating on a project that will help clarify this issue and bring it to the forefront of educational policy-making.

The project will involve eight major associations:

- American Association of Colleges for Teacher Education;
- American Educational Research Association;
- American Federation of Teachers;
- Association of Teacher Educators;
- Council of Chief State School Officers;
- National Association of State Boards of Education;
- National Education Association; and
- National School Boards Association

in a series of four meetings that will explore the significance of Teacher Corps experiences for the future of teacher education. The result will be an agenda for teacher education, with inputs from all of the various organizations. The project should be complete by mid-summer of 1982, when the Clearinghouse and AACTE will co-publish a monograph that will document this agenda as well as the research and policy inputs that support it.

DECIDING TO INDEX A JOURNAL FOR CIJE

The November issue of American Psychology (v36 n11) contains a brief article which may assist you in deciding which journals to continue indexing for CIJE. Buffardi and Nichols studied the citation impact of 99 psychologically-oriented journals. Citation impact is the average citation rate of a journal's articles, i.e. a ratio of the number of times a journal has been cited divided by the number of items it has published. Citation impact was measured using the 1977 and 1978 editions of the Social Sciences Citation Index.

By the way, Psychological Review had the highest citation impact.

...Barbara Wildemuth (TM)

FREQUENTLY CITED EDUCATION JOURNALS

The Winter 1982 issue of the American Educational Research Journal (v18 n4 pp399-413) contains a study by John Smart and Charles Elton of the citation rates of educational journals. Citation rate was defined as the total number of times each journal was cited by the 1,312 journals in the Social Sciences Citation Index. Citation rate was found to be affected by the number of articles in the journal, the self-cited rate, the reference ratio (average number of references per research article in each journal), and an immediary index (percent of citations received by a journal that were to research articles in that journal from the previous year).

Approximately 75 percent of all citations were to articles published in 30 education journals. The top five journals were:

- Child Development;
- Developmental Psychology;
- Journal of Educational Psychology;
- Journal of Applied Behavioral Analysis; and
- Journal of Counseling Psychology.

Since the size of the journal was such a significant factor in these rankings, a separate listing was compiled based on citations per article. The top five journals on this list were:

- Review of Educational Research;
- Harvard Educational Review;
- Monograph of the Society for Research in Child Development;
- Educational Research; and
- Journal of Applied Behavioral Analysis.

The rest of the list is potentially useful in determining which journals should be retained for CIJE.

...Barbara Wildemuth (TM)

NEW PUBLICATIONS

NEW PUBLICATIONS--JC

In response to a call by humanities instructors in community colleges who are trying to put together groups of community members as an advisory group, similar to the types of groups available to vocational educators, the ERIC Clearinghouse for Junior Colleges has published a handbook called Advisory Committees to the Humanities in our topical paper series. The monograph tries to help practitioners develop an advisory group by including useful, practical information on possible committee activities, conducting effective meetings, and evaluating meetings.

Available beginning February 1982 is a new IAP, The American Community College by Arthur M. Cohen and Florence B. Brawer. This comprehensive study contains thirteen chapters covering all major aspects of community college education, an annotated bibliography of key literature and useful journals, and a large number of charts and tables giving data on all aspects of community college education. The publisher is Jossey-Bass and the price is \$17.95.

...Gayle Byock (JC)

JC SPECIAL PROJECT PUBLISHED

Last year Jim Palmer, then a part-time abstractor for the ERIC Clearinghouse for Junior Colleges and a library student at the UCLA School of Library and Information Sciences, compiled and edited the Dictionary of Educational Acronyms, Abbreviations, and Initialisms. This year Oryx Press took an interest in the Dictionary and it has been expanded, edited, and given a new introduction by Jim Palmer and Anita Colby. We recently received a flyer—the cost is \$15. It includes a reverse display.

PERSONNEL NEWS

DEWECE BELLMAN RETIRES

Dewece Bellman, who has functioned in various editorial and reference positions for the ERIC Facility and who was most recently Acting Reference Librarian, retired on January 11, 1982 after twenty years with the company.

Dewece will be retiring to the Southwest where most of her family reside. A retirement party was held at the Facility on January 8. Dewece was given a mantle clock, complete with three different sets of chimes, and numerous other expressions of our regard for her. We will miss her very, very much.

... Ted Brandhorst (ERIC Facility)

STAFF ADDITIONS AT ERIC/ACVE

We are pleased to have Darlene Park, Valerie Covington, and Pat Carson on our staff. They serve the Clearinghouse in various clerical capacities. Welcome aboard!

...Judy Wagner (CE)

NEW LIFE AT ERIC/HE

On October 3, 1981, Peter and Margot Eddy became the proud parents of Elizabeth Armes Eddy. A very warm congratulations to the Eddy's from us all.

...Laura Ciarniello (HE)

CRIS EGGEN JOINS TM STAFF

On December 1, Cris Eggen joined the staff of the ERIC Clearinghouse on Tests, Measurement, and Evaluation as an indexer/abstractor. She comes to us after working on the ETS temporary staff, at the European headquarters of the Experiment in International Living, and at the American College (the theological institute of the Catholic University of Leuven). She is involved in several local activities, including serving on the Hopewell (NJ) Board of Education. Finding time for free-lance writing, she is on the creative staff of the newly formed Princeton Magazine. We welcome Cris, and are sure that she will make important contributions to the ERIC system.

...Barbara M. Wildemuth (TM)

CENTRAL ERIC MONITOR CHANGES

Cheryl Chase who has monitored ERIC clearinghouse contracts for the past 2 years has been offered a position with the new National Commission on Excellence in Education. As a result, she will be transferring her clearinghouse monitoring responsibilities to Sam Pisaro, a long term department staff member whom we welcome to the Central ERIC staff. The clearinghouses involved are Educational Management (EA), Social Studies/Science Education (SO), and Teacher Education (S^o).

Cheryl will be liaison between the Commission and available educational resources and will continue to work closely with ERIC. She will also retain responsibility during part of her time for continuing development of the Practice File.

...Bob Chesley (Central ERIC)

MEETINGS, CONFERENCES, WORKSHOPS

JULIET MILLER MEETS WITH ADVISORY COMMITTEE

Juliet Miller met with the Vocational Education sub-group of our Advisory Committee at the American Vocational Association convention in Atlanta in December.

The group includes:

- Norm Gysbers, Chairperson, ERIC/ACVE Advisory Committee
University of Missouri, vice-president, Guidance Division, AVA
- Anita Barber, Alabama Department of Education

- Iris Officer, Career Center, Winston Salem, North Carolina
- Margaret Fergueron, Florida State Department of Education

...Judy Wagner (CE)

AN ERIC TELEPHONE WORKSHOP

Want to cut down on travel expenses? Consider giving your next ERIC workshop by telephone! Don Erickson and Lynn Smarte used a speaker phone to give a 1½ hour workshop for 13 doctoral students at Peabody College for Teachers in Nashville, Tennessee. Materials including clearinghouse brochures, sample fact sheets and IAPs, and a workshop booklet on use of ERIC and ECER were sent ahead so students could read them before the workshop. Their instructor arranged to borrow copies of RIE, CIJE, ECER, 2 sample microfiche, and the Thesaurus from the college library. Display materials were passed around as they were being discussed by Don and Lynn. Since there were speaker phones at both sites, everyone could participate fairly easily. At the end of the workshop, the students discussed their reaction to an IAP that had been used in the course with Marion Cambel who had edited the IAP. All responses to the workshop evaluation were positive. One student from Brazil asked us to send order forms for starting an ERIC collection to her university there.

...Lynn Smarte (EC)

PROJECT HOPE HOLDS SYMPOSIUM ON BEHALF OF THE DISABLED CHILD

Marion Cambel participated in a symposium sponsored by The Project HOPE Institute for Health Policy November 2-5 in Millersville, Virginia on Development of Programs for Disabled Children and Their Families: International Strategies. Approximately 40 pediatricians, rehabilitation specialists, and special educators from the United States, Central and South America, Africa, Europe, and the Middle East exchanged ideas, presented papers, and strategized to accomplish the following objectives:

1. prepare a resource document for development of comprehensive and coordinated education and health programs for the disabled child in any culture or nation;
2. describe practical and effective models for delivery of services;
3. assist participants desiring strategies for introduction and development of programs; and
4. foster, initiate, and establish an ongoing communication network among participants.

Proceedings will be published in some form and, therefore, will become a part of ERIC's collection. Also, ERIC as a resource, will be incorporated in the international manual for program initiation and development. Finally, at least 2 participants at the conference requested and by now have received esoteric information gleaned from ERIC documents.

...Marion Cambel (EC)

CEC'S ERIC STAFF VISITS LOCAL CEC CHAPTERS

Staff from the ERIC Clearinghouse on Handicapped and Gifted Children has traveled to 3 local chapter meetings this fall—Montgomery County, Maryland; Fairfax County, Virginia; and Washington, D.C. The programs they conducted had two purposes:

- to inform the members about the variety of products and services currently available from ERIC (and CEC);
- to elicit feedback from those attending about the kinds of publications and services CEC/ERIC should produce in the future to meet their needs as practicing professionals.

The meetings have been very beneficial, based on the interaction and written feedback the staff requested and received. This activity constitutes one aspect of the ERIC Clearinghouse Advisory Board function.

...M. Angele Thomas (EC)

PSYCHOLOGY STUDENTS LEARN ABOUT ERIC

Laura Ciarniello conducted an ERIC workshop for 60 psychology students at the University of the District of Columbia on November 18, 1981. The ERIC session was sponsored by the U.D.C. psychology club.

...Laura Ciarniello (HE)

HE EXHIBIT AT COUNCIL FOR GRADUATE SCHOOLS CONFERENCE

Jim Honan and Laura Ciarniello staffed an ERIC exhibit at the Council For Graduate Schools annual conference held December 2-3, 1981 at the Washington Hyatt Hotel. The Council of Graduate Schools invited the Higher Education Clearinghouse to exhibit, free of cost, at the conference. In attendance were approximately 500 college and university deans.

...Laura Ciarniello (HE)

FOREIGN EDUCATORS ADDRESSED

Marilyn Shorr addressed a group of university presidents and deans from twenty foreign countries on December 2, 1981. The meeting's focus was on ERIC and other information resources that serve American higher education. The group, sponsored by the Institute of International Education, is spending a month visiting universities and higher education associations across the country.

...Laura Ciarniello (HE)

SP CONDUCTS WORKSHOP FOR SOCS

The ERIC Clearinghouse on Teacher Education has completed two major SOC workshops during October and November, and a third is planned for February. Unlike most other clearinghouses, SP is fortunate in having SOC assignments that are very nearby (DC, Maryland, and West Virginia). This allows us to arrange these workshops with minimum travel expense. We have found that the interest level is strong, with most SOCs sending a representative, many of them traveling long distances at their own expense. We also find that these workshops are helpful to us in learning about the concerns and problems of SOCs.

In arranging the workshops, we worked cooperatively with other NIE funded organizations, e.g. the Appalachian Educational Laboratory in Charleston, West Virginia and the Maryland State Capacity Building Project in Baltimore, Maryland. This gave us an opportunity to learn more about their efforts in research and/or dissemination, and we hope to continue the close ties that have been established.

All in all, the workshops have been fruitful experiences for everyone involved, and we hope to be able to offer them, on a semi-annual basis, in the coming years.

...Dean Schwanke (SP)

COOPERATIVE WORKSHOP BY SP AND HE FOR DC SCHOOL LIBRARIANS

Lucille Jackson, a "graduate" of the NIE Library Intern Program of 1980, was the impetus behind the organization of a December workshop for District of Columbia school librarians that was conducted by Dean Schwanke of SP and Laura Ciarniello of HE. Its always nice to see the ripple effect in action.

...Dean Schwanke (SP)

EVALUATION NETWORK/EVALUATION RESEARCH SOCIETY

On October 3, 1982, Anita Labib, User Services Coordinator, conducted an ERIC workshop at the Evaluation Network/Evaluation Research Society Joint Conference, which was held in Austin, Texas. The workshop included a detailed overview of the ERIC system, computerized literature searches, distribution of relevant literature, and a question/answer period.

...Anita Labib (TM)

WORKSHOPS IN RHODE ISLAND AND MASSACHUSETTS

On October 20, 1981, Anita Labib, User Services Coordinator, conducted an ERIC workshop at the University of Rhode Island, Kingston, Rhode Island. A similar workshop was given at Fitchburg State College in Fitchburg, MA on October 22.

...Anita Labib (TM)

AMERICAN SOCIETY FOR INFORMATION SCIENCE, ANNUAL MEETING

Barbara Wildemuth chaired two sessions at this year's ASIS meeting: a technical session on Computer Literacy, and a demonstration session on Computer Applications in Education. Linda Baskin (PS) and Don Ely (IR) were presenters at the demonstration session. Mima Spencer (PS) chaired the business meeting of the Special Interest Group on Information Services to Education (SIG/ISE). To keep up on the latest in information technology, I would urge other ERIC staff to join ACTS and become actively involved with SIG/ISE.

Address _____

Amount enclosed: \$ _____

The shape and size of the promo for HE's CRIB Sheets was chosen because it fits into the Clearinghouse brochure or it can be mailed separately in a standard size envelop.

For special mailings to promote the CRIB Sheets, the ad can be a self-mailer by printing it on heavy stock paper with the return address and bulk mailing seal on the reverse side.

October 9, 1981

Re:

Dear :

As you may be aware, your journal is one of 780 whose articles are reviewed, indexed, and annotated for the monthly reference publication entitled Current Index to Journals in Education (CIJE). CIJE is published by Oryx Press for the Educational Resources Information Center (ERIC) system under the National Institute of Education, and each journal cited is assigned to one of the 16 ERIC Clearinghouses according to its subject coverage. I am enclosing brochures describing CIJE and the Clearinghouses, as well as samples of the entries we have prepared for articles from your journal which have appeared in CIJE.

We feel that our coverage of your journal provides you with important exposure. There are approximately 2,000 CIJE subscribers, mostly libraries, and countless users of the ERIC online database which is made up of all CIJE and RIE (Resources in Education) references, for a current total of 500,000 items.

Almost half of the journal titles we cover are provided to us on a complimentary basis. Since the ERIC system is being affected by recent budget cutbacks, we must review all subscriptions with a view to reducing the number of journals which we index. We would like to ask that you consider providing us with a complimentary subscription so that we can continue to select relevant education-oriented articles from your journal for announcement in CIJE. If a complimentary subscription is not possible, would you consider an exchange where we provide you each year with five of our Information Analysis Products (see enclosed list and sample)?

Please contact me if you have any questions. I hope to hear from you soon.

Sincerely,

Pauline A. Cochrane, Associate Director

ACTION ITEMS

CLEARINGHOUSE PUBLICATIONS

We are still having difficulty identifying those items that should be included on the "Highlights" page. Many clearinghouses are forgetting to identify these items for us by marking their log sheets. Please help us with this problem. We don't want to miss (and fail to announce) an appropriate item, but unless you mark it for us that could happen. Remember also that all clearinghouse publications should be noted on the log sheet and tagged with the Publication Type code 071.

...Christine St. Lawrence (ERIC Facility)

DOCUMENT PREPARATION

Before submitting documents to the Facility as input for RIE, clearinghouses should ensure that the pages of the document are in the proper order for pagination and filming. A number of recent documents have had to be totally re-paginated because they were later found to be out of order, e.g. appendices placed at the beginning, errata sheets out of place, table of contents in middle of document, charts out of sequence, etc. Please send the documents in with the pages in order exactly as you would want to see them on the final microfiche.

...Christine St. Lawrence (ERIC Facility)

EVALUATION, DISSEMINATION AND ASSESSMENT CENTERS FOR BILINGUAL EDUCATION (EDACs)

It has come to our attention that clearinghouses other than the ERIC Clearinghouse on Languages and Linguistics (FL) are entering documents from the Evaluation, Dissemination and Assessment Centers for Bilingual Education (EDACs). All clearinghouses should be alerted to the fact that FL has a blanket arrangement with these centers. The coverage confusion probably arises from the fact that the EDACs used to be called by other names, and documents are still around bearing those old names. The November 1981 Acquisitions Arrangements list cites the EDACs under the old name. We will see that this is corrected for the next run. Please note that the following groups are EDACs and that FL has a blanket arrangement with them:

LOCATION

NAME IN ACQUISITION ARRANGEMENTS LIST

Cambridge, MA:	National Assessment and Dissemination Center, Cambridge, MA
Los Angeles, CA:	California State Univ., Los Angeles. National Dissemination and Assessment Center
Austin, TX:	Dissemination and Assessment Center for Bilingual Education, Austin, TX ...Mary Niebuhr (FL)

EXAMPLES OF ERIC USAGE

We recently received, through the Speech Module, an enthusiastic report on how 15 ERIC documents were used in a seminar of the University of Wisconsin. (See Attachment 1 for a listing.) Periodically we request these sorts of examples of ERIC's utility to its users. During the year we use them on numerous occasions to support budget figures, and to illustrate the many different uses of ERIC by researchers, administrators, and classroom teachers.

As you become aware of these uses, or receive letters from users, please share them with us. They are extremely helpful.

...Bob Chesley (Central ERIC)

ACQUISITIONS ADVISORY— AVOIDING DUPLICATION OF EFFORT

Clearinghouses are reminded to clear with the Facility any NIE/ED funded reports they receive independently. Please reread Section II-E-6, page II-29 of the ERIC Processing Manual. This section was written not only to ensure that NIE/ED funded reports are cleared for release, but also as an aid in preventing duplicate processing.

Utilize the ERIC Acquisitions Arrangements (EAA) list for maximum efficiency. If you are soliciting documents, check to see if another clearinghouse or the Facility has listed an automatic acquisitions arrangement with the same organization. If so, do not proceed with the request, but if you wish, indicate to the reporting clearinghouse your interest in the documents.

If you receive the documents normally acquired by another clearinghouse or the Facility, they may be part of a general mailing which has arrived at various clearinghouses simultaneously; therefore, be aware that you may not find these documents listed on the current ADR. Before proceeding be sure to double check the EAA and communicate with the clearinghouse listed as the prime processor.

Communication between clearinghouses and with the Facility in the processing of documents is of paramount importance. In these straitened times we would like to stress the advisability of this extra effort before acquiring and processing documents in order to help reduce processing costs and to improve processing efficiency.

...Grace Sundstrom (ERIC Facility)

CORRECTION TO CONTRACT DELIVERABLE ITEM SCHEDULE

Please make a note of a change in the ERIC Facility Contract Deliverable Item (CDI) Schedule. The correct dates for C.13 - Acquisitions Arrangements (Cumulative List) - should be May 15 and November 15.

...Grace Sundstrom (ERIC Facility)

NETWORK NEWS

ERIC COST AND USAGE STUDY

The final report from King Research, Inc. entitled "Cost and Usage of the Educational Resources Information Center (ERIC) System" has been received and will be announced in the March issue (ED 208 902) of RIE. An executive summary of this large report will be treated as a separate document in the same issue (ED 208 903).

...Bob Chesley (Central ERIC)

NEW VRG CHAIR

As of March 1, 1982 Anita Colby, ERIC Clearinghouse for Junior Colleges, will assume the duties of Chair, Vocabulary Review Group. In this capacity she will coordinate activities of the Vocabulary Development Program and act as its liaison with users and among the components of the ERIC network.

We all wish to thank Lynn Barnett of the ERIC Clearinghouse on Higher Education for serving as the first Chair of the group. During Lynn's tenure, some 220 new terms were reviewed and two Oryx Press editions of the Thesaurus of ERIC Descriptors were produced.

Thank you, Lynn.

...Patricia Coulter (Central ERIC)

HISTORY OF ERIC NOW AVAILABLE

The history of ERIC entitled ERIC—The First Fifteen Years, written by Dr. Delmer J. Trester, is now off the press. Clearinghouses will soon receive two free copies from Central ERIC. Additional copies may be purchased

for \$7 each (no postage on prepaid orders) from: SMEAC Information Reference Center, College of Education, Ohio State University, 1200 Chambers Road, Columbus, Ohio 43212. A 10% discount is available on orders of 10 or more copies. Please see Attachment 2 for the announcement which will appear in RIE and Interchange.

...Mildred Thorne (Central ERIC)

HANDBOOK OF EFFECTIVE ERIC CLEARINGHOUSE PRACTICES

The Handbook of Effective ERIC Clearinghouse Practices has been completed and all clearinghouses will be receiving a copy within the month. We are pleased with the design and format of the Handbook, which employs tabs and white space judiciously for ease of use. We were also impressed with the depth and breadth of the solutions the clearinghouses provided to the various problems faced by ERIC. This compilation illustrates the ingenuity of ERIC's highly motivated personnel and at the same time documents a sophisticated and increasingly streamlined operation. Special thanks go to each of you who participated in this project and especially to the ERIC Clearinghouse on Counseling and Personnel Services which did an outstanding job of designing and producing what promises to be a most useful product.

...Judi Conrad (Central ERIC)

NEW EDITION OF ERIC THESAURUS (9TH EDITION, 1982)

A copy of the Oryx Press Publicity Release announcing the new 1982 edition of the ERIC Thesaurus is displayed as Attachment 3.

Please note that only hardback copies are available and that the \$25 price applies only to prepaid orders. Other orders will have postage added to the invoice.

...Ted Brandhorst (ERIC Facility)

DEPARTMENT OF EDUCATION DOCUMENTS (PREPARED BY OR SPONSORED BY) TO BE RELAYED TO GPO BY ERIC

Under the terms of a new agreement between ERIC, the Joint Committee on Printing (JCP), and the Government Printing Office (GPO), ERIC will relay to GPO the paper copies of all official documents it puts into Resources in Education (RIE) that are either prepared by the Department of Education (or its subunits) or sponsored by them (i.e. contractor/grantee reports).

The ERIC Facility will write a program to generate a list of all RIE accessions where the Department of Education (or its subunits) is cataloged either as an Institution or a Sponsoring Agency (in which case the accession must also have a contract/grant number. A compilation of those Department of Education units which are currently in the Source Directory has been developed and will be kept updated for use with the program. Needless to say, the accuracy of the list of accessions will depend on the accuracy of clearinghouse cataloging). The list will be sent to EDRS which, after filming, will pull the selected accessions and forward them to GPO. The first three lists can be seen in Attachment 4.

The purpose of the arrangement is to ensure that Department of Education documents get listed in the Monthly Catalog of Government Publications and get included in the system of providing Government documents to Depository Libraries at no cost.

GPO will have responsibility for detecting duplicates between the ERIC items sent them and what they may already have received from other sources. Each item included in the Monthly Catalog of Government Publications will carry a statement referring to its EDRS availability.

For any further details please contact Central ERIC.

...Jim Prevel (Central ERIC)

ORYX TO CHANGE COLORS ON CERTAIN PUBLICATIONS

For everyone who has written to Oryx Press complaining about the constant use of red for all of the ERIC related publications, here is good news!

Although CIJE and the CIJE Semiannual Cumulation will continue to be red, the 9th edition of the Thesaurus of ERIC Descriptors will be bright yellow and the RIE Annual Cumulation, both abstracts and index, will be blue.

...Susan Slesinger (Oryx Press)

RCS STAFF PARTICIPATE IN RESEARCH STUDY

Fran Lehr and Anne Auten served as research associates to Arthur Applebee's study of writing across the high school curriculum, recently published in NCTE's research report series. Lehr and Auten observed and recorded each pencil-and-paper task in over 300 ninth and eleventh grade class sessions in English, foreign languages, mathematics, science, social science, business education, and special education. The researchers also recorded interviews with 8 high school teachers and 41 students regarding their attitudes toward writing. The final report of the study has been accessioned into ERIC as ED 197 347.

...Anne Auten (CS)

CIJE JOURNALS DELETED

Due to the ever-decreasing number of articles related to education in certain journals and the recent difficulty in obtaining these journal issues on a regular basis, the ERIC Clearinghouse on Reading and Communication Skills will, as of January 25, 1982, no longer be annotating the following journals:

- Community College Journalist
- College Press Review
- Newspaper Research Journal
- Reading
- Scholastic Editor
- School Press Review
- Visible Language

...Hilary Taylor Holbrook (CS)

ERIC STEERING COMMITTEE FOR TECHNICAL OPERATIONS—UPDATE

The Steering Committee held a meeting via telephone conference call in December to discuss recommendations from the Mandatory Leveling Terms Committee. Their recommendations will be submitted to Central ERIC for consideration. Also, the Steering Committee "pulled together" agenda suggestions to submit to regional meeting planners Gail Byock (western) and Barbara Wildemuth (eastern).

Recently CERIC asked the Steering Committee to consider the issue of journal articles appearing in RIE. The Committee will be soliciting clearinghouse input on this issue.

Clearinghouse staff are reminded that though the Steering Committee will meet together in Washington, DC only once a year, following the regional meetings, members of the committee can be contacted with technical issues or problems at any time. Conference calls will be scheduled on a "when-needed" basis. Members of the Committee are:

- Marilyn Shorr (HE)
- Sydney Meredith (SO)
- Jane McClellan (CS)
- Marilyn Laubacher (IR)
- Mary Niebuhr (FL)
- Grace Sundstrom (Facility)

...Marilyn Shorr (HE)

ERIC/EECE MOVES TO LARGER QUARTERS

The ERIC Clearinghouse on Elementary and Early Childhood Education is moving back to its former location in the big stone house at 805 West Pennsylvania Avenue, Urbana, Illinois 61801-4897. Effective date for the mailing address change is February 10th. Please note the new nine-digit zip. The 805 location on the edge of campus will give us about twice as much space as the site we have occupied in the College of Education in the past 2.5 years.

...Norma Howard (PS)

RIEs AND CIJEs PROVIDED BY CRESS FOR LIBRARY CLASSES

CRESS has donated their excess copies of single issues of RIE (vol. 15, no. 11 and vol. 16, no. 3) as well as older monthly issues of CIJE, to the Zimmerman Library, University of New Mexico, Albuquerque. These RIEs and CIJEs will be used in library science classes. Twenty-one of each RIE volume and a total of 21 CIJE volumes were donated.

...Amelita Hill (RC)

ERIC FACT SHEET

The ERIC Fact Sheet for January 1982 is displayed as Attachment 5.

...Ted Brandhorst (ERIC Facility)

NEW PUBLICATIONS

NEW PUBLICATIONS—CG

Four new monographs for helping professions are now available from the ERIC Clearinghouse on Counseling and Personnel Services.

- Broadening Career Options for Women, Smith, Smith, Stroup, and Balliard. \$9.00.

Presents five hypotheses for women's underrepresentation in nontraditional careers and provides developmental counseling strategies for use in each area.

- Career Development in Organizations, edited by Garry R. Walz. \$10.00.

Provides concepts and strategies to help individuals chart careers in the company and to help organizations utilize human resources. Contributed articles develop a number of high priority, innovative ideas.

- Counseling Approaches for Enhancing the Self-Esteem of Minorities, Dorothy Kim Singleton. \$8.00.

Describes "human mutuality" as the most useful frame of reference for counselors and clients because it focuses on similarities between people, the capacity for love and choice, and the potential for significant change.

- Enhancing the Adult Experience: Counseling Approaches and Activities. Benjamin and Walz. \$10.00.

Discusses divorce, midlife career change, preretirement, and leisure and provides three field-tested counseling activities for each of these life transitions. All four monographs contain extensive reference and resource lists.

CAPS also has four new "Searchlight Plus" (computer searches with abstracts plus information analysis):

- Counseling for Stress Management;
- Peer Counseling;
- Sex Equity in Guidance and Counseling; and
- Counseling the Bilingual Student.

The above are \$3.95 each. The following four "Fact Sheets" are free:

- Career Guidance in Two-Year Colleges;
- Counseling Gifted Students;
- Displaced Homemakers; and
- Teenage Pregnancy.

...Debbie Herbert (CG)

NEW REFERENCE LIST ON EXCEPTIONAL STUDENTS FROM ERIC/EC

The ERIC Clearinghouse on Handicapped and Gifted Children's Winter 1982 Information Bulletin contains a listing of publications currently available from 14 ERIC Clearinghouses on exceptional students. A copy will be sent to every clearinghouse. Thanks for your input.

...Lynn Smarte (EC)

NEW FACT SHEET—HE

"Higher Education Management: The Name of the Game is Change." James H. Brahney. AAUA-ERIC/Higher Education Administrator Update, Volume 3, No. 1, Summer 1981 (HE 014 787).

Copies of Administrator Update may be ordered for 50¢ from the American Association of University Administrators, P.O. Box 536, Oneonta, New York 13820.

...Lynn Barnett (HE)

NEW PUBLICATIONS—UD

The ERIC Clearinghouse on Urban Education announces Dealing with Decline: The Politics of Public School Closings, by Jonathan Deans, a new monograph (UDS #77), in the Urban Diversity Series. Dr. Dean argues that the decision to close a school often becomes a political issue. The objective of his paper is to establish guidelines for closing a school which will be reasonable and productive for all parties involved—students, educators, administrators, policy makers, and members of the community. Selected topics include declining enrollment, managing school closings, citizen participation, rural consolidations, and urban school closings.

...Maryellen LoBosco (UD)

NEW PRODUCTS/NEW IDEAS

CS STREAMLINES COMPLIMENTARY MF DISTRIBUTION

When Carol Coleman, Assistant Coordinator of Documents, types OCR forms for the weekly shipment of documents to the Facility, she simultaneously prepares letters to the authors notifying them that their papers have been processed and when they will appear in RIE. Rather than mailing the letters immediately, she files them until the clearinghouse receives its monthly complimentary MF shipment, then sends the letters out with complimentary copies of their fiche to the authors. First authors receive a request-for-ERIC-services form along with their notification (Attachments 6 and 7); second and third authors receive a straight notification (Attachment 8). CS has found that this system both expedites the distribution of author copies of microfiche and builds good will among ERIC contributors.

...Anne Auten (CS)

COMPLIMENTARY JOURNAL SUBSCRIPTIONS AT HE

We were interested to note in last month's EAB that IR too is tackling the cost problem of obtaining journals for CIJE processing. Since HE long ago tapped all of its personal friends in the editing/publishing business, we have now adapted the "special plea letter" approach. When subscriptions come due, the letter (see Attachment 9) is sent requesting free copies. The letter cites the advantages of CIJE coverage and emphasizes budget constraints that we all face. Of the 52 journals covered by HE for CIJE, 43 are now being received gratis. A recent respondent wrote, "ERIC's CIJE is indeed a significant resource for journals of higher education. The Society (for College and University Planning) would deem it a privilege to send a complimentary subscription of its journal, Planning for Higher Education."

...Lynn Barnett (HE)

NEW MEXICO STATE UNIVERSITY ART STUDENTS DESIGN ERIC IAP COVERS

For the last two years, Elaine Benally, IAP Coordinator at the ERIC Clearinghouse on Rural Education and Small Schools, has worked with the New Mexico State University Art Department to secure artists to design the IAP covers. A professor either assigns students to the project or gets volunteers to work on the covers. In addition to class credit, student artists receive a nominal fee for their efforts.

Reactions to the CRESS IAP covers prepared in this way have been very favorable.

...Amelita Hill (RC)

PERSONNEL NEWS

CAPS WELCOMES TWO NEW STAFF MEMBERS

Mary Frenza is the new Information Specialist at the ERIC Clearinghouse on Counseling and Personnel Services. She will be working primarily in the technical processing area. Before joining CAPS, she worked as an editorial assistant for University Microfilms International. Mary has a B.A. in English and Education and an M.A. in Counseling.

Jeanne Collet joined the CAPS staff in January and will be working in the area of user services and outreach efforts. She has a master's degree in guidance and counseling and recently completed coursework toward a doctorate in educational research and program evaluation. Jeanne has been a research associate and teaching assistant for CERTS (Consortium for Evaluation Research, Training, and Service), a University of Michigan unit that provides graduate training in educational program evaluation.

...Helen L. Mamarchev (CG)

CONFERENCES, WORKSHOPS, AND SPEAKING ENGAGEMENTS

DUPLICATE REPRESENTATION AND SOLICITATION AT CONFERENCES

In an attempt to conserve system funds, Central ERIC monitors recently contacted clearinghouse directors to discuss and resolve overlaps in representation at conferences and solicitation of conference papers, as noted in the ERIC Conference Calendar covering 1982. To avoid the problem of more than one clearinghouse contacting presenters for copies of conference papers and to reduce the burden on any one clearinghouse for soliciting conference papers, CERIC requests that the following clearinghouses assume primary responsibility for soliciting papers for the ERIC system prior to and approximately 2 months after a conference. If papers have not been received by that time, "open season" prevails whereby any clearinghouse may solicit papers in their scope areas.

<u>CONFERENCE/LOCATION/DATE</u>	<u>CLEARINGHOUSE</u>
National Association of Independent Schools Pittsburgh, Pennsylvania February 25-27, 1982	EA
American Educational Research Association New York, New York March 19-23, 1982	TM
International Bilingual/Bicultural Education (National Association for Bilingual Education), Detroit, Michigan April 4-9, 1982	FL
American Alliance for Health, Physical Education, Recreation, and Dance Houston, Texas April 22-26, 1982	SP
Association of American Medical Colleges Research in Medical Education special Interest Group Washington, D.C. November 6-11, 1982	HE

Clearinghouses will be asked to respond to three additional data elements for the 1983 Conference Calendar: proposed number of clearinghouse attendees at a conference, whether travel costs and expenses are to be funded by an organization other than ERIC, and whether travel to a conference will be "piggybacked" on another meeting. Obviously these factors affect travel budgets and the number of conference trips a clearinghouse can afford to make.

...Mildred Thorne (Central ERIC)

EDUCATION CONVENTIONS

The date and place of 1982 education conventions which do not appear in the ERIC Conference Calendar for this year are displayed in Attachment 10. This list is provided with the thought that clearinghouses might like to have this information and perhaps solicit papers from some of the more appropriate ones.

...Grace Sundstrom (ERIC Facility)

RCS STAFF ATTEND CHICAGO CONFERENCE

Anne Auten of the ERIC Clearinghouse on Reading and Communication Skills attended the three-day conference in Chicago conducted by the ERIC Clearinghouse on Urban Education (see article entitled "Two Workshops Held By ERIC/UD For Urban Educators" later in this section). The conference was an introduction to the use of the ERIC system and other resources in urban education for the Chicago school district's middle management staff. Anne worked as part of a strategist/searcher team conducting short computer searches during the ERIC demonstration.

...Hilary Taylor Holbrook (CS)

INTERNATIONAL TRAVEL BY DON ELY

Donald P. Ely, Director of the ERIC Clearinghouse on Information Resources, reported on his recent return from Indonesia that he had a reunion in Jakarta with two of the four former directors of the clearinghouse covering instructional media. They were Richard E. Clark, former IR director, and Wilbur Schramm, founding director of the Clearinghouse on Educational Media and Technology.

In Indonesia as a consultant to the planning team for the Indonesian Open University, Don gave a paper on Media Selection for Distance Teaching in Jakarta, and conducted a workshop on instructional development in Yogyakarta for conference participants from Nepal, Malaysia, Korea, Pakistan, New Zealand, Thailand, and Indonesia. Sponsored by the Center for Communication Technology for Education and Culture of the Indonesian government, and by the U.S. Agency for International Development, the conference was coordinated by the East West Center in Hawaii. (Needless to say, this trip was not funded by ERIC.)

...Barb Minor (IR)

ALA MIDWINTER MEETING

Donald P. Ely, Director of the ERIC Clearinghouse on Information Resources, attended the Midwinter Meeting of the American Library Association in Denver the last week in January. While there, he met with the Library Instruction Roundtable, the American Association of School Librarians Networking Committee, the AASL Microcomputer Interest Group, the Library Information Literature Membership Interest Group, and the Association of College and Research Libraries/Education and Behavioral Sciences Section. He also spoke with various key people regarding ERIC, e.g. members of the IR National Advisory Board, staff and officers of ALA, and candidates for president of ALA, and database vendors.

NEW MEXICO LIBRARY ASSOCIATION CONFERENCE—CALL FOR CLEARINGHOUSE MATERIALS

The New Mexico Library Association will hold its annual meeting in Las Cruces, New Mexico on April 14-16, 1982.

In addition to a 3-hour workshop for American Indian, Mexican American, and public school librarians, all librarians will be encouraged to drop by anytime during the conference.

Any clearinghouse wishing to display/disseminate materials should send 20 copies of fact sheets, brochures, etc., to Amelita Hill by April 10, 1982.

FIRST ANNUAL SOUTHWESTERN CONFERENCE FOR RURAL EDUCATION

The New Mexico Center for Rural Education is hosting the First Annual Southwestern Conference for Rural Education on March 30-31, 1982 in Las Cruces, New Mexico.

Invited speakers include:

- Dr. Vincent Reed, Assistant Secretary, Department of Education
- Norman Hearn, Special Assistant to the Assistant Secretary, Department of Education
- Harrison Schmidt, Chairman, Senate Appropriations Subcommittee for Education, Human Services, and Labor

CRESS will host an open house for the participants. In addition, Dr. Everett Edington will take Dr. Vincent Reed on a tour of rural schools in New Mexico.

CONFERENCE ON THE EDUCATION OF ETHNIC MINORITY IMMIGRANTS

On December 15, 1981, Dr. Erwin Flaxman presented a paper on "Information Resources in the Education of Ethnic Immigrants: Some Lessons from the Past," at a conference on the education of ethnic minority immigrants sponsored by the Center for Urban and Minority Education and the South Atlantic Bilingual Education Service Center of the Florida International University, in Miami Beach, Florida. Dr. Flaxman also discussed the ERIC system and its resources with conference participants. Approximately 80 people attended the conference.

TWO WORKSHOPS HELD BY ERIC/UD FOR URBAN EDUCATORS

A three-day staff-development program for the Chicago, Illinois, public schools was conducted on January 26-28, 1982, by the ERIC Clearinghouse on Urban Education. Workshops were conducted by:

- Dr. Erwin Flaxman
Director, ERIC Clearinghouse on Urban Education
- Mr. Michael Webb
Assistant Director, ERIC Clearinghouse on Urban Education
- Ms. Anne Auten
Research Assistant, ERIC Clearinghouse on Reading and Communication Skills
- Dr. Jerome Wright
former Associate Director of the ERIC Clearinghouse on Urban Education.

The purpose of the program was to increase the awareness of the Chicago school personnel of the resources available through ERIC, to improve their ability to use the ERIC system, and to increase their awareness of other information resources which are available to educators. The program is an outgrowth of ERIC/UD's continuing effort to increase usage of information resources by big city school districts. Participants included a broad cross-section of field and central office personnel, including district superintendents, high school principals, and high school librarians. On the first two days, 210 people attended the morning sessions. Smaller groups assembled in the afternoons with 110 people participating in workshops which focused on sample computer searches.

Thursday, January 28, was reserved for appointments with central office personnel who had information questions and needed individualized instruction or tailored assistance. Dr. Flaxman and Mr. Webb kept appointments with 70 people who assembled in small groups. ERIC/UD was invited to the windy city by the Office of Staff Development at the Center for Urban Education, which is a division of the Board of Education of the city of Chicago.

On January 29, 1982, Erwin Flaxman led a workshop in St. Louis, Missouri, for 25 district advisors who are currently working with principals and teachers in 125 schools to bring about instructional and curricular change. The title of the workshop was "Using Information for Local School Problem Solving." Dr. Flaxman discussed the ERIC system as an information base which can be used by change agents in their work.

VISITORS HOSTED BY ERIC

CHINESE EDUCATORS VISIT CAPS

Learning about the ERIC system and its components captured the interest of recent foreign visitors to the ERIC Clearinghouse on Counseling and Personnel Services. The group included 10 people from China, 2 from UNICEF, and 4

consultants from Denmark, Thailand, England, and Australia, respectively. The Chinese educators represented the Chinese Peoples' National Committee for the Defense of Children (NCDC), who are participating in the development of a Center for Child Development to be built in Peking during 1982-85 under the support of UNICEF. Their primary goal in visiting the United States is to gather information to assist in the design of organizational and administrative structures along with a set of activities for the proposed Center. Special packets of ERIC materials were given to the group, including "How To Start an ERIC Collection," which was specifically requested by the group.

...Carol S. Mills (CG)

VISITORS HOSTED BY ERIC/RCS

Staff from the National Council of Teachers of English (NCTE) participating in an on-site writing course will be using ERIC as a resource for their research paper assignments. On January 29, 1982, Fran Lehr and Bob Lange gave several staff members a tour of the Clearinghouse and conducted individualized conferences on manually searching the system. Among the topics of interest were minimum competency testing, mainstreaming, and drunk driving.

...Hilary Taylor Holbrook (CS)

HE HOSTS AUSTRALIAN LIBRARIAN-IN-RESIDENCE

Washington's dreary January was brightened by the two-week visit of Margaret Findlay, Librarian in Charge, Australian Council for Educational Research (ACER). Ms. Findlay reviewed the operation of the ERIC Clearinghouse on Higher Education, which she made home base for her stay. HE and Central ERIC helped arrange meetings with other libraries and associations in the area, including the Facility and EDRS. She was especially interested in database management and thesaurus development, since ACER is in the process of producing a thesaurus peculiar to its own database instead of "making do" with ERIC's, which does not always adequately represent Australian English.

The HE clearinghouse thoroughly enjoyed working with Ms. Findlay and learning more about life and education "down under." It was especially fun to watch her initial fascination and enthusiasm for falling snow degenerate into near-disgust with having to cope with slippery streets and iced-over car windshields.

...Lynn Barnett (HE)

INDIAN EDUCATION DIRECTOR VISITS CRESS

Rena Salazar, Director, Division Indian Education, New Mexico State Department of Education, visited CRESS on January 28, 1982. Elaine Benally, American Indian Information Specialists, provided her with an in-depth ERIC orientation and a tour of the facilities.

THE LIGHTER SIDE

SYSTEMS MAINTENANCE CAN BE FUN; OR VIDEO TEX RIDES AGAIN!

Vocabulary development need not be drugery if you let the creative juices flow. A recent IR-proposed term, "videotex" (Scope Note: Electronic information services that use adapted telephone and television sets) proves the point. See Attachment 1: for TM's response on the December Vocabulary Status Report.

BASE SYLLABUS

Organizational Communication Seminar:
Training & Development

Goals and Major Limitation

The general goals of this seminar are:

1. To orient students to the profession of Human Resource Development (HRD) and to the place of communication within that profession;
2. To provide students with fundamental knowledge of the traditional "training process";
3. To develop in students skills applicable to assessing needs, planning objectives, designing and evaluating communication training; and
4. To expose students to HRD problems, methods and areas as represented by "real world" sources.

The emphasis among these goals is on training design. Given this emphasis, the seminar's career orientation is toward the HRD generalist rather than the specialist. Consequently, the major limitation is that specialist functions (e.g., media selection and usage, presentation skills, etc.) are not addressed directly in this seminar.

Student Evaluation

There are no exams in this seminar. All grades are evaluations of student performance in seminar exercises. The grading scale is 10 - 1 (10=A; 1=D). Half the final grade is based on the Training Design Exercise; the other half on the average posted for minor exercises.

SEMINAR EXERCISES

Needs Exercise

Consult ED 170 638 (F2). Complete Training Activity Sheet 1 (p. III-7) and Training Activity Sheet 2 (pp. III-20 to III-25). This exercise is due on _____.

Objectives Exercise

Consult ED 170 638 (F2). Complete Training Activity Sheet 3 (pp. III-39 and III-40). This exercise is due on _____.

Activity Design Exercise

Redesign "The Game," following the handout "Structured Experience Format." Rewrite instructions for the game, if needed. Duplicate your design for all members of the seminar. This exercise is due on _____.

COM 393/593
BASE SYLLABUS
Seminar Activities (cont'd)

Williams--4.

Testing Exercise

Consult ED 078 245 (F3, pp. 71-75). Treat the "Discussion Questions" as a content test over doctrine in ED 078 245. Take the test. Then critique the test according to types of questions as detailed in the handout "Criterion Measurement Tools." Hand in your answer sheet to the test (p. 75) along with your critique. This exercise is due on _____.

Training Design Exercise (50% of final grade)

Consult ED 083 465. You are asked to revise Session II of the course on "Basic Management Methods and Skills" which has not been changed since 1973. Your only limitation is to stay within the time frame established for Session II in the course schedule. Session content may change and the design format of the original need not be followed. Your design of Session II should be preceded by an imputed needs analysis and by goals and objectives for each module within the Session. Your training design should be followed by exhibits of any particular training materials (handouts, visuals, etc.) and by an evaluation plan for the Session. The original evaluation plan (1973) is not an option for this exercise. This exercise, in final form, is due on _____.

HISTORY OF ERIC NOW AVAILABLE

Anyone planning to develop an information storage and retrieval system, or working in the field of information science, will find the new publication ERIC—The First Fifteen Years, 1964-1979 of special interest and use. How ERIC (Educational Resources Information Center) evolved from a small file of "fugitive" (unpublished) education research reports to the foremost information database in education, storing and accessing all types of education literature, has been documented in this new publication just off the press.

Written by Dr. Delmer J. Trester, who worked in Central ERIC for over a decade during ERIC's formative years, the publication presents a detailed and candid account of ERIC's development during its first 15 years. It discusses the political realities that helped to shape the system; it describes the budgetary debates and results that impacted operation of the system; and it presents the alternative system models which were considered at various times in the face of budget problems.

Copies of ERIC—The First Fifteen Years are available at \$7 each (no postage on prepaid orders) from: SMEAC Information Reference Center, College of Education, Ohio State University, 1200 Chambers Road, Columbus, Ohio 43212.

The publication is also available on microfiche in the ERIC database as document ED 195 289, and may be purchased on microfiche for \$0.91 from the ERIC Document Reproduction Service (EDRS), 3030 N. Fairfax Drive, Suite 200, Arlington, Virginia 22201.

Advance Book News

Title: THESAURUS OF ERIC DESCRIPTORS, 9th edition

Author/Editor:	Compiled by ERIC	Format:	Clothbound
Publication Date:	April, 1982	Pages:	512
ISBN:	0-89774-019-X	Price:	\$25.00

NEW EDITION OF ERIC THESAURUS

The Oryx Press announces the publication of the 9th edition of the THESAURUS OF ERIC DESCRIPTORS. This standard reference is compiled by the Educational Resources Information Center (ERIC), the information system of the National Institute of Education (NIE) of the U.S. Department of Education.

The Thesaurus lists the terms used by the ERIC system in indexing and abstracting education literature and is indispensable in searching CURRENT INDEX TO JOURNALS IN EDUCATION and RESOURCES IN EDUCATION as well as the ERIC computer database.

New features of the 9th edition include word-by-word alphabetization of the Alphabetical Display, "Use" references in the Rotated Display, new Descriptor Group Codes in the Alphabetical Display, a clearinghouse "scope of interest" statement, and over 800 term and cross-reference additions or modifications. An extensive Introduction describes the ERIC system and provides keys for using the Thesaurus.

Priced at \$25.00, THESAURUS OF ERIC DESCRIPTORS, 9th edition, is available from The Oryx Press, 2214 North Central at Encanto, Phoenix, AZ 85004. In response to requests from buyers of the 8th edition, the 9th edition has been bound in cloth to withstand heavy use.

Other ERIC resources available from The Oryx Press include CURRENT INDEX TO JOURNALS IN EDUCATION (CIJE), in Semiannual Cumulations as well as monthly subscription, and the Annual Cumulation of the Abstracts and Indexes of RESOURCES IN EDUCATION (RIE). A retrospective microfiche cumulation of CIJE and RIE, featuring a combined subject index, is also available.

For review copies, contact Janice Thompson, Oryx Press Publicity Director

ERIC FACTS*

I. ABSTRACT JOURNAL SERVICES

A. Resources in Education (RIE)

1. Subscriptions (primarily libraries, including approximately 1,000 foreign)	4,000
2. Documents announced in RIE	
a. Monthly (Average)	1,250
b. Annually (Current Level)	15,000
c. To date (1966 through December 1981)	198,624
3. Documents Evaluated Annually for Possible Announcement in RIE	35,000

B. Current Index to Journals in Education (CIJE)

1. Subscriptions	1,800
2. Journals Covered	760
3. Journal Articles Announced in CIJE	
a. Monthly (Average)	1,800
b. Annually (Current Level)	21,500
c. To date (1969 through December 1981)	250,663

II. DOCUMENT REPRODUCTION SERVICES

A. Organizations Subscribing to Complete ERIC Microfiche Sets (including approximately 75 foreign)	700
B. Titles Filmed (less than 5% of current document input is copyrighted)	
1. Monthly (per RIE issue)	1,200
2. Annually	14,500
C. Microfiche Delivered Per Subscriber	
1. Monthly (per RIE issue)	1,700
2. Annually	20,000
D. Sales	
1. Microfiche sold on subscription (annually)	16,000,000
2. Total individual document orders through 1980 (543,886 for microfiche; 503,938 for paper copy)	1,047,804

*Many of these statistics are constantly changing and therefore have been rounded off rather than made exact as of any one day.

III. DATABASE SEARCHING SERVICES

- | | |
|--|-----|
| A. Subscriptions to ERIC magnetic tapes (via ERIC Facility)
(including 10 foreign and all major online vendors) | 50 |
| B. Locations offering computer searches of ERIC files | 700 |

IV. REFERENCE SERVICES (NON-COMPUTERIZED)

- | | |
|--|--------|
| A. Inquiries/questions answered annually | |
| 1. ERIC Facility | 8,000 |
| 2. Clearinghouses (16) | 80,000 |

V. MISCELLANEOUS STATISTICS

- | | |
|---|---------------|
| A. Thesaurus Descriptors (as of 9th edition, 1982) | |
| 1. Main (Indexable) Terms | 4,868 |
| 2. Synonyms | 3,634 |
| 3. "Dead" terms (valid at one time, but not longer) | 134 |
| 4. Total terms | 8,636 |
| B. Information Analysis Products (IAPs) produced by
ERIC Clearinghouses (1967-1980) | 3,662 |
| C. Organizations/institutions represented by documents in
the ERIC database (Source Directory) | 25,000 |
| D. Usage Statistics (Estimated)* | |
| 1. Institutions in U.S. providing access to ERIC products | 3,269 |
| 2. Usages of ERIC Resources (Annually) | 2.7 million |
| 3. ERIC bibliographic records retrieved in searches and
provided to clients | 30 million |
| 4. Annual expenditure by institutions to support
distribution of ERIC resources to users | \$26 million |
| 5. Total annual expenditure for the development,
distribution, and use of ERIC resources in U.S.
(only 4.1% provided by the Federal government) | \$136 million |

ERIC Clearinghouse on Reading and Communication Skills

director
Bernard O'Donnell

associate director
Karl Koenke

assistant director
Jane McClellan

We believe that it will interest you to learn that your document is considered a substantial contribution to the literature of education and has been processed for inclusion in the ERIC system by this Clearinghouse. A copy of the document has been forwarded to the ERIC Document Reproduction Service. An abstract, with appropriate index terms, will appear in the _____ issue of Resources In Education, and will be stored on computer tape for retrieval at education centers which provide searches of the ERIC data base. (None of this activity, of course, affects your copyright.) In addition, a microfiche copy of your material, similar to the one enclosed, is available to users at the more than 700 libraries and information centers around the world that subscribe to the ERIC collection.

As a contributor to the ERIC system and as an author, you know the importance of bibliographic material in the development of your papers or speeches. The Clearinghouse accepts approximately 1,800 documents each year and the ERIC system as a whole grows at an annual rate of approximately 15,000 documents. We would be happy to help you find those which contain information that you could use in any of the following ways: (1) provide quick references on topics of interest; (2) conduct a computer search of the entire ERIC data base for a small fee; (3) provide single copies of ERIC/RCS articles at no cost; and (4) provide multiple copies of our brochures and minibibliographies for conferences, classrooms, etc.

We hope ERIC can be of assistance to you. Use the request form on the back of this letter to request further information on any of these services. If you would like to discuss or request any of the services, please write or call Anne Auten, Coordinator of User Services.

The staff at the Clearinghouse feels that ERIC has a lot to offer. We hope to hear from you.

Sincerely,

Bernard O'Donnell
Director

National Council of Teachers of English • 1111 Kenyon Road, Urbana, Illinois 6180 • Phone (217) 328 3870

Please send me:

_____ Further information on requesting computer searches

_____ An ERIC/RCS All Products List

_____ Information on submitting documents to ERIC

_____ A list of ERIC/RCS Journal Articles

_____ A list of ERIC/RCS Minibibliographies

Please send materials for the _____ conference/workshop.

Focus _____ Number in Attendance _____

I am interested in the following topics _____

_____. Please send pertinent references.

I would like to have a computer search run on the following topic:

Purpose for search _____

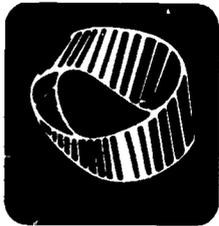

Educational Level (if pertinent) _____

Restrictions _____

Telephone Number _____

Mailing Address _____

ERIC Clearinghouse on Reading and Communication Skills

director
Bernard O'Donnell

associate director
Karl Koenke

assistant director
Jane McClellan

We believe that it will interest you to learn that your document cited below is considered a substantial contribution to the literature of education and has been processed for inclusion in the ERIC system by this Clearinghouse. A copy of the document has been forwarded to the ERIC Document Reproduction Service. An abstract, with appropriate index terms, appears in the _____ issue of Resources in Education, and is stored on computer tape for retrieval at education centers which provide searches of the ERIC data base. (None of this activity, of course, affects your copyright.) In addition, a microfiche copy of your material is available to users at the more than 600 libraries and information centers which subscribe to the ERIC collection. 700

The purpose of this Clearinghouse is to discover and evaluate all materials relating to the teaching of English, reading, journalism, speech, and theatre and to make this information available. You can assist in this major task by sending us other materials of yours or by recommending documents you believe should be entered into the ERIC system. We would appreciate your help.

Sincerely,

Bernard O'Donnell
Director

National Council of Teachers of English • 1111 Kenyon Road, Urbana, Illinois 61801 • Phone (217) 328-3870

Dear

(name of journal) has been indexed for some time now in ERIC's Current Index to Journal in Education (CIJE). We are pleased to announce it in CIJE since we feel that it is important for students and professionals in higher education to be aware of the significant literature in their field. It is noteworthy that over 700 libraries subscribe to CIJE, making journals announced in it even more widely visible. Unfortunately, ERIC is now faced with severe budget cuts and we are being asked to inquire about the possibility of complimentary subscriptions for the journals we cover in CIJE.

We realize that scholarly publications are confronting many of the same financial constraints that education as a whole is facing, but we would appreciate your consideration of our request. We are at the point where the alternatives seem to be either acquiring complimentary subscriptions or dropping coverage in CIJE--a very undesirable option.

I hope that in lieu of the attached subscription renewal form, you will consider our request for a complimentary subscription. Thank you very much for your understanding.

Sincerely yours,

Lynn Barnett
Assistant Director

EDUCATION CONVENTIONS FOR 1982

(WHICH DO NOT APPEAR IN THE ERIC CONFERENCE CALENDAR FOR 1982)

March 21-24 Washington, DC	Council of Great City Schools 1707 H Street, N.W., Suite 500 Washington, D.C. 20006 (202) 298-8707

ACTION ITEMS

ESTABLISHMENT OF A TECHNOLOGY COMMITTEE

There are a number of technological developments such as mass storage on optical disks, laser printers, and optical character recognition (OCR) of normal fonts (not to mention computer conferencing and microcomputer developments) that have exciting implications for information systems like ERIC. I have asked Don Ely (ERIC Clearinghouse on Information Resources) to form a standing committee to deal with issues of technology and their significance for information system activity.

Clearinghouse Directors are asked to submit names of staff interested in serving on such a committee (members will not be limited to management staff) to Don Ely, along with issues and ideas for development and direction. Although the core committee will not be able to have members from all clearinghouses, due to budget limitations, we would like to have liaison representatives with all interested system elements.

...Bob Chesley (Central ERIC)

USE OF ED NUMBERS IN BIBLIOGRAPHIES

We are attempting to get all NIE documents with bibliographies to show ED numbers for those documents that are in ERIC. Please ensure that your ERIC publications follow this practice as well.

...Bob Chesley (Central ERIC)

FAILURE TO PUBTYPE JOURNAL ARTICLES AND SERIAL ISSUES PROPERLY

A recent search of the ERIC database across the last three years (January 1979 - February 1982) revealed a total of 139 accessions that have good journal citations in the Journal Citation field, but that were not coded with Publication Type code 080 "Journal Articles" or 022 "Serials-entire issues," as they should have been. A list of clearinghouses in order by number of instances is shown below:

UD	- 30	CE, EA, EC, JC	- 7
PS	- 15	HE	- 6
FL	- 11	CS, IR, RC	- 5
CG	- 10	SO	- 4
SE	- 9	TM	- 3
SP	- 8		
		TOTAL	139

Please reinforce this very straightforward point with your catalogers. All journal articles must be coded 080. All serial issues must be coded 022. The RIE editors at the Facility have also been alerted to this problem.

...Ted Brandhorst (ERIC Facility)

CONTRACT RENEWALS/REQUESTS FOR PROPOSALS

OPERATION OF IR CLEARINGHOUSE AWARDED TO SYRACUSE UNIVERSITY

A 34-month contract for the operation of the ERIC Clearinghouse on Information Resources was awarded by the National Institute of Education to Syracuse University for the period March 1, 1982 to December 31, 1984.

The tentative titles of 5 major clearinghouse products supported during the first 10 months of this contract are:

- Selecting Media: What the Research Says
- Guidelines for Post Secondary Learning Resource Center Programs
- Microcomputers in Education
- Educators' Guide to Cable Television
- Networking for School Libraries

...Patricia Coulter (Central ERIC)

RFP TO OPERATE THE FL CLEARINGHOUSE ANNOUNCED

The Request for Proposal (RFP) for the operation of the ERIC Clearinghouse on Languages and Linguistics (FL) was announced in the Commerce Business Daily (CBD) on February 26 with a proposal due date of March 31. The contract is scheduled for 3 years scheduled to begin on June 1, 1982.

Requests for this RFP are available by writing: Sue Sullivan, NIE Contracts and Grants Management Division, 1200 19th Street, N.W., Room 808, Washington, DC 20208. Refer to RFP Number NIE-R-82-0003.

...Patricia Coulter (Central ERIC)

PRACTICE FILE RFP SOON TO BE AVAILABLE

The National Institute of Education (NIE) is soliciting proposals from organizations wishing to enter into a cooperative agreement with NIE for the development of an information file system to improve the availability and use of information about educational practice by teachers and building-level school administrators.

The procurement will result in one award for a twenty-four (24) month period in the form of a cooperative agreement. A copy of the RFP may be obtained on or about March 24, 1982. Requests for the RFP should be addressed to: Ms. Joyce Calloway, Contracting Officer, ED/National Institute of Education/Contracts & Grants Management Division, 1200 - 19th Street, N.W., Room 808, Washington, DC 20208. Please cite RFP: NIE-R-82-0005 on the envelope. Offerors may submit self-addressed labels. Only written requests for the RFP directed to the above address will be accepted.

...Cheryl Chase (Central ERIC)

ERIC TECHNICAL STEERING COMMITTEE

ERIC TECHNICAL STEERING COMMITTEE RECOMMENDATIONS

The following recommendations from the ERIC Technical Steering Committee have been received and approved. They will be discussed at the Regional Technical Meetings, but may be implemented at once. ERIC Processing Manual update pages will be prepared and distributed to Clearinghouses with the April EAB.

...Bob Chesley (Central ERIC)

Recommendations:

1. It is the consensus of the Committee that the existing educational level descriptors, which have been in use since 1974, adequately serve the system and that no additions or deletions to the existing list need be made at this time.
2. We recommend that the following material be added to the ERIC Processing Manual to clarify when an educational level term is not necessary and when it should be majored.
 - I. An educational level term of major or minor status should be on every document except in cases of:
 1. Documents where educational level is incidental and educational practice is not specifically treated.
 2. Documents which could apply to any or all educational levels equally.
 - II. The educational level term should be majored only when the central focus of the document is on the subject of that educational level.

To assure assigning of an educational level descriptor when appropriate, indexers are encouraged to select the educational level term first, before further indexing.

3. We recommend that the mandatory use of the age level descriptors be discontinued. The Committee has concluded that retrieval of age level concepts is not improved by requiring mandatory applications of the age level terms, though age is still often an appropriate indexable subject concept.
4. We recommend that "Lifelong" and "Adult Education" documents (other than "Adult Basic Education" which is an Educational Level term) not necessarily require an educational level term. It is assumed that the Descriptors "Adult Education" or "Lifelong Learning" would be applied to such documents.

The necessary changes to the ERIC Processing Manual should be made to implement these recommendations and examples should be provided to illustrate the new practices.

...Ad Hoc Committee on Mandatory
Leveling Descriptors (Belir
Brosseau, Barnett, Houston)

NETWORK NEWS

MICROFICHE OF ERIC PRODUCTS

Within the next few days each clearinghouse will receive from the ERIC Facility microfiche copies of the January and February 1982 issues of CIJE and the Thesarus of ERIC Descriptors.

This is the first example of ERIC's continuing arrangement with the Joint Committee on Printing (JCP) to distribute ERIC publications to depository libraries through GPO.

Additional documents being distributed in this manner will be the RIE and CIJE Indexes, as well as Department of Education funded project reports announced in RIE.

...Jim Prevel (Central ERIC)

LILIAN KATZ: OUR DISTINGUISHED SCHOLAR AND INTERNATIONAL AMBASSADOR

Central ERIC is proud to announce that Lilian Katz, Director of the ERIC Clearinghouse on Elementary and Early Childhood Education, has been awarded a Fulbright Scholarship. Based at the University of Baroda in India, Lilian will be traveling to other Indian campuses to conduct seminars on early childhood education. Her tenure at the University of Baroda will be January through March of 1983.

Also during the spring of 1983, Lilian will be a visiting professor at the University of the West Indies in Barbados. More details on these ventures will be forthcoming.

Lilian's cryptic comment on all of this was "Well, it certainly makes married life rather complicated, but my policy is to make my husband an offer he can't refuse." We think this means he will be able to join her for a period of time in both locations....

Congratulations, Lilian! It couldn't happen to a more worthy person.

...Judi Conrad (Central ERIC)

RIE COVER FOR FEBRUARY 1982

By now you have no doubt noticed the difference in the January and February 1982 covers of RIE. They were indeed supposed to be the same throughout the calendar year. We have discussed the problem with GPO, and they assure us that the March cover, and all subsequent covers for the calendar year, will be like the January cover, which we definitely prefer. Let's hope they follow through—only time will tell.

...Mildred Thorne (Central ERIC)

ERIC TAPS VECM

To identify potential candidates for inclusion in ERIC from the vast sea of curriculum materials, the ERIC Clearinghouse on Adult, Career, and Vocational Education (CE) is tapping into the National Center for Research in Vocational Education (NCRVE) Clearinghouse's Vocational Education Curriculum Materials (VECM) database by scanning printouts of curriculum products made available through the six regional Curriculum Coordination Centers (CCC).

Because these materials have already been through a type of screening process at the CCC level, the "best of the best" (products that are unique, innovative, address new and emerging curricular areas, etc.) can be readily selected for acquisition, which helps reduce a potential flood of materials to efficient and manageable size.

...Sandra Kerka (CE)

EVALUATING AND RANKING THE JOURNALS

The Personnel and Guidance Journal contains an article by J. M. Walton in its February issue (v60 n6 p338-341) that reports the findings of a study designed to determine which journals are most prestigious among a randomly selected group of counselor educators. The three most prestigious journals in the field of counseling and guidance are, according to the article:

- Personnel and Guidance Journal
- Journal of Counseling Psychology
- Counselor Education and Supervision.

...Helen L. Mamarchev (CG)

WHERE DID YOU FIND ALL THESE IDEAS FOR TEACHING READING?

"Where else but ERIC can one find materials applicable for teaching illiterate adults how to read?"

A class presentation by Carol Mills on this topic (with handout materials) led to an on-the-spot ERIC orientation for fellow class members, who were eager to learn where and how they could find all these new ideas for teaching reading in the secondary school. Carol is now known as the resource person of her class. (Carol is working on her Master's degree in Reading at Eastern Michigan University and expects to graduate in August of this year.)

...Carol S. Mills (CG)

NASSP REPRINTS ANOTHER "BEST OF ERIC ON EDUCATIONAL MANAGEMENT"

The National Association of Secondary School Principals is printing its own edition of School Size, which is the October 1981 issue of the series produced by the ERIC Clearinghouse on Educational Management entitled "The Best of ERIC on Educational Management." NASSP will distribute copies to its 35,000 members. (See p. 11 for the announcement of this series by EA.)

...Stuart Smith (EA)

ERIC DISCOVERED BY SCIENCE FICTION FREAKS

The readers of Analog: Science Fiction/Science Fact (the benchmark for science fiction writing) now know about ERIC. An article entitled "Scientific Research Made Easy" (in the March 1, 1982 issue) describes bibliographic databases; our old friends DIALOG, ORBIT, BRS, and MEDLARS; and the wonderful world of computer searching. ERIC is mentioned on p. 44.

...Mary M. Niebuhr (FL)

ERIC ANSWERS PRAYERS

Mr. Robert Gale, President of the Association of Governing Boards of Colleges and Universities, enthusiastically accepted 25 copies of Resources on Private Sector Grantsmanship by Lynn Barnett and Jim Honan of the ERIC Clearinghouse on Higher Education, calling it the answer to his prayers. This publication will be used as a handout at the Association of Governing Boards of Colleges and Universities/Council for the Advancement and Support of Education (AGB/CASE) conference, which covers fund-raising and other leadership issues. Its participants include college presidents, trustees, and development officers.

...Laura Ciarnicello (HE)

DIANNE ROTHENBERG TO SERVE ON STATE LIBRARY COMMITTEE

Dianne Rothenberg, Assistant Director of the ERIC Clearinghouse on Elementary and Early Childhood Education has been asked to serve on a Lincoln Trails Libraries (LTL) Advisory Committee. LTL is a division of the Illinois State Library System. The Committee will evaluate the current effort to reach and serve school libraries through the Lincoln Trails system. They also will propose new methods for promoting this networking concept, which makes access to ERIC and other information sources easier for classroom teachers and school administrators.

...Norma K. Howard (PS)

ORYX ADVERTISEMENT FOR NEW ERIC THESAURUS

The Oryx Press flyer announcing the new 9th edition of the ERIC Thesaurus is displayed as Attachment 1. The ERIC Facility is finding the flyer useful in responding to inquiries concerning the availability of the new edition.

...Ted Brandhorst (ERIC Facility)

NEW PUBLICATIONS

NEW PUBLICATIONS—EA

Publications issued since August 1981 are as follows:

The Best of ERIC on Educational Management
(4-page summaries of significant reports and journal articles)

- Motivating Teachers
- School Size
- School Effectiveness
- Teacher Absenteeism

Research Action Briefs

(4-page reviews of empirical research, drawing implications for schools)

- The Middle School
- Board or Superintendent: Who Manages the Schools?
- Schools—And Their Principals—Do Make a Difference

Book

- School Leadership: Handbook for Survival.
Edited by Stuart C. Smith, Jo Ann Mazzarella, and Philip K. Piele.
362 p. \$13.95.

Twelve chapters on three aspects of school leadership: the person, the structure, and the skills.

...Stuart Smith (EA)

NEW MINIBIBS—FL

The following minibibs are now available upon request from the ERIC Clearinghouse on Language and Linguistics:

- Developing Communicative Competence
- Foreign Languages and Career Education
- Innovative Methods in Teaching FL
- Language Laboratories
- Teaching Conversational Skills in ESL

...Mary M. Niebuhr (FL)

IAP—HE

The following recent publication has been produced by the ERIC Clearinghouse on Higher Education:

Indices of Quality in the Undergraduate Experience.
George D. Kuh. AAHE-ERIC/Higher Education Research Report No. 4,
1981 (HE 014 805).

...Laura Ciarniello (HE)

FACT SHEETS—SP

The ERIC Clearinghouse on Teacher Education has published five of the six fact sheets scheduled for this year:

Published

- Competency Assessment in Teacher Education (August 1981)
- Teacher Centers and Higher Education (September 1981)
- Teaching as a Career and a Profession (October 1981)
- Understanding Educational Block Grants (December 1981)
- Physical Education Curriculum Resources (January 1982)

In Press

- Individual Needs and Inservice Education

...Mike Butler (SP)

NEW PUBLICATIONS—TM

The following publications are available from the ERIC Clearinghouse on Tests, Measurement, and Evaluation, Educational Testing Service, Rosedale Road, Princeton, New Jersey 08541.

● ERIC/TM REPORTS

- #80 The Evaluation of College Remedial Programs.
Smith, Jeffrey, K., and Others. December 1981. \$8.50.

Detailed descriptions of some of the ways that evidence can be gathered for the purposes of evaluating remedial basic skills programs in colleges are presented. If combined with a text on evaluation which covers basic philosophical, theoretical and design issues, this monograph would provide the "specifics" for translating generalities into the tasks which face the college basic skills individual who must actually conduct an evaluation. The examples used in this report come from the authors' experiences in New Jersey. An annotated list of 32 studies conducted in colleges around the country is provided at the end of the document.

- #79 An Introduction to Rasch's Measurement Model
Gustafsson, Jan-Eric. December 1981. \$5.50.

Some basic concepts of the one-parameter logistic latent-trait model, or the Rasch model, are presented. This model assumes that the probability of a correct answer to an item is a function of two parameters, one representing the difficulty of the item and one representing the ability of the person. In relation to a concrete example, it is

demonstrated how the parameters in the model can be estimated and how the assumptions of the model can be tested. Some possible areas of application of the Rasch model are also discussed.

- ERIC/TM Highlights
(Annotated Bibliographies—Edited Computer Searches)
 - Administrator Evaluation 12/81 \$6.00
 - Equating with the Rasch Model 12/81 \$6.00
 - Evaluation Utilization 12/81 \$6.00
 - Identifying Effective Schools 12/81 \$6.00
 - Meta-Analysis 12/81 \$6.00
 - Survey of State Minimum Competency Testing 12/81 \$6.00

- ERIC/TM UPDATES (Mini-bibliographies and Fact Sheets)
 - Assessing Experiential Learning 1981 Free
 - Citing ERIC Materials 1981 Free
 - Minimum Competency Testing and the Handicapped 1981 Free

...Anita Labib (TM)

PERSONNEL NEWS

BOARDMAN REASSUMES FAMILY NAME OF "GIVENS"

Ms. Sharon G. Boardman, Editor at the ERIC Clearinghouse on Teacher Education, has reassumed her family name. Please change your directories to read "Sharon Givens."

...Mike Butler (SP)

DIXON JOINS SP; MOORE AND SEITZ LEAVE SP

Ms. Vanessa Dixon has joined the staff of the ERIC Clearinghouse on Teacher Education in the position of Project Secretary. Ms. Toni Moore, who was with the Clearinghouse since December 14, 1981 as secretary, left at the end of the contract year (February 28, 1982). Stephen Seitz resigned the position of Publications Assistant effective January 25, 1982.

...Mike Butler (SP)

CONFERENCES/MEETINGS/WORKSHOPS

IMEL GIVES PRESENTATION AT ADULT EDUCATION RESEARCH CONFERENCE

Susan Imel, Assistant Director at the ERIC Clearinghouse on Adult, Career, and Vocational Education, attended the Adult Education Research Conference in Lincoln, Nebraska on April 1-3, 1982. Dr. Imel made a presentation entitled "Using ERIC Adult Education Research," on April 2.

...Judy Wagner (CE)

ERIC/ACVE INVOLVED IN APGA CONVENTION ACTIVITIES

The ERIC Clearinghouse on Adult, Career, and Vocational Education organized three program sessions at the American Personnel and Guidance Association (APGA) Convention in March. All three were based on Information Analysis Products, including Employer Sponsored Career Development Programs, Career Education for the Gifted and Talented, and Career Education at the College Level.

In addition, the Clearinghouse displayed products and ERIC user services information at a booth sponsored by the National Center for Research in Vocational Education. Juliet Miller was involved in many activities in her role as President-Elect of the National Vocational Guidance Association.

...Judy Wagner (CE)

ERIC/ACVE CONDUCTS SESSION AT CBAE CONFERENCE

Dr. Norm Singer, Research Specialist at the National Center for Research in Vocational Education, in cooperation with the ERIC Clearinghouse on Adult, Career, and Vocational Education, conducted a major session at the Competency-Based Adult Education (CBAE) Conference in Boston, Massachusetts.

The focus of the conference was Linking Education, Human Services, Business and Industry. Dr. Singer led a group interaction, the "Frame Game: A Staff Development Technique in Identifying Assumptions About CBE." The Frame Game is a technique which can be used to explore concepts, including competency-based education.

...Judy Wagner (CE)

JUDY WAGNER PRESENTS ERIC TO JACKSON STATE UNIVERSITY

Judy Wagner, User Services and Training Coordinator at the ERIC Clearinghouse on Adult, Career, and Vocational Education, gave a workshop on the ERIC system to faculty and students at Jackson (MS) State University. The main portion of the workshop concentrated on manual searching of RIE and CIJE and search preparation. An intensive session on computer searching was given to the University's search analysts.

...Judy Wagner (CE)

ERIC/ACVE PRODUCTS PRESENTED TO NCRVE STAFF

Juliet Miller, Susan Imel, and Judy Wagner presented an overview of products produced by the ERIC Clearinghouse on Adult, Career, and Vocational Education at a staff meeting of The National Center for Research in Vocational Education. The presentation focused on the new IAPs and the UPDATE series.

...Judy Wagner (CE)

ERIC/CAPS DIRECTOR PARTICIPATES IN CPGA CONVENTION

Dr. Garry R. Walz, Director of the ERIC Clearinghouse on Counseling and Personnel Services, presented two workshops at the California Personnel and Guidance Association (CPGA) Convention which was held February 12-14, 1982 in San Francisco, California. The titles of the workshops were "Helping People Manage Life Transitions" and "Career Management and Development in Organizations."

...Jeanne Collet (CG)

ERIC/RCS STAFF SPONSORS SESSIONS AT TEACHER CONFERENCES

Anne Auten and Fran Lehr, Research Associates at the ERIC Clearinghouse on Reading and Communication Skills, spent a day at two midwinter teachers' conferences one in Urbana on February 24th and the other in Champaign on February 25th. Fran staffed the ERIC exhibits, while Anne offered mini-workshops on computer applications in the English language arts, featuring online computer search demonstrations of the ERIC database. Nearly 800 second copies of documents acquisitioned for ERIC were given away at the exhibits, and materials from EC, PS, SE, and SO as well as from CS were distributed. Response from the K-12 teachers was very positive, and the conference presenters requested that in the future, ERIC be present all days of each conference.

...Hilary Taylor Holbrook (CS)

ERIC/HE SPEAKS TO GRADUATE STUDENTS AT HOWARD UNIVERSITY

Laura Ciarniello, User Services Specialist, met with 25 graduate students on February 10 at Howard University in Washington, DC, to discuss ERIC as a research tool. The workshop was slightly different in format than the usual workshop in that the students had knowledge of the ERIC system and wanted the session to zero in on their individual topics. It proved to be a real "hands-on" experience for the students. The students were very pleased, with one remarking, "ERIC really works!"

...Laura Ciarniello (HE)

ERIC/HE EXHIBITS AT GERONTOLOGY CONFERENCE: SHORR JOINS ROUND TABLE

The ERIC Clearinghouse on Higher Education exhibited for the first time at the Gerontology in Higher Education Conference, which was held February 11-13, 1982 at the Capitol Hilton, Washington, DC. The conference planners expressed much interest in having us present and were very pleased with the welcome we received from the conference participants.

Marilyn Shorr, Associate Director, took part in a round table discussion on information resources and gave a 10 minute presentation on the ERIC system, as well as answered several questions about ERIC. It is our hope that our presence at the conference will lead to the acquisition of the conference papers, which seem very timely and targeted for the topic of gerontology.

...Laura Ciarniello (HE)

ERIC/HE EXHIBITS AT NAICU CONFERENCE

James Honan and Laura Ciarniello represented the ERIC Clearinghouse on Higher Education with a conference display February 3-4, 1982 at the conference of the National Association for Independent Colleges and Universities (NAICU), which was held at the Hyatt Hotel in Washington, DC. NAICU was very anxious to have the Clearinghouse present and gladly picked up the cost for the table and space. Although relative small (about 300 participants) this conference always proves to be one of the most active conferences with the participants taking advantage of the complimentary searches and materials.

...Laura Ciarniello (HE)

ERIC/PS PRESENTS WORKSHOP FOR SCHOOL LIBRARIANS

Two ERIC Workshops were presented by Dianne Rothenberg and Linda Baskin of the ERIC Clearinghouse on Elementary and Early Childhood Education at a School Librarian Workshop and Minifair sponsored by the Illinois State Library System on February 27, 1982, in Champaign, Illinois.

The event was attended by 72 people, with 20 at the ERIC Workshops. The participants expressed much interest in the ERIC information system, and in the Illinois Center for Educational Improvement's free custom computer searches of the ERIC database to teachers and librarians affiliated with Public schools.

...Norma K. Howard (PS)

ERIC/TM CONDUCTS WORKSHOP IN RHODE ISLAND

On March 23, 1982, Anita Labib, User Services Coordinator, conducted an ERIC workshop at the University of Rhode Island, Kingston, Rhode Island. The workshop included a detailed overview of the ERIC system, computerized literature searches, distribution of relevant literature, and a question/answer period.

...Anita Labib (TM)

ERIC/TM COORDINATES EXHIBIT BOOTH AT AERA/NCME

The ERIC Clearinghouse on Tests, Measurement, and Evaluation will be coordinating the ERIC exhibit booth at the American Educational Research Association/National Council on Measurement in Education (AERA/NCME) Conference on March 20-22 in New York City.

Several mini-bibliographies, the topics of which correspond to training sessions/workshops to be conducted prior to the annual meetings, have been prepared by ERIC/TM for distribution at this conference. These are as follows:

- Developing a Publishable Test
- Educational Criticism
- Issues in Test Bias
- The Microcomputer as a Research Tool
- Teacher Assessment.

ERIC/TM has worked closely with workshop instructors in developing the mini-bibliographies. For the "Writing Assessment" workshop, the ERIC Clearinghouse on Reading and Communications Skills has kindly contributed relevant publications.

...Anita Labib (TM)

VISITORS HOSTED BY ERIC

DR. FIFE MEETS WITH BURMESE EDUCATORS

Dr. Jonathan Fife met with four Burma educators to discuss the ERIC system and the higher education system in the United States. The visitors were:

- Mr. U Than Shwe
(Deputy Director, Ministry of Education)
- Mr. U Tin Myint
(Administrator, Rangoon University)
- Dr. Soe Myint Win
(Planning Officer for Higher Education, Ministry of Education)
- Mr. U Maung Tin
(Divisional Education Officer, Ministry of Education)

The visitors spent two hours at the Clearinghouse discussing such topics as:

- information utilization
- grading practices
- student development
- program development
- evaluation in higher education

...Laura Ciarniello (HE)

LIST OF ATTACHMENTS

- Attachment 1: Advertising for the 9th Edition of
the ERIC Thesaurus produced by Oryx Press
- Attachment 2: Remove List (RIEMAR82)
- Attachment 3: RIE Input by Clearinghouse (RIEMAR82)
- Attachment 4: CIJE Input by Clearinghouse (CIJMAR82)

**Ready access to the documents in the
ERIC system.**

Thesaurus of **ERIC Descriptors**

The 9th Edition is available, featuring:

- Sturdy cloth, reinforced binding, designed to stand up to the THESAURUS'S continual heavy use!
- 834 changes new terms, deletion of "dead" terms, other changes—from the 8th Edition.
- Group codes in the Alphabetical Display, giving two-way access between the Alphabetical and Descriptor Group Displays.
- USE References in the Rotated Display, giving access via the component words of every term in the THESAURUS.

ISBN 0-89774-019-X. Available January 1982.

Price: \$26.15, U.S.; \$28.65, Foreign, both prices include postage.

Administrative Bulletin

Volume: 6
Number: 4
Date: April 1982

Educational Resources Information Center, National Institute of Education, Washington, D.C. 20208

This issue of the ERIC Administrative Bulletin is dedicated to Bob Chesley, in recognition of his great contribution to ERIC in general and to this publication in particular.

A Fond Farewell...

At the end of April, I will be leaving the ERIC system and Government employment in order to establish an independent business involved in computer graphics. I would like to take this opportunity to thank all the members of the ERIC system for the work and support they have provided over the past several years. I have never been associated with an activity, inside the Government or out, where the people involved have had the ability and enthusiasm exhibited by individuals across the ERIC system. The many positive comments made by people who have had contact with the clearinghouses and support contractors are effective testimony to the job you all are doing.

The past several years have been difficult from the standpoint of budgets within NIE. Although ERIC has fared considerably better than NIE as a whole, inflation and cutbacks have made life difficult for everyone. Recent indications are encouraging with regard to support for the future, and I am hopeful that the most difficult period is behind us. I look forward to seeing, as an appreciative user, further development and achievements by ERIC.

...Bob Chesley (Central ERIC)

ACTION ITEMS

CIJE SOURCE JOURNAL INDEX—COPIES OF ALL CHANGE LETTERS TO BE SENT TO CERIC

Throughout the year, as clearinghouses add and drop journals they have the responsibility of indexing for CIJE, a letter is sent to Susan Slesinger of Oryx Press indicating the proposed changes.

It would be appreciated if a copy of the letter to Oryx Press would also be sent to Jim Prevel, CERIC, for information purposes.

...Jim Prevel (Central ERIC)

CLEARINGHOUSE USER SERVICES PRODUCTS: LIST REQUESTED

Because Central ERIC is in the process of compiling ERIC user services products and because we are not certain that we have copies of each and every product used/produced, we would like each clearinghouse to submit to us a list of all current user service products. Please send your list by April 30th directly to Judi Conrad.

...Judi Conrad (Central ERIC)

ERIC CLEARINGHOUSE PUBLICATIONS AND PUBLICATION TYPE CODE 071

All ERIC clearinghouse publications announced in RIE should be identified by being tagged with the Publication Type code 071. When this code was originally developed, clearinghouse publications were generally known as "Information Analysis Products" or "IAPs" and the code was defined accordingly. Since that time, the phrase "ERIC Clearinghouse Publications" seems to have replaced IAPs, but the intent of the code remains the same—to identify the total output of the ERIC clearinghouses for easy computer search.

...Ted Brandhorst (ERIC Facility)

INDEXING ADVISORY

INDEXING ADVISORY: DESIGNATING MAJOR INDEX TERMS—THE SECOND TIME AROUND

In the December issue of the ERIC Administrative Bulletin (p. 9), an advisory appeared discussing the problem of the number of major indexing terms exceeding the EPM guidelines. The guidelines allow either of two situations:

1. a maximum of 6 Major Descriptors and 1 Major Identifier; or
2. a maximum of 5 Major Descriptors and 2 Major Identifiers.

AT NO TIME IS THE NUMBER OF MAJOR DESCRIPTORS TO EXCEED SIX (6), EVEN IF NO MAJOR IDENTIFIERS ARE USED.

The ERIC Facility is finding that the number of resumes assigned 7 or more Major Descriptors is still increasing for both RIE and CIJE. We realize that an individual resume with 7 Major Descriptors shouldn't cause a lot of concern, but if each and every resume going into the system were to be so structured, the monthly Subject Indexes for RIE and CIJE would increase by approximately 15-20 pages.

Allow us, therefore, to offer 3 suggestions:

- Please refamiliarize all indexers/editors with the EPM guidelines on this matter.
- Try to get all indexers into the habit of counting the number of Major Descriptors before turning their work in.
- Have all indexers reconsider all major term assignments before finalizing their input. Somewhere between 50% and 75% of all resumes are now using the maximum number of majors permitted, even though many of the majors are excessively broad terms that add little, if anything, to the printed subject indexes.

...Carolyn Weller (ERIC Facility)

RFP ANNOUNCEMENT

RFP FOR OPERATION OF THE ERIC CLEARINGHOUSE ON HIGHER EDUCATION ANNOUNCED

The Request for Proposal (RFP) for the ERIC Clearinghouse on Higher Education and the ERIC Clearinghouse on Urban Education were announced in the Commerce Business Daily on March 24, 1982. The three-year contracts are scheduled to begin September 1, 1982.

To obtain a copy of this RFP, a written request must be submitted to:

Sue Sullivan
NIE Contracts and Grants Management Division
1200 19th Street, N.W., Room 808
Washington, DC 20208

References must be made to RFP Number NIE-R-82-0006 (Urban Education) and to RFP Number NIE-R-82-0007 (Higher Education), respectively.

...Keven Arundel (Central ERIC)
...Judi Conrad (Central ERIC)

NETWORK NEWS

LANGUAGE FIELD IN DIALOG'S ERIC FILE

The Language of Document data element was initiated by ERIC and first added to the tapes in January 1979. Due to a program error occurring at DIALOG, the word "ENGLISH" was incorrectly added to all the pre-1979 ERIC records on DIALOG's ERIC citation file (both RIE and CIJE). The DIALOG inverted index files contain matching errors. This means that virtually all the ERIC records are tagged as being in "ENGLISH," even when it isn't so. If left uncorrected, this situation would cause some confusion and would reduce the effective use of this data element for search limitation purposes.

The problem exists only on the DIALOG file. The SDC and BRS files are correct on this particular score.

We have been informed by DIALOG that they will correct the inverted index files by the end of March 1982, but that they will not be able to correct the citations themselves until the next reload.

The action they have taken certainly helps the problem while not completely fixing it. Searchers should therefore keep in mind two things:

- When using the Language field in a search (via any vendor) apply it only to data from January 1979 forward.
- When looking at pre-1979 ERIC citations (both RIE and CIJE) obtained via DIALOG remember that the word "ENGLISH" will be ubiquitous and will not necessarily reflect the true language of the document (though it will be correct in 98% of the cases because ERIC processes so few non-English documents).

...Ted Brandhorst (ERIC Facility)

ACQUISITIONS AND USER SERVICES COOPERATE

Acquisitions and User Services personnel at CE have begun a series of cooperative targeted mailings. The packets include a "this is what you can do for us and this is what we can do for you" letter and some samples of clearinghouse shelf products. Mailings have been or will be sent to state directors of adults, career, and vocational education, adult education faculty members, newsletter editors, and professional organizations among others.

...Judy Wagner (CE)

AN ACQUISITIONS REMINDER

Following up on Mildred Thorne's article entitled "Duplicate Representation and Solicitation at Conferences," which appeared in the February 1982 issue of the EAB (p. 14), CAPS reminds other acquisitions people that since 1977 the clearinghouse has been responsible for soliciting materials for all ERIC clearinghouses from the following organization (and all its regional association meetings). All transfer documents will be sent promptly to the appropriate clearinghouse.

American Psychological Association (APA)
(Annual Convention)

- Southeastern Psychological Association (SEPA)
- Eastern Psychological Association (EPA)
- Southwestern Psychological Association (SWPA)
- Western Psychological Association (WPA)
- Midwestern Psychological Association (MWPA)
- Rocky Mountain Psychological Association (RMPA)

...Helen L. Mamarchev (CG)

PHIL PIELE COMPILES CIJE ARTICLES FOR LAW JOURNAL

The Journal of Law and Education has asked Philip K. Piele, Director of the ERIC Clearinghouse on Educational Management, to contribute to each issue a selected bibliography of ERIC journal articles on educational law and policy.

Dr. Piele has already submitted the first installment, which compiles articles announced in the December 1981 and January 1982 issues of Current Index to Journals in Education. A note accompanying the bibliography states that the annotations were written by document analysts at the various ERIC clearinghouses.

The Journal of Law and Education is published four times a year and has a circulation of 5,000.

...Stuart Smith (EA)

WALKE TEACHES CLASS ABOUT ERIC

Roger Walk , Document Analyst at the ERIC Clearinghouse on Educational Management, while auditing a University of Oregon class on financial reporting, took advantage of classes on school budget reporting to make a short presentation on ERIC. Using documents in the ERIC system as examples, he showed how ERIC could be an excellent journalistic source on educational finance. He also touched on computer searching and passed out copies of "A Pocket Guide to ERIC." The presentation was too brief for questions, but the teacher, Professor Roy Halverson, expressed appreciation and noted his surprise at the wealth of detailed data available in ERIC.

. .Roger Walke (EA)

EC TRACKS DOCUMENTS VIA NEW AUTOMATION PROCESS

The ERIC Clearinghouse on Handicapped and Gifted Children has implemented an automated process for tracking and keying bibliographic data and resumes. A document is keyed into the computer the day it arrives. Evaluation data, full cataloging information, the abstract, and indexing are added as appropriate. The computer generates labels for communication with document sources, a weekly and monthly printout for duplicate checking, the RIE log sheet and quarterly report data. It also checks all descriptors and produces RIE and CIJE tapes. The procedure has eliminated repetitive keying and allows us better access and more information at all steps of processing.

...Dorothy Beling (EC)

EC HOLDS OPEN HOUSE

On March 9, the ERIC Clearinghouse on Handicapped and Gifted Children sponsored an Open House that featured ERIC products and search services. The atmosphere was made festive by red, white, and blue streamers, balloons, and flags. Punch and popcorn were available for guests. Did it attract a record crowd? Not a record at 74, but did it satisfy those who attended? Definitely yes!

Visitors know what they were looking for and were genuinely pleased with our response to their needs. A secondary benefit was that the event provided a dress rehearsal for our spring convention exhibit. Will we do it again next year? You bet!

...Lynn Smarte (EC)

DR. FIFE RECEIVES "THANK YOU" FOR SERVICES RENDERED

Jonathan D. Fife, Associate Professor of Education and Director of the ERIC Clearinghouse on Higher Education concluded his term as a member of the National Center for Higher Education Management Systems' Executive Committee and Board of Directors and Chairman of their National Advisory Council at the annual Board meeting held in Denver, Colorado on March 21-22, 1982. In recognition of his services he was presented with an engraved desk pen set.

...Laura Ciarniello (HE)

THE THESAURUS HITS THE STREETS

It's very timely that The Oryx Press began distributing copies of the 9th edition of the Thesaurus of ERIC Descriptors about the same time that thesauri as a whole have come of age. For proof, see what Goosemyer (in The Washington Post) has to say on the next page.

GOOSEMYER PARKER & WILDER

--from The Washington Post

(Submitted as a parting gesture by the out-going chair of the ERIC Vocabulary Review Group who hopes the new chair, Anita Colby, has as much enjoyment with the job as she did.)

...Lynn Barnett (HE)

MICROSEARCH DEMONSTRATION PACKAGE NOW AVAILABLE

The software for MICROsearch, a computer program designed for the retrieval of information from selected portions of the ERIC database on microcomputer diskettes, is now available from the ERIC Clearinghouse on Information Resources in a package which includes also a demonstration database diskette and a user's manual.

In addition to the search program, two other computer programs permit printing the resumes and the inverted files on an 80-column printer. The software is written for the APPLE II microcomputer with 48K RAM, APPLE DOS 3.3 operating system, and at least one disk drive. (Those wishing to print the contents of the diskettes would also find a printer useful.) The demonstration database diskette contains 208 records from CIJE from January to September, 1981; each record includes the bibliographic citation and indexing information. The records were selected from educational technology journals which tend to carry articles on microcomputers. One free set will be sent to each ERIC Clearinghouse which requests it. (Cost of the demonstration set to the world at large is \$10.)

ALSO...any Clearinghouses interested in having database diskettes produced and made available on subject matter within their scope area(s) should contact Bruce Clark at IR.

...Bruce Clark (IR)

A REMINDER OF PS' NEW ADDRESS

In February 1982, the ERIC Clearinghouse on Elementary and Early Childhood Education (ERIC/EECE) moved to a different building on the University of Illinois campus. If you haven't changed the address in your ERIC Directory, please do so. The new address is:

ERIC Clearinghouse on Elementary and Early Childhood Education
College of Education
University of Illinois
805 W. Pennsylvania Avenue
Urbana, IL 61801-4897

...Norma Howard (PS)

FROM INDIA TO ALASKA WITH PS

Mima Spencer, Associate Director of the ERIC Clearinghouse on Elementary and Early Childhood Education, returned from a 5-week personal trip to India and Pakistan, where she also acted as an informal ambassador for ERIC. Mima lived in Afghanistan for two years during the 1950s, so that part of the world is familiar to her.

After only a week back home on the Illinois prairie, Mima flew to Anchorage, Alaska, with Linda Baskin, also of the PS staff, where they presented workshops on computers and early childhood education. While there, they also staffed an ERIC booth at the state meeting of the Alaska Association for the Education of Young Children. Dr. Lilian Katz, Clearinghouse Director, was a keynote speaker at the Alaska meeting.

...Norma Howard (PS)

DR. MORRISSETT HONORED BY AMERICAN ASSOCIATION FOR THE ADVANCEMENT OF SCIENCE

Dr. Irving Morrissett, Director of the ERIC Clearinghouse on Social Studies/Social Science Education, was recently elected a Fellow of the American Association for the Advancement of Science. A Fellow is defined by AAAS as "a member whose efforts on behalf of the advancement of science or its applications are scientifically or socially distinguished."

Irving was nominated for the honor because of his "leadership in facilitating communication and cooperation among social scientists and educators and in the analysis and dissemination of social science education information." Congratulations, Irving!

...Cindy Cook (SO)

CANADIANS DISCOVER ERIC/SO USER SERVICES

The ERIC Clearinghouse on Social Studies/Social Science Education started receiving a large number of user requests from Canada this year, so we have been wondering about the identity of our publicity ambassador. The mystery has been solved at last. We received a notice that our products were announced in the publication FREE! THE NEWSLETTER OF FREE MATERIALS AND SERVICES. Other clearinghouses wishing to request publicity from the ambassador should contact:

Editor Ken Haycock
Dyad
P.O. Box 46258
Station "G"
Vancouver, B.C.
Canada V6R 4G6

...Sheryl Robinson (SO)

NEVER A SHORTAGE OF MICROFICHE OR SEARCH SERVICES DIRECTORIES AT SO

The ERIC Clearinghouse on Social Studies/Social Science Education has decreased its need for copies of the Directory of ERIC Microfiche Collections and the Directory of ERIC Search Services while maintaining the quality of its user services. Photocopies of pages from the directories are sent to users which list resources in their own states. This enables the clearinghouse to distribute its limited supply of the directories to users who have a real need for them.

...Sheryl Robinson (SO)

ERIC: WHAT IS IS, HOW TO USE IT (REVISED EDITION)

The revised edition of ERIC: What It Is, How To Use It has been turned over by the ERIC Clearinghouse on Social Studies/Social Science Education to the National Audiovisual Center for publication. As yet, the Center's publication plans for the revised series are unknown. The product is expected to be available in either filmstrip/cassette or slide/cassette format. Orders have been placed for each clearinghouse to receive one copy of the product. The Clearinghouse will keep you informed concerning availability, price, etc. so you can advertise. If you have any questions, call Jim Davis, SO.

...Jim Davis (SO)

OCR 9 + ONLINE TRANSMISSION 6 + MAGNETIC TAPE 1 = 16

Beginning with the June 1982 issue of RIE, the ERIC Clearinghouse on Elementary and Early Childhood Education began sending bibliographic data to the Facility via its communicating word processor. This brings to seven the number of Clearinghouses using other than OCR approaches. The others using direct transmission are HE, IR, RC, SO, SP. EC sends a magnetic tape.

...Pat Brown (ERIC Facility)

NEW PUBLICATIONS

NEW PUBLICATIONS—EC

A new product of the ERIC Clearinghouse on Handicapped and Gifted Children called "Alternative Programs for Disruptive Youth" has become available. The book is a handbook of 16 successful programs throughout the United States and provides information regarding admission, referral and class placement, effective program resources, curriculum, family support, work study, student management, crisis intervention, program evaluation and funding.

...June B. Jordan (EC)

NEW PUBLICATIONS—HE

- Marketing in Higher Education. Stanley M. Grabowski.
AAHE-ERIC/Higher Education Research Report No. 5, 1981.
(\$5.50). (HE 014 897).
- Computer Literacy in Higher Education. Francis E. Masat.
AAHE-ERIC/Higher Education Research Report No. 6, 1981.
(\$5.50). (HE 014 898).
- Financial Analysis for Academic Units. Donald H. Walters.
AAHE-ERIC/Higher Education Research Report No. 7, 1981.
(\$5.50). (HE 014 902).
- Corporate Education: Threat or Opportunity? James P. Horan.
AAHE-ERIC/Higher Education Research Currents. March 1982. (\$.75).

The Research Reports and Research Currents can be ordered from:
Publications Department, American Association for Higher Education, One
Dupont Circle, Suite 780, Washington, DC 20036.

...Laura Cierneillo (HE)

NEW PUBLICATIONS—IR

The second edition of ONTAP: Online Training and Practice Manual for ERIC Data Base Searchers by Karen Markey and Pauline A. Cochrane reflects changes in both ERIC and DIALOG since the first edition appeared in 1978. New material include six of the 16 sample searches of ONTAP, postings for each of the terms used in the 10 Search Saves that are appended, and most recent descriptions of ERIC and ONTAP from DIALOG Information Retrieval Service that were available at the time of publication. Available from Information Resources Publications, 130 Huntington Hall, Syracuse University, Syracuse, NY 13210 as IR-56 for \$8.50 postpaid.

In The Design of Instructional Materials: Research on Illustrations and Typography, Thomas C. Wilson, Fred C. Pfister, and Bruce Fleury have identified research which they feel is potentially useful to both producers and evaluators of textbooks and other printed instructional materials. Topics include illustrations and their effectiveness for motivation and learning, and such variables of typography as readability, legibility, justification, line width, columns, paragraphs, and format and layout. Available from Information Resources Publications, 130 Huntington Hall, Syracuse University, Syracuse, NY 13210 as IR-55 for \$4.25, postpaid.

Gene Wilkinson presents a new perspective on the analysis of educational technology for effectiveness and productivity in Educational Media, Technology, and Instructional Productivity: Occasional Paper Number 2. Not a how-to-do-it manual, this paper presents an argument to be used in support of cost-effectiveness studies and of the experimentation in educational organizations which is needed to support the redesign of public education as a capital intensive rather than a labor intensive organization. Available from Information Resources Publications, 130 Huntington Hall, Syracuse University, Syracuse, NY 13210 as IR-52 for \$3.00 postpaid.

...Barb Minor (IR)

NEW PUBLICATIONS—PS

The following new publications are available from the ERIC Clearinghouse on Elementary and Early Childhood Education:

- "Effects of Teacher Behavior on Preschool Children: A Review of Research," by Elizabeth Phyfe-Perkins. Cat. #194, 57p., \$3.00, November 1981.
- "Infant/Toddler Caregiving: An Annotated Bibliography," compiled by Alice Honig and Donna Sasse Wittmer. Cat. #195, 55p., \$6.00, April 1982.

Also available are three new Short Reports, or fact sheets:

- "How Children Develop Racial Awareness"
- "The Role of Motivation in the Elementary School"
- "Staff Burnout in Child Care Settings"

New ReadySearch (pre-prepared computer search) titles are:

- "Research on Children's Play"
- "Research on Preschool Children"

ReadySearches sell for \$10 each, and a total of 12 titles are available from PS.

...Norma Howard (PS)

NEW PUBLICATIONS—SO

The ERIC Clearinghouse on Social Studies/Social Science Education and the Social Science Education Consortium have recently copublished volume 7 of the Data Book of Social Studies Materials and Resources. This year's edition, the fourth funded as an ERIC information analysis product, contains 52 two-page analyses of new elementary and secondary social studies curriculum materials along with 45 briefer descriptions of teacher resources and ERIC documents. The Data Book has been very positively reviewed in American Reference Books Annual and continues to be enthusiastically received by educators and publishers alike.

SO recently published two new information analysis products:

- Writing in Elementary School Social Studies, edited by Barry K. Beyer and Robert Gilstrap, 215 pp., \$10.95.
- Preparing to Teach Economics: Approaches and Resources, revised and expanded edition, by Suzanne W. Helburn and James E. Davis, 112 pp., \$7.95.

During February and March five of 32 reference sheets were also updated: economics, future studies, geography, legal education, and psychology/sociology. These reference sheets are available free of charge.

...Laurel Singleton (SO)

NEW PUBLICATIONS—UD

The ERIC Clearinghouse on Urban Education announces new Compact Guides by Carol Ascher.

- Stereotyping in Children's Books and School Curriculum: Strategies for Change (Brief Bibliography #6). An introduction to the literature which includes resources for promoting balanced sex/race fair images of women and minority groups.
- Alternative Schools—Some Answers and Questions (Fact Sheet #7). Portrays the current state of alternative schools, both their successes and failures.
- Writing for Dialectally Different Youths (Fact Sheet #8). Outlines the research geared toward the teaching of writing to youths who speak nonstandard English.
- Counseling in a Multicultural Education Setting (Fact Sheet #9). Highlights the problem of counseling in a multicultural society and discusses effective strategies.
- Desegregation as an Equal Educational Opportunity Strategy for Hispanics. (Fact Sheet #10). A brief history of Hispanic segregation and its effects on students.

- Issues in ESEA Title VII Bilingual Education (Fact Sheet #11). Discusses the history of bilingual education and its use as an equal opportunity strategy, characteristics and kinds of bilingual programs, and the research on bilingual learning and its effects on students.

...Maryellen LoBosco (UD)

PERSONNEL NEWS

CARMEN SMITH JOINS CE

Carmen Smith has joined the staff of the ERIC Clearinghouse on Adult, Career, and Vocational Education as a typist, jill-of-all-trades. She does a bit of everything from typing the shipment to User Services responses. We are delighted to have her with us.

...Judy O. Wagner (CE)

JANICE ROMANISH LEAVES EC

Janice Romanish, Clerk Typist for Acquisitions, has left the ERIC Clearinghouse on Handicapped and Gifted Children to have her second child.

...Dorothy Beling (EC)

ANN WILLIAMS LEAVES SO

Ann Williams, Publications Manager at the ERIC Clearinghouse on Social Studies/Social Science Education since 1977, left the clearinghouse on February 26. After her twin daughters graduate from high school this spring, Ann will be moving to southern California, where her husband has a new job. We'll miss Ann's wit, professionalism, and slashing blue pencil! Laurel Singleton will be coordinating production of the user services products, SO newsletter, and IAPs.

...Laurel Singleton (SO)

CONFERENCES, SPEAKING ENGAGEMENTS, WORKSHOPS

WAGNER PRESENTS TO NATIONAL ACADEMY

Judy Wagner gave a presentation on ERIC and other National Center produced databases to a National Academy Workshop on "Your Role as Change Agent." The response was good and some participants returned the next day for a demonstration.

...Judy Wagner (CE)

CAPS PARTICIPATES IN APGA CONVENTION

Dr. Garry R. Walz was an active participant in the American Personnel and Guidance Association's Annual Convention which was held March 17-20, 1982, in Detroit, Michigan. In addition to being a key speaker at a special luncheon honoring C. Gilbert Wrenn (The Art of Caring Through Mentoring), he presented two workshops: Innovations in Stress Management and Counseling the Abused and Abuser.

ERIC/CAPS also sponsored an exhibitor's booth at the convention. All staff members rotated "booth duty" which included publicizing ERIC services and publications and conducting free "quickie" computer searches.

...Jeanne Collet (CG)

CG ATTENDS TESTING CONFERENCE

Helen Mamarchev, Jeanne Collet, and Mary Frenza attended the 22nd Annual Michigan School Testing Conference held in Ann Arbor, Michigan on March 16-17, 1982. The objectives of this year's conference were the exploration of assessment in career guidance and the provision of a broad range of testing information and perspectives. Two days of clinics and workshops concerning such topics as test data and school public relations, selecting tests and building test programs, and information about testing for vocational programs for the gifted and the handicapped were presented by nationally prominent test authors and experts. A demonstration of the use of the microcomputer for career guidance activities was a highlight of the program.

...Mary C. Frenza (CG)

ERIC STAFF ATTENDS AERA CONFERENCE

Karl Koenke, Associate Director of the ERIC Clearinghouse on Reading and Communication Skills, was invited to speak at a symposium on defining the reading database, at the AERA annual conference in New York, March 18-21, 1982. One of the three guests speaking on their respective databases, Karl spoke on the nature of the reading research in the ERIC system, the trends in research as shown by the materials, and how the Clearinghouse has reflected those trends.

...Hilary Taylor Holbrook (CS)

ERIC REPRESENTED AT READING COUNCIL MEETINGS

Staff members from the National Council of Teachers of English (NCTE) running Council exhibits displayed ERIC materials and answered questions about ERIC at meetings of three state affiliates of the International Reading Association in Springfield, Illinois; Oconomowac, Wisconsin; and Indianapolis, Indiana. Among the topics of interest at the meetings were censorship, schemata, children's literature, and an integrated language arts curriculum. A tip for future exhibitors: the NCTE representative in Wisconsin received a bouquet of roses at the exhibit table and noted that so many people stopped by the table just to admire the flowers that she was able to converse with more people about the materials than she might otherwise have done.

...Hilary Taylor Holbrook (CS)

ERIC HIGHLIGHTED AT AAHE SESSION FOR ADMINISTRATORS

ERIC was highlighted as a major information resource for administrators at a conference session of the American Association for Higher Education, called "New Administrator's Colloquium: Resources for Administrative Problems." Marilyn Shorr presented the ERIC portion of the program by describing ERIC, discussing the services of the Clearinghouse and distributing handouts to the 48 people in attendance at the session.

...Laura Ciarniello (HE)

AMERICAN ASSOCIATION OF HIGHER EDUCATION CONFERENCE

All hands joined at the ERIC Clearinghouse on Higher Education to staff the ERIC booth at the American Association for Higher Education Annual Conference held March 3-5, 1982 at the Washington Hilton in Washington, DC. This is the biggest conference for HE because it brings together many of the people in the higher education community that associate with the clearinghouse. This year, as in years past, the clearinghouse sold their publications and was happy to report that the HE Research Reports Series attracted a crowd!

...Laura Ciarniello (HE)

DR. FIFE— MARCH CONFERENCE ACTIVITIES

Jonathan D. Fife, Associate Professor of Education and Director of the ERIC Clearinghouse on Higher Education presented a paper on "The Past and Future of Degree Programs in Higher Education," at the annual meeting of the Association for the Study of Higher Education on March 2, 1982 at the Washington Hilton.

Dr. Fife, Executive Secretary-Treasurer of the Association for the Study of Higher Education, coordinated the Association's annual meeting held at the Washington Hilton on March 2-3, 1982.

On March 19-20, Dr. Fife attended the Executive Committee Sessions of Division J—Postsecondary Education—at the annual meeting of the American Educational Association in New York City.

...Laura Ciarniello (HE)

ERIC/HE SPONSORS SEMINAR

For the fourth consecutive year, ERIC/HE co-sponsored a Seminar on National Higher Education Policy with the American Association for Higher Education and the Association for the Study of Higher Education. The seminar was held February 28-March 2, 1982 in conjunction with the national meetings of AAHE and ASHE. Twenty-three advanced graduate students representing 16 institutions participated in the seminar. Speakers included prominent policy-makers from the Department of Education, Office of Management and Budget, U.S. House of Representatives, and the Washington higher education associations. James P. Honan served as seminar coordinator.

...Laura Ciarniello (HE)

JAMES HONAN HELPS TRAIN GRADUATE STUDENTS IN INTERVIEWING SKILLS

James P. Honan assisted Dr. Martha Burns, Associate Professor of Education, George Washington University, with an interviewing skills workshop at the American Association for Higher Education conference. The workshop was designed to train graduate student interviewers who conducted AAHE conference evaluations.

...Laura Ciarniello (HE)

HE HOSTS WORKSHOP FOR HIGHER EDUCATION ASSOCIATION STAFFS

On March 25th, the ERIC Clearinghouse on Higher Education hosted its annual workshop for research and information specialists on staff in the higher education associations in Washington. In addition to covering the basic ERIC workshop topics and clearinghouse services and publications, this workshop also presented an opportunity to talk about the Clearinghouse's external relations and cooperative arrangements with a variety of higher education organizations. A particularly gratifying part of this year's workshop was an unsolicited but eloquent testimonial by an HE "groupie" we've worked with for years, and some very supportive comments from a new participant.

...Margot Sanders Eddy (HE)

HE COORDINATING BOARD MEETS

The Clearinghouse's annual coordinating board meeting took place on March 15 at the Brookings Institution. Each year the ERIC Clearinghouse on Higher Education hosts this meeting as an opportunity for research and information officers in the higher education associations in Washington, DC to exchange ideas and information on their organization's current activities and publications. This year seventeen representatives of sixteen associations, as well as the Clearinghouse staff, met for a particularly fruitful (and long) meeting.

...Margot Sanders Eddy (HE)

NATIONAL CONFERENCE USED AS MINI ADVISORY MEETING

Taking advantage of the presence of so many national leaders in higher education, the ERIC Clearinghouse on Higher Education sponsored a breakfast meeting in conjunction with the annual conferences of the American Association for Higher Education (AAHE) and the Association for the Study of Higher Education (ASHE). Since both conferences were held back-to-back at the same hotel in Washington, DC, it was convenient to gather 15 representatives from universities, state education commissions, and research centers.

Jon Fife, Marilyn Shorr, and Lynn Barnett hosted the meeting, which elicited both advice and praise from the attendees. These meetings have become annual events that have been very beneficial to the Clearinghouse in terms of both maintaining contact with its constituencies and obtaining valuable suggestions for ERIC services and efficiency.

...Lynn Barnett (HE)

BARNETT ATTENDS INDEXING SEMINAR

A day-long indexing seminar sponsored by the American Society of Indexers and held in Washington, DC, was held by Lynn Barnett, Assistant Director of the ERIC Clearinghouse on Higher Education. More than 100 registrants listened to formal presentations by speakers representing a variety of indexing businesses. Free-lance indexers were also in abundance. One of the speakers was Hilda Feinberg, who is editing a book called Indexing: Specialized Formats and Subjects, to be published in late fall 1982 by Scarecrow Press. Dr. Feinberg highlighted chapters from the forthcoming book, including one on ERIC's indexing by Lynn.

...Laura Ciarniello (HE)

JAMES P. HONAN ADDRESSES STUDENTS

James P. Honan spoke to members of the freshmen class at Marist College, Poughkeepsie, New York on the federal policy process and student financial aid legislation on April 1, 1982.

...Laura Ciarniello (HE)

ERIC EXHIBIT AT THE ANNUAL MEETING OF THE ASSOCIATION FOR SUPERVISION AND CURRICULUM DEVELOPMENT

The ERIC Clearinghouse on Social Studies/Social Science Education sponsored an exhibit booth at the Association for Supervision and Curriculum Development annual meeting at the Anaheim Convention Center, Los Angeles, California, March 20-22, 1982. Jim Davis of SO staffed the booth and conducted an action lab on curriculum planning. Anita Colby and Jim Palmer of the ERIC Clearinghouse for Junior Colleges assisted with booth duty. Brochures and publications lists from most of the clearinghouses were distributed to many of the 3,500 attendees.

...Jim Davis (SO)

SP AT AACTE AND ATE CONFERENCES

February is always a busy time for the ERIC Clearinghouse on Teacher Education, one of the reasons being the two national teacher education conferences that are held during this month.

The Annual Meeting of the American Association of Colleges for Teacher Education was held in Houston, and Director Joost Yff and Associate Director Michael Butler represented ERIC through an exhibit booth and a presentation on the teacher education module Using ERIC to Solve Educational Problems.

Meanwhile, the Annual Conference of the Association of Teacher Educators was held in Phoenix, where User Services Coordinator, Dean Schwanke, represented ERIC at an exhibit.

...Dean Schwanke (SP)

UD CONVENES A WORKSHOP IN MIAMI

As part of its ongoing efforts to establish strong lines of communication between ERIC and the big city schools, Erwin Flaxman, Director, and Michael Webb, Assistant Director at the ERIC Clearinghouse on Urban Education, held an information seminar for the Dade County Public Schools at Florida International University in Miami. The seminar, held on March 19, 1982, was coordinated by Molly Hickman of the Management Institute and had 75 people, primarily librarians and media specialists, in attendance. These sessions covered an overview of the ERIC system, ERIC/CUE, and available local information resources; discussion of local information needs and possible strategies to tackle problems; and a demonstration of computer searching which used participant questions.

...Maryellen LoBosco (UD)

VISITORS HOSTED BY ERIC

APPALACHIA STATE UNIVERSITY'S ERIC ADVOCATES

Two faculty members and six graduate students from Appalachia State University in North Carolina visited the ERIC Clearinghouse on Handicapped and Gifted Children on April 16 during an extensive visit to The Council for Exceptional Children. The students were well aware of the many capabilities of ERIC and use their university's ERIC microfiche collection copiously, having been taught modern research methods by their professors, who also depend on ERIC for their own specialties. The how, and the where of document processing for ERIC, previously a mystery to this group, was explained briefly to round out the knowledge of these ERIC advocates.

...Marion Cambel (EC)

VISITORS TO ERIC/IR DEMONSTRATE ONLINE INNOVATIONS

Jeffery Pemberton, Editor of ONLINE Magazine, visited the ERIC Clearinghouse on Information Resources recently to demonstrate the ONLINE CHRONICLE, his new listing for job-seekers and employers in the online industry. Updated every second Monday, this database includes both international and U.S. listings, and is available through DIALOG. While he was here, Bruce Clark introduced him to MICROsearch, and he seemed to enjoy putting the program through its paces. (What is this urge on the part of experienced microcomputer users to make the system crash?)

Ray McAleese of the University of Aberdeen and Elizabeth Duncan of Robert Gordon's Institute of Technology, also in Aberdeen, spent several days at IR recently, and made presentations to faculty and students in educational technology on their Qualified Citation Indexing Project. Intended for use with the literature of educational technology, the prototype system permits access by author with two types of qualifiers available to narrow the search—

publication type and relational or descriptive terms. For more information about the project, see ED 207 567 and ED 208 839. They too were intrigued with MICROsearch and enjoyed working with it.

...Barb Minor (IR)

"The American Library system is one of the wonders of this world and one of the major reasons why we prosper; from my little library on the Eastern Shore in Maryland, I can borrow practically any book ever written."

—James Michener, The New York Times,
March 17, 1982

CATALOGING ADVISORY—CATALOGING PURCHASE ORDERS AND COOPERATIVE AGREEMENTS

Purchase Order Numbers, i.e., P-80-605, are not Contract or Grant Numbers and because they lack the continuity of such numbers need not be captured during cataloging. That does not mean, however, that the appropriate sponsorship should not be cataloged. Legitimate sponsors should always be cataloged in the SPON field.

Cooperative Agreements, if deemed by the cataloger to be of potential interest to the user, can be referred to in the NOTE field. The parties to the agreement would simply be entered in the INST field. Any number associated with the agreement may be incorporated in the Note and need not be treated as a Contract or Grant number.

...Ted Brandhorst (ERIC Facility)

CATALOGING SECTION OF EPM PUBLISHED

By now all ERIC components should have received their copies of Section V: "Cataloging" of the ERIC Processing Manual. This new section, which was shipped on May 14, 1982, is to be implemented immediately. All clearinghouse personnel involved with RIE and CIJE processing (cataloging, indexing, document preparation, keying, etc.) should review the section. Sessions will be held at both regional technical meetings to review the changes in the section.

...Ted Brandhorst (ERIC Facility)

CLEARINGHOUSE PRODUCTS—A REMINDER

The ERIC Facility maintains the archives for the ERIC system. Clearinghouses are reminded that one (1) copy of all clearinghouse products should be sent to the Facility for inclusion in the archives. The address for these submittals should be:

Library
ERIC Processing and Reference Facility
4833 Rugby Avenue, Suite 301
Bethesda, Maryland 20814

These products include not only the formal publications of the clearinghouses, but also the short bibliographies, information brochures, and other items that do not appear in RIE, but are available for users. Frequently we find that Xeroxes of these "freebies" are just the answer to a user question; so please be sure the Facility is on the distribution list for all products, publication lists, etc.

...Carolyn Weller (ERIC Facility)

THE WASHINGTON CIRCLE INN

Since many of you who travel to the Washington, DC area are unfamiliar with hotel accommodations and would, perhaps, appreciate a recommendation, a brochure describing the Washington Circle Inn is enclosed. This hotel offers fully equipped kitchens and separate sitting rooms in addition to the standard bedroom accommodations. It is located on Pennsylvania Avenue and is competitive with prices in the DC area.

NEW CIJE SOURCE JOURNALS INDEX PUBLISHED BY UMI

In April 1982, UMI issued a new and expanded list of journals that have been covered by CIJE. UMI states that they now hold publisher reproduction permissions for 65% of the total journals listed. The letter from UMI describing the new list appears as Attachment 4.

...Ted Brandhorst (ERIC Facility)

SUMMER HOURS FOR CE, CG, PS, SE, TM, UD, AND ORYX

The following clearinghouses have reported their summer hours to be as follows:

CE - 7:30 - 4:30	June 14 - Sept. 15
CG - 7:30 - 4:00	June 1 - Sept. 1
PS - 8:00 - 12:00; 1:00 - 5:00 (phones not answered between 12:00 and 1:00)*	
SE - 7:30 - 4:30	June 14 - Sept. 7
TM - Friday, closes at 4:00	July and August
UD - 9:00 - 5:00 - Monday through Thursday 9:00 - 3:00 - Friday	July 9 - July 12
8:30 - 5:30 - Monday through Thursday - Friday closed	July 12 - July 23

Oryx is in Arizona which does not observe daylight time, i.e., they are now 3 hours behind Eastern Daylight.

...Carolyn Weller (ERIC Facility)

ERIC FACILITY ACQUISITIONS ARRANGEMENTS

Three new ERIC Facility Acquisitions Arrangements (EFAAs) are listed below:

1. Connecticut State Department of Education
Level 1 - Blanket Release signed by D. Headspeth
2. Florida Univ. P. K. Yonge Laboratory School
Level 1 - J. Jenkins, Director
3. National Home Study Council
Level 1 - M. P. Lambert, Assistant Director

...Grace Sundstrom (ERIC Facility)

PRICES FOR THE NINTH EDITION OF THE THESAURUS OF ERIC DESCRIPTORS

As of May 1, 1982, the price of the 9th edition of the Thesaurus of ERIC Descriptors will be increased to \$35.00. Orders received from the clearinghouses, however, will be processed at the Oryx author discount rate of 50%. Clearinghouses will therefore pay \$17.50.

*Year round

NEW BULLETIN BOARD DISPLAY CREATED BY CAPS

"Spring into the Future with ERIC" are the words emblazoned across the top of an eye-catching display publicizing new CAPS publications. This display, created and designed by work/study student, Lori Peters, splashes colorful spring flowers, stars, and planets on a hall bulletin board strategically located by the Dean's Office in the School of Education, and invites all passersby to solve the question..."ERIC Who?"

...Carol Mills (CG)

ERICKSON AND SMARTE PARTICIPATE IN DC EVENTS

Don Erickson, Director of the ERIC Clearinghouse on Handicapped and Gifted Children, met with a number of other clearinghouse directors on Monday, April 26 in a discussion of ERIC's role in responding to the Practice File RFP.

Don Erickson and Lynn Smarte, Assistant Director, User Services, attended the farewell party for Bob Chesley at NIE on April 27.

...Donald K. Erickson (EC)

OUTSIDE REVIEW OF USER SERVICES PRODUCTS

This year the ERIC Clearinghouse on Handicapped and Gifted Children is sending many of its user services products out for external review (primarily by members of its advisory board). Products such as fact sheets and hot topics papers have been written by both clearinghouse staff and experts in the field, but in the past the drafts were not usually sent out for review.

Although it is always a risky process because reviewers may recommend major changes, they may spot misinformation or the omission of significant information. There has also been success with outside review of a computer search "reprint." The reviewers categorized 400 citations as major references on the topic, minor references, or insignificant ones, which enabled EC to reduce the final bibliography to 150 citations.

...Lynn Smarte (EC)

ERIC/EECE ONLINE

The ERIC Clearinghouse on Elementary and Early Childhood Education (ERIC/EECE) has recently reorganized document processing in order to transmit RIE resumes to the Facility via an Apple II microcomputer and a word processing program. Rather than typing resumes on paper, abstractors now enter resumes directly into the EasyWriter word processing program on the Apple microcomputer. After making revisions or corrections as needed, the abstractor prints out a double spaced paper copy of the resumes for editing. A clerk typist receives the corrected versions of the resumes from the abstract and index editors, enters any changes into the word processor version of the resume, and transmits the online shipment once a week.

Making the transition from OCR forms to computer required testing the ability of the Apple program to be transmitted, staff training in use of the word processor, and planning work flow within the clearinghouse. Plans are underway to include CIJE in the weekly transmissions.

...Linda Baskin (PS)

ACQUISITIONS FROM AERA

As you know, the ERIC Clearinghouse on Tests, Measurement, and Evaluation solicits all the papers presented at the annual meeting of the American Educational Research Association. This year, over 2,700 solicitation letters were sent out, based on the computerized mailing list provided to us by the AERA offices.

By the end of April, 600 of these papers had already been received. They are still coming in the mail at a rate of about 10-15 per day. Approximately half of the papers received have been transferred to clearinghouses other than TM. In addition, TM has also received a copy of each of the papers submitted for the AERA Division H awards competition for the best reports from or about school districts. Unfortunately, because of the loss of AERA's copies of these papers during shipping, TM will be returning all these to the competition coordinator. However, we will be sending a list of the reports within each clearinghouse's scope area to that clearinghouse for direct solicitation.

If you have any questions about the AERA solicitation in general, or the papers that have been transferred to you, please call me.

...Barbara M. Wildemuth (TM)

ERIC TECHNOLOGY COMMITTEE

A system-wide committee has been formed to come up with recommendations for using new technologies to reach ERIC's goals. It will investigate such technologies as microcomputers, videodiscs, and other delivery systems which offer the potential for reaching our goal of improved access to ERIC users. The committee consists of:

- Linda Baskin (PS)
- Dorothy Beling (EC)
- Ted Brandhorst (Facility)
- John Clark (FL)
- Don Ely (Chair) (IR)
- Jim Prevel (CERIC)
- Barbara Wildemuth (TM)

In addition, the committee will include several correspondent members:

- Bruce Clark (IR)
- Jim Davis (SO)
- Chuck Hoover (CERIC)
- Susan Imel (CE)
- Bernard O'Donnell (CS)

Since ERIC does not have research and development funds, the approach of the committee will be to meet with people who are actively exploring information storage, retrieval, and delivery through computer/videodisc interfaces. The committee will gather information and consider its relevance for the future of the ERIC system.

The first committee meeting was held on April 12 and 13. We first visited Peter Urbach at Pergamon International Information Corporation to see Video Patsearch in operation. Over 750,000 U.S. Patents issued since 1971 can be searched online, and the front page (text and drawing) of any patent will be displayed from one of eight videodiscs. The system is operational and updated on a quarterly basis. The text from the videodisc was sufficiently clear on a 525-line TV monitor, but it would not be comfortable for long periods of reading.

The second visit was to the Lister Hill National Center for Biomedical Communications, National Library of Medicine (NLM). Dr. George Thoma showed us the Fairchild CCD optical scanner; and described a microfiche scanner from Planning Research Corporation which stores data on magnetic tape, and the Kurzweil data entry machine which converts existing printed materials to computer-compatible formats. Dr. Charles Goldstein, author of "Optical Disk Technology and Information" (Science, February 12, 1982), provided us with an overview of videodisc technology, and also provided a demonstration of a "user cordial interface" using NLM's Integrated Library System.

A second meeting, planned for May, will include visits with David Remington, Library of Congress; Roger Knaus, Medlars, NLM; and staff from Metamedia Systems, Germantown, Maryland. Any suggestions which you might have for committee activities, or for ideas which we should consider in our planning, should be sent to Don Ely or any member of the committee.

...Barbara Wildemuth (TM)

NEW PUBLICATIONS

NEW SPOTLIGHTS AT CAPS

The CAPS "Spotlight" series of multicolored information cards has four new titles:

- Counseling for Abuse and Neglect
- Counseling and Individualized Education Programs (IEP's)
- Counseling for Stress and Burnout
- Counseling Troubled Youth.

The cards feature 3-5 ERIC documents about topics of current interest to helping professionals. We make them available to patrons as an off-the-shelf item, include them in workshop and information packets and in publication orders, and display them on bulletin boards and at conventions. See Attachment 6 for samples. (See also June 1981 EAB, p. 16 for article entitled "Spotlighting CAPS.")

...Debbie Herbert (CG)

NEW PUBLICATIONS—RC

Four new publications are now available from the ERIC Clearinghouse on Rural Education and Small Schools:

- The Principals in Rural America. Alfred P. Wilson. \$10.00.

Presents a review of relevant available literature by dividing the functions of rural principals into six categories (instruction/curriculum leadership, personnel guidance, school/community relations, administrative responsibilities, evaluation, professional improvement) and provides helpful suggestions and material for each role.

- The Mexican American Child in Special Education. Richard F. Rodriguez. \$8.00.

A state-of-the-art review that discusses the over-representation of minority children, particularly Mexican Americans, in special education classes; the need for integration of cultural and linguistic characteristics into psychological assessment instruments; and the need for early identification of gifted students.

- Migrant Parents' Rights and Responsibilities: A Handbook. Ramon Gonzales. \$9.50.

Provides information to assist school personnel in informing migrant parents about the rights and responsibilities they have, both as members of parent advisory councils and as individual parents, in the education of their children. The handbook is written in both English and Spanish.

- Continuing a College Education:
 - A Guide for the American Indian Student
 - A Guide for the Family of the American Indian Student
 - A Guide for Counseling the American Indian Student

The 3-volume set of resource guides, written by Carol Minugh, were developed to assist the American Indian student transfer successfully from a 2-year community college to a 4-year college or university. The guides are available at \$4.50 each or \$10.00 a set.

BOYLE REPLACES CAGLE AT EC

Nancy Cagle, Administrative Assistant at the ERIC Clearinghouse on Handicapped and Gifted Children for the past three years, resigned on April 30, 1982 in order to assume a similar position with another company in Reston,

Virginia. Her position will be filled by Mrs. Carolyn Boyle, who has been a secretary with the Clearinghouse for the past 3½ years.

...Donald K. Erickson (EC)

CHISOLM AND MOORE HIRED BY TM

Pamela Chisolm has been hired as a clerical assistant, effective April 5. She comes to the Clearinghouse after working as a clerical assistant and as a key entry operator in other areas of the Educational Testing Service.

Cheryl Moore is the new indexer/abstractor at ERIC/TM. Cheryl studied English and secondary education at Glasboro (NJ) State College and received her MLS from Rutgers University. Prior to joining the Clearinghouse staff, she worked as a night reporter for Asbury Park Press and as a reference librarian in various technical and public libraries. One of Cheryl's many interests is writing poetry.

Welcome Pamela and Cheryl!

...Anita Labib (TM)

MEETINGS, WORKSHOPS, SPEAKING ENGAGEMENTS

ERIC/ACVE ADVISORY COMMITTEE MEETS

Five members of the ERIC/ACVE Advisory Committee came to Columbus for a two-day meeting in April. After an overview of clearinghouse operations, the group discussed possible topics and authors for major clearinghouse publications, linkages with professional organizations, and acquisitions arrangements with various agencies. Members attending were Norm Gysbers, Jan Kilby, Carol Kasworm, Don Clark, and Irma Keyes.

CAPS ATTENDS NAWDAC CONFERENCE

The 66th Anniversary Conference of the National Association for Women Deans, Administrators, and Counselors, held in Indianapolis, Indiana, March 30-April 3, was attended by Helen Mamarchev. She participated in two presentations on the topics of computer literacy in student personnel services and differences and similarities between black and white female educators. Spring was in full evidence in Indy, complete with tornado watches throughout the duration of the conference.

ERIC/EC PROVIDES ALL ERIC DISPLAY AT CEC 60th

A display of products from all ERIC Clearinghouses was a focal point at the 60th Annual International Convention of The Council for Exceptional Children in Houston, April 12-16, 1982.

Carol Lloyd ran minisearches steadily for both novices and "old" ERIC users while Don Erickson, Lynn Smarte, Angele Thomas, Jean Nazzaro, and Marion Cambel extolled the advantages of ERIC to large numbers of the 6,000 convention attendees. Current findings are that ERIC is heavily used by university students, who often have studied its use in introductory special education courses.

...Marion Cambel (EC)

EXTENDING EC'S WORKSHOP CAPACITIES

In a 1½ hour workshop session at The Council for Exceptional Children's annual convention in Houston (April 12-16), Lynn Smarte trained 110 people to give workshops on the ERIC and ECER databases. This network of Special Education Resource Specialists includes undergraduate and graduate students, special education teachers, media specialists, and university professors, who will give workshops for their local CEC chapters and other colleagues using display materials and a booklet furnished by ERIC/EC. Anne Auten at ERIC/CS has adapted the booklet with examples in their scope. Copies of the booklet will be provided to every clearinghouse.

...Lynn Smarte (EC)

ERIC/TM CONDUCTS WORKSHOP

On April 1, Anita Labib, User Services Coordinator, conducted an ERIC workshop for the Monmouth County Area (NJ) Reference Council. The workshop, held at Brookdale Community College, included a detailed overview of the ERIC system, computerized literature searches, distribution of relevant literature, and a question/answer period.

ERIC/UD ATTENDS CONFERENCES AND PRESENTS INFORMATION SEMINARS

Erwin Flaxman, Director of the ERIC Clearinghouse on Urban Education, attended the annual meeting of the National Association for Asian and Pacific American Education held in Seattle, Washington, between April 22-24, 1982. Dr. Flaxman spoke to the Executive Council about both Clearinghouse and system activities which were related to Asian and Pacific American Education. An exhibit booth displayed Clearinghouse materials.

Michael Webb, Assistant Director of ERIC/CUE, presented a paper at the tenth annual conference on Minority and Ethnic Studies held in Santa Clara, California, between April 14-17, 1982. The paper was entitled "Disadvantaged Minorities and the Arts." Themes of the conference were "Ethnicity and Political Viability," and "Ethnicity and the Arts." ERIC/CUE and systemwide products were exhibited.

Darryl Alladice, Processing Coordinator, attended the annual meeting of the Urban Affairs Association in Philadelphia, Pennsylvania, between April 14-17, 1982. Some of the key issues addressed were the impact of the Reagan Administration on urban policy, citizen participation, and urban management with a multi-governmental perspective. There was a display of Clearinghouse materials, and conference papers were solicited.

On April 19-20, 1982, Michael Webb conducted an ERIC Information Seminar with bilingual coordinators in the San Jose (California) Unified School District. The seminar, part of the Clearinghouse's Urban Schools Project, was designed to increase participant's knowledge of and ability to use the ERIC system. In addition, the seminar was designed to acquaint participants with the range of ERIC resources that were developed by or for urban school districts. Approximately twenty participants were in attendance. While Mr. Webb was in the area, he paid courtesy call to Gene Holbrook, Director of the San Mateo Educational Resources Center and discussed recent ERIC/CUE and system products and activities.

Ten research and evaluation specialists of the Newark (New Jersey) Unified School District attended an ERIC information seminar held in Newark on April 29, 1982. The seminar, conducted by Michael Webb and George Morrow, Information Specialists, focused on ERIC resources developed by urban school districts across the country in the areas of academic achievement, school program improvement, and basic skills improvement. The seminar was the fifth and last in a series that included the following school districts: Chicago, St. Louis, Miami, and San Jose.

VISITORS HOSTED BY ERIC

TAIWANESE MANPOWER SPECIALIST VISITS CAPS

Tien-Chih Yen, Senior Manpower Specialist for the Manpower Development Committee of the Council for Economic Development and Planning and Associate

Professor at the National Cheng-Chi University in Taiwan, Republic of China, visited the ERIC Clearinghouse on Counseling and Personnel Services on April 6, 1982.

Dr. Yen was most interested in the history of ERIC, as well as current "hot" topics in the fields of school counseling and career development programs. Although he had been a visiting professor in Chicago for several months, he was not quite prepared for Ann Arbor's sudden spring snowstorm, particularly since Taiwan does not receive much white stuff!

...Helen L. Mamarchev (CG)

DR. JOSE DE RABAGO VISITS ERIC/CUE

Dr. Jose De Rabago at the University of Santiago, Spain, visited the ERIC Clearinghouse on Urban Education on April 12, 1982. Dr. De Rabago met with Michael Webb, Assistant Director, to discuss the state-of-the-art with respect to curriculum for nontraditional courses taught in institutions of higher education, and instructional programs and practices utilizing film and television on the higher education level.

DIRECT DATA ENTRY FROM THE ERIC CLEARINGHOUSES TO THE ERIC FACILITY
VIA COMMUNICATING WORD PROCESSORS, MICROCOMPUTERS, AND OTHER SYSTEMS

—STATUS REPORT—

At present, the ERIC Facility is receiving non-OCR RIE and CIJE document resume input from seven of the sixteen ERIC Clearinghouses (44%). A variety of systems and procedures (as listed below) are being used by the seven participating Clearinghouses to prepare and transmit their resume input to the Facility.

CLEARINGHOUSE	HARDWARE
EC	Galaxy minicomputer (generates computer-compatible magnetic tape that is then physically transmitted to the Facility)
HE	Vector microcomputer
IR	Xerox 860 Word Processing System
PS	Apple II microcomputer
RC	IBM 370 Computer (SCRIPT Text Editing System)
SO	IBM Office System/6 Word Processing System
SP	PRIME 550 minicomputer

Located at the Facility is a Xerox 850 Word Processing System equipped with a communications option that makes it capable of receiving and transmitting data at 300-1200 BAUD, either asynchronously or bisynchronously. Two modems are interfaced to the system to permit either mode of transmission: a BELL 212A (asynchronous 300-1200 BAUD), and a BELL 202S (bisynchronous 300-1200 BAUD). The Facility's Xerox 850 system can be used as either a communicating intelligent terminal (receiving and controlling data transmitted by other word processing systems and microprocessors), or as a slave station (simply recording data sets as stored on another computer's disk packs). This latter mode of transmission is employed when receiving data from the RC and SP computers.

The Xerox 850 System is capable of receiving data in either ASCII or EBCDIC codes. Transmission rates vary between Clearinghouses and are dependent upon the modem capability at the sending station. A transmission rate of 1200 BAUD should be used, when available, as the higher transmission rate reduces the transmission time and associated connect time costs.

Throughout this evolving process, the ERIC Facility has felt that it was essential to accommodate itself to the differing equipment situations at the different Clearinghouses. However, now that approximately 50% of the Clearinghouses are bypassing the Optical Character Recognition (OCR) mode of data entry, we are anxious to shift the remaining 50% over to direct methods so that we can dispense with the scanning operation altogether.

CH	CITY	CONTACT	TELEPHONE NUMBER	HARDWARE	TRANSMISSION MODE	SCHEDULE
EC	Reston, VA	Dorothy Beling	(703) 620-3660	Galaxy (Mini)	Mail	EC mails tape once a month.
HE	Washington, DC	Lisa Hoogstra	(202) 296-2597	Vector (Micro)	Asynchronous	Every Wednesday. HE calls in at 10:30 a.m.
IR	Syracuse, NY	Carol Harris	(315) 423-3614	Xerox 860 (WPS)	Asynchronous	Every Tuesday. Facility calls in at 3:00 p.m.
PS	Urbana, IL	Linda Baskin	(217) 333-1386	Apple II (Micro)	Asynchronous	Every Wednesday. PS calls in at 3:00 p.m.
RC	Las Cruces, NM	Laura Connolly	(505) 646-4942	IBM-370 (SCRIPT)	Asynchronous	Every Tuesday. Facility dials in after lunch.
SO	Boulder, CO	Paulette Bliss	(303) 492-8434	IBM-OS/6 (WPS)	Bisynchronous	Every Tuesday. SO calls in at 10:30 a.m.
SP	Washington, DC	Cathy Julius	(202) 659-5812	PRIME-550 (Mini)	Asynchronous	Every Wednesday. Facility dials in, as convenient.

RESOURCES IN EDUCATION (RIE)

CUMULATIVE INDEXES

RIE cumulative indexes have had a checkered history. At one time (1966-1974) annual indexes were published by GPO. When these volumes became too large, a change was made to two semiannual indexes (1975-1979). As a cost-saving measure, a further change was then made for 1980-1981 to a single GPO-produced semiannual index covering January-June. It was felt that the second semiannual index (for July-December) was unnecessary in view of the fact that across this same span, commercial publishers prepared annual indexes. Macmillan covered the period 1966-1978; Oryx Press picked up the sequence in 1979.

In 1982, however, a return was made to two GPO-printed Semiannual Indexes in order to satisfy the needs of the national depository library system.

The table on the reverse side of this sheet describes the situation that pertained for each year of publication of RIE. Addresses are provided for all three sources. The Oryx volumes are all still in print. Macmillan volumes are still in print for the years 1973-78. GPO generally retains in print only the last year or two.

April 19, 1982

Mr. James Prevel
NATIONAL INSTITUTE OF EDUCATION
Educational Resources Information Center
1200 19th Street, N.W.
Washington, D.C. 20028

Dear Mr. Prevel:

Enclosed is the revised CIJE Master list. Please accept my apologies for the delay, but considerable work has been put into this list and we believe it was well worth the effort.

The list has been re-created virtually from the first CIJE Source Journals Index published in 1969. Every title has been individually compared against that list; any not on it were added (except those which may have appeared only once), and our permissions for those titles have been carefully checked.

We have also added a key to the symbols used throughout, located on the last page, and one we hope will give you a better idea of our specific permissions.

The number of titles contained on this list rose from 856 to 1,110 because of this project, and we hold full permissions for approximately 65% of those titles. As this list is considerably different from previous ones, we will not note all changes individually. As before, you will continue to be notified of any new additions on a monthly basis.

We are confident that this is now a more accurate representation of the journals indexed in CIJE and our permissions for those journals.

Please call or write if you have questions, comments, or suggestions, or if I can assist you in any way.

Sincerely,

Christine

Christine M. Kwasny

Counseling for Abuse and Neglect

A CURRICULUM ON CHILD ABUSE AND NEGLECT: LEADER'S MANUAL. J. A. Reyes Associates, Inc., Washington, D.C. This leader's curriculum guide is designed to help multidisciplinary, multiagency, or single agency groups understand and organize effective community action against child abuse and neglect. The eight units are: (1) understanding abuse and neglect; (2) physical abuse; (3) neglect; (4) emotional maltreatment; (5) sexual abuse; (6) protective intervention; (7) role of the courts; and (8) community planning and coordination. Each unit lists goals, objectives, rationale, equipment, space, staff requirements, teaching reminders, and titles of resource materials. Units also include detailed activity suggestions, role play profiles and instructions, and scripts for filmstrips. (1979, ED 203 601, EDRS Price: MF \$0.91, PC \$24.15 Plus Postage, 333p.)

FAMILY VIOLENCE: INTERVENTION STRATEGIES. Ellen R. Barnett and others. Problems related to family violence are complex and involve large numbers of people in this country. Numerous types of family violence are initially identified in this manual, but the focus is on the concerns of battered women, or interspousal abuse. Information includes: (1) the nature, causes and effects of family violence; (2) identification of violent families; and (3) intervention strategies. Legal issues are discussed, as are program planning, coordination and evaluation. Several exhibits and crisis assessment profiles are provided. (1980, ED 195 925, EDRS Price: MF \$0.91, PC \$8.60 Plus Postage, 103p.)

WHERE DO YOU LOOK? WHOM DO YOU ASK? HOW DO YOU KNOW? INFORMATION RESOURCES FOR CHILD ADVOCATES. Janet L. Shur and Paul V. Smith. This handbook focuses on institutional rather than on individual neglect and abuse of children. Specific problems facing children are documented and strategies offered for alleviating those problems at the federal, state, and local levels, as well as in the public and private sectors. A discussion is presented on the United States Census and the use of census data to obtain helpful demographic information on children. Guides to specific sources of information are appended. (1980, ED 204 287, EDRS Price: MF \$0.91 Plus Postage, PC Not Available From EDRS, 143p.)

ELDER ABUSE; JOINT HEARING BEFORE THE SPECIAL COMMITTEE ON AGING, UNITED STATES SENATE. This report examines elder abuse as a growing problem in America. The testimony considers the benefits of community-based services for the elderly living with relatives, explores other forms of long-term care, and investigates ways to aid victims of elder abuse. An overview of the problem is given in the statements of both witnesses and victims of elder abuse. A description of the legal process, the relocation of victims, and other methods used to resolve the abuse problem are presented. The reluctance of victims to report abuse and their fear of retaliation from abusive relatives are discussed. The appendices contain a state-wide survey on current protective services, the Model Adult Protective Services Act, and a discussion of suggested legislation. (1980, ED 204 663, EDRS Price: MF \$0.91 Plus Postage, PC Not Available From EDRS, 170p.)

CHILD ABUSE AND NEGLECT: THE RESPONSIBILITIES OF EDUCATORS. Rosann K. Manchak. This annotated bibliography of resources about child abuse and neglect begins with an introduction to the problem and causes of child abuse, legal definitions of abuse and neglect, and statistics illustrating the incidence of abuse. Designed to serve as an informational resource for educators, the materials are classified by categories pertaining to definition, recognition, reporting procedures and policies, treatment of victims, rehabilitation of perpetrators, and prevention. The references are arranged alphabetically by author within each category. Additionally, the responsibilities of educators dealing with child abuse and neglect are outlined in the bibliography, as well as suggestions directed toward teachers, administrators, counselors, and school health personnel. (1981, ED 204 675, EDRS Price: MF \$0.91, PC \$3.65 Plus Postage, 30p.)

The documents cited in this issue of SPOTLIGHT are among the many indexed and abstracted in the ERIC system. Documents are generally available in two forms: microfiche (MF) and/or paper copy (PC). Both forms may be ordered from EDRS/CMIC, P.O. Box 190, Arlington, VA 22210. Payment must accompany orders.

Counseling and Individualized Education Programs (IEP's)

A PRIMER ON INDIVIDUALIZED EDUCATION PROGRAMS FOR EXCEPTIONAL CHILDREN: PREFERRED STRATEGIES AND PRACTICES. Daniel P. Morgan. This revised primer was developed as a "how to" guide to assist administrators, teachers, and parents in the development and implementation of individualized education programs (IEP's) for exceptional children. The revision reflects a broadened scope which defines as exceptional not just the handicapped child but any child who needs specially designed instruction. The philosophy and rationale of IEP's, the meeting to develop the IEP, planning and goal setting, program implementation, assessment guidelines, special services selection, and the roles of teachers, parents, and administrators in IEP development and implementation are presented. Samples of instructional materials, program objectives, evaluation forms and tables of relevant data are included. Where applicable, the chapters include a section of the 1977 federal regulatory requirements (P.L. 94-142) for specific IEP concerns and the clarification of those requirements in the policy paper of the Office of Special Education of the U.S. Department of Education, DAS Information Bulletin #64. Three appendices provide excerpts from the Federal Register concerning IEP's, additional IEP resources and samples of IEP's. (1981, ED 202 186, EDRS Price: MF \$0.91, PC \$10.25 Plus Postage, 129p.)

A HANDBOOK FOR IEP DEVELOPMENT: IMPLEMENTATION OF PUBLIC LAW 94-142. Barbara S. Merves and others, Editors. This manual describes the procedures and forms developed by the Montgomery County, Pennsylvania, Intermediate Unit to assist teachers and administrators involved with exceptional students to implement the requirements of the Education for All Handicapped Children (P.L. 94-142). An initial section discusses the purpose and provisions of the 1979 law and includes Pennsylvania's broadened definition of exceptional to include mentally gifted. A concise statement of the seven mandated components of an Individualized Education Program (IEP) and a brief discussion of

its underlying philosophy are presented. Additional topics covered by the Manual include: 1) IEP procedures for exceptional students in vocational education; 2) parent participation in the IEP process; 3) evaluation procedures; 4) IEP procedures for dismissal, graduation, and transfer; and 5) procedures for due process. A section of sample forms to be used at each level of the IEP process is included. Final sections defining state standards and common terms conclude the manual. (1980, ED 203 585, EDRS Price: MF \$0.91, PC \$8.60 Plus Postage, 109p.)

COUNSELING AS A RELATED SERVICE. New York State Education Department, Albany. Guidelines in this publication are concerned with the provision of counseling as a related service for handicapped children. They are written to assist school personnel in discharging their responsibilities when the Committee on the Handicapped (COH) determines that a pupil requires counseling. Legal authorization for such counseling is reviewed and the counseling procedure is discussed. The COH recommendation for counseling is described as one section of Phase I of the development of the Individualized Education Program (IEP). Other Phase I activities are presented, e.g., the basis for the COH recommendation and a description of the school-based assistance for the handicapped student and his/her family. Phase II of the IEP is detailed as an outline of specific objectives, goals, and evaluation procedures. The various stages of school-based counseling and its synchronization with the IEP are described. Case illustrations of counseling at Prephase I, Phase I, Phase II, and a counseling continuum are provided. Although geographically specific, this document could serve as a useful guide for developing counseling programs for handicapped students. (1980, ED 203 248, EDRS Price: MF \$0.91, PC \$2.00 Plus Postage, 22p.)

The documents cited in this issue of SPOTLIGHT are among the many indexed and abstracted in the ERIC system. Documents are generally available in two forms: microfiche (MF) and/or paper copy (PC). Counseling for Stress and Burnout

STRESS AND BURNOUT: A PRIMER FOR SPECIAL EDUCATION AND SPECIAL SERVICES PERSONNEL.

Stan Shaw and others. The primer is designed to help promote mental, physical, and emotional health in school personnel and to prevent job burnout. The primary focus is on interventions that special education and special services personnel, administrators, and teacher trainers can implement to manage stress and prevent burnout. Nine chapters address the following topics: the problems of stress and burnout for educators, the problem of burnout for special services personnel, assessment of individual and organizational stress, modification of special education policies and procedures, inservice training, management of stress and prevention of burnout, the administrator's role, the role of the special services professional, and strategies for preservice training. A final chapter summarizes each of the nine previous chapters and concludes that on a formal level, schools and colleges of education in cooperation with local school districts should encourage and support major research in the areas of stress management and burnout prevention. It also suggests that school boards and teacher organizations carry out informal study projects aimed at investigating what makes a superior teacher superior and what prevents a poor teacher from becoming significantly better. Appended are a paper on analyzing observations of stress conditions, a bibliography, and information on general models of intervention (1981, ED 201 168, EDRS Price: MF \$0.91, PC \$5.30 Plus Postage, 69p.)

AN EPIDEMIOLOGICAL APPROACH TO STAFF BURNOUT.

Edna Kamis. This paper describes a conceptual model of staff burnout in terms of independent, intervening and dependent variables. Staff burnout is defined, symptoms are presented, and the epidemiological approach to burnout is discussed. Components of the proposed model, which groups determinants of mental health into three domains, consist of: (1) determined and changeable predisposing risk factors; (2) developmental and situational

precipitating risk factors; and (3) intervening variables of skills and support, manifested as degrees of vulnerability or of strength. The model suggests that the combination of risk factors, mediated by skills and support systems, determines mental health and modes of coping. Suggestions and examples for prevention and intervention strategies are given, and both direct and indirect costs of burnout are discussed. A diagram of the model is also provided. (September 1981, ED 203 253, EDRS Price: MF \$0.91, PC \$2.00 Plus Postage, 17p.)

BIBLIOGRAPHY OF SELECTED LITERATURE IN THE 1970's RELATED TO CRISES, FAMILY STRESS, COPING, AND ADAPTATION.

Barbara Chesser. This bibliography of literature from the 1970's related to crises, family stress, coping, and adaptation contains references of particular interest to professionals in counseling, education, and family social, psychological and health services. The bibliography is divided into 26 categories, references are classified according to major themes as well as publication date and related reference sources. References in other categories focus on areas including: theory, crises, stressors, sexuality, developmental crises, coping, parenthood, pregnancy, children, children with disabilities, mid-life crises, divorce, women, aging, illness, death, childhood death, widowhood, violence, rape, suicide, substance abuse, mental illness, and crises in specific situations or with specific populations (1980, ED 201 921, EDRS Price: MF \$0.91, PC \$8.60 Plus Postage, 111p.)

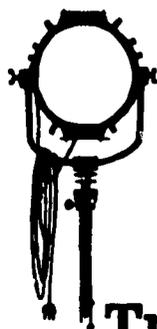

The documents cited in this issue of SPOTLIGHT are among the many indexed and abstracted in the ERIC system. Documents are generally available in two forms, microfiche (MF) and/or paper copy (PC). Both forms may be ordered from EDRS/CMIC, P.O. Box 190, Arlington, VA 22210. Payment must accompany orders.

SPOTLIGHT

from ERIC/CAPS

Counseling Troubled Youth

COVERT SELF-INSTRUCTION AMONG DELINQUENT ADOLESCENTS: GETTING THEM TO STOP AND THINK BEFORE THEY ACT. Michael J. White and James J. Snyder. This document describes a behavior modification program for adolescents in a residential treatment center and illustrates positive results of the research. The program focuses on teaching the adolescent self-verbalizations which are conducive to supportive behavior. Results of the study indicate that the addition of this self-instructional component to the behavior modification program created change in adolescents who were admitted to the treatment center because of severe behavior problems. (1979, ED 201 550, EDRS Price: MF \$0.91, PC \$2.00 Plus Postage, 24p.)

ON THE RUN: A GUIDE FOR HELPING RUNAWAY YOUTH IN TRANSPORTATION CENTERS. U.S. Department of Transportation. This guide is developed for individuals, organizations, and communities interested in helping runaway youth. The first four sections discuss the numbers and types of runaways and illustrate the problems presented by youth using buses and trains to run away from home. Specific characteristics and behavior of runaways are outlined to assist in the design of programs for identifying and assisting these youth. The fifth section highlights successful elements of existing runaway programs; recommendations for establishing and maintaining programs are presented. The sixth section consists of detailed case studies of four separate programs that address the problem of runaways in and around bus stations. A directory of organizations familiar with the problems of and programs for runaways in and around transportation centers is also included. (1980, ED 203 247, EDRS Price: MF \$0.91, PC \$3.65 Plus Postage, 30p.)

DROPOUT PREVENTION: WHAT ARE THE EFFECTIVE INGREDIENTS? James W. Augustin and Jan L. Novak. From 1976-1979, over 46,000 Wisconsin youth left high school before receiving a high school diploma, a number reflective of a national trend. Research has documented dropout characteristics, their reasons for leaving school, and the consequences of their decisions, but little effort has been made to examine ways in which schools and com-

munities attempt to deal with potential dropouts. The existing programs in Wisconsin designed to assist potential dropouts were identified and catalogued to develop a model for comprehensive dropout prevention strategies. Telephone and mail surveys, site visits, and reviews of school program reports were conducted with school administrative personnel and community-based agency coordinators. Results suggested a dropout intervention strategy which would: (1) be student-centered; (2) offer a variety of services and activities; (3) provide school and community programs at the K-12 level; and (4) use preventive and therapeutic counseling techniques. (1980, ED 192 235, EDRS Price: MF \$0.91, PC \$3.65 Plus Postage, 32p.)

TEENAGE PREGNANCY: A NEW BEGINNING (AND) WORKING WITH CHILDBEARING ADOLESCENTS. A GUIDE FOR USE WITH TEENAGE PREGNANCY: A NEW BEGINNING. Linda Barr and Catherine Monserrat. These materials comprise a classroom or individualized curriculum for education of school-age parents. The student textbook covers these topics: pregnant teenager's self-image, questions and concerns; decision-making process; family planning concepts; and parenting concepts and concerns. A guide for use with the text assists professionals from varied disciplines in improving their effectiveness in working with pregnant teenagers and teenage parents and includes materials on teenage sexuality, implications of adolescent childbearing, strategies for intervention, and bibliographic resources. This package also includes five other booklets for professionals and students. (1979, ED 202 991, EDRS Price: MF \$0.91 Plus Postage, PC Available From New Futures, Inc., 2120 Louisiana, N.E., Albuquerque, NM 87110, 415p.)

The documents cited in this issue of SPOTLIGHT are among the many indexed and abstracted in the ERIC system. Documents are generally available in two forms: microfiche (MF) and/or paper copy (PC). Both forms may be ordered from EDRS/CMIC, P.O. Box 190, Arlington, VA 22210. Payment must accompany orders.

ACTION ITEMS

ERIC USERS-DESERVE THE BEST—SEND ORIGINALS FOR MICROFILMING

From time to time clearinghouses send Xeroxes of originals for filming by EDRS and retain the original for clearinghouse use. While it is understandable that a clearinghouse may have a need for a document that is being entered in RIE, it should be remembered that the EDRS should receive the best copy, i.e., the original, for filming and not a copy that is one generation removed. Frequently these Xeroxes are of government publications which may be received in duplicate by the clearinghouse. If only one copy is received, the clearinghouse should retain the Xerox; a second copy is frequently obtainable via Frank Bryars, if one is needed. In any case, originals should be sent for filming.

...Carolyn Weller (ERIC Facility)

NECESSITY OF ADHERING TO RIE MASTER SCHEDULE FOR SHIPMENTS

Clearinghouses are reminded that while they may be sending bibliographic data to the Facility electronically, the actual shipment schedule for the physical documents must still be adhered to, i.e., each week's documents mailed by Friday at the latest. The Facility must paginate all documents and seriously late shipments can conceivably lead either to a late RIE or to the removal of some documents from an issue, neither of which is desirable. If for any reason a shipment will not be made for a given week, the Clearinghouse should always notify the Facility.

...Ted Brandhorst (ERIC Facility)

ERIC BACKFILE CORRECTIONS

As an online database available at one of the lowest prices, the ERIC files receive a great deal of user exposure. Any errors contained in the files inevitably are noticed eventually. Since the online vendors periodically re-load files, ERIC has the opportunity to correct its errors in a kind of never-ending quality control function. For this reason, we urge all components of the ERIC system to report any significant errors discovered to the Facility so that we can change the ERIC Master Files accordingly. At the present time, certain user organizations, such as SMERC, are routinely forwarding to us errors discovered in the course of their work. We would like to see the clearinghouses also active in this area. ERIC has a reputation as a "clean" database. Let's all help keep it that way.

...Ted Brandhorst (ERIC Facility)

By popular demand, we are republishing the following note:

CLEARINGHOUSE PUBLICATIONS: ALL WITH PUBTYPE 071; SOME HIGHLIGHTED

We are still having difficulty identifying those items that should be included on the "Highlights" page. Many clearinghouses are forgetting to identify these items for us by marking their log sheets. Please help us with this problem by marking these items "Highlight." We don't want to miss (and fail to announce) an appropriate item, but unless you mark it for us that could happen. Remember also that all clearinghouse publications should be noted on the log sheet and tagged with the Publication Type code 071.

...Sandra Hixson (ERIC Facility)

CATALOGING ADVISORIES

CATALOGING ADVISORY—SEND DOCUMENTATION FOR ANY INFORMATION NOT IN DOCUMENT

If the clearinghouses include in their cataloging any information that has not been taken from the document itself, then some supporting documentation (e.g., correspondence, permission forms, etc.) for the information should always be sent along with the document.

Care should always be taken to ensure that the source for cataloging data not be deleted during the document preparation process, e.g., a cover should not be deleted if it contains information not available elsewhere (unless the information is transferred to the new first page).

Along these same lines, whatever documentation is sent along with Level 3 entries should always be sufficient to support the cataloging job done on the item.

...Ted Brandhorst (ERIC Facility)

CATALOGING ADVISORY—CFDA NUMBERS

Recently documents have been received that contain CFDA numbers. This acronym stands for Catalog of Federal Domestic Assistance. The number that is associated with the acronym, e.g., CFDA: 13.433A, refers to a citation in that catalog that describes in detail a funding program, supporting legislation, eligibility, etc. The number is not document specific and should not be construed as a report number, contract, or grant number. It can safely be omitted in cataloging.

...Ted Brandhorst (ERIC Facility)

CATALOGING ADVISORY—SOURCE CODE DIRECTORY ALPHABETIZATION

The monthly cumulative edition of the Source Code Directory was recently sent out to clearinghouses. This edition included the July RIE codes which implemented the changes in the institutional names according to the 1982 EPM guidelines. Many of the new names require the two-character postal abbreviation that in turn affects the alphabetization of names in the Directory. Clearinghouses are cautioned to thoroughly check the listing before determining that a name does not exist.

Examples of Effect of State Abbreviations on Sort Position:

Detroit Public Schools, Mich. Dept. of Curriculum
Development Services. BBB19971

Detroit Public Schools, Mich. Dept. of School
Libraries BBB19677

Detroit Public Schools, Mich. Dept. of Social
Studies. BBB19748

Detroit Public Schools, Mich. Div. of Curriculum and
Educational Research. BBB19747

→ Detroit Public Schools, MI. Dept. of Bilingual
Education. BBB20192

...Carolyn Weller (ERIC Facility)

CONTRACT AWARD

OPERATION OF THE FL CLEARINGHOUSE AWARDED TO CENTER FOR APPLIED LINGUISTICS

A 3-year contract for the operation of the ERIC Clearinghouse on Languages and Linguistics was awarded by the National Institute of Education to the Center for Applied Linguistics for the period June 1, 1982 - May 30, 1985.

The working titles of six major clearinghouse products supported during the first year of this contract are:

- "Bilingual and Foreign Language Education: A Partnership in Progress"
- "Educational Technology in Second Language Teaching"
- "Language Variation in English as a Second Language"
- Small-Group Communication Activities in ESL and FL Classrooms"

- "Testing Second Language Skills in Communicative Contexts"
- "The High School Goes Abroad: International Homestay Exchange"

...Pat Coulter (Central ERIC)

NETWORK NEWS

CHRISTINE ST. LAWRENCE RESIGNS AS RIE EDITOR

At the end of April 1982, Christine St. Lawrence left the ERIC Facility to go to the Clearinghouse on Bilingual Education (operated by Interamerica, Inc.). Christine had worked as an RIE editor for over three years and had functioned as the Senior Editor, in charge of the group, for the past year.

In her new job, Christine hopes to get into Marketing and to also make more use of her educational background in Sociology. During her tenure with ERIC, Christine was dedicated to achieving a quality database. We will miss her, but wish her well in her new career objectives.

...Ted Brandhorst (ERIC Facility)

ERIC/SE TRANSMITS RIE DATA VIA AMCARD WORD PROCESSING SYSTEMS

Beginning in early June, the ERIC Clearinghouse on Science, Mathematics, and Environmental Education became the 8th clearinghouse to transmit its RIE data to the Facility electronically.

A report on the status of data entry at all clearinghouses was made by the Facility at both of the recent regional meetings, and is repeated here as Attachment 1.

...Pat Brown (ERIC Facility)

CS, EC, AND FL REPORT SUMMER HOURS

In addition to the 6 clearinghouses (CE, CG, PS, SE, TM, and UD) and Oryx Press who announced their summer hours in the May 1982 issue of the EAB (page 7), CS, EC, and FL have now reported theirs:

CS - During June CS will close at noon on Friday.

EC - 8:00 - 5:00 - Monday through Thursday - June 1 to August 27
Friday closed

FL - 8:30 - 5:15 - Monday through Thursday - June 1 to September 3
8:30 - 12:30 Friday

...Elizabeth Pugh (ERIC Facility)

THE ANSWER VAN KEEPS ON TRUCKIN'

A great big thank you to each Clearinghouse for sending your Answer Van materials so promptly!!! We are now in the process of putting everything together for a dissemination date of about July 1. Although this product is a sales item, a certain number will be disseminated as complimentary copies. Please send the names and addresses of ERIC collection holders who may benefit from this resource to me as candidates for the complimentary copies.

...Helen L. Mamarchev (CG)

ERIC/EC HOSTS PROJECT MONITOR AND DIRECTOR OF SMERC

The staff of the ERIC Clearinghouse on Handicapped and Gifted Children spent a profitable and pleasant afternoon on May 6 playing host to Judi Conrad (our project monitor) and Jean Holbrook, Director of SMERC. Jean also visited the ERIC Clearinghouse on Higher Education on her visit to Washington, DC. We were pleased to be one of the stops on her itinerary.

...Donald K. Erickson (EC)

ERICKSON PARTICIPATES IN NARIC EVALUATION

Don Erickson spent two full days (May 18 and 19) as part of an onsite evaluation team that examined all operational aspects of NARIC. NARIC is The National Rehabilitation Information Center operated by The Catholic University in Washington, DC. This evaluation coincides with the last year of a five-year NIHR grant under which NARIC has been operating. An RFP is expected within the next few months which will call for the continued operation of NARIC.

...Donald K. Erickson (EC)

ERIC/HE PROVIDES INFORMATION FOR TIME MAGAZINE ARTICLE

A representative of Time Magazine called the ERIC Clearinghouse on Higher Education for information on current trends and publications in liberal arts, general education, and core curriculum. Margot Sanders Eddy sent her a number of our Research Reports and Research Currents, and referred her to some specialists in the field. A large article is forthcoming in Time.

...Margot Sanders Eddy (HE)

MARGOT SANDERS EDDY ELECTED HEG SECRETARY

Margot Sanders Eddy, Research Associate, has been elected to the office of Secretary of the Higher Education Group of Washington, DC.

...Laura Ciarniello (HE)

THE TEACHER'S ATTITUDE TOWARD EDUCATION RESEARCH

A brief article, "Teachers Tell All" by John Hollifield in the February-March 1982 issue of Today's Education explains why research seems to have no direct utility for teachers. "The main reason," he says, "is that education research is directed towards the goals of researchers rather than of teachers.... Usefulness comes only after the research builds an information base from which someone can derive practical applications and put those applications into a 'how-to-do-it' structure." Beatrice Ward responds from the perspective of the classroom teacher and says research information must have applicability, personal utility, and timeliness.

...Donald P. Ely (IR)

ERIC/PS DIRECTOR LILIAN KATZ TO BELGIUM FOR INTERNATIONAL COMMITTEE

Dr. Lilian G. Katz, Director of the ERIC Clearinghouse on Elementary and Early Childhood Education, traveled to Liege, Belgium on June 6 for a two-week work session for the International Evaluation Association (IEA). Dr. Katz and her co-chairman from the University of Liege are completing a proposal for a study of provisions for and characteristics of preschool education for 3-year-olds in approximately 20 developed and underdeveloped nations. After the proposal is submitted to the General Assembly of the IEA in October, long range plans for the study will be developed.

...Norma K. Howard (PS)

EDINGTON TESTIFIES BEFORE SENATE COMMITTEE

Dr. Everett Edington was invited to give testimony to the Senate Appropriations Subcommittee on Education, Labor, and Human Services on May 5, 1982. He was invited by Senator Harrison Schmitt. Of the nine people on the panel making presentations, there were only two outside of the Washington area. Dr. Edington's presentation was concerned primarily with the research and dissemination of educational information and providing equity for education in rural America.

...Amelita Hill (RC)

BRS ELECTRONIC MAIL SYSTEM

All Clearinghouses which have a contract to search via BRS can also use their computerized mail system. The general procedures are described below:

When you have signed on, request the MSGS database:

ENTER DATA BASE NAME -: msgs

The system will give you the time and date, just like any other database. If a message is waiting, you will see:

01 MESSAGES PENDING. ENTER R TO RECEIVE OR HIT CR TO CONT-: 1

If you wish to see your message, type in and enter r. If you wish to send a message, but do not want to pick up any messages, hit the carriage return. After delivering the requested message, the system will ask:

DO YOU WISH TO SEND MESSAGES (YES/NO)?-: yes

If you reply yes, it will say:

ENTER MESSAGE (MAX OF 12 LINES)

ENTER ..D TO END

You can then enter your message, just like we did on EIES, but without any fancy text editing capability. When you are finished, type ..d or .. done. The system will then say:

ENTER RECEIVING ADDRESS OR SEND OR CANCEL -:

You should enter the T number of the person to whom you are sending the message, leave a space and type send. The system will respond:

MESSAGE HAS BEEN QUEUED

At this point, you are probably wondering, what is a T number? Each password on BRS is also assigned a unique T number. You probably have a record of yours on the sheet originally sent to you by BRS to tell you your password. Our T number is T897. If you will send me your T number, I will publish a directory in the next issue of the EAB.

The cost of using the MSGS database is the same hourly charge as ERIC, i.e., very inexpensive. However, it does not have all the capabilities that we experienced with EIES. As far as I know, you cannot send group messages; though I will be testing this as soon as I accumulate several T numbers. You cannot send a single message longer than 12 lines. Also, it does not store messages after they have been received; therefore, if you are working at a CRT you may not wish to pick up your messages until you are at a print terminal. You can check to see if you have any messages for no cost, because the "MESSAGE PENDING" line also appears as soon as you sign on to BRS, before you have incurred any charges.

I would encourage you to use this facility for inter-clearinghouse communication. It is especially appropriate for asking another clearinghouse about possible duplicate documents, sending brief messages that do not require discussion, or requesting assistance on devising a search strategy.

...Barbara Wildemuth (TM)

NEW PUBLICATIONS

NEW PUBLICATIONS—CS

The following publication is available from the Speech Communication Association, 5105 E. Backlick Road, Annandale, Virginia 22003.

Evaluating Classroom Speaking. Douglas G. Bock and E. Hope Bock. 1982.

Designed to assist communication teachers in understanding the process of evaluating, this booklet provides information on how to critique and grade classroom performances in such areas as public speaking, oral interpretation, or group projects. The booklet also describes the process of rating, the various errors in the evaluation process, and characteristics of raters.

...Jane McClellan (CS)

NEW PUBLICATIONS—HE

The following publications have been produced by HE:

- IAP

Assessing the Impact of Faculty Collective Bargaining.
J. Victor Baldrige, Frank R. Kemerer, and Associates.
AAHE-ERIC/Higher Education Research Report, No. 8, 1981.
(\$5.50). (HE 015 121).

- New Fact Sheet

The Academic Dean. Lee H. Bowker. AAUA-ERIC/Higher Education.
Volume 3, No. 2. Fall 1981. (\$1.00). (HE 015 120).

MEETINGS, CONFERENCES, SPEAKING ENGAGEMENTS

CAPS ATTENDS MAWDAC

Helen L. Mamarchev attended the spring meeting of the Michigan Association for Women Deans, Administrators, and Counselors held in Plymouth, Michigan on May 14. She provided information about ERIC and CAPS along with information packets that included the CAPS Fact Sheets on teenage pregnancy, displaced homemakers, gifted students, and career guidance in two-year colleges.

...Helen L. Mamarchev (CG)

RCS STAFF ATTEND IRA CONVENTION

Staff from the ERIC Clearinghouse on Reading and Communication Skills participated in the 27th Annual International Reading Association Convention in Chicago, April 25-30 (which had an attendance of about 12,000 people).

Associate Director Karl Koenke and Assistant Director Jane McClellan attended the ERIC/IRA Liaison Committee meeting and, with Coordinator of User Services Anne Auten, staffed the Exhibit, where free computer searches were run for those who were interested. Anne, Karl, and Jane also presented a session entitled "Teachers as Consumers of Reading Research: ERIC as an Aid." Responses both at the exhibit and in the session were gratifying; many people were already familiar with and enthusiastic about ERIC. In fact, over 3,000 RCS products (minibibs, brochures, etc.) were distributed.

The topics in which attendees were most interested were:

- Computers and Reading
- Close Procedure
- Vocabulary Instruction/Games
- Gifted Students and Reading
- Parent Involvement in Reading
- Reading Aloud
- Teacher Preparation in Content Area Reading
- Writing and the Child

Because the convention was held in Chicago, many other members of the RCS staff were able to spend one day at the convention, attending sessions and visiting the exhibits.

...Jane McClellan (CS)

ERIC/HE PARTICIPATES IN AIR ANNUAL MEETING

The ERIC Clearinghouse on Higher Education exhibited at the Twenty-Second Annual Forum of the Association for Institutional Research (AIR) on May 16-19, held in Denver, Colorado. Dr. Jonathan Fife and Lynn Barnett represented the Clearinghouse.

ERIC/HE sponsored a breakfast meeting at the AIR meeting. Twenty participants were selected at random from the AIR membership list to insure a sample representation. The researchers offered information about their institutions and offered suggestions as to how ERIC might improve its services and visibility. The general atmosphere was very positive. ERIC/HE found the breakfast meeting an inexpensive way to reach conference participants for random sampling of how they use or can use ERIC.

TWO MINISESSIONS PRESENTED TO PENNSYLVANIA SCHOOL LIBRARIANS

On April 23, Margot Sanders Eddy and Marilyn Scutt Shorr presented two minisections at the annual meeting of the Pennsylvania School Librarians Association in Philadelphia. Over 50 participants attended, and Marilyn and Margot found that despite little actual experience with the ERIC system, the participants had some basic information (experience with ED numbers, for instance) on which to build.

ERIC/PS PRESENTS COMPUTER LITERACY WORKSHOPS FOR EDUCATORS

During the month of May, Mima Spencer, Linda Baskin and Dianne Rothenberg of the ERIC Clearinghouse on Elementary and Early Childhood Education, presented three workshops on the uses of microcomputers for teachers, administrators and students in elementary and early childhood education.

On May 1 Linda and Dianne traveled to Indiana/Purdue University, Fort Wayne, Indiana, and presented two 45-minute sessions, "Software Starters" and "Information on Microcomputers: Resources and Research," at the Combined Campus Learning Resources Laboratory Conference for Area Educators. About 75 teachers and administrators attended the sessions.

On May 5 Mima and Linda, assisted by Dianne, presented a preconference 1½-hour workshop, "Computers and Early Childhood Education," for the Midwest Association for the Education of Young Children Conference, in Indianapolis, Indiana. About 30 early childhood educators attended.

On May 26 and 27, Mima, Linda, and Dianne presented two half-day computer literacy workshops for faculty and graduate students of the Department of Elementary and Early Childhood Education at the University of Illinois, at the invitation of the Department. Thirty-two faculty and graduate students attended and participated in the discussions and demonstrations.

NATIONAL SEMINAR ON RURAL EDUCATION

Errett Edington, Director of the ERIC Clearinghouse on Rural Education and Small Schools was asked to speak at a national 3-day seminar on rural education which was held in Washington, DC. The title of the seminar was "Ensuring Excellence in Education in Rural America." Dr. Edington's presentation related to development of networks to ensure information for those educational decision makers in rural America.

VISITORS HOSTED BY ERIC

FRANCIS DATABASE—EDUCATION SUBFILE

The ERIC Facility was recently visited by Veronique Vincent of the Centre de Documentation Sciences Humaines (CDSH). Among other things, Ms. Vincent brought to our attention the existence of an education "subfile" (containing over 65,000 records) in the larger FRANCIS database sponsored by CDSH. We requested a writeup on the subfile and that appears here as Attachment 2.

While the subfile is primarily in French, we felt the Clearinghouses should nevertheless be aware of it both for referral purposes and for those special reference problems where it might apply.

...Ted Brandhorst (ERIC Facility)

PARTNERS OF THE AMERICA'S PATH RESOURCE CENTER DIRECTORS VISIT ERIC/EC

As a part of the ongoing cooperation between The Partners Appropriate Technology for the Handicapped (PATH) program and ERIC/EC (see EAB, vol 5, no. 10, October 1981, p. 11-12), two Resource Center Directors visited ERIC/EC in May and early June.

Teresita de Wheeler, Director of the Costa Rica Resource Center in San Jose, added to her knowledge of ERIC May 19, and before leaving Washington, arranged for Deposit Accounts with the USGPO and EDRS, with the purpose of receiving RIE regularly and ordering paper copies of documents from EDRS with minimal difficulty.

From June 1 through June 4, Gilda Macias de Velez, Resource Center Coordinator at FASINARM, Guayaquil, Ecuador, trained intensively at ERIC/EC and attended the ERIC Eastern Regional Technical Meeting. Because the Ecuadorian Center has a TRS 80, Gilda was very pleased with the strong focus on microcomputer capability at the ERTM. Her goal is to develop microcomputerized control of the present 5,000 documents in the center which will be compatible with ERIC. This Center will give future technical assistance to the Ecuadorian Ministry of Education for development of a nationwide system of resource centers for handicapped persons.

Both directors affirmed a need for documents in Spanish for their colleagues and will assist ERIC in acquiring the kinds of documents they need.

...Marion Cambel (EC)

ERIC/HE INTRODUCES A NETHERLANDS VISITOR TO THE AMERICAN STYLE OF SERVICE

On May 27, a faculty member specializing in planning and organization from the State University of Limburg in the Netherlands came to the Higher Education Clearinghouse with a long bibliography and scribbled notes about American documents he wanted to find, some dating back ten years.

Margot Eddy spent two hours showing him how to use ERIC, where to find journals in Washington, and making a number of telephone calls to pave the way for a foreigner's search. Upon leaving, when told to contact us for further help when he got home, the visitor said, "I will, now that I know how friendly ERIC is."

DIRECT DATA ENTRY FROM THE ERIC CLEARINGHOUSES TO THE ERIC FACILITY
VIA COMMUNICATING WORD PROCESSORS, MICROCOMPUTERS, AND OTHER SYSTEMS

—STATUS REPORT—

At present, the ERIC Facility is receiving non-OCR RIE and CIJE document resume input from seven of the sixteen ERIC Clearinghouses (44%). A variety of systems and procedures (as listed below) are being used by the seven participating Clearinghouses to prepare and transmit their resume input to the Facility.

CLEARINGHOUSE	HARDWARE
EC	Galaxy minicomputer (generates computer-compatible magnetic tape that is then physically transmitted to the Facility)
HE	Vector microcomputer
IR	Xerox 860 Word Processing System
PS	Apple II microcomputer
RC	IBM 370 Computer (SCRIPT Text Editing System)
SO	IBM Office System/6 Word Processing System
SP	PRIME 550 minicomputer

Located at the Facility is a Xerox 850 Word Processing System equipped with a communications option that makes it capable of receiving and transmitting data at 300-1200 BAUD, either asynchronously or bisynchronously. Two modems are interfaced to the system to permit either mode of transmission: a BELL 212A (asynchronous 300-1200 BAUD), and a BELL 202S (bisynchronous 300-1200 BAUD). The Facility's Xerox 850 system can be used as either a communicating intelligent terminal (receiving and controlling data transmitted by other word processing systems and microprocessors), or as a slave station (simply recording data sets as stored on another computer's disk packs). This latter mode of transmission is employed when receiving data from the RC and SP computers.

The Xerox 850 System is capable of receiving data in either ASCII or EBCDIC codes. Transmission rates vary between Clearinghouses and are dependent upon the modem capability at the sending station. A transmission rate of 1200 BAUD should be used, when available, as the higher transmission rate reduces the transmission time and associated connect time costs.

Throughout this evolving process, the ERIC Facility has felt that it was essential to accommodate itself to the differing equipment situations at the different Clearinghouses. However, now that approximately 50% of the Clearinghouses are bypassing the Optical Character Recognition (OCR) mode of data entry, we are anxious to shift the remaining 50% over to direct methods so that we can dispense with the scanning operation altogether.

CH	CITY	CONTACT	TELEPHONE NUMBER	HARDWARE	TRANSMISSION MODE	SCHEDULE
EC	Reston, VA	Dorothy Beling	(703) 620-3660	Galaxy (Mini)	Mail	EC mails tape once a month.
HE	Washington, DC	Lisa Hoogstra	(202) 296-2597	Vector (Micro)	Asynchronous	Every Wednesday. HE calls in at 10:30 a.m.
IR	Syracuse, NY	Carol Harris	(315) 423-3614	Xerox 860 (WPS)	Asynchronous	Every Tuesday. Facility calls in at 3:00 p.m.
PS	Urbana, IL	Linda Baskin	(217) 333-1386	Apple II (Micro)	Asynchronous	Every Wednesday. PS calls in at 3:00 p.m.
RC	Las Cruces, NM	Laura Connolly	(505) 646-4942	IBM-370 (SCRIPT)	Asynchronous	Every Tuesday. Facility dials in after lunch.
SO	Boulder, CO	Paulette Bliss	(303) 492-8434	IBM-OS/6 (WPS)	Bisynchronous	Every Tuesday. SO calls in at 10:30 a.m.
SP	Washington, DC	Kathy Julius	(202) 659-5812	PRIME-550 (Mini)	Asynchronous	Every Wednesday. Facility dials in, as convenient.

TELEX MSH 203 104F

May 1982

The Centre de documentation sciences humaines CDSH produces the data base FRANCIS.

Available online in the U.S. through QUESTEL (1625 Eye Street N.W. Suite 818 Washington, D.C. 20006 Tel. 800/424 96 00) this large (some 700 000 refs) multidisciplinary database covers a wide range of social sciences and humanities.

A subfile covers Education. Subfiles containing additional material interesting this subject are : Employment and Vocational Training, Linguistics, Religion, Social Anthropology, Sociology.

Table 1 presents these subfiles : size, annual growth, % of documents in different languages etc... Those subfiles present 267 000 references on January 1st 1982 and grow each year by 28 400 references.

Education subfile has english descriptors since 1976. However it may be a problem to search on a base whose titles and abstracts are in French.

SDIs : CDSH offers standard batch retrospective searches and SDIs on FRANCIS. The profiles have been established by the producers and are well controlled. No risk of "noise" or "silence". The following list presents a sample of our standard SDIs and retrospective searches. Of course, personalized searches are also possible.

STANDARD RETROSPECTIVE SEARCHES

STANDARD SDIs

Education Subfile

- . Dyslexia
- . History of Education in France
- . Group Learning
- . Gifted Children
- . School Rhythms and Student's Work Load
- . Rural Education in Developed Countries
- . Sexism and School
- . Mode of Child Care and Individual Development

Education and Peripheral Subfiles

- . One parent Family
- . Reading Comprehension
- . Teaching French as a Foreign Language
- . Scientific Research and Higher Education
- . Religious Education
- . Mathematics Instruction
- . History Instruction

Education Subfile

- . Educational Research
- . Migrants
- . Reading Instruction
- . Family Educational Style and Cognitive Development
- . Preschool Socialization

Education and Peripheral Subfiles

- . Vocational Training
- . Youth Attitudes towards Work
- . Body
- . Drug Abuse
- . Medicine and Society
- . Delinquency
- . Social Work
- . Animation
- . Foreign Language Instruction
- . Latin America

Those searches could offer a useful complementary information for the ERIC Clearing Houses. They can be run on FRANCIS database excluding U.S. references, so as to avoid duplication for their patrons.

PRICES : Our prices are quoted in french francs, postage included. Change varies according to the current exchange rate.

For a SDI 120 Frs if run on one subfile ; 140 Frs if run on several subfiles.

For a retrospective 30 Frs basic charge per subfile, plus 0.50 Frs per ref.

Subfile Code	F R A N C I S Subfile field	Beginning	Number of Updates Per Year	Number of References on January 1, 1982	Annual Growth	English Descriptors	Languages of Documents (%)			Type of Documents (%)		Presence of Abstracts (in %)
							French	English	Others	Periodical Articles	Others	
520	- EDUCATION	1972	8	64,313	6,000	X	36	46	18	92	8	60

ACTION ITEMS

INTERCHANGE ARTICLES SOLICITED

The ERIC Facility is working on the next issue of the Interchange newsletter, but is handicapped by a shortage of material. The Clearinghouses are urged to submit suggestions and/or actual materials that would be appropriate for dissemination to Interchange's 1,800 users. Remember, the emphasis is no longer solely on computer-related matters but has been expanded to include material of interest to manual users of ERIC as well.

Please submit your material to the attention of the Editor, Interchange.

...Ted Brandhorst (ERIC Facility)

MISSING CIJE ISSUES

The Facility is missing CIJE issues for May, November, and December 1969. If any Clearinghouse should have extra copies of these issues, we would be grateful if you could help fill in our gaps.

...Al Hill (ERIC Facility)

ERIC DIRECTORY UPDATE

The ERIC Directory is now published once a year (because of budgetary cutbacks). An updated version is being planned for September 1982. Please return the Directory questionnaire (Attachment 1) to Elizabeth Pugh at the ERIC Facility by August 27, 1982.

...Elizabeth Pugh (ERIC Facility)

FAREWELL

JACK VEALE—

It is with great regret that I announce the death of Jack Veale. Jack assumed the directorship of EDRS in 1974, shortly after the contract was assumed by Computer Microfilm International, Inc. Plagued by many serious start-up problems, EDRS brought Jack on the scene and in a systematic, organized manner, he eventually created a smooth-running organization routinely shipping over 1 million microfiche per month to 19 countries around the world.

The ERIC network will miss Jack's professionalism and competence and I personally will miss our meetings and his quiet, unassuming way. He was a fine human being.

...Tim Prevel (Central ERIC)

CATALOGING ADVISORIES

INSTITUTIONS AND SPONSORS—OCCASIONAL USE OF THE DESCRIPTIVE NOTE FIELD FOR THIS INFORMATION

As many of you have noted from the computer printouts marked-up by the RIE Editors, occasionally the Descriptive Note field is used to supply or augment information concerning organizations associated with a given document. The situations in which this is done are generally of the following types:

1. Sponsor Is a Transient Organization That Will Not Have a Continuing Existence

An organization such as a memorial fund or search committee may exist for a year or two and then fade from existence, never to be seen again. Rather than clutter up the Source Directory with such transient organizations, it is often the better course to simply cite the information in the Note field.

2. Document Cites a Long List of Sponsors

Sometimes a document will cite so many financial supporters that it is not practical to catalog them all. In such instances a major supporter (or supporters), if this can be determined, may be cataloged selectively. If it is thought desirable, the other organizations can then be referenced in the Note field.

3. The Organization Appearing in the Document is a Subunit of an Already Small Organization

Rather than establish a new code for a subunit of an already small organization, it is better to catalog under the main organization and, if necessary, cite the subunit in the Note field. It is not a service to the user to excessively subdivide a small organization which has few postings. In most cases, it will not even be necessary to mention the subunit.

4. The Organization Name Contained on the Document is Incomplete and Cannot Be Verified as to Format, Geographic Location, or Relationship to Document

In such situations, where there is not enough information on which to base the creation of an entry in the Authority list, the information is best cataloged in the Note field verbatim, as it appears on the Title Page.

As can be seen, the decision not to create a new organization name and code for the authority list, but rather to incorporate the information in the Note field is a judgment call that can be based on many factors. The Clearinghouse cataloger should keep in mind in considering these factors that the Note field provides a "safety valve" whereby pertinent cataloging information can be displayed while avoiding the adding of questionable new entries to an already overflowing Source Directory.

...Carolyn Weller (ERIC Facility)

CATALOGING THE CONTRACTOR/SUBCONTRACTOR RELATIONSHIPS

Sometimes documents are received that have been prepared by an institution under a subcontract with a prime contractor with a governmental agency (such as NIE or the Department of Education).

Example:

NIE funded Computer Information Inc. under contract 400-58-0000 to survey the use of computers in education. Computer Information Inc. in turn subcontracted the work to Smith & Jones. When the survey was concluded, the report was written and prepared by Smith & Jones, submitted to Computer Information Inc., which in turn submitted the report to NIE.

Question:

How to catalog the Institution and Sponsor?

Guidance:

When such a relationship is prominent on the document, both the main contractor and the subcontractor may be considered as institutions responsible for the work and therefore cataloged in the Institution Field. When the relationship is hidden or buried in the document, the subcontractor can often safely be ignored. In either case, NIE would still be the only valid sponsor. Whether the contractor or someone the contractor hires does the actual work does not change the fact that a sponsoring agency has issued a contract and will hold its contractor (not the subcontractor) responsible for what is produced. In such situations, the clearinghouses should not be misled into interpreting the Contractor as some sort of Sponsor. The Contractor is responsible for the work, whether done by its full time employees, part-timers, consultants, or subcontractors.

...Carolyn Weller (ERIC Facility)

SOURCE CODES—NEW PREFIXES FOR DEPARTMENT OF EDUCATION AND NIE CODES

In order to easily identify documents emanating from the units of the Department of Education and the National Institute of Education, two new prefixes have been established and are beginning to be assigned. The prefix for the Department of Education and its subunits, except for NIE, will be "EDD." The new prefix for NIE and all of its subunits will be "EDN." These new prefixes will permit the Facility to readily identify all Department of Education documents, as is necessary for various special purposes. In addition, online searching of the Institution and Sponsor Fields to restrict searches to all Department of Education documents will be simplified by virtue of this action.

The new prefixes will begin with EDD00001"—Department of Education, Washington, DC. and "EDN00001"—National Inst. of Education, Washington, DC.

The latest supplement to the Source Directory, for March 1982 through August 1982, reflects the beginning of the changeover and clearinghouses should use the new codes as they are announced in future supplements and editions of the Source Directory.

...Carolyn Weller (ERIC Facility)

NETWORK NEWS

PHOTOCOMPOSITION ERRORS—RIEMAY82

The may issue of RIE contains photocomposition errors on two pages: p. 10 and 146. In the first case, a few lines of bad characters partially obscure two entries. In the second case, the bottom third of the page was not composed. The magnetic tape sent to GPO has been checked and is correct. The problem is strictly a photocomposition problem and should have been caught by GPO before printing took place. The Facility has recommended that GPO reissue the two pages as "errata." We will keep you informed.

...Ted Brandhorst (ERIC Facility)

ADR REMINDER—HOW IT WORKS

Some recent questions by Clearinghouses about the ADR reports that they receive, indicate that it would be a good idea to remind clearinghouses of exactly how the ADR works in some respects.

- Use of Shortest Common Form

In determining potential duplicates the program uses the shortest common form. For example, in the October 1981 - March 1982 ADR, the single-word title "Research" appears. Following it are 65 multi-word titles all beginning with the word "Research." All 65 are asterisked as potential duplicates of the first item. It is up to the human editor to discern which, if any, are truly duplicates.

This practice is warranted because there are a large number of situations where one clearinghouse takes advantage of subtitle information and another does not. If the shortest common form were not used to flag duplicates, a large number of true duplicates would not be flagged.

- Titles Flagged by an Asterisk But For Which No Potential Duplicate Can Be Found

In the ADR and in the customized reports sent to Clearinghouses, there often appear titles flagged with an asterisk as potential

duplicates, but for which no matching title can be immediately found. The explanation is that the program's search for duplicates extends back over a twelve month period whereas the current ADR extends back over only a six month period. If you cannot find the duplicate to the title you have in hand, you probably only need to look in earlier ADR's (or in RIE). For example, in the September 1981 - February 1982 ADR, there appears the title "Identification of Communication Skills and Problems Found," with an asterisk, but with no similar title listed. A check reveals that the same title (but with a different publication date) appears as far back as the ADR for October 1980 - March 1981.

The Introduction to the ADR explains both the above wrinkles, but then who reads Introductions?

...Grace Sundstrom (ERIC Facility)

ERIC CONTRACT/GRANT NUMBER INDEX—RECENT SUPPLEMENT COVERS LAST TWELVE MONTHS, NOT LAST SIX MONTHS

The recently-issued supplement to the ERIC Contract/Grant Number Index incorrectly cites the six-month period "January - June 1982" on its cover when it should have cited the twelve-month period "July 1981 - June 1982."

A corrected Title Page appears as Attachment 2 (unmarked as such) to this issue of the EAB. Please either substitute the correct title page for the faulty page or, alternatively, make a hand-correction. The Facility's shelf stock will be similarly corrected.

...Al Hill (ERIC Facility)

CAPS VISITS EECE AND RCS

While on a pleasure trip for a reunion at her alma mater (the University of Illinois), Jeanne Collet, CAPS Assistant Director for User Services, visited EECE and RCS. She was given a warm welcome at both clearinghouses and, as a relatively new ERIC staff member, found the exchange of information and ideas very useful.

Thanks, EECE and RCS!

...Jeanne Bleuer Collet (CG)

NEW OFFICE FOR DR. CLARK

Dr. John L. D. Clark, Director of the ERIC Clearinghouse on Languages and Linguistics, has been elected to the executive committee of the American Council on the Teaching of Foreign Languages.

...Mary M. Niebuhr (FL)

NEW PUBLICATIONS

NEW PUBLICATIONS—FL

- The following new IAPs are available:

43. Teaching Writing in the Foreign Language Curriculum, by Claire Gaudiani. \$8.95 paper/\$15.95 cloth. ED 209 961.
44. Functional-Notional Concepts: Adapting the FL Textbook, by Gail Guntermann and June K. Phillips. \$6.00.
45. Teaching the Non-English-Speaking Child: Grades K-2, by Mary Ashworth and Patricia Wakefield. \$5.75.
46. ESL/Coping Skills for Adult Learners, by Ellen D. Vaut. \$5.00.
47. Children's Second Language Learning, by Barry McLaughlin. \$7.00.
48. Creative Activities for the Second Language Classroom, by Diane W. Birckbichler. \$8.95.
49. ESL/Literacy for Adult Learners, by Wayne W. Haverson and Judith L. Haynes. \$6.00.
50. Error Correction Techniques for the FL Classroom, by Joel C. Walz. \$5.75.

- Other clearinghouse publications are:

Careers in Linguistics: New Horizons, \$2.50.

International Directory of Applied Linguistics Organizations, (loose-leaf binder format), \$4.95.

- New or updated minibibliographies:

Evaluation of Immersion Programs
Testing Communicative Competence
Teaching Literacy in ESL
Teaching Composition in ESL

We will be happy to supply complimentary copies to clearinghouses on request.

...Mary M. Niebuhr (FL)

ERIC TOOLS IN SPANISH

Two ERIC tools, All About ERIC and How to Start an ERIC Collection, are now available in Spanish. These tools were translated and published through the cooperative efforts of the ERIC Clearinghouse on Rural Education and Small Schools and the Organization of American States.

ERIC ENFOCADO (All About ERIC) and EMPEZANDO UNA COLECCION ERIC (How to Start an ERIC Collection), are available from the ERIC Clearinghouse on Rural Education and Small Schools (ERIC/CRESS) (free).

CONFERENCES

ERIC/CAPS PARTICIPATES IN OFFICE OF THE 80's CONFERENCE

On June 9, the University of Michigan's Extension Service and Office of Human Resource Development jointly sponsored a one-day conference on "Office of the 80's: Facing Change." Jeanne Collet conducted a 1½ hour workshop on "The Self-Directed Search: A Guide to Vocational and Educational Planning." Lynette Kosky and Kathy VanderPloeg attended sessions on Time Management, The Changing Role of Equipment in the Office, Effective Communication Skills, and Brave New Office: Its Possibilities and Problems.

VISITORS

VISITORS AT CAPS

Johan Van Halm was a recent visitor at CAPS. He is a library consultant from the Netherlands on a tour of the United States to gather information from a variety of information services and libraries about the development and use of information analysis products. Ellen Stanley, a professor in the math department at Saint Mary's College, Notre Dame, Indiana, also visited to find out what's new in ERIC in the areas of computer literacy and teaching mathematics to elementary and secondary students.

STOCK OF SYSTEM DOCUMENTS

● Pocket Guide to ERIC - For the past several months we have been restricting the number of copies of this folder sent to each clearinghouse because our supply is low and our request for reprinting is still under consideration by the Department of Education. The camera-ready copy of the folder has been updated and is ready to go to the printer when (if?) approval is received. Until then, continue to be conservative in your distribution of this basic ERIC document.

● ERIC Information Analysis Products, 1979 and ERIC Clearinghouse Publications, 1980 - We have an ample supply of both of these documents available for distribution. They would be appropriate for work materials or handouts at ERIC workshops and conferences. The 1981 version of this document is nearing completion; however, whether it will be printed this fiscal year is also uncertain at this time. It too must be approved by the Department prior to printing.

● RIE Order Form - This form has been obsolete since the new GPO price schedule went into effect. The Facility is currently revising the form, and we hope to have a new supply shortly.

● All About ERIC - Designed in the same format as its predecessor How To Use ERIC, this document has also been caught in the printing freeze, awaiting Department approval. Until it is printed, the Pocket Guide can be used to inform educators in a general way about ERIC.

.....Mildred Thorne (Central ERIC)

ERIC TECHNOLOGY COMMITTEE

ERIC TECHNOLOGY COMMITTEE

On May 20 and 21, the ERIC Technology Committee made three more site visits to projects which are utilizing optical disk storage of information. (See the May EAB for a list of Committee members.) Our first visit was to David Remington at the Cataloging Distribution Service of the Library of Congress. With the assistance of Xerox Electro-Optical Systems, they have developed a system which uses the latest technology to store and reproduce non-MARC catalog cards. A laser scans each catalog card; the image information is stored in magnetic form on optical disk; the LC card number is keyed for control and retrieval; and the card image can later be printed on-demand with laser xerographic printing. Two sheets of six card images each are produced each second. The project was three years in development and is currently becoming operational at LC.

Next we visited Roger Knaus, who is in the forefront of the group designing the third generation of Medlars. A key goal of this group is to make Medline accessible to the end user without the necessity of a search intermediary. Because of this goal, Roger has gone into a fairly extensive investigation of how to apply natural language to formal search queries. The basic approach is the use of "menus," with additional flexibility to skip intermediate menus and go directly to a specified menu. An RFP is about to be issued which will give the precise requirements of the new system.

A third visit was with Donna Lynn and William Form of Online Computer Systems, Inc., a small company which specializes in design, development, and production of computer systems which can be integrated with optical disks, videodiscs, or other graphic systems. Their staff has participated in development of the Video Pat Search system (described in the May EAB), Discover (a computer-based career guidance system), the National Library of Medicine's Integrated Library System, and a stand-alone system for OCLC. They had prepared several demonstrations for our visit and were clearly interested in the possibility of developing an advanced technology system related to ERIC.

Over the next several months, the Technology Committee will be using scenarios developed by individual committee members to create the specifications for the next generation of ERIC. Please send your comments and/or suggestions to Don Ely at ERIC/IR.

.....Barbara Wildemuth (TM)

CATALOGING ADVISORIES

NEW CONTRACT AND GRANT LISTINGS NOW AT FACILITY

Thanks to the efforts of Frank Bryars, the ERIC Facility now has listings of total Department of Education contract and grant awards made between 1978 and 1981. The grant listing, which runs more than 4000 pages, is arranged by grant number only, so its use will be primarily for identifying institutions when the grant number is known. The entry for each grant includes the complete mailing address of the institution as well as the title of the grant. The contract listing is also arranged by contract number; however, a second part of the listing is arranged by state. Since each part of the smaller contract listing is about 300 pages each, it is not difficult to locate institutions in the state volume.

Both of these listings have already proven useful at the Facility in resolving questions as to whether or not (and how) an institution should be listed in cataloging. These listings will be companion resources to the existing inhouse listing of NIE grants and contracts. Clearinghouses wishing to make use of these resources by telephone may call the Facility User Services Coordinator.

.....Carolyn Weller (ERIC Facility)

REFERRING TO A DOCUMENT IN A FUTURE ISSUE OF RIE

The Facility Editors have been having a lot of trouble lately brought about by the practice of referencing documents that are not only not already in RIE, but also that are not even in the current issue being worked on. Instead, these documents are projected for an issue or two ahead of the item referencing them.

This practice is not recommended (see p. V-131 of the EPM). It creates an essentially "blind" reference, calculated to seriously frustrate any user that attempts to find the item he is ostensibly being led to. If the "future" item should be held up for any reason, or even perhaps prevented from going in, the "blindness" of the situation is aggravated.

The correct practice is to bring the documents together in the same issue, either by delaying the one or accelerating the other. We would be grateful if Clearinghouses would adhere to this reasonable policy.

.....Sandra Hixson (ERIC Facility)

The Art of Abstracting

As we all tear our hair out over what constitutes an "excellent" abstract, a timely publication has just been released by ISI Press — *The Art of Abstracting*, by Edward T. Cremins. The focus is on the fundamental cognitive skills involved in meaningful abstracting. The book is described as "an essential work for people who prepare their own abstracts, who work professionally in publishing environments where abstracting of articles and books is performed, and who utilize abstracts in their own professional or research setting." It might be just the thing clearinghouses need to help train or re-train A/I personnel. The book can be ordered directly from ISI Press, a Subsidiary of the Institute for Scientific Information, 3501 Market Street, Philadelphia, Pennsylvania 19104. (\$13.95; Residents of California, Pennsylvania, New Jersey add sales tax).

.....Lynn Barnett (HE)

NETWORK NEWS

HE USES INCOMING NEWSLETTERS FOR MANY PURPOSES

At Higher Education, all incoming newsletters--which amounts to a large number--are reviewed from cover to cover for: direct acquisitions; new sources for regular acquisitions (organizations, programs, etc.); meetings to attend or to which ERIC materials can be sent; potentials for ERIC columns or articles; potential IAP topics; articles related to current or forthcoming IAPs; conferences or meetings at which IAPs can be marketed; and newsletters themselves as marketing potentials for IAPs and prepackaged searches. Suffice to say, the yield from newsletter review is substantial.

.....Margot Sanders Eddy (HE)

THE CIJE CONNECTION: HE ENCOURAGES JOURNALS TO ACKNOWLEDGE (IN THEIR FRONT MATTER) INDEXING COVERAGE BY CIJE

Two years ago, HE looked carefully at the front matter of the journals it annotates for CIJE and noticed that many journals did not mention the CIJE connection. A letter mailed to the managing editors of all the journals not showing "indexed in *Current Index to Journals in Education*" notes yielded some new notations, and a second mailing a little over a year later yielded a few more. The process is slow, since it naturally takes a few months for editors to make the change, but we see gradual increases in the number of journals showing this notation. Regular encouragement by the clearinghouses might ultimately bring 100% success. As part of the letter we mailed, several options for the format of the note were suggested.

.....Margot Sanders Eddy (HE)

UPDATED R¹E/CIJE MICROFICHE INDEXES FROM EDRS

All clearinghouses will shortly be receiving microfiche of the following ERIC indexes:

- Title Index 1966-81 (\$7.05)
- Author Index 1966-81 (\$11.85)
- Institution Index 1978-81 (\$1.35)
- Subject Index 1966-81 (\$7.40)
- RIE Descriptors (\$6.15)
- RIE Identifiers (\$4.30)
- CIJE Descriptors (\$5.80)
- CIJE Identifiers (\$4.40)
- Annual RIE 1966-81 (\$76.50)

This entire set will be available from EDRS for approximately \$125 or at the individual prices indicated here. Please let me have your comments after you have had a chance to examine this collection.

.....Jim Prevel (CERIC)

DATABASE SEARCH AIDS—EDUCATION — ERIC

The Facility has just received its copy of the "Education" volume of the *Database Search Aids* series. The lead section of this volume deals with ERIC.

Ordinarily, we tend to be skeptical about such writeups, but we are pleasantly surprised by this one. The material on ERIC is written with an impressive grasp of the details of ERIC's procedures and idiosyncrasies. The organization and presentation is sensitive to user's needs. The whole thing could hardly be improved on and could well be used internally to help train and educate new personnel.

We recommend that you take a look at this excellent product.

.....Ted Brandhorst (ERIC Facility)

INTERDISCIPLINARY RESEARCHERS USE ERIC

Jon Fife, Lynn Barnett, and Laura Ciarniello took part in the Symposium on Research in Postsecondary Education, Arlington, Virginia, July 15-16, 1982. The 125 participants represented various institutions and disciplines. In addition to demonstration computer searching and displaying HE publications, the clearinghouse staff distributed a special bibliography that highlighted literature utilizing the HEGIS (Higher Education General Information Survey) database of the National Center for Education Statistics. One participant, an engineering professor, said he requires his engineering students to learn to use ERIC because it's "the technology of the future" for literature identification. ♻️

.....Lynn Barnett (HE)

TEST COLLECTION PRIVATE FILE

The Test Collection at the Educational Testing Service (ETS) is an extensive library of approximately 10,000 standardized tests and research instruments. The collection was established to provide information on tests to those engaged in research, advisory services, education, and related activities. The collection consists of tests in the following areas: achievement, aptitude, attitudes and interests, personality, sensory-motor, tests for special populations, vocational-occupational, and miscellaneous categories such as counseling aids, biographical inventories, courtship and marriage, and social skills.

The Test Collection has contracted with DIALOG Information Services to mount a private file of its test records. Currently 500 records are searchable, another 600 records are being keyed, and approximately 1,500 more are ready for processing. The eventual goal is to provide public access to a bibliographic database of test instruments.

The ERIC Facility is creating magnetic tapes from the Test Collection cataloging records and is preparing them in the DIALOG Intermediate File format. The file will be compatible with ERIC in that it uses ERIC Descriptors, the ERIC Identifier Authority List, and the ERIC Source Directory for institutional authors.

The cataloging record contains the following fields: accession number, title, author (personal and institutional), note publication date, availability source, time needed to take the test, number of test items, age and/or grade level, subtests, descriptors, identifiers, annotation.

Since the ERIC database contains many research papers and journal articles in which information on tests and test reviews are available, the Test Collection file, once it is made public, and ERIC, should provide complementary databases for those interested in the area of tests and measurements. Questions about the Test Collection can be addressed to Marilyn Halpern at (609) 734-5737.

.....Barbara Wildemuth (TM)

LOCAL JUNIOR COLLEGE USES ERIC/CS

Through a liaison between ERIC/RCS and Parkland Community College Library in Champaign, the Clearinghouse is now donating to the library back issues of RIE and CIJE journals as they are replaced with the clearinghouse copies of cumulative volumes. The library director is a long-time ERIC supporter, but has not yet been able to sell his administration on becoming a SOC because of the already existing collections at the University of Illinois Library and the two ERIC Clearinghouses. He hopes that demonstrating use of the journals will be a selling point in future negotiations with his administration.

.....Anne Auten (CS)

BRS ELECTRONIC MAIL ADDRESSES

The following clearinghouses may be reached by sending a message on the BRS MSGS system:

CERIC	at	T28A
ERIC/CE	at	TB80
ERIC/CAPS	at	T878
ERIC/RCS	at	TEDV
ERIC/CEC	at	T529
ERIC/IR	at	T457
ERIC/SMEAC	at	T63E
ERIC/TM	at	T897

One of the common frustrations with the EIES experiment was that people did not pick up their messages often enough. For those of us who search BRS frequently, this is not a problem, since we are alerted to waiting messages whenever we log on. For those who do not generally use BRS, I would suggest that you consider assigning the task of picking up the "computer mail" to the same person in your Clearinghouse who picks up and/or sorts the regular mail. We found this to be a very workable system, and has provided our support staff with a new exposure to computers.

Judy Wagner, at ERIC/CE, has had a good deal of experience with the BRS MSGS system, and has offered the following suggestions for its use:

- (1) The BRS system does not tell you if a message has been picked up. If it's important for you to know, it's a good idea to say "Please acknowledge this message" at the end of the message you're sending.
- (2) You can send a message to more than one address at a time, but you must list the T numbers separately, i.e., ENTER RECEIVING ADDRESS OR SEND OR CANCEL-: T123,456,TEDV SEND
Be sure to put a comma and no spaces between T numbers, and one space between the last T number and SEND.

As you gain experience in using the BRS MSGS system, please share any suggestions for its use with the rest of us.

.....Barbara Wildemuth (TM)

ERIC MICROFICHE SUBSCRIBERS — THEIR ASSIGNMENT TO SPECIFIC ERIC CLEARINGHOUSES FOR PERSONALIZED INFORMATION SERVICES

Since 1975, when ERIC microfiche subscribers were initially assigned to Clearinghouses, several Clearinghouses have been relocated and the number of subscribers has dramatically increased. This resulted in an uneven distribution of subscribers among Clearinghouses and some confusion as to which Clearinghouse would serve specific new subscribers in a state, territory, or Canadian province. In early 1982 a new distribution plan was devised and agreed to by the Clearinghouses and Central ERIC. It is intended to provide more equitable distribution of subscribers among the Clearinghouses and result in more efficient services to subscribers.

With one exception (New York), all subscribers within a given state, territory, or Canadian province have been assigned to one Clearinghouse; thus any new subscribers in that defined area will automatically be served by the Clearinghouse already responsible for that area. In the case of New York, the state has been divided into Upstate and Downstate (a usual political dichotomy in that state, we understand). Subscribers in Upstate New York will be served by the Clearinghouse of Information Resources; those in Downstate New York, by the Clearinghouse on Urban Education.

Assignments of subscribers by clearinghouse are as follows:

Alabama - CE*	Minnesota - CG	Texas - RC
Alaska - EA	Mississippi - CE	Utah - SO
Arizona - SO	Missouri - PS	Vermont - UD
Arkansas - SE	Montana - EA	Virginia - FL
California - JC	Nebraska - PS	Washington - EA
Colorado - SO	Nevada - JC	West Virginia - SP
Connecticut - UD	New Hampshire - UD	Wisconsin - CS
Delaware - HE	New Jersey - TM	Wyoming - SO
D. C. - SP	New Mexico - RC	
Florida - EC	New York:	Guam - JC
Georgia - EC	Upstate - IR	Puerto Rico - HE
Hawaii - EA	Downstate - UD	Virgin Islands - HE
Idaho - EA	North Carolina - FL	
Illinois - CS	North Dakota - CG	Alberta - EA
Indiana - CS	Ohio - SE	British Columbia - EA
Iowa - PS	Oklahoma - SO	Manitoba - CG
Kansas - PS	Oregon - EA	New Brunswick - IR
Kentucky - CE	Pennsylvania - HE	Newfoundland - IR
Louisiana - SE	Rhode Island - TM	Nova Scotia - IR
Maine - UD	South Carolina - FL	Ontario - CG
Maryland - SP	South Dakota - PS	Quebec - IR
Massachusetts - TM	Tennessee - CE	Saskatchewan - EA
Michigan - CG		

* Acronyms used for Clearinghouses: CE - Adult, Career, and Vocational Education; CG - Counseling and Personnel Services; CS - Reading and Communication Skills; EA - Educational Management; EC - Handicapped and Gifted Children; FL - Languages and Linguistics; HE - Higher Education; IR - Information Resources; JC - Junior Colleges; PS - Early Childhood Education; RC - Rural Education and Small Schools; SE - Science, Mathematics, and Environmental Education; SO - Social Studies/Social Science Education; SP - Teacher Education; TM - Tests, Measurement, and Evaluation; and UD - Urban Education.

ERIC values its microfiche subscribers not only because they are an important group of users of the system, but also because of the many good suggestions they have made for system improvement. We encourage subscribers to contact the Clearinghouse to which they have been assigned whenever they feel the need for personalized services, and, conversely, Clearinghouses will periodically contact subscribers in their assigned areas concerning information workshops, services available, and new ERIC products.

.....Mildred Thorne (CERIC)

ERIC ABSTRACTING FAME GROWS

Ms. Deborah Gilliland, Director of Education at the Lakeview Medical Center in Danville, Illinois, recently requested a copy of the abstracting guidelines from the ERIC Processing Manual. She had been asked to develop a course on abstract writing for the hospital's medical staff to aid their preparation of papers for conferences and journal publication. Having heard of the high quality of ERIC abstracts from her mother, a local reading council president, she called on CS for help in designing her course.

.....Anne Auten (CS)

COMPUTERS AND ENGLISH AT CS

Professor Edward R. Fagan of the Pennsylvania State University's Department of Curriculum and Instruction visited the National Council of Teachers of English headquarters and the RCS Clearinghouse during the week of June 7-11, 1982. Fagan, a member of the editorial board for the NCTE publication *English Education*, was interested in ERIC data on the impact of research on the teaching of English. Being an active user of Penn State's version of the WYLBUR system called INTERACT, Fagan also wanted to explore the capabilities of the University of Illinois' PLATO system in the area of text editing and word processing. After reviewing ERIC information on PLATO, arrangements were made for Fagan to spend a day with the director of UI's Computer-Based Education Research Laboratory and to "play" on the PLATO terminal in the NCTE library.

EC STAFF TRAVELS TO NIE FOR ANNUAL REVIEW AND SUBMITS CONTINUATION PROPOSAL

Eight members of the EC staff traveled to NIE Headquarters on Thursday, June 17. The occasion for this mass movement of people was our Annual Review. The results of that activity suggest that we are pretty much on schedule with the current year's set of deliverables.

On Friday, July 30, ERIC EC submitted its continuation proposal for the 2nd year of operation in a three year contract. EC is on a contract year which begins on September 1 and ends on August 31. Although all major performance categories are still included in the plan, several of them have been noticeably reduced because of NIE/ERIC funding restrictions. The reductions being made pretty much follow the recommendations made by the ERIC Directors at their 1981 meeting. As all Directors know from experience, these reductions are now more than a matter of budgeting inconvenience; they are beginning to effect the quality and quantity of program that can be delivered. Prayer (or voodoo) on behalf of ERIC funding levels appears to be in order.

.....Donald K. Erickson (EC)

NEW PUBLICATIONS

SEARCHLIGHT PLUS SERIES — CG

CAPS *Searchlight Plus* series has two new titles just off the press: *27 + Counseling Women for Life Decisions* and *55 + Career Management and Career Pathing in Organizations*. *Searchlights Plus* are computer searches (with abstracts) of the ERIC database, plus in-depth analyses of the documents retrieved in the search. *Counseling Women for Life Decisions*, based on a search from November 1966 through February 1982, explores the dimensions of decision-making for women today in terms of current theories of women's and adolescents' motivation, programs for adolescents, multiple roles for women, role conflicts, life satisfaction, midlife and midcareer change, reentry, and implications for counselors. *Career Management and Career Pathing in Organizations* is based on a search of three databases: (1) ERIC 1966-1981; (2) ABI/INFORM 1971-1981; (3) and Management Contents 1974-1981. This review of the literature looks at career management and career pathing in organizations in terms of definitions, a model for human resource development, career development system components, programs and activities, implications for counselors, and future directions.

NEW FACT SHEETS — SO

With the June edition of our newsletter, KEEPING UP, all subscribers received two new fact sheets: "Integrating Writing and Social Studies, K-6" and "Using Data Bases in Social Studies." A number of our reference sheets have been updated this year; updated topics include curriculum development, economics, future studies, geography, legal education, psychology/sociology, political science/U.S. government, reading in the social studies, and women's studies. All of these products are available free of charge.

.....Laurel Singleton (SO)

SP ANNOUNCES NEW "GLOBAL EDUCATION" PUBLICATION

The Clearinghouse announces a new publication, Teacher Education and Global Perspectives, written by Dr. Frank Klassen and Dr. Howard Leavitt. Executive and Associate Director, respectively, of the International Council on Education for Teaching (ICET). The publication focuses on the need for development of a global approach to teacher education. Highlighted were the areas of "Global Realities," describing a frame of reference for global education; "The Rationale for Global Education," presenting a case for the introduction of global education into teacher education programs; and "A Global Dimension for Teacher Education," illustrating the incorporation of global perspectives into teacher education institutions.

PHYSICAL EDUCATION TEACHER EDUCATION SUBJECT OF NEW SP IAP

SP has completed work on its most recent IAP, Physical Education Teacher Education Curriculum, Pedagogy, Certification . . .History, Issues, Trends, by Florence D. Grebner, Doris E. Henderson, Betty J. Keough, and Jo Mancuso. The monograph investigates the evolution, current status, issues, trends, and future perspectives of physical education teacher education (P.E.T.E.) undergraduates.

Single copies are available for internal ERIC distribution by calling or writing Dean Schwanke, User Services Coordinator, at the SP Clearinghouse.

.....Mike Butler (SP)

COMPACT GUIDES AND URBAN DIVERSITY SERIES — UD

The latest publication in the Compact Guides Series is entitled The High-Risk Secondary Student and Experiential, Competency-Based Education. This Fact Sheet (number 12) is a capsule review of the literature on high-risk students, those with poor study habits, lack of motivation, and serious academic deficiencies. Highlighted are strategies found effective in promoting the academic growth of this group.

Also published as part of the Compact Guides is Refugees in the United States: A Bibliography of ERIC Documents, compiled by Carol Ascher and Darryl Alladice. This extensive bibliography (26 pages) covers the following topics: refugee background; orientation materials; refugee adjustment/host acceptance; health and associated services for refugees; school curriculum; government documents; testing; and bibliographic resources.

The latest addition to the Urban Diversity Series is an information analysis paper entitled International Compensatory Education Programs, by Erwin Flaxman (UDS #79). Covered are the definition of compensatory education, the nature of disadvantage, compensatory education programs and services, and the outcomes of compensatory education. The international perspective is reflected in reviews of programs in the United States, Western Europe (particularly the United Kingdom), Australia, New Zealand, and Israel. The final version of this paper will be published in International Encyclopedia of Education: Research and Studies, edited by Torsten Husen and T. Neville Postelthwaite. (Oxford: Pergamon Press. 1983).

COBURN JOINS TM; LABIB LEAVES FOR RCA

Effective July 7, Anita Labib resigned from ERIC/TM to accept a position as manager of a new divisional library being established by RCA Laboratories.

Louisa Coburn joined our staff on July 26 as User Services Coordinator. She comes to ERIC/TM from the ETS Southern Regional Office, where she served as an editor to Scarvia Anderson, Senior Vice President. We welcome her and are sure she will contribute to ERIC/TM's program of activities.

.....Barbara Wildemuth (TM)

CONFERENCES, WORKSHOPS, SPEAKING ENGAGEMENTS

ERIC INVOLVEMENT WITH DIALOG AND BRS USER MEETINGS

Under the 1982-83 funding for the ERIC Online Project, ERIC/EC is proposing to represent the ERIC database at the next DIALOG Update User Meeting (New Orleans, October 7-8) and the BRS User Meeting (Philadelphia, November 8-9). We are also planning to offer attendees at these meetings an advanced ERIC search workshop the day before the DIALOG Update Meeting (October 6) and the day after the BRS meeting (November 10). Hopefully the ERIC workshop will be held in the same hotel as the User Meetings, or at a nearby SOC site. If you know of any ERIC searchers who might be interested, send them to Lynn Smarte for more information.

.....Lynn Smarte (EC)

RECENT CONFERENCING AND CONSULTING ACTIVITIES AT ERIC/UD

Mr. Michael Webb, Assistant Director, attended the "First National Conference on Issues Facing Black Administrators at Predominantly White Colleges and Universities" on June 24-27, 1982 in Cambridge, Massachusetts. Papers were solicited for ERIC.

Representatives of the educational consulting firm of Clark, Phipps, and Harris visited ERIC/CUE in May and June to obtain information on ERIC Resources in the areas of desegregation of historically black colleges and universities, and the recruitment of black administrators for positions at white institutions of higher education.

Dr. Erwin Flaxman, Director, traveled to Yale on July 13, 1982 in order to participate in a week-long seminar for school administrators and community people from St. Louis, Missouri, who were developing leadership strategies for the conception of voluntary metropolitan school desegregation plans. Dr. Flaxman spoke about information resources available to develop such strategies and highlighted ERIC's role.

.....Maryellen LoBosco (UD)

TEACHER EDUCATION SEMINAR STUDENTS LEARN ABOUT ERIC AT PS

Advanced graduate students in early childhood education attended a 3½-week summer seminar on research issues in teacher education on the University of Illinois campus. They learned how to use the ERIC/EECE library and search tools and were offered complimentary computer searches of the ERIC database to assist in their research. Dr. Lilian G. Katz, Director of the ERIC Clearinghouse on Elementary and Early Childhood Education, was co-presenter of the seminar.

.....Norma K. Howard (PS)

AGENDAS FOR TEACHER EDUCATION PROJECT MEETINGS COMPLETED

The third and final conference of the Agendas for Teacher Education project, chaired by Dr. Joost Yff, Clearinghouse Director, was held on May 17-18. Involving representatives of eight national professional associations, the series identified twenty critical issues that need to be addressed in the further development of teacher education and staff development in the United States. A final report, to be published jointly by the ERIC Clearinghouse on Teacher Education and the American Association of Colleges for Teacher Education, will be available this fall.

.....Dean Schwanke (SP)

ICET "PLUGS" ERIC

Dr. Frank Klassen, Executive Director of the International Council on Education for Teaching, discussed the topic of ERIC capabilities at the 29th ICET World Conference held in Rome, Italy, July 20-24. The conference theme was "Preparing for the Profession of Teaching: International Perspectives". Two hundred ERIC information packets were made available to conference participants.

.....Vanessa Dixon (SP)

AFT AND NEA CONVENTIONS ATTENDED BY SP

From July 1-3, Michael Butler, Clearinghouse Associate Director, attended the American Federation of Teachers annual meeting, in New York City, while at the same time, User Services Coordinator Dean Schwanke attended the National Education Association annual convention in Los Angeles. At both locations, Clearinghouse materials were distributed to participants from booths in the exhibit areas and passersby were asked to list what they believed the most pressing issues in preservice and inservice teacher education would be over the next year.

HE REPRESENTATIVES MEET 1982 PRESIDENTIAL SCHOLARS IN THE ARTS

Jon Fife and Lynn Barnett represented the clearinghouse at the annual awards luncheon for the 1982 Presidential Scholars in the Arts. Twenty-one graduating HS students were honored June 14 at D.C.'s International Club by the National Foundation for Advancement in the Arts. The scholarship program is administered for the Foundation by the Educational Testing Service. Approximately 150 representatives from educational and arts organizations were in attendance.

.....Laura Ciarniello (HE)

VIDEODISCS AND THEIR APPLICATIONS WORKSHOP

June 24, 1982, John Brosseau attended a workshop on "Videodiscs and Their Applications" at Catonsville Community College, Catonsville, Maryland. The workshop, which was sponsored by the Maryland Library Association, included presentations by Judith Paris of Advanced Management Technology, Inc., and Richard Boss of Information Systems Consultants, Inc.

General information on the encoding of analog (video) and digital (character) information on optical disks was presented, and implications of this developing technology for libraries, databases, and other information-related enterprises were discussed. Educational applications of interactive videodiscs were touched upon. The potential for storage of huge amounts of information on compact discs, combined with the durability and potentially low cost of the medium, has a wide range of implications for storage, formatting, and dissemination of information. The simultaneous development of other technologies such as high-resolution video and omnifont optical character recognition seems to signal within the next few years exciting and challenging opportunities for large database producers to move in new directions.

.....Mary Niebuhr (FL)

JULIET MILLER IS AHEA LUNCHEON SPEAKER

Juliet Miller, ERIC/ACVE director, was a luncheon speaker at the American Home Economics Association national convention in Cincinnati, Ohio, June 28 - July 1. Her speech was entitled "Coping With the World of Work." Approximately 175 members of the Elementary, Secondary, and Adult Education section and the Home Economics Teacher Education section attended the luncheon.

DR. KHEZ MUTTAQUIEN OF BANDUNG ISLAMIC UNIVERSITY HOSTED BY HE

James Honan, Research Assistant, met with Dr. Khez Muttaquien, President of Bandung Islamic University and Chairman of Indonesia Private University Development Foundation. They discussed the uses of ERIC in Academic decision-making and various issues in higher education.

.....Laura Ciarniello (HE)

CS HOSTS CHINESE VISITOR

Mr. Gao Luduan, the External Relations Secretary of the Foreign Experts Bureau of the People's Republic of China, spent a day at the National Council of Teachers of English and the Clearinghouse. Mr. Gao is responsible for administering China's Foreign Experts program which annually engages several hundred Americans and other nationals to teach English at Chinese institutions. He was interested in a demonstration of computer searching, particularly DIALOG's Career Placement Registry, and in microfilm data storage. His recruiting efforts are largely directed at literature teachers, as that mode of instruction in the teaching of English is of particular interest to the Chinese in understanding how the Western mind works.

.....Anne Auten (CS)

DR. ROMAINE MACKIE VISTS EC

Clearinghouse personnel had the opportunity to meet and talk to Dr. Romaine Mackie, one of the preeminent "old timers" in the field of special education. Dr. Mackie served as Chief of the Unit on Exceptional Children, U. S. Office of Education, 1954-1964. In 1975, The Council for Exceptional Children presented her the J. E. Wallace Wallin Award (CEC's highest honor) in recognition of an exemplary career spanning 50 years of dedicated service and leadership. Her visit with us was informative, inspiring, and just a great occasion.

.....Donald K. Erickson (EC)

"LIGHT SIDE"

EC MAY HAVE A WINNER!

On July 6, a document received at ERIC EC was assigned sequential Control Number 0636. A page check revealed 636 pages. Janet Drill, who usually is almost blase about any unusual occurrence, was struck amidships by the coincidental numbers. Staff opined that a numerologist should have a field day with this one. Explanations, portents, and potential investment advice are welcome.

ERIC/SEA REPLY CARD REMINDER

At their request, State contributors receive a supply of ERIC/SEA Reply Cards for their convenience in tracking submitted documents. These cards differ from the standard ERIC Reply Cards attached by the Facility. Please do not leave the SEA cards attached to the documents when they are sent to the Facility. These contributors want to know the disposition of their documents earlier in the processing cycle. That is why this card was designed. The SEA cards should be detached and returned to contributing State agencies as soon as the processing disposition is determined. Note that there is no place on these cards for the entry of an ED number. Clearinghouses must detach and mail back these cards.

...Grace Sundstrom (ERIC Facility)

CATALOGING ADVISORIES

COMMON NOUNS DENOTING SEQUENCE—SHOULD THEY BE CAPITALIZED IN THE ABSTRACT?

Several Clearinghouses have asked whether phrases such as "chapter III," "part I," "section 3," or "volume X" should be capitalized when they appear in the Abstract.

The authority we have chosen to use in the matter is the GPO Style Manual, which states that "a common noun used with a date, number, or letter, merely to denote time or sequence...does not form a proper name and is therefore not capitalized." (3.9)

Of course, when these phrases appear in Titles/Subtitles they would be capitalized just as any other major word in the Title/Subtitle. (See Attachment 1.)

...Sandra Hixson (ERIC Facility)

NUMBERS, MEASUREMENT, TIME, ETC.

The ERIC Processing Manual provides guidance on the handling of numerals on p. V-16-17. The guidance starts out: "Follow the rules in the GPO Style Manual, Section 12 on 'Numerals.' These rules are too extensive to summarize here, but some major points are:...."

Unfortunately, we have found that not all clearinghouses have equipped themselves with the GPO Style Manual. We regard this as a basic and relatively inexpensive tool that all clearinghouses should have on the shelf. Until that occurs, however, the major subsections in the "Numerals" chapter that are causing difficulties ("Numbers and numbers in series" (12.5) and "Measurement and Time" (12.9)) are reproduced here as Attachment 2.

...Sandra Hixson (ERIC Facility)

COUNTRY NAMES USED IN GEO FIELD

The Clearinghouses are reminded the the only acceptable country names in the GEO field are those that appear in the authority list on p. V-150-153 of the ERIC Processing Manual. The Facility attempts to monitor the birth of new countries and to add any new names to the list as soon as possible. Eventually it is intended that the list will become a computerized authority file for use in automative computer editing of data appearing in the GEO field.

...Carolyn Weller (ERIC Facility)

NETWORK NEWS

CHANGE IN CLEARINGHOUSE JOURNAL COVERAGE

Just a reminder that should a clearinghouse wish to add or delete processing a journal for CIJE, all that is required is to inform Susan Slesinger at Oryx Press of the change by letter, copying both the clearinghouse monitor and Jim Prevel at Central ERIC.

...Jim Prevel (Central ERIC)

CAPS GOES HOLLYWOOD!

LIGHTS! CAMERA! ACTION! Those are familiar words heard around the CAPS Clearinghouse these days. The Instructional Strategy Services Center at the University of Michigan School of Education is in the process of filming a series of teacher preservice/in-service training videotapes on supervisory skills assessment, and is using the Learning Resources Center and CAPS offices as its set. Maybe Steven Spielberg will be our next patron!

...Helen L. Mamarchev (CG)

TRAVELS WITH CAPS

On August 24, the staff of the ERIC Clearinghouse on Counseling and Personnel Services (CAPS) traveled to Columbus, Ohio for a morning visit to the ERIC Clearinghouse for Science, Mathematics, and Environmental Education and an afternoon with the ERIC Clearinghouse on Adult, Career, and Vocational Education as a CAPS staff development activity. Because most CAPS staff members have been with the clearinghouse for about a year, they enjoyed the opportunity to talk with their counterparts at the other two clearinghouses and to share information and ideas. Thanks to both SE and CE for an informative and interesting day!

...Helen L. Mamarchev (CG)

CLEARINGHOUSE COOPERATION

The CS and SP Clearinghouse combined efforts recently in response to a user request for ERIC information on teachers sharing the same teaching assignment. A local teacher seeking half-time employment came to CS for assistance with writing a proposal to her principal relative to pairing up with another teacher in the district who also was looking for a part-time position. As a result of a quick phone call and the ready assistance of Dean Schwanke and his colleagues at SP, the key descriptor term, "Partnership Teachers," was identified and one more teacher joined the ranks of satisfied ERIC users.

MEETINGS, CONFERENCES, AND WORKSHOPS

HE TAKES ERIC TO PUERTO RICO

Marilyn Shorr, Laura Ciarniello, and Carla Kreppin conducted three one-day workshops in Puerto Rico on August 18-20, 1982. Liza Vigo-Cepeda, President of the Puerto Rico Librarians Association, worked closely with the clearinghouse in arranging the workshop schedule. The first workshop was an advanced searching workshop attended by college and university librarians who computer search the ERIC database.

The second workshop was for librarians throughout the Island and focused on how to use ERIC and what could be found in ERIC. The third workshop was attended by deans, faculty, and administrators from various colleges and universities. This workshop proved to be very successful, particularly since two of the universities in attendance were in the process of setting up graduate programs in education and were very anxious to learn about ERIC's offerings.

Marylyn Shorr met separately with HE's SOCs on the second day of the workshop to inform them about what is happening in the system and to respond to their concerns and questions. The staff agreed that it was a very successful workshop and the Puerto Rican people are most gracious.

Laura Ciarniello (HE)

SP DIRECTOR PRESENTS A REVIEW OF AGENDAS PROJECT TO THE FORUM OF EDUCATION LEADERS

Dr. Joost Yff, Director of the ERIC Clearinghouse on Teacher Education, made a joint presentation on activities under the Agendas for Teacher Education Project to the Forum of Education Leaders (FOEL) on August 30. Dr. Yff, joined by Dr. Tom Fox (Project Associate, University of Wisconsin-Madison), described the issues which have been identified by the Project to date, and their potential effect on education delivery in the coming years. The FOEL consists of the executive officers of eleven major educational associations, including the American Association of Colleges for Teacher Education.

VISITORS HOSTED BY ERIC

ERIC/CAPS VISITS ERIC/ACVE

On August 24, Helen Mamarchev, Cathy VanderPloeg, Lynette Kosky, Mary Frenza, Debbie Herbert, and Lori Peters from the ERIC Clearinghouse on Counseling and Personnel Services came to the ERIC Clearinghouse on Adult, Career, and Vocational Education for a visit. After an initial group get-acquainted session, the various counterparts got together for an idea/procedure exchange. It was a delightful afternoon and the staffs of both clearinghouses benefitted.

...Judy Wagner (CE)

TERESA SERAFINI FROM ROME VISITS CS

The ERIC Clearinghouse on Reading and Communication Skills was host to an Italian secondary school teacher and textbook author traveling in the United States to gather data on writing instruction. While a fellow in language and linguistics at Stanford during the 1980-81 school year, Ms. Teresa Serafini became intrigued with American rhetoric and composition pedagogy. Returning to her country and her teaching position last year, she succeeded in convincing her minister of education that similar writing instruction would be viable in Italy and received a grant to gather material for a manual for students on the study of literature and composition, which will be the first such text produced in Italy.

...Anne Auten (CS)

INTERESTED DOCUMENT AUTHORS VISIT SP

Two ERIC document authors, both curriculum specialists for Fairfax County Public Schools, were interested recently in knowing more about what ERIC does in its document processing activities. Polly DeButts and Patricia Harbour visited the Clearinghouse on August 18, 1982, where they received a two-hour orientation to Clearinghouse abstracting, indexing, and cataloging activities. Cathy Julius and Dean Schwanke met with the teachers, answered their questions, and sent them back home with an increased knowledge of the system and an armload of handouts to distribute in their school.

Warner Books, 1974, p. 95.

LIST OF ATTACHMENTS

- Attachment 1: Reprint from GPO Style Manual Concerning Capitalization of Common Nouns
- Attachment 2: Reprint from GPO Style Manual Concerning Numbers, Measurement, Time, etc.
- Attachment 3: Remove List (RIESEP82)
- Attachment 4: RIE Input By Clearinghouse (RIESEP82)
- Attachment 5: CIJE Input By Clearinghouse (RIESEP82)

3.9. A common noun used with a date, number, or letter, merely to denote time or sequence, or for the purpose of reference, record, or temporary convenience, does not form a proper name and is therefore not capitalized. (See also rule 3.39.)

abstract B	collection 6	group 7	section 3
act of 1928	column 2	mile 7.5	signature 4
amendment 5	drawing 6	page 2	station 27
appendix C	exhibit D	paragraph 4	table 4
article 1	figure 7	part I	title IV
book II	first district (not congressional)	plate IV	treaty of 1919
chapter III	form 4	region 3	volume X
chart B	graph 8	rule 8	war of 1914
class I		schedule K	ward 2

3.10. The following terms are lowercased, even with a name or number. (For capitalized forms, see geographic terms, p. 46.)

aqueduct	dike	shipway
breakwater	dock	slip
buoy	drydock	spillway
chute	irrigation project	tunnel (see also Tunnel, p. 58)
dam (lowercase with number or in conjunction with lock; capitalize with name, <i>but</i> Boulder Dam site; Boulder Dam and site)	jetty	watershed
	levee	weir
	lock	wharf
	pier	
	reclamation project	
	ship canal	

12. NUMERALS

(See also Tabular Work; Leaderwork)

Numbers and numbers in series

☆12.5. Figures are used in a group of 2 or more numbers, or for related numbers, any one of which is 10 or more. The sentence will be regarded as a unit for the use of figures.

Each of 15 major commodities (9 metal and 6 nonmetal) was in supply.
but Each of nine major commodities (five metal and four nonmetal) was in supply.

Petroleum came from 16 fields, of which 8 were discovered in 1956.
but Petroleum came from nine fields, of which eight were discovered in 1956.

That man has 3 suits, 2 pairs of shoes, and 12 pairs of socks.
but That man has three suits, two pairs of shoes, and four hats.

Of the 13 engine producers, 6 were farm equipment manufacturers, 6 were principally engaged in the production of other types of machinery, and 1 was not classified in the machinery industry.
but Only nine of these were among the large manufacturing companies, and only three were among the largest concerns.

There were three 6-room houses, five 4-room houses, and three 2-room cottages, and they were built by 20 men. (See rule 12.21.)

There were three six-room houses, five four-room houses, and three two-room cottages, and they were built by nine men.

Only 4 companies in the metals group appear on the list, whereas the 1947 census shows at least 4,400 establishments.

but If two columns of sums of money add or subtract one into the other and one carries points and ciphers, the other should also carry points and ciphers.
At the hearing, only one Senator and one Congressman testified.
There are four or five things which can be done.

Measurement and time

12.9. Units of measurement and time, actual or implied, are expressed in figures.

a. Age:

6 years old
52 years 10 months 6 days
a 3-year-old
at the age of 3 (*years implied*)

b. Clock time (see also Time):

4:30 p.m.
10 o'clock or 10 p.m. (*not* 10 o'clock p.m.; 2 p.m. in the afternoon; 10:00 p.m.); 12 m. (noon); 12 p.m. (midnight); this p.m.; in the p.m.
half past 4
4^h30^m or 4.5^h, in scientific work, if so written in copy
0025, 2359 (astronomical and military time)

c. Dates:

June 1935; June 29, 1935 (*not* June, 1935, *nor* June 29th, 1935)
March 6 to April 15, 1935 (*not* March 6, 1935, to April 15, 1935)
May, June, and July 1935 (*but* June and July 1935)
15 April 1951 (military)
the 2d (or 3d) instant
4th of July (*but* Fourth of July, meaning the holiday)
the 1st [day] of the month (*but* the last of April or the first [part] of May, *not* referring to specific days)

In referring to a fiscal year, consecutive years, or a continuous period of 2 years or more, when contracted, the forms 1906-38, 1931-32, 1801-2, 1875-79 are used (*but* 1895-1914, 1900-1901); for two or more separate years not representing a continuous period, a comma is used instead of a dash (1875, 1879); if the word *from* precedes the year or the word *inclusive* follows it, the second year is not shortened and the word *to* is used in lieu of the dash (from 1933 to 1936; 1935 to 1936, inclusive).

In dates, A.D. precedes the year (A.D. 937); B.C. follows the year (254 B.C.).

NUMERALS

181

- d. Decimals: In text a cipher should be supplied before a decimal point if there is no unit, and ciphers should be omitted after a decimal point unless they indicate exact measurement.
0.25 inch; 1.25 inches
silver 0.900 fine
specific gravity 0.9547
gage height 10.0 feet
but .30 caliber (meaning 0.30 inch, bore of small arms);

ACTION ITEMS

NATIONAL ASSESSMENT OF EDUCATIONAL PROGRESS (NAEP)

During the past year, whenever NAEP has submitted a document to ERIC they have included a completed resume form to assist whatever clearinghouse was assigned the document.

Of particular note is the fact that NAEP has built into this resume Identifiers that identify the specific assessment involved and a trailing phrase in the Abstract that identifies the type of information provided about that assessment.

The ERIC Processing Manual (EPM) treats these two data elements on pages V-94 and VIII-2-17-19, respectively.

NAEP has informed us, however, that in some cases the clearinghouses have not been using the NAEP-provided information and that therefore the records as they appear in RIE and on the database are lacking the very data that NAEP is striving to see included in ERIC.

Please review the EPM guidelines referenced above. If you receive a NAEP document, be aware that special arrangements have been established to see that the NAEP documents contain Identifier and Abstract information essential for their internal retrieval needs. Also, it would assist the Facility if you could send the NAEP-prepared resume along with the document, so that we can cross-check the input.

...Ted Brandhorst (ERIC Facility)

CATALOGING ADVISORY

"OPTIONS IN EDUCATION" SERIES

The ERIC Clearinghouse on Higher Education recently called our attention to the fact that individual documents issued in the "Options in Education" series have not had their titles cataloged in a uniform way.

A list of the 46 items in this series, showing the great variety ERIC catalogers have introduced into the cataloging of these items appears as Attachment 1.

For future reference, catalogers are urged to note that "Options in Education" is a series. The EPM calls for Series Titles (and Series Numbers) to follow the title of the specific item in hand, e.g.,

General Model: Title of Program. Series Title followed by Number.

Specific Example: Mainstreaming in Pittsburgh. Options in Education Program 345.

...Ted Brandhorst (ERIC Facility)

DOCUMENT REPRODUCIBILITY ADVISORIES

PLASTIC/VINYL BINDERS AND ERIC DOCUMENTS

The first page of a printed document will often adhere to the inside cover of a plastic or vinyl coated binder. When the document is removed, that first page will often stick to the binder, causing the printing to lift off, leaving the page smeared and unreadable. The ERIC Facility must occasionally retype such damaged pages and therefore offers the following suggestions.

When storing or shipping documents, a piece of cardboard or a blank sheet of paper should be placed between the binder cover and the document to protect that first page. The back page of a document suffers similarly with the added problem of sometimes being curled up or pulled out of the binder completely as a result of not being properly straightened when the binder is closed. A piece of cardboard at the back would eliminate this problem as well. Since documents must be removed from binders before filming anyway, removing documents from binders prior to shipment would solve the problem.

Clearinghouses are also reminded that binder covers may not be used as page 2 (the single-frame resume is frame 1 on the fiche) of a document to be filmed, even if it contains information found nowhere else in the document. Such information should be transferred to an inside page.

...Carolyn Weller (ERIC Facility)

PROCESSING OF DOCUMENTS WITH MIXED ONE-SIDED AND TWO-SIDED PAGES

When clearinghouses are processing those documents that employ a combination of "front only" and "front/back" printed pages, the guidelines given on pages V-27 and V-172-73 of the ERIC Processing Manual must be adhered to. These guidelines require that front-only (one-sided) pages, which may be scattered throughout a document that uses a basically front/back (two-sided) approach, must be stamped BLANK PAGE DO NOT FILM. While this notice may seem unnecessary, it is of great help to the Facility Paginator and later to the EDRS camera operator to be able to confirm that the blank page in question is truly blank and not a case where a page escaped printing.

...Carolyn Weller (ERIC Facility)

NETWORK NEWS

LEVEL 3 DOCUMENTS IN RIE IN 1982

At Central ERIC's request, a brief statistical analysis of the Level 3 documents accessioned thus far in 1982 (January-August) has been prepared by the ERIC Facility (see Attachment 2).

In studying these statistics, it should be kept in mind that there are two kinds of Level 3 documents:

- (1) the kind that ERIC has not obtained permission to produce;
- (2) chapters or sections analyzed out of a larger "parent" document.

The first kind of Level 3, ERIC has traditionally made an effort to keep to a minimum. The second kind, "analytics," are however, often fully justified by the importance of the "parent" document. Also analytics do not aggravate the availability problem, because they are almost always available via the "parent" document.

The following generalizations can be made from the data:

- The percentage of non-reproducible Level 3's is only 2%. This is an excellent low percentage and does not justify any complaints about clearinghouse performance on this score.
- The overall Level 3 percentage is running at 4.2%, only marginally larger than last year's 3.2%. 2.2% (of the 4.2%) is generated by analytics.
- Two clearinghouses have zero Level 3 documents in their input: CG and TM. This is probably due to a conscious policy on their part to avoid Level 3 accessions.
- Four clearinghouses have significantly increased their volume of Level 3's over their 1981 rate: EA, FL, IR, and SP. However, this increase is due almost entirely to analytics. Only EA in this group has a significant number of non-analytic Level 3's.
- Seven clearinghouses have decreased their volume of Level 3's from their 1981 rate: CE, CG, HE, RC, SO, TM, and UD. The decreases are all drastic except for CG, whose volume of Level 3's was always negligible.
- Five clearinghouses account for the total volume of analytics: EA, FL, IR, SP, and UD. It is clear that the clearinghouses do not uniformly take advantage of the occasionally very useful "analytic" option.
- Only one clearinghouse analyzed out the parts of a "parent" document that was itself a Level 3 document (EA had 2 groups of 6 each, for a total of 12 such accessions).
- The clearinghouses with the highest volume of non-reproducible Level 3's thus far in 1982 are, in order:

HE (39 = 5.7%)	SE (21 = 4.4%)
EA (30 = 4.1%)	CS (20 = 2.1%)
PS (25 = 5.6%)	SO (17 = 4.1%)

Do these statistics reveal any serious problems? We don't think that they do. The percentage increase over last year is attributable entirely to analytic-type Level 3's. Perhaps the best thing that can come out of this analysis is the recognition that the analytic type of accession exists, that it can be justified, but that it is employed unevenly by the clearinghouses.

...Jim Prevel (Central ERIC)

NATIONAL EDUCATION PRACTICE FILE

On September 30, 1982 NIE entered into a Cooperative Agreement with the San Mateo Educational Resources Center (SMERC) for the development and testing of a national education practice file. The purpose of this new database is to improve the availability and use of information about educational practice by teachers and building level school administrators through the development of an information file targeted specifically to their needs.

As is appropriate under a Cooperative Agreement, NIE will have substantial involvement in the project as will the ERIC clearinghouses and the ERIC Facility. As a subcontractor to SMERC, ERIC-ChESS will be responsible for ERIC system liaison and project evaluation and the ERIC Facility, also a subcontractor, will be involved with search strategy design, computerized file development, and software development and modification. Pat Coulter will serve as the Project Monitor.

...Patricia Coulter (Central ERIC)

ERIC/CAPS USES SIMPLE MANAGEMENT TOOL TO ESTABLISH WORK BEHAVIOR GOALS

The ERIC Clearinghouse on Counseling and Personnel Services employs a management procedure which may be of value to other clearinghouses. Using a CAPS developed tool known as a "Work and Behavior Statement," each staff member establishes on a quarterly basis work and behavioral objectives which clearly detail major and secondary responsibilities, major working relationships, major backup responsibilities, and personal growth goals.

Because the instrument and the procedure are simple and straightforward, is implemented on a quarterly basis, and is made for both personal and organizational growth, it is recommended that clearinghouse managers consider this ERIC/CAPS model for adaptation for their own use. (See Attachment 3.)

...Judi Conrad (Central ERIC)

MICROFICHE STANDING ORDER CUSTOMERS—CHANGES TO THE LIST

At one time the ERIC Facility routinely promulgated information received from EDRS concerning new and cancelled ERIC microfiche standing order customers. Because of changes at EDRS, that information stopped flowing to the Facility and therefore its further dissemination to the clearinghouses ceased.

We have recently begun to receive the information again and would like to resume relaying it to the clearinghouses. Attachment 4 represents the additions and deletions made for the September 1982 issue of RIE. We plan to make this list a regular EAB feature in future issues.

...Ted Brandhorst (ERIC Facility)

ERIC/ACVE USES CBMS

The ERIC Clearinghouse on Adult, Career, and Vocational Education (ACVE) plans to deliver user services through a computer-based message system (CBMS) coordinated through the National Center. The major audiences for this project are personnel in state departments of vocational education, research coordinating units, state vocational education curriculum liaison offices, curriculum coordination centers, related vocational education information centers, the U.S. Department of Education's Office of Vocational and Adult Education, and the National Center.

...Judy Wagner (CE)

A SUCCESSFUL OUTREACH EFFORT

We would like to pass along an outreach idea, particularly to those clearinghouses that are located on a university campus or have ready access to ERIC users. In our outreach effort to University of Michigan School of Education faculty members this term, we provided a "facts sheet" about ERIC as well as a response sheet that gives each professor an opportunity to express orientation needs and interests that could be served by ERIC. To date, we have received requests for orientation sessions and course bibliographic materials from many more than our usual cadre of ERIC enthusiasts. We aren't sure exactly why this outreach effort has been so successful, but we wanted to share (!) our success with you. Attachment 5 displays a copy of our letter to the faculty, the "facts sheet," and the response sheet.

ERIC/EC CONTRACT RENEWED

Official notification was received on August 31, 1982 of the continuation of the contract for the 1982-83 Fiscal Year to operate the ERIC Clearinghouse on Handicapped and Gifted Children.

...Donald K. Erickson (EC)

QUEBEC STARTS NEW DATABASE SIMILAR TO ERIC

The ERIC Clearinghouse on Languages and Linguistics has learned of a new database produced by the provincial government of Quebec. Called EDUQ, the database is devoted to materials related to educational research and development in Quebec. The types of documents included and the bibliographic

treatment given them suggest much influence from ERIC. Important features include on-line searchability, indexing from a thesaurus, and a microfiche component. EDUQ's introductory brochure has been translated in Attachment 6.

...John Brosseau (FL)

ERIC/HE MINGLES PRODUCTIVELY

On September 24, 1982, Jon Fife, Marilyn Shorr, and Lynn Barnett attended a reception hosted by the Council of Independent Colleges (CIC), an association neighbor at One Dupont Circle in Washington. They were delighted to bask in the praise of attendees of staff from CIC and other organizations for the ERIC/Higher Education Research Report Series. In fact, they learned that CIC is currently sponsoring a series of workshops for small colleges around the country and using one of the monographs, Strategic Planning, Management, and Decision-Making, by Robert Cope, as a resource. Another benefit of the "mingling" was tentative arrangements with the new CIC newsletter editor to feature the Clearinghouse in future editions.

...Lynn Barnett (HE)

STATE REPRESENTATIVE, EDUCATORS AT PS OPEN HOUSE

The ERIC Clearinghouse on Elementary and Early Childhood Education hosted an Open House for local educators on September 22, 1982. Among those attending the Open House, which received local media coverage, was State Representative Helen Satterthwaite from the Urbana-Champaign area. She was looking for information on the pros and cons of early versus late school entrance for a bill currently being considered by the Illinois legislature. She also discussed ways in which ERIC information could best be disseminated to state legislators, supplied names of committees and staff members who might be able to use information in ERIC most effectively, and took away with her an ERIC/EECE ReadySearch on kindergarten scheduling options for school districts.

Other attendees included local teachers, library science and education graduate and undergraduate students, university faculty members, and representatives from the Illinois Department of Children and Family Services. Short computer searches of ERIC were offered free to the first 25 visitors. Approximately 45 people attended the Open House.

ERIC: WHAT IT IS, HOW TO USE IT—NEW AUDIOVISUAL KIT AVAILABLE

After almost nine months, the complete kit of the revised version of ERIC: What It Is, How To Use It has finally been received. A kit has been sent to each clearinghouse under separate cover.

Here is a brief blurb you can put into your news bulletins or other vehicles that you use to advertise:

ERIC: What It Is, How To Use It (Revised Edition) is now available from the National Audiovisual Center. Packaged in an attractive box, the kit contains three slide tapes and accompanying print materials. The first two slide tapes introduce the user to the ERIC system and its basic tools. The third slide tape focuses on utilization of knowledge. A Coordinator's Manual accompanies the kit.

To order: Send a check or purchase order for \$94.00 per kit to:

Order Section
Order #A07869
National Archives Trust Fund Board
National Audiovisual Center
Washington, D.C. 20409

For additional information: Call Kathy Bryant

NEW PUBLICATIONS

NEW PUBLICATIONS—CE

The following fact sheets, OVERVIEWS, have been developed by the ERIC Clearinghouse on Adult, Career, and Vocational Education. If you would like copies of any or all, let Judy Wagner know. For those of you on BRS, CE's T# is TB80, and you can just send a message.

- Career Development in the Work Place
- Retaining Adult Students
- Tailoring Vocational Education to Adult Needs
- Vocational Education in Rural America
- Postsecondary Career Education
- Employer Sponsored Training
- Employment and Older Adults
- Alternative Work Patterns as Innovations in the Work Place
- Adults in Career Transition.

...Judy Wagner (CE)

NEW PUBLICATIONS—EA

Publications issued since January 1982 are as follows:

- The Best of ERIC on Educational Management (4-page summaries of significant reports and journal articles)
- The Effective Principal
- Academic Learning Time
- Principal Selection
- Research Action Briefs (4-page reviews of empirical research drawing on implications for schools)
- School Size: A Reassessment of the Small School

BOOKS

- Collective Bargaining, Strikes, and Financial Costs in Public Education: A Comparative Review, by Bruce S. Cooper. 140 pages, \$7.85.
- The Best of the Best of ERIC (on Educational Management), Volume 3. 122 pages, \$7.75.
- The Computer: Extension of the Human Mind. (Proceedings of a July 1982 conference sponsored by the College of Education at the University of Oregon; the Clearinghouse served as publisher). 236 pages, \$10.00.

NEW PUBLICATIONS—HE

New IAPs

- Rating College Teaching: Criterion Validity Studies of Student Evaluation-of-Instruction Instruments. Sidney E. Benton. AAHE-ERIC/Higher Education Research Report No. 1, 1982. (\$6.50). (HE 015 512).
- Faculty Evaluation: The Use of Explicit Criteria for Promotion, Retention, and Tenure. Neal Whitman and Elaine Weiss. AAHE-ERIC/Higher Education Research Report No. 2, 1982. (\$6.50). (HE 015 513).

The Research Reports can be ordered from:

Publications Department
 American Association for Higher Education
 One Dupont Circle, Suite 600
 Washington, DC 20036

New Fact Sheets

- Fostering Faculty Vitality: Options for Institutions and Administrators. Roger G. Baldwin. ERIC-AAUA/Administrator's Update. Fall 82.

The Administrator's Update can be ordered from:

American Association of University Administrators
1000 Vermont Avenue, N.W.
Washington, DC 20005

NEW PUBLICATIONS—SO

Titles of ERIC/ChESS fact sheets for 1982 are:

- Using Data Bases in Social Studies (fact sheet 5, June 1982)
- Integrating Writing and Social Studies, K-6 (fact sheet 6, June 1982)
- Microcomputer Software and the Social Studies (fact sheet 7, Dec. 1982)
- Implementing Effective LRE Programs (fact sheet 8, Dec. 1982)

New reference sheets in 1982 are:

- Social Studies for the Gifted and Talented (June 1982)
- Social Studies for Special Learners (October 1982)

We have recently completed one of our major clearinghouse publications for 1982. Evaluating Social Studies Programs: Focus on Law-Related Education (Order no. 277-6; \$14.95), by G. Dale Greenwald and Douglas P. Superka, is a spiral-bound paperback containing a generic model for evaluating social studies programs, along with 14 workshop activities for developing evaluation skills. Examples are drawn from the area of law-related education.

...Laurel Singleton (SO)

NEW PUBLICATIONS—UD

The latest addition to the COMPACT GUIDES series, Developing Non-Biased Criteria for Mainstreaming Minority Students (number 13), discusses the problem of overrepresentation of minorities in special education classes and summarizes the literature on alternatives in testing minority students.

In the URBAN DIVERSITY SERIES, new publications include two volumes by David and Marilyn Kapel titled The Preparation of Teachers for the Urban Schools (UDS #81, Part I and Part II); State-of-the-Art of Pre-service and In-service Education synthesizes current research findings about effective schools and examines kinds of programs available for the education of urban teachers. Part II, Selected Programs Offered by Institutions of Higher Education and Urban School Districts describes specific pre-service and in-service programs around the country. Developing Programs for the High-Risk Secondary School and College Student (UDS #80), by Mark Blum and Stephen Spanghel, examines the high-risk student in contemporary education, and comprehensively studies elements of actual and proposed programs—educationally sound and financially feasible—that may be implemented at the secondary school or college level. Finally, Carol Ascher's monograph titled Student Alienation, Student Behavior and the Urban Schools (UDS #82) looks at those high school characteristics most likely to decrease the alienation of inner city minority students.

...Maryellen LoBosco (UD)

KEEP IT SIMPLE TO MAKE A POINT

A recent issue of the College Store Journal included a helpful hint for effective writing, culled from Communication Briefings, April 1982. The suggestion? See below.

Study the masters. One way to improve your writing is to examine the works of wordsmiths such as Winston Churchill and Abraham Lincoln.

Example: Churchill, when facing Hitler's armed forces in 1940, said to the Americans, "Give us the tools and we will do the job."

He did not say, "Supply us with the necessary inputs of relevant equipment and we will implement the program and accomplish its objectives."

Example: Seventy percent of the words in Lincoln's Gettysburg Address contain five or fewer letters.

...Lynn Barnett (HE)

Editor's Note: Strictly Speaking by Edwin Newman, Warner Books, 1974 LC #74-6525, ISBN 0-446-79898-3, is recommended if you find yourself nodding in agreement with Lynn's article.

PERSONNEL NEWS

CAROLYN WELLER APPOINTED HEAD OF FACILITY'S RIE EDITORIAL DEPARTMENT

Effective September 27, 1982, Carolyn Weller assumed the leadership of the ERIC Facility's Editorial Department. In that position, Carolyn will be responsible for all editorial efforts related to RIE data, including the checking of new Identifiers and the generation of new Source Names and Codes. Working with Carolyn will be Helen Wilson and Edith Ritter, both formerly of ORI's GAO Project.

As many of you are aware, Carolyn has been associated with ERIC for many years and brings a wealth of ERIC-related experience and knowledge to bear on her new assignment.

Quality Control over the input to RIE is one of the Facility's priority tasks and we are pleased to be able to put it in the hands of a person as dedicated as Carolyn is to accuracy and professional standards.

...Ted Brandhorst (ERIC Facility)

FRANCO REPLACES CONNOLLY

On July 20, 1982, Barbara Franco joined the staff of the ERIC Clearinghouse on Rural Education and Small Schools as Coordinator of Processing. She comes to the Clearinghouse from the New Mexico State University Library. We welcome her!

Laura Connolly resigned as CRESS' Coordinator of Processing to attend the University of Denver where she will be working on her MLS.

...Amelita Hill (RC)

VANESSA DIXON TRANSFERS TO AACTE POSITION

Vanessa Dixon, Secretary with the ERIC Clearinghouse on Teacher Education since November 1981, will assume the position of Secretary for Professional Development with the American Association of Colleges for Teacher Education, effective September 13. Her departure from the Clearinghouse is regretted, but we all wish her the best of luck in her new position.

...Michael J. Butler (SP)

MEETINGS, CONFERENCES, WORKSHOPS

PARTNERS OF THE AMERICAS PATH CENTRAL AMERICAN WORKSHOP

During the week of August 30 to September 3, Marion Cambel represented The Council for Exceptional Children and ERIC at the Partners of the Americas PATH Central American Workshop. Approximately 60 special educators, rehabilitation specialists, and special group representatives shared information, learned about individual needs, and developed strategies to work together relative to the workshop theme: Expanding Access to Knowledge, Information and Technology to Prevent Disability and Benefit Handicapped People.

Countries represented were Costa Rica, El Salvador, Guatemala, Honduras, Mexico, Nicaragua, Panama, and the United States. Participating organizations, in addition to CEC and ERIC, were Gallaudet College, Goodwill Industries, New TransCentury Foundation, National Rehabilitation Information Center (NARIC), Rehabilitation International, Rehabilitation International U.S.A., University Center for International Rehabilitation (UCIR), and World Rehabilitation Fund. Specially invited persons included representatives from UNICEF, the Peace Corps, and FASINARM in Ecuador.

PATH Program sponsors, the National Institute of Handicapped Research and IBM Americas Far East Corporation, also were represented at the workshop. (It should be noted that Marion's participation was at no cost to the ERIC system.)

Thanks to ERIC/RC, each participant received a copy of ERIC Enfocado and Empezando una Coleccion ERIC. Thanks to Bruce Clark of ERIC/IR the latest technological information was transmitted to participants. Two boxes of materials disappeared almost immediately. We can expect heightened interest in subscriptions to RIE, deposit accounts with EDRS, and, later, assistance in developing ERIC Microfiche Collections. Immediately we can expect very fine documents in Spanish with 1500 word English abstracts. For more specific information, call Marion Cambel at ERIC/EC.

...Marion Cambel (EC)

ERIC/HE PROFESSIONAL DEVELOPMENT AT BROWN BAG LUNCHES

Marilyn Shorr and Lynn Barnett attended the first brown bag lunch of the academic season sponsored by the National Center for Higher Education women's group. Held in the conference room of the American Association of Community and Junior Colleges, the featured speaker was Donna Shavik, Director of the National Identification Program (NIP). NIP is part of the Office of Women in Higher Education of the American Council on Education.

...Lynn Barnett (HE)

ERIC/HE EXHIBITS AT GETTYSBURG'S CONFERENCE

Laura Ciarniello represented the ERIC system at the College and Research Division of Pennsylvania Library Association and the Delaware Valley and Tri-State chapters of the Association of College and Research Libraries conference held in Gettysburg, Pennsylvania on September 23-24. The conference's focus was on-line searching and the librarians were very anxious to learn how to search ERIC by computer terminal.

Laura Ciarniello joined HE's SOCs for an informal breakfast meeting where various experiences, questions, and suggestions on using the ERIC system were shared. It was surprising to hear from many of the librarians that they were "surprised" at the range of documents in the ERIC system, i.e., on office management, administrative styles. It seems that they thought of ERIC as a database designed for teachers, education students, and the like. Laura was pleased to leave the conference knowing the ERIC image was expanded in a most positive way.

...Laura Ciarniello (HE)

WORKSHOP FOR LIBRARY SCIENCE GRAD STUDENT COMPUTER SEARCHERS AT PS

A presentation on ERIC indexing practices as related to computer searching was given September 9 for 8 graduate students in library science by Norma Howard of the ERIC Clearinghouse on Elementary and Early Childhood Education.

The students are employed part-time by the Graduate Library of the University of Illinois and will be doing ERIC online computer searches for library patrons. After the workshop, the group asked that ERIC/EECE hold a follow-up problem solving session later on in the semester after they had had more experience searching online.

...Norma Howard (PS)

ERIC/RC CONFERENCE ACTIVITIES

- Association for Experiential Education Conference

Elaine Roanhorse Benally gave an ERIC presentation and provided a display booth at the Association for Experiential Education Conference, in Arcata, California, September 9-10, 1982.

- Rural Education Association

Everett Edington will provide two workshops on "Sources of Information for Rural Educators" at the Rural Education Association - NDN meeting, Rockport, Maine, October 10-12, 1982.

- Rural Sociology Meeting

Betty Rose Rios attended the Rural Sociological Society annual meeting, San Francisco, California, September 1-4, 1982.

- American Association of School Librarians Conference

Everett Edington and Amelita Hill will co-chair a session "ERIC for the Rural/Small School," at the American Association of School Librarians Conference, Houston, Texas, October 21-23, 1982.

- Correctional Education Conference

Amelita Hill will chair a session "Computers in Education" at the Sixth Annual New Mexico Correctional Education Conference, Albuquerque, New Mexico, October 7, 1982.

- Southwestern Rural Conference

Several members of the CRESS staff will participate in the Second Annual Southwestern Rural Education Conference, Las Cruces, New Mexico, November 5-6, 1982.

...Amelita Hill (RC)

ERIC/SO STAFFERS BONE UP ON MICROS

To get up-to-date on microcomputer capabilities and courseware available in the social studies, five ERIC/ChESS staff members are participating in a five-week seminar on "Microcomputers and the Social Studies." For two hours each week, we meet at the microcomputer instructional laboratory at the University of Colorado School of Education. Working with Apple IIPlus micros, we are working through and evaluating social studies courseware while learning about microcomputer capabilities. The course is being taught free of charge by Dr. John Haas, professor in the University's School of Education and a member of the Social Science Education Consortium, our sponsoring organization.

...Laurel Singleton (SO)

VISITORS HOSTED BY ERIC

A VISITOR FROM THE PHILIPPINES

Mrs. Chit J. Concepcion recently visited the ERIC Clearinghouse on Counseling and Personnel Services as a part of her vacation to see relatives in Michigan and in other parts of the United States. She is currently the Director of the College Guidance Center at the Ateneo de Manila University as well as a faculty member of the university's counselor training program and a Board Member of the Philippines chapter of the American Personnel and Guidance Association. She purchased a number of Clearinghouse publications for use in her teaching responsibilities.

...Helen L. Mamarchev (CG)

A VISITOR FROM AUSTRALIA

Peter Moss, Senior Lecturer in English at Adelaide University, Adelaide, Australia, spent several days at the ERIC Clearinghouse on Reading and Communication Skills during a month-long stay in the United States. Moss was participating in a lecturer exchange program between his university and the University of North Carolina at Charlotte and had speaking engagements scheduled at Penn State and the University of Utah. His stop at CS in Urbana was motivated by having several documents acquired by ERIC through CS and by wanting to learn more about the ERIC system. He was delighted and a bit chagrined to realize that he'd come to America to learn that there was an ERIC collection on his own campus in Australia!

...Anne Auten (CS)

A VISITOR FROM BRAZIL

Anna Carolina Sampaio, Associate Professor of Early Childhood Education at the Bahia College of Education in Salvador, Bahia, Brazil, along with her State Department interpreter, was a September visitor at the ERIC Clearinghouse on Elementary and Early Childhood Education.

Sampaio was especially interested in how an ERIC online computer search quickly retrieves information. (ERIC documents and PS publications in her scope of interest were located for her to take back to Brazil.) She was also interested in computer-assisted instruction and enjoyed the lesson on ERIC on the PLATO computer terminal located in the EECE Clearinghouse.

...Norma Howard (PS)

A VISITOR FROM TURKEY

Dr. Erwin Flaxman, Director of the ERIC Clearinghouse on Urban Education, attended a meeting of the National Commission on Excellence in Education on September 28, 1982, in New York City. Dr. Flaxman was interviewed by Professor A. Vural Turker, a Turkish educator specializing in the education of the poor,

for a book he is currently writing on compensatory education. Mr. Michael Webb, Assistant Director, conducted a manual search of RIE on compensatory education for Dr. Turker, and gave him system and Clearinghouse publications. Dr. Turker is currently a scholar-in-residence at the University of Alabama.

1 Analytics = Parts of larger documents; substantial enough to warrant being accessioned and announced as separate items. Generally analytics are not microfiched separately because they exist on the microfiche of the "parent" document. For the lone exception in 1982, see note 2.

2 For 12 of these analytics, the parent document is also Level 3 (i.e., no MF).

SUBJECT: ERIC Class () ations
Course Bibliographic Search Services

We are again offering SOE faculty the opportunity to schedule an ERIC orientation for your Fall Term classes. This year, however, we are adding something new! At the end of each group orientation, we will conduct up to three free computer mini-searches (10 citations each). Topics for the searches may be selected either by you or by the class, but we suggest that you spend some time in advance identifying areas for which a computer search would be suitable; i.e., those areas that are too difficult or time-consuming for a manual search.

Our hours are:

Monday, Thursday, Friday 9:00 - 5:00
Tuesday 9:00 - 7:00
Wednesday 9:00 - 5:00 AND 7:00 - 9:00

Many students don't discover the LRC until they are desperately searching for information for their prelims or dissertation. The comment we hear most often from these students is: "If only I had known about this place while I was taking courses!"

Perhaps one reason that many faculty members don't refer students to ERIC is that they, themselves, are not aware of the full set of resources available through ERIC. The attached "Just the Facts, Please" sheet addresses some of the common misconceptions about ERIC, but we would also be very happy to give you a personal tour/orientation if you would like to update your knowledge of our current resources and services.

ERIC documents on microfiche can be a valuable supplement to your course bibliography. First, they provide students access to conference papers, reports, curriculum guides, etc. that are difficult or impossible to locate elsewhere. Second, their inclusion will encourage students to become familiar with (and comfortable using) the ERIC system. If you would like assistance in locating a few "on target" documents to add to your course bibliography, or would like to explore some "creative financing" ideas for a full bibliographic computer search, check the appropriate blank on the attached form. We will contact you as soon as possible.

We look forward to hearing from you. If you have any questions, give us a call at 4-9492.

2366

JUST THE FACTS, PLEASE!

MYTH: "ERIC is complicated."

FACT: Using ERIC is as easy as 1-2-3.

- (1) Use the ERIC Thesaurus to identify the most appropriate descriptors for the topic(s) in which you're interested.
- (2) Look up your descriptor(s) in one of the indexes: RIE (Resources in Education) for ERIC documents, CIJE (Cumulative Index to Journals in Education) for journal articles.
- (3) After reading the abstracts of promising titles, locate the documents you wish to read in full.

--Titles with ED numbers are ERIC documents, and can be found on microfiche, which are filed in numerical order in the center of the LRC [Learning Resource Center, located in Room 2202 of the School of Education Building (SEB)].

--Titles with EJ numbers are found in journals, and cannot be found on microfiche. To read the complete article, you must locate the journal, which usually means a trip to the Graduate Library or UGLI. CAPS does house journals dealing with counseling and the helping professions.

MYTH: "ERIC/CAPS just has stuff on counseling."

FACT: The ERIC/CAPS Clearinghouse at the University of Michigan has specific responsibility for acquiring and disseminating significant literature in the area of Counseling and Personnel Services. But ERIC/CAPS is just one of 16 subject-specialized clearinghouses contributing to the ERIC information system. Each ERIC collection (over 200,000 microfiche) contains all the materials put into the system by all 16 clearinghouses. At ERIC/CAPS, the microfiche collection is located in the Learning Resource Center (LRC); here you will find information on all topics relevant to education--from "ability" to "zoos": (There is also a complete ERIC microfiche collection at the Graduate Library.)

MYTH: "ERIC just repeats what's in the card catalogue."

FACT: ERIC specializes in the acquisition of "fugitive" documents--that is, materials that are difficult to locate from sources other than standard commercial publishers. Examples of materials collected are: research/technical reports, evaluation studies, program/project descriptions, conference papers and proceedings, state-of-the-art reviews, instructional materials, teaching guides, manuals, handbooks, curriculum materials, legislation/regulations, tests, questionnaires, taxonomies, and bibliographies.

MYTH: "ERIC just does computer searching, which is expensive and doesn't always give you what you're looking for."

FACT: Most ERIC/CAPS users conduct their own manual searches using a step-by-step worksheet developed by CAPS. Computer searches are recommended only for those users who need extensive, in-depth coverage of a topic or who are looking for information that requires a combination of several descriptors. ERIC/CAPS has three trained search strategists who conduct searches by appointment. For a search to be "on target," it is essential that the strategist and client work together closely to develop a detailed statement of the research question(s) and to narrow the question's scope to avoid irrelevant references. The minimum charge, \$20, covers up to 50 citations and abstracts from the ERIC database. Additional citations/abstracts cost 10¢ each.

Remember that ERIC/CAPS staff members are always happy to provide individual assistance. The LRC's nine easy-to-use readers and one reader/printer for producing paper copies of microfiche (at 15¢/page) make researching a logical, confusion-free process.

EDUQ: A New Educational Data Base from Quebec

EDUQ: A Reference Tool

EDUQ is a bibliographic data base devoted to educational research development in Quebec.

Over the last two decades, educational research development in Quebec has flourished as never before. Education, long neglected as a specific field of research, has become a multidisciplinary domain of investigation, owing in particular to programs subsidized by the Ministry of Education. In a given year, over 1200 persons work in this field.

Until now, the body of material produced by this effort was not readily accessible. It was, therefore, vital to develop a data base whose function would be to index and announce documents and make them available and easy to use.

Types of Documents Indexed

EDUQ indexes French- or English-language documents that contain

- the results of educational research
- experiments in instructional innovation
- experimentally developed products
- statistical reports
- bibliographies

Only items produced in Quebec or that concern Quebec since the beginning of scholastic reform are included.

Contents of the Bibliographic Announcement

Each announcement in EDUQ contains:

- a complete, standardized bibliographic description
- classification under the Dewey and Library of Congress systems
- indexing from a controlled vocabulary and from supplementary identifiers created from a free vocabulary
- a substantial structured abstract
- notes that complete the information; these concern
 - the geographic region of the research
 - the date the data were collected
 - subsidized programs
 - the availability of the document in microfiche
 - and more

Access to EDUQ

Access to the EDUQ data base is available through:

- the printed document entitled EDUQ: Bibliographie analytique sur l'éducation en Québec, which appears twice a year (in spring and autumn). Each issue announces approximately 500 documents.
- direct searching of the data base, which will be accessible through Informatech sometime in 1983.

Searching for documents is facilitated by four indexes:

- name index: authors, organizations, projects
- title index
- index of collections
- subject index

Users can refer to the Thésaurus de descripteurs sur l'éducation published in Montreal by CADRE, which serves as the basis for subject indexing

Microfiche

An indication in the bibliographic notice identifies certain documents as available on microfiche; permission in these cases has been given by the copyright owners.

This service aims at making accessible:

- certain unpublished documents which would have only a limited dissemination
- government documents whose supply has been exhausted
- previously published documents that are out of print

The cost of a document on microfiche is determined by multiplying the number of microfiche indicated at the end of the announcement by the price of the microfiche: \$2.00.

To obtain a document in microfiche, please contact:

EDUQ
La Centrale des bibliothèques

ACTION ITEMS

SAMPLE SEARCH TOPICS AND STRATEGIES NEEDED

Experienced searchers who attend workshops on searching ERIC frequently ask us for examples of typical search topics and corresponding appropriate search strategies. Since most of us have trouble thinking of topics outside our own clearinghouse scopes, Lynn Smarte at the ERIC Clearinghouse on Handicapped and Gifted Children would like each ERIC User Services Coordinator to send to her one sample topic in his/her scope and a possible strategy. The topics and strategies will be duplicated and distributed as a package to all clearinghouses for use in future workshops. (See ERIC Computer Search Strategy Development Form, Attachment 1.)

...Lynn Smarte (EC)

ACQUISITIONS DATA REPORT (ADR)—QUALITY OF INPUT COPY

All of the data submitted for the Acquisitions Data Report each month are keyed by the Facility for input into the ADR file. While the data may be submitted in either typed or hand-printed form, it is preferable that the forms be typed as they are then much easier to read. If hand-printed forms are submitted, however, they must be legible so that they can be keyed correctly. Hand-printed forms should be printed, not written, in block letters, upper-cased (see EPM, Section 4). Since the forms are blue and white, it is preferable that black ink be used as it provides a superior contrast. Pencil should be avoided as it too frequently smears.

Since the Facility does not have access to the documents listed on the ADR, it is essential that all titles be legible and accurate. Lettering that is unclear or open to interpretation may be inadvertently keyed incorrectly and could result in an incorrect entry that may in turn cause potential duplicates to go undetected.

...Al Hill (Facility)

CATALOGING ADVISORIES

GOV FIELD. WHAT IS MEANT BY "FOREIGN GOVERNMENT"?

The "Governmental Status of Document" field was established primarily to get a handle on what documents in the ERIC system were the product of Federal, State, or Local governmental bodies. Since ERIC was not interested in achieving this same level of detail in the case of foreign documents and since in many of the foreign instances it would have been difficult to determine or research the level, it was felt sufficient to use one tag for all foreign governmental documents no matter what their level. In other words, the tag "Foreign" is to be used in this field whenever a foreign

document appears to be the product of government whether at the national, provincial, or city level. This explicit statement will be added to the EPM in a future revision in order to remove all possibility of confusion.

...Ted Brandhorst (Facility)

PUBLICATION TYPE GROUPS

While multiple Pubtype codes (up to 3) are permitted in ERIC cataloging, there are certain groups of codes that should logically be regarded as mutually exclusive within themselves. For example:

COLLECTED WORKS (the 020-022 Group)

This category deals with collections of independent works by different persons or organizations. A serial/periodical publication comprised of separate individual articles is one type of collected work (022). The proceedings of a conference, containing either the papers given at that conference or surrogates of them, is another form of collected work (021). All other types of collections, not falling into the above two subcategories, are assigned 020. While it is not impossible for an item to be both a serial and a conference proceeding, it is relatively rare. As a rule, therefore, a given document would be assigned one code at most from this group.

DISSERTATIONS/THESES (the 040-043 Group)

A given document should never be assigned more than one code from this group. A document cannot be both a Masters Thesis and a Doctoral Dissertation at the same time.

PRACTITIONER-ORIENTED MATERIALS (the 050-055 Group)

Most practitioner-oriented materials are either classroom-oriented or not. If classroom-oriented, such documents are usually intended either primarily for the student or primarily for the teacher. For these reasons, a document should generally not be assigned more than one code from this group.

Exceptions occur on those relatively infrequent occasions when a single document encompasses both the material intended for the teacher and the material intended for the student (or when two separate documents treating these two areas are combined by the clearinghouse as one accession).

INFORMATION ANALYSES (the 070-071 Group)

Provision is made for identifying ERIC information analyses as a subgroup of this group. It is assumed that if it is a member of the subgroup, it is also a member of the larger group. Therefore, a given document should never be assigned more than one code from this group.

REFERENCE MATERIALS (the 130-134 Group)

While it is possible for a document to belong to more than one of the subgroups listed under this group, it happens relatively infrequently. As a practical matter, only one of these codes will normally be assigned to a given document.

REPORTS (the 140-143 Group)

This is such a large category (30% of all input to RIE) that it was felt essential to provide some subgroups to break it down into more manageable size. If the document is oriented toward reporting research/technological results then it is 143. If the document concentrates on evaluation or studying the feasibility of something then it is 142. If the document simply describes how a given project or program has gone then it is 141. It was intended that the cataloger would assign a single code from this group based on the principal emphasis of the document, recognizing that the lines between subgroups are not completely sharp and that all reports contain at least some aspects of the various subgroups.

When assigning documents to the above-mentioned Pubtype categories, catalogers should, therefore, almost always restrict themselves to one code from each relevant group. This guideline will be made more explicit in future revision pages for the EPM.

...Ted Brandhorst (ERIC Facility)

STYLE MANUALS AND THEIR USE WITH ERIC DATA

Most of the data fields in ERIC require fairly rigid conformance to standards established by the ERIC Processing Manual. However, in the Abstract field a more practical and laissez faire approach is followed by the Facility editors.

The principal authorities used are the GPO Style Manual and the University of Chicago Manual of Style. Where meaning would be adversely affected, as with incomplete sentences, disagreement of verb and subject, dangling participles, incorrect capitalization, lost antecedents, incorrect spelling, etc., the guidance provided by the manuals is followed closely. Where frequently repeated structures are involved, such as lists, in which lack of uniformity would be very visible, the standard format is observed.

However, in many other situations where the change involved would be strictly for cosmetic reasons and not for any substantive or retrieval-based reasons, the Facility frequently goes along with what the Clearinghouse has done. An example might be the use of Roman numerals rather than the preferred Arabic to identify document sections. Sometimes in the case of a series of documents, if consistency is achieved within the items in the series and a change would involve multiple abstract lines for each item in the series, the Facility will leave the abstracts as is, but note on the LIDS printout

(which is returned to the Clearinghouse) how it should preferably have been done, for future reference. This is simply a practical and expedient solution to the problem, given the available personhours to work on it.

During the course of the recent abstract project, some clearinghouses have noticed these situations and have remarked that the Facility has been "inconsistent" in editing RIE abstracts. We prefer to think that the Abstract field, unlike the other fields, does not operate under a rigid set of rules but rather a flexible set of guidelines which permit considerable latitude in style as long as it is basically correct and the substantive meaning is clear.

...Ted Brandhorst (Facility)

MULTIPLE TITLES (MORE THAN ONE DOCUMENT TREATED AS ONE ACCESSION)

Occasionally the clearinghouses package several documents together to make one accession. There is usually a close relationship among the documents which produces a rationale for such grouping. A recent example, for instance, involved three brochures, all from the American Council on Science and Health and all involving advice on the intake of food and drink. Each brochure alone would have been probably too slight to be accepted, but all three together, having the unity of subject matter they did, made a reasonable accession.

However, this practice raises a multitude of cataloging questions that have not yet been addressed in the ERIC Processing Manual (EPM). The purpose of this advisory is to provide some guidance in handling the Title data element. Using the same example cited above, we believe a reasonable way of handling the Title field for the accession in question is as follows:

TITLE:: Alcohol Use During Pregnancy [and] Fast Food and the
American Diet [and] Food Additives and Hyperactivity.

We are not in favor of completely fabricated titles for such situations (as has been tried) and we have found that without the conjunctions the idea of separate works does not come across. The fact that separate works are involved should, of course, be elaborated on in the Abstract.

The guidance provided here, and other guidance associated with "bound with" situations, will be inserted into the EPM in future revisions.

...Ted Brandhorst (Facility)

NETWORK NEWS

ERIC THESAURUS TO BE TRANSLATED INTO JAPANESE

Central ERIC was pleased to receive a request recently from the director of the Center for Educational Technology, Aichi University of Education,

Kariya, Aichi, Japan, to permit translation of portions [Descriptors] of the Thesaurus of ERIC Descriptors, 9th Edition, into Japanese. Their purpose is twofold:

- (1) to add key words to educational technology articles written by Japanese for scholars outside Japan, and
- (2) to help Japanese researchers have an accurate understanding of the Descriptors when they use RIE, CIJE, and other databases.

In his letter Mr. Kitaoka stated that the ERIC Thesaurus was "highly evaluated throughout the world" and "also easily accessible to researchers in Southeast Asia." You can all take credit for a product that is obviously serving its audiences well.

...Chuck Hoover (Central ERIC)

ALL ABOUT ERIC OFF THE PRESS

All About ERIC, the replacement for How To Use ERIC, has finally come off the press. Copies (450) have been sent to each clearinghouse, and additional copies are available from the Facility as needed. The Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402 is stocking the booklet for sale at \$4.25 per copy, with discounts for quantity lots (Stock No. 065-000-00147-1).

...Mildred Thorne (Central ERIC)

CHICAGO MANUAL OF STYLE - REVISED AND EXPANDED EDITION AVAILABLE

The University of Chicago Press has announced the 13th edition (1982) of its well-known Manual of Style. The following notice appeared in a recent edition of the Library Journal. Since ERIC utilizes the Chicago Manual of Style as one of its principal authorities of matters of style (EPM V-vii), and since the new edition appears to be considerably expanded, the ERIC Clearinghouses may wish to note its availability.

...Ted Brandhorst (Facility)

GPO/ERIC ANNOUNCEMENT OF DEPARTMENT OF EDUCATION DOCUMENTS

A copy of the notice sent by the Facility to depository libraries clarifying the situation with regard to GPO's announcement of Department of Education-prepared or sponsored documents (which have also been announced in RIE) in its Monthly Catalog of United States Government Publications is displayed as Attachment 3.

...Ted Brandhorst (Facility)

The Chicago Manual of Style. 13th ed. rev. & exp. ed.

Univ. of Chicago Pr 1982. 738p. bibliog. index. LC 82-2832. ISBN 0-226-10390-0 \$25. REF

The most obvious difference between this edition and its predecessors is its title. Since the *Manual of Style* has been popularly known as *The Chicago Manual of Style* for so long, the editors decided to adopt the familiar nickname. But more than the title has changed. A decade of technological developments in publishing are reflected (the previous edition was published in 1969). There is a very useful discussion of the new copyright laws. More sample citations of footnotes and bibliographic entries are offered, as well as more guidance on the basics of style, including proper punctuation, quotation, and abbreviation. All libraries that serve a clientele of writers, editors, printers, and publishers will definitely want to acquire this impressive edition.—Nancy L. Baker, *Univ. of Utah Lib., Salt Lake City*

NIE ENTERS INTO COOPERATIVE AGREEMENT WITH SMERC

On September 30, 1982, the National Institute of Education (NIE) entered into a Cooperative Agreement with the SMERC (San Mateo Educational Resources Center) Information Center to determine the feasibility of developing the National Education Practice File (NEPF).

We at SMERC are excited about the project and believe that much of the success of the venture lies in accurately predicting the types of materials best suited for such a file and in developing an acquisition network which will gather in such materials. We also believe that tapping into the acquisitions network of the ERIC clearinghouses, and into the clientele of ERIC clearinghouses, information centers, State Departments of Education, and other heavy users of ERIC, is essential to the favorable outcome of this effort.

Attachment 2 is a brief article written for the California ASCD newsletter, and explains a bit more fully the goals of the NEPF project.

...Kathy Clay (SMERC)

IMEL APPOINTED TO AAACE PUBLICATION SERVICE UNIT AND EDITORIAL BOARD

Susan Imel has been appointed to the Publications Service Unit of the American Association of Adult and Continuing Education (AAACE), the newly formed adult education association. The Publications Service Unit establishes policy for AAACE publications and serves in an advisory capacity to journal editors. Dr. Imel has also been appointed to serve as a member of the editorial board of The Adult Education Quarterly: A Journal of Research and Theory, an AAACE publication.

CAPS OPEN HOUSE A SUCCESS

Fresh donuts, sweet cider, and friendly faces greeted those who attended the recent CAPS Open House, held to expand University awareness of the ERIC system. Faculty, administrators, and graduate and undergraduate students who visited our Learning Resource Center received free computer mini-searches on topics of their choice, and learned more about ERIC resource materials and research in general. A doctoral candidate won the free computer search offered as a prize in our drawing. Public response to the Open House was so encouraging that future gatherings are planned, one each semester, to alert the local University community to a useful resource—ERIC!

...Lori J. Peters (CG)

PROJECT BEST AND ERIC/CS

Cheryl B. Petty, Senior Project Associate for Project BEST, visited National Council of Teachers of English headquarters and CS to briefly sketch the goals of the project for supervisory staff and to show the Project BEST orientation tape that had been aired on PBS to participating

state teams. Discussions centered on how our Clearinghouse and NCTE could contribute to the success of the project. CS Director Bernard O'Donnell serves on the Project BEST Advisory Board, representing both NCTE and ERIC/CS.

...Anne Auten (CS)

ED NUMBER ASSIGNMENT A PUBLISHER'S PRIORITY

The ERIC Clearinghouse on Reading and Communication Skills received an interesting request from the International Writing Institute in Cleveland: How to get an ED number assigned to their upcoming publication, An Executive Guide to Grammar. The publisher had determined that acquiring an ERIC number was as essential as the assigning of Library of Congress and ISBN numbers and requested that his assistant call ERIC to "initiate the process."

...Anne Auten (CS)

FBI AN ERIC USER

The Federal Bureau of Investigation (FBI) recently had cause to avail itself of ERIC. Prompted by its investigation of Tylenol poisonings, the FBI sought information from the ERIC Clearinghouse on Reading and Communication Skills on the frequency of misspellings in the writing of adults and the link, if any, between various spelling aberrations and mental disorders.

...Anne Auten (CS)

AUTHOR RELIES ON ERIC/CEM RESEARCH ACTION BRIEF

A Research Action Brief published by the ERIC Clearinghouse on Educational Management in 1981 provided the substance for an article in the November 1982 issue of The American School Board Journal. The article, "Who Runs Our Schools? A Definitive Answer is Impossible," was written by Paul Salmon, Executive Director of the American Association of School Administrators. Early in his article, Salmon makes the following statement:

"Many of the ideas I will cite hereafter are drawn from a research brief prepared in October 1981 by the ERIC Clearinghouse on Educational Management in cooperation with the National School Boards Association. It's entitled, 'The Board or Superintendent: Who Manages the Schools'."

...Stuart C. Smith (EA)

"CEC.RESTON" JOINS SPECIALNET

In November 1982, CEC and ERIC/EC joined SpecialNet, the rapidly growing communication/information electronic network for special educators. SpecialNet is available to anyone in the United States who has access to a computer terminal or microcomputer. Organizations and individuals subscribing to SpecialNet can send and receive electronic mail from any of the other subscribers on the network. Currently, there are approximately 450 subscribers, but the information exchanged via the network reaches thousands more through the use of subnetworks within states.

If you already subscribe or have access to SpecialNet, you may contact the ERIC Clearinghouse on Handicapped and Gifted Children by sending messages to our user name CEC.RESTON.

...Donald K. Erickson (EC)

ERIC ABSTRACTING QUALITY CONTROL WORKSHOP: FEBRUARY 15-17, 1983

Funds have been made available allowing CERIC to sponsor a professional development workshop for clearinghouse personnel. Concerns that surfaced in the Abstract Evaluation Project and at the regional technical meetings earlier this year will be addressed in information presentations and working sessions. It will all happen immediately following the national technical meeting. The Steering Committee has recommended that each clearinghouse nominate for attendance one abstractor and the staff member who "edits" the abstracts.

This workshop is unique to such ERIC activities in that it is expected that many abstractors attending will be free-lancers. A tentative agenda was sent to all clearinghouse directors in October with the request for feedback by the end of October. The Steering Committee finalized the workshop plans at its November meeting. Thanks to all who provided input.

...Mary Niebuhr (Steering Committee Chairman)

NATIONAL TECHNICAL MEETING DATE SET

The 1983 national technical meeting will be held on February 14-15, 1983, at the Holiday Inn Georgetown, Washington, DC. Clearinghouses were asked to contribute concerns for session topics. Their replies were a part of the agenda of the November 17-18 meeting of the Steering Committee. Preliminary agendas for the technical meeting were mailed to all clearinghouses on December 1. Thanks to all who called or wrote their ideas.

...Mary Niebuhr (Steering Committee Chairman)

WASHINGTON POST USES HE PUBLICATION

A recent popular publication produced by the ERIC Clearinghouse on Higher Education is being used by a reporter at The Washington Post as background material for an article on computer literacy. The monograph, Computer Literacy in Higher Education (AAHE-ERIC/Higher Education Research Report No. 6, 1981) is on its way to becoming a bestseller. Interested parties can purchase it from AAHE at One Dupont Circle, Suite 600, Washington, DC 20036 (\$6.33 postage paid).

...Lynn Barnett (HE)

DR. FIFE JOINS NATIONAL HIGHER EDUCATION CEREMONIES

Dr. Jonathan Fife, as Executive Secretary-Treasurer of the Association for the Study of Higher Education, participated in the delegation of the higher education associations and learned societies at the convocation ceremonies

marking the end of the National Higher Education Week and the presentation of the 1982 Jefferson Medal. The convocation was held on September 30, 1982 at the Jefferson Memorial. Following the convocation there was a reception honoring the 1982 Jefferson Medal winner, Rev. Theodore M. Hesburgh, President of the University of Notre Dame. In attendance were Secretary of Education, Terrell H. Bell, Charles Robb, Governor of Virginia, Robert L. Patton, President, Exxon Education Foundation and other representatives from the public and private sector of higher education.

...Laura Ciarniello (HE)

DR. FIFE INTERVIEWED BY CHRONICLE OF HIGHER EDUCATION

Dr. Jonathan Fife, Associate Professor of Education and Director of the ERIC Clearinghouse on Higher Education was interviewed by Janet Hook of the Chronicle of Higher Education for the article "New Roadblocks Stall Higher Education Grants at NIE." It appeared in the September 29, 1982 issue.

...Carla Krenn (HE)

EDUCATION AND THE CORPORATE WORLD AT HE

A recent request for information was a welcome relief from the usual research questions at HE. Lynn Barnett fielded a call from the Valley National Bank in Phoenix. The caller wanted to know about any "problems in education" that corporate financial support could help alleviate.

What an opportunity for wish-list making! After a brainstorming session in the clearinghouse and a quick computer search, several suggestions were forwarded, including the ultimate in dreaming - purchasing an ERIC collection for a struggling college or a rural school district. (More realistic ones were also offered.)

...Laura Ciarniello (HE)

PS DEVELOPING MICROCOMPUTER DISK FOR EARLY CHILDHOOD STUDENT TEACHERS

The ERIC Clearinghouse on Elementary and Early Childhood Education is preparing a simulation for use by early childhood education teachers. This simulation is intended to teach students ways of thinking about responses to a critical incident. (A "critical incident" is defined as the kind of situation likely to occur in the course of every teacher's experience.) Responsible for the development of this simulation are: Dr. Lilian Katz, Linda Baskin, and Mima Spencer.

The disk, designed for an Apple II Plus microcomputer, presents an incident which has occurred on a playground between two children. The disk user (student or teacher) is asked to respond to the situation, selecting her response from a list of several different choices. Some possible responses of the teacher and the children, and the possible effects of and reasons for these responses are presented.

When the responses actually solve the problem, the sequence ends; when additional choices and responses are needed, the process is repeated. The program also periodically analyzes the reasoning behind certain decisions and consequences. The purpose of the simulation is to give the student insight into the children's behavior and into his or her own behavior.

The new teacher education disk is in "working copy" state and is expected to be available this spring.

...Norma Howard (PS)

LOEX FOR ERIC BIBLIOGRAPHIC INSTRUCTIONAL MATERIALS

Since 1972, the LOEX Clearinghouse, Eastern Michigan University, Ypsilanti, Michigan, has assembled and provided on loan to schools and institutions the largest and most comprehensive collection of library user orientation and instructional materials in North America. Included in its collection are materials for teaching and learning the ERIC system. ERIC bibliographic instructional materials that are available from LOEX take the form of brochures, flowcharts, pre-tests and post-tests, workbook exercises, audiovisual scripts, annotated bibliographies, etc.—all explaining in detail how to use the ERIC Thesaurus and the printed indexes, CIJE and RIE. Though, in most cases, the materials have been submitted by librarians for use in their bibliographic instruction and orientation seminars, they can easily be adapted for use by classroom teachers, students, and information dissemination specialists, as well as librarians.

The LOEX Clearinghouse encourages and welcomes individuals and institutions to contribute their own instructional materials to the LOEX collection. All sixteen of the ERIC clearinghouses would benefit by sending their general ERIC orientation brochures, pamphlets, factsheets, etc. to LOEX since LOEX lends its materials to a wide audience. If you are interested in contributing copies of your clearinghouse materials to LOEX, please write Carolyn Kirkendall, Director, LOEX Clearinghouse, 217 H Library, Eastern Michigan University, Ypsilanti, Michigan 48197 or call (313) 487-0168 for more information.

The attached brochure outlines LOEX policies, services and charges. ERIC clearinghouse representatives may find it a helpful reference tool for explaining LOEX to SOC workshop participants, who may be interested in obtaining user education and orientation materials. (See Attachment 4.)

...Elaine R. Martin (SP)

NCES AND OSE USE AACTE/ERIC-SP ANNUAL REVIEW MATERIAL

Introductory material to the ERIC Clearinghouse on Teacher Education Annual Review Report has been shared with the National Center for Education Statistics for use as a prime planning document for a chapter on teacher education in the 1983 Condition of Education publication. It has also been shared with ED's Office of Special Education Programs as a policy

piece for a current project on quality in education. The essay, written by Dr. David G. Imig, executive director of the American Association of Colleges for Teacher Education, addresses the status of teacher education in its many manifestations, including preservice education; inservice education (both college- and school-based); student characteristics, employment outlook; resource bases; program development; accreditation, certification, and evaluation; and, issues for action.

...Michael J. Butler (SP)

KNOWLEDGE INDEX (NEW DIALOG OFFERING)

"Can I search ERIC at home on my own computer?"

That question was asked repeatedly at Evaluation '82. We were interested, therefore to see an announcement by DIALOG of their new service called KNOWLEDGE INDEX.

The INDEX will provide users with a simplified version of DIALOG's search capabilities (i.e., some features of DIALOG—offline prints, search saves, SDI—have been removed) and low-cost access to a selected group of DIALOG's files, including, among others, ERIC, ABI/INFORM, PSYCINFO, MEDLINE, and NEWSEARCH.

The cost of access will be \$24/hour for all files; there is a \$35 fee to initiate service. Hours of access will be from 6 p.m. until 5 a.m., Monday through Friday; 8 a.m. until midnight on Saturday, and 3 p.m. Sunday until 5 a.m. Monday. Further information can be obtained by calling (800) 528-6050, Ext. 415 or (in Arizona) (800) 352-0458, Ext. 415.

...Louisa V. Coburn (TM)

NEW PUBLICATIONS

JUST THE FACTS, PLEASE

Users of the second set of fact sheets produced by the ERIC Clearinghouse on Counseling and Personnel Services are responding to them enthusiastically. These fact sheets were mailed out this fall with a business reply evaluation card (see below). More than 600 cards have been returned so far from the more than 7,500 recipients who constitute our regular mailing list. The ratings have been consistently positive, and we've received a large variety of topic suggestions and ideas/criticisms for improvement.

Please tell us what you think about our Fact Sheets:

	Excellent	Good	Satisfactory	Fair	Poor
Topic	<input type="checkbox"/>				
Length	<input type="checkbox"/>				
Depth	<input type="checkbox"/>				
Format	<input type="checkbox"/>				

Suggestions for future Fact Sheets:

Titles in this second set are:

- Divorce and One-Parent Counseling
- Career Resource Centers
- Comprehensive Guidance Program Design
- Conducting a Needs Assessment

Titles in the "inaugural" set mailed earlier are:

- Displaced Homemakers
- Career Guidance in Two-Year Colleges
- Teenage Pregnancy
- Counseling Gifted Students

We plan to produce four each year. All fact sheets are available free upon request from the ERIC/CAPS Office, 2108 School of Education, University of Michigan, Ann Arbor, Michigan 48109.

...Debbie Herbert (CG)

NEW PUBLICATIONS—CS

The following fact sheets have been developed by the ERIC Clearinghouse on Reading and Communication Skills. If you would like copies of any or all, let Anne Auten know. For those of you on BRS, the CS "T" number is TEDV, and you can place your order electronically.

- Bibliotherapy
- Help from ERIC/RCS
- Project Best
- Schemata
- Semiotics

New IAPs include:

- **ERIC First Analysis: National Defense Commitments.**
By David L. Wagner. 1982. \$3.75 single copy, 10% discount on 10-49 copies. 20% discount on 50+.
- **Especially for Teachers: ERIC Documents on the Teaching of Writing 1966-1981.** By ERIC staff. 1982. Stock #15829, \$8.50.
- **Improving Spelling and Vocabulary in the Secondary School.** By Richard E. Hodges. 1982. Stock #46627, \$4.00.
- **Listening Skills Schoolwide: Activities and Programs.** By Thomas G. Devine. 1982. Stock #29560, \$6.50.
- **Revising: New Essays for Teachers of Writing.** Edited by Ronald A. Sudol. 1982. Stock #41269, \$8.75.

...Anne Auten (CS)

NEW PUBLICATIONS - EC

A Case for the Small Special Education Personnel Preparation Program is a new Hot Topics paper developed by William L. Geiger, University of Arkansas, Little Rock; Lesley Wheatley, Furman University, Greenville, South Carolina; and Joyce Blasi, Eastern New Mexico University, Portales. This paper was written to address issues vital to students and teacher educators who are searching for the right place to study and work. Characteristics and advantages of the small program are explored including convenience, community orientation, the personal touch, counseling, opportunity to influence program and continued professional growth. Hot Topics papers may be duplicated and distributed freely.

The following is a new IAP:

- Assessment, Placement, and Programming of Bilingual Exceptional Pupils: A Practical Approach, by Maximino Plata. 54 pages, \$7.00 (Stock No. 259).

The following are new ERIC Exceptional Child Education Reports:

- Special Education in America: Legal and Governmental Foundation Series
 - Policy Considerations Related to Early Childhood Special Education, by Barbara J. Smith. 24 pages, \$4.00 (Stock No. 253).
 - An Appropriate Education for Handicapped Children of Limited English Proficiency, by Leonard Baca and Jim Bransford. 25 pages, \$4.00 (Stock No. 254).
 - Planning State Fiscal Policies to Meet Local Needs, by Frederick J. Weintraub and Scottie Higgins. 26 pages, \$4.00 (Stock No. 255).
- Programming for the Gifted Series—Stewardship: Training the Gifted as Community Mentors, by Ted Runions. 52 pages, \$4.00 (Stock No. 265).
- Educating the Other Half: Implications of Left/Right Brain Research, by Ronald L. Rubenzer. 44 pages, \$4.00 (Stock No. 264).

...Jean Nazzaro (EC)

NEW PUBLICATIONS - HE

The following are two new IAPs:

- The Enrollment Crisis: Factors, Actors, and Impacts. J. Victor Baldrige, Frank R. Kemerer, and Kenneth C. Green. AAHE/ERIC/Higher Education Research Report No. 3, 1982. (\$5.00). (HE 015 656).
- Improving Instruction: Issues and Alternatives for Higher Education. Charles C. Cole, Jr. AAHE/ERIC-Higher Education Research Report No. 4, 1982. (\$5.00). (HE 015 657).

The following is a recent Fact Sheet:

- Salary Equity in Higher Education: Where Do We Stand? James V. Koch. AAHE/ERIC - Higher Education Research Currents. October 1982. (\$.78).

The Research Reports and Research Currents can be ordered from: Publications Department, American Association for Higher Education, One Dupont Circle, Suite 600, Washington, DC 20036.

...Laura Ciarniello (HE)

PERSONNEL NEWS

PENNY SCHREIBER REJOINS CG STAFF

Penny Schreiber, a former publications editor at the ERIC Clearinghouse on Counseling and Personnel Services, who left to have a baby in 1981, has returned as an Abstractor/Indexer. Her familiarity with the system and proven writing skills make her an ideal choice for the job. She fits the category of at-home-mother that experience has shown to work well in this position. We hope to have her with us for a long time.

...Mary Frenza (CG)

PAUL BRUCKER JOINS HE STAFF

HE welcomes its new staff member, Paul Brucker, as Publications Coordinator. Paul comes to the Clearinghouse from George Washington University's Public Relations Office. In addition to his new responsibilities with ERIC, Paul just began hosting a bi-weekly radio program called "Poetry Party."

...Marilyn Shorr (HE)

NEW SOCIAL SCIENTIST

Sheryl Robinson, Coordinator of User Services at the ERIC Clearinghouse for Social Studies/Social Science Education, gave birth to Colorado's youngest social scientist on October 10. Congratulations to Sheryl and her husband, Stephen, on the birth of their son, Jonas Bram Jacobson.

...Laurel Singleton (SO)

PATRICIA NOETH REPLACES CHERYL MOORE WHO REPLACES GERALYN KAMINSKI

Cheryl J. Moore has been appointed Processing Coordinator at the ERIC Clearinghouse on Tests, Measurement, and Evaluation. She replaces GERALYN Kaminski, who left for a position with a private investment firm. Cheryl formerly held the position of Indexer/Abstractor at the Clearinghouse.

Patricia E. Noeth, newly appointed Indexer/Abstractor at the Clearinghouse, joined the staff full-time in October. Pat has worked part-time for the Clearinghouse since the summer. She assumed the position previously held by Cheryl Moore.

...Louisa V. Coburn (TM)

STAFF CHANGES AT UD

Mr. Michael Webb, Assistant Director at the ERIC Clearinghouse on Urban Education since September of 1981, will be leaving his full-time position on November 5, 1982. Michael Webb has been involved in acquisitions, conferencing and training, user services, and of course, the day-to-day management of the

Clearinghouse. Mike's combination of high level expertise and efficiency with well-developed interpersonal skills have gone a long way toward making life easy and pleasant at the Clearinghouse for all concerned. His presence will be sorely missed.

On the bright side, Mike will continue to work on a part-time basis. He will be conducting workshops for the Clearinghouse at professional meetings while he is finishing up his dissertation at Teachers College. Correspondence formerly addressed to the Assistant Director can be sent to Maryellen LoBosco, who will either take care of it or route it to the appropriate person.

Maryellen LoBosco is now Managing Editor at the Clearinghouse. She will supervise all publications operations as well as the RIE/CIJE editing/abstracting.

New staffers at the Clearinghouse are two part-time secretaries: Devora Tulcensky and Veronica Newton. Ms. Tulcensky is a candidate for a masters degree in art education. Ms. Newton is working on a masters degree in developmental psychology. Both are students at Teachers College.

...Erwin Flaxman (UD)

MEETINGS AND CONFERENCES

SUSAN IMEL MEETS WITH ADVISORY COMMITTEE MEMBERS; ATTENDS COMPETENCY-BASED ADULT EDUCATION CONFERENCE; AND PRESENTS AT AAACE

During the recent National Adult Education Conference, Susan Imel met with adult education subgroup members of ERIC/ACVE's Advisory Committee. Committee members discussed trends in the field of adult education and made suggestions about major publication topics. Adult education subgroup members are:

- Dr. Donnie Dutton
University of Arkansas
- Dr. Violet Malone
University of Illinois
- Dr. Carol Kasworm
University of Texas
- Ms. Fran Spinelli
Montclair State College

Dr. Imel also attended the Competency-Based Adult Education Conference held in San Antonio, Texas on November 10-11, 1982. Dr. Imel presented a session, "Inventing New Wheels: the Dissemination of CBAE Innovations," with James Parker, Development and Dissemination Branch, Office of Vocational and Adult Education, USDE.

Dr. Imel attended the National Adult Education Conference in San Antonio, Texas on November 12-16, 1982. During the conference, which marked the founding of the American Association for Adult and Continuing Education (AAACE), Dr. Imel presented a session, "Career Development in the Workplace," and moderated a presentation on "A Model for Lifelong Learning: Reviewing

Self-Directed Learning Research." She also participated as a panelist for sessions on "Information Dissemination in Adult Education via National Clearinghouses" and "Publication and Dissemination Opportunities in Adult Education."

...Judy Wagner (CE)

CAPS PARTICIPATES AT MPGA AND NCACES

On October 31-November 2, 1982, Director Garry R. Walz and staff members Lynette Kosky, Jeanne Collet, and Mary Frenza attended the annual Michigan Personnel and Guidance Association meeting in Flint, Michigan. A highlight of the program was the workshop presentation on program evaluation given by Dr. Walz and Ms. Collet. Even though the overhead projector failed to function for her portion of the program, Jeanne carried on superbly with blackboard and chalk.

Dr. Walz and Ms. Collet also presented two sessions at the annual meeting of the North Central Association for Counselor Education and Supervision which was held in Minneapolis, Minnesota, October 14-16. Both sessions focused on program evaluation and accountability for counseling and counselor training programs. The first session addressed issues involved in providing evaluation consultation for school guidance programs. The second, a three hour skill building workshop, presented a strategy for designing an internal, self-conducted program evaluation. Relevant computer searches of the ERIC database were provided to participants.

...Jeanne Collet (CG)

ERIC/EC TO EXHIBIT AT MICROCOMPUTER CONFERENCE

The ERIC Clearinghouse on Handicapped and Gifted Children (EC) will participate in a National Conference on the Use of Microcomputers in Special Education. This conference, sponsored by The Council for Exceptional Children, will be held in Hartford, Connecticut on March 10-12, 1983. The Conference will include plenary and professional sessions, demonstrations and exhibits all designed to explore administrative concerns and the application of hardware and software to specific special education populations.

ERIC/EC will manage an exhibit at this conference. If any ERIC system component has materials that should be displayed at this conference, please contact Lynn Smarte or Don Erickson immediately.

...Donald K. Erickson (EC)

ERIC REPRESENTED AT DIALOG USERS MEETING

Lynn Smarte from the ERIC Clearinghouse on Handicapped and Gifted Children represented ERIC at the DIALOG Users Meeting in New Orleans on October 7-8, 1982. An indepth ERIC search workshop was presented for 25 participants the day before the DIALOG meeting. Participants were very

appreciative that ERIC was represented, seemed pleased with the clothbound Thesaurus (and its contents), but are confused by the difference between "invalid" and "used for" descriptors.

...Lynn Smarte (EC)

JEAN NAZZARO ATTENDS CONFERENCE ON MARKETING AND PROCUREMENT OF TECHNOLOGY ASSISTED LEARNING SYSTEMS

On October 27-29, Jean Nazzaro attended a professional development conference on Marketing and Procurement of Technology Assisted Learning Systems, sponsored by The Society for Applied Learning Technology. The focus of the meeting was on how organizations can work with school systems and local education agencies to enhance cooperative industry/education ventures. It was a most helpful conference and provided many new ideas for products, training, and information dissemination.

...Jean Nazzaro (EC)

ERIC/EC EXHIBITS AT PHOENIX CONFERENCE

Don Erickson, Director of the ERIC Clearinghouse on Handicapped and Gifted Children, managed an exhibit of ERIC materials (including some from ERIC/CRESS) at a conference which focused on The Exceptional Bilingual Child. The conference, sponsored by The Council for Exceptional Children, was held at the Hyatt Regency in Phoenix, Arizona, October 31-November 2.

...Donald K. Erickson (EC)

ERIC/CLL REQUESTS MATERIALS ON BILINGUAL EDUCATION TO EXHIBIT AT NABE

The ERIC Clearinghouse on Languages and Linguistics will have a booth at the annual conference of the National Association for Bilingual Education (NABE) in Washington, DC in February 1983. We would like very much to display appropriate materials (minibibs, IAPs, etc.) from other clearinghouses. We did so two years ago at NABE, and the materials were greatly appreciated by conference participants. If you would like us to display and/or distribute anything for you, please send your materials to ERIC/CLL, Attention: Jeanne Rennie, no later than February 1, 1983.

...Jeanne Rennie (FL)

DON ELY KEYNOTE SPEAKER AT THE ANNUAL MEETING OF ICEM

Wearing his hat as Professor of Instructional Design, Development, and Evaluation, as well as that of Director of the ERIC Clearinghouse on Information Resources, Donald P. Ely gave one of the keynote sessions at the 32nd annual meeting of the International Council for Educational Media in Mexico City on October 27. His paper, "The Cross Cultural Use of Educational Media," was based on the cultural translation of materials developed in the U.S. for use in the Philippines, pre-revolutionary Iran, Indonesia, the Netherlands, and Puerto Rico. More than 100 participants from 14 nations were in attendance. This trip was taken at no expense to the ERIC system.

...Barb Minor (IR)

ERIC/IR CONFERENCE ACTIVITIES—ASIS, AASL, AND ONLINE

- American Society for Information Science

B. J. Vaughn and Bruce Clark attended the annual convention of ASIS October 17-21 in Columbus, Ohio. Bruce presented a paper, "MICROsearch--Extending the ERIC Database to Microcomputers," at a contributed paper session, and B. J. coordinated the ERIC exhibit. Assisting with the exhibit were Bruce Clark, Tom Grimes from SE, and Sandra Kerka and Judy Wagner from CE.

- American Association of School Librarians

Donald P. Ely represented ERIC at the AASL convention in Houston, Texas, October 21-24, where he made two presentations. "Using Microcomputers to Search ERIC" reported on current developments in downloading a large database for use on a microcomputer, and "Case Studies of ERIC Use in School Media Centers" focused on ways in which rural, suburban, and urban schools use ERIC.

- Online Conference

Barbara Minor attended the Online conference in Atlanta, November 1-3, where keynote speaker William Marovitz, the new president of BRS, expressed the concern of major online vendors with the wholesale downloading of files onto microcomputers for local use. The major focus of the convention was microcomputers, and a number of sessions were devoted to how to download files and/or search online with micros, as well as the copyright ramifications of downloading. Other sessions were concerned with word processing, information resources management, videodisc technology, networking, online catalogs, teletext, and the development of a program to provide a single access point to heterogeneous databases using natural language.

...Barb Minor (IR)

PS EXHIBITS AT CONFERENCE OF 14,000 EARLY CHILDHOOD EDUCATORS

Attendance soared to 14,000 this year at the annual conference of the National Association for the Education of Young Children held November 10-13 in Washington, DC.

Director Lilian Katz presented or participated in three sessions at the NAEYC conference. Mima Spencer and Dianne Rothenberg joined two other presenters to offer a session on computer literacy which was attended by more than 200 people and prompted enthusiastic discussion on the role of the educator in working with children and computers.

PS also held a luncheon meeting for advisory board members attending the conference at which Clearinghouse plans were discussed.

Spencer, Rothenberg, and Norma Howard staffed the ERIC/EECE booth and demonstrated computer searching of ERIC and explained "all about ERIC you ever wanted to know" to a seemingly endless flow of conference attendees. Great interest was expressed in the "working copy" of the microcomputer disk being developed at ERIC/EECE for students in training to become early childhood teachers. The disk was demonstrated on an Apple II Plus microcomputer at the booth.

...Norma Howard (PS)

SO ATTENDS NCSS

Staff from the ERIC Clearinghouse on Social Studies/Social Science Education exhibited and conducted sessions at the National Council for the Social Studies meeting held in Boston, Massachusetts on November 23-27, 1982. ChESS also distributed materials for the ERIC Clearinghouse on Higher Education.

...Jim Davis (SO)

ERIC/ChESS MAKES PRESENTATION AT COLORADO STATE LIBRARY ASSOCIATION MEETING

Regina McCormick demonstrated the new slide cassette program "ERIC: What It Is and How To Use It. Revised Edition (1982)" to a group of librarians attending the Colorado State Library Association meeting. The purpose of the session was to show the librarians how they can use the kit to teach their clients about ERIC. The response was very enthusiastic.

...Regina McCormick (SO)

JIM DAVIS VISITS REPUBLIC OF KOREA

From October 10 to 24, Jim Davis, along with 19 U.S. social studies textbook authors and publishers, participated in a seminar as guest of the Korean Ministry of Education in the Republic of Korea.

The purpose of the seminar was to acquaint the participants with accurate and up-to-date information about Korea that might be included in U.S. social studies textbooks. The Korean Educational Development Institute (KEDI) coordinated the seminar.

KEDI has an ERIC microfiche collection and subscribes to many of the journals indexed for CIJE. Davis gave the KEDI staff a one-half day seminar on the status and uses of ERIC. KEDI does about 300 hand searches per month for Korean researchers and curriculum developers. KEDI also produces its own RIE type index which includes ERIC type abstracts (in Korean) on KEDI-developed products.

SO MAKES ERIC PRESENTATION AT SOUTHWEST LIBRARY ASSOCIATION CONFERENCE

How to use the new "ERIC: What It Is, How To Use It" slide program with students and library clients was the topic of a presentation made by Regina McCormick on November 6, 1982, at the Southwest Library Association Conference in Phoenix, Arizona. Participants in the session were very enthusiastic about this new teaching tool.

...Regina McCormick (SO)

ERIC/SP CONDUCTS SOC/RIE WORKSHOP

Michael J. Butler, Associate Director, and Elaine R. Martin, User Services Coordinator, from the ERIC Clearinghouse on Teacher Education, conducted an ERIC workshop for West Virginia ERIC microfiche collection and RIE subscribers on November 18, 1982. The workshop, held at the Appalachia Educational Laboratory, Charleston, West Virginia, included a discussion of the latest developments and products of the ERIC system; a show-and-tell of materials available for ERIC user education and orientation seminars (including a presentation of the revised slide-tape "ERIC—What It Is, How To Use It"); and a demonstration of computer searching techniques.

In addition, an overview of the Appalachia Educational Laboratory by Sevilla Finley, Information Specialist, and an overview of the West Virginia Library Commission by Karen Goff, Reference Librarian, led to a stimulating discussion of networking among the West Virginia libraries, in general, and networking within the ERIC system, in particular. The workshop ended with some possibilities for promoting the use of ERIC throughout the state by building and maintaining a network of librarians and educators.

EXHIBIT AT EVALUATION NETWORK/EVALUATION RESEARCH SOCIETY

The ERIC Clearinghouse on Tests, Measurement, and Evaluation was one of a small number of organizations invited to exhibit at Evaluation '82, the joint meeting of the Evaluation Research Society and the Evaluation Network held in Baltimore, Maryland on October 28-30, 1982. Barbara Wildemuth and Louisa Coburn answered questions about ERIC and conducted demonstration searches of the ERIC database for interested evaluators.

...Louisa V. Coburn (TM)

CONFERENCE NEWS AND MEETINGS - UD

Dr. Erwin Flaxman, Director of the ERIC Clearinghouse on Urban Education, discussed emerging trends in urban education with a task force meeting of urban superintendents devoted to the social and economic context of schooling on Friday, November 5, 1982, at the National Institute of Education. The superintendents represented the schools in Atlanta, Boston, Kansas City, Oakland, and Detroit.

Michael Webb attended the annual conference of the National Black Child Development Institute, October 27-29, 1982, in Los Angeles, California. The theme of the conference was "Mobilizing for Black Children in a Time of Crisis." Approximately 350 people attended, ERIC/CUE and system materials were exhibited and papers were solicited for ERIC.

VISITORS HOSTED BY ERIC

VISITORS—EA

On November 11, 1982, the ERIC Clearinghouse on Educational Management received two visitors from Sweden. Gunnar Berg and Myrens Sodustrom of the Department of Educational Research at Uppsala University interviewed Director Philip K. Piele on the products and services of ERIC. They were particularly interested in the extent to which the ERIC database is accessible in Europe and worldwide.

...Stuart C. Smith (EA)

VISITOR—HE

Mr. Philip Narendra, Deputy Registrar at the University of the South Pacific, spent time at HE discussing Higher Education. Laura Ciarniello met with Mr. Narendra who was very anxious to look into the possibility of starting an ERIC collection at his university.

...Laura Ciarniello (HE)

VISITORS—PS

Seven visitors from China and one from Japan came to the ERIC Clearinghouse on Elementary and Early Childhood Education during October.

Six Chinese visitors from Nanjing Teachers College were led by College President Wu Ren on a UNICEF-sponsored preschool education study tour. They were shown how to find information in the ERIC system and given a computer search demonstration and publications in their areas of interest.

Dr. Cao Xiaoning, Associate Professor at Beijing Normal University, China, will be in this country as a visiting professor for one year. She is spending a concentrated amount of time at the Clearinghouse to study topics in early childhood education with Dr. Lilian Katz, Director, and to learn more about our information system.

Hisao Miyajima, an ERIC visitor from Tokyo, Japan, works with the Japan Employment Promotion Agency and is especially interested in the application of computer technology to vocational education.

...Norma K. Howard (PS)

VISITOR—SO

Mrs. Alie Dijkstra-Kruit was a recent visitor to the ERIC Clearinghouse for Social Studies/Social Science Education. She is a project leader for the "middenschool" (middle school), a new form of secondary education which was recently introduced by the Netherlands Ministry of Education and Science. The purpose of her visit to the United States was to investigate the way in which the American schools deal with changes in curricula, in particular the integration of subjects.

...Sydney J. Meredith (SO)

VISITOR—UD

Dr. Flaxman met with Mr. William Green, Director of Dissemination, Region II, U.S. Department of Education, to discuss trends in urban education on November 10, 1982. Mr. Green is preparing a policy analysis paper on urban education for the Secretary of the Department. He received various Clearinghouse publications.

EXPANSION OF ERIC FOCUSES ON THE PRACTITIONER

by Katherine Clay

In an attempt to make ERIC* of even more use to the educational practitioner, NIE* has entered into a 2-year, 4-phase Cooperative Agreement with the SMERC* Information Center at the San Mateo County Office of Education. ERIC itself is a computerized file of about a half million educational documents collected and processed by a network of ERIC clearinghouses, each of which specializes in a specific educational area.

Phase I of this new project is designed to find out from the educational practitioner what materials would be helpful to the educational practitioner (a "user driven approach"); Phase II is designed to find out what is already in ERIC which is most used or most helpful to the educational practitioner; Phase III is designed to locate, index, and abstract new materials identified in Phase I; Phase IV is designed to computerize and make available to practitioners through field test sites, materials located in Phase III. SMERC will be one of the five test sites; the ERIC Clearinghouse on Social Studies/Social Science Education in Boulder, Colorado will be another; the additional three test sites have not yet been selected.

Two months into Phase I, five information specialists have identified and defined multiple types of information which are not now generally in ERIC, but which might be of potential use to educators. The culmination of Phase I will take place in Washington, DC, in early March 1983, when 28 educators (hand-picked teachers; administrators; information specialists; representatives of federal education agencies; representatives of such organizations as: NEA (National Education Association), AFT (American Federation of Teachers), NASSP (National Association of Secondary School Principals), NAESP (National Association of Elementary School Principals), AASA (American Association of School Administrators), and ASCD (American Society of Curriculum Development); plus others, meet to discuss, accept, reject, or expand on, the types of materials identified as candidate documents for this new addition to ERIC.

When ERIC changed its name from Educational Research Information Center to Educational Resources Information Center in 1974, it took one small step toward indicating its intention to serve the educational practitioner as well as the educational teacher. We expect this new file will be an adjunct to, or addition to, or subfile of ERIC. By whatever name it eventually comes to be called, it is likely to be NIE's giant step toward making ERIC an even more effective practitioner-oriented body of information.

-
- *ERIC - Educational Resources Information Center
NIE - National Institute of Education
SMERC - San Mateo Educational Resources Center

Some of the special types of materials identified and under consideration for this new file are: corporate materials; education-oriented materials developed by trade associations or community organizations; educational materials developed by non-education state, local, and federal agencies; administrative materials from management consulting firms; book reviews; and many, many others.

If you are a practitioner and have ever searched (or had searched for you) ERIC, and wish ERIC had a particular type of material, or had more of a particular type of material, or wish further information on this project, please contact Kathy Clay, Project Director, SMERC, 333 Main Street, Redwood City, California 94063. Telephone: (415) 363-5450.

DEPARTMENT OF EDUCATION PREPARED OR SPONSORED DOCUMENTS
ANNOUNCED IN ERIC'S ABSTRACT JOURNAL
RESOURCES IN EDUCATION (RIE) TO BE PROVIDED TO GPO
FOR INCLUSION IN DEPOSITORY LIBRARY DISTRIBUTIONS

The Government Printing Office (GPO) has made arrangements with ERIC to obtain the original paper copies of documents announced in *Resources in Education* (RIE) that are either directly published products of the U.S. Department of Education or that the agency has sponsored (i.e., contractor reports).

This amounts to a little over 100 documents per issue of RIE or somewhat less than 10% of ERIC's total announcements.

The items that are selected from this group by GPO for announcement in the *Monthly Catalog of United States Government Publications* will then be microfiched by GPO (following GPO's standards for this activity, including the Superintendent of Documents Number in the masthead) and will be included in Depository Library System shipments, under the appropriate categories.

For the benefit of libraries, several points need to be made about this arrangement:

- The material obtained from ERIC by GPO represents only those Department of Education prepared or sponsored documents that have been released by the agency and that have met ERIC selection criteria. They do not necessarily represent the total Department of Education output.
- The material obtained from ERIC by GPO represents less than 10% of the total ERIC database. The resultant GPO microfiche in no way substitute for subscribing to the total ERIC microfiche collection.
- Since the GPO selection takes place months after ERIC has processed the materials in question, there is no way for ERIC to tag these materials in its abstract journal *Resources in Education* (RIE). Whether GPO will note the ERIC ED number for these items in its *Monthly Catalog* is not known at this time.
- Availability of full-size paper copy of the documents involved will still be through the ERIC Document Reproduction Service (EDRS). GPO will not be a source of availability for reproduced paper copy of any ERIC documents.

ACTION ITEMS

EAB REVERTS TO MONTHLY SCHEDULE

The November/December issue of the ERIC Administrative Bulletin (EAB) was an experiment in combining two months of ERIC news into one issue. The purpose behind this experiment was to save printing money. It became readily apparent, however, that the value of the EAB was substantially reduced when the contents of the publication were spread out over double months. Central ERIC has concluded that the EAB is an essential ERIC tool for internal communication and is dependent to a large extent on timeliness. Therefore, commencing with the January 1983 issue, the EAB will revert to being a monthly publication.

The goal of reduced printing costs remains, however. With this in mind, there will be more extensive editing of articles than has been true in the past. The clearinghouses are urged to consider this an opportunity to "fine tune" the contents of the EAB by bringing into focus only those articles which are truly important and newsworthy.

Consider also good writing style. Make it incumbent upon yourselves as "reporters" that you consider these questions when submitting your stories: who, what, where, when, and how. Write clearly and concisely. Adhere also to the cardinal rule of story writing: Make it worth reading.

Because the clearinghouses were not forewarned that their articles would be so treated in the future, the articles in this issue of the EAB appear essentially as submitted. Future articles, however, may be substantially altered or deleted on the basis of length of story and importance to the network.

The EAB is a network publication. There is much that goes on within the ERIC network that should be shared. There is much that is learned from outside of ERIC that is of value to the network. The EAB is the place to share it and to record it.

...Kevin Arundel (Central ERIC)

DEPARTMENT OF EDUCATION DOCUMENTS, IF ACCEPTED, SHOULD BE PRIORITY DOCUMENTS

When Department of Education documents, especially those of the National Institute of Education (NIE) and the National Center for Education Statistics (NCES), are published, press releases are often issued simultaneously. Consequently, an immediate public demand is created, making it important that these documents be made available by ERIC as quickly as possible. Although it is not absolutely mandatory that they be accepted, if they are selected for RIE input, they should be assigned PRIORITY status and processed as soon as possible.

...Charles Hoover (Central ERIC)

SUDDEN INCREASE SEEN IN ANALYTICS

For the period January - August 1982, the percentage of Level 3 documents in RIE was 4.2%. For the January 1983 issue, the percentage of Level 3's experienced a sudden increase to 5.8%.

The Facility hopes that the increase is not attributable to the article that appeared in the October 1982 EAB on Level 3 Documents in RIE in 1982. This article pointed out that only 5 clearinghouses used analytics and the other 11 never used analytics. This was not intended to encourage a higher percentage of analytics (and hence Level 3's) in an RIE issue as a whole, but we can see how that might have occurred if the non-using 11 clearinghouses suddenly started doing analytics. Investigation reveals, however, that most of the January analytics are coming from the same small group of clearinghouses that have always used them.

Word to the wise: please keep analytics modest in number and well-justified as significant contributions worthy of separate treatment.

...Ted Brandhorst (ERIC Facility)

CATALOGING ADVISORIES

PRIORITY DOCUMENTS

PRIORITY documents are those that must be processed for the very next possible issue of RIE. Every month there are at least a few PRIORITY documents. In order to ensure that PRIORITY documents can proceed unhindered, we would like to remind you of the following points (see the ERIC Processing Manual, p. IV-4, IV-27):

1. Resume Transmittal - Clearinghouses that transmit RIE data to the Facility online should notify the computer department staff prior to transmittal of their data that they have a PRIORITY document and that its data should be kept separate from that week's regular transmittal. Clearinghouses that transmit via OCR forms should submit the standard forms.
2. Shipment of Documents - PRIORITY documents must be kept separate from the regular weekly shipment. They should have their own log and it should be marked "PRIORITY." Note, however, that PRIORITY document shipments should be addressed to the regular location and not to specific editors or other individuals.

3. Deadline - Normally, the deadline for adding PRIORITY documents is the first day of the "Release" cycle line on the RIE Master Schedule. (However, the final decision of which issue a PRIORITY document will be announced in is dependent on the size and quantity of PRIORITY documents and is subject to change by the Facility). Documents received by the Facility after that date will be processed for the succeeding issue of RIE.
4. Special Information - If any special information about the PRIORITY document must be communicated to the Facility, attach a note to the document.

...Carolyn Weller (ERIC Facility)

CAPITALIZATION OF NAMES OF ETHNIC GROUPS

The question has arisen as to whether to capitalize the words "black" (as the preferred alternative to "Negro") and the word "white" (as the preferred alternative to "Caucasian").

The commonly accepted practice is to lower-case these two terms, at least when they are the only groups being discussed. However, a cosmetic and "consistency" problem arises when these terms are used along with the names of other ethnic groups, e.g., "Hispanics," "Orientals," "Asian Americans," etc., that are commonly capitalized. In ERIC abstracts, arrays of these terms have sometimes been all lower-case, sometimes been all with initial capitals, and sometimes been in mixed format.

After consultation with the National Council of Teachers of English (NCTE), we have arrived at the following guidelines, which we would propose to build into the EPM at the next opportunity, if there are no objections.

EPM Guidelines:

"Documents concerned with the two broad racial groups, blacks (Negroes) and whites (Caucasians), should follow the practice of lower-casing these terms in their abstracts, i.e., blacks and whites.

"Documents concerned with Blacks and Whites and other racial groups, such as Asian Americans, Hispanics, Orientals, etc., should follow the practice of using initial capital letters for all racial group names appearing in the abstracts, i.e., Blacks, Whites, Asian Americans, Hispanics, Orientals."

...Carolyn Weller (ERIC Facility)

CONTRACT RENEWALS & COMPETITIONS

NEW CLEARINGHOUSE CONTRACTS (CG, EA, SE, SO, TM)

Congratulations are in order to the following organizations for successfully competing for new 3-year ERIC clearinghouse contracts starting January 1, 1983:

CLEARINGHOUSE	CONTRACTOR	LOCATION	MONITOR
ERIC Clearinghouse on Counseling and Personnel Services	University of Michigan	Ann Arbor, Michigan	Judi Conrad
ERIC Clearinghouse on Educational Management	University of Oregon	Eugene, Oregon	Sam Pisaro
ERIC Clearinghouse for Science, Mathematics, and Environmental Education	Ohio State University Research Foundation	Columbus, Ohio	Mildred Thorne
ERIC Clearinghouse for Social Studies/Social Science Education	Social Science Education Consortium, Inc.	Boulder, Colorado	Sam Pisaro
ERIC Clearinghouse on Tests, Measurement, and Evaluation	Educational Testing Service	Princeton, New Jersey	Kevin Arundel

Central ERIC looks forward to continuing good working relationships with these "new" contractors.

Four additional clearinghouses are currently in competition, and the awards of these contracts will be announced when they are finalized.

...Kevin Arundel, Judi Conrad,
Sam Pisaro, and Mildred Thorne
(Central ERIC)

NETWORK NEWS

RIE INPUT (BY CLEARINGHOUSE)—STATISTICAL ANALYSIS

Input by clearinghouse for each issue of RIE during 1982 is displayed in Attachment 1.

We would like to use the table to preach a little about the principal aspect of these shipments that can cause us difficulties here at the Facility—that is, large variances in shipment size and hence input volumes.

Some clearinghouses are remarkably stable in the size of their shipments and in their overall input for a month. This kind of stability helps the Facility to even out its workflow and to make the RIE schedule. Other clearinghouses have large variances in their shipments and sometimes in overall input for the month. This forces the Facility to adjust to the variable workflow and sometimes even to shift documents from one issue to another in order to even out the size of the RIE issues.

Consistency is very desirable in this task and we would like to thank the following four clearinghouses for keeping their variance between high and low months to under 50 documents: CG, PS, SO, and UD. Of this group, CG was head and shoulders the most consistent with a high input of 71 and a low of 55 for a variance of only 16.

FL, JC, and RC also kept their variance to under 50, but had a significant number of shipment abstentions, which also can have a deleterious effect on Facility workflow and which should be avoided whenever possible. Abstentions will be reported on next month.

...Carolyn Weller (Facility)

MICROsearch

The ERIC Clearinghouse on Information Resources developed "A Brief Description" of their MICROsearch software to use in servicing public inquiries. This appeared as Attachment 7 in the September 1982 issue of Interchange. In addition, it has recently come to our attention that they have also developed two order forms: (1) Subscription Order Form, and (2) Demonstration Set Order Form. These are reproduced here as Attachment 2 for possible use by other clearinghouses receiving inquiries about MICROsearch.

...User Services Staff (ERIC Facility)

COMPUTER-BASED USER SERVICES AT ERIC/ACVE

The ERIC Clearinghouse on Adult, Career, and Vocational Education is beginning on-line user services as a member of the vocational education computer-based message system which is coordinated by the National Center for Research in Vocational Education. This system involves networking with research units, state departments of education, curriculum centers, and professional associations. We will be experimenting with such services as on-line user services product announcements and ordering, transmission of mini-bibs and fact sheets, and on-line assistance in developing search strategies.

...Judy Wagner (CE)

FULBRIGHT LECTURER KATZ TRAVELS TO INDIA

With the support of a Fulbright Lecture Award, Lilian Katz, Director of the ERIC Clearinghouse on Elementary and Early Childhood Education, will be a visiting lecturer in India for three months starting in January. Her assignment includes teaching graduate seminars in the Child Development Department of the Faculty of Home Science at the University of Baroda as well as lectures and seminars for faculty, students and teachers concerned with young children, child care, and preschool education in various parts of India.

...Norma Howard (PS)

KATZ ARTICLES SELECTED FOR RESEARCH AND DEVELOPMENT CENTER SERIES

An article presenting provocative views on the value of follow-up studies in the evaluation of teacher education programs, by Lilian G. Katz, Director of the ERIC Clearinghouse on Elementary and Early Childhood Education, James Raths, et al, was selected as the lead article in one of a "Point Counterpoint" series published by the Research and Development Center for Teacher Education, at the University of Texas, Austin.

The publication, "Teacher Education Program Evaluation: Point Counterpoint," reprints the original Katz et al article, which first appeared in the March-April 1981 Journal of Teacher Education, a "counterpoint" or rejoinder article by Ronald D. Adams, James R. Craig et al, which appeared in the September-October 1981 Journal, and also a letter by Katz and Raths in response to the rejoinder.

...Norma Howard (PS)

SP TO CONDUCT SPECIAL PROJECT

The ERIC Clearinghouse on Teacher Education is conducting a two-month study of major issues confronting education policymakers at state and local levels. Funded by NIE/DIP/CERIC as a special project, the study findings will help to enhance ERIC's responsiveness to information needs of this population. The target population is defined as the constituencies of the National Association of State Boards of Education, the National Congress of Parents and Teachers, the National Conference of State Legislatures, the National School Boards Association, and the Education Commission of the States. A letter to each clearinghouse director, dated 3 January 1983, provided more detail. Joost Yff is principal investigator of the project.

...Joost Yff (SP)

BRS INTRODUCES PREP DATABASE

BRS introduced its PRE-PSYC (Search Label PREP) database during the summer, and, by its own report, the file met with enthusiastic support during the free-access introductory offer. The purpose of PREP is to provide timely access to citations from 98 key psychological journals. Although its primary focus is on clinical psychology, PREP also covers certain psychological aspects of gerontology, criminal justice, sociology, and education. It is BRS's policy to include journal articles in the file only if the individual article title appears in the journal's table of contents. Book reviews and correspondence are not included if only a section heading is provided for this type of article.

According to BRS, searchers familiar with BRS/MEDLINE, HEALTH PLANNING AND ADMINISTRATION, and PRE-MED will quickly learn to search PREP, since all of these databases have similar formats and are indexed using Medical Subject Headings (MeSH). PREP has no royalty fee and can be accessed at your basic connect hour rate.

...Louisa V. Coburn (TM)

BRS/AFTER DARK OFFERED TO HOME COMPUTER USERS

BRS/After Dark is the name of the new service BRS has developed for personal computer users. Described as a user friendly system which requires no formal training, BRS/After Dark allows personal or home computer users access to many of the same comprehensive databases (including ERIC) available to organizations during the day. The service is available from 6 p.m. until midnight, local time. Rates include a one-time subscription charge of \$50.00. Access to BRS/After Dark is available for a minimum fee of \$6.00 per connect hour, including UNINET telecommunications charges, and there is a \$12.00 per month minimum usage fee. (Individual database royalties are not included in the \$6.00 per connect hour charge, but have been reduced for this program.) Subscribers are billed through their personal bank credit cards.

...Louisa V. Coburn (TM)

SCIL NEWSLETTER

Small Computers in Libraries (SCIL) is the title of a monthly newsletter available from the Graduate Library School, College of Education, University of Arizona, Tucson, Arizona 85721.

SCIL describes microcomputer projects which have been implemented in schools and libraries around the country and also offers reviews of microcomputer-related books; announcements of new products, programs, and seminars; and feedback from users. Of particular interest for example, is the announcement in the October issue of an online terminal/microcomputer guide and directory which offers practical advice on choosing between a terminal or a computer for online database searching.

Subscriptions to the newsletter are available for \$20.00 per year. Orders should be sent to the address given above.

...Louisa V. Coburn (TM)

NEW PUBLICATIONS

NEW PUBLICATIONS—CE

The following eight major publications, produced by the ERIC Clearinghouse on Adult, Career, and Vocational Education, will be announced in the February 1983 issue of RIE. A set of these papers will be sent to each clearinghouse in the near future.

- Adult Education for the Handicapped. Gordon A. Larson.

Serves as a general guide for adult educators interested in developing educational programs for handicapped adults. Gives an overview of facts, problems, and programs unique to each of four handicapped populations: physically handicapped, blind, deaf, and mentally retarded.

- Lifelong Learning: Formal, Nonformal, Informal, and Self-Directed. Donald W. Mocker and George E. Spear.

Provides a model of lifelong learning to clarify the concept. The model is based on four identified situations of learning—formal, nonformal, informal, and self-directed—and it demonstrates how all planned or deliberate learning is located along a continuum. The paper also examines current research and trends in the area of self-directed learning.

- Quality Circles: Implications for Training. Carl L. Harshman.

Explores the background to and process of quality circles (QCs) as well as the implications of circles for management, facilitator, team leader, and circle member training. Includes information on the history and the theoretical and conceptual bases of QCs.

- Leisure: Integrating a Neglected Component in Life Planning. Carl McDaniels.

Provides a framework for considering leisure as an integral part of life planning according to six life stages: childhood; adolescence; young adulthood; adulthood; midlife; and retirement. Each stage is treated individually indicating the most positive features of leisure at that stage and how various institutions can assist a person in taking advantage of the opportunities of that stage.

- Career Education: Collaboration with the Private Sector. Robert D. Bhaerman.

Reviews aspects of career education and private sector collaboration. Focuses on the advantages as well as the problems with collaboration and suggests guidelines for future positive collaboration efforts. Specific examples of career education/private sector collaboration are given in an appendix.

- Retirement Policy: Planning for Change. Kathryn H. Anderson, Editor.

Includes four papers that examine past and current retirement policies for the elderly and the implications of these policies for labor supply, job choice, and educational planning for the elderly. Proposed changes in federal retirement policies are discussed as well as the effect of retirement policies on labor force participation and labor supply. The need for vocational and adult educators to design effective programs to support and retrain the elderly is emphasized.

- Communications Technologies: Their Effect on Adult, Career, and Vocational Education. Norman M. Singer, Editor.

Overviews recent developments in communications technologies and suggests how these developments will affect adult, career, and vocational education. Offers perspectives by four noted authors on ways in which communications technologies are affecting the world of work, and subsequently, educational content and delivery.

- Career Development in the Work Place. Susan Imel, Richard L. Knowdell, and Anita Sklare Lancaster

Presents nine tasks to be performed in planning organizational career development programs. Helps planners address organizational issues about career development of staff as well as plan systematic programs.

NSBA ACCLAIMS ERIC/CEM BOOK

The National School Boards Association selected a book published by the ERIC Clearinghouse on Educational Management to appear in its end-of-the-year review of the "big books in education" that should be read by school board members.

Among the twenty-seven books highlighted for this recognition by NSBA's editors, reviewers, and consultants, is Collective Bargaining, Strikes, and Financial Costs in Public Education: A Comparative Review, by Bruce S. Cooper. The 120 page monograph is the latest issue in the Clearinghouse's state-of-the-knowledge series.

...Stuart C. Smith (EA)

NEW PUBLICATIONS—EC

- New IAPs:

Microcomputers in Special Education: Selection and Decision Making Process. Florence M. Taber. 112 pages, \$7.95 (Stock No. 248).

Reflections on Growing Up Disabled. Reginald Jones. 112 pages, \$7.50 (Stock No. 258).

Career Education for Behaviorally Disordered Students. Albert H. Fink and Charles J. Kokaska. 133 pages, \$14.95 (Stock No. 261).

- New ERIC Exceptional Child Education Report:

Divestiture in Special Education—A Personal Point of View: The 1982 Statesperson's Roundtable. M. Stephen Lilly. 19 pages, \$2.00 (Stock No. 618).

- ERIC/EC Hot Topics Paper

The Extended School Year Controversy: Judicial v Educational Considerations is a new Hot Topics paper developed by William C. Healey and Julie Reichman, University of Arizona, Tucson, Arizona.

This paper was written to address the following issues:

- the right to extended school year programs for handicapped children
- the need for such programs by these children
- court considerations of pupil eligibility
- implementation of extended school year programs in Pennsylvania

Under educational considerations the authors discuss eligibility criteria; pupil need and instructional time; and recommendations. Hot Topics papers may be duplicated and distributed freely.

...Jean Nazzaro (EC)

NEW PUBLICATIONS—HE

IAPs:

Planning for Program Discontinuance. From Default to Design.
Gerlinda Melchiori. AAHE/ERIC-Higher Education Research Report No. 5,
1982. (\$5.00). (HE 015 830).

State Planning, Budgeting, and Accountability. Carol Everly Floyd.
AAHE/ERIC-Higher Education Research Report No. 6, 1982. (\$5.00).
(HE 015 831).

...Laura Ciarniello (HE)

MEETINGS/CONFERENCES/SPEAKING ENGAGEMENTS

DECEMBER IS CONFERENCE MONTH AT ERIC/ACVE

Juliet Miller, Director of the ERIC Clearinghouse on Adult, Career, and Vocational Education, gave several presentations recently. She discussed ERIC at the National Invitational Workshop on Career Education, and gave three presentations at the American Vocational Association convention. Both meetings were held in St. Louis during December.

...Judy Wagner (CE)

ERICKSON PARTICIPATES IN ERIC FUTURES AND TECHNOLOGY COMMITTEES MEETING

Donald K. Erickson, Director of the ERIC Clearinghouse on Handicapped and Gifted Children, travelled to Boulder, Colorado on December 9-10 under co-ed sponsorship. He participated in a meeting of selected members of the ERIC Futures and Technology Committees. These two groups who have been working independently brought interim reports to this meeting for discussion and analysis, and emerged with a joint report which makes recommendations for the ERIC system based on the concerns of both committees.

After the official meeting was over, Erickson stayed an additional day for skiing in the Rockies and managed to come home without a broken bone.

...Donald K. Erickson (EC)

HE GIVES TECHNICAL ASSISTANCE

As a follow-up to a summer meeting with Chuck Hoover, Ted Brandhorst, and representatives of the Maryland State Department of Education, Lynn Barnett hosted a half-day technical assistance meeting with those same Maryland representatives in December to discuss indexing procedures in database building. The project at hand is the development of a Maryland Instructional Resources Network, which is being produced at the State Media Services Center.

...Laura Ciarniello (HE)

LIBRARY AUTOMATION TAUGHT BY BASKIN AND ROTHENBERG

Linda Baskin and Dianne Rothenberg, of the ERIC Clearinghouse on Elementary and Early Childhood Education, taught a course in Library Automation at the University of Illinois Graduate School of Library and Information Science during the fall semester.

Computer basics and specific applications of computers for library automation were studied by the thirty students in the class, who included doctoral candidates and practicing librarians.

...Norma Howard (PS)

MEETINGS WITH KLINGENSTEIN FELLOWS AND DIRECTOR OF HISPANIC POLICY DEVELOPMENT PROJECT

On November 23, 1982, Dr. Erwin Flaxman, Director of the ERIC Clearinghouse on Urban Education, spoke to fellows of the Klingenstein Program concerning U.S. information dissemination policies in education, especially the policies and practices of the ERIC system. The Klingenstein Fellows are faculty and administrators of private independent schools who are on leave for one year to pursue individual interests.

On November 18, 1982, Dr. Flaxman met with Ms. Siohban Oppenheimer-Nicolau, President of the Hispanic Policy Development Project, an organization created to develop leadership among officials of business firms to assist the development of Hispanic youth. He discussed ways that the Project could benefit from the products and services of the Clearinghouse and the system.

MICROsearch
SUBSCRIPTION ORDER FORM

Quarterly MICROsearch Database Diskettes contain citations to journal articles and documents processed for the Educational Resources Information Center (ERIC) Database in particular subject areas. Each diskette contains between 200-300 records together with additional files that are necessary for searching. Two to three diskettes are required for each subject area each quarter. MICROsearch will only currently work on an APPLE II Plus microcomputer with Apple DOS 3.3 operating system, and at least one disc drive.

Please enter my subscription to the MICROsearch quarterly update service for the subject area(s) checked below. I understand that I will receive diskettes on a quarterly basis, and will be billed \$6.00 per diskette plus \$1.00 postage and handling per subject area.

Check choice(s) of database: Educational Technology Library/Information Science

Check if you need the MICROsearch Search Program and Manual (additional cost of \$10.00)

• Ship to: NAME _____
ADDRESS _____
CITY, STATE, ZIP CODE _____

• Bill to: SAME AS ABOVE _____
OR
NAME _____
ADDRESS _____
CITY, STATE, ZIP CODE _____

NOTE: If billing is to an institution, this order form must be accompanied by the institution's purchase order. There is an additional cost of 50¢ per quarter if the bill is to be sent to a different address.

Payment for one quarter's diskettes must be received before the set for the next quarter will be shipped.

Send order to : Information Resources Publications
130 Huntington Hall, Syracuse University
Syracuse, New York 13210

**MICROsearch
DEMONSTRATION SET ORDER FORM**

WHAT IS IT?

A new way to search ERIC using a microcomputer. Beginning in August, 1982, the ERIC Clearinghouse on Information Resources will package current subject-related portions of the ERIC database on diskette. Each diskette will contain 200-300 citations taken from recent issues of Resources in Education and/or Current Index to Journals in Education.

**EQUIPMENT
NEEDED**

Apple II Plus microcomputer with 48K RAM
Apple DOS 3.3 operating system
Printer (optional for searching)

**DEMONSTRATION
SET**

A demonstration set is now available for \$10.00 (plus \$1.00 for postage and handling). It contains:

- Program Diskette
(Includes the search program plus programs to print the contents of the database diskettes on an 80-column printer.)
- Database Diskette
(Choice of Educational Technology or Library/Media)
- User Manual

- Please send ___ MICROsearch demonstration sets at \$10.00 each _____
- Postage and handling @ \$1.00 plus \$.50 for each set over one. _____
- New York State residents add appropriate sales tax _____

ACTION
ITEMS

GET IT IN WRITING!

A perennial ERIC item is the clearinghouse attendee who rushes back from a national or regional technical meeting and puts into action a change that was discussed at the meeting and agreed upon as a "good idea."

The enthusiasm and initiative demonstrated in this situation is commendable, but the fact of the matter is that the "good idea" must first be considered by the ERIC Steering Committee for Technical Operations. If the Steering Committee likes it, they make a specific recommendation to Central ERIC. If Central ERIC likes it, they issue specific instructions to the ERIC Facility (or other contractor that may be impacted) to implement the change. At this point, the Facility issues revised ERIC Processing Manual (EPM) pages, or other necessary documentation relating to the change. No action should be taken by the clearinghouses until such documentation is received from Central ERIC or the Facility. Only by observing this careful procedure for review, central decision, and written documentation can ERIC maintain an orderly process of change, with all components of the system properly coordinated.

...Jim Prevel (Central ERIC)

LIAISON WITH STATE CAPACITY BUILDING PROJECTS

As you know, many of the State Capacity Building (SCB) projects are nearing the end of their five-year grants. Because the ultimate SCB goal is institutionalization of capacity building processes and because we feel ERIC clearinghouses can and should be supportive of that goal, we would like each clearinghouse to make a special effort to contact all SCB projects. Specifically, we would like each clearinghouse to send each SCB project a single copy of every one of their user services products, so that the SCB projects will avoid duplication of effort and can copy and disseminate ERIC products as needed.

At the same time, we will send out a letter from NIE asking each SCB project to make sure that:

1. they are not developing products already in existence and available from the clearinghouses (e.g., a fact sheet on computer technology for the handicapped);
2. they are submitting all appropriate state-developed materials to ERIC for possible inclusion in the database.

The names of contact persons and the SCB addresses are displayed in Attachment 1. Please draft a cover letter to go with your products and send carbon copies to your monitor and Barbara Lieb-Brilhart, SCB Program Manager, Regional Programs, NIE (Stop 26B), Washington, DC 20208.

...Judi Conrad (Central ERIC)

NEW PUBLICATION TYPE CODE 171

Pubtype code 171 -- "Multilingual/Bilingual Materials" has been approved as an additional category in ERIC's publication type scheme (per a recommendation of the ERIC Vocabulary Review Group). Clearinghouses may begin immediately to use the new code for RIE or CIJE input. (As always, the maximum number of codes that may be used for a given citation is three (3).)

The new code is a subcategorization of code 170 -- "Translations." Figure V-12 of the ERIC Processing Manual is being revised to carry definitions of these two categories as follows:

170 TRANSLATIONS To be applied to any document translated from its original language into a second language. The usual case will be a translation into English from an original non-English text, but other translation situations also apply.

Should also be classified elsewhere when possible.

171 --Multilingual/
Bilingual
Materials Materials whose contents include equivalent or near-equivalent information in two or more languages.

Also classify elsewhere when possible.

CAUTION: Do not misuse. Nonequivalent content in two or more languages (collections of disparate articles in different languages, most foreign language textbooks, etc.) should be excluded from this category.

Also, the following indexing note is being added to the Descriptor MULTILINGUAL MATERIALS in the ERIC Thesaurus:

"(Note: Corresponds to Pubtype 171 -- do not use except as the subject of a document)"

Revisions to the EPM and other materials to reflect this change will be issued in the near future. Until then, Clearinghouses are requested to update their present cataloging materials (e.g., ERIC Ready Reference #2) as a reminder to use code 171 whenever appropriate.

...Jim Houston (ERIC Facility)

NETWORK
NEWS

From Central ERIC...

Attachments 2-4 are statistical analyses created by the ERIC Facility. You will note that I have deleted the identification of clearinghouse names or arronyms to avoid unwarranted "finger pointing." The purpose of the analyses is to identify potential problem areas and to alert you to possible corrective actions.

You can be assured that we in ERIC are not interested in embarrassing any person or organization. We are proud of both your performance and the quality of ERIC products. We do not make arbitrary or capricious judgments. We do attempt to discuss problems with a clearinghouse on a case by case basis.

...Charles Hoover (Central ERIC)

CIJE INPUT (BY CLEARINGHOUSE)—STATISTICAL ANALYSIS

Attachment 2 depicts the input by clearinghouse for each issue of CIJE during 1982.

Extreme variances between shipments are not desirable because they make it difficult for the Facility to balance their CIJE workload in concert with their other ERIC functions. Clearinghouses should be aware of the problem and try to "even" out shipments for both RIE and CIJE as much as possible.

...Charles Hoover (Central ERIC)

DUPLICATES DETECTED IN CLEARINGHOUSE INPUT TO RIE—PUBLICATION YEAR 1982

During 1982, a total of 71 duplicates were detected in clearinghouse shipments for RIE and were removed by the Facility prior to publication. This is many more than the 41 duplicates found in 1981, but not as high as the total of 80 in 1980. Because of the added cost and lost time and effort, duplicates should be kept as low as possible.

Attachment 3 displays the count of duplicates by RIE issue and by clearinghouse number.

...Charles Hoover (Central ERIC)

CLEARINGHOUSE INPUT TO RIE AND CIJE—SHIPMENT ABSTENTIONS DURING PUBLICATION YEAR 1982

The RIE and CIJE schedules call for clearinghouses to ship every Friday whatever they have ready at that time. During the course of a year there are occasional abstentions due to individual circumstances at each clearinghouse.

Attachment 4 shows that during 1982 there were a total of 46 abstentions to RIE input (or an average of almost one per week).

CIJE input was much more erratic than RIE input. During 1982 there were a total of 110 CIJE shipment abstentions of 2.1 per week on the average. Some issues of CIJE suffered through as many as 15 abstentions. We realize there can be many varied and valid reasons for a clearinghouse abstaining from either a shipment for RIE or CIJE. You can realize, however, for the overall efficiency of the system, abstentions should be kept to a minimum. Please help us in this effort.

...Charles Hoover (Central ERIC)

NAESP JOURNAL SERVES AS VEHICLE FOR DISSEMINATION OF ERIC/CEM PRODUCTS

Two recent articles in The Principal, journal of the National Association of Elementary School Principals, give evidence of the efforts by the ERIC Clearinghouse on Educational Management to achieve more cost effective dissemination of its products.

Two articles on legal self-defense for principals, by Jo Ann Mazzarella, clearinghouse research analyst and writer, appeared in the journal's November 1982 and January 1983 issues. Originally planned as Research Action Briefs for publication by the clearinghouse, the products were tailored to The Principal's specifications when its editor showed interest in the topic. The result is that the products have been delivered to 23,000 subscribers at no cost to the clearinghouse.

...Stuart C. Smith (EA)

ERIC/FL USES MICROCOMPUTER TO KEEP HOUSE

The Center for Applied Linguistics recently acquired an IBM Persona' Computer. Many of the initial applications for the microcomputer have involved ERIC activities (financial planning aspects of clearinghouse management, maintenance of local document records, and, of course, input for RIE and CIJE).

In the near future, we hope to be keeping user services records on computer files, and perhaps also to expand our mailing list capabilities. We welcome an exchange of information with other clearinghouses on micro applications to clearinghouse activities, and we'll certainly keep everybody informed as we make more extensive use of this new technology.

...John Brosseau (FL)

CLEARINGHOUSES WORKING TOGETHER

Needing to be well-informed about computers in education because he was conducting a program which included Steven Jobs of Apple Computers, a television interviewer from EDP News Services contacted ERIC for assistance. Margot Eddy (HE) and Marilyn Laubacher (IR) worked together to produce a list of resources for the user within a couple of hours.

...Margot Eddy (HE)

JC CHANGES ADDRESS

At the ERIC Technical Meeting held in Washington, DC, JC announced a change of address:

ERIC Clearinghouse for Junior Colleges
University of California at Los Angeles
Mathematical Sciences Building, Room 8118
405 Hilgard Avenue
Los Angeles, California 90024

The telephone number remains the same.

...(Elizabeth Pugh (ERIC Facility))

INSTRUCTOR MAGAZINE TO FEATURE KATZ' COLUMN

Instructor magazine will feature a monthly column to be contributed by Dr. Lilian G. Katz, Director of the ERIC Clearinghouse on Elementary and Early Childhood Education, beginning in the fall. Since the Instructor is one of the most widely-read teachers' magazines, this column will have the effect of bringing ERIC/EECE to the attention of more than 270,000 readers on a monthly basis.

Dr. Katz also writes a monthly column for Parents magazine, another publication which has wide readership.

...Norma Howard (PS)

NEW YORK TIMES AND NEWSDAY CALL ON ERIC FOR ASSISTANCE

The New York Times and Newsday recently called the ERIC Clearinghouse on Elementary and Early Childhood Education for background information for news articles on issues in the education of young children. The Times article, which appeared January 27, concerned the effects on children of early school entrance age. Reporter Edward Fiske quoted several well-known educators in the article, David Weikart, Irving Lazar, and Dorothy and Raymond Moore, to whom he was referred by ERIC/EECE.

Newsday, with a half million readers in the Long Island, New York area, requested information on the effects of preschool education on socially advantaged children for an article by reporter John Hildebrand.

...Norma Howard (PS)

PERSONNEL
NEWS

ERIC/EC REDUCES STAFF

It is with great regret that I announce the departure of several clearinghouse employees who have served ERIC/EC faithfully and well for many years. They are:

- Marion Cambel, Acquisitions Coordinator
- Carol Lloyd, Abstractor/Indexer and User Services
- Sharon White, Abstractor/Indexer and User Services
- M. Angele Thomas, Writer/Editor

Their departure was the direct result of a reduction in force action by the EC's host organization, The Council for Exceptional Children. The ERIC duties performed by these people will be assumed by other clearinghouse personnel.

It is impossible to adequately recognize and honor the contributions made by these four employees. They have been an important part not only of this clearinghouse, but of the ERIC system as a whole. They will be sorely missed by all of us.

...Donald K. Erickson (EC)

FAREWELL MY ERIC FRIENDS

This is my last contribution to the EAB. As I have purged files preparatory to leaving ERIC/EC, I have thought about each of you with whom I have worked closely the past 10 years and of the more recent ERIC staff members I do not yet know. ERIC is unique not only because it is an ingenious system, but because each of you makes it work with your knowledge, diverse talents, humor, dedication, and capacity to interact positively with other people. I promise you that even on the "outside" I shall continue to hold the banner high for ERIC. A fond farewell to each of you.

...Marion Cambel (EC)

MARGOT EDDY RESIGNS FROM HE

HE regretfully announces the resignation of Margot Sanders Eddy, effective February 11, 1983. Margot worked for the Clearinghouse on a full and part-time basis for seven years, mainly in the area of user services. She will devote full time to family responsibilities. À bientôt, Margot.

...Marilyn Shorr (HE)

COCHRANE AND CLARK LEAVE ERIC/IR

The ERIC Clearinghouse & Information Resources ended the old year by saying au revoir to two valued staff members—Associate Director Pauline A.

Cochrane, who has gone on sabbatical leave, and Assistant Director W. Bruce Clark, who has joined the faculty of the School of Education at the University of Calgary. Bruce will continue to work with the clearinghouse on the MICROsearch project on a consultant basis.

The new year began on a more cheerful note with the appointment of Dr. Evelyn H. Daniel, Dean of the School of Information Studies at Syracuse University, as the new Associate Director of the clearinghouse. Evelyn has pioneered a new program in information resources management in the School of Information Studies. She has taught in the areas of information resources management and in school media librarianship. She has worked closely with the clearinghouse since its move to Syracuse University and is the author of several ERIC/IR IAPs.

...Barb Minor (IR)

MEETINGS/CONFERENCES/WORKSHOPS

CH	DATE	LOCATION	NOTES
CE	1/11/83	Columbus, OH	Susan Imel spoke to the Ohio Directors of Adult Basic Education during their annual meeting. Dr. Imel gave a brief overview of ERIC and suggested how ERIC/ACVE could assist them with some of their areas of concern such as recruitment and retention of students, job training and retraining, and identifying exemplary programs for use in their communities.
HE	1/23/73		HE staff met with the publications experts from 16 higher education associations. The agenda focused on topics for further research and on what is being done and what has been completed in the higher education field. The HE staff met with key contact people in various associations. The meeting proved very profitable for acquisitions purposes. The ERIC/HE Research Series was applauded by several in attendance.
UD	11/19-12/82	Atlanta, GA	Michael Webb attended the National Council of States on Inservice Education conference. Approximately 350 people attended. ERIC system products and Clearinghouse materials were exhibited.
	12/15-16/82	Philadelphia, PA	Mr. Webb conducted a seminar as part of an ongoing series of information seminars for personnel in large urban schools. Four seminars were held for 55 people from the Dept. of Research and the Division of Curriculum and Instruction. Mr. Webb explained ways that urban school personnel can best use the ERIC system. A number of targeted computer searches were also conducted.
	1/6-7/83	New Orleans, LA	Erwin Flaxman and Michael Webb conducted an information seminar for the New Orleans Public Schools which was attended by librarians, principals, and board staff.
	1/10/83	Boston, MA	Erwin Flaxman and Michael Webb conducted a tutorial for Standing Order Customers from Maine, New Hampshire, and Rhode Island. The tutorial concentrated on indexing in the ERIC system and on requirements for computer searching.

ACTION ITEM

Identifiers Ready for "Graduation"

Following the production of the latest Identifier Authority List (IAL), we reviewed the heavily posted Identifiers and prepared a list of candidates for Thesaurus status (see Attachment 1). All terms in the list have 40 or more postings. Most of them should either be Descriptors or UFs, although a few might involve mere postings transfers without actually being represented per se in the Thesaurus listings.

We believe most clearinghouses will recognize their own terms, and we recommend that an effort be made to "graduate" these Identifiers to the Thesaurus as soon as possible.

Terms marked with an asterisk are those from the previous list that originally appeared in the Oct81 EAB.

...Carolyn Weller (ERIC Facility)

ABSTRACTING/INDEXING ADVISORIES

Abstracting Advisories

● Author Abstracts

In recent weeks there have been several cases where authors have raised questions about changes made by Clearinghouses to author abstracts provided with the document. In one example, information was lost to no purpose. In another example, the change affected the meaning adversely. While obviously any typographic errors and misspellings that are detected in an author abstract should be corrected, other substantive changes should be made only when there is a compelling and justifiable reason to do so. It is much harder to fault ERIC for using an author abstract verbatim than it is for changing an author abstract unnecessarily.

● Abstract Page

Some Clearinghouses have been removing from the document the page containing the author abstract, particularly when this abstract was not used by ERIC. This should not be done. The page containing the author abstract is part of the document and should be left intact whether or not ERIC chooses to make use of it.

● Abstract Attribution

Some Clearinghouses have felt that if they make use in their abstract of any phrases that appear in the document, they should attribute the abstract to the author. This is not the case. An abstract should be attributed to the author only when the document actually contains a specific author-prepared abstract. The occasional use of the author's terminology in an abstract does not make it an author abstract. If the Clearinghouse created the abstract then it should be attributed to the Clearinghouse.

...Ted Brandhorst (ERIC Facility)

Indexing Advisory—Avoiding Excessively Broad Descriptors

The ERIC Facility staff is beginning to notice, once again, misuses by some Clearinghouse indexers of excessively broad Descriptors. Indexers are reminded to review pages VII-45-46 of the ERIC Processing Manual (EPM), which warns against overusing such terms.

We would also ask that you add the term MEASURES (INDIVIDUALS) to the "broad Descriptors" list on page VII-46. (We will correct this omission in an upcoming EPM revision, and I'll recommend to the Vocabulary Review Group that a "use a more specific term" note be added to this term's Thesaurus scope.) We note with interest that when MEASURES (INDIVIDUALS) was added to the Thesaurus in Mar80, we had to struggle to find any documents whose scopes were broad enough to justify posting this "top-of-the-hierarchy" term. Now after only 2 years of existence, the term has more than 450 postings!

...Jim Houston (ERIC Facility)

NETWORK NEWS

CompuServe—Using E-Mail and ACCESS to Transfer Information

A folder containing the details of how you can use two areas on the CompuServe Information Service, E-Mail and ACCESS, to transfer files and/or exchange information among ERIC Clearinghouses is enclosed with this issue of the EAB.

...Jim Prevel (Central ERIC)

University Microfilms Requests ERIC to Not Cite Prices for Dissertations

Like everything else, the price University Microfilms International (UMI) charges for dissertations periodically goes up. As a result, they find that the prices ERIC has heretofore cited for those few dissertations in RIE become obsolete more rapidly than is convenient. They have concluded that it would

be better if ERIC cited only the Order Number. We have agreed to comply with this request and will issue corresponding changes to the ERIC Processing Manual (EPM).

...Ted Brandhorst (ERIC Facility)

EAB Article Submission Form

While many Clearinghouses are using an EAB Article Submission Form, others are not. If you find it would be easier to use a standard form, please see Attachment 2. You may Xerox it and use it to send in your monthly EAB articles.

...Elizabeth Pugh (ERIC Facility)

GPO Increases RIE Subscription Price

A flyer announcing GPO's increase in RIE's subscription price was enclosed with last month's EAB. It is reprinted in Attachment 3 more "formally" this month.

...Elizabeth Pugh (ERIC Facility)

ERIC Facts

The ERIC Fact Sheet has been updated and is included in this issue of the EAB as Attachment 4.

...Elizabeth Pugh (ERIC Facility)

Acquisition of Ford Foundation Materials

The Facility has recently been contacted by Carolee Iltis at the Ford Foundation. She has asked that the Facility act as the exclusive go-between for Ford and ERIC. All Clearinghouses should request titles through the Facility and not directly, because too many Clearinghouses have been requesting the same titles. The Ford Foundation will not sign a Blanket Release; therefore, the Facility will include individual releases with documents assigned. Note that some Clearinghouses may be on the Ford Foundation complimentary mailing list; however, all documents will be assigned by the Facility to a Clearinghouse for processing thereby eliminating confusion and duplication. This is essentially the same agreement the Facility has with the Rand Corp.

...Grace Sundstrom (ERIC Facility)

RIE February 1983 Issue

GPO has informed us that publication of the RIE issue for February 1983 was delayed due to the internal loss of the page negatives and the need to regenerate them.

...Carolyn Weller (ERIC Facility)

ERIC/ACVE Goes To Direct Input

The ERIC Clearinghouse on Adult, Career, and Vocational Education (ERIC/ACVE) recently began direct data entry of our input to the ERIC Facility. We use an AMText 425 Word Processor connected via a direct telephone link with an Anderson-Jacobson 1233 modem for 1200 baud communication. Data preparation is done on IBM Selectrics with input via an AMText Jacquard 325 OCR reader for storing on disc

...Judy Wagner (CE)

ERIC/ACVE Profiles Users

A tabulation of our 1982 user requests shows that most users fit the following profile:

- Role Type: Administrators, researchers, teachers, information specialists
- Organization Type: 4-year college or university, local education, educational research and dissemination
- Mode of Request: Mail
- Topic: Vocational, adult, career education, special needs populations
- Areas: New York, California, Pennsylvania, Ohio, International

This survey does not include convention coverage, only those requesters who personally contacted the clearinghouse for information.

...Judy Wagner (CE)

CAPS Participates in Michigan School Testing Conference

The ERIC Clearinghouse on Counseling and Personal Services (CAPS) staff participated in the Michigan School Testing Conference February 22-23 on the University of Michigan campus. Director Garry Walz gave a special address to the entire conference entitled "Technology and Education: What's Ahead?" and Mary Frenza and Jeanne Collet gave a workshop presentation on the use of ERIC, focusing on retrieving test information (with the help of ERIC/TM's guide). At our CAPS booth we displayed our own and ERIC/TM and ERIC/CE handouts, and also conducted "mini" computer searches.

...Mary Frenza (CG)

CAPS Plans for 1983

Planning and evaluation have always been an essential ingredient in the functioning of ERIC/CAPS. Periodically a day is set aside for the staff to meet and establish priorities for the coming year. We prefer to call this all day session an "Advance," as opposed to a Planning "Retreat."

On January 27 the CAPS staff held an in-house Advance. Items on the agenda included re-evaluation of assigned tasks and changes made, inventory of publications and authors, suggestions for future IAP's, planning for workshops, job objectives, use of our new Apple computer and word processor and a brainstorming session. By late afternoon everyone agreed it was a day well spent and the "shot in the arm" we all needed, making us all ready and eager for the challenges of the new year ahead.

...Carol S. Mills (CG)

Second CAPS Open House a Success

Heart-shaped cookies and bright red tropical punch was the fare for the second CAPS Open House of the year. Although our first (held in October) drew more of a crowd, the Valentine theme and the staff's eagerness to share its knowledge of the ERIC system made the event festive, and enjoyable for the students and faculty members who attended. Once again, we held a drawing to award a free computer search, and give mini-search demonstrations. We hope that our Open Houses increase University awareness of the usefulness of the ERIC system, and the friendliness of the CAPS staff.

...Lori J. Peters (CG)

Thanks To Those Involved in the Abstracting Quality Control Workshop

Due to the contributions of many people throughout the ERIC system, the "Abstracting Quality Control Workshop" was a very successful venture. I'd like to extend my thanks, as well as the appreciation of those who benefitted from the meeting, to the following people:

- Central ERIC, who provided monetary and moral support for the workshop and brought the issue of abstract quality to our attention.
- The ERIC Technical Steering Committee, whose members helped plan the agenda and arranged the logistical details for the meeting.
- The ERIC Facility staff, who dealt with the workshop finances; and Pat Brown and Janet Bailey of the Facility, who prepared the packets for many of the sessions.
- Roger Walke (EA), who coordinated a small survey of ERIC users to determine their perceptions of ERIC abstracts, and presented the survey results at the workshop.

- Jane McClellan (CS), who led the small group sessions on Mixed Mode Abstracts.
- Sydney Meredith (SO), who led the small group sessions on Informative Abstracts, as well as the session on maintaining quality control in-house.
- Lynn Barnett (HE), who led the small group sessions on informational content of abstracts, dealing with the infamous ARS Manual, and who also presented a session on the role of the editor and stylistic considerations.
- Hugh Byrne (JC), who led the small group sessions dealing with the equally infamous...Telecommunications in a Subarctic Region.
- Helen Mamarchev (CG), who conceived of and implemented the small group working sessions to develop checklists for the informational content of particular publication types, and also surveyed the Clearinghouses to find out their practices concerning formatting, checklists and other ways to facilitate abstracting.
- Barb Minor (IR), who discussed two models for training abstractors.
- The following people who chaired discussion sessions on problem documents during which innovative approaches and suggestions were exchanged:
 - Mary Frenza (CG)
 - Karen Steiner (PS)
 - Dorothy Beling (EC)
 - Cathy Julius (SP)
 - Susan Willcher (HE)
 - Elaine Benally (RC)

And very importantly, I'd like to thank all of the workshop participants who brought to the workshop a dedication, professionalism, and concern for abstract quality that made the meeting a truly valuable forum for the exchange of ideas, concerns, and expertise.

...Anita Colby (JC)

PS Competes Successfully for Contract

The ERIC Clearinghouse on Elementary and Early Childhood Education was pleased to hear that they were awarded a 3-year contract beginning February 1, 1983. The staff look forward to three more productive years with ERIC.

...Norma Howard (PS)

CRESS Marketing Project Update

At the end of September 1982, the ERIC Clearinghouse on Rural Education and Small Schools (CRESS) completed its first full year of marketing their major Clearinghouse products.

Several different marketing announcements were developed. News releases were written for each publication. Separate publication lists, which featured an adaptation of the newest publication on the front panel, were prepared for each scope area. In addition, a general publications list, carrying the Clearinghouse logo on the front panel, was produced. (Each publications list carried the titles of all CRESS publications, only the cover panels changed.)

In addition to running the abstract of each publication in the news bulletin, several other mailings were made. News releases were sent to a mail list containing the addresses of newsletters, journals, and teacher centers. Scope area publications lists were sent to computer generated mail lists which contained names of those persons interested in each particular scope. General publication lists were enclosed in the news bulletins and sent to the entire CRESS mail list. Additionally, every letter going out of the clearinghouse contained a pub list.

Analysis of the orders received revealed that to be effective, an announcement of some sort should be sent to the public every three months. By the beginning of the fourth month after an announcement was mailed, sales dropped off considerably.

Each publications list was coded so that analysis could be made of the kind of announcements that produced the best response. There was no evidence that the fancier scope area publications lists produced a better rate of return than the general publications list, which was attractive, but not on slick paper, etc.

Returns continue to come in from some of the very first announcements which were mailed, but the majority of sales for a given period come from the latest publications list mailed out.

...Amelita Hill (RC)

International Computer EdGame Challenge

Verbatim Corporation is sponsoring an innovative contest, the Computer EdGame Challenge, which was launched internationally in January. The contest is a three-month competition to develop high quality educational software that is informative, imaginative, entertaining, and nonviolent. Teachers, professionals, and students may compete in any of the twenty contest categories that cover a variety of academic subjects. Information and contest pamphlets are available from MicroSIFT or CONDUIT, the administrators and judges of the contest. Telephone queries should be directed to MicroSIFT at 1-800-221-4052 (in Oregon, call 248-6800). Written queries should be sent to Computer EdGame Challenge, P.O. Box 388, Iowa City, Iowa 52244.

...Louisa Coburn (TM)

Judy Threadgill Replaces Donna Pahl at RC

Judy Threadgill is the new secretary at CRESS. She replaces Donna Pahl as user services/acquisitions secretary. Prior to moving to Las Cruces, she had worked several years for the Bernalillo County Detention Center, Albuquerque, New Mexico. Welcome aboard, Judy!

...Amelita Hill (RC)

Toni Thiebault Joins SO Staff

Toni Thiebault joined the staff of the ERIC Clearinghouse for Social Studies/Social Science Education in January. She is working for the Clearinghouse as a half-time secretary, handling CIJE and question/answering.

...Cindy Cook (SO)

NEW PUBLICATIONS

New Publications—CE

ERIC/ACVE has recently developed the following fact sheets that are now available for distribution:

- Alternative Work Patterns as Innovations in the Work Place
- Adults in Career Transition
- Displaced Workers
- Communications Technologies in Adult, Career and Vocational Education
- Adult Education for the Handicapped

If you would like copies, please get in touch with Judy Wagner by mail, phone (800) 848-4815, or BRS Message switching (TB80).

...Judy Wagner (CE)

New Publications—CG

The CAPS "Spotlight" series of multicolored information cards has four new titles:

- Counselors and Computers
- Counseling for Student Achievement
- Counseling for Life Skills
- Counselors as Consultants

The cards feature 3-5 ERIC documents about topics of current interest to helping professionals. We make them available to patrons as an off-the-shelf item, include them in workshop and information packets and in publication orders, and display them on bulletin boards and at conventions. They're a colorful, handy way to introduce a friend to ERIC!

Titles and descriptions of four new publications on counseling topics (see below) of great interest and significance are now available from CAPS.

Counseling Topics

- counseling disruptive students
- child and spouse abuse
- outplacement counseling
- guidance program resources

New Publications

- Don't Do That! and other Counseling Strategies for the Chronically Disruptive, by Donna R. Eyde and Albert H. Fink. 95p., \$10.00.

Provides storehouse of knowledge and innovative, practical counseling techniques for chronically disruptive students. Explores the educator role of counselors through suggested modifications in curriculum, management and motivation.

- Outplacement Counseling, by Richard L. Knowdell, Carl McDaniels and Al Hesser, and Garry R. Walz. 117p., \$9.50.

Views outplacement counseling from three vantage points: business/industry, higher education, and an overall perspective. Defines the process, essentially, as one of helping terminated employees deal with job loss, make alternative plans, and follow through with them successfully.

- Violence in the Family: Child and Spouse Abuse, by Libby Benjamin and Garry R. Walz. 100p., \$9.50.

Surveys the multiple facets of child abuse and neglect (Part 1) and spouse abuse (Part 2). Discusses contributing factors and identifies characteristics of abused and abusing persons. Provides sample intervention and treatment strategies, as well as broad components of effective programs.

- Resources for Guidance Program Improvement, compiled by Garry R. Walz, Helen L. Mamarchev, and Mary C. Frenza. 462p., \$18.50.

Contains over 100 guidance program models and individual guidance practices. Consists of three sections representing elements of a comprehensive guidance program: Guidance Program Components, Educational Planning in Guidance Services, and Life/Career Planning in Guidance Services.

...Debbie Herbert (CG)

New Publications—HE

The following are new Clearinghouse publications:

- Government Support for Minority Participation in Higher Education. Kenneth C. Green. AAHE/ERIC-Higher Education Research Report No. 9, 1982. (\$5.00) (HE 015 969).

- The Department Chair: Professional Development and Role Conflict.
David B. Booth. AAHE/ERIC-Higher Education Research Report No. 10, 1982.
(\$5.00) (HE 015 970).

The Research Reports can be ordered from Publications Dept., American Association for Higher Education, One Dupont Circle, Suite 600, Washington, DC 20036.

...Laura Ciarniello (HE)

New Publications—SO

SO recently completed two major clearinghouse publications:

- Data Book of Social Studies Materials and Resources, vol. 8 (ISBN 0-89994-279-2; \$10.00).

The latest edition of our annual publication including reviews of new social studies curriculum materials, teacher resources, and practice-related ERIC documents.

- Tips for Social Studies Teachers: Activities from ERIC (ISBN 0-89994-280-6; \$10.95).

A collection of action-oriented lessons—the majority from documents in the ERIC database—for use by K-8 social studies teachers, including substitutes.

...Laurel Singleton (SO)

New Publications—TM

Three new IAPs are available from ERIC/TM. Titles and brief descriptions of each follow:

- Microcomputers in Educational Research (TM Report 82), by Craig W. Johnson. (\$8.50).

Johnson reviews applications of microcomputers to educational research and provides guidance for evaluating and comparing microcomputers, pursuing research objectives with microcomputers, and obtaining further information.

- Statistical Methodology in Meta-Analysis (TM Report 83), by Larry Hedges. (\$7.00).

(Interest in the development of systematic statistical theory for meta-analysis prompted ERIC/TM to commission this major clearinghouse publication.) Hedges provides a unified treatment of vigorous statistical methods for meta-analysis that will be useful in responding to criticisms of meta-analysis.

- Assessment of Learning Disabilities (TM Report 84), by Lorrie A. Shepard. (\$6.50).

Shepard presents a summary of the issues in LD assessment. The report is organized into two main sections: (1) specific propositions and supporting evidence regarding the context of LD identification; and (2) technical issues in LD assessment, including recommendations to improve training of specialists.

Each clearinghouse will receive complimentary copies of these reports. For convenience, the order form included at the back of each report may be copied and distributed as needed.

SPECIAL ANNOUNCEMENT

GPO Increases RIE Subscription Price

Effective April 1, 1983, GPO has increased the prices for RIE as follows:

	Subscription		Single Copy	
	Domestic	Foreign	Domestic	Foreign
RIE Monthly Issues (12)	\$95.00	\$118.75	\$ 9.50	\$11.90
RIE Semiannual Index (2)	\$29.00	\$36.25	\$16.00	\$20.00

Existing subscriptions will be honored through their normal termination date.
Renewals will then be at the new rate.

January 1983

ERIC FACTS*

I. ABSTRACT JOURNAL SERVICES

A. Resources in Education (RIE)

- | | |
|---|---------|
| 1. Subscriptions (primarily libraries, including approximately 1,000 foreign) | 4,000 |
| 2. Documents announced in RIE | |
| a. Monthly (Average) | 1,200 |
| b. Annually (Current Level) | 14,000 |
| c. To date (1966 through December 1982) | 212,449 |
| 3. Documents Evaluated Annually for Possible Announcement in RIE | 35,000 |

B. Current Index to Journals in Education (CIJE)

- | | |
|---|---------|
| 1. Subscriptions | 1,800 |
| 2. Journals Covered | 760 |
| 3. Journal Articles Announced in CIJE | |
| a. Monthly (Average) | 1,400 |
| b. Annually (Current Level) | 17,000 |
| c. To date (1969 through December 1982) | 267,876 |

II. DOCUMENT REPRODUCTION SERVICES

- | | |
|--|------------|
| A. Organizations Subscribing to Complete ERIC Microfiche Sets (including approximately 75 foreign) | 725 |
| B. Titles Filmed (less than 5% of current document input is copyrighted) | |
| 1. Monthly (per RIE issue) | 1,150 |
| 2. Annually | 14,500 |
| C. Microfiche Cards Delivered Per Subscriber | |
| 1. Monthly (per RIE issue) | 1,600 |
| 2. Annually | 19,500 |
| D. Sales | |
| 1. Microfiche sold on subscription (annually) | 16,000,000 |
| 2. Total individual document orders through 1980 (543,886 for microfiche; 503,938 for paper copy) | 1,047,804 |

Many of these statistics are constantly changing and therefore have been rounded off rather than made exact as of any one day.

III. DATABASE SEARCHING SERVICES

- | | |
|--|-----|
| A. Subscriptions to ERIC magnetic tapes (via ERIC Facility)
(including 10 foreign and all major online vendors) | 40 |
| B. Locations offering computer searches of ERIC files | 700 |

IV. REFERENCE SERVICES (NON-COMPUTERIZED)

- | | |
|--|--------|
| A. Inquiries/questions answered annually | |
| 1. ERIC Facility | 8,000 |
| 2. Clearinghouses (16) | 80,000 |

V. MISCELLANEOUS STATISTICS

- | | |
|---|---------------|
| A. Thesaurus Descriptors (as of 9th edition, 1982) | |
| 1. Main (Indexable) Terms | 4,868 |
| 2. Synonyms | 3,634 |
| 3. "Dead" terms (valid at one time, but not longer) | 134 |
| 4. Total terms | 8,636 |
| B. Information Analysis Products (IAPs) produced by
ERIC Clearinghouses (1967-1981) | 3,835 |
| C. Organizations/institutions represented by documents
in the ERIC database (Source Directory) | 25,000 |
| D. Usage Statistics (Estimated)* | |
| 1. Institutions in U.S. providing access to ERIC products | 3,269 |
| 2. Usages of ERIC Resources (Annually) | 2.7 million |
| 3. ERIC bibliographic records retrieved in searches
and provided to clients | 30 million |
| 4. Annual expenditure by institutions to support
distribution of ERIC resources to users | \$26 million |
| 5. Total annual expenditure for the development,
distribution, and use of ERIC resources in U.S.
(only 4.1% provided by the Federal government) | \$136 million |

ACTION ITEMS

COMPUTER SEARCHES—WHICH CLEARINGHOUSES DO THEM FOR USERS?

CERIC is often asked which Clearinghouses do computerized database searches for users, and what the charges involved are. Unfortunately not all Clearinghouses are listed in the Directory of ERIC Search Services. We want, therefore, to create an up-to-date referral list of Clearinghouses doing such searches. In order to provide accurate information and to answer related questions, we request that each Clearinghouse complete Attachment 1 and return it to Kevin Arundel at CERIC by May 15. The results will appear in the EAB.

...Kevin Arundel (Central ERIC)

MICROFICHE OF GEORGIA DEPT. OF EDUCATION DOCUMENTS TO GO TO MOUGHON

Anne Moughon has asked that when her office submits Georgia documents and they are selected for RIE that the complimentary microfiche be sent back to her office rather than to individual authors. Address fiche to:

Susan Ivey, Librarian
Office of Planning and Development
Georgia Dept. of Education
Twin Towers East
Atlanta, Georgia 30334

She also commented that when she receives SEA Reply Cards indicating that a document has been selected, Clearinghouses sometime neglect to include the "Clearinghouse Temporary Accession Number."

...Grace Sundstrom (ERIC Facility)

DIRECT ACQUISITIONS CONTACTS WITH LABS AND CENTERS—A FACILITY FUNCTION

It has come to the attention of the Facility Acquisitions Dept. that Clearinghouses are soliciting documents directly from NIE Labs and Centers, e.g., Wisconsin Center for Education Research, Johns Hopkins Center for Social Organization of Schools, Appalachia Educational Labs., Northwest Regional Educational Laboratory.

Please refer to the EPM, Section II, Acquisitions, p. 47. All NIE Labs and Centers publications are to enter the system through the Facility. No Clearinghouse should be soliciting documents from an NIE-funded Lab or Center. If a document arrives at a Clearinghouse unsolicited, the Clearinghouse should report receipt of the document to the Facility.

...Grace Sundstrom (ERIC Facility)

PROOFING CLEARINGHOUSE INPUT

In recent weeks there has been a noticeable increase in keying errors appearing in the online input from Clearinghouses. It is apparent that in some cases proofing has either been reduced in scope or perhaps even totally eliminated. While it is understood that the ERIC budget pressures are leading all of us to seek ways to reduce personhours, the elimination of the Clearinghouse proofing function is not an acceptable option. Proofing is not "just repeating what the Facility does later," as some have told us. Unlike the input via OCR, in online input the Facility receives no paper backup from the Clearinghouse against which to proof. If there are errors in the input, unless they are quite obvious, they may well go undetected by the Facility.

It is especially important that the Clearinghouses proof for the following items:

- Clearinghouse Accession Number

A wrong number here can cause one record to "overlay" an existing record.

- Keywords

Typographical errors in Keywords either cause the data to totally "blow" or to be affixed to the preceding field. Also, Clearinghouses should make sure that the Keyword used is the correct one for the data that follows.

- Mandatory Fields

See EPM Figure V-4.

- All Keying Conventions

—All Keywords must be followed by an underscore or, with some terminals, by a double colon (that is how they are identified by the computer as Keywords)

—Subfields separated by semicolons (that is how they are identified by the computer as subfields)

—Institutions and Sponsor names preceded by an equal (=) sign.

All the Clearinghouses inputting data online are now using equipment on which typographical and other keying errors are easily changed on a character basis. Once the data has been put into the Facility's computer and a preliminary RIE file has been built, generally speaking there is more effort involved in making a change. Therefore, please give your input to the Facility at least one good proofing. Your transmissions to the Facility should be essentially as you would like to see the data appear in RIE—because it just might happen that way.

...Carolyn Weller (ERIC Facility)

RIE PROCESSING ADVISORY—LOGSHEETS

The Logsheets that accompany documents being input to RIE are essentially "Packing Slips," indicating exactly what a Clearinghouse has sent to the Facility. When the shipment is received, the documents are checked against the Logsheet to determine if everything shipped was received, if the accession numbers on the log and on the documents match, and if the Levels indicated on the Logsheet match the Level stickers on the documents.

The Logsheets are used by the Facility Paginator to record the page count for each document, and by the keying staff to input the page count into the computer. The same Logsheets are used by the editorial staff throughout processing. The Logsheets are essential and pervasive processing forms, and documents arriving without Logsheets cannot be properly processed until one has been received. The Facility does not have the staff to prepare missing Logsheets and, in any case, would have no way of determining whether the shipment was complete or incomplete.

Because the Logsheets are used for such a variety of processing purposes, documents should be entered on the Logsheet in numerical sequence. Clearinghouses that maintain several ranges of accession numbers should use a separate Logsheet for each range.

When Clearinghouses begin to run low on their supply of Logsheets, they should request a supply from the Facility (Al Hill). Please use the blue and white original Logsheets for all shipments; do not send Xeroxed Logsheets to the Facility.

...Carolyn Weller (ERIC Facility)

NETWORK NEWS

RC CLEARINGHOUSE CONTRACT RENEWED

NIE recently awarded a 3-year contract to New Mexico State University for the operation of the ERIC Clearinghouse on Rural Education and Small Schools. During the first year four IAPs are planned:

- Secondary Education for Migrant Students: Progress or Stalemate?
- Adult and Continuing Education in Rural Communities
- Trends in American Indian Education
- Utilizing Educational Technology in Small Schools

Central ERIC looks forward to continuing our good working relationship with NMSU.

...Patricia Coulter (Central ERIC)

THE "WRAPAROUND" PROBLEM

The ERIC Facility recently performed a free text computer search of DIALOG's ERIC file looking for "Hand Computers." We specified "Hand(w)Computer?" appearing in the Abstract field and were perplexed when the two hits that resulted appeared not to fulfill the search conditions. However, a closer look revealed the operation of the so-called "wraparound" problem.

When numbering the words that appear in a lengthy free text field, DIALOG numbers 1 through 128 (the maximum that can be numbered using one byte) and then starts over again. The 129th word is numbered 1; the 130th word is numbered 2, etc.

In one of our false drops, the word "computer" had been word 11 and the word "hand" had been word 139. In re-numbering, word 139 became the second word 11. The program treats words with the same numeric value as adjacent. The first word 11, "computer," was judged to be adjacent to the second word 11, "hand," and we got a hit.

In the other false drop, "hand" was word 46 and "computer" was word 175. Word 175 became the second 47th word in the "wraparound," which resulted in another hit. See Attachment 2 for a display of the two abstracts, and where "hand" and "computer(s)" fall in each.

It is interesting to note that such re-numbering generates a rapidly escalating number of possible false drops if it is repeated very many times. This is illustrated in the Table displayed as page 2 of Attachment 2.

Needless to say, the design feature that creates the "wraparound" problem would probably have to be changed to accommodate any database involving really lengthy free text fields.

Meanwhile we describe the system limitation here for your information. It just may explain some of those false drops you couldn't understand.

...Ted Brandhorst (ERIC Facility)

ONLINE SEARCH STRATEGIES

A new book entitled Online Search Strategies was published by Knowledge Industry Publications, Inc., in 1982. The section on the "Social and Behavioral Sciences" (p. 137-174) was written by Donna R. Dolan of BRS. ERIC is touched on only lightly (see p. 157) but the section has cogent advice to give on the subject of when to do controlled vocabulary searching, when to do free text searching, and the differences between the two (see p. 164). There are also some helpful flowcharts concerning the database selection process. You may want to check it out if you are looking for training materials in this area.

...Ted Brandhorst (ERIC Facility)

THANK YOU—(ERIC CLEARINGHOUSE PUBLICATIONS)

The ERIC Facility wants to thank all of the Clearinghouses which responded quickly and thoroughly with their responses regarding the 1982 ERIC Clearinghouse Publications. Your cooperation is greatly appreciated by those working on this project.

...Carolyn Weller (ERIC Facility)

JANET BAILEY LEAVES THE ERIC FACILITY

After nearly 7 years with the ERIC Facility, Janet Bailey will be leaving to go to work in the Accounting Department of ORI, Inc., which is a little like leaving the home, but not leaving the family. We will miss her very much.

...Elizabeth Pugh (ERIC Facility)

NEW SPOTLIGHTS AT CAPS

The CAPS "Spotlight" series of multicolored information cards has four new titles:

- Counselors and Computers
- Counseling for Life Skills
- Counseling for Student Achievement
- Counselors As Consultants

The cards each feature 3-5 ERIC documents about topics of current interest to helping professionals. We make them available to patrons as an off-the-shelf item, include them in workshop and information packets and in publication orders, and display them on bulletin boards and at conventions. They're a colorful, handy way to introduce a friend to ERIC! (See Attachment 3.)

...Debbie Herbert (CG)

NASSP REPRINTS THE "BEST OF ERIC"

The National Association of Secondary School Principals (NASSP) has reprinted "Effective Instructional Leadership," the January 1983 issue of The Best of ERIC on Educational Management.

In March NASSP distributed copies of the publication to all of its 35,000 members.

This is the sixth issue of The Best of ERIC on Educational Management that NASSP has disseminated to its membership in the last four years.

...Stuart C. Smith (EA)

ERIC SEARCHING NEWS

Attachment 4 is a copy of a page from ERIC/EC's Winter '83 Information Bulletin consisting of several brief items on searching ERIC. Clearinghouses are welcome to use these information pieces, if interested.

...Lynn Smarte (EC)

HE MONOGRAPH SERIES HAS NEW CO-SPONSOR

The ERIC Clearinghouse on Higher Education is pleased to announce that its acclaimed IAP series, Higher Education Research Reports, now in its eleventh year, is now being co-sponsored by the Association for the Study of Higher Education (ASHE). For 10 years it was published by the American Association for Higher Education (AAHE). ASHE is looking forward to an active role in topic and author selection and in promoting the publications.

The Higher Education Research Reports are used by faculty, administrators, students, researchers, and campus committees for decision-making, college planning, and classroom instruction. The new ASHE-ERIC series has a new look as well as timely topics. Topics covered in the 1983 series include academic quality on campuses, faculty recruitment and retention, faculty career development, burnout, and academe and public service. Any Clearinghouse interested in having brochures (see portion in Attachment 5) for distribution on their own campuses can contact Paul Brucker at HE.

...Lynn Barnett (HE)

NEWSWEEK CONTACTS HE

Newsweek, a national news magazine, contacted the ERIC Clearinghouse on Higher Education for assistance on a story being written about U.S. colleges having early (before the end of May) commencement activities. Lynn Barnett was able to supply the information quickly and the Newsweek caller, impressed with the service, indicated he would call again and that he would pass on an HE IAP on quality to the writers working on the story.

...Marilyn Shorr (HE)

HE PROVIDES CONTINUING TECHNICAL ASSISTANCE

As part of a continuing follow-up activity to a summer 1982 meeting involving Chuck Hoover, Ted Brandhorst, and staff at the Maryland State Department of Education, Lynn Barnett conducted a day-long indexing workshop for three state employees working on a new instructional resources database for the state of Maryland. The Maryland Instructional Resources Network (MIRN) will include information abstracted by teachers in the field and then indexed in-house at the Maryland State Media Services Center.

...Lynn Barnett (HE)

IAP AUTHORS HONORED BY HE

A dozen authors of recent Higher Education Research Reports were honored by HE at a reception held in March during the national conference of the American Association for Higher Education. The authors mingled with Clearinghouse staff and conference participants, discussing their books and future plans. The meeting was found to be very productive for renewing professional relationships, as well as for marketing the Higher Education Research Report series.

...Lynn Barnett (HE)

HE TO SUPPLY JOSSEY-BASS AUTHORS WITH BIBLIOGRAPHIES

As a result of an agreement between the Clearinghouse on Higher Education and the editor of a forthcoming quarterly sourcebook, ERIC will become more visible to the higher education community. HE is serving as a resource to chapter authors writing for a New Directions for Institutional Research issue on quality in higher education. HE will provide each author with an ERIC computer search, to be paid for by the journal publisher, Jossey-Bass, Inc.

...Lynn Barnett (HE)

ERIC/IR JOINS BEST NET

The ERIC Clearinghouse on Information Resources is a member of the experimental electronic mail network set up by Project BEST (Basic Education Skills through Technology) to address the needs and concerns of state education agency personnel working with the new information technology and its applications to basic skills instruction. BEST NET serves as a message and information resource for 41 state education agencies, the U.S. Department of Education, and the department's 10 regional dissemination offices. Other participants include the president of the Association for Educational Communications and Technology (AECT), the Urban School Superintendents Task Force, the Northeast Regional Education Exchange (NEREX), and EduTech. The network is scheduled to operate through September 1983. Marilyn Laubacher, User Services Coordinator, is the ERIC/IR contact person.

...Barb Minor (IR)

COMPARISON OF COVERAGE BETWEEN EDUCATION INDEX AND CIJE

According to the Source Journal Indexes in the January 1983 issues of Education Index and CIJE, the former is covering 312 publications, all cover to cover, while CIJE is covering 733 periodicals, 140 of them cover-to-cover. Most of the titles covered in Education Index are periodicals, but some other publications are also included such as yearbooks, the Chronicle of Higher Education, and the Interracial Books for Children Bulletin. Of the 312 titles in Education Index, 236 are also covered by CIJE, 95 of them cover-to-cover.

...Marilyn Laubacher (IR)

FREE COMPUTER JOURNAL

Perspectives in Computing, a quarterly journal published by IBM and intended primarily for the academic community, is available free upon written request on institution or company letterhead. Articles are multidisciplinary and demonstrate a variety of problem-solving applications in research and education. Although applications described involve IBM products, the emphasis is on technique rather than hardware or software. (Editor, Perspectives in Computing, IBM Corporation, 44 South Broadway, White Plains, New York 10601).

...Marilyn Laubacher (IR)

SO BOOK FEATURED IN SOCIAL EDUCATION

The most recent issue of Social Education, the journal of the National Council for the Social Studies, featured an article extracted from one of SO's recent publications, Global Issues in the Intermediate Classroom. Since global issues is one of the areas in which we receive a great number of information requests and since the readers of Social Education are one of our major user groups, we hope the article will make users aware of some of the ways we can provide service in this area of high interest.

...Laurel Singleton (SO)

PRIMER OFFERED ON COMPUTER SEARCHING

The Fall 1982 issue of Contemporary Education Review includes an article by George and Priscilla Gaehigan entitled "Using Computers to Search the Educational Literature: A Primer." The Gaehigans argue that in order to make maximum use of education, social science, and humanities databases, researchers should participate in planning their own literature searches. They offer a primer containing information on 30 databases, Boolean operators, searching specific fields, and tactics for increasing recall and precision.

...Louisa Coburn (TM)

ERIC ANNOUNCEMENT SUGGESTED AS EQUIVALENT TO ANNOUNCEMENT IN REFEREED JOURNALS

A recent "Opinion" column in the Chronicle of Higher Education (February 16, 1983) documented the growing practice of requiring substantial authors' fees from those who wish to publish their articles in professional journals. Under such circumstances, R. Allan Spanjer and Carolyn Boiarsky, the authors of the column, suggest that it is perhaps time that university administrators and tenure and promotion committees consider acceptance of a paper for inclusion in RIE as the equivalent of publishing in a refereed journal.

ERIC IS THE MOST FREQUENTLY SEARCHED FILE

Advanced Technology/Libraries, a newsletter published by Knowledge Industry Publications, recently did a survey of 50 public, academic, and special libraries that subscribe to online services. As reported in the February 1983 issue, ERIC is the most frequently searched file. Among the libraries surveyed, DIALOG Information Services is the most popular online database vendor.

COMPUTER SEARCHES---WHICH CLEARINGHOUSES DO THEM FOR USERS?

1. Does your clearinghouse limit computerized database searching to serve only in-house purposes? Yes _____ No _____

2. If you do not provide such a service for users, please indicate:

a. The reasons you are not able to do so:

- Staff time constraints _____
- Lack of funds _____
- Other (Please specify) _____

b. Where you refer such requests:

- Institution: _____
- Address: _____
- Telephone Number: () _____
- Person to contact: _____

c. Do you provide help in the development of search strategies before referring users to the above institution(s)? Yes _____ No _____

3. If your clearinghouse does provide computerized database searching:

a. Is it limited to specific clientele (e.g., researchers, students, etc.)?

Yes _____ No _____ If limited, please specify. _____

b. Is it restricted to the ERIC database? Yes _____ No _____

c. Is it restricted to your own scope area? Yes _____ No _____

d. Which vendors do you use?

BRS _____ DIALOG _____ SDC/ORBIT _____ Others (Please specify).

e. What fees do you charge? _____

f. Do you sell pre-packaged searches? Yes _____ No _____

g. If yes, do you maintain a list of the pre-packaged searches that are available? Yes _____ No _____

• What do you charge for each search? _____

• Do you offer a separate subscription price for multiple pre-packaged searches? Yes _____ No _____ If yes, please specify.

4. Would your clearinghouse object to search service referral by the ERIC Facility, Central ERIC, other clearinghouses, and/or other information centers? Yes _____ No _____

If you have any qualifications/limitations, please specify. _____

5. To whom should users be referred? Please list name(s) of staff member(s).

COMPUTER-ASSISTED RARE BOOK CATALOGUING: PROBLEMS AND SOLUTIONS. ^{WORD} #11

THIS STUDY PROPOSES ANSWERS TO QUESTIONS OF HOW AND WHY COMPUTERS CAN BE USED TO CATALOG RARE BOOKS. DIVIDED INTO TWO PARTS: THE FIRST EXAMINES THE NATURE OF RARE BOOK CATALOGING NEEDS AND CONSIDERS PROBLEMS ASSOCIATED WITH MACHINE-READABLE RARE BOOK CATALOGING. THE QUESTION OF HOW RARE BOOK CATALOGING DIFFERS FROM STANDARD CATALOGING IS ANALYZED AND DIFFERING OPINIONS ABOUT THE EXTENT OF DESCRIPTION CATALOGERS SHOULD PROVIDE IS DISCUSSED. THE SECOND PART DESCRIBES SOLUTIONS TO THESE PROBLEMS IN THE FORM OF SIX COMPUTER-ASSISTED RARE BOOK CATALOGING PROJECTS: (1) THE INDEPENDENT RESEARCH LIBRARIES ASSOCIATION (IRLA) AD HOC COMMITTEE ON STANDARDS FOR RAREBOOK CATALOGING IN MACHINE READABLE FORM; (2) THE EIGHTEENTH CENTURY SHORT-TITLE CATALOG (ESTC); (3) THE NORTH AMERICAN ^{WORD} IMPRINTS PROGRAM (NAIP); (4) THE INTERNATIONAL STANDARD BIBLIOGRAPHIC ^{WORD} DESCRIPTION FOR ANTIQUARIAN BOOKS; (5) THE APPLE PIE PROJECT; (6) AND THE HAND PRINTED BOOKS PROJECT. APPENDICES INCLUDE A GLOSSARY OF STANDARD TERMS; A DRAFT THESAURUS OF GENERIC TERMS FOR OLDER MATERIALS; AND A DRAFT STANDARD FOR TERMS RELATING TO ILLUSTRATIVE AND GRAPHIC PROCESSES. TWENTY-FIVE REFERENCES ARE INCLUDED. (AUTHOR/RAA)

Counselors and Computers

COMPUTERIZED SYSTEMS OF CAREER INFORMATION AND GUIDANCE: A STATE-OF-THE-ART. Marilyn C. Jacobson and Barbara T. Grabowski. The need for timely, accurate, and locally relevant career information has been escalating. Within the last 15 years, computer-based systems have been developed that put occupational descriptions, labor market information, plus education, training, and financial aid information into formats usable by students and adults in school and non-school settings. Various computer-based occupational information delivery systems are described in detail in this paper, including batch process types (SEARCH, VIP, VOCOMP), online career information (CHOICES, CIS, SCAD), and online career guidance (DISCOVER, EXPLORE, SIGI). A summary of the characteristics of each type is provided as well as an explanatory list of their acronyms and developers/representatives. (1981, ED 210 552, EDRS Price: MF \$0.97, PC \$3.90 Plus Postage, 37p.)

EXPLORATION OF CAREER INFORMATION DELIVERY SYSTEMS VIA COMPUTERIZATION. Rod Moore and others. This monograph presents information in a variety of formats on seven computerized career information systems: (1) microcomputers, which have the advantage of low cost, amenability to the production of locally generated databases, and portability; (2) the Coordinated Occupational Information Network (COIN); (3) the Computerized Vocational Information System (CVIS); (4) the DISCOVER II program for microcomputers; (5) the Computerized Educational and Career Information Link (CECIL); (6) the Guidance Information System (GIS); and (7) the System for Interactive Guidance and Information (SIGI). In addition to individual descriptions of each system, a chart is provided which compares these systems on the basis of the information they include; cost of the software and hardware; occupation groups (e.g., by values, interest, Dictionary of Occupational Title numbers, or Holland Codes); the number of occupations listed; and the frequency of updating. Two other articles are Vince Landau's description of how Kansas Wesleyan College uses a microcomputer for listing teacher vacancies, career planning, computer-assisted instruction, and providing career information, and Sue Captain's discussion of the advantages of housing a Career Information Center in the college library. (1981, Ed 203 910, EDRS Price: MF \$0.97, PC \$3.90 Plus Postage, 40p.)

A REVIEW OF ISSUES IN COMPUTER-ASSISTED COUNSELING AND A NEW APPROACH TO ITS APPLICATIONS IN COLLEGE SELECTION. Kenneth A. Colburn. This thesis discusses issues and approaches in computer-assisted counseling; it focuses on the ineffectiveness of school guidance counselors in helping students make college selections and on reconceptualization of counseling as a technology of helping. Uses of computers in counseling are examined along with their improvements in and effects on guidance programs. Reasons for schools' reluctance to use computer-assisted guidance information systems are considered; e.g., counselor familiarity and orientation, threat to counselor job security and control over work, computer accuracy and impersonality, threat to privacy, and cost. A history of computer-assisted guidance information systems is presented, with descriptions and analyses of current and future systems, including CHOOSE, a new computer-assisted guidance information system for college selection. The future of school guidance and implications for counselor education and research are also considered. A bibliography is included along with an appendix of CHOOSE user manuals and source code listings. (1980, ED 195 891, EDRS Price: MF \$0.97, PC \$19.65 Plus Postage, 267p.)

The documents cited in this issue of SPOTLIGHT are among the many indexed and abstracted in the ERIC system. Documents are generally available in two forms: microfiche (MF) and/or paper copy (PC). Both forms may be ordered from EDRS/CMIC, P.O. Box 190, Arlington, VA 22210. Payment must accompany orders.

Counseling for Life Skills

THE HIGH SCHOOL STUDENT IN THE WORKING WORLD — A HANDBOOK FOR COUNSELORS. Christopher Borman and others. This handbook is designed for counselors and teachers to use with students who plan to work during or following high school. Chapters cover the following: (1) helping students explore interests, abilities, and limitations; (2) standardized tests; (3) career and general decision making; (4) involving the student's family in career decisions; (5) getting hired; (6) exploring self-employment; (7) vocational education programs in secondary schools; (8) postsecondary vocational-technical training programs; (9) counseling the handicapped; (10) information sources for local career opportunities that do not require a college degree; (11) planning a career guidance program. Each chapter contains charts, worksheets, and student activity sheets. An extensive source list for free and inexpensive career information materials is also included. (1981, ED 205 808, EDRS Price: MF \$0.97, PC \$9.15 Plus Postage, 116p.)

PROJECT IDEABOOK: SAMPLE STUDENT PROJECTS USING THE COMMUNITY AS A LEARNING RESOURCE. A SUPPLEMENT TO EBCE STAFF TRAINING. Northwest Regional Educational Laboratory. This book presents 60 sample field-tested projects that can be used in an experience-based career education (EBCE) program, defined as a program in which high school students spend a major portion of their time on learning projects in the community. EBCE activities are tailored to individual needs, abilities, learning styles and goals, and student learning is guided through ongoing relationships with working adults. The samples in this packet illustrate a wide range of approaches and are related to one of the EBCE curriculum's five life skills categories: critical thinking, personal/social development, science, functional citizenship, and creative development. Each section provides learning objectives, a pre-designed "starter" project, and several individually negotiated projects. Three appendices show how the same interest area can be interpreted differently for students with different basic skills needs, and how a student's learning needs and interests can lead to several individually negotiated projects. (1976, ED 202 989, EDRS Price: MF \$1.17, PC \$40.65 Plus Postage, 575p.)

BASIC LIFE SKILLS FOR COOPERATIVE PART-TIME TRAINING (1). PERSONAL DEVELOPMENT FOR COOPERATIVE PART-TIME TRAINING (2). JOB-RELATED INSTRUCTION FOR COOPERATIVE PART-TIME TRAINING (3). COORDINATOR'S GUIDES. Durwin Hohhertz. These three documents present a program entitled Related Instruction for Part-Time Training. Each unit covers more than one instruction period and includes the following basic components: unit and specific objectives; notes to the coordinator (steps for accomplishing the objectives); answers to assignment sheets and tests; information essential for meeting the cognitive objectives of the program; transparency masters, assignment sheets, and tests. Topics in each document are as follows: (1) Basic Life Skills — survival skills, income tax, you and the law, communications, banking, consumerism, credit, budgeting, insurance, and the metric system; (2) Personal Development — leadership development, personal appearance, understanding yourself, assuming responsibility, human relations, and decision making; (3) Job Related Instruction — orientation, job application and interview, safety, employer-employee relations, getting along with co-workers, salaries, changing jobs and resignations, labor unions, and free enterprise. (1981, ED 216 176 (1), EDRS Price: MF \$1.17, PC \$35.40 Plus Postage, 490 p.; ED 216 177 (2), EDRS Price: MF \$0.97, PC \$17.90 Plus Postage, 249 p.; ED 216 178 (3), EDRS Price: MF \$0.97, PC \$33.65 Plus Postage, 468p.)

Counseling for Student Achievement

FACULTY-COUNSELOR COLLABORATION IN THE DEVELOPMENTAL CLASSROOM: A HOW-TO MANUAL. Mary Anne Reynolds, Editor. This teacher's manual, designed to improve the math and writing skills and self-images of entering college students, offers a model for faculty-counselor collaboration within the developmental classroom and focuses on affective and cognitive learning. Chapters cover the following areas: an administrative strategy for encouraging faculty-counselor collaboration, step-by-step accounts of developmental classroom writing activities in writing and mathematics, the role of the counselor inside the classroom, and program evaluation results. The appendices contain course syllabi, questionnaire and survey results, and guidelines for goal setting. (1981, ED 214 056, EDRS Price: MF \$0.97, PC \$5.65 Plus Postage, 63p.)

FOSTERING STUDENT LEARNING AND MOTIVATION IN THE ELEMENTARY SCHOOL CLASSROOM. OCCASIONAL PAPER NO. 51. Jere E. Brophy. This paper reviews educational theory and research on student learning gains (especially in basic skills in elementary grades) and on motivating students to value and engage willingly in academic tasks. Research on the link between teacher behavior and student learning and attitudes is addressed in the first section. Topics include teacher expectations and role definitions, importance of student time on task, value of active instruction from a teacher, need for flexible teacher behavior, and feasibility of teacher-student matching. The relevance and potential applications of recent research on student motivation are examined in the next section; e.g., need theory, reinforcement theory, relevance of education to the needs of students, attribution theory, and building intrinsic and continuing motivation in students. Recommendations which are made for teacher education in the final section would affect entry standards, accountability, and preservice and inservice education programs. A list of references is appended. (1982, ED 218 008, EDRS Price: MF \$0.97, PC \$5.85 Plus Postage, 66p.)

CREATIVE RESEARCH: GETTING STUDENTS TO TAKE CHARGE. Lillian M. Bisson. Far too many students handle a research assignment by copying materials from books and plastering the foreign matter into their papers, which are doomed to mediocrity or worse. Teachers have overstressed the dichotomy between critical and creative writing and thus overlooked the creative dimension of doing research. Overcoming students' feelings that their experiences cannot possibly yield insights valuable enough to write about is an essential step toward having them take a more active command of their material. The following techniques can help students see themselves as creative researchers putting information together in new ways for specific purposes and audiences: introducing students to models that combine personal voice and experience with secondary sources; asking students to take stock of their prior knowledge on a subject and incorporate their personal experiences into their research papers; heightening their awareness of the malleability of facts by designing exercises to show that the same facts can support different, even opposing, points; encouraging them to use interviews as a source of information; and having them cope consciously with their audience. (1982, ED 216 381, EDRS Price: MF \$0.97, PC \$2.15 Plus Postage, 17p.)

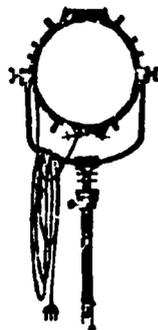

The documents cited in this issue of SPOTLIGHT are among the many indexed and abstracted in the ERIC system. Documents are generally available in two forms: microfiche (MF) and/or paper copy (PC). Counselors As Consultants

PRIMARY PREVENTION: REDUCING INSTITUTIONAL RACISM/SEXISM THROUGH CONSULTATION. CASE STUDY. James M. O'Neill and Robert Conyne. This paper describes the history, process, and outcomes of consultation at a large midwest university that resulted in reduced institutional racism and sexism. Consultation is presented as a vehicle for primary prevention and positive institutional change along with outlines of various consultation forms. The CONSULCUBE model of possible consultation activities is detailed, and each model is examined for sensitivity to primary prevention work and institutional racism and sexism. Implications for further counselor intervention are also discussed (1981, ED 212921, EDRS Price: MF \$0.97, PC \$3.90 Plus Postage, 30p.)

DIVERGENT PERCEPTIONS OF SCHOOL PSYCHOLOGICAL SERVICES. Charles E. Bowen and Tom Dalton. Research results support the hypothesis that the importance of school psychological services are perceived differently by the psychologists themselves and by teachers. While school psychologists want to spend most of their time consulting with teachers, teachers prefer that they spend more time counseling students. Teachers also rate report items on behavior change/management as the most valuable. The findings suggest that an appropriate role for school psychologists is to help teachers develop techniques for working with special needs students. (1981, ED 205 848, EDRS Price: MF \$0.97, PC \$2.15 Plus Postage, 10p.)

THE COUNSELOR'S ROLE IN THE SECONDARY READING PROGRAM: SELECTED ISSUES AND IMPLICATIONS. Michael P. French. Intended as a basis for the development of cooperation and consultation between school counselors and reading teachers, this paper discusses the role of the school counselor; reading instruction at the secondary level; the relationship of school counseling and reading; and the role of the school counselor as an implementer of mainstreaming, as a referral agent, and as a diagnostician. (1982, ED 216 341, EDRS Price: MF \$0.97, PC \$2.15 Plus Postage, 19p.)

COUNSELOR ACCOUNTABILITY MODEL OF GROSSMONT COLLEGE: A WORKING PAPER. This accountability model for counselors states the general purposes of counseling and identifies the following counselor functions: academic advising, career and personal counseling, consultation, liaisons with academic divisions, other student services programs, and the community; peer and foreign student advising, staff development, testing; articulation with secondary and postsecondary institutions, and responsibilities for interns and special programs (1981, ED 214 581, EDRS Price: MF \$0.97, PC \$7.40 Plus Postage, 79p.)

A CASE STUDY RESEARCH OF THE SUPPORT ACTIONS AND ACTIVITIES OF EXTERNAL SCHOOL CONSULTANTS TO NEW BASIC SCHOOL INNOVATIVE SCHOOLS. In the Netherlands, the immediate support and coaching of primary schools and kindergartens is institutionalized in a nationwide local/regional network. The theoretical framework for school innovation support by consultants is described, along with the activities of consultants and school personnel and the characteristics of the consultants and their relationships with the schools (1981, ED 210 267, EDRS Price: MF \$0.97, PC \$2.15 Plus Postage, 21p.)

The documents cited in this issue of SPOTLIGHT are among the many indexed and abstracted in the ERIC system. Documents are generally available in two forms: microfiche (MF) and/or paper copy (PC). Both forms may be ordered from EDRS/CMIC, P.O. Box 190, Arlington, VA 22210. Payment must accompany orders.

ERIC Searching News

ERIC at DIALOG Update

Representatives from ERIC will attend the Update '83 DIALOG Users Conferences in Los Angeles (June 23-24) and Boston (September 12-13).

The DIALOG Users Conferences feature subject sessions, led by DIALOG staff, in which the database producers discuss searches they have submitted to answer typical or exemplary questions in that subject area. ERIC searches will be submitted on the following topics: hyperactive children (Social Science and Humanities), the trend toward gentrification of urban residential areas (Current and Consumer Affairs and Government), legal issues concerning asbestos (Legal), and personal privacy in regard to computerized data systems (Legal).

ERIC user aids and publications will be displayed at the database bazaar, and free copies of *All About ERIC* will be distributed. A copy of the *Thesaurus of ERIC Descriptors*, 9th Edition, 1982 will be given as a door prize at the reception.

For more information on the DIALOG User Conferences, write DIALOG Information Services, Inc., 3460 Hillview Avenue, Palo Alto, California 94304.

Introduce Yourself to the ERIC Thesaurus

One of the most popular handouts for participants in ERIC search workshops is the introductory material from the *Thesaurus of ERIC Descriptors*, 1982 edition.

On page ix of your *Thesaurus* you'll find a section entitled "Indexing and Retrieval in the ERIC System." This section includes an overview of the ERIC system; an explanation of vocabulary maintenance (that encourages you to submit comments on ERIC vocabulary and the *Thesaurus*); a discussion of guidelines followed by ERIC indexes; and a list of

educational level descriptors and publication types that are vital to most ERIC search strategies.

Page xviii begins a section on "Thesaurus Construction and Format" that explains the elements within alphabetical descriptor display listings, such as SNs, UIs, BTs, NTs, etc., as well as the often overlooked GCs (Descriptor Group Codes).

Even if you are an experienced ERIC searcher, we suggest you take the time to read the introductory sections of the *Thesaurus*. Also, use these sections as required reading when training new ERIC searchers.

Descriptor Group Codes

As a searcher, have you ever needed a list of all of the descriptors for the arts? Or for disabilities? Or for test terms? These lists exist, along with several others you may find useful in the Descriptor Group Display section (pp. 549-569) of the 1982 *Thesaurus of ERIC Descriptors*. There are 41 Descriptor Groups including categories such as health and safety, counseling, humanities, reading, mathematics, tests and scales, and facilities. If you familiarize yourself with these groups, they may save you time in preparing future search strategies.

ERIC Online Hotline Lives!

Although it is no longer a toll free call, searchers can still get help with questions about ERIC online by calling CEC/ERIC at (703) 620-3660. CEC/ERIC staff will be happy to help with search strategy development, accept suggestions for improving ERIC online, or facilitate ERIC workshops for groups of interested searchers.

Contact Clearinghouses via Electronic Mail

Searchers with passwords on the Bibliographic Retrieval Services (BRS) system can communicate with some ERIC clearinghouses by sending a message on the BRS MSGS electronic mail system. Here are the "T" numbers of those clearinghouses:

ERIC Clearinghouse on Adult, Literacy, and Vocational Education	T480
ERIC Clearinghouse on Counseling and Personnel Services	T478
ERIC Clearinghouse on Reading and Communication Skills	TEDV
ERIC Clearinghouse on Handicapped and Gifted Children	T529
ERIC Clearinghouse on Information Resources	T457
ERIC Clearinghouse on Science, Mathematics, & Environmental Education	T634
ERIC Clearinghouse on Tests, Measurement, and Evaluation	T9P4
ERIC Clearinghouse on Languages and Linguistics	TAL9

Use Those Publication Types

CEC/ERIC staff talk with many ERIC searchers at workshops and on the ERIC Online Hotline. We have noticed that many searchers are not aware of the value of incorporating ERIC publication type codes in their search strategies.

Publication types (also referred to as PUBTYPE or document types) have been used since 1974 to categorize all RIE and CIE documents and articles by their "form" of publication. They enable you to limit your search to (or eliminate from your search) document types such as research reports, bibliographies, instructional materials, dissertations, or opinion papers. Codes and category names for the 34 PUBTYPES are printed below. For an explanation of the specific procedures for searching PUBTYPES see the ERIC database guides available from the online vendors or call the ERIC Online Hotline at (703) 620-3660. A more detailed discussion of PUBTYPES is located on p. xv of the *Thesaurus of ERIC Descriptors*, 1982 edition.

ASHE-ERIC HIGHER EDUCATION RESEARCH REPORTS

(A portion of the brochure reprinted below.)

Series now in its 11th year

The 1983 Series: Now Available

1. **Path to Excellence: Quality Assurance in Higher Education.** Laurence R. Marcus, Anita O. Leone, and Edward Goldberg

2. **Faculty Recruitment, Retention, and Fair Employment: Obligations and Opportunities.** John S. Waggaman

Why are ASHE-ERIC Higher Education Research Reports the answer? Listen to the experts:

"The series is directly responsive to the current issues in higher education that are of immediate concern."

Alan W. Ostar, President
American Association of State Colleges and Universities

"The literature of higher education is fragmented and scattered. The ASHE-ERIC Higher Education Research Reports provide enormously useful summaries and bibliographies on a wide range of important topics."

Howard R. Bowen
R. F. Stanton Avery Professor of Economics and Education
Claremont Graduate School

"Rarely do I put a report on the shelf—I read and share them because they are both timely and substantive."

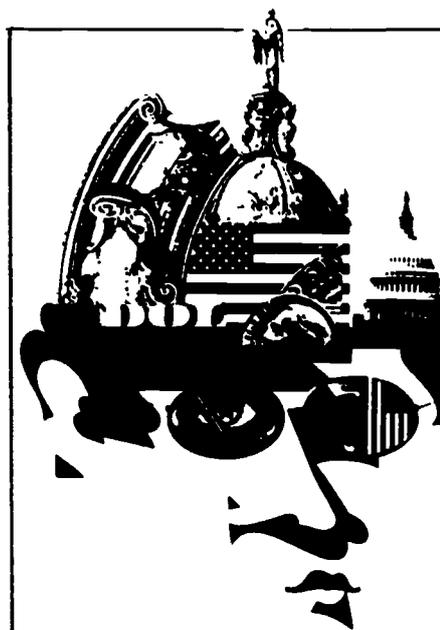

Martha Church, President
Hood College

"I have found these Research Reports invariably helpful on current and vital issues."

Robert M. O'Neil, President
University of Wisconsin System

The Reports are "... clear, concise, and comprehensive overview on topics of critical importance."

The Path to Excellence
Quality Assurance in Higher Education

ERIC
Full Text Provided by ERIC

Reports 3 through 10 to be selected from the following topics in preparation:

- Faculty Career Development
- Burnout
- Distance Learning
- Academic Libraries
- Institutions as Workplaces
- Academe and Public Service
- Sex Fairness
- Professional Associations
- Competence, Admissions, and Articulation
- Faculty Retirement
- Improving Learning and Retention
- The Humanities
- Part-Time Students
- Allied Health Degrees
- Foreign Students
- Survival Strategies for Recovery

CLEARINGHOUSE PARTICIPATION IN MEETINGS/WORKSHOPS/SEMINARS

CH	DATE	LOCATION	STAFF	NOTES
CG	Feb. 22-23	Univ. of Michigan campus	Garry Walz Mary Frenza Jeanne Collett	<u>Conference Name: Michigan Testing Conference</u> Director Garry Walz gave a special address to the entire conference entitled, "Technology and Education: What's Ahead?" Mary Frenza and Jeanne Collet gave a workshop presentation on the use of ERIC, focusing on retrieving test information (with the help of ERIC/TM's search guide). At the CAPS booth CE, CG, and TM handouts were displayed. "Mini" computer searches were conducted.
CE	March 18	Columbus, Ohio	Robert Bhaerman Susan Imel	<u>Conference Name: National Industry-Education Showcase Conference</u> Robert Bhaerman and Susan Imel gave a presentation which featured ERIC/ACVE products and services that emphasize cooperation between educators and business/industry/labor. Dr. Bhaerman discussed cooperative activities between career education and the private sector based on his ERIC information analysis paper, "Career Education: Collaboration with the Private Sector." Bob, formerly assistant director of ERIC/ACVE, is now serving as a Research Specialist at the National Center.
HE	March 27-29	Washington, D.C.	Marilyn Shorr Lynn Barnett	<u>Conference Name: American Association for Higher Education</u> Marilyn Shorr and Lynn Barnett were presenters, giving a view of ERIC compared to other databases. The 1½ hour session, "Database Know-How for the Higher Education Professional," drew 100 conferees and provided an overview of computerized literature databases relevant to the social sciences and education. A focus of the session was the use of home or office microcomputers to search these databases. Extensive handouts were received enthusiastically. A similar session was also presented by Lynn and Marilyn at the Eastern Educational Research Association annual meeting in Baltimore in February, which was also well-received.

CLEARINGHOUSE PARTICIPATION IN MEETINGS/WORKSHOPS/SEMINARS (CONT.)

CH	DATE	LOCATION	STAFF	NOTES
HE			Laura Ciarniello Lynn Barnett	<u>Conference Name: PsycINFO Workshop</u> This free, day-long search seminar sponsored by PsycINFO helped Laura Ciarniello and Lynn Barnett brush up on techniques for searching that database; pick up good ideas for conducting similar workshops for ERIC users; learn from other participants about other resources in Washington, DC (e.g., that the Library of Congress has microfiche copies of all dissertations held by UMI); and get a fresh perspective on what ERIC has to offer social and behavioral scientists.
SO	March 18	Utah	Sheryl Robinson	<u>Conference Name: Utah State Library Association Meeting</u> Sheryl Robinson conducted an ERIC workshop. The participants, standing order customers and new users, were especially pleased to learn about ERIC's participation in the Practice File project.
UD	January 25	Louisville, Kentucky	Michael Webb	<u>Conference Name: ERIC Information Seminar</u> Michael Webb held an ERIC Information Seminar for the Louisville (Kentucky) public schools. Twenty-one participants attended a morning and afternoon session. Targeted computer searches were conducted on various topics, including cost effective analysis for instructional programs, special education (student placement), and library management. ERIC systemwide products and clearinghouse materials were displayed and distributed.
UD	January 28	New York	Georganne Chapin	<u>Conference Name: Association of College and Research Libraries (New York metropolitan area chapter)</u> Ms. Chapin conducted a workshop on ERIC indexing. The workshop was attended by 27 people, most of whom were reference librarians and database searchers from the New York area college and university libraries. Various systemwide and clearinghouse products were distributed.

VISITORS TO THE ERIC NETWORK

CH	NAME OF VISITOR	NOTES
HE	Eight African Educators	The visitors, who visited with Laura Ciarniello, were sponsored by the International Institute of Education located in Washington, DC. They were interested in education in the United States and in information centralization.
HE	Erwin Rosenthal	Professor Rosenthal is a guest of the U.S. Government's United States Information Agency (USIA) and is currently Dean of the Arts and Sciences at Sao Paulo in Brazil.
HE	Dr. Riccomi	Dr. Riccomi is the Rector of the University of Rosario and was sent to HE by Dr. Karen Wenk from the International Visitors Branch of the U.S. Department of Education. Dr. Wenke reported that because foreign visitors were so pleased with the wealth of information received through ERIC, she plans to make HE a regular on her foreign visitor agenda.
RC	Foreign Students	Several foreign students attending New Mexico State University were given an ERIC orientation right before they returned to their respective homes in Guinea, Mali, Nigeria, and Gambia. The students were very impressed with the many resources contained in ERIC and felt ERIC would be very beneficial to their countries. At their request, extra packets of materials were provided for them to take to their Ministers of Education.
SO	Sue M. Tobin	Ms. Tobin is the Elementary Social Studies Coordinator for the Catholic Education Office, Brisbane, Queensland (Australia). She spent two weeks in February visiting ERIC/ChESS, the resources center of the Social Science Education Consortium, and Boulder Valley Public Schools. Commenting on the use of ERIC, Ms. Tobin exclaimed, "You certainly can retrieve information rapidly here. I didn't realize I could go to one of our colleges of advanced education and examine the microfiche!"

EDUCATION-RELATED ACTIVITIES OF CLEARINGHOUSES

CH	ERIC STAFF MEMBER(S)	LOCATION	DATE	NOTES
SO	Irving Morrissett	Cleveland, Ohio	March 21-24	At the request of the Cleveland Foundation, Dr. Morrissett evaluated two programs of the Cleveland Public Schools—one elementary school program on law-related education and the other a new magnet school focused on "law and public school." He found that many Cleveland school people are doing a fine job under the most trying circumstances of a literally bankrupt school system and detailed segregation activities closely monitored by a federal court.
SO	Jim Davis	Christiansted, St. Croix	March 21-26	Dr. Davis worked with the Social Studies Task Force of the Department of Education of the U.S. Virgin Islands. He assisted the Task Force in developing a much needed social studies curriculum guide. The newly published ERIC/ChESS product, <u>Planning a Social Studies Program: Activities, Guidelines, Resources</u> (Revised Edition), was used to help the Task Force develop the guide.

ACTION ITEM

TECHNOLOGY CORNER

About a month ago, while John Cark and I were discussing ERIC/FL's new IBM microcomputer and the growth of microcomputers within the ERIC system, we also discussed whether it might be worthwhile to have a corner of the EAB reserved for notes, experiences, helpful hints, etc., dealing with microcomputers. This idea also surfaced at the latest ERIC Technology Committee meeting (see story on page 5), with one change, however.

It was suggested that the concept should be broadened to include all technology of interest to the ERIC "family." In that vein, then, this is a "call" to those interested in technology and its applications to ERIC needs. At least on an experimental basis, we will have a corner in the EAB reserved specifically for items, issues, suggestions, etc., dealing with technology and the ERIC system. Please forward any such items, appropriately identified as technology items, i.e., "ERIC TECHNOLOGY CORNER - EAB," to your Clearinghouse monitor.

...Kevin F. Arundel (CERIC)

NETWORK NEWS

RIE/CIJE CUMULATIONS (1982-) AVAILABLE FROM ORYX TO ERIC CLEARINGHOUSES AT A SPECIAL 50% DISCOUNT

Beginning with the 1982 RIE Annual Cumulation, due to be published by Oryx Press in the spring of 1983, all Oryx cumulations of CIJE and RIE resumes and indexes will be made available to the Clearinghouses at a special 50% discount.

Please note, however, that this special offer requires each Clearinghouse to explicitly order this publication directly from Oryx Press (i.e., it will not happen automatically and it will not be available via jobbers.)

...Jim Prevel (CERIC)

BACK ISSUES OF RIE AVAILABLE FROM SMERC

An inventory of the SMERC (San Mateo Educational Resources Center) basement revealed that it has extra copies of selected RIE issues. If any of the readers of the EAB would like any or all of the following, we would be glad to supply them for the cost of postage and handling (\$1.00 for each issue).

- All of 1976 (12 issues)
- All of 1977 (12 issues)
- All of 1978, EXCEPT AUGUST (11 issues)
- May 1979 (1 issue)

The above are on a first come, first served basis. All catalogs will be shipped Library Rate. In addition, SMERC has multiple copies of its cumulative (1974-1980) Curriculum Guide catalog, plus all the materials (in microfiche form) cited therein. We will supply these SMERC catalogs to any interested party for the cost of postage (Library Rate) and handling (\$.25 per catalog).

If interested, please write or call:

Katherine Clay
SMERC
333 Main Street
Redwood City, California 94063

...Katherine Clay (SMERC)

FACILITY REVIEW OF CLEARINGHOUSE ABSTRACTS

At the recent ERIC Technical Meeting, the Facility was requested to prepare a description of exactly what kinds of things the Facility editors are instructed to do to the abstracts received with RIE input from the Clearinghouses. Attempts to respond to that request are displayed in Attachment 1.

...Ted Brandhorst (ERIC Facility)

A NATION AT RISK

The National Commission on Excellence in Education's final report entitled A National At Risk will appear in the June issue of RIE. The commissioned papers referenced in this report are being processed by one Clearinghouse (SP - Teacher Education) to ensure consistent cataloging. The papers are being handled as PRIORITY documents by SP.

...Grace Sundstrom (ERIC Facility)

ERIC/ACVE TARGETS MAILING TO STATE POLICY MAKERS

The ERIC Clearinghouse on Adult, Career, and Vocational Education sent materials to all state governors, chief state school officers, and to selected state legislators, primarily heads of committees such as finance, education, ways and means, and to Speakers and Presidents. Included in the packet were two of our fact sheets and a list of all of the clearinghouses' shelf products. The accompanying letter urged these state policy makers to send for additional materials, as appropriate.

...Judy Wagner (CE)

CS REPRESENTED IN STATEWIDE DISSEMINATION PROJECT

A major effort by the state of Washington's Superintendent of Public Instruction to support speaking and listening will utilize 1,250 ERIC/RCS TRIP booklets. An earlier survey of ways the state could help classroom teachers pinpoint oral and written communications as one of three major need areas.

Two booklets, both edited by Barbara S. Wood and directed at distinct educational levels (elementary and secondary), will be included in packets with other materials provided by the state's Oral and Written Communication Task Force to help teachers use the ERIC materials. The titles are:

- Development of Functional Communication Competencies: Pre-K—Grade 6
- Development of Functional Communication Competencies: Grades 7-12.

...Anne Auten (CS)

ERIC/PS INTRODUCES COMPUTER NEWSLETTER

"MicroNotes on Children and Computers" is a new bimonthly subscription newsletter published by the ERIC Clearinghouse on Elementary and Early Childhood Education. This new user services product, edited by Dianne Rothenberg and Mima Spencer, will feature reports on how computers are being used to teach children and news on computer-related publications.

"MicroNotes" will also feature ERIC documents, research projects, and conferences of interest to those working with children and computers. Included will be information on microcomputer applications for instructional, creative, administrative, and recreational purposes. Of particular interest is the fact that "MicroNotes" is written, edited and produced via microcomputer and printer. The finished copy is then used as camera-ready copy at the print shop - very inexpensive! Limited quantities of the first issue are available on request for other Clearinghouses to use at conferences or for user services.

...Norma Howard (PS)

CONTRACT FOR OPERATION OF ERIC/SP CONTINUES WITH AACTE

The American Association of Colleges for Teacher Education successfully bid for continued operation of the ERIC Clearinghouse on Teacher Education, and began work on its new contract March 1, 1983. The contract, for one year with two renewal options, will result in the following IAPs during the first year:

- Essential Knowledge for Beginning Educators
- Health, Physical Education and Recreation for the Mature Adult

FORD, GIVENS, GILLMAN LEAVE SP—FINSTAD, McGETTRICK, GRIFFITH COME ABOARD

The past three months have seen significant staff changes at the ERIC Clearinghouse on Teacher Education. The names of the people who have left the Clearinghouse and the names of those people who have replaced them appear below:

- Catherine Ford (Secretary) replaced by Celia Finstad (Secretary)
- Sharon Givens (Editor) replaced by Devon Griffith (Formerly Assistant Editor, Now Editorial Associate)
- Frances Gillman (Assistant Information Analyst) replaced by Jane McGettrick (Assistant Information Analyst)

...Michael Butler (SP)

ERIC TECHNOLOGY COMMITTEE

The ERIC Technology Committee met in Washington, DC, on April 18. Those attending the meeting included:

Don Ely, Chair (IR)	Chuck Hoover (CERIC)
Kevin Arundel (CERIC)	Jim Prevel (CERIC)
Dorothy Beling (EC)	Mima Spencer (PS)
Ted Brandhorst (Facility)	Barbara Wildemuth (TM)
John Clark (FL)	

The purpose of the meeting was to revise the Committee's report, which addresses the interface between ERIC and its users. Assumptions about users, locale of use, information needs, financial support, delivery systems, and the roles of ERIC system components are explicitly stated in the report. The Committee's recommendations included:

- (1) The feasibility of eventual full text document input in magnetic format should be studied by using appropriate ERIC Information Analysis Products and Fact Sheets as test cases.
- (2) An "Introduction to Searching ERIC Online" should be developed on a microcomputer disc.
- (3) A series of microcomputer discs should be prepared by partitioning the ERIC file by subject.
- (4) The feasibility of including "Table of Contents" type information in records within the ERIC database should be studied.
- (5) ERIC should create an experimental videodisc that would contain a variety of materials, including several fact sheets, information analysis products, an ERIC training videotape, an ERIC training slide/tape, and recent basic skills information.
- (6) Technology available for enhancing the ERIC document delivery system should be explored.

- (7) Further revisions of MICROSearch and dealings with major online vendors should be oriented toward making access to ERIC data more user-friendly.
- (8) A full-text online Fact Sheet file should be created to explore its usefulness to ERIC clients.
- (9) The Technology Committee should monitor optical videodisc developments, examine technology applications to internal ERIC operations, explore possible videotex applications, and clarify and advocate those technology applications which will benefit the ERIC system.

The final version of the Committee's report will be submitted to CERIC and the Executive Committee of the Council of ERIC Directors in May. A copy will be sent to each Clearinghouse before the Director's Meeting, and the recommendations will be a discussion item at that meeting.

...Barbara Wildemuth (TM)

The Government are very keen on amassing statistics. They collect them, add them, raise them to the nth power, take the cube root and prepare wonderful diagrams. But you must never forget that every one of the figures comes in the first instance from the village watchman, who just puts down what he damn pleases.

...Sir Josiah Stamp
Inland Revenue Department (England)
1896-1919

- Attachment 7: CIJE Input by Clearinghouse - CIJEMAY83

GUIDELINES FOR THE EDITING OF RIE ABSTRACTS AT THE ERIC FACILITY

The ERIC Facility editors review all abstracts received from the ERIC Clearinghouses and watch for the following kinds of situations, making needed changes as indicated:

1. Overall Size

"...abstracts are limited to approximately 200 words." (EPM VI-13).

Abstracts that significantly exceed 200 words should be brought to the attention of the submitting clearinghouse, but should generally not be re-written unless the size exceeds 300 words. The objective is to catch the problem at the point abstracts are written and to keep the occurrences to isolated instances that do not require re-write. If the problem persists, it should be pursued via managerial channels. Recurrences may, at the judgment of the editor, be negotiated with the clearinghouses for either: (1) return to the clearinghouse for re-write, or (2) reduction in size by the Facility.

Abstracts significantly under the 200 words size limitation are not to be considered a problem.

2. Type of Abstract (Informative vs. Indicative vs. Informative/Indicative)

The choice of type of abstract is the clearinghouse's. The Facility should, in general, not question this choice.

3. Missing Information

There may be cases where the Facility editor feels that significant information has been left out of the abstract. The most usual situation occurs when there are significant indicative aspects of the document that might be communicated, but the clearinghouse has ignored these aspects, e.g., appendices, attachments, large bibliography, multi-volumes, etc. The Facility editors may, at their discretion, add such information to the abstract, alerting the clearinghouse when this is judged advisable. (See also EPM VI.E.2.)

4. Acronyms

Facility editors should ensure that all acronyms appearing in the abstract are interpreted somewhere in the abstract (preferably at their first occurrence).

5. Abbreviations (as Distinguished from Acronyms)

Facility editors should replace abbreviations with the full form of the word, except in special situations such as when the abbreviation is in quotes or the abbreviation is the standard form of the concept, e.g., "SES."

6. Slang, Swear Words, etc.

Facility editors should generally replace slang and swear words with meaningful and non-offensive equivalents, except in special situations such as when the colloquial word is being treated per se and is essential to the statement being made.

7. Derogatory, Pejorative, or Libelous Statements Concerning Individuals or Organizations

Facility editors should question all seemingly derogatory, pejorative, or libelous statements found in abstracts. Such statements should either be deleted or the editor should receive management approval for their inclusion.

8. Evaluative Statements and Product Comparisons

Facility editors should question all statements making evaluations or direct comparisons of organizations or commercial products. Such statements should either be deleted or the editor should receive management approval for their inclusion.

9. Typographical Errors/Misspelled Words

All typographical errors and misspelled words detected by the editors should be corrected.

10. Non-Complete Sentences

Telegraphic sentences are not acceptable in RIE abstracts and should be expanded by the Facility editors to complete sentences.

11. Missing Words or Lines

Occasionally words or phrases are inadvertently deleted in the keying process, resulting in ungrammatical or incongruous sentences. The editors should research the missing information and replace the missing material.

12. Abstract Attribution

The abstract should be attributed accurately. If the abstract appears in the document, but is attributed to the clearinghouse abstractor, a correction to "author" abstract status should be made. If the abstract is attributed to the author, but does not appear in the document, a correction to the clearinghouse abstractor's initials should be made.

13. Repetitive/Redundant Information

If information that appears in the Title field, Note field, or other field is repeated unnecessarily in the abstract, the Facility editors may, at their discretion, remove such redundant information from one or the other of the two fields, making the necessary transitions. (See also EPM V-95.)

14. Author/Abstractor Confusion (Who's Talking?)

If there is significant confusion between what in the abstract is said by the author of the document and what in the abstract is said by the abstractor, the Facility editor may eliminate the confusion, contacting the clearinghouse as needed to accomplish this.

15. Paragraph Structure

All abstracts must be self-contained in one paragraph. Abstracts structured as more than one paragraph must be converted to the one paragraph format.

16. Lists (VI.E.1.b.(7))

Lists are to follow the format specified in the EPM: "The following conclusions were drawn: (1) xxxxxx; (2) xxxxxx; and (3) xxxxxx." Lists in the abstract not in this format should be converted to it.

17. Numbers, Measurement, Time (GPO Section 12; Chicago Section 8)

In general, the GPO Style Manual calls for Arabic numbers in preference to Roman numerals*, numbers rather than words for values of ten or over, units of measurement or time expressed in numbers rather than words, commas in numbers of four digits or more. Where the GPO rules have not been adhered to, the Facility may make the changes necessary to achieve consistency within a clearinghouse-produced or modified abstract (but not within an unmodified author abstract). Because such changes can be numerous, however, it is critical that the Facility contact the clearinghouse to ensure that the problem is fixed at the source. Because rules pertaining to numbers have cosmetic value, but little or no impact on computerized retrieval, it is more important to be consistent within an abstract than it is to be consistent across the whole of RIE. (The use of author abstracts alone would prevent such consistency across the database.)

The Chicago Manual of Style says, "It is difficult if not impossible to be entirely consistent in the use of numbers in textual matter." (p. 232). The GPO Style Manual and the Chicago Manual of Style, while they do not entirely agree on all points pertaining to numbers, are both useful because they each cover some ground not covered by the other.

18. Commonly Confused Words

Occasionally words that are commonly confused may appear in their "confused" form in ERIC abstracts. For example, the abstractor intended to say the data "imply" something and instead says the data "infer" something. When such a situation is detected, the Facility should replace the incorrect word with the correct word. The Facility will, of course, only take this type of action when absolutely certain about

*Note: Roman numerals are acceptable, however, when being used to describe something that is clearly identified in the source by Roman rather than Arabic numerals and when conversion to Arabic might result in confusion for the user.

the validity of the change and when it is clearly supportable in the standard authorities.

19. Ungrammatical Sentences (Creating Problems With Meaning)

Lengthy sentences, with poor connectives and other grammatical faults, may make it difficult if not impossible to understand what was meant. If the Facility editors cannot, after repeated readings, understand a given sentence, they may assume that the user would have the same problem. Such a sentence should be re-structured so that its meaning is clearer. It may be necessary to contact the clearinghouse in order to accomplish this, but such contact is not mandatory. The objective should be to make the meaning clear without the addition or deletion of any information.

20. Grammar/Usage Problems

The English language has many rules of grammar. Some are widely observed. Some are widely ignored. Those that affect the meaning of the statement being made are the easiest justified and tend to be the most widely accepted. Those that are the most subtle but do not affect meaning (or jar the ear) tend to be the most ignored.

The Facility editors should be on the alert primarily for those violations of the rules of grammar that affect the meaning of what is being said. An example of a rule that can affect meaning would be to place the word "only" next to the word it modifies, e.g., "He ate only a sandwich," not "He only ate a sandwich." Examples of rules that do not affect meaning are: (1) the dying distinction between "shall" and "will," (2) the subtle distinction between "because of" and "due to," (3) the split infinitive (often awkward but sometimes justified).

Grammar or usage problems detected that adversely affect the meaning of what is being said in an abstract should be corrected by the Facility editors. Usages that are widely regarded by the authorities as unacceptable should also be corrected. However, usages that do not affect meaning, that do not jar the ear, and that have some reasonable constituency (e.g., American Heritage Dictionary Usage Panel vote of 15% acceptability or above), should be left alone.

21. Punctuation

There are certain well-accepted rules of punctuation about which there is little or no disagreement, e.g., questions are followed by a questionmark; a colon precedes a list; possessives require an apostrophe; in the structure "A, B, and C" there should be a comma after B if three distinct entities are intended; titles of written words are enclosed in quotation marks. When such standard rules of punctuation, verifiable in the authorities, are violated, the Facility editors should correct the error.

There are other areas of punctuation that are less clear-cut and where personal preference may determine the punctuation used, e.g., use of a semicolon in lieu of a period to separate two conceptually-related sentences; use of a comma after a phrase within a longer sentence, to indicate a "breathing space"; eliding or not eliding dates, e.g., "1980-1982" or "1980-82," use of a hyphen to more closely relate two words that could just as well be separated (problem-solving/problem solving; free-form/free form)*. In these more "optional" areas, where either form used is "correct," the Facility editors should not intrude their preferences, but should go with whatever the author or clearinghouse abstractor wrote, as long as consistency is maintained within a given abstract. As with Numbers and Capitalization, punctuation matters have little or no effect on computerized retrieval.

22. Capitalization

There are commonly accepted capitalization rules that should be adhered to. e.g., months of the year are capitalized; seasons of the year are not capitalized; names of specific entities are capitalized (Valium drug, Helvetica type, Dental Students Attitudes' Test, Project OSIRIS; "west coast" is not capitalized. The GPO Style Manual and the Chicago Manual of Style agree on most of the rules for capitalization, but there are significant differences**. When standard rules of capitalization (as contained in either of the two principal authorities used by ERIC) are violated, the Facility editors should correct the error. Capitalization practices that can be supported by either authority should be let stand.

*Note: But see Chicago "Compound Words," 6.24-31.

**Note: ERIC lower cases all articles, conjunctions, and prepositions in title (unless they are the first or last word of the title), in accordance with Chicago 7.123), whereas GPO (3.52) capitalizes 4-character prepositions (such as "with").

CLEARINGHOUSE PARTICIPATION IN MEETINGS/WORKSHOPS/SEMINARS

CH	DATE	LOCATION	STAFF	NOTES
CG	---	Houston, Texas	Helen Mamarchev	<p>Conference Name: <u>National Association for Women, Deans, Administrators, and Counselors (NAWDAC) (Annual Conference)</u></p> <p>Helen Mamarchev was a member of a six-person panel of women leaders from NAWDAC and the American College Personnel Association (ACPA), which discussed "Women's Involvement in Professional Organizations." The presentation focused on three broad categories: (1) <u>Professional</u>: What are the major issues facing the development of women in our profession in the next five years? (2) <u>Organizational</u>: What benefits and opportunities do you see your organization providing women in the next five years? (2) <u>Personal</u>: Given your obvious professional success both within your professional organization and in your home institution, how have you balanced your professional commitments with your personal life? In addition, Mamarchev assisted with a presentation on resources for microcomputer applications at the ACPA annual conference in Houston that immediately preceded the NAWDAC conference.</p>
CG	March 20-23	Washington, DC	Garry Walz plus 5 staff members	<p>Conference Name: <u>American Personnel and Guidance Association (APGA)</u></p> <p>CG's new booth displayed the most recent CAPS publications and off-the-shelf items, attracting many of the 6,000 conferees. Free mini-computer searches were once again offered on a first come/first served basis. Topics of interest included elementary school guidance, adolescent suicide and counseling those with eating disorders.</p>
CG	April 7	Ann Arbor, Michigan	CH staff (freelance abstractors)	<p>A 4-hour afternoon workshop was held for CAPS' free lance abstractors. A desire to share the positive experience of the Abstract Quality Control Workshop and a need to re-tread our abstractors who seemed to be suffering from burnout, led to our decision to have the concentrated session. Response from the abstractors has been positive, indicating they found the session helpful and renewing. As a follow-up to the workshop, special weekly feedback sessions are planned for each abstractor for a period of 6 weeks.</p>

CH	DATE	LOCATION	STAFF	NOTES
CS	---	Univ. of Illinois	CH staff	Numerous workshops for students.
CS	---	Univ. of Illinois	Anne Auten	<u>Conference Name: Illinois School Administrators Roundup.</u> Presentation on educational management resources (with the help of materials from ERIC/EA).
CS	---	William Rainey Harper	Anne Auten	<u>Conference Name: National Association of Education Supervisors (First Annual Conference)</u> Presentation on the sociological impact of technology on a school system.
CS	---	St. Louis	Anne Auten	<u>Conference Name: National Association of Elementary School Principals.</u> Presentation on technological support for principals and teachers. Administrators were especially interested in the accessibility of information resources through their desk-top personal computers.
CS	---	Chicago & Indianapolis	Anne Auten	Three all-day ERIC online user workshops in Chicago and Indianapolis where librarians and school personnel learned the idiosyncracies of searching ERIC using, among other ERIC tools, Descriptor Group Codes and the <u>Identifier Authority List.</u>
PS	April 6-7	Palatine, Illinois	Mima Spencer; Diane Rothenberg	<u>Conference Name: Computers for Educators (Midwest Fair)</u> Two sessions presented: one on computer basics and one on information resources. They also attended sessions, exhibited ERIC materials, and demonstrated online searching of ERIC.
PS	April 12-14	New York, New York	Mima Spencer; Diane Rothenberg	<u>Conference Name: National Online Conference</u> Participation in a microcomputer session on training people to use computers and attended presentations on information services and online searching.

CH	DATE	LOCATION	STAFF	NOTES
PS	April 14-15	Cleveland, Ohio	Norma Howard	<u>Conference Name: Association for Childhood Education International (Annual Conference)</u> Exhibition at an ERIC booth and demonstrated computer searching.
PS	April 21-23	Detroit, Michigan	Diane Rothenberg; Mima Spencer	<u>Conference Name: Society for Research in Child Development Biennial Conference</u> Exhibition at an ERIC booth, demonstration of computer searching, presentation of software under development. Sessions attended.
PS	April 24-26	Univ. of Illinois	Linda Baskin; Mima Spencer	<u>Conference Name: Twentieth Annual Clinic on Library Applications of Data Processing.</u> Presentation of a session on training people to use computers.
PS	March 9	Univ. of Maryland	Diane Rothenberg	<u>Conference Name: Young Children in Our Technological Environment: The Impact of Microcomputers.</u> Presentation on computers and social policy.
SP	April 9-10	Minneapolis, Minnesota	Joost Yff; Laurie Priest; Elaine Martin	<u>Conference Name: American Alliance for Health, Physical Education, Recreation and Dance (HPERD)</u> The advisory board for health, physical education, recreation, and dance (HPERD) of the ERIC Clearinghouse on Teacher Education met during the annual meeting of American Alliance for HPERD. The 5-member board, established as a separate unit from the advisory board for teacher education for the first time, identified the following issues as topics of high priority for the HPERD community: continued inclusion of physical education in the K-12 curriculum, corporate wellness; wellness programs for teachers, sexually-transmitted diseases, past and continued progress of Title IX in physical education and athletics for girls and women.

CH	DATE	LOCATION	STAFF	NOTES
SP	April 8-12	Minneapolis, Minnesota	Director, Associate for HPERD, User Services Coordinator	<u>Conference Meeting: American Alliance for Health, Physical, Education, Recreation, and Dance</u> Display booth, advisory board meeting.
SP	April 8-10	Washington, DC	Associate Director	<u>Conference Meeting: QUEST Conference, American Federation of Teachers (Annual Meeting)</u> Display booth.
UD	March 24-25	Washington, DC	Michael Webb, Maryellen Lo Bosco	<u>Conference Name: National Conference on Single Parent Families and the Schools (Hosted by the Home and School Institute at the National Education Association Center)</u> The conference was attended by approximately 400 people, including educational policymakers, mental health professionals, and community representatives. Papers were solicited for ERIC, and demonstration computer searches were conducted. Ms. Lo Bosco and Mr. Webb exhibited and distributed ERIC/UD's products and materials as well as systemwide materials and products from other clearinghouses.
UD	April 21-23	Chicago, Illinois	Maryellen Lo Bosco	<u>Conference Name: National Conference on Asian and Pacific American Education</u> Theme: "Unity in Diversity." Approximately 100 people attended the conference. Other interested persons, particularly from the Chicago Board of Education, dropped by the exhibit area. Clearinghouse and systemwide products were exhibited and distributed. Ms. Lo Bosco and Florence Hongo, of the Japanese American Curriculum Project, promoted the recently published book, <u>The Education of Asian and Pacific Americans: Historical Perspectives and Prescriptions for the Future.</u> The volume was developed by the ERIC Clearinghouse on Urban Education and was published by Oryx Press.

CH	DATE	LOCATION	STAFF	NOTES
UD	April 25	San Antonio, Texas	Michael Webb	<p><u>Conference Name: ERIC Information Seminar</u> Michael Webb conducted an ERIC workshop as part of the ongoing Urban Schools Seminar project developed for the big city school districts. It was attended by members of the curriculum and research departments. Eight computer searches were conducted. Clearinghouse and systemwide materials were distributed.</p>

NEW CLEARINGHOUSE PUBLICATIONS

CH	DESCRIPTION
CE	"Quality Circles." Fact Sheet. BRS T-number: TB80. Copies available from CE.
CS	<p>The RCS "Minibib" spring series of bookmark-sized, multicolored reference cards offers twelve new or updated titles:</p> <p>Basal Reading, Communication Apprehension, Computers and Reading, Corrective Reading in the Content Areas, Film in the Classroom, Gifted Students and Reading Programs, Journalism in Secondary Schools, Parent Involvement in Reading, Reading and Television, Reading in the Two-Year College, Reading Tests, and Word Processing and Writing.</p> <p>Minibibs feature 4-7 ERIC documents on more than 70 topics selected for their usefulness to the classroom teacher. Ideal for workshop handouts, exhibits, and question answering, they are available in multiple copies at no charge.</p>
EC	<u>A Practical Guide to Counseling the Gifted in A School Setting</u> , edited by Joyce VanTassel-Baska. 48 pages, \$5.95 (Stock No. 268). New IAP.
PS	ERIC/PS has recently developed the following new resource lists in response to increased user interest in these topics: One-Parent Families, Employer-Supported Day Care, Intergenerational Programs: Adults & Older Children. Other resource list titles recently updated are: Child Development, Early Childhood Education; Day Care, Children's Health and Nutrition.
PS	"Research on Children's Play," is the topic of a new Short Report, or Fact Sheet, from ERIC/EECE. A companion publication is the ReadySearch (pre-prepared computer search) "Research on Children's Play," which sells for \$10 and is updated every 6 months."

CH	DESCRIPTION
SE	<p><u>An International Review of Gender and Mathematics</u>, by Erika Schildkamp-Kundiger.</p> <p>Reports from nine countries are included in this review on gender and mathematics. An introductory chapter provides an overview of concerns, with comments pertaining to data from West Germany as well as points made in the nine reports. Each report summarizes the prevailing status of concern about gender and mathematics education, research findings, conferences, and other developments, and concludes with a list of publications. A bibliography on gender and mathematics is the final item in the review. ERIC/SMEAC price is \$5.75. (SE 039 181)</p>
SE	<p><u>Mathematics Teachers: An Endangered Species</u>, by Peggy A. House.</p> <p>The author proposes a taxonomy and a model for teacher education programs from preservice through in-service. The book begins with a broad overview of developments in mathematics teacher education, as a perspective from which to view the present position. Then the taxonomy is presented, categorized by knowledge, comprehension, application, analysis, synthesis, and evaluation objectives. The operation of a teacher education program based on the taxonomy is then described, with the taxonomy related to the on-going nature of teacher education. Both content and experiences to be included in a teacher education program are given, with a model for designing a program based on the taxonomy proposed. Finally, preliminary experiences with the model and an evaluation of it are given. ERIC/SMEAC price is \$4.50. (SE 039 476)</p>
SE	<p><u>Research on Mathematics Education Reported in 1981</u>.</p> <p>The twelfth annual listing of research in mathematics education, compiled by Marilyn N. Suydam, has been published as the July 1982 (issue of the <u>Journal for Research in Mathematics Education</u>). It includes references to 13 research summaries, 206 articles, and 360 dissertations published during 1981. Most of the references are annotated and an index is included. Single copies of the journal issue are available for \$3.50 from the National Council of Teachers of Mathematics, 1906 Association Drive, Reston, VA 22091.</p>
SE	<p><u>Environmental Education in Action V: International Case Studies in Environmental Education</u>, by William B. Stapp and Margaret E. Cowan, Compilers-Editors</p> <p>More than 30 case studies of environmental education programs around the world are presented in this book. Persons involved in the activities reported represent more than twenty nations and all continents. Both formal (school-based) and out-of-school cases are included, with target audiences ranging from young children through university students to total communities. ERIC/SMEAC price is \$12.50. (SE 039 605)</p>

CH	DESCRIPTION
SE	<p><u>Environmental Education in Action VI: Change Agents in and for Environmental Education</u>, by John F. Disinger, Compiler-Editor</p> <p>A set of case reports from the ERIC data base is focused on schools, individuals, agencies, and organizations which, through their actions, have affected change in the presentation and development of environmental education. A spectrum of age levels and target audiences is represented. ERIC/SMEAC price is \$12.00. (SE 039 606)</p>
SE	<p><u>Environmental Education Teaching Activities for Global Education</u>, by William B. Stapp and Lori D. Mann, et al.</p> <p>Classroom activities for students in grades K-12 provide a variety of approaches to help students view environmental education within a global education perspective. Activities are keyed to concepts at the interface between global education and environmental education, grade levels, and appropriate curricular areas. ERIC/SMEAC price is \$12.50. (SE 039 607)</p>
SE	<p><u>National Association for Research in Science Teaching, 56th Annual Meeting, Abstracts of Presented Papers, 1983</u>, by Arthur White and Patricia Blosser, Editors.</p> <p>Abstracts of papers presented at the 56th annual meeting of the National Association for Research in Science Teaching are contained in this publication. Papers relate to research techniques (meta-analysis, time series design, etc.) teacher education (preservice, inservice), cognitive development and learning, science curriculum, instruction and other topics. ERIC/SMEAC price is \$5.00. (SE 039 731)</p>
SE	<p><u>1983 AETA Yearbook - Teaching Children Science: Changing Adversity into Advocacy</u>, by Bernard W. Benson, Editor</p> <p>The intent of this yearbook is to provide a positive posture for nurturing desirable changes in the status of science teaching. It is written for elementary school teachers and all who are involved or concerned with curriculum and instruction in the elementary school. The yearbook provides the basis for continued professional growth of teachers by stressing ways to logically and realistically infuse science and science-related instructions into schools and to assure that science will remain valued as new patterns of schooling evolve. ERIC/SMEAC price \$7.50. (SE 039 826)</p>

CH	DESCRIPTION
SP	<p><u>Technological Literacy: Challenge for Teacher Education.</u> Joost Yff and Michael Butler. 1983, 32 pages, \$4.50.</p> <p>The authors examine the broad relationship between technology and education, and the implications of this relationship to teacher education. Technological literacy as a component of general education is examined and responses teacher educators might make to the challenge of "tech lit" are suggested.</p>
SP	<p><u>Who Teaches Health?</u> Margaret Smith. 1983, 44 pages, \$4.50.</p> <p>The author examines the reasons for implementing a comprehensive program of health education in public schools, examines the role of those who teach health, and discusses national, state, and local strategies for improving teacher preparation.</p>
SP	<p><u>Stages of Teachers' Careers and Implications for Professional Development.</u> Judith Christensen, Peter Burke, Ralph Fessler, David Hagstrom. 1983, 29 pages, \$2.00.</p> <p>Literature on adult development, adult learning, and teacher growth and change are examined to reveal principles useful in constructing appropriate, effective programs for inservice staff development.</p>
SP	<p><u>Field Experiences in Teacher Education: From Student to Teacher.</u> D. John McIntyre, 1983, 55 pages, \$6.00.</p> <p>Recognizing the complicated nature of the field experience, the author examines its positive and negative results, how the teacher trainee is influenced, and whether modifications can be made within the field experience component to produce general improvement in preservice teacher education programs.</p>
<p>NOTE: The Field experiences monograph is available from the Foundation for Excellence in Teacher Education, One Dupont Circle, Suite 610, Washington, DC 20009. The other SP publications are available from the ERIC Clearinghouse on Teacher Education.</p>	

CH	DESCRIPTION
UD	<p><u>The Education of Asian and Pacific Americans: Historical Perspectives and Prescriptions for the Future</u>, edited by Don Nakanishi and Marsha-Hirano-Nakanishi. Oryx Press, 141 pages.</p> <p>A collection of scholarly essays on the education of the five Asian-American minorities (Japanese, Chinese, Korean, Filipino, and Indochinese) and on Hawaiian Americans. An Introduction by Bob Suzuki is included.</p>
UD	<p><u>Topical Bibliographies of ERIC References</u>. These computer bibliographies include entire ERIC resumes for each citation.</p> <p>#1: <u>Black Achievement in Elementary and Secondary Education</u>. 58 citations. \$3.00.</p> <p>#2. <u>Compensatory Education: Assessment and Program Evaluation and Implementation in Elementary and Secondary Education</u>. 182 citations, \$5.00.</p> <p>#3. <u>High Achieving Blacks and Hispanics</u>. 96 citations, \$4.00.</p> <p>#4. <u>Bilingual/Multicultural Education Programs for Asian American Students in Elementary and Secondary Schools</u>. 157 citations, \$5.00.</p> <p>#5. <u>Special Education for Hispanics in Elementary and Secondary Schools: Assessment, Placement, and Program Implementation and Evaluation</u>. 61 citations, \$3.00.</p> <p>#6. <u>Special Education for Black Students in Elementary and Secondary Schools: Assessment, Placement, and Program Implementation and Evaluation</u>. 61 citations, \$3.00.</p> <p>#7. <u>School Desegregation: Research and Evaluation of Programs in Elementary and Secondary Schools</u>. 160 citations, \$5.00.</p> <p>#8. <u>Equal Educational Opportunity in Institutions of Higher Education</u>. 51 citations, \$2.00.</p> <p>#9. <u>Compensatory Education: Assessment, Implementation, and Evaluation of College and University Programs</u>. 79 citations, \$3.00.</p> <p>#10. <u>The Minority Elderly</u>, 43 citations, \$2.00.</p>

ACTION ITEMS

DUPLICATES IN 1983 CLEARINGHOUSE INPUT FOR RIE ALMOST DOUBLE 1982 RATE

A total of 71 duplicates were found (prior to publication) in the 1982 input. Thus far in 1983, 76 duplicates have already been detected. If duplicates continue at this rate, ERIC will experience nearly a doubling in duplicate input by the end of 1983. Such a substantial increase indicates that the system has a serious problem which should be corrected.

Each Clearinghouse needs to review the duplicate submission figures to see if it needs to strengthen its procedures for eliminating duplicates. We all need to remember in this time of ever tightening budgets that duplicate input costs not only time, but money. Each duplicate costs ERIC approximately \$100. This means that about \$7,600 has already been lost that could have been used much more productively. Observing the following guidelines should help reduce the problem:

1. Processing Federal Documents

While the ERIC Facility has been designated as the central point to solicit and acquire Federal documents, it is recognized that the Facility may not always be aware of or obtain every education-related Federal document published. Therefore, if a Federal document is acquired (presumably unsolicited) from a source other than the Facility, the Clearinghouse must check with the Facility's Acquisitions Department to make sure the document is not already in process somewhere in the system.

2. Documents Acquired from Organizations Having a Standing Acquisition Arrangement with Another Clearinghouse

Any Clearinghouse acquiring a document from an organization that is listed in the ERIC Acquisitions Arrangements as having an on-going arrangement with another Clearinghouse, runs the risk of handling a document already in process. Before processing any such document, first check with the Clearinghouse having the acquisition arrangement.

3. Documents Self-Described as Reprints

Documents identified as reprints are likely candidates for being duplicates. They should be checked especially carefully.

4. Use of the Acquisitions Data Report (ADR)

The ADR is currently the ERIC system's only control over in-process materials. All document input should be checked in the ADR. Each Clearinghouse should also review every month its own copy of the Exception Report to identify any duplicates cited as potential by the Facility computer. Because variations in recording titles can cause problems, ADR checking should be done by a person familiar with its conventions. When a duplicate or potential duplicate is detected, the

Clearinghouse finding the problem should contact the other Clearinghouse identified by the ADR to negotiate which Clearinghouse will process the document. Careful use of the ADR can be helpful in eliminating duplicates in the system.

...Chuck Hoover (Central ERIC)

PROCESSING ADVISORY—

CORRECTION OF RIE DATA PREVIOUSLY TRANSMITTED ONLINE TO THE FACILITY

If a Clearinghouse detects an error in data that have already been transmitted to the Facility online, please do not attempt to make the correction in subsequent online transmittals.

If a major error is involved, such as an incorrect Clearinghouse Accession Number or the omission of the Abstract (or large amounts of data), you should contact by telephone the Facility personnel in charge of data entry (i.e., Dan Kautz or Millie O'Donnell). They can investigate where the earlier data are in the process and can let you know how to proceed.

If an ordinary typographical correction is involved, send the change in writing (or Xerox) to the RIE editors and ask them to make the correction when they eventually see the data. Needless to say, the vast majority of typographical corrections should be made on the Clearinghouse's system before the data are transmitted to the Facility.

...Carolyn Weller (ERIC Facility)

NETWORK NEWS

NATIONAL ALLIANCE FOR OPTIONAL PARENTHOOD DISBANDED

In response to a request from Marjory J. Immer (former Administrative Manager, NAOP), please be advised that the National Alliance for Optional Parenthood went out of business as of September 1, 1982, due to lack of funding.

...Grace Sundstrom (ERIC Facility)

EC ANNOUNCES SUMMER HOURS

The summer hours for EC will be:

8:00 - 5:00 -- Monday through Thursday

-- Friday closed

from June 17 through August 19, 1983

...Donald K. Erickson (EC)

PS APPLE HELPS TRACK DOCUMENTS

A computerized acquisitions and order file has been designed by Dianne Rothenberg of ERIC/EECE to facilitate ordering documents and tracking them until their abstracts appear in RIE or they have been transferred or rejected and the author/source notified. The system is also designed to collect the statistics required for the quarterly report. The tracking system was designed for the Apple IIe or II+ by using PFS (a very simple database management system available from Software Publishing, Inc.). A copy of the printout or additional details on the design of the tracking system may be requested from Dianne.

...Dianne Rothenberg (PS)

CURRENT TOPICS IN EARLY CHILDHOOD EDUCATION—CALL FOR PAPERS

A call for papers to be considered for Current Topics in Early Childhood Education appeared this quarter in Educational Researcher, the APA Monitor, and the SRCD Newsletter. To date, the notice has generated 62 requests for detailed information about manuscript submission, as well as four unsolicited manuscripts. (More manuscripts are expected.) Following compilation of a PFS file of respondents, each individual requesting information received author guidelines, a brochure describing the contents of previous volumes of Current Topics, an ERIC reproduction release, and the ERIC/EECE flyers "Be an ERIC Author" and "Available from ERIC/EECE." A letter enclosed with these materials explained the submissions process both for Current Topics and for ERIC inclusion. In this way, an acquisitions effort and a user services promotion were combined with the solicitation of IAP materials.

...Karen Steiner (PS)

NEW PUBLICATIONS REVIEW FORM

The design of a publications review form (see Attachment 1) has aided in the process of obtaining external reviewers' comments on potential ERIC/EECE publications, and has additionally helped remind reviewers within the Clearinghouse of basic criteria for selection. The two external readers selected are asked to return their comments within a month of receiving the manuscript. So far, reviewers -- many of whom are members of the ERIC/EECE Advisory Board -- have conscientiously contributed helpful suggestions.

...Karen Steiner (PS)

Library of Congress Awards 2 Contracts for Optical-Disk Storage

WASHINGTON

The Library of Congress has awarded two contracts in its pilot program to store library materials on optical disks.

The three-year program is intended to evaluate the use of optical disks—which are read by laser beams—to preserve texts and pictures and provide fast access to such materials.

The Library of Congress already uses an optical-disk system for storing and duplicating catalogue cards.

In one aspect of the pilot program, digital optical-disk storage will be used for printed materials. One side of a 12-inch digital disk can store between 10,000 and 20,000 pages of text.

An optical-disk recording does not deteriorate with use because its surface is touched only by a beam of light, whose fluctuations recreate the original electronic patterns encoded on the disk.

Because the stored information is in digital form, copies of the original disk can be made without any loss of quality, assuring preservation of materials for an unlimited time.

The contract for the digital-disk project was awarded to Integrated Automation, formerly Teknekron Controls, Inc., of Berkeley, Cal.

Library officials said they would

give top priority in the digital-disk project to current periodicals that are frequently used, including government documents on public-affairs topics provided by the Congressional Research Service, other government documents; journals of science, technology, and business; Brazilian, French, German, Hebrew, Japanese, and Thai journals; and selected maps, atlases, microforms, manuscripts, and sheet music.

The second project in the pilot program is for storage of images on videodisks. The videodisk contract was awarded to Sony Video Communications Products Company in Lanham, Md.

Video recording, an analog rather than digital system, can store up to 54,000 black-and-white or color images on one side.

Images to be put on videodisks during the pilot program include 600 glass lantern slides, 20,000 glass negatives and transparencies, 32 paper-print motion pictures, and 91,000 stills from motion pictures.

Library users will be able to retrieve the disk-recorded materials through terminals connected to the library's computer system.

Library officials said the digital-disk equipment is scheduled for delivery in October, with copying expected to begin in January.

—JACK MAGARRELL

WASHINGTON • THE CHRONICLE OF HIGHER EDUCATION

The full text of 18 journals of the American Chemical Society will be available in a computerized file beginning June 1. In a joint announcement with Bibliographic Retrieval Services, Inc., the chemical society said the journal texts from 1980 until the present will be available for computerized search, display, and printing. The file will be updated every two weeks. Fees for use of the file will range from \$66 to \$85 per hour, plus telephone-line charges.

ERIC/EECE PUBLICATIONS REVIEW

Manuscript title: _____

Reviewer: _____ Date: _____

The enclosed manuscript is being considered for possible inclusion in the publications program of our Clearinghouse. Your assistance in evaluating its suitability will be very helpful to us as well as to the author(s).

While we would like to select some of your comments to share with the author(s), the identities of all reviewers and authors will remain confidential.

Please return your comments to us by _____. If your schedule does not permit you to evaluate this paper, we would appreciate your returning the manuscript promptly so that we may request the evaluation of another reviewer.

Thank you for helping us in this way.

I. We have listed six broad criteria below for you to use as guides in evaluation. Please use other criteria as needed.

	<u>Good</u>	<u>Adequate</u>	<u>Inadequate</u>
1. Value of topic	---	---	---
2. Thoroughness of treatment	---	---	---
3. Accuracy of content	---	---	---
4. Adequacy of conclusions and recommendations	---	---	---
5. Currency of references and supporting discussion	---	---	---
6. Clarity of presentation	---	---	---
7. Other _____	---	---	---

II. Recommendations

- Publication of manuscript as is
- Publication following revisions
- Rejection of manuscript

(Please see the reverse)

III. In the space below please add any further comments you wish to make. It would be especially useful to indicate to the author(s) what questions or issues readers are likely to wish to have addressed at further length.

Please return this page along with the manuscript to Dr. Lilian G. Katz, Director, ERIC/EECE, College of Education, University of Illinois, 805 W. Pennsylvania Ave., Urbana, IL 61801. A stamped envelope has been provided for your convenience.

FURTHER CLARIFICATION OF ERIC'S PUBLICATION POLICY AND THE PRINTING OF IAPs

Some of the comments we have received concerning my recent memo on ERIC publication policy and the printing of IAPs seem to warrant further clarification of the matter.

The appearance of an ERIC IAP in RIE (the equivalent of putting it in the "public domain") makes it possible for any publisher to print and market the document, and thus does not give one publisher an unfair advantage over another. Clearinghouses' past procedure of contacting a single publisher to print an IAP before its existence is made known in some national organ (e.g., RIE) gives the appearance of preferred treatment for a publisher of a federally-funded manuscript (regardless of the fact that that publisher may be the only one interested in publishing it). This is illegal—or (the term usually used) "in noncompliance."

Clearinghouses should be aware that ERIC may still be considered to be in noncompliance with Federal printing rules and regulations because of the following:

- "38. Publications by Private Publishers. —When a department uses appropriated funds to create information for publication, the printing and binding of that information is subject to the provisions of Section 103 and 501 of Title 44, United States Code, and it shall not be made available to a private publisher for initial publication without the prior approval of the Joint Committee on Printing.

Government Printing & Binding Regulations
published by the Joint Committee on Printing.
Congress of the United States,
April 1977"

If we are able to say, however, that all clearinghouse-produced manuscripts are in the public domain prior to their being published, Central ERIC hopes to allay the Department's and JCP's concerns that ERIC is operating outside the law with regard to printing.

Central ERIC is not insensitive to the problems this may create for the clearinghouses. However, consider the alternatives:

- Do we want to submit all manuscripts to the Department's clearance body—PAVAC (Publications and Audiovisual Advisory Council) which, incidentally, has an extremely high rejection rate, or to the Joint Committee on Printing?
- Do we want to have all ERIC clearinghouse manuscripts printed at GPO? Where will the printing money come from? Who would market the publications? Also recall GPO's long, drawn-out printing time schedule.

...Chuck Hoover (Central ERIC)

ERIC/EC TO EXHIBIT AT EXCEPTIONAL BLACK CHILD CONFERENCE

The ERIC Clearinghouse on Handicapped and Gifted Children will organize and conduct a tabletop exhibit of materials at a July 25-27 Conference in Atlanta, Georgia. The conference, sponsored by CEC and its Minority Concerns Committee, has a content focus on the education of the exceptional black child. If other clearinghouses have materials that could appropriately be displayed at this conference, please contact Lynn Smarte at EC.

...Donald K. Erickson (EC)

PROCESSING ADVISORY—THE IMPORTANCE OF CLEARINGHOUSE ACCESSION NUMBERS

The Clearinghouse Accession Number is analogous to a ticket required before you can make a journey. Without a ticket you cannot ride. If your ticket is not properly written or if it duplicates another ticket, the discrepancy has to be resolved before you can ride.

Since you all want your documents to "ride" unimpeded, the Facility advises that Clearinghouses observe the following practices with respect to this important number:

- Proof Clearinghouse Accession Numbers Carefully

Proof for accuracy, correctness of prefix, use of "1" (one) and not "l" (el), agreement between number on resume and number on document. Be very careful to accurately proof accessions from multiple ranges of Clearinghouse numbers, especially if the keyer has had to switch back and forth among such ranges in preparing the input.

- Do Not Re-Use Numbers

If a document is pulled for some reason, it is better to not re-use the number. Re-use of numbers can cause problems with internal record-keeping, including the ADR. More importantly, however, since documents removed from RIE input tend to be removed as a group at the end of a cycle, a re-used number in the same issue runs a serious risk of a good record being incorrectly removed or being overlaid with fields from the other record.

...C. Weller (ERIC Facility)

NETWORK NEWS

EDUCATION JOURNALS EVALUATED HIGHLY BY THE "ALA COMMITTEE ON WILSON INDEXES" THAT ARE NOT CURRENTLY COVERED BY CIJE

Attachment 1 displays 99 journals (grouped by major category) evaluated positively by the above-mentioned committee, but not currently covered by CIJE (according to Oryx Press).

Clearinghouses should evaluate these journals (in the context of the journals they now cover) for possible future coverage by CIJE. In other words, if ERIC doesn't cover these journals, it should be as a result of a conscious decision, not an inadvertent oversight.

...Ted Brandhorst (ERIC Facility)

COMPUTER SEARCHING AT THE ERIC CLEARINGHOUSES—RESPONSES TO APRIL 1983 QUESTIONNAIRE

All Clearinghouses completed the questionnaire on computer searching that appeared in the April 1983 issue of the EAB, and Central ERIC forwarded the responses to the Facility for compilation. A summary, in chart form, is provided as Attachment 2. A more detailed report, in directory form, is attached as an enclosure (one copy per Clearinghouse). The "directory" is intended for use within the ERIC network, not as a handout for external users.

...Jim Houston (ERIC Facility)

BRANDHORST ELECTED VICE-CHAIR AND CHAIRPERSON-ELECT OF Z39

Ted Brandhorst has been elected Vice-chair and Chairperson-elect of Z39, the American National Standards Committee dealing with library and information sciences and related publishing practices. Ted currently serves as the chair of Subcommittee J, Bibliographic Data Source File Identification, and is a member of the Z39 Program Committee and Executive Council.

...Elizabeth Pugh (ERIC Facility)

CIJE COVERAGE—ADDITIONS AND DELETIONS OF JOURNALS

Beginning with this issue of the EAB, we are inaugurating a new feature that will itemize the changes made to the list of journals covered by CIJE. Additions, deletions, and name changes will be reported to the Facility by Oryx Press each month. The Facility will incorporate the information in the EAB.

It is hoped that this information will assist the Clearinghouses in avoiding the kind of duplicates that have been a problem in CIJE, i.e., duplicate input (especially "one-shots" from newly added journals not yet appearing in the Source Journal Index. (See Attachment 3.)

...Ted Brandhorst (ERIC Facility)

ERIC/CS HAS NEW CONTRACT AND NEW DIRECTOR

The National Council of Teachers of English successfully bid for continued operation of the ERIC Clearinghouse on Reading and Communication Skills and was granted a new three-year contract on 1 June 1983. As of that date, Dr. John C. Maxwell, Executive Director of NCTE, became Acting Director of ERIC/CS, taking over for Dr. Bernard O'Donnell, who is on medical leave. We welcome Dr. Maxwell to the ERIC network.

...Anne Auten (CS)

ERIC/EC PROVIDES FREE "MINI" SEARCHES TO USERS

When the ERIC Clearinghouse on Handicapped and Gifted Children (ERIC/EC) receives an information request on a specific topic for which we have no user services product or other publication, we sometimes do a quick computer search and send the user 3-4 citations (without abstracts) from the database. We also indicate how many more references are in ERIC on that topic so the user can decide whether it's worth conducting a more thorough manual or computer search. Most of these mini searches take only 3-4 minutes on the computer, but the time adds up (we've run 130 in 8 months), so remember to budget for it if you decide to offer this service.

...Lynn Smarte (EC)

NEW INDEXING BOOK PUBLISHED

After many months of waiting, Scarecrow Press has begun distribution of Indexing Specialized Formats and Subjects, edited by Hilda Feinberg, and including a chapter by Lynn Barnett on "Indexing in ERIC." The other 13 chapters cover such topics as decisions in indexing systems design, indexing biomedical literature, law book indexing, indexing at the New York Times Information Service, indexing encyclopedias, indexing for videotex systems, the use of microcomputers in indexing, and the design of a periodical indexing service. The 288-page hardback book (ISBN 0-8108-1608-3) is available from Scarecrow Press, 52 Liberty Street, P.O. Box 656, Metuchen, New Jersey 08840. (\$37.50).

...Lynn Barnett (HE)

HE NATIONAL ADVISORY BOARD REVIEWS SELECTION GUIDELINES

At its annual National Advisory Board meeting on April 18, HE's staff was pleased to be able to review its document selection criteria with Advisory Board members. A particularly rewarding decision was that the Advisory Board would form a standing committee to adjudicate those rare documents whose rejection is protested by the author.

...Lynn Barnett (HE)

HE COLLECTS OTHER NATIONAL COMMISSION PAPERS

The National Commission on Student Financial Assistance has contacted the ERIC Clearinghouse on Higher Education regarding putting its consultant reports as well as its several official Commission reports into the ERIC database. HE is in the process of gathering all of them (about 40) and plans to have them ready for the September issue of RIE. The Commission was set up by Congress and concluded business June 1, 1983.

...Lynn Barnett (HE)

HE IAPS TAKE OFF

HE is especially pleased to announce that since taking over the distribution and marketing function of its ASHE-ERIC Higher Education Research Report series, it has doubled the number of subscribers in 7 weeks. Press releases and executive summaries are being widely distributed and the reports are being publicized in various organizations' newsletters. From May 1 until July 1, Clearinghouse staff processed more than 1,200 orders, representing approximately 8,000 individual IAPs.

...Lynn Barnett (HE)

CURRENT TOPICS—CALL FOR PAPERS

A call for papers to be considered for Current Topics in Early Childhood Education appeared this quarter in Educational Researcher, the APA Monitor, and the SRCD Newsletter. To date, the notice has generated 62 requests for detailed information about manuscript submission, as well as four unsolicited manuscripts. (More manuscripts are expected.) Following compilation of a PFS file of respondents, each individual requesting information received author guidelines, a brochure describing the contents of previous volumes of Current Topics, an ERIC reproduction release, and the ERIC/EECE flyers "Be an ERIC Author" and "Available from ERIC/EECE." A letter enclosed with these materials explained the submissions process both for Current Topics and for ERIC inclusion. In this way, an acquisitions effort and a user services promotion were combined with the solicitation of IAP materials.

...Karen Steiner (PS)

PERSONNEL NEWS

GOODBYE, DR. MAMARCHEV!

At the end of July, the ERIC Clearinghouse on Counseling and Personnel Services (CAPS) bids fond farewell (and hearty congratulations) to Helen Mamarchev, our Assistant Director for Information Processing for the past two years. Helen is on her way to the University of Florida in Gainesville to take on a new post as Assistant Vice President for Student Affairs. She has been with CAPS since 1976 (as CIJE Editor, Senior Information Specialist, and Assistant Director) in the process mastering just about every Clearinghouse task and inventing a few more. She leaves us far better organized and geared to problem-solving than we'd ever thought possible. As No. 2 person in student affairs at the University of Florida, Helen will work in program development, evaluation, and staff development, as well as policymaking for budgetary and data processing functions.

...Debbie Herbert (CG)

CIARNIELLO BECOMES CASAL

After years of explaining to users how to pronounce and/or spell her last name, Laura Ciarniello has opted to change her name to Laura Casal (her mother's family name). With the change, she has decided to suppress the Italian in her and let the Spanish side surface!

...Lynn Barnett (HE)

HOOGSTRA AND BRUCKER LEAVE HE

HE's administrative associate, Lisa Hoogstra, left the Clearinghouse after nearly 3 years to assume a position with a law firm. She remains available, however, so we can take advantage of her computer knowledge on a consulting basis. Paul Brucker is also no longer with the Clearinghouse.

MEETINGS/CONFERENCES/WORKSHOPS

CH	DATE	LOCATION	STAFF	NOTES
CG	June 27- June 29	Ann Arbor, MI	—	<u>Conference Name: Counseling in a Hi-Tech Age</u> "Counseling in a Hi-Tech Age" was the focus of our recent workshop. Counselors, department directors, administrators, and private practitioners flocked from all parts of the country to attend the 3-day session, which featured seminars on topics including projections of future images of counseling and evaluation of software and hardware equipment. Participants also engaged in hands-on experimentation with numerous software packages, from children's games to adult career development assessments.
CS	April 30- May 1	Anaheim, CA	Karl Koenke Jane McClellan	<u>Conference Name: Center for the Study of Reading CORR 4 Seminar.</u> Sessions attended.
CS	May 2- May 6	Anaheim, CA	Karl Koenke Jane McClellan Fran Biederman	<u>Conference Name: International Reading Association Convention</u> Exhibited at an ERIC booth and demonstrated computer searching; sponsored a session on what an educational researcher is learning from teachers in her research on writing/reading.
CS	June 12- June 15	Kansas City, MO	Don Boileau	<u>Conference Name: National Forensic League Meeting</u> Exhibited ERIC materials.
CS	June 23	Univ. of Illinois	Anne Auten	Workshop for graduate students on CAI materials in ERIC.

MEETINGS/CONFERENCES/WORKSHOPS (CONT.)

CH	DATE	LOCATION	STAFF	NOTES
CS	June 21- June 24	Radford, VA	Don Boileau	<u>Conference Name: Standards of Learning Conference.</u> Exhibited ERIC Materials.
CS	June 27	Univ. of Illinois	Anne Auten	ERIC workshop for graduate students on database searching.
CS	June 27- June 28	Univ. of Illinois	Anne Auten	<u>Conference Name: Executive Leadership Center Seminar.</u> Presentations on word processing, evaluation of educational software, and in-house databases.
HE	May 23- May 26	Toronto, Canada	Jon Fife Marilyn Shorr Lynn Barnett	<u>Conference Name: Annual Forum of the Association for Institutional Research</u> HE staffed an exhibit booth featuring recent IAPs and attended Forum sessions. Marilyn Shorr and Lynn Barnett held a 3-hour workshop called "Database Know-how for Institutional Researchers," which was attended by 22 people who had paid a special registration fee to AIR specifically for this workshop. Although HE had suggested that 10-12 people would be the optimal number for such a workshop, AIR asked that we accept the additional registrants. Thirteen databases besides ERIC were compared and demonstration searching was available.
HE	May 20	Washington, DC	Laura Casal	<u>Conference Name: Automation Update</u> Laura demonstrated computer searching at a seminar, "Automation Update," sponsored by the University of the District of Columbia. The 50 participants came from all over the east coast for this professional development workshop.

ACTION ITEMS

PROCESSING ADVISORY—NATIONAL COMMISSION DOCUMENTATION

When processing the reports issued by a National Commission (or equivalent well-publicized group), please keep in mind the following processing tips:

- Assign a continuous sequence of Clearinghouse accession numbers to the documents so that they come out in RIE as a batch and without other kinds of documents interspersed.
- If there is a logical sequence to the documents (e.g., a series of report numbers), follow this sequence in assigning ERIC Clearinghouse numbers so that ERIC doesn't "scramble" the natural sequence of the documents.
- If there is a pattern to the titles/subtitles/volume numbers, follow this single pattern for all documents. The fact that they may be cataloged by different individuals should not create unwarranted variations in the cataloging. These documents receive heavy scrutiny as a group, and any inconsistencies by ERIC in their processing will be noticed. Let one editor review all the documents in such a special group in order to ensure consistency in cataloging, indexing, and abstracting.

...Ted Brandhorst (ERIC Facility)
(with Central ERIC approval)

TARGET AUDIENCE DATA ELEMENT—A REMINDER

This is a reminder that:

- The Target Audience data element should be initiated at the Clearinghouses beginning with the input for the January 1984 issue of Resources in Education (RIE).
- The ERIC Processing Manual (EPM) pages pertaining to Target Audience were sent in single copy draft to the Clearinghouses in July. In early August, a Target Audience Self-Test was sent to the Clearinghouses to help familiarize processing staff with the guidelines pertaining to the new field. In August, the final version of the EPM pages dealing with this new data element was sent to all the Clearinghouses in 5 copies on the familiar buff-colored paper.
- The exact date that Clearinghouses will begin the processing of January 1984 input will vary from Clearinghouse to Clearinghouse. However, since the first date on which January 1984 input must be shipped to the Facility is September 23, it is presumed that in most cases cataloging for 1984 input will begin no more than a month earlier, or about August 29.

Central ERIC originally settled on this schedule with the objective of giving the Clearinghouses plenty of lead time from the first notification of

PRACTICE FILE UPDATE

I have been asked to clarify several issues with regard to Practice File operations. After discussing them with Central ERIC. I have their approval to advise you of the following:

1. Payment to Clearinghouses for documents submitted to the Practice File:
 - a. Clearinghouses will be reimbursed \$20 for documents which are accompanied by a completed copyright release form. Because we want to process documents as quickly as possible, we strongly encourage Clearinghouses to make every effort to obtain copyright releases for documents sent to the Practice File.
 - b. Reimbursement to Clearinghouses for documents submitted without a completed copyright release will be \$10 per document.
 - c. Reimbursement to Clearinghouses for documents submitted to the Practice File project and rejected by Practice File staff will be \$5 per document. THIS IS A CHANGE FROM WHAT YOU HAVE BEEN TOLD PREVIOUSLY. We assume that anything submitted to the Practice File will meet the specifications of the Acquisitions and Selection Plan sent to all Clearinghouses in June 1983, and we assume there will be very few documents rejected by the Practice File. We know there is an expense involved in submitting anything; hence the \$5 even for documents ultimately rejected.
2. We have been asked by Clearinghouses when they should begin submitting documents. NOW! Some Clearinghouses have already begun, and we thank them. You may submit them in large batches, one-by-one, or however best suits you. The sooner the better. We will reimburse you on a quarterly basis beginning September 30, 1983.
3. Keep in mind that the Practice File is designed to test out and evaluate the value of types of documents, as well as the content of documents which focus on the practitioner. Consequently:
 - a. Please don't submit 30 or 40 curriculum guides or 30 or 40 book reviews. Try to vary the types.
 - b. Don't exceed the maximum number of documents projected for your Clearinghouse without first checking with me because the Practice File input is limited to approximately 1,200 documents during the project year.
 - c. Try to submit at least the minimum number of documents projected for your Clearinghouse because we want all Clearinghouses to have an opportunity to submit documents in their scope.

I am preparing a recordkeeping device which will track the source and types of documents processed into the Practice File each month. After I coordinate with Central ERIC, I will routinely share the information with all of the Clearinghouses so everyone can see how we're doing.

4. The Practice File staff is generating a lot of reading material for the Clearinghouses. Please share the proper pieces with the proper Clearinghouse staff members. We know there's a fine line between keeping you informed and inundating you, and we're trying not to cross it. We welcome any questions. Please feel free to phone or write.

...Katherine Clay (SMERC)
(with Central ERIC approval)

NETWORK NEWS

POLICYMAKERS RESPOND TO MAILING

In May we sent letters and fact sheets to all state governors, chief state school officers, and selected state legislators (see EAB, May 1983, page 3). As of July 1, we have received 20 acknowledgments and requests for additional materials. Topics most frequently requested included industry/education cooperation, employer-sponsored training, quality circles, and entrepreneurship. One hundred and forty (140) off-the-shelf products have been disseminated, in addition to those included in the original mailing.

...Judy Wagner (CE)

POLITICAL DEBATE OVER MERIT PAY

A Research Action Brief published by the ERIC Clearinghouse on Educational Management in February 1981, in cooperation with the National School Boards Association, has been used as evidence in the growing political debate over merit pay for teachers. Education Week (June 15, 1983), in a lengthy article entitled "Merit-Pay Issue Dominates School-Reform Debate," quoted from the EA Brief as one of its sources citing the research literature on the topic.

...Stuart C. Smith (EA)

NARIC STAFF VISITS EC

Seven staff members from the National Rehabilitation Information Center visited ERIC/EC for 3 hours on Wednesday, July 20, 1983. Don Erickson, Dorothy Beling, and Lynn Smarte shared copies of our most recent annual review document to give the NARIC staff an overview of our Clearinghouse activities. They were especially interested in document acquisition processes, our "pipeline" system for tracking the progress of documents, dissemination of user services products, and thesaurus development. A special guest was Ms. Ana M. Damini de Frappola, an education technician with a special education information center in Uruguay, who is interested in using aspects of the ERIC system to organize a literature collection.

...Lynn Smarte (EC)

ERIC ON THE AIR

A telephone call was recently received from a teacher in Utah, who had heard about the ERIC Clearinghouse on Elementary and Early Childhood Education on an evening radio talk show. She identified KSL as being the biggest radio station in the Salt Lake City area. The talk show host was discussing a book which informs people as to how to obtain information from the Government. During the discussion, the Clearinghouse was mentioned and the telephone number supplied.

The teacher said she got right off the thru-way and called the Clearinghouse. Needless to say, EECE has mailed out information to her. With that kind of response, maybe ERIC should consider radio advertising!

...Norma Howard (PS)

THE GERMAN CONNECTION

Norma Howard, Coordinator of Information Services at the ERIC Clearinghouse on Elementary and Early Childhood Education, visited ERIC collections in West Berlin and in Bielefeld, West Germany during a trip to Europe in June.

In-depth discussions with librarians at both sites yielded much interesting information about usage of the ERIC system in Germany. Although the collections are housed in modern and well-equipped information and resource centers (5 new reader-printers and 6 readers in the room where ERIC is located at the University of Bielefeld site), usage is low because most people don't know about them. Norma also met with two professors and several graduate students at the University of Bielefeld, told them about ERIC and provided ERIC materials for a symposium for 200 faculty and students.

She also saw ERIC microfiche collection sites in Copenhagen, Oslo, and Stockholm.

...Norma Howard (PS)

DR. LILIAN KATZ RETURNS FROM INDIA AND BARBADOS

The ERIC Clearinghouse on Elementary and Early Childhood Education welcomed back Director Dr. Lilian Katz after a 6-month sabbatical leave. Dr. Katz was a Fulbright Professor at the University of Baroda, India, where she worked with students and staff in the Department of Child Development from January to March, as well as lecturing in other major cities in India.

From April to June Dr. Katz had an appointment as Visiting Professor at the University of the West Indies, Cave Hill Campus, Barbados, where she was attached to the Primary Education Project in the School of Education. Dr. Katz visited schools and gave workshops and seminars for teachers and students in teacher training colleges and universities in Barbados, Montserrat, Antigua, St. Lucia, and St. Vincent.

COLEMAN, LEIBOWICZ LEAVE CS—BRIGMAN, MIER JOIN STAFF

After almost 10 years with the ERIC Clearinghouse on Reading and Communication Skills, Carol Coleman, Assistant Coordinator of Documents, has left her full-time career to take up the more leisurely work of helping her husband in his business. Dianne Brigman comes to the position of Assistant Coordinator with experience as a legal secretary. Dianne had never heard of ERIC before joining the Clearinghouse staff, but is learning quickly and thinks it's a "marvelous system."

Joseph Leibowicz, abstractor and indexer, has left the CS Clearinghouse for the Yale University Law School and has been replaced by Margaret Mier, a Master's candidate in English literature at the University of Illinois.

Welcome aboard, Dianne and Margaret!

MEETINGS/CONFERENCES/WORKSHOPS

CH	DATE	LOCATION	STAFF	NOTES
RC		Portland, OR	Manuela Quezada- Aragon	<u>Conference Name: 17th Annual National Migrant Conference</u> Ms. Quezada-Aragon provided a workshop for participants.
RC		Michigan/ Texas/ Utah	Everett Edington	Everett Edington's Activities: 1. provided a workshop for rural and small school administrators for the Marquette-Alger ISD, Michigan 2. gave testimony at the Dallas, Texas hearings on the status of the labs and centers 3. provided an ERIC presentation for educators at Brigham Young University.
RC		Spokane, WA	Elaine Benally	<u>Conference Name: National Indian Child Conference.</u> Provided a workshop.
RC		El Paso, TX	Betty Rose Rios Amelita Hill	<u>Conference Name: Conference on Research Needs in Chicano Spanish.</u> Provided an ERIC awareness session for researchers.

MEETINGS/CONFERENCES/WORKSHOPS

CH	DATE	LOCATION	STAFF	NOTES
SO	June 8-11	Athens, GA	Irving Morrissett Jim Davis Fran Haley	<p><u>Conference Name: Social Science Education Consortium.</u> The annual conference, board, and corporation meetings were attended. The conference topic was, "The New Information Technology: Educational Implications and Social Issues." Morrissett and Davis presented papers. Among other presenters were half a dozen invited guests from western Europe. Speakers elaborated on the current uses and future promise of computers and other technology in education, and some dwelt on the hazards and pitfalls of reliance on computers. The status of computer usage, interest in computers, and problems and prospects related to the usage of computers appeared to be surprisingly similar, in many European countries, to experience in the United States. Conference papers will be announced soon in RIE.</p>
UD			Erwin Flaxman	<p><u>Conference Name: Klingenstein Summer Workshop at Teachers College for Independent High School Teachers.</u> These are promising teachers, all with fewer than five years experience, who compete for the opportunity to attend the workshop. The workshop is designed to provide intellectual support for their work as a means of encouraging them to stay in teaching. Dr. Flaxman spoke on the state of knowledge production and dissemination in education.</p>
UD	June 12-14	Albuquerque, NM	Maryellen LoBosco Michael Webb	<p><u>Conference Name: National PTA's Annual Meeting.</u> Over 500 people were in attendance; over 200 attendees stopped by the ERIC table to pick up free materials, to ask for a computer search, or to find out more about ERIC or the Clearinghouse. Exhibit materials included our own, system materials, and publications/products from several other Clearinghouses. The display provided this audience, many with no previous exposure to ERIC, with a wealth of information on a wide range of topics. A brochure on A NATION AT RISK was included in every attendee's conference packet.</p>

MEETINGS/CONFERENCES/WORKSHOPS

CH	DATE	LOCATION	STAFF	NOTES
UD	June 22	New York, NY	Erwin Flaxman	<u>Conference Name: National Competition for Regional Educational Laboratories and R&D Centers.</u> Dr. Flaxman presented comments on the National Competition for Regional Educational Laboratories and R&D Centers at the open meeting in New York. Part of his remarks dealt with the relationship of the regional labs and R&D centers with the educational dissemination structure in the United States.

ERIC'S SCOPE OF INTEREST

ERIC's scope of interest is well-defined in the ERIC Clearinghouse Scope of Interest Manual. What to do about pure subject matter documents is discussed in the ERIC Processing Manual (p. III-2, Section B.1). Sometimes these written guidelines are not being observed by some Clearinghouses in the selection of materials for ERIC.

As we examine the RIE input, in addition to the good, solid input, we see sociological documents, psychological documents, population control documents, environmental documents, etc. Many of these documents bear no discernible connection with the field of education.

As a result, we feel that ERIC is in danger of losing a sense of what it is about. A database that can accept documents on everything from activated sludge to the behavior of patrons entering X-rated movie theaters is a database that cannot be characterized either by itself or by the users.

The world of bibliographic databases is, for the most part, subdivided by discipline: Chemistry, Biology, Psychology, Environmental Sciences, Sociology, Demography, etc. ERIC is the "Education" component of this system. ERIC, however, is spilling over into the other disciplines and including a lot of material that would be better left to them. It is getting harder and harder to intellectually defend the appearance in ERIC of certain materials. Every document in ERIC should have an obvious link to the field of education and this linkage should be made explicit in the abstract when there is any doubt.

We think this is an issue that should receive the same kind of attention as the recently-attacked topic of abstracting quality. A within-ERIC effort should be formed to evaluate the present coverage and to determine whether there is a problem, the extent of the problem, and what might be done about it. The self-examination that would be fostered by such a project might in itself be enough to keep ERIC's selection standards up to the level of the written guidelines. Should we divert scarce resources to this type of project?

Discussion and suggestions are invited. At a minimum please check your input over the past year.

...Chuck Hoover (Central ERIC)

RIE INPUT QUALITY

Documents and bibliographic data submitted by the Clearinghouses for input into Resources in Education (RIE) receive two kinds of review. The Central ERIC technical monitors review the documents for suitability, relevance, legibility, etc. The ERIC Facility editors review the cataloging, indexing, abstracting, and document preparation for conformance to the ERIC Processing Manual guidelines.

Recent experience on the part of these two groups seems to indicate a falling off of quality in both areas. The number of documents detained by the monitors because of questions concerning their suitability for ERIC (or their technical reproducibility) is on the increase. The number of documents delayed because of document preparation problems (e.g., no title page, two copies of document sent as one document, a multi-volume set of documents entered out of proper sequence, etc.) is on the increase. The number of editorial corrections (e.g., misspelled words due to lack of proofing) appears as well to be running ahead of previous averages.

As is usually the case, not all Clearinghouses are contributing to these problems. Those of you that are contributing are probably aware of it due to increased telephonic contact with your monitors, your documents being removed or delayed, and the amount of red ink on the computer printouts being returned to you by the Facility.

We realize that the ERIC budgetary pressures lead many of you to seek less expensive ways of processing or the elimination of certain functional steps. We should all remember, however, that the single most important product we produce is RIE and that its quality and its schedule must be our top priority.

I am confident that a reminder that we must not shortchange the quality of our RIE input will be sufficient to get us back on an even keel.

...Chuck Hocver (Central ERIC)

ONLINE DATA ENTRY—KEEP YOUR DISKS FOR AWHILE FOR "INSURANCE"

It is a good idea for the Clearinghouses to retain copies of the machine-readable data they transmit to the Facility for a period of around 6-8 weeks. The Facility holds this data until the documents have been paginated and the pagination data keyed. In other words, the editors do not get to the data immediately and if it were to turn out that serious problems (e.g., missing fields) existed, it could be necessary to go back to the original data. To avoid the possible need for extensive re-preparation, it is only prudent to hang on to the original disks (both RIE and CIJE) for a safe period.

...Pat Brown (ERIC Facility)

CIJE LOGSHEETS STILL NECESSARY

Although Clearinghouses are no longer sending OCR forms for CIJE input, it is still necessary at this stage to send a logsheet for each journal issue processed so that the intended input can be verified by both the ERIC Facility (first stage data receiver) and Oryx Press (editor and ultimate publisher). The logsheets may, as long as they are separately distinguishable, be incorporated with RIE-related transmittals to the Facility, if the Clearinghouses wish to do so.

...Dan Kautz (ERIC Facility)

NETWORK NEWS

ERIC SHORT REPORT FILE CONTRACT AWARDED TO PS

Central ERIC is pleased to announce that the Contract for development of an ERIC Short Report File (heretofore known as the ERIC Fact Sheet File) has been awarded to PS. As you know, each Clearinghouse has been awarded \$5,300 for development of 5-6 short reports targeted at policymakers. The \$5,300 is to cover developments of new short reports to go into the short report file. The format for these reports will be standard and will be developed by PS in consultation with CERIC and all Clearinghouses.

The subject matter of these reports should be jointly determined in consultation with PS as they will be building upon the policymakers needs assessment conducted by SP and will have determined where there are information gaps in the existing reservoir of fact sheets/short reports. Based on needs identified in the SP report, PS will also select a number of existing fact sheets to be revised and updated. Written guidelines for both revisions and development of new short reports will be forthcoming; therefore, Clearinghouses should not actually begin this work until such time as the guidelines are in hand. Recognizing the inherent coordination difficulties of this project, your cooperation is requested.

...Judi Conrad (Central ERIC)

CIJE SCHEDULE

A new CIJE schedule for the six-month period from January-June 1984 is displayed as Attachment 1.

...Susan Slesinger (Oryx Press)

DR. LILIAN KATZ DIRECTS INTERNATIONAL STUDY

Dr. Lilian G. Katz, Director of the ERIC Clearinghouse on Elementary and Early Childhood Education, was recently appointed chair of the Steering Committee of the Preprimary Study of the International Association for the Evaluation of Educational Achievement (IEA). The project is a study of preprimary education of four-year-olds and includes follow-up studies of the children until the end of the first year of their primary schooling. At present twenty-one countries have indicated their intention to participate in the study, projected to take ten years to complete. The Steering Committee carries full responsibility for guiding the study throughout its ten-year operation. The countries thus far included are: Australia, Belgium, Canada, England, Federal Republic of Germany, Finland, Ghana, Hong Kong, India, Indonesia, Ireland, Israel, Italy, Jamaica, Kenya, Korea, Netherlands, New Zealand, Nigeria, Thailand, U.S.A.

...Norma Howard (PS)

CRESS CONTACTS SOCS

The SMERC announcement "ERIC IS E-X-P-A-N-D-I-N-G ITS FOCUS!" reminded CRESS that it was time to contact its SOCs again. A brief cover letter was compiled which explained the reason for the packet being sent and elicited responses from SOCs on items such as suggesting topics for consideration for future user services products, submitting their own and their institutions' publications for input into ERIC, their need for assistance or for ERIC products such as those enclosed, etc.

Packets were made up of ERIC materials received by the Clearinghouse since our last contact with the SOCs (ERIC Clearinghouse Publications, 1981; IAP mini-file brochure; RIE, CIJE, Thesaurus brochures; All About ERIC (Spanish and English); How to Start an ERIC Collection (Spanish); etc.) and CRESS products like their latest fact sheets, general Clearinghouse brochure, pub list, and last, but not least, the SMERC flyer on the e-x-p-a-n-d-i-n-g focus of ERIC.

...Amelita Hill (RC)

"A NATION AT RISK" ED NUMBERS

The ERIC Clearinghouse on Teacher Education has had enough requests for the ED numbers of the 39 papers commissioned by the National Commission on Excellence in Education to inspire it to prepare a single-page ready reference sheet. Thinking it might be useful to other Clearinghouses as well, it is included here in the EAB as Attachment 2. The list provides the RIE issue in which the item was announced, a partial title, personal author, ED number, and prices for paper and microfiche copies. It is arranged alphabetically by author, except for the first item, which is the final report issued by the National Commission. [Editor's Note: A longer list, containing the complete titles, was prepared by the ERIC Facility and appears as Attachment 83-1 in the July 1983 issue of the Interchange newsletter.]

...Francie Gilman (SP)

ERIC IS CITED

A recent article by Carol A. Mandel and Judith Herschman, entitled "Online Subject Access—Enhancing the Library Catalog," noted that "...the ERIC Vocabulary Improvement Program provides a model for collecting and editing suggestions for new and revised terms as well as for references." The rest of the article can be read in The Journal of Academic Librarianship; v9, n3, p. 148-55, July 1983. The author's information about ERIC came from Barbara Booth's 1979 article about the new ERIC Thesaurus, published in Online.

...Barbara Wildemuth (TM)

Paperless catalog may speed access

A paperless catalog for automotive parts was predicted as "the wave of the future" at a recent national meeting of the Automotive Advertisers Council. Jack Dmoch, eastern regional manager of Mnemos Ltd., Lawrenceville, NJ, said that "catalogs have always been extremely time consuming to use because of the difficulty involved in simply finding information." He added that they are also costly to produce and distribute, cumbersome to use, and expensive and difficult to update.

"Today's catalog producer needs to be aware of new developments that can provide him with a better, easier way to produce, store and access extensive volumes of information," Dmoch said. "For example, the Mnemos System 6000 combines the best of micrographics and computer technology by using electronics, optics, lasers and electronic beam recording to store and instantly access both product text and graphic material."

A 12-in. clear plastic MnemoDisc, Dmoch explained, is capable of containing optically reduced images of 6,000 standard 8½ x 11-in. pages, or one million characters of digital data, or combinations of the two.

"By turning to the paperless catalog, manufacturers and distributors can provide faster access to the merchandise they sell," Dmoch added. "This makes the ordering process simpler, and can create a competitive advantage when a clerk or customer has the choice of ordering from either the convenient paperless catalog, or the cumbersome traditional one."

Teletext: A Reality

Teletext moved out of the laboratory and into the hands of consumers today as the nation's first broadcast teletext service was introduced in the Cincinnati market. Cincinnati is the first American city where consumers will be able to purchase teletext receiving equipment. These teletext decoders, specially designed and produced by Zenith, will allow Cincinnati TV viewers to receive "Electra," Taft's Broadcasting Company's rapid news and information service. Electra is a 100-page electronic newspaper broadcast over the signal of Taft's station WKRC-TV here.

Teletext may prove to be an important new and information service in

the 1980s. It can bring the TV viewer almost instant access to the latest headlines, stock prices, sports scores, weather, and dozens of other items at the touch of a button.

Satellite Communications, Vol. 7, No. 10
(September 1983), p. 10

1987: The year for Teletext and Videotext?

If sales for telecommunications hardware continue to grow at their present rate, 1987 could be the year in which teletext and videotext capture a mass market, says a new report by Frost and Sullivan, *Videotext and Teletext Home Market in the United States*. By that time, internal teletext decoders will be standard equipment in 37 to 52 million households, lowering the cost of broadcast teletext, says the report. By 1995, assuming a 50% home penetration by cable TV, cable teletext will generate \$140 to \$250 million (1982 dollars).

The report ties the growth of videotext to the growth of the microcomputer market, which should produce a subscriber base of 11 to 16 million persons by 1995, who will pay \$14 to \$28 per month for the service. As for which signal standards will eventually become the accepted ones for the entire industry, the report puts its money on the North American Broadcast Presentation Level Protocol Syntax for broadcast teletext; As for videotext, "it remains to be seen," says the report. (Frost and Sullivan, 212-233-1080).

Satellite Communications, Vol. 7,
No. 10 (September 1983), p. 11

PERSONNEL NEWS

OLGA STANCZAK RETIRES FROM THE ERIC FACILITY

After twenty years with ORI, Inc., Olga Stanczak retired on August 31, 1983 from her duties as Document Control Clerk with the ERIC Facility to care for Kazimierz, her husband of nearly 31 years, who was seriously ill with emphysema. Olga's dedication to her job, her attention to detail, and her insistence on accuracy were legendary and will be missed. Typically, Olga stayed on for awhile to help train her replacement, Cindy Addison.

[Postscript: A mass was held for Kazimierz Stanczak at Our Lady of Lourdes Catholic Church in Bethesda, Maryland on September 23, 1983.]

MORE NEW STAFF AT CG

Judy Clements is our new CIJE Editor, taking over for Mary Frenza, who has assumed Helen Mamarchev's responsibilities as Assistant Director for Information Processing. Judy's background is in journalism and ERIC/CAPS processing, as she worked for three years as a CAPS abstractor/indexer before becoming CIJE Editor.

Wendy Steadman and Barbara Leroy have recently come on the staff as Abstractor/Indexers. Wendy has an M.S.W. and has worked in a variety of community social service agencies in southeastern Michigan. Barbara has degrees in English and guidance and counseling, and is presently working on a Ph.D. in rehabilitation counseling. She has recently served as a consultant to school districts on the program design for vocational skills centers for the handicapped.

We also have two new work-study students as aides in the Learning Resources Center: Michael Barone, a senior economics major at the University of Michigan, and Heidi Hennink, a University of Michigan freshman. Lori Peters, who was our LRC aid and summer library assistant for two years, has taken off for Aix-en-Provence, France, where she is spending her senior year on a University of Michigan/University of Wisconsin study abroad program.

...Carol Mills (CG)

LAUBACHER AND RAUSCHER LEAVE IR

Marilyn Laubacher left her position as User Services Coordinator with the ERIC Clearinghouse on Information Resources early in July to become the Director of the Baldwinsville Public Library in Baldwinsville, New York. Marilyn had been with the Clearinghouse since it came to Syracuse University in January 1977, and served as a member of the ERIC Steering Committee.

Betsy Rauscher had worked with the Clearinghouse in several capacities—senior secretary and word processor operator—when she left to seek her fortune in San Jose, California.

Pamela McLaughlin will take over as User Services Coordinator on September 12, and Joan Laskowski is now putting the Xerox 860 through its paces.

...Barb Minor (IR)

BETTY-JO (B.J.) DUNBAR JOINS PS STAFF

The ERIC Clearinghouse on Elementary and Early Childhood Education welcomes B. J. Dunbar, who joined us in September as an abstractor/indexer. B. J. brings an extensive background in elementary education, both as a board of education administrator (8 years) and as a teacher (8 years) in the Chicago public school system. She is currently a doctoral student in the Department of Elementary and Early Childhood Education at the College of Education, University of Illinois.

...Norma Howard (PS)

MARTIN LEAVES SP; GILMAN REJOINS

Elaine Martin has left the ERIC Clearinghouse on Teacher Education to become a reference librarian at the Paul Himmelfarb Health Sciences Library, George Washington University. Francie Gilman is replacing her as User Services Coordinator.

...Francie Gilman (SP)

MEETINGS/CONFERENCES/WORKSHOPS (CONTINUED)

CH	DATE	LOCATION	STAFF	NOTES
PS	---	SMERC	Mima Spencer	After attending the Nova conference, Mima Spencer visited SMERC, meeting with Director Jean Holbrook, NEPF Project Manager Kathy Clay and Project Coordinator Mary Moray at the resource center. The practice file, SMERC activities, and the problems and pleasures of managing and disseminating information were among the topics discussed. A visit to Softswap, the microcomputer for educators directed by Ann Lathrop at the SMERC Library was one of the highlights of the day. Californian hospitality and competence were everywhere evident!
PS	Aug. 29 Sept. 1	New York	Mima Spencer Dianne Rothenberg	<u>Conference Name: Everychild Conference, the First Annual Conference Sponsored by the Children's Book Council</u> Mima Spencer and Dianne Rothenberg represented the ERIC system. A session entitled "ERIC: What It Is and How to Use It" was attended by 21 teachers, librarians, publishers, and authors who exhibited lively interest in ERIC and asked many questions about access and use. ERIC materials, particularly from PS and CS, were also available on a display table near the exhibit area. The conference sessions provided some interesting perspectives on professional groups not usually reached by ERIC who would like to know more about our system and services.
TM	May 13	ETS, Princeton, New Jersey	Louisa Coburn	<u>Conference Name: New Jersey Consortium on the Community College.</u> Eighteen representatives of community colleges in New Jersey and Pennsylvania attended this day-long workshop, along with several New Jersey Department of Education staff.

CE	---	Kansas City, Missouri	Susan Imel	<p>Conference Name: <u>"Train the Trainer: Skills for Working with Adults," for the National Center for Research in Vocational Education's National Academy.</u></p> <p>This 2-day workshop was conducted by Susan Imel and was attended by vocational educators from throughout the country. The workshop focused on appropriate skills and methodologies to be used in planning and implementing training programs for adults.</p>
PS	---	Mills College Oakland, California	Mima Spencer	<p>Conference Name: <u>Summer Institute sponsored by Nova University.</u></p> <p>Mima Spencer was invited by Nova University of Fort Lauderdale, Florida, to serve as a special resource person on computers and children at Nova's Summer Institute for education doctoral students held the last week in July at Mills College in Oakland, California. In addition to Nova faculty from the Ed.D. Program in Early Childhood, speakers at the "High Touch, High Tech" conference included Bill Paisley of Stanford's Institute for Communication Research; Martha Ramirez of the Computer Literacy Corporation; Barbara Bowan, Director of Apple Education Foundation; and Sandra Curtis, Director of Research for Hakansson Associates, Inc. Conference presentations focused on research on computers and children and computer applications in educational settings, day care, and homes. Although attending as a representative of The Main Branch, a private consulting firm, Mima found, as usual, that ERIC was of great interest and distributed ERIC materials, consulted on computer searching, and put people in touch with Clearinghouses appropriate for their special concerns.</p>

ACTION ITEM

ERIC FACILITY ARCHIVAL COLLECTION OF ERIC CLEARINGHOUSE PUBLICATIONS BEING INVENTORIED FOR COMPLETENESS

Maintenance of a complete archival collection of ERIC Clearinghouse publications is a contractual responsibility of the ERIC Facility. As Clearinghouse personnel have changed over the years, the mechanism for providing the Facility with one copy of all Clearinghouse publications has occasionally lapsed. As a result we are now finding that our archival collection is not as complete as it should be.

We are currently conducting an inventory to determine any missing titles. Within a few weeks, each ERIC Clearinghouse will receive a list of documents that are missing from the archive and that are believed to be products of that Clearinghouse. Each Clearinghouse will be asked to either provide a copy of the missing item or to identify the missing item as not being a Clearinghouse product. The transmittal letter accompanying the list will provide more specific details.

Meanwhile, until the lists are issued, we would be grateful if each Clearinghouse would double check to ensure that the Facility is on their distribution list to receive one copy of each and every Clearinghouse product.

...Ted Brandhorst (ERIC Facility)

CATALOGING AND PROCESSING ADVISORIES

CATALOGING ADVISORY—TARGET AUDIENCE FIELD

Early reviews of the RIE January 1984 input indicate that some Clearinghouses did not notice that POLICYMAKERS was changed from two words to one word between the draft and the final version of the Target Audience guidelines that appeared in the ERIC Processing Manual (EPM). The most recent English-language dictionaries indicate that one word is the preferred spelling for this term. Please be sure to use the term as one word.

...Carolyn Weller (ERIC Facility)

PROCESSING ADVISORY—PRIORITY DOCUMENTS AND DATA ENTRY TRANSMISSIONS

The quantity of "PRIORITY" documents is increasing and resulting in considerably more "special handling" situations at the Facility. Clearinghouses are requested to treat the use of "PRIORITY" status as the exception, rather than the rule, whether for their own IAPs or for other documents.

Before processing a "PRIORITY" document, it is recommended that you contact the Facility in order to determine in which issue of RIE the item would be entered. If the schedule permits, the document can be shipped with the regular weekly shipment (but with a separate logsheet to identify it as "PRIORITY"). The resume for the priority document should be transmitted on the same scheduled day as your regular transmission, but it must be kept separate from the regular shipment. Please call Dan Kautz or Millie O'Donnell before your transmission is scheduled so that the record can be identified and pulled off for special handling.

...Carolyn Weller (ERIC Facility)

NETWORK NEWS

CE CONTRACT RENEWED

The ERIC Clearinghouse on Adult, Career, and Vocational Education (CE) has been funded for the third and final year of its current contract period. IAPs to be developed during this period include:

- Distance Education: Technologies and Systems for the Remote Delivery of Education
- Adult Literacy Education: Strategies and Techniques
- Adult Development Theories: Implications for Learning
- Labor Unions in Training and Development
- Occupationally Related Basic Skills Training
- Career and the Family

CE will also address the National Commission on Excellence in Education's recommendations concerning its subject area in a compilation of five papers which will "provide a research-based perspective of the issues and problems in achieving excellence in vocational education."

...Mildred Thorne (Central ERIC)

ERIC ONLINE DATABASE USAGE DATA OBTAINED BY INFOMETRICS, INC.

The online vendors (e.g., DIALOG, BRS, SDC) provide the generators of each of their databases with usage data pertaining to their particular database, but zealously guard against providing the same data in the aggregate.

Since many databases want to know where they stand relative to other databases or relative to the market as a whole, this has led to the formation of companies like Infometrics, Inc. that attempt to assemble this data via other channels. Specifically, Infometrics obtains the database billing data from some 550 user organizations, selected statistically to be representative of the entire user population.

This effort is supported by subscribers and NIE has become a subscriber in order to obtain the ERIC-related data. Under the terms of the agreement, each subscriber may promulgate the data pertaining to itself, but may not promulgate the data pertaining to the other databases covered by the study.

Since this statistical information about ERIC's online usage is of interest to virtually all components of the ERIC system, we have sifted through the first Infometrics report (August 1983) and extracted just those lines pertaining to ERIC. (See Attachment 1.) The Table and Column Headers have been retained as they are in the original report. Where the meaning of the data is not obvious, we have appended some explanatory footnotes. (See Attachment 1 - Footnotes.)

Generalizations

The following generalizations can be made about the data pertaining to ERIC.

1. ERIC is used most via DIALOG (about 74%), secondarily via BRS (about 25%), and least via SDC (about 1%).
2. ERIC is the second most used database offered by BRS (behind NLM).
3. ERIC is the second most used database offered by DIALOG (behind Chemical Abstracts).
4. In revenues, ERIC ranks 7th on the BRS list and 13th on the DIALOG list. This is attributable partially to the low hourly rate charged for ERIC (because no royalties need be paid to the Government).
5. Among all databases and all online vendors, ERIC ranks 4th in total connect time and 13th in total revenues.
6. Among social science databases ERIC is the most used, with usage amounting to three times the second-most used database (PSYCINFO).
7. Within Academia, ERIC is the second most used database (behind MEDLARS).
8. Within Government, ERIC is the second most used database (behind MF'LARS).
9. Within Industry, ERIC is the 15th most used database.
10. Within Public Libraries, ERIC is the fourth most used database.
11. Within regions of the U.S., ERIC ranks in usage as follows: (1) West, (2) Northeast, (3) North Central, (4) South.

...Ted Brandhorst (ERIC Facility)

PERSONNEL NEWS

DR. YFF LEAVES ERIC, JOINS ICET

Effective October 3, 1983, Dr. Joost Yff has joined the staff of the International Council on Education for Teaching as its director for program development. All of the Clearinghouse staff will miss his expertise and his concern for the betterment of the Clearinghouse and the system. While he will be fully involved with ICET activities, we will continue to see much of him, since his office will be in Suite 616, adjacent to the Clearinghouse offices.

Until the appointment of the new director, Michael Butler will serve as acting director.

...Francie Gilman (SP)

NEW CLEARINGHOUSE PUBLICATIONS

CH	DESCRIPTION
EC	<u>The Underserved: Our Young Gifted Children.</u> Edited by Merle B. Karnes. \$15.00. The purpose of this book is to: emphasize the need for early identification; foster commitment to early educational programming; and review research, expert opinion, and current practices. Contents explore identification, conceptual models, teacher qualifications, curriculum, affective development, creativity and play, role of the family, and evaluation. The audience includes teachers, administrative and supervisory personnel, teacher trainers, students, and parents.

ACTION ITEMS

DEPARTMENT OF EDUCATION DOCUMENTS—A REMINDER

In the January 1983 EAB, I noted that Department of Education documents, selected for RIE, should be processed as quickly as possible. Despite that "Action Item," in recent weeks we have noticed several instances of Department of Education documents taking 4-6 months from the time they are sent to the Clearinghouse to the time they are shipped to the Facility for input to RIE. Since these documents do not require Reproduction Releases, it is difficult to imagine an excuse for such a delay.

A reminder, therefore, please, in the future, see that Department of Education documents do not experience delays and are processed as soon as possible.

...Chuck Hoover (CERIC)

PUERTO RICO STATE CAPACITY BUILDING PROJECT REQUESTS ERIC DIGESTS

The Puerto Rico State Capacity Building Project has requested that the ERIC system provide them with a full set of ERIC Digests (ERIC Fact Sheets). They have indicated that they will, then, translate selected Digests into Spanish and provide ERIC with copies of the translations. To that end, we are requesting that each ERIC Clearinghouse send a full set of its Digests to:

Puerto Rico Department of Education
Dissemination Capacity Building Project
Attn: Ms. Maria Agosto
P.O. Box 759
Hato Rey, Puerto Rico 00919

...Judi Conrad (CERIC)

CATALOGING ADVISORY—EXTRACTS, SUMMARIES, DERIVATIONS, ETC. FROM LARGER DOCUMENTS

ERIC Digests are often attempts to "boil down" much larger documents to a one- or two-page format. A problem arises for the cataloger of an ERIC Digest as to how to reference the larger document being winnowed down.

In general, the best place to put this information is in the NOTE field. Since the process of shortening the larger document is done in different ways, it is often best to use the same language as the creators of the Digest. Some examples follow:

NOTE_ Based on "Education and Society," by John Jones, see ED 123 456.

NOTE_ Excerpted from "Education and Society," by John Jones, E., see ED 123 456.

NOTE_ Derived from "Education and Society," by John Jones and Mary Smith, see ED 123 456.

NOTE_ Summarized from "Education and Society," by John Jones and others, see ED 123 456.

On occasion, the information of this nature may be so detailed or lengthy, or so closely related to other information contained in the Abstract, that it becomes too much for the poor little NOTE field and is better incorporated in the ABST field. An example of such a message is as follows:

ABST_ This ERIC Digest summarizes advice for improving parent/teacher communication contained in three documents prepared by John Jones of Central Midwestern University: (1) AAAAA (ED 123 456); (2) BBBBB (ED 234 567); and (3) CCCCC (ED 345 678). Jones' studies lead him to believe that....

Whether the information is placed in the NOTE field or in the ABST field, it should be kept as short, simple, and direct as possible. Follow the models provided in this advisory in order to have the information presented in a consistent way. It is recognized, of course, that variations in cataloging such information will be called for, as the cataloger adjusts to the individual characteristics of particular documents. Nevertheless, if we follow the guidelines presented here, much of the unnecessary variation we are now experiencing can be avoided.

...Ted Brandhorst (ERIC Facility)

CATALOGING ADVISORY—ORYX PRESS ADDS DESCRIPTIVE NOTE FIELD TO LIST OF PERMISSIBLE CIJE DATA ELEMENTS

Beginning with the January 1984 issue of CIJE, Oryx Press has added the Descriptive Note (NOTE::) field to the list of data elements that may be cataloged in preparing a CIJE resume.

The ERIC Facility has long requested this change in order to have a way to keep non-subject information out of the CIJE annotation.

Examples of information that should now be placed in the NOTE field and not in the annotation or elsewhere are:

- Journal availability information, e.g., publisher addresses for obscure one-shot journals
- The "Theme" name, when the issue being selected from has an overall theme
- "Related" accessions
- Conference presentation information, if felt desirable to retain

In short, virtually any of the kinds of information that are typically found in the RIE Note field may now be placed in the CIJE Note field.

The relevant ERIC Processing Manual (EPM) documentation will be revised accordingly. In the meantime, beginning with CIJE input for the January 1984 issue, Clearinghouse catalogers may begin to use the Note field in accordance with the above examples.

...Ted Brandhorst (ERIC Facility)

DOCUMENT PREPARATION—COVERS VERSUS TITLE PAGES

The ERIC Processing Manual (p. V-171) suggests that when a document has a cover and title page that are identical, then one or the other can be dispensed with during document preparation in order to avoid completely redundant filming.

Unfortunately, many Clearinghouses are destroying covers or title pages that, while somewhat repetitive of one another, are not identical.

Since these actions, if left as is, would either lose important cataloging information or a unique and often integral part of the document (e.g., cover art work), the Facility has been spending an inordinate amount of time trying to reverse many of these actions. It is particularly difficult to rehabilitate a cover when it has been defaced with non-eraseable ink.

Clearinghouses are, therefore, requested to forward the entire document unless there is a strong reason for eliminating a given page. A cover or title page should be removed only if:

- the cover and title page are identical; or
- either the cover or title page are of such a color (e.g., red on red) that it can't be filmed successfully; or
- the cover is essentially blank, e.g., a "window" type cover.

In the last two instances, care must be taken to ensure that all information on a discarded cover or title page is already present on, or is added to, the cover or title page that is retained.

If none of these conditions exist, then the Clearinghouse should simply let both the cover and title pages go through as filmable pages.

...Ted Brandhorst (ERIC Facility)

NETWORK NEWS

LAB AND CENTER COMPETITION DELAYED

The Institute's Lab and Center recompetition, the largest grant and contract competition of its type ever conducted by the Department of Education, has been delayed by Congress and will be conducted in fiscal year 1985.

However, planning for the project will proceed, based on statements made by Congressional leaders. Secretary T. H. Bell and Dr. Justiz endorsed the action as an opportunity to gain more input from the field on the conduct of the competition. [Please note that input is encouraged and that this is a chance for ERIC Directors to make a case for coordinating existing ERIC dissemination activities with Lab and Center efforts.]

"This delay does not mean that the Department has to cease all its planning activities," said Sen. Mark Hatfield, chairman of the Senate Appropriations Committee, in an October 20 speech on the Senate floor.

"The bill language does not prevent the Secretary from planning the competition, meeting with his advisory committees, conducting a bidders' conference, or publishing rules and regulations, if he so desires," the senator said.

Sen. Hatfield said the postponement was made "primarily to remove the competition from an election year."

"Many of our members have received expressions of concern that this competition, representing approximately \$150 million worth of discretionary funds, would likely become entangled in election-year politics," he said.

Sen. Hatfield noted the competition "represents the largest ever mounted by the Department of Education" and that it will "chart the course of our federal research effort in education for five years." He said it is "far too important to become enmeshed in the political climate of a major election year."

"I am fortunate to have two of the NIE-supported institutions in my own state of Oregon. They conduct high-quality research and provide valuable services to the school districts in the Northwest region of the country. I am confident that they will fare well in a fair and open competition in fiscal year 1985," he concluded.

That same day, Rep. Silvio Conte, R-Mass., ranking member of the House Appropriations Committee, reiterated that planning could continue and that the competition would be held in fiscal year 1985.

"It is my understanding that this language is not intended to preclude all activities relating to the recompetition, but will permit certain activities in preparation for the recompetition which is now to take place in fiscal year 1985," Rep. Conte said.

The congressman said his committee will work together with Sen. Hatfield's panel, the NIE, and the Department to define what those planning activities should entail.

Rep. Conte participated with Dr. Justiz and Harvard officials in announcing the designation of Harvard as the site for the School Technology Center September 30.

Here at the Institute, meetings are being held to develop positive and constructive approaches to the matter. Recommendations will be forwarded to the Department and to leaders of both spending committees.

...Manual J. Justiz, Director
National Institute of Education
[Submitted by Jim Prevel (CERIC)]

CONGRESS APPROVES \$48.2 MILLION IN FUNDING FOR NIE IN 1984

Included in the legislation affecting the Lab and Center competition was the Institute's fiscal year 1984 appropriation. The amount approved by Congress for FY 1984 was \$48.2 million—a 13 percent decrease from the \$55.6 million the institute received in FY 1983.

The bill did not specify where the cuts should be made. The director's office is in the process of determining how to make the most effective use of the appropriation for the improvement of American education and will recommend possible courses of action to the Department shortly.

The funding reduction is consistent with budget cuts being made throughout the government in an effort to bring the monstrous, growing federal deficit of \$200 billion under control. Many economists feel that it's essential that the government continue to cut spending in order to hold down interest rates and preserve the economic recovery.

So even though a funding decrease like this is a little hard to swallow, we're certainly not alone at NIE. Many other Federal agencies are facing similar reductions.

A Senate appropriations subcommittee had voted in September to appropriate \$44.2 million to the Institute. However, the full Senate Appropriations Committee later restored the President's request of \$48.2 million.

...Manual J. Justiz, Director
National Institute of Education
[Submitted by Jim Prevel (CERIC)]

PRACTICE FILE (PF) PROJECT REPORT

Phase III of the Practice File (PF) Project has ended and a status report has been prepared by the Project Director (see Attachment 1).

Of particular note for Clearinghouses is a request from SMERC that Clearinghouses be on the watch for certain types of documents not yet represented well enough in the Practice File input.

...Kathy Clay (SMERC)

ALA YEARBOOK WRITINGS ON ERIC

Each year the ERIC Clearinghouse on Information Resources prepares a summary on ERIC for the ALA Yearbook. A draft copy of the summary covering calendar 1983 (to be printed in the 1984 Yearbook) is displayed in Attachment 2. This write-up is always the first place that ERIC year-end statistics can be found.

...Kevin Arundel (CERIC)

REPORTS ON EDUCATIONAL REFORM (AND THEIR RECOMMENDATIONS)

The December 6, 1983 issue of Education Daily (p. 9-10) contained an interesting list of reports dealing with educational reforms, together with brief mention of some of their major recommendations.

With the idea that this list would be of interest to the ERIC Clearinghouses, Central ERIC has asked that it be included with this EAB as Attachment 3.

...Kevin Arundel (CERIC)

ANNUAL REVIEW OF THE ERIC CLEARINGHOUSE ON COUNSELING AND PERSONNEL SERVICES

The Annual Review of the ERIC Clearinghouse on Counseling and Personnel Services conducted November 16, 1983 was particularly informative. It would seem that there were two reasons for the special success of this review:

- First, the review document was well organized, complete, and contained a brief perspective on the state of the counseling and personnel services field, focusing the discussion on the unique problems and challenges of this particular year. Members of the Central ERIC staff are not always subject specialists, therefore presentations on Clearinghouse subject areas are extremely helpful and genuinely appreciated because they facilitate proper referral of subject area questions to the appropriate Clearinghouses.
- Secondly, Garry Walz presented the year's work in terms of "Debits, Pluses, and New Vistas" (i.e., "Problems," "Advantages," and "Potentials"). This approach helped the CERIC staff to understand and, therefore, better evaluate where the Clearinghouse has been in the past year and where it ought to go in the coming year.

Because the Annual Review document is now considered the major report document produced by the Clearinghouses and because the annual review is the only time throughout the year that Clearinghouses can command the attention of the entire CERIC staff, Clearinghouses are encouraged to take advantage of this opportunity to communicate the unique aspects of their particular operations.

...Judi Conrad (CERIC)

TARGET AUDIENCE DATA ELEMENT TO EVENTUALLY BE PRINTED IN RIE CITATION

Central ERIC has expressed the view that the Target Audience data element is potentially of considerable value to the user (manual or computer searcher) and should, therefore, eventually be printed in the RIE citation.

Since this new data element (with RIEJAN84) is just coming into use by all components of the system, the Facility (with CERIC's concurrence) is planning to allow a period of three months for everyone to "settle in" to using the element in a clear and consistent manner before it is added to the printed RIE citation. Meanwhile, the Facility will calculate the impact of printing this data on the overall page size of RIE for the year.

Clearinghouse catalogs should ensure that the "Audience" decisions they are now beginning to make are supported by hard evidence in the document itself. If there is no clear statement or supporting evidence of the author's intended audience, no entry should be made for the Target Audience data element.

...Ted Brandhorst (ERIC Facility)

PUBLICATION TYPE COVERING COMPUTER SOFTWARE

Some of the documents recently submitted for announcement in RIE have been actual computer programs, i.e., the coded program instructions in printed form. In some cases the entire document has consisted of the software; in other cases the software has been an attachment or appendix.

There have been enough documents of this type to lead us to believe that their number is on the increase and that a Publication Type to identify them would be useful. A recommendation was therefore made to Central ERIC that "Computer Programs (101)" be added to the Publication Type scheme. Approval to implement this addition was recently received and the Facility is in the process of making the necessary revisions to the relevant ERIC Processing Manual (EPM) pages.

It is estimated that this new PUBTYPE code can be implemented beginning with the April 1984 issue of RIE, but please don't start using it until you receive the actual EPM pages.

...Ted Brandhorst (ERIC Facility)

ETS TEST COLLECTION

The ETS Test Collection is now described in a bibliographic database accessible via the BRS SPIN/SPIF system.

ETS has prepared a brief notice to this effect and the notice is displayed here for the benefit of the Clearinghouses, as Attachment 4.

...Ted Brandhorst (ERIC Facility)

BRS PROVIDES ACCESS TO "TARGET AUDIENCE" DATA ELEMENT

In the November 1983 issue of the BRS Bulletin, (p. 5), BRS announced how it will provide access to ERIC's new Target Audience data element (please see article to the right).

When queried about the appropriateness of using the Identifier field for a non-subject data element, BRS replied that ERIC has reached the limit on the number of distinct data elements that BRS will permit and that the data had to be placed with one of the existing data elements. Their detailed explanation of this unfortunate circumstance appears as Attachment 5.

...Ted Brandhorst (ERIC Facility)

New Target Audience Information On ERIC

The Identifier (ID) field of ERIC citations will contain important target audience information where appropriate. ERIC target audiences include

- Policymakers
- Researchers
- Practitioners
 - Administrators
 - Teachers
 - Counselors
 - Media Staff
 - Support Staff
- Students
- Parents
- Community

The major target audience "Practitioners" the largest single audience, has been subdivided into five specific categories. The user may search the generic term "practitioners" in order to retrieve all subcategories, or may search any subcategory heading individually.

Target audience designations are assigned to documents aimed at a particular group. The term "Policymakers" might be assigned to materials targeted at school boards, legislators or trustees. Such materials could include feasibility studies or National Commission reports.

The designation "Researchers" could be considered applicable to research reports or statistical compilations aimed at statisticians, surveyors, experimenters or analysts. "Practitioners: Administrators" might be assigned to administrative guides, handbooks, laws or program evaluation guides aimed at superintendents, supervisors, principals or deans.

These examples reflect common, rather than universal applications, and should by no means be regarded as comprehensive. Be sure to sign-on to ERIC and investigate this new target audience information.

/DE VERSUS /DF IN THE DIALOG SYSTEM

There has been some confusion amongst users concerning the proper use of the /DE and /DF commands when searching via the DIALOG system. The documentation on ERIC and on searching in general, prepared by DIALOG, is not as explicit as it could be on this matter.

In order to illustrate exactly how these different commands (or absence of commands) operate, we have prepared hypothetical searches on two sets of terms.

Search #1 is on the word "Training," and is done in three ways:

- with no command,
- with the /DE command,
- with the /DF command.

"Training" is a word that appears both as a Descriptor by itself and as part of many other multi-word Descriptors.

Search #2 uses the only two terms in the ERIC Thesaurus that contain the string "Special Education." One term is the Descriptor "Special Education" (a "full" Descriptor, complete as is) and the second term is "Special Education Teachers." These two terms are first searched in the same three ways as Search #1 was, i.e.:

- with no command,
- with the /DE command,
- with the /DF command.

Each of these searches is then repeated using the free-text operator "(w)" between the words of the terms.

The search results are displayed in Attachment 6, together with explanatory notes that describe exactly what each command achieved. In order to fully demonstrate the functioning of these commands, we have performed various set combinations at the end of the searches and have prepared a graphic illustration of the sets to aid in visualization.

The following points emerge from this demonstration:

- The meaning of "/DF" is "Descriptor, Full" and it should be used only with single-word Descriptors to restrict hits to the appearance of that word only as a full Descriptor and not as a part of other multi-word terms.
- The command "/DE" directs searching to be done only in the Descriptor field, and permits free-text searching of that field. It should be used only when searching for the same character string in two or more Descriptors. If a single word is searched for with this command, then the searching process will be in effect a free-text search, i.e., searching for that particular character string wherever it appears in the Descriptor Field, by itself or as part of a multi-word Descriptor.
- Searches on multi-word Descriptors do not require either the /DE or /DF commands. The very fact that the terms are input as multi-words and without any free-text operators is sufficient to cause the computer search system to examine only the index term fields and to treat the multi-word terms as full Descriptors or full Identifiers.

...Ted Brandhorst (ERIC Facility)

ORYX PRESS ERIC-RELATED PRODUCTS

Oryx Press produces and sells a number of ERIC-related products. No single brochure or advertising sheet lists all these products and their prices. As a matter of fact, prices for some of the products can actually be hard to find.

Since the ERIC Facility responds to thousands of reference inquiries every year, many of which involve these Oryx products, we decided to create our own single-page "fact sheet" listing these products, their prices, and their postage costs.

The result appears in this EAB as Attachment 7. All the data on this sheet have been verified with Oryx.

The Clearinghouses are urged to duplicate and use Attachment 7 as needed in their reference/user services work.

...Ted Brandhorst (ERIC Facility)

NATIONAL ASSESSMENT OF EDUCATIONAL PROGRESS (NAEP) PUBLISHES COMPREHENSIVE BIBLIOGRAPHY OF NAEP DOCUMENTATION FOR THE PERIOD 1969-1983, BASED ON ERIC DATABASE

In October 1983, NAEP published a comprehensive 237-page bibliography announcing 575 documents and journal articles dealing with NAEP produced either directly by NAEP or by others. The bibliography represents a record of the accomplishments of NAEP during the period it was housed at the Education Commission on the States (ECS). It is arranged basically by specific assessment, e.g., "Third Reading Assessment," "Second Mathematics Assessment," etc. Publications by NAEP are listed separately from those by external organizations. Subject, Institution, and Personal Author indexes are provided.

This compilation was based on documentation collected across the fourteen year span (1969-1983) for the ERIC database, serving as an archive of significant domestic education documents. Most of the documents listed in the compilation may be obtained through the ERIC Document Reproduction Service (EDRS).

The NAEP bibliography entitled "National Assessment of Educational Progress 1969-1983: A Bibliography of Documents in the ERIC Database" and edited by Theodore Pratt, is announced in the January 1984 issue of Resources in Education (RIE).

...Ted Brandhorst (ERIC Facility)

ERIC THESAURUS 10th EDITION ORDER FORM

Oryx Press has prepared an order form for the new 10th edition of the Thesaurus of ERIC Descriptors, scheduled for publication in January 1984. The price has been set as \$45 if prepaid, otherwise, \$45 plus postage and handling. See Attachment 8 for a copy of this form. Clearinghouses are encouraged to reproduce the form as needed in order to respond to reference inquiries.

...Jim Houston (ERIC Facility)

SUPERFILE AS A TOOL FOR DOWNLOADING AND LOCAL CLEARINGHOUSE FILE MAINTENANCE

SUPERFILE is a free format information retrieval software package from FYI, Inc. It has been tested by the staff at JC, working together with William Burgess, and me, as a possible means of maintaining a searchable subset of ERIC on local media such as floppy disks, and of keeping bibliographic information and other types of text-heavy records related to Clearinghouse local files. Attachment 9 consists of an extended description of how SUPERFILE works and how it might benefit Clearinghouse local operations.

...John Brosseau (FL)

ERIC MEETS WITH PUERTO RICAN CAPACITY BUILDING STAFF

Representatives from the Puerto Rico Dissemination Capacity Building Project met with HE's Laura Casal on October 18 in a two-hour meeting that helped bring them up-to-date with what ERIC has to offer. Laura gave them a general ERIC briefing, described RIE and CIJE processing, and demonstrated online searching, including the answering of several requests the visitors had received from their own users, but were unable to answer.

Unlike the higher education users in Puerto Rico that HE has met with in the past, the Capacity Building people were relatively unfamiliar with ERIC and other computerized retrieval systems. They welcomed the chance to spend time with Laura.

Participants were:

- Maria Agosto, Project Director
- Sonja Casteneda, Project Coordinator of the PR Capacity Building Project
- Susan Talley, NIE monitor of the project.

...Lynn Barnett (HE)

STATE DEPARTMENT REQUEST: HIGHER EDUCATION GLOSSARY FOR EUROPE

At the request of the State Department via the Department of Education, Lynn Barnett of the ERIC Clearinghouse on Higher Education recently contributed to the Study on Terminology of Higher Education in Europe, sponsored by the European Centre for Higher Education (CEPES) in Bucharest. CEPES is affiliated with UNESCO. The study was co-sponsored by the International Association of Universities.

The aim of the study was to identify higher education terminology in order to compile a "GLOSSARY OF HIGHER EDUCATION that will help promote university exchanges, particularly to stimulate the mobility of students, teachers and researchers as well as [to recognize] studies, diplomas, and degrees in Europe."

Each participant (HE included) was asked to fill out a lengthy questionnaire, identifying terms commonly used in his or her own country in such categories as Governing and Administrative Bodies, Academic Staff, Students, Access and Admissions. Nearly 350 terms were identified by HE in the main and sub-categories. In response to CEPES' request for definitions and references for each term listed, HE cited the Thesaurus of ERIC Descriptors as the American authority for educational terminology and sent a copy of it along with the questionnaire responses.

The publication date of the GLOSSARY OF HIGHER EDUCATION is still unknown, but it will contain English, French, and Russian term equivalents.

...Lynn Barnett (HE)

FAKE IAPs

Times are tough all over and some faculty may be taking the old adage "publish or perish" to heart. HE recently had an unfortunate experience that other Clearinghouses might also look out for.

After receiving a call for a price check from the Chronicle of Higher Education for one of "our" books, we did some additional checking. It seems that an RIE contributor had forged a memo with Carla Krepplein's signature and sent it, along with his document, to the Chronicle for announcement in the newspaper's new publications section. His memo said (over the forged signature) that the ERIC Clearinghouse on Higher Education considered the report to be, in essence, the best thing since sliced bread. We were fortunate to have been called by the Chronicle and to have caught it. The Chronicle, obviously, did not announce it. However, it was merely the call and Carla's good memory that prevented the false announcement. The author had included on this title page the following:

"An ERIC Monograph,
ERIC Clearinghouse on Higher Education"
(with our address)

When we originally processed the document for RIE, we had simply taped over the above "misconception" so that it wouldn't appear in the microfiche version.

Maybe the lesson in this is that ERIC has truly come of age and that authorship of an IAP is (as we have always thought) a prestigious accomplishment.

...Lynn Barnett (HE)

BESTnet JOINS EDLINE

Since August 1982, the ERIC Clearinghouse on Information Resources has been a member of BESTnet, an electronic mail system instituted by Project BEST (Basic Education Skills through Technology). The purpose of BESTnet is:

- to familiarize its members with the technology of electronic mail, and
- to facilitate the exchange of current information on the planning and use of the latest technologies in order to enhance the effectiveness of basic skills teaching and learning.

Forty-one state education agencies, the U.S. Department of Education, the Department's ten regional dissemination offices, and several other organizations comprise the membership of BESTnet.

On October 1, the SOURCE took over the electronic mail arrangements from Stanford University, providing BESTnet users (now known as EDLINE on the SOURCE) with a much broader audience and enriched information capabilities such as AM and PM daily editions of educational news, daily federal legislation, "WHAT'S NEW IN RESEARCH," and a user bulletin board. For information concerning membership, contact Virginia Santucci at the National School Public Relations Association (703) 528-5840.

...Jane Klausmeier (IR)

ERIC INFORMS THE MASS MEDIA

The ERIC Clearinghouse on Elementary and Early Childhood Education continues to receive and respond to requests for information from representatives of the newspaper, magazine, and television media.

Telephone requests were recently received from Time-Life, the Washington Post, the Dallas Times-Herald, Venture magazine, Sietegias (Seven Days, an Argentine magazine), and from CBS television.

Topics for which information was requested were:

- latchkey (self-care after school) children
- infant day care
- effects of preschool experience on later development of children
- open space classrooms
- the effect of television viewing on children's reading.

...Norma Howard (PS)

TECHNOLOGY CORNER

JASIS ARTICLES CONCERNING VIDEODISCS

The November 1983 issue of the Journal of the American Society for Information Science (vol. 34, no. 6) includes a special section on "Videodisc and Optical Disk: Technology, Research, and Application," edited by Lois F. Lunin and Judith Paris. The articles included in the section are:

- "Introduction and Overview"
Lois F. Lunin
Pages 406-07
- "Basics of Videodisc and Optical Disk Technology"
Judith Paris
Pages 408-13
- "Information Providers and Videodisc/Optical Disk Technology"
Emily Galloway and Judith Paris
Pages 414-16
- "Instructional Videodisc"
Greg Kearsley
Pages 417-23
- "Retrieving Information with Interactive Videodiscs"
Joan M. Sustik and Terrence A. Brooks
Pages 424-32
- "Videodisc Research at the MITRE Corporation,"
Harry Strong and David H. Lehman
Page 433

- "Optical Disk for Digital Storage and Retrieval Systems"
Denis A. Rose
Pages 434-38

- Suggested Readings: Pages 439-40

Of particular interest for ERIC staff will be the articles by Paris, Sustik and Brooks, and Rose.

...Barbara Wildemuth (TM)

PERSONNEL NEWS

GRACE SUNDSTROM TO RETIRE

Grace Sundstrom, the Acquisitions Librarian at the ERIC Facility, will retire as of February 3, 1984.

Grace has been with the ERIC Facility in the acquisitions function since 1974. She has fifteen years with ORI, Inc., ten of which have been with the ERIC Facility.

No doubt the most considerate and diplomatic member of the Facility staff, Grace is universally respected by the Clearinghouse staff, has served on numerous committees (including the ERIC Technical Operations Committee), and has made numerous ERIC technical conference presentations.

Routinely bringing in some 6,000-7,000 documents a year for consideration by the Clearinghouse selectors, Grace has had a tremendous impact on the makeup of the ERIC database over the years.

We will greatly miss her calm competence and stabilizing influence, but we can understand her desire to slow down and smell the flowers a bit more.

Those of you who have known and worked with Grace are encouraged to call or write her during January to wish her well.

...Ted Brandhorst (ERIC Facility)

ELIZABETH ASHBURN NAMED DIRECTOR OF SP

David G. Imig, Director of the American Association of Colleges for Teacher Education, announced in a letter to the ERIC network that Dr. Elizabeth (Betsy) Ashburn, has been named Director of the ERIC Clearinghouse on Teacher Education. The letter appears as Attachment 10.

...Ted Brandhorst (ERIC Facility)

BERNARD O'DONNELL, 1929-1983

Dr. Bernie O'Donnell, Director of the ERIC Clearinghouse on Reading and Communication Skills, died of cancer at his home on Friday, October 28, 1983. He was one of the original ERIC directors and served the system over the years in many capacities. He served as a member of the Executive Committee of the Council of ERIC Directors for 8 years, was a member of the headquarters staff of the National Council of Teachers of English, helped to develop the current program of Regional Conferences on Teaching English in the Two-Year College, and represented NCTE on the National Committee on Copyright Revision, which contributed to creation of the Copyright Act of 1976.

Bernie was extremely valuable to the network as a hard worker and innovator, but he was also a man of great warmth and compassion. He will be sorely missed.

...[NCTE]

[A News Release from the National Council of Teachers of English entitled "Bernard O'Donnell Dies: Aided Development of Information System for Education" is appended as Attachment 11.]

LISA HOOGSTRA REJOINS AND KAREN WITTENAUER JOINS HE

HE is happy to announce the return to our staff of Lisa Hoogstra. She is serving as the new publications coordinator and is offering invaluable skills to general office operations.

In addition, HE welcomes Karen Wittenuer to the staff as a publications assistant. She will be working full-time for the Clearinghouse while attending George Washington University part-time to finish her Bachelor's degree.

...Lynn Barnett (HE)

DR. LILIAN KATZ APPOINTED TO INTERNATIONAL COMMITTEE

Dr. Lilian G. Katz, Director of the ERIC Clearinghouse on Elementary and Early Childhood Education, has been appointed a member of the Education Committee of the Council for the International Exchange of Scholars. This committee is responsible for screening applicants for Fulbright Awards. Dr. Katz' appointment is for three years.

...Norma Howard (PS)

KAISER-COOK AND SUSAN SOMMER JOIN SO

Kay Kaiser-Cook assumed the position of Clearinghouse editor October 15, 1983. She replaces Laurel Singleton, who has become an editor with a private publishing firm.

Susan Sommer has replaced Georgia Hauser as library assistant.

...Jim Davis (SO)

MOORE LEAVES TM

Because of a recent staff reduction. Cheryl Moore is no longer with the Clearinghouse. Barbara Wildemuth will assume her coordination responsibilities in document processing and vocabulary development.

...Barbara Wildemuth (TM)

WEBB RETURNS TO UD; ALLADICE LEAVES

After a leave of one year, Mr. Michael Webb has returned to the ERIC Clearinghouse on Urban Education as Assistant Director as of November 1, 1983. During his time away in Atlanta, Georgia, he continued to conduct ERIC workshops in the big city schools. For awhile, the Clearinghouse had an annex, ERIC/UD-Dixie, you might say.

Mr. Darryl Alladice has resigned as a full-time employee as of October 31, 1983. He is going to pursue his acting career. All questions relating to processing should be directed to Ms. Georganne Chapin; questions about acquisitions should be directed to Mike Webb.

...Erwin Flaxman (UD)

PRACTICE FILE (PF) PROJECT REPORT

Phase III of the Practice File (PF) ended with the selection of three Test Sites:

- INFORMS (Iowa State Department of Education)
- Wayne County, Michigan;
- NYCTC (New York City Teachers Center Consortium)

Personnel from those sites came to SMERC on September 26 and 27, 1983 to be familiarized thoroughly with the PF Project and the evaluation thereof. They are now searching the PF for their practitioner clientele.

Most ERIC Clearinghouses are now returning promptly the documents sent to them for approval/disapproval. Some are retaining documents sent to them as potential PF documents for their regular ERIC input. This, of course, is as it should be where potential PF documents are appropriate for regular ERIC input.

Most Clearinghouses are sending potential PF documents to SMERC for consideration for inclusion in the Practice File. We will continue to try to locate documents which represent all Clearinghouse scopes, and will continue to use the Clearinghouse Accession Numbers assigned to the project. After January 15, 1984, however, we will add to the PF all practitioner-oriented materials whether or not they uniformly represent Clearinghouse scopes. Consequently, we encourage all Clearinghouses to continue sending appropriate documents to us as soon as possible.

Twenty-five thousand (25,000) documents, located through a computer search of ERIC, were screened for inclusion in the PF. Of these, 14,470 were deemed practitioner-oriented and were tagged with PRACTITIONERS. These can now be located on DIALOG by the command TA=PRACTITIONERS. BRS and SDC have been requested to reload the ERIC file with this "TA=" modification, but as yet they have not done so. The DIALOG reload was complete and operational on October 10, 1983. All ERIC users are encouraged to use this new search capability when appropriate.

As of the end of November 1983, the Practice File has acquired 961 documents; has selected 488 documents; has processed approximately 300 documents. The remainder are out for Clearinghouse review, awaiting Reproduction Release, awaiting processing, etc. We have many documents (a plethora) of the following types:

- Fact Sheets/Ready References/Tip Sheets
- Research Summaries and Syntheses
- Resource and Background Materials
- Annotated Bibliographies
- Promising Practices

We have few documents (a dearth?) of the following types:

- Units of Study/Lesson Plans
- Games/Puzzles/Simulations
- Worksheets/Task Cards
- Pictorials (Bulletin Board ideas, etc.)
- Public Relations Materials

(See the acquisitions and Selection Plan for definitions of the above.)

We are having some difficulty in assigning documents to a specific category; e.g., where does a curriculum guide containing games, puzzles, lesson plans, worksheets, etc. fit? But we are trying.

Continue being on the lookout for good practitioner-oriented documents, especially those that fit into the "dearth" categories above. The exception to this would be "Promising Practices," which is one of our high priority items, but only when the Promising Practice is replicable.

The most heartening and gratifying part of this project so far is the contact we've had with heavy and regular ERIC searchers and the reinforcement this contact has provided for our belief that practitioners do in fact want and need materials and resources for their day-to-day classroom and school site operations.

Our thanks to the Clearinghouses for their efforts to date.

...Kathy Clay (Practice File Project)

2739

ALA YEARBOOK, 1984

DRAFT OF WRITE-UP ON ERIC
(WITH YEAR-END STATISTICS)

By

Barbara Minor and Don Ely

The Educational Resources Information Center (ERIC) is an information system funded through the National Institute of Education (NIE) that provides access to the literature of education not usually available through normal channels, e.g., research reports, project descriptions, evaluations, bibliographies, conference proceedings and papers, curriculum guides, and speeches. Through a decentralized network of 16 clearinghouses, materials on all aspects of education are collected and processed for inclusion in the database and announcement in the monthly index, Resources in Education (RIE). The clearinghouses also monitor more than 700 journals and select articles from them for announcement in another monthly index, Current Index to Journals in Education (CIJE).

On the average, 1,200 documents are announced monthly in RIE, and the 13,627 documents processed in 1983 bring the total number of documents announced to 226,076 from the inception of the system in 1966 to the end of 1983. The full text of 95% of these documents is made available on microfiche; of these, about 14% are available only on microfiche, but the remaining 86% are also available in paper copy from the ERIC Document Reproduction Service. The microfiche are also available in some 779 libraries and information centers that subscribe (or have subscribed) to the ERIC Microfiche Collection. Journal articles announced in CIJE average 1,400 per month, and the 18,324 announced in 1983 bring the total to 286,200 since the first issue of CIJE in 1969. There are about 4,000 subscribers to RIE, approximately 1,000 of whom are foreign, and 1,800 subscribers to CIJE. Microfiche sold on subscription total more than 16,000,000 annually.

Publications. Systemwide publications produced during 1983 include the tenth edition of the Thesaurus of ERIC Descriptors, which will be published by Oryx Press in January 1984. This edition will reflect approximately 700 changes since the ninth edition (published in 1982), including more than 200 new searchable main terms. The tenth edition will list a total of 9,076 terms; of these, 5,086 are main terms, 3,865 are synonyms (use terms), and 125 are invalid descriptors (used at one time but no longer in use).

ERIC Clearinghouse Publications 1982, the 13th in a series of annotated bibliographies of major clearinghouse publications, lists 181 documents produced by the 16 clearinghouses and the ERIC Processing and Reference Facility and announced in RIE in 1982.

2740

The 1983 update of the Directory of ERIC Microfiche Collections (last published in 1980) lists 779 collections. Of these, 89 are in government agencies at various levels, 544 in institutions of higher education, 25 in public libraries, 27 in other not-for-profit organizations, 1 each in a for-profit and an international organization, and 92 in foreign agencies and institutions.

ERIC Clearinghouse on Information Resources at Syracuse University has available a subscription service to MICROsearch, a microcomputer database of selected portions of the ERIC file. The two regular series of quarterly updates cover clearinghouse input on educational technology and on library/information science. Two additional special disks prepared during the year contain citations on "Computer Literacy" and on "Microcomputer Hardware and Software Evaluation" from the entire database over a period of several years.

Database Activities. The Education Practice File, which is being developed under an NIE contract with the San Mateo Educational Resources Center (SMERC), with cooperation from the ERIC Clearinghouse for Social Studies/Social Science Education and the ERIC Processing and Reference Facility, as reached the operational stage. About 15,000 items in the ERIC database have been tagged as being of special interest to educational practitioners and about 1,200 examples of new types of materials are being entered in the files as well. This addition to the ERIC system will be evaluated by computer searchers in New York City Teacher Centers, Wayne County, Michigan, and the Iowa State Department of Education, as well as at SMERC and ERIC/SO. New items for the Practice File appeared for the first time in the December issue of RIE.

In addition to the Education Practice File tags, a new field has been added to RIE entries that indicates the "target Audience." Categories include Policymakers, Researchers, Practitioners (Administrators, Teachers, Counselors, Media Staff, Support Staff), Students; Parents, and Community. An additional Publication Type has also been added for multi-lingual documents, i.e., publications in which essentially the same content is presented in more than one language, such as bilingual readers with alternating pages in English and another language. A Note field has been added to CIJE and will appear for the first time in the January 1984 issue.

Technical. ERIC is one of a number of databases now being made available for searching after regular business hours at a reduced rate and using modified search techniques by DIALOG Information Services—"Knowledge Index"—and Bibliographic Retrieval Services, Inc.—"BRS After Dark."

Current Status. Despite reduced funding by NIE, ERIC continues to be one of the most frequently used databases according to vendors' reports. The database is being maintained even though publication and service programs have been reduced. Studies show that users continue to spend about \$7.00 of their own money for every \$1.00 spent by the Federal Government in support of ERIC.

REPORTS DEALING WITH EDUCATIONAL REFORM

Page 9

EDUCATION DAILY

December 6, 1983

WHAT THE EXPERTS SAY: A LISTING OF REPORTS ON REFORM

■ Education reform was put on the map by the most heralded of the recent reports, A Nation At Risk, by the National Commission on Excellence in Education. The brief document, released in April, cites the now-familiar "rising tide of mediocrity" in curricula, teaching standards and time spent on learning. The panel recommends stiffer high school graduation standards, longer time spent in school, a career ladder system for teachers, increased student testing and higher college admission standards, among other things (ED, April 27). Copies of the report are available for \$4.50 each from Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

■ The Carnegie Foundation for the Advancement of Teaching released in September a report on American high schools that says most are not doing much more than surviving. For 10 percent to 15 percent of their students, high schools provide an outstanding education, Carnegie says. But 20 percent to 30 percent of high school students just mark time in school and ultimately drop out (ED, Sept. 16). A group of 25 educators visited 15 high schools from coast to coast for a month, interviewing and observing students, teachers and administrators to produce the 300-page report, High School. The work, which was funded by the Atlantic Richfield Foundation and the Carnegie Corp., is published by Harper & Row and is available in bookstores for \$15.

■ An upcoming report on public and private high schools says a "clustered curriculum" would help the learning process by reducing the number of students a teacher encounters in a given day. Theodore R.Sizer, former dean of education at Harvard University and author of A Study of High Schools, calls for an end to putting students in grades by age, maintaining that intellectual, social, moral and physiological growth cannot be measured simply in years (ED, June 9). Sponsored by the National Association of Secondary School Principals and the Commission on Educational Issues, the first volume of the report will be issued in 1984, with a history of high schools since 1940 and a summary volume to follow. For more information, contact the research department at the National Association of Secondary School Principals at (703)860-0200.

■ The College Board in 1980 initiated a 10-year study aimed at developing a consensus on the "essential" skills high school students need to prepare for college. The latest report of Project EQuality outlines seven areas students should study in high school: English, the arts, mathematics, science, social studies, foreign language and computer science (ED, May 12). The College Board will continue to release findings of the project as they become available. For copies of Academic Preparation For College: What Students Need to Know and Be Able to Do, write to the College Board, Office of Academic Affairs, 868 Seventh Ave., New York, N.Y. 10106.

■ A presidential panel in September recommended that the federal government play a key role in ensuring adequate precollege math and science training. The report of the National Science Board Commission on Precollege Education in Mathematics, Science and Technology advocates a federal investment of \$1.5 billion the first year and about \$1 billion afterwards to set up exemplary schools and programs in math, science and technology and for retraining teachers (ED, Sept. 14). Single copies of the report, Educating Americans for the 21st Century, are available free from the NSB Commission, 1800 G St. NW, Washington, D.C. 20550.

■ Mortimer Adler, the director of the Chicago-based Institute for Philosophical Research and chairman of the Board of Editors of Encyclopaedia Britannica, is the father of the Paideia Proposal, which was developed by 35 educators and philosophers. The Paideia Proposal, named after the Greek word for humanistic learning,

(more)

Page 10

EDUCATION DAILY

December 6, 1983

WHAT THE EXPERTS SAY: A LISTING OF REPORTS ON REFORM (Cont.)

calls for a one-track system of education, giving all students, college-bound or not, the same quality of schooling (ED, Aug. 11, 1982). The Paideia Proposal: An Educational Manifesto is available in most bookstores or can be obtained by sending \$6.95 for clothbound or \$2.95 for paperback to MacMillan Publishing Co. Inc., 866 Third Ave., New York, N.Y. 10022.

■ Governors in every state should set education as their top priority for 1984 and make education the recipient of any extra revenues, says a report released by a task force of the nation's governors. Sponsored by the Education Commission of the States, 13 governors sat on the 41 member Task Force on Education for Economic Growth, producing the report, Action for Excellence (ED, June 23). Copies are available for \$5 from the ECS Distribution Center, 300 Lincoln Tower, 1860 Lincoln St., Denver, Colo. 80295, (303)830-3800.

■ John I. Goodlad, dean of the graduate school of education at the University of California at Los Angeles has been studying schooling for several years, visiting some 1,000 classrooms. Several books are expected to result from Goodlad's observations, although a comprehensive report has been released, titled A Place Called School. Goodlad recommends, among other things, that elementary schooling begin at age 4, with secondary schooling ending at age 16 (ED, Dec. 1). The book, which was published by McGraw-Hill, is available in bookstores for \$18.95.

■ The Business-Higher Education Forum of the American Council on Education released a report in April called America's Competitive Challenge. The report focuses on ties between industry and education, offering suggestions on fostering better business-higher education relationships. Copies of the report are available for \$17.50 prepaid; those wishing first-class mail delivery should add \$2.50 to the check to the Business-Higher Education Forum, 1 Dupont Circle NW, Suite 800, Washington, D.C. 20036.

■ A panel of educators recommended school improvements that could almost double the \$6 billion a year the federal government spends on elementary and secondary education. The Twentieth Century Fund Independent Task Force on Federal Education Policy: Making the Grade concluded in May that low-achieving students should receive intensive remediation in individualized programs and that five-year "master teacher" grants should be extended to outstanding teachers in every state. One of the chief goals of American education should be literacy in English, the report says. Copies of the study are available for \$6 each prepaid from the Twentieth Century Fund, 41 East 70th St., New York, N.Y. 10021.

■ The Education Commission of the States published a 1983 School Improvement Book that lists education initiatives in each of the 50 states. Research for the report came from the Ford Foundation and the Spencer Foundation. Copies may be obtained for \$6 from the Distribution Center, Education Commission of the States, Suite 300, 1860 Lincoln St., Denver, Colorado 80295.

■ The Southern Regional Education Board formed a 17-member task force to compare the problems and needs of education at the elementary, secondary and higher education levels. The Need for Quality, which was released by The Task Force on Higher Education and the Schools in 1981, contains recommendations for higher education officials and school administrators in the South. A large section of the study is devoted to teacher education (ED, July 8, 1981). Copies of the report are available for \$3 each prepaid from SREB, Publications Dept., 1340 Spring St. NW, Atlanta, Ga. 30309.

EDUCATIONAL TESTING SERVICE

PRINCETON, N J. 08541

609-921-9000
CABLE-EDUCTESTSVC

Finding tests with selected characteristics is now very easy. Complete descriptions of over 5,000 tests are available to test users at most college and school libraries. Any library with a computer terminal can search these test descriptions through BRS, a commercial vendor of databases, and help test users find information about the tests they need.

The Test Collection at Educational Testing Service prepared the descriptions found in the BRS database. The tests described include measures of achievement, aptitude, intelligence, interests, personality, sensory-motor skills, special populations, vocational-occupational areas, and more. The descriptions include the test title, subtests, author, year of publication, indexing terms, availability, grade levels, age levels, number of items, time required, and an abstract describing these and other pieces of information in more detail.

Descriptions of new tests will be added to the database quarterly.

For information on how to access the Test Collection database through BRS, contact Michael Kremin, BRS, 1200 Route 7, Latham, NY 12110, (518) 783-1161 or Marilyn Halpern, Test Collection, Educational Testing Service, Princeton, NJ 08541, (609) 734-5737.

Mr. Ted Brandhorst, Director
ERIC Processing and Reference Facility
4833 Rugby Avenue
Suite 301
Bethesda, MD 20814

Dear Mr. Brandhorst:

The article in the BRS Bulletin on the new target Audience was simply intended to let our users know how to find Target Audience Information in the BRS version of ERIC, and that is in the ID field. As we discussed, BRS has a limitation on number of paragraphs for a database, and ERIC is at that limit. Although Target Audience is not, in fact, a real identifier as far as you are concerned, it was felt by both Customer Service and Quality Control that this was the most appropriate place to put target audience, since it could not be a separate data element. To separate target audience data from other ID data, we have inserted the heading TARGET AUDIENCE: before each actual target audience term. Thus the 1st paragraph might appear:

ID IDENTIFIERS: California State Department of Education
TARGET AUDIENCE: Practitioners

This gives our users the capability of searching "target with practitioners" to uniquely identify all practitioners as the ERIC target audience designation, even though it had to be physically placed in ID.

I am forwarding a copy of your letter to Documentation so they will be sure and provide a detailed explanation in our next ERIC guide, in our Training Syllabus etc.

Please don't hesitate to question me further.

Sincerely,

A handwritten signature in cursive script that reads "Bette Brunelle".

Bette S. Brunelle
Director

BB/car

cc: Alison Cuyler, Manager ERS Documentation

2745

/DE VERSUS /DF IN THE DIALOG SYSTEM

I. SEARCHING USING A SINGLE-WORD TERM

1. S TRAINING (58,585 hits)	The single word "Training" is searched for in <u>any</u> field in the Basic Index, including Descriptor, Identifier, Abstract, and Title fields. This is referred to as free-text or full-text searching. It generates the largest volume of hits.
2. S TRAINING/DE (23,701 hits)	The single word "Training" is searched for <u>only</u> in the Descriptor field. It may appear either as the one-word term "Training" <u>or</u> as part of a multi-word term such as "Transfer of Training." This approach generates the second largest volume of hits.
3. S TRAINING/DF (2,550 hits)	The single word "Training" is searched for <u>only</u> in the Descriptor field. It may appear <u>only</u> as the one-word term "Training." Appearances as part of a multi-word term will be ignored.

II. SEARCHING USING A MULTI-WORD TERM

A. "Special Education"

4. S SPECIAL EDUCATION (3,974 hits)	The search system, detecting two distinct words without a (w) or other free-text operator, and without a field-to-be-searched designation, automatically searches the index term fields <u>only</u> , i.e., the Descriptor and Identifier fields. Since, in this case, "Special Education" doesn't exist as an Identifier, the search is the same as if "/DE" had been affixed at the end. If "Special Education" had existed as an Identifier, the hit levels would have been somewhat larger.
5. S SPECIAL EDUCATION/DE (3,974 hits)	Searches the Descriptor field for this index term. Multi-word Descriptors, containing this character string within them, such as "Special Education Teachers," will <u>t</u> be counted as hits.
6. S SPECIAL EDUCATION/DF (3,974 hits)	The command "/DF" should be used <u>only</u> with single-word terms. When used with multi-word terms, in the manner of this example, "/DF" is simply equivalent to "/DE".

B. "Special Education Teachers"

7. S SPECIAL EDUCATION TEACHERS (870 hits)	See note for Set #4.
8. SPECIAL EDUCATION TEACHERS/DE (870 hits)	See note for Set #5.
9. S SPECIAL EDUCATION TEACHERS/DF (870 hits)	See note for Set #6.

C. "Special" with "Education" (Free-Text Search)

10. S SPECIAL(w)EDUCATION (7,766 hits)	The search system detects two single words with a free-text operator. It therefore searches the Basic Index (including the Descriptor, Identifier, Title, and Abstract fields) for any appearance of these two words adjacent to each other (and in the sequence shown).
11. S SPECIAL(w)EDUCATION/DE (4,695 hits)	Searches the Descriptor field <u>only</u> for any appearance of these two words adjacent to each other (and in the sequence shown). Same as Set #5 OR'd with Set #8.
12. S SPECIAL(w)EDUCATION/DF (0 hits)	Since this string of characters (apparently including the "(w)") doesn't exist as a "full Descriptor," there are no hits for this specification. Even if both "Special" and "Education" had been valid single-word Descriptors, there would still have been zero hits.

D. "Special" with "Education" with "Teachers" (Free-Text Search)

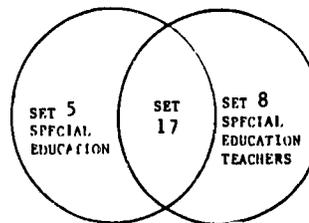

13. S SPECIAL(w)EDUCATION(w)TEACHERS (1,127 hits)	See note for set #10.
14. S SPECIAL(w)EDUCATION(w)TEACHERS/DE (870 hits)	See note for Set #11.
15. S SPECIAL(w)EDUCATION(w)TEACHERS/DF (0 hits)	See note for Set #12.

2748

E. Set Combinations

16. C 5 or 8 (4,695 hits)	4,695 items are indexed by <u>either</u> "Special Education" <u>or</u> "Special Education Teachers." Same as Set #11.
17. C 5 and 8 (149 hits)	149 items are indexed by <u>both</u> terms mentioned above.
18. C 5 not 8 (3,825 hits)	3,825 items are indexed by "Special Education," <u>but not</u> by "Special Education Teachers."
19. C 8 not 5 (721 hits)	721 items are indexed by "Special Education Teachers," <u>but not</u> by "Special Education."
20. C 11 or 14 (4,695 hits)	Same as "Set #5 or Set #8." Same as "Set 16." Same as "Set 11."
21. C 11 and 14 (870 hits)	Same as "Set #8." Same as "Set #14."

<u>SET</u>	<u>HITS</u>
5	= 3,974
8	= 870
5 or 8	= 4,695
5 and 8	= 149
5 not 8	= 3,825
8 not 5	= 721

Announcing publication of the new 10th edition of the definitive vocabulary for education

Dear ERIC user

The Thesaurus of ERIC Descriptors contains the definitive vocabulary of education. It lists the terms used in the ERIC system in indexing and abstracting education literature and is indispensable in searching *Current Index to Journals in Education* and *Resources in Education* as well as the ERIC computer database.

Oryx Press is proud to announce publication of the 10th edition of the Thesaurus of ERIC Descriptors. This new edition contains 9,076 vocabulary terms. Other features include:

- 680 changes from the 9th edition
- 228 new Descriptors and 231 new USE references
- Several hundred modifications of scope notes and cross-references
- Sturdy cloth reinforced binding, designed to stand up to the Thesaurus's continual heavy use!

Developed under the auspices of the Educational Resources Information Center (ERIC) of the National Institute of Education (NIE), the Thesaurus of ERIC Descriptors reflects ERIC's years of monitoring educational literature.

Make sure you have ready access to the hundreds of thousands of documents cited in this literature. Use the order form below to order your copy of the Thesaurus of ERIC Descriptors, 10th edition, today.

Sincerely,

Dick DeBacher
Director of Marketing

SUPERFILE AS A TOOL FOR DOWNLOADING AND LOCAL CLEARINGHOUSE FILE MAINTENANCE

How SUPERFILE Works

SUPERFILE organizes discrete records of any length into a searchable file or database in the following manner:

1. Records are created on the user's word processor. A record may be a page of text, a bibliographic citation, or alphanumeric information organized in virtually any manner.
2. Each record is assigned key words by the user, which are put in an index file to facilitate retrieval. For practical purpose, the keywords for a given record may be thought of as equivalent to its descriptors plus its identifiers.
3. SUPERFILE organizes the records with keywords into a database which can be searched and updated (by appending information from another word-processor-created file).
4. Records can be retrieved from the database using keywords combined with the standard Boolean operators AND, OR, and NOT. Records may be retrieved in full or in a short format. Database files may be sorted in their entirety so that searches will also be output in sorted order; however, automatic sorting at search time is not available.

Ease of Use and Reliability

SUPERFILE is amazingly easy to use, especially if one has any experience with a range of microcomputer software, some of which seems to have been written for members of another species. I was able to put it through a test of virtually all its features (and to understand what I was doing) in less than an hour. Furthermore, SUPERFILE did everything the manual claimed it would do. The only thing I was not able to test was its effectiveness on large databases, since I hadn't the time to key or reformat a large number of records. I suspect that file size only becomes a problem when one is impatient with the generally slow disk-read/write operations characteristic of microcomputers. The manual claims that SUPERFILE will search approximately 100 records per second.

Usefulness in Making Downloaded Files Searchable

I will assume that a user interested in searching a downloaded file will have already solved the problem of capturing the desired ERIC citations on a local medium (hard or floppy disk), and will be starting with an ASCII file full of citations, but without any software to search it with. Unfortunately, SUPERFILE will not automatically recognize descriptors and identifiers as keywords to be put in a SUPERFILE index. In fact, there are several things missing from the "raw" file that SUPERFILE must have:

- a a beginning-of-record marker before each new citation
- a a short format terminator
- a a beginning-of-keyword marker
- a a "/" between each keyword
- a an end-of-record marker.

While each marker is simple and straightforward ("C" for beginning of record), manually going through and making these textual changes on more than a few citations with a word processor is not a practical approach to maintaining searchable downloaded files. The only way to make it practical would be to write a program that automatically reformatted the text, preferably at download time; this is possible, but requires fairly advanced programming skills.

Usefulness in Maintaining Local Files

First, let me make it clear that SUPERFILE is not a database management system. The closest thing to that in the microcomputer world of which I'm aware is DBaseII by Ashton-Tate, which FL uses to maintain local document records. With Dbase II, we can write programs that automatically do the counting and calculating necessary for the acquisition statistics in quarterly and annual reports and the like; furthermore, document records can be retrieved using many points of access, since each record is divided into fields, and a file can be indexed on any and every field. This is not a plug for DBaseII, which is far from a world-beating program, but merely an illustration of available and rather standard database management features which SUPERFILE will not perform. SUPERFILE's big advantage is that it doesn't care how long records are or whether or not they're all of the same length. Therefore, you can include abstracts and even full-text information in a record and not worry that short records will take up as much storage as the longest possible record. DBaseII's fixed record length and limited field size make inclusion of extensive narrative information in a record impractical.

Conclusions

SUPERFILE is an excellent and easy-to-use file manager for text-heavy files in which retrieval is likely to be via subject-related keywords. ERIC descriptors and identifiers map nicely onto the keyword area of SUPERFILE records, and in fact the problem of controlling the search vocabulary has already been solved for us. If a clearinghouse wants to maintain an extensive local bibliographic file in which records will be keyed at the clearinghouse (and not downloaded), and if the main utilization of the file is likely to be record retrieval by combinations of keywords, then SUPERFILE should prove a good choice for a file management package.

Additional Information about SUPERFILE

SUPERFILE will run on any Z80-based system running CP/M, or on any 8086/88-based system using MS-DOS 1.1 or MS-DOS 2.00 (such as the IBM PC and its "work-alikes"). It will not run on an Apple unless it is equipped with a CP/M card, or on a TRS-80 unless it is running CP/M.

A SUPERFILE database may have up to about 65,000 records. The total number of characters is limited only by available storage, if floppy disks are used, any single database may be stored on up to 255 of them. The most severe limitation of SUPERFILE is the number of keywords that can be used at one time, about 3000.

FYI promises to release very shortly a new package called FYI 3000, which uses the SUPERFILE concept, but overcomes the keyword limitation and adds many new features, including optional full-text indexing and better sorting utilities. I have been promised a review copy of FYI 3000 and will report here to potential users in the ERIC network any information that might be useful.

SUPERFILE may be ordered by sending \$195.00 to FYI, Inc., 4202 Spicewood Springs, Suite 204, Austin, Texas 78759. Telephone: (512) 346-0133.

...John Brosseau (FL)

AMERICAN ASSOCIATION OF COLLEGES FOR TEACHER EDUCATION
One Dupont Circle, Washington, D C 20036(202)293-2450

Dear

I'm pleased to announce that Dr. Elizabeth (Betsy) Ashburn, formerly associate director of the American Association of University Women, will become director of AACTE information services and the ERIC Clearinghouse on Teacher Education on December 19, 1983.

As director of the ERIC Clearinghouse on Teacher Education, Ashburn will supervise a staff of nine, responsible for gathering and processing educational literature in the teacher education and health/physical education/recreation scope areas. She will oversee activities in database building, information analysis, and user services in this important contract with the National Institute of Education.

As director of information services for the Association, Ashburn will develop and implement Association research programs, generate up-to-date demographic information on teacher education using available data bases and AACTE's data collection, and respond to the needs of the membership regarding information services.

Ashburn received her undergraduate training at Smith College and at the University of New Hampshire, and received her M.Ed and Ph.D in educational psychology at the State University of New York at Buffalo.

In her work with the ERIC Clearinghouse, Ashburn succeeds Michael J. Butler, acting director since the departure of Dr. Joost Yff.

Sincerely,

David G. Imig
Executive Director

BERNARD O'DONNELL DIES: AIDED DEVELOPMENT OF INFORMATION SYSTEM FOR EDUCATION

Bernard O'Donnell, 54, of Urbana, Illinois, died of cancer at home Friday, October 28. O'Donnell was director of the Educational Resources Information Center Clearinghouse on Reading and Communication Skills, based at the Urbana headquarters of the National Council of Teachers of English. He headed that clearinghouse and its predecessor, the Clearinghouse on the Teaching of English, from the founding of the English facility in 1967 until June of this year.

As a member for eight years of the Executive Committee of the Council of ERIC Directors, O'Donnell helped to develop the policies of the federally funded system of the Educational Resources Information Center operating out of the National Institute of Education in Washington, D.C. He aided in expanding that system's services to users.

O'Donnell was "one of the original directors of the Educational Resources Information Center, and has been a major contributor to the development and acceptance of this internationally known system," said Charles Hoover, assistant director of information resources, National Institute of Education.

"O'Donnell's efforts made greater resources in education available to people throughout the U.S.," said Robert Howe, director of the ERIC Clearinghouse on Science, Mathematics, and Environmental Education in Columbus, Ohio. "Ultimately, his work contributed to school improvement in the nation." Howe pointed out that O'Donnell served on the Executive Committee of the Council of ERIC Directors during years when funding problems, increasing need for services, and outside pressures made the committee's assignment difficult. "Bernie was a stabilizing factor during that time," Howe commented. "By providing humor and levity, he helped us keep our perspective. He drew on his experience of cooperating with the National Council of

Teachers of English to suggest ways all clearinghouses could work with associations. He brought about a very helpful dialogue."

O'Donnell also served as a member of the headquarters staff of the National Council of Teachers of English, as liaison for NCTE groups concerned with college teaching of English, research in the teaching of English, and other aspects of that discipline. He helped to develop the current program of Regional Conferences on Teaching English in the Two-Year College, and represented NCTE on the National Committee on Copyright Revision, which contributed to development of the Copyright Act of 1976.

He earned a master's degree in English from Columbia University in 1957 and a doctorate in English education from Harvard University in 1963. Before assuming the ERIC directorship at NCTE, he was an assistant professor at Ball State University, Indiana, and at the University of Iowa. He served as a visiting professor at the University of Illinois at Urbana-Champaign 1971-73. He is the author of a number of articles on curriculum trends and information storage and retrieval, which have appeared in education journals.

O'Donnell served in the U.S. Army, 1951-53. He was a member of the American Educational Research Association, the Modern Language Association, the Association for Educational Communication and Technology, the Association for Supervision and Curriculum Development, the National Conference on Research in English, the International Reading Association, NCTE, its affiliate, the Illinois Association of Teachers of English, and other education related organizations.

Born in Teaneck, New Jersey, July 26, 1929, O'Donnell is survived by his wife, Holly, nee Fiebelkorn, and a son, Erich, at home. Other survivors include two sons, Kelly, of Chicago, and Padriac, of Ridgefield Park, New Jersey; two daughters, Mrs. Colleen O'Donnell Ciaccio of St. Paul, Minnesota, and Erin of Ridgefield Park, New Jersey; his mother, Mrs. James E. O'Donnell of Danville, Pennsylvania, and two brothers, Joseph M. O'Donnell of Windsor, Connecticut, and James E. O'Donnell Jr., of New York City.

NEW PUBLICATIONS

CH	PUBLICATIONS/COMMENTS
PS	<p>The ERIC Clearinghouse on Elementary and Early Childhood Education has recently developed new resource lists on Day Care Standards and Certification and Children's Health and Nutrition, and new Short Reports on Microcomputers and Young Children and Assessing Preschoolers' Development, in response to increased user interest in these topics.</p> <p>Other resource list titles recently updated are: Child Development; Computers and Young Children; Early Childhood Education; Elementary Education; Infants; Kindergarten; and One Parent Families.</p> <p>PS is also pleased to announce the publication of two new books:</p> <ul style="list-style-type: none"> ● <u>Talks with Parents: On Living with Preschoolers</u> (\$6.95) <p>Collects 54 articles written originally for <u>Parents Magazine</u> by Dr. Lilian G. Katz, Director. These brief topical discussions will be of interest not only to parents and teachers of young children, but also to teachers in the fields of home economics, family life, and child development. In addition, day care providers and teacher trainers at the community college and college levels will find these articles relevant to real-life situations.</p> <ul style="list-style-type: none"> ● <u>What's Happening in Elementary School Classrooms? Research on Time Use, Classroom Operations, and Activity Management</u> (\$6.00) <p>Offers an in-depth discussion of these three important aspects of the school environment. Author Rhonda P. Ross cites over 125 recent studies and reports, providing access to information for further study and establishing a basis for informed decisionmaking by teachers, program planners, and administrators.</p>
RC	<p>Everett Edington, Director, ERIC Clearinghouse on Rural Education and Small Schools, co-authored "Research Synthesis: Teacher Preparation for Rural Schools," which appeared in <u>Research in Rural Education</u>, Volume 2, Number 1, Spring 1983.</p>

SO	<p><u>Law in U.S. History: A Teacher Resource Manual.</u> Melinda R. Smith, Ed., 333 pages, \$18.95</p> <p>New Fact Sheets:</p> <ul style="list-style-type: none"> ● "Behind a Nation at Risk: Papers of the National Commission on Excellence." Copies available from SO. ● "Teaching About Controversial Issues." Copies available from SO. ● "At Issue: Free Enterprise Education." Copies available from SO.
UD	<p>New reference tools from the ERIC Clearinghouse on Urban Education are:</p> <ul style="list-style-type: none"> ● <u>Guidebook to Hispanic Organizations and Information</u>, compiled by Ellen Meir and Maryellen LoBosco. The <u>Guidebook</u> profiles key organizations involved in the educational, cultural, social, and political concerns of Hispanic Americans and identifies information sources. ● <u>Urban Schools Bibliography 1982</u>, which is the fifth in a series. It contains 140 citations (from RIE for the period January-December 1982), which provide information on issues, programs, and practices in urban education. <p>The newest monograph in the <u>Urban Series</u> is <u>Women and Minorities in School Administration: Strategies for Making a Difference</u>, by Effie Jones and Xenia Montenegro (UDS #85). The paper investigates trends in the representation of women and minorities in school administration, the barriers facing these groups in obtaining administrative positions, and the strategies that can be utilized to overcome these barriers.</p> <p>Two other monographs in the <u>Urban Diversity Series</u> are <u>Home, School and Community in Adolescent Education</u> (UDS #84), by Francis Ianni, and <u>More Effective Schooling: From Research to Practice</u>, by Anthony Codianni and Gretchen Wilbur. Dr. Ianni's monograph combines a synthesis of the research literature with original fieldwork in a comparison of urban, suburban, and rural youth. The monograph prescribes methods of dealing with the transition from childhood to adulthood. In the second monograph, Codianni and Wilbur identify programs and practices making use of findings and recommendations that have grown out of the research on effective schools.</p>

MEETINGS/WORKSHOPS/CONFERENCES

CH	DATE	LOCATION	STAFF	COMMENTS
CE	October 21	Columbus, OH	Judy Wagner	<u>Conference Name: Central Ohio Teachers Association</u> Judy Wagner gave an overview of ERIC to school librarians attending the conference. Approximately 35 school librarians attended the session that included examples of how school librarians can use the system. As a result of the presentation, Judy Wagner will give a presentation at Bexley High School in February. The workshop will include an overview of ERIC with specifics on how and why it is of use to high school librarians. The inservice program will be open to librarians, teachers, and administrators of the Bexley school system.
CE	---	---	---	<u>Conference Name: ---</u> The staff of ERIC/ACVE participated in a series of computer workshops sponsored by the Information Systems Division of The National Center for Research in Vocational Education and conducted by the Instruction and Research Computer Center at The Ohio State University. Sessions were held on introduction to computers, office technology, electronic spreadsheets, and dBase 2. All of the Clearinghouse staff participated in some or all of the sessions.
CE	October 31- November 1	Boston, MA	Judy Wagner	<u>Conference Name: BRS User Meeting and seminar</u> The seminar was on end users and featured discussions by database producers, information specialists and end users. The user meeting included announcements of new products soon to be available through BRS, especially the new COLLEAGUE Educator and MCI Electronic Mail. There was also a review of the past year at BRS.

MEETINGS/WORKSHOPS/CONFERENCES (CONTINUED)

CH	DATE	LOCATION	STAFF	COMMENTS
EC	November 6-9	Philadelphia, PA	Don Erickson Lynn Smarte	Conference Name: <u>National Association for Gifted Children Convention</u> attendees who stopped by the ERIC exhibit booth expressed considerable interest in IAPs and user services products on preschool gifted, counseling gifted students, and the special needs of gifted underachievers and gifted students with learning disabilities. Attendance was estimated at 1,200.
IR	October 2-6	Washington, DC	Barbara Minor	Conference Name: <u>46th Annual Meeting of the American Society for Information Science</u> Barb Minor coordinated an ERIC exhibit with the generous (and greatly appreciated) assistance of volunteers from the Washington area and SMERC (Kevin Arundel and Pat Counter (CERIC), Kathy Clay (SMERC), Dorothy Beling (EC), Marilyn Shorr and Lynn Barnett (HE), Mike Butler and Francie Gilman (SP), and Grace Sundstrom (Facility)).
PS	September 11-13	Champaign, IL	Dianne Rothenberg	Conference Name: <u>Libraries and Microcomputers Conference and Microcomputer Fair</u> Dianne Rothenberg was a panelist for a discussion of educational and recreational uses of the microcomputer with preschool and primary school children. The conference, which was co-sponsored by the technical services divisions of the Indiana Library Association and the Illinois Library Association, was attended by more than 250 people. Norma Howard (PS) and Anne Auten (CS) represented ERIC at a booth, answered questions about using the ERIC system, and demonstrated searching using ERIC MICROsearch disks.

MEETINGS/WORKSHOPS/CONFERENCES (CONTINUED)

CH	DATE	LOCATION	STAFF	COMMENTS
PS	October 11-12	Chicago, IL	Mi Spencer Dianne Rothenberg	<p><u>Conference Name: Online '83 Conference and Exposition</u> The ERIC representatives demonstrated computer searching and answered search questions of attendees, talked with database producers and vendors, and attended sessions. Hundreds of conference participants visited the ERIC booth and seemed equally interested in the individual clearinghouse materials and the system-wide materials displayed. Microcomputing was a major theme of the conference and presenters emphasized particular hardware/software applications for information professionals.</p>
PS	October 12-14	Omaha, NB	Norma Howard	<p><u>Conference Name: Nebraska Library Association</u> Norma Howard presented two "ERIC Update" sessions at the annual conference. The conference was attended by more than 500 librarians and information dissemination specialists in Nebraska and northern Kansas. Among those attending the ERIC sessions were representatives of all five Nebraska microfiche collections in Omaha, Kearney, Lincoln, Chadron, and Wayne.</p>
RC	---	Santa Fe, NM	---	<p><u>Conference Name: ---</u> RC conducted a workshop for state educational policymakers. The major purpose was to aid those agencies developing educational legislation to be aware of ERIC and how the information in the system can be utilized in their work. The major objectives were:</p> <ul style="list-style-type: none"> ● to be aware of ERIC as an information database for educational policymakers. ● to become acquainted with ERIC locations in New Mexico. (The primary source in Santa Fe is the New Mexico State Library.)

MEETINGS/WORKSHOPS/CONFERENCES (CONTINUED)

CH	DATE	LOCATION	STAFF	COMMENTS
				<ul style="list-style-type: none"> ● to know the steps necessary to obtain the necessary information to develop educational legislation. ● to discuss how they can cooperate with the ERIC Clearinghouse on Rural Education and Small Schools and the State Library for additional information. <p>Personnel from three agencies attended the workshop: (1) Legislative Educational Study Committee; (2) Governor's Office of Education; and (3) State Department of Education. Personnel from the Board of Educational Finance were unable to attend due to a conflict of schedule. An invitation will be sent to the executive secretary for his or her staff to visit the Clearinghouse for a similar briefing when they are on the New Mexico State University Campus. Participants ranged from those who had extensive knowledge of ERIC to those who had none. Some did not know that an ERIC collection existed at the State Library in Santa Fe.</p> <p>The major concern voiced was that once the abstracts were made available to them that they were limited on time to analyze the information. ERIC/CRESS offered two solutions to this problem:</p> <ul style="list-style-type: none"> ● that each of the state agencies concerned with developing educational legislation contract with the ERIC Clearinghouse at New Mexico State University for a certain number of analysis reports during the year. If each could come up with around \$3,000, a graduate assistant could be hired from a pool. This would provide a trained person to provide analysis of the information necessary for their legislative needs. ● Contract with the Clearinghouse each time they had a special problem with information analysis.

MEETINGS/WORKSHOPS/CONFERENCES (CONTINUED)

CH	DATE	LOCATION	STAFF	COMMENTS
SO	October 26-29	Hartford, CT	Frances Haley	<p><u>Conference Name: Northeast Regional Conference for the Social Studies</u> Frances Haley met with members of the ERIC/ChESS Regional Associate Network and Acquisitions Network, had a booth display, and gave a workshop on ERIC utilization. Twenty-five hundred educators attended the conference.</p>
UD	July 15	Jacksonville, FL	Michael Webb	<p><u>Conference Name: ERIC Information Seminar for the Duval County Public Schools</u> Thirteen computer searches were conducted and ERIC products were distributed. Participants were from the administrative offices of the district media departments and from Research and Evaluation.</p>
UD	September 21-24	Washington, DC	Michael Webb Darryl Alladice	<p><u>Conference Name: National Congressional Black Caucus Legislative Weekend</u> Approximately 400 people were in attendance; approximately 150 people stopped by the ERIC table. Clearinghouse and systemwide products were displayed and distributed. Messrs. Webb and Alladice attended seminars on the state of various issues facing the Black community, on recent legislative developments, and on Blacks in the media.</p>
UD	November 9-12	Chicago, IL	Michael Webb	<p><u>Conference Name: National Alliance of Black School Educators</u> Two hundred people stopped by the ERIC table; Clearinghouse and systemwide products were displayed and distributed. Mr. Webb took the opportunity to visit Hispanic organizations and the NAACP in the area in order to strengthen acquisitions contacts and to make some new ones.</p>

ACTION ITEMS

ACQUISITIONS DATA REPORT (ADR) SHIPPING SCHEDULE (A REMINDER)

The Acquisitions Data Report (ADR) is produced monthly, after input is received from all 16 Clearinghouses. In a number of instances, the Facility has been receiving input much later than would normally be expected. Please note that ADR input is required to be shipped on "...the last working day of the month...separately and via Certified Mail...." (EPM, IV-31). When a Clearinghouse is not open on the last working day(s) of a month (vacation, holidays, etc.), please ensure that the material is mailed before the Clearinghouse closes, rather than waiting until after it reopens.

The ADR shipping dates for 1984 are:

Jan. 31 (Tuesday)	May 31 (Thursday)	Sep. 28 (Friday)
Feb. 29 (Wednesday)	June 29 (Friday)	Oct. 31 (Wednesday)
Mar. 30 (Friday)	July 31 (Tuesday)	Nov. 30 (Friday)
Apr. 30 (Monday)	Aug. 31 (Friday)	Dec. 31 (Monday)

...Central ERIC

COMPLIMENTARY MICROFICHE SHOULD NOT BE SENT TO GOVERNMENT AGENCIES

On the bottom of EPM page II-23 appears the special note:

"Complimentary microfiche should not be sent to the following kinds of organizations: Congress, Department of Education, Government Printing Office (GPO), large organizations when the specific name of an individual or department is unknown."

Clearinghouses are reminded to observe this note. There have recently been several instances of complimentary microfiche being sent inappropriately to the Secretary of Education, Department of Education, or National Institute of Education.

...Frank B yars (CERIC)

NO NEED TO SEEK REPRODUCTION RELEASES FOR GOVERNMENT-SPONSORED DOCUMENTS

As incoming documents are reviewed at the ERIC Facility by Central ERIC, we are seeing a large number of instances where the Clearinghouse has sought a Reproduction Release for a document that was prepared on a Federally funded contract. This is an unnecessary action and can result in the loss of a lot of time. Please note the guidance on page II-40 of the EPM. If a document is Federally funded and does not carry a copyright notice, it may be processed directly into the ERIC database at Level 1 without benefit of Reproduction Release. (If a Federally funded document should have a copyright notice, or other copyright-related problem, the Clearinghouse should check with Central ERIC before proceeding with processing.)

...Frank Bryars (CERIC)

NETWORK NEWS

DUPLICATES IN RIE INPUT CONTINUE TO INCREASE

In 1983, the number of duplicates detected by the Facility in RIE input totalled 106. This reflects an increase of 35 (or 50%) over the amount (71) found in 1982.

In 1984 input, the rate continues to increase. Through the first shipment for RIEMAR84, the Facility has already found 37 duplicates.

The primary reasons for duplicates appear to be the following:

- Soliciting and/or processing documents from organizations having standing acquisition arrangements with other Clearinghouses (or the Facility), i.e., failure to check the Acquisitions Arrangements List.
- Failure to clear NIE or Department of Education documents with the Facility or Frank Bryars.
- Apparent failure to use the monthly Acquisitions Data Report (ADR) or the Title Index during duplicate checking.

The following table summarizes the RIE duplicate statistics for the last four years. Your assistance in keeping the number of duplicates processed by ERIC to the "acceptable" range of 5-6 per issue would be greatly appreciated.

YEAR	TOTAL INPUT	NUMBER OF DUPLICATES DETECTED (PRIOR TO PUBLICATION)	AVERAGE DUPLICATES PER ISSUE	"GOOD" ACCESSIONS PER DUPLICATE
1980	15,993	80	6.67	200
1981	14,934	69	5.75	217
1982	13,823	71	5.91	195
1983	13,627	106	8.82	129

...Central ERIC

RIE BACK ISSUES AVAILABLE

The ERIC Facility stocks back issues of RIE for the ERIC system and currently has an accumulation of copies on hand, some as far back as 1967. We would like to have these copies put to good use by the ERIC Clearinghouses. If you have a worthy use for the back copies (to complete a collection, for workshop materials, for display or handouts at conferences, etc.) call or drop Al Hill a note at the Facility and request them. Be sure to specify any deadline dates so that the copies will reach you on time; and if you want multiple copies of a single issue, indicate that as well.

...Mildred Thorne (CERIC)

NATIONAL ASSESSMENT OF EDUCATIONAL PROGRESS (NAEP) DECIDES TO DISCONTINUE SCHEME OF APPENDING CERTAIN STANDARD PHRASES TO RIE ABSTRACTS

During the period the NAEP was located at the Educational Commission of the States (ECS), special arrangements were made with ERIC to add certain standard phrases to the RIE abstracts that described, according to an internal NAEP scheme, the kind of NAEP data to be found in the document.

Now that the NAEP has shifted location from ECS to the Educational Testing Service (ETS), the new NAEP management has decided to discontinue this practice. Page V-94 of the ERIC Processing Manual (EPM) will be changed to reflect this decision.

NAEP wishes to continue, however, the practice of indexing NAEP-related documents by "National Assessment of Educational Progress," as well as by the specific assessment involved (see EPM pages VIII-2-18, 19).

. .Ted Brandhorst (ERIC Facility).

ERIC FACT SHEET

The latest ERIC Fact Sheet for January 1984 is displayed as Attachment 1.

...Elizabeth Pugh (ERIC Facility)

DR. JONATHAN FIFE—HONORS AND ACTIVITIES

Dr. Jonathan Fife, Director of the ERIC Clearinghouse on Higher Education, was recently notified that he will be included in the next edition of Who's Who in America.

Dr. Fife was inducted in December to Omicron Delta Kappa, a national leadership honor society. The society was founded in 1914 at Washington and Lee University to recognize students, faculty, and administrators demonstrating "leadership of exceptional quality and versatility." The induction ceremony was held at George Washington University.

Dr. Fife was interviewed in October by the Voice of America regarding the procedures and criteria for getting admitted to colleges and universities in the United States. We look forward to hearing about it in 56 foreign languages!

...Marilyn Shorr (HE)

BRS ANNOUNCES NEW DATABASE FOR EDUCATORS

BRS has announced the availability of a new file: "Resource Organizations and Meetings for Educators" (search label ROME). The ROME file provides descriptions of hundreds of research and professional organizations, advocacy groups, and other non-profit agencies involved in education and related

disciplines. Subfiles include descriptions of meetings, projects, and products which are produced and sponsored by each educational organization. The principal search aid for ROME is the Thesaurus of ERIC Descriptors. The file will be updated quarterly and contains 3,569 records as of December 1983. ROME is royalty free, with an online citation charge of \$.03 for TI or AB. The producer is the National Center for Research in Vocational Education, 1960 Kenny Road, Columbus, Ohio 43210. Contact Carl Oldsen at (614) 486-3655. The ERIC Clearinghouses are included as entries in the ROME database.

...Pamela W. McLaughlin (IR)

PS REPRESENTS ERIC AT THE NATIONAL FORUM ON EXCELLENCE IN EDUCATION

Approximately 2,300 invited educators, legislators, and policymakers attended the National Forum on Excellence in Education on December 6-8, 1983 at the Indianapolis Convention Center. Among those at the Forum were governors, state legislators, college presidents, superintendents, principals, teachers, parents, and some high school students.

Four staff members from the ERIC Clearinghouse on Elementary and Early Childhood Education exhibited for the ERIC system. Each Clearinghouse was represented by brochures, publication lists, ERIC Digests, and two IAPs.

Computer searches of ERIC were offered as a free service at the booth with searchers busy at three computer terminals almost constantly when sessions were not being held. Many of the visitors were familiar with ERIC, but others discovered the database for the first time. Two staff members from the ERIC Clearinghouse on Reading and Communication Skills assisted at the booth on the afternoon of December 7.

President Reagan spoke to the Forum and cited the need for better discipline, control of alcohol and other drug abuse, prayer in schools, more respect and money for teachers at all levels, and the rights of parents to make choices about educating their children through vouchers and tax credits.

Representing ERIC at the Forum was useful when measured in terms of the number of people served and the number introduced to the ERIC system. In addition, the exhibit staff had a unique opportunity to talk directly with policymakers, educators, and representatives of agencies and institutions from many states and to learn firsthand about current educational problems and proposed solutions.

...Mima Spencer (PS)

DR. LILIAN KATZ APPOINTED TO INTERNATIONAL COMMITTEE

Dr. Lilian G. Katz, Director of the ERIC Clearinghouse on Elementary and Early Childhood Education, has been appointed a member of the Education Committee of the Council for the International Exchange of Scholars. This committee is responsible for screening applicants for Fulbright Awards. Dr. Katz' appointment is for three years.

...Norma Howard (PS)

TECHNOLOGY CORNER

TRAVELHOST PUTS VIDEOTEX TERMINALS IN HOTEL ROOMS

Travelhost, Inc. has designed a small terminal with a built-in modem, microcomputer, video generator, and tone generator for attachment to hotel room TV sets. The terminal will permit travellers to connect with the Travelhost central computer (provided by ITT Dialcom in Silver Spring, Maryland), via UNINET, and obtain a variety of videotex-type services (e.g., electronic mail, travel reservations, restaurant reservations, etc.). A complete "Application Note" on the effort, prepared by Micro Switch, the developer of the touchpanel keyboard, is provided as Attachment 2.

ERIC FACTS

I. USAGE STATISTICS (ESTIMATED)*

A. Institutions in U.S. providing access to ERIC products	3,269
B. Usages of ERIC resources (Annually)	2.7 million
C. ERIC bibliographic records retrieved in searches and provided to clients (Annually)	30 million
D. Annual expenditure by institutions to support distribution of ERIC resources to users	\$26 million
E. Total annual expenditure for the development, distribution, and use of ERIC resources in U.S. (only 4.1% provided by the Federal government)	\$136 million

II. ABSTRACT JOURNAL SERVICES
A. Resources in Education (RIE)

1. Subscriptions (primarily libraries, including approximately 1,000 foreign)	4,000
2. Documents announced in RIE	
a. Monthly (Average)	1,200
b. Annually (Current Level)	14,000
c. To date (1966 through December 1983)	226,076
3. Documents Evaluated Annually for Possible Announcement in RIE	35,000

B. Current Index to Journals in Education (CIJE)

1. Subscriptions	1,800
2. Journals Covered	760
3. Journal Articles Announced in CIJE	
a. Monthly (Average)	1,500
b. Annually (Current Level)	18,000
c. To date (1969 through December 1983)	286,200

III. DOCUMENT REPRODUCTION SERVICES
A. Microfiche Collections

1. Organizations Currently Subscribing to Complete ERIC Microfiche Sets (including approximately 90 foreign)	725
2. Organizations Offering Significant ERIC Microfiche Collections for Public Access	779

Many of these statistics are constantly changing and therefore have been rounded off rather than made exact as of any one day.

B. Titles Filmed (less than 5% of current document input is copyrighted)

1. Monthly (per RIE issue)	1,150
2. Annually	13,500

C. Microfiche Cards Delivered Per Subscriber

1. Monthly (per RIE issue)	1,600
2. Annually	19,500

D. Sales

1. Microfiche Sold on Subscription (Annually)	16,000,000
2. Total Individual Document Orders Through 1980 (543,886 for microfiche; 503,938 for paper copy)	1,047,804

IV. DATABASE SEARCHING SERVICES

A. Subscriptions to ERIC magnetic tapes (via ERIC Facility) (including 10 foreign and all major online vendors)	40
B. Locations offering computer searches of ERIC files	700

V. REFERENCE SERVICES (NON-COMPUTERIZED)

A. Inquiries/Questions Answered Annually	
1. ERIC Facility	8,000
2. Clearinghouses (16)	80,000

VI. MISCELLANEOUS STATISTICS

A. Thesaurus Descriptors (as of 10th Edition, 1984)	
1. Main (Indexable) Terms	5,086
2. Synonyms	3,856
3. "Dead" Terms (valid at one time, but no longer)	134
4. Total Terms	9,076
B. Identifiers (as of Identifier Authority List, March 1983)	33,300
C. Information Analysis Products (IAPs) produced by ERIC Clearinghouses (1967-1982)	4,016
D. Organizations/Institutions Represented by Documents in the ERIC Database (Source Directory)	27,000

APPLICATION NOTE

Videotex Hits the Road

MICRO SWITCH
Division of Honeywell, Inc.
Freeport, Illinois

The weary business traveler, alone at last in the hotel room, touches a few flat switching stations on a trim keyboard terminal sitting in front of the television set. In a few moments he has entered the day's orders into the home office's computer and received an inventory and shipping update; he has gained access to and answered a private electronic mailbox; he has changed airline reservations because of new business demands; he has ordered some presents for his family at good rates and has checked the menu at a nearby restaurant where he will join customers later in the evening.

This may read like a scene from a futuristic novel; but it is happening today thanks to a new 24-hour, interactive videotex network developed by Dallas-based Travelhost, Inc. The Travelhost terminal, which complies with the new international DIN standard for angle and height, weighs only 2 lbs. It has a built-in modem, a microcomputer, a video generator, a tone generator, and assorted other features. The terminal is assembled in Carrollton, Texas by Quazon Corporation.

The low-profile terminal uses an embossed, touch-panel keyboard from Micro Switch. Across the top of the traditional "Qwerty" keyboard are 10 menu key stations, which direct the traveler to messages, news items, stock listings, jobs, airlines, dining information, games, and other data bases. "YES," "NO," and "HELP" key stations are located to the right of the alphanumeric keyboard.

A great deal of human-factors engineering has been used in the design of the Micro Switch touch-

panel keyboard; the graphics design, the placement of the keys, audible feedback, backspacing to correct errors, and the muted colors of the board combine to make communications easy for the traveler.

An auto log-on sequence and the ease of data-base selection also facilitate the use of the system. To the left of the Qwerty key stations are credit card selection positions. A built-in electronic credit-approval process permits direct billing to the customer's credit card at month's end.

Use of the Travelhost network will cost travelers 34 cents per minute during peak time (daytime) and as little as 17 cents per minute during the night. There is a \$3.00 minimum fee. The hotel also receives a share of the fee from Travelhost when the occupant uses the terminal. Travelhost is predicting 500,000 hotel rooms will offer its services by 1985.

The central computer for the Travelhost network is provided by ITT Dialcom and is located in Silver Springs, Maryland. Electronic credit card verification and authorization is done through First Data Resources, Inc. in Omaha, Nebraska. The communications link between the terminal and computer mainframe is provided by Uninet, Inc.

The terminal operates as a programmed learning sequence at every step. Although operating instructions are provided in printed form, the average non-technical person will find the network easy to use simply by following instructions given by the TV set. After turning on the TV set and setting the channel to 3 or 4 as directed, the user turns on the terminal. Turning on

the terminal disconnects the TV set from its local antenna and connects it into the Travelhost network automatically. The terminal automatically gains access to the local data network node and then transmits its data to the mainframe computer in Silver Spring through the direct-connect modem in the terminal. All of this happens without any user interaction, of course. The screen welcomes the user to the Travelhost network and provides the information the user needs to continue.

Upon verification of the credit card number entered into the system during the entry sequence and the selection of the menu function, the terminal is ready to go to work. The terminal continues to operate in any of the menu modes until the business at hand is finished. Movement from one data base to another is accomplished by pressing the appropriate key. A touch of the "off" key ends the transaction.

Throughout the connection process, the user can hear dial tones, ring-back, and busy signals through the TV set as the telephone connection is made. This audio feedback lets the user know that something is happening in the network at all times.

The Travelhost terminal was designed specifically for use in the lodging industry. A fully portable personal model for use at the home or office will be introduced later this year. Production of the units began in February 1983. The company expects to have 100,000 terminals installed in hotel rooms by the end of this year — making Travelhost the largest videotex network in the USA. □

NEW ERIC POLICY ON ANALYTICS

There has been some debate over the years as to whether analytics (defined as sections or chapters of a larger work treated as individual accessions) should be included in the ERIC database as separately filmed items, along with a filmed larger parent document. Among the "pros" on this issue are: it permits a user to obtain only that part of a larger document that is of interest, without having to order/pay for the whole document. Among the "cons" are: the same text is double-filmed (once as the parent and a second time as the analytic), i.e., the same text appears in the microfiche collection twice and microfiche subscribers must pay for it twice.

Central ERIC has decided that the convenience to the user of separately available items outweighs the double-filming issue and that, therefore, analytics should be available individually from EDRS in microfiche and/or paper copy. As a consequence of this policy decision, analytics should always be entered into the ERIC database at either Level 1 or Level 2; analytics should never be assigned Level 3 (except in very special cases, which should be discussed in advance with your monitor).

As before, documents being analyzed into separate parts should have chapters or sections which can stand relatively independently. That is, the sections or chapters should usually have: (1) different authors, and (2) significant topical differences (and hence different major index terms). In other words, there should be a strong justification for treatment of the section as an independent item, worthy of separate indexing and abstracting.

The major impact of this policy on Clearinghouses is that when a document is to be entered into ERIC as both a parent document and as a series of analytics, the Clearinghouse must either obtain two copies of the document or make copies of the sections analyzed. The submission to the Facility of independent documents for both the parent document and the analyzed parts will allow for filming the entire document under one accession number and the parts under their separate accession numbers.

The ERIC Processing Manual (EPM) will be changed to reflect this new policy.

...Central ERIC

USE (AND NON-USE) OF AUTHOR ABSTRACTS

Central ERIC is seeing more and more instances where a document contains an adequate author abstract, but that abstract is not utilized by the Clearinghouse and a completely new abstract is written. When this first came to our attention, we thought that probably the author abstract was found to be inadequate in some way, but later instances revealed on inspection that in many cases the author abstract was the superior abstract.

We don't know exactly why this is occurring. One supposition on our part is that with the increased use of free-lancers (who don't get paid for abstracting unless they actually do one) the tendency is for ERIC-prepared abstracts to be written no matter what may exist in the document.

We think the Clearinghouses need to keep an eye on this. Remember:

- An author abstract is much more economical.
- An author abstract doesn't leave you open to author complaints of misrepresentation.
- An author abstract doesn't leave you open to user complaints of misrepresentation.
- An author abstract gets the document through the processing cycle faster and results in faster announcements (on average).

The Clearinghouses are urged to use author-prepared abstracts when they are adequate!

NETWORK NEWS

STAFF ASSIGNMENT CHANGES AT CENTRAL ERIC

Judi Conrad has been made Special Assistant to Dr. Laurabeth Hicks, Associate Director for Dissemination and Improvement of Practice (DIP) at NIE. While we are sorry to have Judi leave the ERIC program, she will still be in the immediate vicinity and, we know, never really lose her ERIC family association.

With Judi's leaving ERIC, monitoring assignments for the Clearinghouses are being changed and the new/re-aligned assignments are:

Kevin Arundel	Monitor: EC, FL, IR, TM, UD
Pat Coulter	Monitor: HE, JC, RC
Sam Pisaro	Monitor: CG, CS, EA, PS, SO
James Prevel	Monitor: CIJE, EDRS, FACILITY
Mildred Thorne	Monitor: CE, SE, SP

FINDING GOOD EDUCATIONAL SOFTWARE/COURSEWARE FOR COMPUTERS

Quite often we have heard comments on how effective the computer can be in instruction, but there also seems to be a perennial problem on how to locate effective software/courseware. An article from Electronic Learning gives an update on where, at least, the process can begin, with reviews of the software/courseware's effectiveness. (See Attachment 1.)

...Kevin Arundel (CERIC)

TREND ANALYSES USING THE ERIC DATABASE

In the March 1984 issue of Online magazine, there is an article by Jack E. Hibbs, and others, entitled "How to Use Online Databases to Perform Trend Analysis in Research." The article makes heavy use of the ERIC database to illustrate its points and contains tables graphing ERIC announcements on the subjects of "Desegregation," "Busing," and "Magnet Schools" by year for the period 1966-1980.

While the emphasis of the article is on "Trend Analysis," its use of ERIC is substantial enough to make it of interest to the Clearinghouses and other students of the ERIC database.

PUBLICATION TYPES IN RIE

A statistical analysis of the RIE file through December 1983 reveals that the distribution of Publication Types remains remarkably stable. As compared to the same statistics through the previous years, the following categories increased their rank very slightly:

- Doctoral Dissertations (041)
- Evaluative/Feasibility Reports (142)
- Legal/Legislative/Regulatory Materials (090)
- Masters Theses (042)
- Opinion Papers (120)
- Serials (022)
- Teaching Guides (For Teacher) (052)
- Tests, Measurement Instruments (100)

The following categories lost rank very slightly:

- Bibliographies (131)
- Books (010)
- Creative Works (030)
- Directories/Catalogs (132)
- Instructional Materials (For Learner) (051)
- Journal Articles (080)
- Reference Materials—General (130)

To indicate the relatively slight changes that occurred, the two largest increases were 1.1% for Opinion Papers (120) and 1% for Conference Papers (150).

One new category entered the scheme: Multilingual/Bilingual Materials (171) and acquired 48 members in only a half year of operation.

The average number of Publication Types assigned per document is 1.3, as compared to last year's 1.2.

Attachment 2 provides a complete display of the RIE Publication Type statistics through 1983.

ERIC DIGEST REVIEW FORM

The ERIC Clearinghouse on Adult, Career, and Vocational Education has developed a form for use in reviewing the ERIC Digests. This form is presented as Attachment 3. Please feel free to use it as is or adapt it to your needs. See also Attachment 4 for five currently available ERIC Digests.

...Judy Wagner (CE)

EA INSTALLS LOCAL AREA NETWORK (LAN)

The ERIC Clearinghouse on Educational Management has installed a local area network (LAN) linking its microcomputers for greater efficiency. The LAN allows every computer (currently two Apple IIIs and an IBM PC) to access all printers, modems, and computers/monitors connected to the system. All that is needed to talk to any of these peripherals is communications software.

The system, a Sytek Localnet (a broadband communications system), represents the current state-of-the-art. It is installed on a one-month trial basis, during which time the Board of the Oregon State System of Higher Education will make a special visit to the Center for Advanced Technology in Education (of which the Clearinghouse is a part) to view the system in operation.

Clearinghouse Director Philip K. Piele, on sabbatical January through June of 1984 at Stanford University, returned to the Clearinghouse on January 16-18 to supervise installation of the network. The use of LANs in both instructional and management applications is a special focal point of Piele's sabbatical studies.

...Stuart C. Smith (EA)

EA BECOMES PART OF NEW TECHNOLOGY CENTER

On August 26, 1984, the ERIC Clearinghouse on Educational Management moved its offices in order to become a part of the new Center for Advanced Technology in Education made up of university, school district, state, community, and other agencies and organizations with an interest in technology in education. Located in a remodeled public school building on the edge of the University of Oregon campus, the center's functions include training and research and development in the use of computers and other advanced technology in the schools.

Other agencies in the building include the International Council for Computers in Education, the Career Information System, the College of Education's Technology Laboratory, and the Eugene School District microcomputer training center. There will also be a resource library made up of ERIC materials, books and journals relating to computers in education, and other materials. There will be a microcomputer laboratory containing at least 20 microcomputers and its own software library, and facilities will be available for classes and workshops. A computer graphics area will be under the auspices of the School of Architecture and Allied Arts.

The staff at ERIC/CEM is very excited about being a part of a center of expertise, networks, and resources that has the potential to make a significant contribution to education's growing use of computer technology. (ERIC/CEM's address remains the same.)

...Jo Ann Mazzarella (EA)

FL ABTRACTOR PHONES IN HER WORK

Margot Eddy, who has been doing CIJE annotating and indexing for FL for some time, is now using her newly acquired Apple microcomputer to write her resumes and transmit them to FL's IBM PC via telephone. This saves FL the time needed to key her resumes from scratch and permits us to do all editing online. Let's just say that we wish all abstractors, IAP authors, etc. had communicating micros!

...John Brosseau (FL)

WAGNER WINS PRIZE IN SEARCHING CONTEST

Judy Wagner won third prize in a searching contest sponsored by Management Contents (MC). The objective was to find the single record in the MC database that fit 6 clues that were given.

...Judy Wagner (CE)

SYLVIA O'CONNOR NEW ACQUISITIONS COORDINATOR AT PS

Sylvia O'Connor has joined the staff of the ERIC Clearinghouse on Elementary and Early Childhood Education as Acquisitions Coordinator.

Sylvia brings to her work at ERIC a valuable background in both library science and education. A graduate of the University of Illinois School of Music and also of the Graduate School of Library and Information Science, Sylvia has worked as a librarian in medical, university and public school libraries. She has also had experience as an elementary school music teacher.

...PS

MIKE BUTLER LEAVES SP

After 7 years with the ERIC Clearinghouse on Teacher Education, first as part-time abstractor/indexer, and finally as Associate Director, Mike Butler has left ERIC. We will miss his expertise and his ability to keep cool under pressure. We wish him all the best in his job with Informatics, Inc., of Rockville, Maryland, where he will be a project leader in compiling a legal database.

...Francie Gilman (SP)

NAME AND TITLE CHANGES FOR CATHY JULIUS (NOW BUTLER) AT SP

We may have lost one Butler, but we are gaining another. Now that Mike Butler has left SP, Cathy Julius will be using her married name, Cathy Butler. No, they are not married or related, just good friends. Also, with Mike's departure, Cathy is being promoted to the position of Assistant Director/Database Building.

...Francie Gilman (SP)

THE ERIC FAMILY GROWS

We are pleased to announce that Nathaniel Arcadius Trawick Coburn was born to Louisa and Oakley Coburn on December 4, 1983. Both mother and son are prospering, and Louisa will be back at the Clearinghouse in April.

...Barbara Wildemuth (TM)

PROCESSING/CATALOGING ADVISORIES

CATALOGING ADVISORY—PROCESSING NEWSLETTERS INTO RIE

Newsletters and other very short and specialized serial publications are being processed into RIE at an increasing rate. The practice varies as follows:

1. A single article from a newsletter is being treated.
2. The entire issue of the newsletter is being treated.
3. A compilation of newsletter issues (e.g., one year's worth) is being treated.

The following cataloging advice is offered:

- Accession an entire single issue of a serial only when there is a specific unified theme to the entire issue and only when that issue theme can be distinguished from the general subject matter always covered by the serial. In such a case, the theme title should be used as the title of the accession.
- If it is felt desirable to use RIE as an archive for a particular newsletter or serial (for which reproduction permission can be obtained), then it is best to gather together a significant quantity of that serial (at least a year's worth) in one accession. In such a case, the name of the journal is the title of the accession. It is not desirable to sprinkle ordinary run-of-the-mill single serial issues across the database as multiple accessions that cannot be differentiated from one another subject-wise.
- If an article or feature from a newsletter or serial is the focus, then restrict the cataloging (i.e., journal citation, inclusive pagination, publication type (080), abstract, index terms, etc.) to that single article. In such a case, the name of the single article is the title of the accession. Please note also that such an item is to be publication typed as a "Journal Article (080)," not as an entire "Serial (022)."

...Central ERIC

CATALOGING ADVISORY—PERSONAL AUTHOR FIELD

When the author's name is known but does not appear on the document, it should be added to the title page. If desired, the cataloger may place it within brackets on the title page in order to indicate that it was supplied. This should only be done when there is documented knowledge that the person in question should be regarded as the author. Whatever the circumstances, the Personal Author field should be processed in the regular manner. Please note that there is no provision in the EPM for brackets in the Personal Author field. The presence of brackets in this field will result in extraneous characters being added to the author's name when the name is changed to italics in the photocomposition process.

...Carolyn Weller (ERIC Facility)

PROCESSING ADVISORY—TEMPORARY CLEARINGHOUSE ACCESSION NUMBERS MAY BE CHANGED OR REARRANGED IN ORDER TO GET DOCUMENTS IN THE PROPER SEQUENCE

Normally, Clearinghouse accession numbers are placed on a document at the time a decision is made to enter the item into ERIC; presumably, the item is also entered on the Acquisitions Data Report (ADR) at about the same time. These actions generally take place before cataloging and abstracting. If a given document is later determined to be part of a series or to be out of sequence in its series, it is permissible to change the accession numbers of the items in the series as long as the resumes have not been transmitted to the Facility.

It is important to realize that even if the Clearinghouse accession numbers have already appeared in the ADR, they can still be re-arranged within a series, as long as the resumes have not been transmitted. From the user's standpoint it is always better to have related documents, especially documents in a series, announced in their natural sequence. If that means changing a Clearinghouse accession number assignment, then that should be done. Clearinghouse accession numbers are not immutable just because they have been assigned. They should be regarded as merely a means for entering documents into the database. As long as the number has not previously been used and has the correct prefix followed by a 6-digit number, the system will accept that number. At no time does the ERIC computer system check the number on the incoming resume against the ADR file.

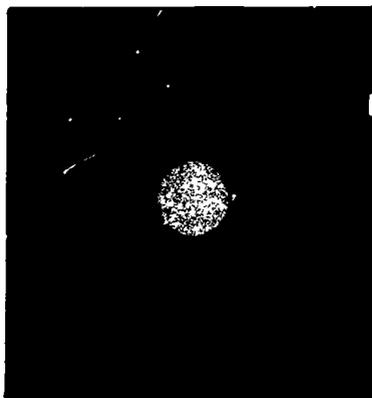

...Carolyn Weller (ERIC Facility)

WHERE TO FIND GOOD REVIEWS OF EDUCATIONAL SOFTWARE

BEFORE YOU PLUNK DOWN YOUR MONEY FOR SOFTWARE, WHAT SHOULD YOU DO? CONVENTIONAL WISDOM says, "If at all possible, preview the program before you buy." But if you can't preview the program—not an unlikely prospect these days—then you've got to do a little detective work. Software reviews can be found through local educational organizations, educational journals, and computer magazines. There are also, however, a number of national organizations that specialize in educational software reviews, and they may well be your best source of information.

The following list offers information on the reviews published by ten such organizations. Although all of the organizations include the same standard product information (memory and peripherals required, the computers that the program runs on, grade level, publisher's address, cost, etc.) within their reviews, details about the programs reviewed vary widely. Before you begin weighing your software purchasing decisions on the strength of any reviewer's comments, it would behoove you to look at what each reviewing organization has to offer.

Although the length of a review is certainly one indication of thoroughness, for example, it may not be the best indicator of the review's overall quality. One of the most important things to look for in any software evaluation is whether or not the program has been used with real students in a real classroom as part of the evaluation. (Most of the organizations listed here do so as a matter of course.) Experienced, professional reviewers tend to produce fairer, higher quality reviews than the "persons on the street." Some reviews provide different levels of information—such as a single, overall rating, a capsule summary, and a more detailed review—and this can be an important plus, particularly if you're looking at a good number of software reviews.

The information contained here will give you a good idea of what each reviewing organization has to offer. However, the best way to judge the quality of each organization's reviewing is to read through a sample program review, which most of the publishers listed here will send at a modest cost.

By Glenn Fisher

Glenn Fisher is School Computing Specialist for the Alameda County Superintendent of Schools' Office in Hayward, CA, and a frequent contributor to Electronic Learning.

**California Library Media Consortium
Reviews**

San Mateo County Office of Education
333 Main Street
Redwood City, CA 94063
Price: \$10/issue
Total reviews published: 100
Reviews per issue: 50
Issues per year: 2
Review format: One paragraph description of content and format, one sentence summary of strengths, weaknesses, documentation, and student response, followed by 20-item checklist in the areas of general design, content, instruction, input, and screen output. Each review is compiled from at least two teacher reviews; dates and sources of other reviews are included.

**Courseware Report Card—
Elementary and Secondary Editions**

Educational Insights
150 W. Carob Street
Compton, CA 90220
Price: \$59.50 each; \$95.00 for both
Total reviews published: 206
Reviews per issue: 25-30
Issues per year: 5 each
Review format: Each 2-4 page review includes a brief overview and a one paragraph content summary, followed by detailed descriptions and evaluative comments in the areas of performance, ease of use, error handling, appropriateness (both in computer use, and for grade level), documentation, and educational value. Reviews written by teachers and staff specialists; publishers' responses are printed in later issues. Available in separate editions for users of Apple, Atari, Commodore, and Radio Shack machines.

DISC Project

DISC Project, IICD, Oakland Schools
2100 Pontiac Lake Road
Pontiac, MI 48054
Price: \$20 for the single volume
Total reviews published: 91
Reviews per issue: (Not applicable)
Issues per year: (Not applicable)
Review format: Four paragraphs: behavioral objectives, content description, major strengths, and major weaknesses; the microSIFT checklist is included. Reviews are written by teachers with no student input. Only recommended programs are included in the volume, which also provides lesson-planning materials and worksheets.

EPTE Evaluations

Educational Products Information
Exchange
Box 18
Teacher's College, Columbia University
New York, NY 10027
Price: \$125/year
Total reviews published: 60
Reviews per issue: 30

Issues per year: 4

Review format: Two to four pages as follows: overall ratings in instructional design and software design; brief summary by teacher-reviewer; information on curriculum role, goals and objectives, contents, methods and approach, and evaluation and management. Reviewer evaluates general program structure, how teacher and students use program, and instructional/educational value of program. Student input limited to observation of student users. Includes references to other reviews.

Evaluations

Province of British Columbia
Ministry of Education, Province Ed.
Media Center
7351 Elmbridge Wy.
Richmond, BC Canada V6X 1B6

Price: (Unavailable)
Total reviews published: 200
Reviews per issue: 25
Issues per year: 9
Review format: One paragraph description of content and format, one paragraph summary of evaluator's comments on strengths and weaknesses. Rating on 1-5 scale in content, instructional quality, and technical quality. Future issues will include 3-4 paragraphs of description and comment. Reviews are written by teachers, with heavy student input.

Journal of Courseware Review

Apple Computer
20525 Marina Avenue
Cupertino, CA 95014
Price: \$5.95/issue
Total reviews published: 31
Reviews per issue: 15
Issues per year: Variable
Review format: No standard format; very comprehensive reviews, including description of content and format, and evaluation. Reviews written by staff specialists, with no student input. Only Apple-compatible programs are reviewed. The publication is available through Apple dealers.

microSIFT Reviews

microSIFT, NWREL
300 S.W. Sixth Avenue
Portland, OR 97204
Price: Varies, according to source
Total reviews published: 150
Reviews per issue: 25/quarter
Issues per year: Varies
Review format: One page of comments in the areas of instructional objectives, instructional prerequisites, content and structure, potential uses, major strengths and weaknesses, and a 21-item checklist. All reviews are a composite of at least two teacher-reviewers' comments, with some student input. Available through regional and local educational services agencies; for the agency nearest you, contact microSIFT.

Also published in *The Computing Teacher*, *AEDS Monitor*, *School Microware Reviews*, and *ACCESS*.

SECTOR

Special Education Technical Online
Resources
Exceptional Child Center
Utah State University
Logan, UT 84322
Price: \$8 for the complete package
Total reviews published: 58
Reviews per issue: Varies
Issues per year: The complete package of SECTOR reviews is available upon request on an ongoing basis. The package is amended monthly.
Review format: Two to three pages of ratings and comments regarding content, instructional design, recordkeeping/management, and ease of use. A descriptive overview follows. Each review reflects input from a number of teachers.

Software Reports

Allenbach Industries
2101 Las Palmas
Carlsbad, CA 92008
Price: \$42.95 + updates
Total reviews published: 382
Reviews per issue: 200 (planned)
Issues per year: 4 updates (planned)
Review format: One paragraph description of content, followed by an A B C grade in documentation, ease of use, program content, instructional technique, and educational usefulness. An overall grade is given with a summary comment. Reviews written by teachers and staff specialists. No reviews of programs graded below C are published. Information on guarantee, preview, backup and replacement policies, and volume discounts is included, as is a one-page "at a glance" summary for each subject area.

**Digest of Software Reviews:
Education**

Digest of Software Reviews
1341 Bulldog Lane, Suite C
Fresno, CA 93710
Price: \$52.95/year
Total reviews published: 150
Reviews per issue: 50
Issues per year: 4
Review format: Rather than providing reviews, the Digest provides abstracts and indices of reviews from over 60 publications in the U.S. and Canada. A program is selected only if it has at least two reviews to be abstracted. Entries include a one paragraph publisher's description and a 40 to 80 word abstract of evaluative comments from all available reviews. Full reference information for the original reviews is provided, as well as Dewey Decimal classification and subject headings for cataloging. Programs are selected to achieve a balance between levels and subjects.

CE	<p>The following ERIC Digests have been developed and are available from ERIC/ACVE. For free copies, please contact Judy Wagner, (800) 848-4815 or BRS T880.</p> <p>(1) Career Education for the Underemployed; (2) Career Development in Adult Basic Education; (3) Human Resource Development, an Introduction; (4) Retirement Education Programs; (5) Part-time Teachers in Adult and Vocational Education.</p>
CG	<p><u>Famine at the Feast: A Therapist's Guide to Working with the Eating Disordered</u>, by H. Mitzi Doane, 111p., 1983, \$10.50. A guidebook for counselors and therapists of all disciplines who work with bulimics and anorexics. Includes definitions and clinical characteristics of the disorders, a psychodevelopmental profile of the clients, and therapeutic techniques for individuals, families, and groups.</p> <p><u>Counseling Youth for Employability: Unleashing the Potential</u>, by Edwin L. Herr and Thomas E. Long, 139p., 1983, \$10.75. A timely work providing a comprehensive view of the work context, emerging occupations, and employability skills for today's youth. Summarizes reports of programs and techniques that facilitate youth employability, defined as the traits and skills necessary to meet the demands of the workplace.</p> <p><u>Issues in Training Marriage and Family Therapists</u>, by Barbara F. Okun and Samuel T. Gladding, Editors, 146p., 1983, \$9.75. A unique collection of eleven papers in the following areas: systems problems in new program development and implementation; alternative forms of training and supervision in marriage and family counseling in university-based programs; and training components for divorce and single-parent family counseling.</p> <p><u>Resources for Guidance Program Improvement (Vol. 2)</u>, by Mary C. Frenza, Garry R. Walz, Helen L. Mamarchev, and Anuruth Gordon, 311p., 1983, \$17.75. Designed like volume one to provide busy counselors with ready access to current, practical programs, activities and references. Covers four areas: Guidance Program Models, Guidance and Computers, Counseling for Personal/Social Concerns, and Counseling Students with Special Needs.</p> <p><u>Cumulative Subject Index of ERIC Documents in Counseling and Personnel Services, 1977-1982</u>, compiled by ERIC/CAPS, 608p., 1983, \$25.00. An indispensable reference tool listing over 5,200 counseling titles acquired by ERIC/CAPS and announced in RIE from 1977 to 1982.</p> <p><u>Shaping Counselor Education Programs in the Next Five Years: An Experimental Prototype for the Counselor of Tomorrow</u>, by Garry R. Walz and Libby Benjamin, Editors, 209p., 1983, \$10.95. Sixteen papers from the 1983 ACES Flagship Conference scanning the future of counseling. Covers a variety of subjects: creative leadership and paradigm shifts; changes in counselor education with regard to research, new fields of counseling, cultural pluralism, and sex equity; a systems approach to professional identity; the impact of technology, including ethical issues and the need for renewal; the future direction of guidance; and the challenge to counselors of the coming one-world society.</p> <p><u>Searchlights Plus</u>, computer searches of the ERIC database from 1966 to 1983, including a review and analysis of selected documents. \$5.00 each. (1) Counselors and Testing: Academic Testing (14+); (2) Needs Assessment in Counseling, Guidance, and Personnel Services (21+); (3) Counseling for Career Change (24+); (4) Divorce and Single-Parent Family Counseling (26+); Career Resource Centers (31+).</p>
IM	<p>TM Report 95, <u>Reporting Test Scores to Different Audiences</u>, by Joy Frechtling and N. James Myerberg. A complimentary copy will be sent to each Clearinghouse in February.</p> <p>New and revised bibliographies: (1) Computer-Assisted Tailored Testing; (2) Minimum Competency Testing: General Issues; (3) Surveys of State Minimum Competency Testing Programs; (4) Teacher-Made Tests</p> <p>New Digests and Mini-bibliographies: (1) Coaching for Tests; (2) Computerized Adaptive Testing; (3) Minimum Competency Testing and The Handicapped.</p>

SOURCE JOURNAL INDEX UPDATES---MARCH (1st QUARTER, 1984)

Additions:

None

Deletions:

NCTM Yearbook
Graduate Woman
Journal of Veterinary Medical Education
Journal of Podiatric Education
Zeitsprache Deutsch

Changes:

Title: The 2-year College Mathematics Journal is now
The College Mathematics Journal

Classroom Computer News is now Classroom Computer Learning

Audio-Visual Language Journal is now British Journal of
Language Teaching

Coverage:

Journal of Child Language will now be covered selectively
as will:

Journal of Legal Education
Educational Record
Journal of Medical Education
Higher Education
Journal of Higher Education
New Directions for Higher Education
New Directions for Institutional Advancement
New Directions for Institutional Research
New Directions for Experiential Learning

Price: Association for Communication Administration Bulletin is now
single copy-\$7.00, not \$6.00

Communication Quarterly is now single copy-\$10.00, not \$5 00

Journal of Applied Communication Research is now \$10.00, inst.
\$15.00, sc \$7.00

CONFERENCES/MEETINGS/WORKSHOPS

CI	DATE	LOCATION	CI STAFF	NOTES
CE	11/16/83	Ohio State University	Susan Imel	<u>Conference Name: Sixth Nationwide Vocational Education Dissemination Conference.</u> Susan Imel gave a presentation on "Dissemination in Adult Education, What's in it for You?" The session's co-presenter was Jane Zinner, Director, California Dissemination Network for Adult Educators.
CE	11/28-30/83	New York	Susan Imel	<u>Conference Name: Eighth Annual Competency-Based Adult Education Conference.</u> Susan Imel made the following presentations: (1) Educational Technologies: Questions for Competency-Based Educators; (2) ERIC: Information Source for CBAE.
CE	---	Philadelphia, Pennsylvania	Susan Imel	<u>Conference Name: National Adult Education Conference.</u> This conference was sponsored by the American Association for Adult and Continuing Education (AAACE). Susan Imel led the following presentations: (1) Perspectives on Retirement Planning, with Carl Brahce, University of Michigan, ERIC/ACVE IAP author; (2) ERIC: An Adult Education Information Source; (3) Infusing Career Development in Adult Basic Education, with Richard S. Deems of Richard S. Deems and Associates, Ames, IA., ERIC/ACVE IAP author.
CE	12/2-6/83	Anaheim, California	Juliet Miller	<u>Conference Name: American Vocational Association.</u> Juliet Miller gave four presentations which included "What Can Vocational Educators Learn from Career Education/Private Sector Collaboration," "Learning Styles Roundtable," "A Second Look at the Goals of Career Education," and "Career Development and Cognitive Styles."
CS	9/8/83	University of Illinois	Anne Auten	Presented a workshop to 25 graduate students on searching ERIC both manually and by computer.
CS	9/9/83	University of Illinois	Anne Auten	Presented a workshop to 10 graduate students on searching ERIC both manually and by computer.
CS	9/12/83	Champaign, Illinois	Anne Auten	<u>Conference Name: Libraries and the Microcomputer—An Illinois-Indiana Institute and Microcomputer Fair.</u> In cooperation with ERIC/EECE shared time in an ERIC exhibit booth and demonstrated ERIC's self-contained MICROsearch software for the Apple II+.
CS	9/14/83	University of Illinois	Anne Auten	Presented a workshop to 35 undergraduate students on how to use ERIC.
CS	9/27/83	Arcola, Illinois	Anne Auten	Presented a workshop to an extramural group of classroom teachers (grades 3-12) on ERIC database searching. The teachers were very interested in the potential of searching the ERIC database with their microcomputers.
CS	9/28-30/83	Monticello, Illinois	Jane McClellan	<u>Conference Name: Illinois Association for Personalized Learning Programs 1983 Allerton Park Conference.</u> Distributed ERIC materials to 100 junior college teachers.
CS	10/10/83	Chicago, Illinois	Anne Auten	<u>Conference Name: ONLINE '83 Conference and Exposition.</u> In cooperation with ERIC/EECE, shared an exhibit space and conducted computer searches of ERIC.

CH	DATE	LOCATION	CH STAFF	NOTES
CS	10/83	University of Illinois	Anne Auten	Presented a workshop to 20 undergraduate students on how to use ERIC.
CS	10/21-22/83	Macomb, Illinois	Anne Auten	<u>Conference Name: Illinois Association of Teachers of English.</u> Sponsored an ERIC exhibit and an ERIC session on word processing and composition instruction.
CS	10/27-29/83	Charleston, South Carolina	Charles Suhor	<u>Conference Name: Southeastern Regional Conference of the National Council of Teachers of English.</u> Charles Suhor, Director of ERIC/RCS, conducted a session on "Thinking Skills in the Teaching of Composition."
CS	10/28/83	University of Illinois	Anne Auten	Presented a workshop to 21 preservice teachers on how to use ERIC.
CS	11/2/83	University of Illinois	Anne Auten	Presented a workshop to 15 undergraduates on how to use ERIC.
CS	11/21-23/83	Denver, Colorado	Charles Suhor Karl Koenke Jane McClellan Anne Auten	<u>Conference Name: National Council of Teachers of English, 73rd Annual Convention.</u> In addition to staffing the ERIC display, Anne Auten conducted three ERIC sponsored all-day workshops on "Using a Word Processor in Composition Instruction: Help or Hindrance?"; Charles Suhor was a panelist on a "Computers in the English Program" discussion; and Jane McClellan chaired a session on "Approaches to Writing Instruction."
CS	12/1/83	Arcola, Illinois	Anne Auten	Presented a workshop on word processing and composition to a University of Illinois extramural class.
CS	12/1/83	University of Illinois	Anne Auten	Presented a computers and composition workshop to 25 graduate students.
CS	12/7-12/83	Indianapolis, Indiana	Jane McClellan Anne Auten	<u>Conference Name: National Forum on Excellence in Education.</u> Cooperated with ERIC/EECE in exhibiting ERIC materials and conducting computer searches.
EC	1/25-28/84	Reno, Nevada	Don Erickson Jean Nazzaro	<u>Conference Name: National Conference on Technology and Special Education.</u> Almost 1,000 persons, largely of the decision-maker variety, attended the conference. Many of the recognized leaders in this field were on the program in various capacities. A highlight of the conference was the exhibit show which featured 63 companies and/or agencies with products and services of interest to the attendees. ERIC/EC was one of the popular exhibits at the conference; Jean Nazzaro reported that significant interest was shown in the products and services of our Clearinghouse as well as in the ERIC system as a whole.
TM	1/27/84	ETS	Barbara Wildemuth	An introduction to ERIC was provided to 22 staff of the New Jersey Department of Education. Several members of the audience had performed online searches of ERIC, and one person was actively using his personal computer to do searches at home.
TM	1/31/84	ETS	Barbara Wildemuth	<u>Conference Name: Invitational Symposium on Long-Range Planning for Microcomputer Use in Schools.</u> Three of New Jersey's leading school districts participated in sharing their experiences with microcomputers and defining issues to be considered in planning for microcomputer use.
UD	11/18/83	Kansas	Michael Webb	Mr. Webb conducted an information seminar for the Kansas City Public Schools for 30 central office staff, curriculum specialists, and planning and evaluation personnel. Computer searches were also conducted and ERIC/CUE products were displayed and distributed.
UD	12/6/83	Boston Public Schools	Michael Webb	Mr. Webb gave two information seminars: an overview of ERIC and a special workshop for curriculum personnel. Twenty-three computer searches were conducted and ERIC and Clearinghouse products were distributed.

ACTION ITEMS

MAINTAINING THE INTEGRITY OF THE CLEARINGHOUSE PREFIX, OR, THE IMPORTANCE OF STAYING WITHIN YOUR SCOPE

The documents announced in Resources in Education (RIE) are arranged in what a librarian would call a classified arrangement. The announcements are grouped by Clearinghouse and each Clearinghouse is described as covering documents within a particular subject scope. The basic purpose of such classified arrangements in abstract journals is to facilitate browsing within the particular field of interest to the user. For example, the user who chooses to scan only the announcements of the IR Clearinghouse should reasonably expect to find only materials dealing with information, library, and educational media and technology matters. This is one reason for ERIC to ensure that the Clearinghouses restrict their announcements to documents that can reasonably be justified as falling within their scope of interest.

In addition, each ERIC computer record contains information (in the form of the Clearinghouse prefix) that forever links that record to the inputting Clearinghouse and to the subject area covered by that Clearinghouse. This prefix can and is used in online computer searching to restrict search output to the announcements of particular Clearinghouses. As the ERIC database grows in size, this search technique can be a valuable and useful method for achieving high relevance and avoiding excessive "hits." This is a second reason for ERIC to ensure that Clearinghouses stay within their subject scopes.

Whether it is because of reduced document input or other reasons, the ERIC system is experiencing fewer transfers of documents between Clearinghouses. Clearinghouses are tending to hang onto documents that they acquire and to process them, sometimes without careful regard as to whether they fall within their subject scope. About the only time this can be justified is when it is judged more important to keep a particular series of documents together and in proper sequence in RIE, e.g., commissioned papers of the National Commission on Excellence in Education.

Clearinghouses are advised to maintain the integrity of their subject scope area and not to detract from it by permitting announcements under their prefix that cannot be justified topically and that can be confusing to the user.

...Central ERIC

EDRS INITIATES 800 NUMBER FOR INQUIRIES (NOT ORDERS)

Effective May 1, 1984, EDRS will have an 800 telephone number providing nationwide free telephone access to EDRS for inquiries and general information (but not for microfiche or paper copy orders). EDRS's policy about telephone orders remains the same: no orders will be accepted over the telephone.

The 800 number is 1-800-227-ERIC. (Virginia residents must still use the old number (703) 841-1212).

All ERIC Clearinghouses are requested to publicize this new easy access telephone number for EDRS through the various channels available to them.

...Jim Prevel (Central ERIC)

"FRENCH NIE" REQUESTS ERIC CLEARINGHOUSE PUBLICATIONS

The National Institute for Educational Research in Paris, has sent a request to ERIC to be placed on the distribution lists of the ERIC Clearinghouses to receive as many of the Clearinghouse products as possible.* The Institute has a Resource Center that it is in the process of developing and it wants to collect as much of the ERIC output as possible.

Clearinghouses are requested to give this request their careful consideration and to place this French equivalent of the National Institute of Education (NIE) on distribution for as much free material as is feasible.

The address to which ERIC Clearinghouse publications should be sent is as follows:

Institute National de Recherche Pedagogique
(National Institute for Educational Research)
Centre de Documentation Recherche
(Resource Center for Research)
29 rue d'Ulm
75230 Paris, CEDEX 05
France

...Frank Bryars (Central ERIC)

*The Institute has, in turn, offered to send their publications to Central ERIC (which will be transmitted to the appropriate Clearinghouses).

RE-SUBMITTING DOCUMENTS THAT HAVE BEEN RETURNED TO THE CLEARINGHOUSE FOR REVIEW OR ADDITIONAL WORK

Occasionally Central ERIC (usually Frank Bryars) or the Facility cause a document to be returned to the submitting Clearinghouse for review, change, or additional work. If such documents are then re-submitted to the Facility, they should not be "hidden" within a regular shipment and a regular log. They should be handled separately and submitted on a separate log. They shouldn't be re-transmitted online.

The reason for segregating re-submissions is that the Facility saves the original resumes for a period of 3-4 months specifically to allow for the possibility of re-submission. But we have to know that it is a re-submission. We don't want to count it twice and we need to go to a special place in the computer to recover the "saved" resume. Re-submissions are no problem to us if they are identified as such, but they can cause a lot of trouble and grief if they are not brought to our attention or if the bibliographic data is re-transmitted online to overlay data already in existence.

Your attention to this special handling for re-submissions would be greatly appreciated.

...Carolyn Weller (ERIC Facility)

NETWORK NEWS

ERIC CLEARINGHOUSE PUBLICATIONS (19--) NO LONGER TO BE PRINTED IN QUANTITY BY GPO

As a result of a recommendation from the ERIC Technical Steering Committee, the bibliography ERIC Clearinghouse Publications (19--) will no longer be printed by GPO for general distribution. The committee found that most Clearinghouses made very little use of this publication and concluded that the money allocated for its printing could be used for other, more useful, products.

We will continue to compile the annual listing of IAPs; however, only a limited number of copies will be produced by the Facility for primarily within-system use.

...Pat Coulter (CERIC)

RIE RECIPIENTS (STATISTICAL/GEOGRAPHICAL ANALYSIS)

The Facility has obtained the GPO list of RIE subscribers and the GPO list of Depository Libraries that automatically receive RIE. Both lists are up-to-date as of March 1984.

Attached are two Tables that constitute a statistical/geographical analysis of these two lists. The number of RIE recipients in each country and state/territory of the U.S. are shown in Table 1 (Attachment 1). Table 2 (Attachment 2) compares, by state, the RIE recipients in 1979 (the last time the lists were analyzed), with the RIE recipients in 1984 (i.e., four years later). During that time, RIE suffered a net loss of 575 recipients.

- Eleven (11) states show small gains, with the largest being Pennsylvania (+ 14) and Florida (+10).
- Two states stayed even (Indiana and Wyoming).
- Thirty-seven (37) states, and the District of Columbia, lost recipients, with the largest losers in absolute numbers being:
 - Massachusetts (- 74)
 - California (- 63)
 - Ohio (- 58)
 - District of Columbia (- 52)
 - New Jersey (- 31)
 - New York (- 31)

By percentage, the largest losers were:

- District of Columbia (- 57%)
- Arizona (- 52%)
- Delaware (- 50%)
- Idaho (- 50%)
- Massachusetts (- 44%)
- Vermont (- 42%)
- Ohio (- 41%)

...Ted Brandhorst (ERIC Facility)

SEARCHING THE ERIC AND ECER DATABASES AND ELIMINATING DUPLICATES

Periodically the EC Clearinghouse refines its technique for eliminating duplicates when doing a computer search involving both the ERIC and ECER (Exceptional Child Education Resources) databases. The latest version of this advice sheet (dated November 1983) is reproduced here as Attachment 3.

Technical questions concerning this technique should be addressed to Lynn Smarte at EC (703) 629-3660, Ext. 289).

...Ted Brandhorst (ERIC Facility)

CIJE SCHEDULE

Oryx Press has submitted its CIJE Schedule for the six-month period, June - December 1984). Please see Attachment 4.

...Elizabeth Pugh (ERIC Facility)

AACD VISITS CAPS CLEARINGHOUSE

ERIC/CAPS had the pleasure of an all-day visit from two staff members of our major professional association, the American Association for Counseling and Development, whose headquarters are in Alexandria, Virginia. Bill Hunter, assistant executive director for business, finance and administrative relations, and Sylvia Nisenoff, professional information specialists, came to Ann Arbor on February 9 for all of us to get to know one another and to discuss possibilities for professional collaboration. The meeting was a successful exchange of ideas and experiences, and we hope it will be the forerunner of a number of mutual endeavors.

...Debbie Herbert (CG)

DR. WALZ RECEIVES HUMANITARIAN AWARD

Dr. Garry Walz, Director of the ERIC Clearinghouse on Counseling and Personnel Services, received the 1984 Wrenn Award for a Humanitarian and Caring Person from the American Association for Counseling and Development (formerly APGA) at its annual conference in Houston, Texas, March 18-22, 1984. C. Gilbert Wrenn, for whom the award was named, has been a respected leader in the guidance profession for over fifty years. The award is particularly meaningful to Garry because Dr. Wrenn has been his mentor.

...Carol S. Mills (CG)

ERICKSON AND SMARTE VISIT COLUMBUS, OHIO

Don Erickson and Lynn Smarte spent March 12-14, 1984 in Columbus, Ohio visiting a number of different agencies. Our purpose was to assess the effectiveness of some of our Clearinghouse procedures and products with both user groups and other similar service providers. We had a very profitable visit with Julie Miller and her staff. Unfortunately our time schedule did not allow a visit to Bob Howe and his group. We highly recommend this type of site visit. It was very useful to us.

...Donald K. Erickson (EC)

CERIC CONDUCTS SITE VISIT AT EC

The ERIC Clearinghouse on Handicapped and Gifted Children had the pleasure of hosting a meeting with Chuck Hoover, Alan Moorehead, and Kevin Arundel on Monday, March 19. This get-together masqueraded as a site visit, but accomplished several outcomes: (1) It gave the EC staff a chance to interact with NIE officials and to hear what's going on in the agency; (2) It gave us the opportunity to meet our new project monitor, Kevin Arundel (Judi Conrad got "bumped upstairs"); (3) It permitted us to test out the new site visit forms (they worked fine); and (4) Oh yes, as a site visit the meeting went just fine.

SMEAC INFORMATION REFERENCE CENTER COUNT OF USER ASSISTANCE EFFORTS TOPS 100,000 IN 1983

Ohio State University's SMEAC Information Reference Center (which includes the ERIC Clearinghouse for Science, Mathematics, and Environmental Education (ERIC/SMEAC), the U.S. Environmental Protection Agency Instructional Resources Center (EPA/IRC) for water quality education and training, and related activities) provided materials, print and non-print, and information directly to more than 100,000 individuals, agencies, and organizations during 1983. Services were provided to people in every state and territory in the United States and in 39 other countries. An approximate average of 100 requests for assistance were received each day.

SMEAC staff members produced 16 fact sheets and bulletins distributed to a total of more than 70,000 people, made presentations or provided workshops and exhibits for more than 40 professional associations and other groups, produced more than 20 publications exceeding 70 pages in length (and involved more than 225 people from the United States and 12 foreign countries in their development), and published articles in journals distributed to more than 300,000 people.

TEACHERS COLLEGE/UD CLEARINGHOUSE RECEIVE NDN TECHNICAL ASSISTANCE CONTRACT

Teachers College, through the ERIC Clearinghouse on Urban Education, has received a three-year contract to provide technical assistance in the area of technology to the National Diffusion Network. Dr. Erwin Flaxman is the Director of the new project.

In general, the scope of work entails:

- (1) developing a file (on disks) of adoptions of NDN projects (approved by the Joint Dissemination Review Panel);
- (2) providing technology technical assistance to projects in the network and to the National Diffusion Network Division in the Department of Education; and

- (3) linking members of the Network with one another using new electronic technologies.

We look forward to a closer relationship in the future between ERIC and the National Diffusion Network through this project.

...Erwin Flaxman (UD)

ERIC/UD'S INVOLVEMENT WITH THE URBAN SUPERINTENDENTS NETWORK

Dr. Erwin Flaxman and the staff of the ERIC Clearinghouse on Urban Education are working with the Regional Programs-sponsored Urban Superintendents Network. The staff has developed summaries of the major reform commission reports and studies and has developed matrixes of their findings. Some meeting programs were jointly planned by the Clearinghouse and the NIE Urban Team on issues related to current efforts to reform education. In the future, the Clearinghouse will be developing other synthesis products.

PROCESSING ADVISORIES

PROCESSING ADVISORY—DOCUMENT PREPARATION—DOCUMENTS WITH SOMETHING MISSING

There has been a marked increase over the past year in the number of documents received that are missing pages, sections, appendixes, or named attachments. The missing material has generally not been noticed by the Clearinghouse and its absence is not detected until either the Facility paginator notices it while paginating or the Facility editor notices it while checking the actual contents of the document against the Table of Contents.

The responsibility for providing a complete and filmable document rests with the Clearinghouses and all documents should receive a page-by-page check before they are submitted for RIE. Incomplete documents, if not detected at the Facility, embarrass both the author and ERIC and the re-filming and microfiche re-distribution necessary to correct the error are costly.

DEPARTMENT OF INFORMATION SERVICES
THE COUNCIL FOR EXCEPTIONAL CHILDREN

THE ERIC CLEARINGHOUSE ON
HANDICAPPED AND GIFTED CHILDREN

Searching the ERIC and ECER Databases
and Eliminating Duplication
(Revised November, 1983)

When and why you should search both the ERIC and ECER databases

A comprehensive literature search on a topic related to handicapped or gifted students should include both the ERIC and Exceptional Child Education Resources (ECER) databases.

About 50% of the citations in ECER are also in ERIC; however, a search of the ECER database will include the following types of materials not generally covered in ERIC:

- * books
- * dissertations
- * nonprint professional materials

The ECER database also includes full abstracts of journal articles.

On the other hand, ERIC includes hundreds of special education references not available in the ECER database.

How to search ERIC and ECER

When searching the same topic in both ERIC and ECER, you need to do two things to eliminate duplicate citations:

1. Eliminate the ERIC journals contributed by the EC clearinghouse from ERIC.
2. Eliminate the ERIC documents (EDs) from ECER.

Examples

BRS

Run your search in ERIC:

1_ : learning-disabilities and self-concept

RESULT 141

2_ : 1 not (ej.an. and ec.ch.)

RESULT (101) ←

Run the same search in ECER:

1_ : learning-disabilities and self-concept

RESULT 92

2_ : 1 not ed.an.

RESULT (161) ←

These are your final sets
which will include few or
no duplicate citations.

THE COUNCIL FOR EXCEPTIONAL CHILDREN OPERATES THE ERIC CLEARINGHOUSE ON HANDICAPPED AND GIFTED CHILDREN UNDER A CONTRACT
WITH THE NATIONAL INSTITUTE OF EDUCATION

1920 Association Drive, Reston, Virginia 22091 • (703) 620-3660

-2-

DIALOG

Run your search in ERIC (File 1):

? s learning disabilities and self concept
5118 LEARNING DISABILITIES
8521 SELF CONCEPT
1 141 LEARNING DISABILITIES AND SELF CONCEPT
? s ch=ec
2 27282 CH=EC
? limit2/ej
3 16133 2/EJ
? c 1 not 3
4 (101) 1 NOT 3 ←

Run the same search in ECER (File 54):

? s learning disabilities and self concept
6697 LEARNING DISABILITIES
1130 SELF CONCEPT
1 202 LEARNING DISABILITIES AND SELF CONCEPT
? s sl not ch=ed
11802 CH=ED
2 (159) SI NOT CH=ED ←

These are your final sets
which will include few or
no duplicate citations.

Notes:

1. If the search strategy is longer than the example above, you may want to "save" it after running in ERIC and "EXECUTE" in ECER. Just be careful that the final steps to eliminate duplicates are different for the ERIC and ECER searches.
2. If you have any questions about this method of searching ERIC or ECER, call Lynn Smarte at CEC/ERIC, 703-629-3660, ext. 289.

ERIC CLEARINGHOUSE PUBLICATIONS (CONT.)

CH	PUBLICATIONS
CG	<p><u>The following are new publications from ERIC/CAPS:</u></p> <ul style="list-style-type: none">● <u>Famine at the Feast: A Therapists's Guide to Working with the Eating Disordered</u>, by H. Mitzi Doane, 111p., \$10.50. A guidebook for counselors and therapists of all disciplines who work with bulimics and anorexics. Includes definitions and clinical characteristics of the disorders, a psychodevelopmental profile of the clients, and therapeutic techniques for individuals, families, and groups.● <u>Counseling Youth for Employability: Unleashing the Potential</u>, by Edwin L. Herr and Thomas E. Long, 139p., 1983, \$10.75. A timely work providing a comprehensive view of the work context, emerging occupations, and employability skills for today's youth. Summarizes reports of programs and techniques that facilitate youth employability, defined as the traits and skills necessary to meet the demands of the workplace.● <u>Issues in Training Marriage and Family Therapists</u>, by Barbara F. Okun and Samuel T. Gladding, Editors, 146p., 1983, \$9.75. A unique collection of eleven papers in the following areas: systems problems in new program development and implementation; alternative forms of training and supervision in marriage and family counseling in university-based programs; and training components for divorce and single-parent family counseling.● <u>Resources for Guidance Program Improvement (Vol. 2)</u>, by Mary C. Frenza, Garry R. Walz, Helen L. Mamarchev, and Anaruth Gordon, 311p., 1983, \$17.75. Designed like volume one to provide busy counselors with ready access to current, practical programs, activities and references. Covers four areas: Guidance Program Models, Guidance and Computers, Counseling for Personal/Social Concerns, and Counseling Students with Special Needs.

WORKSHOPS/CONFERENCES/MEETINGS

CH	DATE	LOCATION	STAFF	COMMENTS
CE	Feb. 17	Troy, Alabama	Judy Wagner	Judy Wagner gave a day-long workshop to faculty and librarians at Troy State University. Approximately 35 attended the seminar that included a detailed description of the ERIC system, how to submit documents, and how to search the database. The workshop was videotaped and will be used at Troy State for those who were unable to attend the sessions.
CE	March 15	Columbus, Ohio	Susan Imel	<u>Conference Name: National Association of Industry/Education Cooperation Conference</u> Susan Imel's presentation was based on two of CE's 1983 major publications and was entitled "Employment Assistance for Laid-Off Workers: the Role of Educators." It was based on papers by Robert Wegmann and Richard Deems.
CG	Feb. 22	Michigan	CG Staff	<u>Conference Name: Michigan School Testing Conference.</u> Jeanne Bleuer and Mary Frenza presented a session on using the microcomputer to search ERIC and provided demonstration searching of the newly available online database, Mental Measurements Yearbook. Lynette Kosky and Carol Mills staffed the CAPS booth which also displayed material from TM.
CG	March 6-7	Grayslake, Illinois	Garry Walz Jeanne Bleuer	<u>Conference Name: Lake County Career Guidance Consortium</u> <u>"Impact of Technology on Schools and Students"</u> Garry R. Walz, dinner address on March 6: "What the technological future holds for society, education and counseling."

ORYX PRESS—PRICE LIST FOR ERIC-RELATED PRODUCTS

The "Price List for ERIC-Related Products" published by Oryx Press has recently been revised by Oryx Press. Certain items have gone out-of-print and postage costs have changed for other items.

The revised list is provided as Attachment 1. If you are using this list in any way in your reference activity, please replace the earlier copies with this revised and up-to-date version.

...Nancy Stewart (ERIC Facility)

ERIC DIGESTS FILE

The ERIC Digests Online File project is on schedule, according to the ERIC/EECE project staff. To date, the 20 sample Digests to be revised have been selected and delivery dates arranged. The project staff has completed and returned computer searches to help Clearinghouses update these particular Digests.

Twenty new Digest topics have also been identified and scheduled, and all 16 Clearinghouses have been sent guidelines for the preparation of future Digests, as well as a reference style sheet.

It is anticipated that, funds permitting, the second year of the Digest file-building project will see the expansion of the file to encompass all Clearinghouses' scope areas and audiences. For this reason, all Digests should be written to the new style guidelines so that they may quickly and easily be processed for the online file.

A small group of ERIC Digests will soon appear as a file on The Source in its new "Personal Computing" Section. Although the Digests used on The Source will constitute only a small segment of those first forty Digests (primarily those that deal with computers in education), trying out this segment of the ERIC Digest File on The Source will give all the Clearinghouses a chance to see and comment on the full text format and the searching options planned for this kind of file. We will also have an opportunity to test user reaction to the file. If your Clearinghouse would like to contribute a technology-related Digest to be placed on The Source test file, please call Mima Spencer or Dianne Rothenberg at ERIC/EECE immediately.

Meanwhile, negotiations with other online vendors are underway. We hope to see the entire Digest File mounted online and made publicly accessible on several online vendors within the next half year.

...Mima Spencer (PS)

EDRS CHANGES TELEPHONE NUMBER

When CMIC moved its offices from its previous location at 3030 North Fairfax Drive, Arlington, Virginia to its present location at 3900 Wheeler Avenue, Alexandria, Virginia, the telephone company assigned it the number of (703) 823-0500. As a courtesy to its users, CMIC originally decided to keep (at considerable expense) the well-known number (703) 841-1212 for its EDRS customers. CMIC has now decided to drop that number, and henceforth will be using the company number of (703) 823-0500 for its general CMIC/EDRS operations.

At the same time, EDRS has added an 800 number to be used for inquiries dealing with documents, microfiche prices, availability, etc. As before, no telephone orders will be accepted on either number. While the new 800 number is intended primarily for customer use, the Clearinghouses are invited to use the number as well.

Toll Free Number: (800) 227-ERIC (i.e., 227-3742)
(For use in all states except Virginia, Hawaii, and Alaska.
Does not include Canada).

Virginia, Hawaii,
Alaska: (703) 823-0500

...Elizabeth Pugh (ERIC Facility)

ERIC/ACVE TRIES NEW ACQUISITION STRATEGY

In an effort to uncover new sources of material for ERIC, staff at ERIC/ACVE have been meeting with Research Specialists who are staff at the National Center for Research in Vocational Education (NCRVE). During the meetings, NCRVE staff share information about their current research projects, as well as make suggestions regarding groups and organizations that might serve as potential acquisitions sources. ERIC/ACVE staff have used the meetings as an opportunity to provide NCRVE staff with more detailed information about ERIC acquisitions. Meetings have resulted in several new acquisitions sources and an increased understanding of ERIC needs by the NCRVE staff.

...Susan Imel (CE)

ERIC/ACVE GETS NEW MICROCOMPUTER

ERIC/ACVE has acquired an IBM-PC/XT microcomputer equipped with built-in modem (Smartmodem 1200B), a hard disk and 2 disk drives, QuadRAM Drive—a disk emulation program, dBASEII, and WordStar. An acquisitions database and formats for statistical reporting are currently being installed. This ERIC acquisitions file will serve as the core database for other databases developed at the National Center, such as ROME, VECM, and RIVE. Under development are an acquisitions on-order file, an Acquisitions Data Report (ADR) subfile for eventual online transmission, a Clearinghouse mailing list file, and a CIJE journal log file.

...Sandra Kerka (CE)

TALKS WITH PARENTS SELLING WELL

ERIC/EECE has sold 241 copies of its recent publication entitled Talks with Parents: On Living with Preschoolers, by Clearinghouse Director Lilian G. Katz. March sales got an added boost as a result of a mention included in Parents Magazine (circulation 1,500,000), with 56 of 91 new orders originating from that source.

...Mima Spencer (PS)

DR. JACK T. COLE BECOMES NEW DIRECTOR OF RC

New Mexico State University is pleased to announce that Jack T. Cole, Ph.D., became Director of the ERIC Clearinghouse on Rural Education and Small Schools, effective May 1, 1984. Dr. Cole has been with the College of Education at New Mexico State University since 1976 and is currently completing a sabbatical at Keele University where he is gathering information on educational services in rural England.

...Dr. David R. Byrne, Dean
New Mexico State University

CONFERENCES/MEETINGS/WORKSHOPS

CH	DATE	LOCATION	STAFF	COMMENTS
CE	May 11	---	Susan Imel	Conference Name: <u>Ohio Association for Adult Educators</u> (Annual Spring Conference) Susan Imel presented a session entitled "Microcomputers...A Tool for Adult Educators."
CE	---	Bexley (Ohio) High School	Judy Wagner	Judy Wagner talked to librarians at Bexley (Ohio) High School about the use of ERIC in schools. The five librarians in attendance were impressed, surprised, and delighted with potential applications. Besides administrative uses—they were particularly interested in material on mainstreaming—they plan to explain ERIC to seniors who will, it is hoped, be using ERIC's database when they get to college.
CG	May 11	Ann Arbor, Michigan	Garry Walz	Conference Name: <u>Michigan Association for Counselor Education and Supervision (MACRS)</u> Garry Walz presented a session on "The Possible Person."
CG	May 15 and 16	Florida	Garry Walz	Garry Walz made a presentation entitled "High Tech Counseling" to the Student Services Career Guidance Advisory Committee for the Florida Department of Education.
EA	March 5	University of Oregon	Mary Lou Finne	Mary Lou Finne discussed ERIC indexing at a University of Oregon graduate-level class, "Educational Library Resources." The ERIC system was the subject of the class that day. Mary Lou selected a number of EA entries that she had indexed and abstracted in RIE and CIJE and explained the rationale for the Descriptors and Identifiers selected. The students had copies of the old ERIC Thesaurus and issues of RIE and CIJE to examine during the presentation. The 15 class members (most of whom are graduate students in education) were especially interested in learning how to find and retrieve ERIC documents that could be used in their research and dissertations. ERIC and EA handouts were provided.

ACTION ITEMS

DIGEST FILE POLICIES

Central ERIC issued a memo on June 5, 1984 to answer various questions that have arisen about the "Digest File" and to establish various guidelines for that enterprise. The memo appears as Attachment 1.

...Jim Prevel (Central ERIC)

NETWORK NEWS

CMIC IS AWARDED EDRS CONTRACT

CMIC has been declared the winner of the recently-competed contract for the ERIC Document Reproduction Service (EDRS). However, a protest disputing the award has been filed by one of the competitors and will have to be resolved before any public announcements can be made.

Whatever the resolution of the situation, changes will eventually occur in the EDRS price structure and a new order form will eventually be forthcoming. Clearinghouses that might be in the process of producing new brochures or other publications that cite the EDRS prices are advised to check with Central ERIC before going to press.

...Jim Prevel (Central ERIC)

SCHOOL DESEGREGATION - 19 CORE STUDIES

A recent major NIE-supported report on school desegregation entitled School Desegregation and Black Achievement (ED 241 671), listed 19 "Core Studies" of the subject. The Facility checked this list against the database and could find ED numbers for only 4 of the 19. Another 7 were dissertations with UMI order numbers. One was a journal article. Two appeared to be dissertations/theses not in the UMI collection. Five were documents that ERIC would be expected by users to have.

The list of "19 Core Studies" in school desegregation appears as Attachment 2. The 7 items (including the two non-UMI dissertations) that ERIC might be expected to have are items 2, 4, 7, 8, 9, 11, and 15. The Facility will attempt to get these (7) items for the database. If any Clearinghouses should have copies of the missing seven documents, we would appreciate your assistance.

...Nancy Stewart (ERIC Facility)

JAPANESE VERSION OF ERIC THESAURUS

Recently, ERIC received complimentary copies of a Japanese version of ERIC's Thesaurus of ERIC Descriptors. The Japanese-English Educational-Use Keyword Equivalents, published by the Center for Educational Technology, Aichi University of Education, lists close to 5,000 ERIC Descriptors together with their Japanese language equivalents. The authors acknowledge the contribution of Charles Hoover for "honoring us with permission to publish this translation" and state that the ERIC Thesaurus is a well known publication in Japan.

Additional copies of this translation have been requested by the ERIC Facility. When received, one will be sent to ERIC/IR to be considered for inclusion in the ERIC database.

...Pat Coulter (Central ERIC)

GPO STYLE MANUAL AVAILABLE IN NEW EDITION

The famous GPO Style Manual has finally been revised and reprinted in a new 1984 edition replacing the venerable 1973 edition. We understand that, among other things, the new edition incorporates the new two-letter postal abbreviations for states.

Hardback copies are available from GPO for \$15; paperback copies are available for \$11.

The Clearinghouses will want to avail themselves of at least a single copy of this important reference work, so frequently used by Central ERIC to settle editorial issues.

...Carolyn Weller (ERIC Facility)

CIJE TITLE FILE DUPLICATE CHECK

Beginning in May 1984, the Facility is running all CIJE data received from the Clearinghouses through a special computerized CIJE Title File duplicate check. Incoming titles that are the same through the first 34 characters as earlier titles already in the CIJE database are flagged for editorial attention. The resultant printout is transmitted to the Oryx Press editors (Susan Slesinger) for their use in eliminating duplicates. We are hopeful that this added quality control feature will help to avoid some of the CIJE duplicate problems experienced in the recent past (e.g. one-shot journals processed by two different Clearinghouses).

...Ted Brandhorst (ERIC Facility)

TARGET AUDIENCE STATISTICS (JAN.-MAY 1984)

In order to evaluate the first few months of usage by the Clearinghouses of the new Target Audience data element, the Facility has performed a statistical analysis of this field for the first 5 issues of RIE during 1984 (See Attachment 3).

During this period, 70% of the accessions processed (4118 out of 5889) were assigned Target Audience. During earlier Facility tests, the percentage was only around 50%. The 70% figure supports the Facility's general feeling that Clearinghouses are tending early on to "fill the vacuum" and force this assignment somewhat. The field is not mandatory, but its very presence seems to challenge Clearinghouses to fill it. Clearly, users would be better served if Target Audiences were assigned only when explicitly stated or when persuasive evidence exists to support them.

The data show that all components of the Target Audience scheme were used significantly during this period. "Practitioners" was used a total of 1,685 times. This amounts to 28.6% of the total accessions during the period and 40.9% of the documents during this period that were assigned a Target Audience of any type. (It is important to realize that all the documents assigned one of the practitioner sub-types, e.g., "Teachers," were also automatically assigned the generic "Practitioners.")

As it stands so far, the spread indicates a data element that should prove useful to computer searchers trying to increase the relevance of their output.

...Ted Brandhorst (ERIC Facility)

A NATION RESPONDS: RECENT EFFORTS TO IMPROVE EDUCATION

The Facility recently acquired an early copy of NIE's summary of responses to the Final Report of the National Commission on Excellence in Education. This document, entitled "A Nation Responds," will be announced in the July 1984 issue of RIE (ED 240 748), together with the Special Announcement displayed as Attachment 4 .

Please note that the ERIC Facility Acquisitions Department will make an effort to acquire the various documents referenced in the text of "A Nation Responds."

...Nancy Stewart (ERIC Facility)

NEW ERIC FACILITY ACQUISITIONS ARRANGEMENTS

The ERIC Facility has initiated several new acquisitions arrangements. They are listed as Attachment 5. Clearinghouse Acquisitions Coordinators may wish to incorporate the information into the latest ERIC Acquisitions Arrangements (EAA) List (May 1984).

...Nancy Stewart (ERIC Facility)

EA DOCUMENT ANALYSTS ATTEND CLASS IN COMPUTER SEARCHING

In April, six EA document analysts participated in two one-hour training sessions using DIALOG to search the ERIC database. The class was conducted especially for the EA staff members by University of Oregon Research Librarian Ruth South, who spends approximately 20 percent of her working hours searching ERIC and other databases for faculty, students, and town patrons using both the DIALOG and BRS systems.

A handout consisting of DIALOG's "File 1 ERIC" write-up served as the basis for explanation and question-answer interchanges about searches and their strategy. Since the two sessions, class participants have, one at a time, been involved in hands-on Clearinghouse searches. The "/DE versus /DF in the DIALOG System" section from the EAB for Nov/Dec 1983 was discussed in class and a copy given to Ms. South.

...Mary Lou Finne (EA)

STAFF DEVELOPMENT SEMINARS HELD AT PS

ERIC/PS has begun holding bi-monthly seminars on topics of interest to PS users and staff. The first two seminar topics were "The Only Child" and "Super Babies--the Issue of Early Academics". A seminar on discipline in schools will be held towards the end of June.

The seminars serve multiple purposes--to update staff on issues of high interest for people in our field, to stimulate staff discussion and development, and to serve as an impetus to put together information that can be used in a variety of ways for other Clearinghouse purposes. Searches of the popular literature and ERIC on "the only child" and "super babies" concepts, for example, became the basis for ERIC/EECE newsletter articles, and "the only child" information is also being used in an ERIC Digest.

Staff members suggest the topics and volunteer to conduct the seminars. Articles and books are collected by the presenter(s) and made available to other staff members prior to the seminar to invite discussion. The seminars are held in place of the regular weekly staff meeting.

...Dianne Rothenberg (PS)

SUMMER SCHEDULE BEGINS AT ERIC/FL

ERIC/FL begins its summer hours schedule on Monday, June 4, 1984 and will continue on that schedule through Friday, August 31, 1984. Hours are: M-Th: 8:30-5:15 EDT, Friday: 8:30-12:30 EDT.

...Mary Niebuhr (FL)

CS CHANGES IN CIJE COVERAGE

As of June 1, 1984, ERIC/CS will be making the following changes in CIJE coverage:

Journals Added

Journals Deleted

Computers, Reading and Language Arts

Clearing House

Writing Instructor

Discourse Processes

Written Communication

Reading Improvement

Reading Horizons, Reading World, and Reading Psychology will move from selective to cover-to-cover coverage.

English Journal and Journalism Quarterly will move from cover-to-cover to selective coverage.

...CS

PERSONNEL NEWS

NEW ERIC/CS STAFF MEMBER

Valerie Leigh Cobb has joined the Reading and Communications Skills staff as Assistant to the Coordinator of Documents. A 1984 graduate of the University of Illinois, majoring in Speech Communication, Valerie comes to the CS Clearinghouse with a specialty in Oral Interpretation and a diverse background in community theater. She considers herself a real theater buff, with experience in stage managing, house managing, and set building and striking, as well as acting. About ERIC, Valerie comments, "I have learned a lot of interesting information about my major and about English in general from reading ERIC abstracts. I never would have read all the papers and books that these abstracts represent!" We're delighted to have her on our staff.

...CS

SO STAFF ASSIGNMENT CHANGES

ERIC/ChESS announces the following new job assignments effective June 1, 1984:

- Sydney Meredith, Assistant Director for Operations
- Sheryl Robinson, Cataloger/Coordinator of User Services
- Lynn Parisi, Coordinator of Outreach Services
- Leslie Hendrikson, Coordinator of RIE

...Jim Davis (SO)

ERIC/FL STAFF TEMPORARILY DEPLETED

We regretfully announce that John Brosseau, ERIC/FL's faithful Acquisitions Coordinator for the past 4 years and, more recently, the "microcomputer man" for all of the Center for Applied Linguistics, left ERIC/FL on May 11 to begin a new job with Berul Associates in Rockville, MD. (Kathleen McLane, formerly of ERIC, is the "Associates" part of Berul.) In addition, Jeanne Rennie, ERIC/FL's User Services Coordinator for the past 3 years, will leave us June 15 to pursue a Master's degree at Middlebury College. We will certainly miss not only the expertise, diligence, and effectiveness with which John and Jeanne have carried out their respective assignments during their tenure at ERIC/FL, but also the more intangible but nonetheless real qualities of cooperation, professionalism, and excellent interpersonal relationships that they brought to these activities. We all wish them the very best in their new endeavors.

...John L. D. Clark (FL)

MEMORANDUM

UNITED STATES DEPARTMENT OF EDUCATION
NATIONAL INSTITUTE OF EDUCATION

TO: Clearinghouse Directors

DATE: June 5, 1984

FROM: Charles W. Hoover *CHW*
Assistant Director, IR

SUBJECT: Digest File

I want to clarify CERIC's position on the online Digest File because of both the importance of the file, and the questions that have been asked about it by ERIC clearinghouse staffs:

1. CERIC is committed to the continuing development and expansion of the online Digest File. Funds permitting, the scope of the file will be extended to include all clearinghouse areas of interest, so that Digests will be responsive to all clearinghouse audiences.
2. Because Digests developed by the clearinghouses will eventually be entered into the online file, all Digests should be prepared according to the Project guidelines and models. The Project reference style sheet should also be followed.
3. To ensure a large enough file to interest users, CERIC will ask each clearinghouse to prepare 4-6 Digests annually as part of the regular clearinghouse scope of work. Completed Digests will be sent to the Project staff for inclusion in the file in much the same way as Digests are being processed during the 1983-84 pilot year.
4. All Digests are to be reviewed by both clearinghouse and external reviewers prior to acceptance for the online file. If there is any question as to whether a given Digest should be included in the file, the clearinghouse originating the Digest will make the final decision.
5. If a clearinghouse is not able to either spend the time or resources necessary for revising a Digest, the Project staff may, after coordinating details with the clearinghouse and CERIC, update the Digest for entry into the Digest File.
6. Project File staff will be responsible for updating (adding new material or revising an existing file), entering new records, and purging obsolete records, as well as coordinating input of Digests, monitoring file users' patterns and feedback, and interacting with vendors.

SCHOOL DESEGREGATION

19 CORE STUDIES

1. Anderson, Lewis V. The effect of desegregation on the achievement and personality of Negro children. Unpublished doctoral dissertation, George Peabody College for Teachers, 1966. (UMI 66-11, 237)
2. Baker, Jerome. A study of segregation in racially imbalanced urban public schools. Syracuse, New York: Syracuse University Youth Development Center, Final Report, May 1977.
3. Bowman, Orrin H. Scholastic development of disadvantaged Negro pupils: A study of pupils in selected segregated and desegregated elementary classrooms. Unpublished doctoral dissertation, University of New York at Buffalo, 1973. (UMI AAD73-19176)
4. Carrigan, Patricia M. School desegregation via compulsory pupil transfer: Early effects on elementary school children. Ann Arbor, Michigan: Ann Arbor Public Schools, 1969.
5. Clark, El Nadel. Analysis of the difference between pre- and post-test scores (change scores) on measures of self-concept, academic aptitude, and reading achievement earned by sixth grade students attending segregated and desegregated schools. Unpublished doctoral dissertation, Duke University, 1971. (UMI AAD72-00307)
6. Evans, Charles L. Short term desegregation effects: The academic achievement of bused students 1971-1972. Fort Worth, Texas: Fort Worth Independent School District, 1973. (ED 086 759)
7. Iwanicki, E.F., & Gable R.K. A quasi-experimental evaluation of the effects of a voluntary urban/suburban busing program on student achievement. Paper presented at the Annual Meeting of the American Educational Research Association, Toronto, Canada, March 1978.
8. Klein, Robert Stanley. A comparative study of the academic achievement of Negro tenth grade high school students attending segregated and recently integrated schools in a metropolitan area in the south. Unpublished doctoral dissertation, University of South Carolina, 1967.
9. Laird, M.A., & Weeks, G. The effect of busing on achievement in reading and arithmetic in three Philadelphia schools. Philadelphia, Pennsylvania: The School District of Philadelphia, Division of Research, 1966.

TARGET AUDIENCE STATISTICS

(FOR FIVE MONTH PERIOD JANUARY-MAY 1984)

A NATION RESPONDS:
RECENT EFFORTS TO IMPROVE EDUCATION

In May 1984, the Department of Education published this summary of the Nation's responses to recent studies in education, including the report of the National Commission on Excellence in Education, A Nation at Risk. This document extends the information provided in December 1983 in the publication Meeting the Challenge (ED 240 114) and consists of three parts:

- An overview that describes national developments in education in the last 12 months and summarizes State and local efforts to improve education.
- A section on State initiatives that provides a State-by-State profile of recent activities and a chart summarizing these initiatives.
- An informal sampling of significant efforts by local schools, school districts, postsecondary institutions, associations, and the private sector.

This report is available from the U.S. Government Printing Office (GPO), Superintendent of Documents, Washington, DC 20402 (\$7.50, Stock #065-000-00198-5).

It is also available from the ERIC Document Reproduction Service (EDRS), P.O. Box 190, Arlington, Virginia 22210, in microfiche (\$.97) or paper copy (231 pages, \$17.90). Order by the ERIC Accession Number (ED-240748, announced in the July 1984 issue of Resources in Education).

Information Analysis Products

- Teaching Technical Writing in the Secondary School. By Bertie E. Fearing and Jo Allen. 1984. Designed for secondary teachers who wish to supplement their units in traditional composition in mid- to high-level English courses with units in technical writing. Theory and Research Into Practice (TRIP) booklet. Available from the National Council of Teachers of English, 1111 Kenyon Road, Urbana, IL 61801. \$6.00 nonmembers, \$4.75 members.
- Reducing Writing Apprehension. By Michael W. Smith. Offers a good theoretical introduction followed by well-related practical techniques to decrease writing apprehension; a TRIP booklet for secondary and higher education composition teachers. Available from the National Council of Teachers, 1111 Kenyon Road, Urbana, IL 61801. \$5.75 nonmembers, \$4.50 members.
- Communication Consulting: Another Teaching Option. By Evan E. Rudolph and Barbara R. Johnson. 1983. Designed to help the teacher adapt to the different demands consulting makes by helping the client with communication skills and aiding the teacher in understanding the communication needs occurring in business settings. TRIP booklet. Available from the Speech Communication Association, 5105 Backlick Road, Suite E, Annandale, VA 22003. \$4.00.
- Time for Writing in the Elementary School. By Eileen Tway. 1984. Directed to elementary school teachers and principals, this TRIP booklet emphasizes the importance of providing the opportunity in school for practice that will accommodate the off-stage and on-stage process of writing. Available from the National Council of Teachers of English, 1111 Kenyon Road, Urbana, IL 61801. \$4.00 nonmembers, \$3.50 members.
- Training tutors for Writing Conferences. By Donald McAndrew and Thomas J. Reigstad. 1984. Presents information on research, as theory, concerning the use of peer tutors, and practical discussions of training and using peer tutors for writing instructors, researchers, and teachers in other content areas. TRIP booklet. Available from the National Council of Teachers of English. \$4.00 nonmembers, \$3.50 members.
- Reading in the Content Areas: Research for Teachers. Edited by Mary M. Dupuis. 1984. Intended for both elementary and secondary school teachers, this book is a reference source for the most recent research in content area reading instruction. An appendix lists texts in content area reading. Available from the International Reading Association, 800 Barksdale Road, Box 8139, Newark, DE 19714. \$6.00 nonmembers, \$4.00 members.

NETWORK NEWS

ERIC National Technical Meeting (1985)

With regional meetings having been held in 1984, ERIC will hold a single national technical meeting in 1985. Planning is currently underway to schedule this meeting sometime during May 1985 in the Washington metropolitan area. Responsibility for the meeting is being given to the FL Clearinghouse, which currently holds the chair to the ERIC Steering Committee. As the timing and other details of the meeting are decided upon, they will be announced in the EAB.

...Pat Coulter (Central ERIC)

Electronic Mail "Windows" Dispensed With

Usage data thus far has shown that the Clearinghouses on average use less than 10 minutes of their allotted 30-minute window. As a result, Central ERIC has decided to dispense with the time windows. Access to the MULTILINK electronic mail system will henceforth (July 16 forward) be on a first-come-first-served basis, and Clearinghouses may attempt to access the system at any time of the day and night.

...Pat Brown (ERIC Facility)

Advisory Board to Help HE with RIE Selection Problems

HE was pleased to have its National Advisory Board propose a solution for those rare problems when an author protests a Clearinghouse decision not to put his or her document in RIE. The Advisory Board will form a standing committee to adjudicate such situations.

...Lynn Barnett (HE)

New Slant on Acquiring Conference Papers

Due to the never-ending need to find candidate documents for RIE, coupled with severe staff time restrictions, HE has begun concentrating on a new acquisitions approach for fugitive documents. We are reviewing upcoming conferences in our scope area, and then contacting the conference program chairs to encourage them to include "submit to ERIC" information in their registration packets and/or instructions to speakers who might have prepared papers. This approach can be much more timesaving than trying to contact individual presenters after the conference. One of the flyers used in this effort appears as Attachment i.

...Lynn Barnett (HE)

Executive Summaries of HE IAPs Promoted to ERIC Users

The Clearinghouse on Higher Education has been using the Executive Summaries of its ASHE-ERIC Higher Education Research Reports (a 10-monograph series now in its 12th year of publication) as a marketing device. An Executive Summary, reprinted as a separate flyer, is mailed to 25,000 higher education professionals. With 10 reports a year, this means that 250,000 copies of Executive Summaries alone are reaching practitioners annually across the U.S. and in many foreign countries.

...Lynn Barnett (HE)

HE Indexes Its 1983 ASHE-ERIC Higher Education Research Reports Series

For the first time in 12 years, the Clearinghouse on Higher Education offers a back-of-the-book subject index to its ASHE-ERIC Higher Education Research Reports. The index (with 200+ headings, sub-headings, and cross-references) appears in Report No. 10 of the 1983 series, and it references all 10 reports in that year's series. Since there are more than 1,500 subscribers to the Research Report series, the index has been welcomed as a reference aid. The Clearinghouse is studying the possibility of providing a complete subject index to reports from previous years.

...Lynn Barnett (HE)

"Academic Workplace", an HE IAP, is Publicized Nationwide

A recent HE IAP, Academic Workplace: New Demands, Heightened Tensions, part of the ASHE-ERIC Higher Education Research Report monograph series, was mentioned in the March 21 issue of USA Today ("the nation's newspaper"). The newspaper contacted one of the authors, Ann Austin of the University of Oklahoma, for commentary on college faculty and job satisfaction.

...Lynn Barnett (HE)

HE Publications Go Arabic

The Arab Bureau of Education for the Gulf States requested permission from the ERIC Clearinghouse on Higher Education to translate into Arabic the first four ASHE-ERIC Higher Education Research Reports from the 1983 series. According to the Director General of the Arab Bureau, the translated reports will be distributed to leaders of education centers in the Arab Gulf States and faculty members of the 17 universities in the region. The Bureau has also promised to supply the Clearinghouse with complimentary copies of the Arabic translations.

...Lynn Barnett (HE)

Recommendations from SOC Representatives

In a June visit with librarians at Arizona State University (ASU), several recommendations for SOC work shops emerged. The ASU information specialists requested information on how the ERIC database is put together. They felt it would be useful to them as searchers to know, for example, how Descriptors are assigned, who assigns them, and how quality control and uniformity in Descriptor use are maintained. They mentioned that, in searching ERIC, they are often concerned with fine shades of difference between related Descriptors. In general, however, they felt that ERIC was the best organized of the databases they use.

...Lynn Parisi (SO)

PROCESSING ADVISORY

Clearinghouse Accession Numbers — Accuracy in Assignment is Essential

In recent weeks, the Facility has been requested several times by Clearinghouses to change the accession numbers on items already transmitted to the Facility.

In the case of CIJE input especially, such requests can be a problem because the input only remains at the Facility for approximately one week before it is sent to Oryx Press. After the first week then, the Clearinghouses should directly notify Oryx Press about any known duplicates in their CIJE input, because the Facility no longer has any control over the data. When it's necessary to notify Oryx, it's important to carefully explain the situation because the later input may have partially overlaid the earlier set, causing confusion and making it advisable to temporarily delete both sets of data until the problem is resolved.

Fixing this kind of problem with RIE data is facilitated by the fact that the data are at the Facility longer, but it is still a time-consuming and troublesome process. Clearinghouses are urged to take extreme care in proof-reading the Clearinghouse accession numbers they assign.

...Carolyn Weller (ERIC Facility)

PERSONNEL NEWS

HE Director Serves Unesco Group

Dr. Jonathan Fife recently served as the U.S. delegate to the liaison group for the European Center for Higher Education (CEPES), a UNESCO center headquartered in Bucharest, Rumania. The week-long meeting was held in Pont-à-Mousson, France, and included delegates from 34 countries. Dr. Fife was honored to be named rapporteur of the group.

...Marilyn Shorr (HE)

Fife in Who's Who

Dr. Jonathan Fife, Director of HE, was recently contacted for information to be included in the upcoming edition of Who's Who in America. Aside from his ERIC duties, he also chairs the Higher Education Program at George Washington University and serves as Executive Secretary-Treasurer of the Association for the Study of Higher Education (ASHE).

...Marilyn Shorr (HE)

Shorr Elected Treasurer of Higher Education Group

Marilyn Shorr was recently elected Treasurer of the Higher Education Group of Washington, DC, a 35-year-old organization of higher education professionals who meet regularly to discuss current issues facing academe.

...Lynn Barnett (HE)

Kreppein a Candidate for Guinness Book of World Records!

Carla Kreppein recently recorded her 17,000th accession number for an RIE document. HE feels sure that this must be an ERIC record and challenges the other Clearinghouses to come up with another staff person who can match her longevity and expertise in processing!

...Lynn Barnett (HE)

New Permanent Part-time Secretary at SP

Donna Tobias is a much-needed addition to the staff at the Teacher Education Clearinghouse as a part-time Project Secretary.

...Francie Gilman (SP)

TECHNOLOGY CORNER

SchoolNet -- A New Network for Educators

Techware Telecommunications Services (Eugene, OR) has announced a new information service for educators, beginning in April. Built around Telenet's Telemail service, SchoolNet is an electronic bulletin board system designed for high school teachers and administrators. It will be expanded to cover other user groups at a later date. It includes:

- bulletin board
- electronic mail
- online store for microcomputer software, hardware, and school supplies
- teleconsulting services

Other plans are in the works, including online course work and tutorials. Cost is \$300, which includes start-up costs, registration fees, plus a monthly minimum billing of \$10.00. For more information, contact:

Techware Telecommunications Services
474 Willamette Street, Suite 201
Eugene, OR 97401
(503) 744-0520

- Attachment 8: ERIC Clearinghouse Publications
- Attachment 9: Workshops/Conferences/Meetings

CSSHE PRESENTERS:

Consider submitting your written papers for possible inclusion in the education database--ERIC (Educational Resources Information Center).

ADVANTAGES

- **Announcement:** Some 5,000 organizations receive ERIC's abstract journal Resources in Education (RIE).
- **Publicity:** Addresses and price information is included for reports that are for sale by the originator.
- **Dissemination:** Documents accepted by ERIC are reproduced on microfiche and distributed (at no cost to you) to more than 700 libraries subscribing to the microfiche collection.
- **Retrievability:** Abstracts of papers in ERIC are retrievable to thousands of subscribers to online database vendors such as DIALOG, BRS, and System Development Corporation, as well as hundreds of locations offering batch-oriented computer searches of ERIC, and countless manual users.
- **Always "In Print":** Thanks to master microfiche at the ERIC Document Reproduction Service (EDRS), ERIC documents are constantly available and never go out of print.

SELECTION CRITERIA

All documents received are evaluated by subject experts for: contribution to knowledge, significance, relevance, newness, innovativeness, effectiveness of presentation, thoroughness of reporting, relation to current priorities, timeliness, authority of source, intended audience, comprehensiveness.

SEND: Two clear copies of your paper to the ERIC Clearinghouse on Higher Education, One Dupont Circle, Suite 630, Washington, DC 20036 (202) 296-2597. Please include a signed reproduction release (attached).

NOTE: Authors retain copyright even after a paper becomes part of the ERIC database.

ERIC CLEARINGHOUSE PUBLICATIONS

UD

The following are three new monographs in the Urban Diversity Series from ERIC/UD:

- Faculty Desegregation: The Law and Its Implementation, by Michael Rebell and Arthur Block (UDS 86). The paper provides an overview of legal standards for faculty integration and an analysis of the problems and issues that have arisen in complying with standards set by the Office of Civil Rights.
- Reforming Schools in the 1980s: A Critical Review of the National Reports, by A. Harry Passow (UDS 87). This paper looks at the important findings of the reform commissions and places them in a history of educational reform. Dr. Passow shows where the reports agree about what can be done to improve American secondary education.
- A Review of the Major Current Reports on Secondary Education, by A. Harry Passow (UDS 88). This paper summarizes the findings of the major commissions and studies.

The following are new ERIC Digests from ERIC/UD:

- Microcomputers: Equity and Quality in Education for Urban Disadvantaged Students (#19) discusses researchers' concern that the use of microcomputers in education may increase disparity between rich and poor, white and minority, and male and female students.
- Helping Hispanic Students to Complete High School and Enter College (#20) summarizes data on Hispanic college attendance and retention.
- The Social and Psychological Adjustment of Southeast Asian Refugees (#21) discusses sources of stress in the acculturation of Southeast Asian refugees and ways immigrants may be helped in adjusting to the United States.

HE

Many HE IAPs are relevant to staff on any campus. The following publications in the ASHE-ERIC Higher Education Research Report monograph series are available. Complete publications lists are available on request. (\$7.50 each; 10% discount for any 10 or more; order from Association for the Study of Higher Education, One Dupont Circle, Suite 630, Washington, DC 20036):

- Path to Excellence: Quality Assurance in Higher Education, by Laurence R. Marcus, Anita O. Leone, and Edward Goldberg. 68 pp. (#83-1). Suggests the value of institutional self-evaluation as a way to ensure program quality.

CH

ERIC CLEARINGHOUSE PUBLICATIONS

HE

- Faculty Recruitment, Retention, and Fair Employment: Obligations and Opportunities, by John S. Waggaman. 65 pp. (No. 83-2). A guidebook for hiring and keeping faculty.
- Meeting the Challenges: Faculty Career Options, by Michael C. T. Brokes and Katherine German. 46 pp. (No. 83-3). Suggests the need for reform of the faculty reward system.
- Raising Academic Standards: A Guide to Learning Improvement, by Ruth Talbott Keimig. 86 pp. (No. 83-4). A review of developmental studies programs and how to make them most effective in colleges.
- Serving Learners at a Distance: A Guide to Program Practices, by Charles E. Feasley. 66 pp. (No. 83-5). A primer for distance education at the postsecondary level.
- Competence, Admissions, and Articulation: Returning to the Basics in Higher Education, by Jean L. Preer. 102 pp. (No. 83-6). An examination of the preparation of students for college.
- Public Service in Higher Education: Practices and Priorities, by Patricia H. Crosson. 127 pp. (No. 83-7). Suggestions for college faculty service to business/industry, community, and government.
- Academic Employment and Retrenchment: Judicial Review and Administrative Action, by Robert M. Hendrickson and Barbara A. Lee. 119 pp. (No. 83-8). A review of legal action affecting college employees and suggestions for administrators.
- Burnout: The New Academic Disease, by Winifred Albizu Maléndez and Rafael N. de Guzmán. 100 pp. (No. 83-9). A look at burnout affecting faculty and administrators, with suggestions for combatting and preventing it.
- Academic Workplace: New Demands, Heightened Tensions, by Ann E. Austin and Zelda M. Gamson. 109 pp. (No. 83-10). A look at college and universities as workplaces, including suggestions for how to improve them.
- Adult Learning: State Policies and Institutional Practices, by K. Patricia Cross and Anne-Marie McCartan. 150 pp. (No. 84-1). A review of state and college-level responses to the increasing numbers of adult students in postsecondary institutions.

WORKSHOPS/CONFERENCES/MEETINGS

CH	DATE	LOCATION	STAFF	COMMENTS
IR	Feb. 14	Albany, NY	Pamela McLaughlin	<u>Learning Technologies Fair</u> Ms. McLaughlin served on a panel on microcomputer software evaluation and discussed the materials that are available in ERIC and strategies for accessing them.
IR	March 19-20	Chelmsford, MA	B. J. Vaughn	<u>Northeast Regional Exchange (NEREX) Panel Meeting</u> B. J. Vaughn represented ERIC on a NEREX panel aimed at exploring methods of disseminating software information in the schools. Other panel members were representatives of the State Boards of Education for seven northeast states and other members of NEREX.
IR	April 10-12	New York, NY	Jane Klausmeier & Pamela McLaughlin	<u>National Online Meeting</u> Approximately 2,000 people (including exhibitors) attended this three-day conference. Ms. Klausmeier presented a paper on MICROsearch and downloading that was published in the proceedings.
IR	April 13	Syracuse University, Syracuse, NY	Pamela McLaughlin & Jane Klausmeier	<u>Spring Media Conference</u> Ms. McLaughlin presented two workshops on new sources of information on microcomputer hardware and software. Ms. Klausmeier presented two workshops on telecommunications. The conference was attended by librarians and school media specialists from the upstate New York area.
IR	April 16-20	Syracuse, NY	Jane Klausmeier	<u>Dutch Educators Seminar</u> Ms. Klausmeier demonstrated MICROsearch to 40 educators from the Netherlands, who were attending a week-long seminar.

ACTION ITEMS

ERIC POSTERS

At various times, the ERIC Clearinghouses have produced ERIC posters suitable for display in library and information center environments. Usually the producing Clearinghouses have made the posters available to their own clientele, and there has been no central source of information or availability for such material.

Recently the Facility has received a rash of requests for ERIC posters, sometimes phrased in terms of specific posters (e.g. "Try ERIC" or "ERIC Who"), sometimes simply requesting ERIC posters in general. As a result, it would be helpful if copies of any ERIC posters that Clearinghouses are currently disseminating could be sent to the Facility, together with information as to their availability.

...Nancy Stewart (ERIC Facility)

REPRODUCTION RELEASES OBTAINED DURING PRACTICE FILE PROJECT

The ERIC Facility has received photocopies of all Blanket Releases obtained by SMERC during the National Education Practice File project. These Blanket Releases were also assigned by SMERC to Clearinghouses selectively, based on scope statements. In reviewing these release forms, we noticed that several involve organizations with which ERIC already has an arrangement. Therefore, if you wish to solicit documents from the organizations signing these Releases, please first check the ERIC Acquisitions Arrangements List (May 1984) in order to avoid duplicate acquisitions efforts.

Since the assignment by SMERC of the Releases was presumably based on the subject matter of a specific document, not all of them seem completely appropriate in terms of the total document output of the organization. In making acquisitions contacts, please be certain you are approaching an organization whose subject area reasonably matches that of your Clearinghouse.

...Nancy Stewart (ERIC Facility)

ERIC ONLINE DATABASE USAGE DATA -- INFOMETRICS, INC. STATISTICS FOR FOURTH QUARTER 1982

The online vendors (e.g., DIALOG, BRS, SDC) provide the generators of each of their databases with usage data pertaining to their particular database, but zealously guard against providing the same data in the aggregate.

Since many databases want to know where they stand relative to other databases or relative to the market as a whole, this has led to the formation of companies like Infometrics, Inc. that attempt to assemble these data via other channels. Specifically, Infometrics obtains the database billing data from some 550 user organizations, selected statistically to be representative of the entire user population.

This effort is supported by subscribers and NIE has become a subscriber in order to obtain the ERIC-related data. Under the terms of the agreement, each subscriber may promulgate the data pertaining to itself, but may not promulgate the data pertaining to the other databases covered by the study.

Since this statistical information about ERIC's online usage is of interest to virtually all components of the ERIC system, we have sifted through the second Infometrics report (July 1984), covering the fourth quarter of 1982, and extracted just those lines pertaining to ERIC. (See Attachment 1.) The Table and Column Headers have been retained as they are in the original report. Where the meaning of the data is not obvious, we have appended some explanatory footnotes. (See Attachment 1 - Footnotes.) The first Infometrics report was dated August 1983 and covered the third quarter of 1982. It was summarized in the EAB for October 1983.

Generalizations

The following generalizations can be made about the data pertaining to ERIC (for the fourth quarter of 1982):

- 1) ERIC is used most via DIALOG (about 75%), secondarily via BRS (about 24%), and least via SDC (about 1%).
- 2) ERIC is the second most used database offered by BRS (behind NLM).
- 3) ERIC is the second most used database offered by DIALOG (behind Chemical Abstracts).
- 4) In revenues, ERIC ranks 4th on the BRS list and 8th on the DIALOG list. This is attributable partially to the low hourly rate charged for ERIC (because no royalties need be paid to the Government).
- 5) Among all databases and all online vendors, ERIC ranks 4th in total connect time and 12th in total revenues.
- 6) Among social science databases ERIC is the most used, with usage amounting to over three times the second-most used database (PYSCINFO).

- 7) Within Academia, ERIC is the third most used database (behind LEXIS and MEDLARS). These top three databases accounted for 61.37% of all academic usage. The low-cost ERIC and MEDLARS databases accounted for 26.27% of all revenues from academia.
- 8) Within Government, ERIC is the second most used database (behind MEDLARS).
- 9) Within Industry, ERIC is the 14th most used database.
- 10) Within Public Libraries, ERIC is the 2nd most used database (behind INFOBANK).
- 11) Within the Medical community, ERIC is the 12th most used database.
- 12) Within the Not-For-Profit community (as a whole), ERIC is the 5th most used database.
- 13) ERIC's usage geographically ranks as follows:
 - (1) West (51%); (2) Northeast (30%); (3) North Central (12%); (4) South (7%)
- 14) ERIC experienced more growth in the 4th quarter (over 2000 hours) than most databases (probably because the 4th quarter corresponds with the fall semester).

...Ted Brandhorst (ERIC Facility)

EDUCATION-RELATED DATABASES

The Spring 1984 issue of Education Libraries, the organ of the SLA Education Division, contains an article by Anne Johnson, of Harvard's Gutman Library, with the title "A Review of Databases for Education" (see attachment 2).

The article covers true databases, as well as vendor services such as CompuServe. It is useful for the addresses, telephone numbers, and capsule descriptions it provides.

ERIC is the second item described.

...Ted Brandhorst (ERIC Facility)

SDC/ORBIT PROVIDES PROXIMITY SEARCHING OF ERIC DATABASE

The SDC Searchlight newsletter for March-June 1984 contains an article on Proximity searching using the ERIC database. A sample search dealing with computers in the classroom is included. The Searchlight article appears as Attachment 3.

...Ted Brandhorst (ERIC Facility)

ERIC MICROFICHE COLLECTION AVAILABLE FROM UNIVERSITY OF MARYLAND

The University of Maryland. Curriculum Laboratory has an ERIC microfiche collection, extending from 1966 through 1980, that they must sell. Attachment 4 describes the collection being offered (complete with storage cabinets!) and refers to a "modest negotiable compensation". Clearinghouses may wish to promulgate the offer to likely clients.

...Ted Brandhorst (ERIC Facility)

PRIVATE MESSAGE FEATURE IS ADDED TO MULTILINK ELECTRONIC MAIL SYSTEM

In response to popular demand, Pat Brown of the ERIC Facility has programmed a private message feature into the MULTILINK electronic mail software.

When a user initially signs on to the system and logs ".MSG," a check is made to see whether there are any private messages for that user. If there are such messages, the system gives the user the option of viewing them. Only a person knowing the user's private password will be able to see private messages directed to that user. After a user has read his/her last private message, the system asks the user to re-sign on to the system to view any global messages.

If you wish to send a private message, you should enter the command ".PRI" and then proceed as with the regular ".ENT" command.

In sending private messages, care should be taken to spell the receiver's name exactly as they do to sign on to MULTILINK. This standard form can be found in the ".USER" file. Name variations are assumed to be different individuals by the system and a message directed to a name the receiver doesn't use will result in a failure of the message to get to its intended destination.

Any problems experienced with the new ".PRI" command should be brought to the attention of Pat Brown at the ERIC Facility.

...Pat Brown (ERIC Facility)

PROCEDURES AT CE FOR HANDLING REQUESTS FOR DOCUMENTS WITH ED NUMBERS

When we receive requests for documents that are already in the system, we take the following steps:

- 1) Xerox the complete citation from RIE,
- 2) Put the ED number and number of pages on an EDRS Order Form,
- 3) Return citation and Order Form to the client with a letter telling them to complete the form and mail it to EDRS.

The principal reason for this procedure is to ensure that the user wants what we think they want. Often the title requested is close to but not quite matching with the title found in RIE and this method gives the user the chance to check everything over before actually ordering. It works well and we have had favorable comments on it.

...Judy Wagner (CE)

EA HOSTS ISRAELI EDUCATION OFFICIAL

Benjamin Feinstein, director of computer-assisted instruction for Israel's Ministry of Education, visited the EA Clearinghouse on Wednesday, July 18, for the purpose of selecting research in the area of computers and instruction. Clearinghouse Director Philip Piele spent an hour talking to him about networks and communications and ERIC's international connections.

Piele suggested that Feinstein contact Chuck Hoover of Central ERIC and Don Ely at the IR Clearinghouse for further information on using ERIC to access documents and journals dealing with computer-aided instruction.

...Stuart Smith (EA)

ERIC EASTERN REGIONAL TECHNICAL MEETING

Participant evaluations of the Eastern Meeting indicated that, once again, the aspect of these meetings we find most useful is the interaction with each other both during and outside of structured sessions. Major conclusion--ERIC Clearinghouse people find each other to be very stimulating company. The only formal recommendations concerned changes in a number of user services products (e.g., Directory of ERIC Microfiche Collections, Directory of ERIC Search Services, etc.). A lot of useful discussion centered on larger ERIC concerns such as the future of CIJE, the impact of home micros on ERIC, acquisitions needs, and Practice and Digest Files. A summary of the meeting will be sent to all Clearinghouses. Many thanks to Pat Coulter for her handling of the hotel details and to all the session leaders for their cooperative and competent work.

...Dorothy Beling (EC)

ERIC/HE INVOLVED IN INTERNATIONAL TRAINING EFFORT

As part of an ongoing agreement between the George Washington University and the University of Santa Catarina in Brazil, GW sponsored a 3-day training segment for Latin American college presidents from several countries. The segment (June 29-July 2) was part of a 2-month training program sponsored by the Inter-American Organization for Higher Education, Quebec, Canada. Included in the GW segment was a presentation by HE director Dr. Jonathan Fife on the ERIC system in general, the Higher Education Clearinghouse specifically, and the use of databases such as ERIC.

...Lynn Barnett (HE)

TELEVISION PRODUCER CALLS ON ERIC/PS FOR PARENT INFORMATION

Bread and Butter Television, Inc., New York City, producers of the "Working Mothers" program shown nationally on Lifetime Cable Network, called ERIC/PS recently to request information on various topics of interest to parents of young children. The topics, which will be the subject of future programs, include: living with a newborn; teenage parents; private leisure time for parents; choosing the best child caregivers; working mothers' support groups.

...Norma Howard (PS)

TEACHER EDUCATION MONOGRAPH SERIES AT SP OFF TO A FLYING START

Using Research to Improve Teacher Education: The Nebraska Consortium, the first volume in SP's Teacher Education Monograph series, has been selling briskly, due largely to a direct mail campaign (and the temperature of the topic). We used a mailing house to send a one-page self-mailer featuring Using Research and containing a coupon to 3,127 teacher educators on AACTE's mailing list. In 3 weeks we've received 96 requests for a total of 174 copies. This is a 3.05% response rate, which we think is very good and which certainly surpasses the results of our more passive IAP promotions in the past. It seems that direct mail announcements have the potential for getting the information to the people that need it.

...Francie Gilman (SP)

NATIONAL EDUCATION PRACTICE FILE: UPDATE

Several ERIC Clearinghouses have included news of the Practice File in their newsletters, and occasionally this news is only partially correct. In order to set the record straight, the following are some highlights of the physical composition of the Practice File:

1. Core File: A computer strategy was developed by the Practice File staff and executed by the ERIC Facility. The printout consisted of approximately 20,000 ERIC resumes which were reviewed by Information Specialists at SMERC for their relevance to the practitioner. This review resulted in the selection of 14,470 resumes which were tagged with PRACTITIONERS in the Target Audience field. This initial group of resumes is referred to as the "core" of the Practice File, or the Core File. These documents are primarily from July 1979 to April 1983.
2. Expanded Core: During testing of the Practice File "core," it was evident that the output was excellent in terms of "hits" or precision. However, it was also apparent that we should have allowed our "core" search to go back farther in time (prior to July 1979) in order to pick up "timeless" practitioner-oriented documents. Consequently, the Practice File staff requested permission of Central ERIC to execute a second search of ERIC using a simplified search strategy which would cut off the Practice File input at ED 100 000 (approximately May 1975). Permission was granted by CERIC; the search was run by the ERIC Facility; and resumes were again reviewed by the Practice File Project staff. By the end of January 1984, an additional 13,325 ERIC documents (the "expanded core") had been tagged with PRACTITIONERS in the Target Audience field.
3. "Official" Practice File: 1,234 documents were acquired, selected, and processed by Practice File staff. The first of these entered the ERIC system in the December 1983 RIE. The last will appear in the August 1984 RIE. Besides any appropriate Target Audience tags, these documents carry the Identifier "PF Project" in order to specifically identify the SMERC input. All documents in the "core," the "expanded core," and the "official" Practice File are Level 1 or Level 2.
4. Clearinghouse Practice File Input: In September 1983, Clearinghouses began using the Target Audience tag (which included applying the tag PRACTITIONERS to documents targeted for the educational practitioner). These documents can be Level 1 or Level 2 or even Level 3.

ALL DOCUMENTS CARRYING THE TARGET AUDIENCE TAG "PRACTITIONERS" CAN BE SEARCHED ON DIALOG BY THE USE OF "TA=PRACTITIONERS."

5. CIJE Tagging Project: When the Target Audience tag was first developed, it was applied to RIE documents only. During the field test of the Practice File, it was found that using that tag in computer searching resulted in an extremely precise printout when the search strategy was correct. That knowledge, coupled with the fact that some clients of the test sites and some of the test site searchers were disappointed that Practice File searches contained

no journal articles, prompted Practice File staff to request permission of Central ERIC to apply a similar search strategy to the CIJE backfile and to tag practitioner-oriented journal articles with the PRACTITIONERS Target Audience tag. Permission to do this was granted. The initial backfile search of CIJE was run by the ERIC Facility in June 1984. It covered the period July 1975 to May 1984, and resulted in approximately 20,000 resumes which are currently being reviewed by Practice File Project staff. A supplemental search to cover June/July/August 1984, will be run by the Facility in late August 1984. In the meantime, beginning July 1, 1984, ERIC Clearinghouses began applying the Target Audience tag routinely to journal articles. By October 1984, all CIJE citations from July 1975 through August 1984 should carry a PRACTITIONERS tag where appropriate; and all CIJE citations from September 1984 forward will be tagged by the Clearinghouses with the appropriate Target Audience tag (whether practitioner or otherwise).

The Final Report and Evaluation Report for the NEPF project is currently in draft form. It will be completed prior to the ERIC Director's meeting in mid-September in Washington, D.C., at which time a verbal report will be made. The Final Report will include, among other things, the advantages and disadvantages of full text, journal compilations, and short documents in a practitioner-based database; an evaluation of the project; and recommendations. By approximately January 1985, the Evaluation Report, the Final Report, and a separate Appendix to the Final Report will be available through ERIC. In the meantime, SMERC will put the above reports into microfiche format for limited distribution to the ERIC Clearinghouses (upon request), to the field test sites, and to members of the Working Group who helped define acquisition and selection criteria for the National Education Practice File in March of 1983.

...Katherine Clay (SMERC)

AERA SOLICITATIONS — PROGRESS REPORT

Because all of the Clearinghouses receive papers as a result of our solicitation of the American Educational Research Association (AERA) annual meeting, I thought you might be interested in an update of our progress.

In early April and again in late May, form letters were sent to all the presenters at the AERA meeting. At our exhibit booth during the meeting, we directly received 136 papers. At the Clearinghouse, we have received by mail an additional 559 papers so far. We expect to receive another 25-30 papers before the end of the year, bringing the grand total to 725. If realized, this would exceed the 1983 grand total by 65.

Of those papers we have received, 312 have been transferred to other Clearinghouses. Some of you received just a few, while others received as many as 40 or 50. If you feel there were papers presented at AERA that you should have received, but did not, please feel free to send a solicitation letter to the author, but only AFTER verifying that the paper is not already listed on the ADR and already being processed at another Clearinghouse.

A second solicitation activity which TM undertakes during the AERA meeting is to collect all the papers submitted to AERA Division H (School Evaluation and Program Development) in connection with their competition for the best evaluation reports. This year, we received 144 such papers, and they are currently being screened. Those that are not noteworthy for their methodology will be transferred to the appropriate Clearinghouse. These papers should be carefully checked for duplication because many of them are already in the database.

If you have any questions or comments about these AERA solicitation activities, please drop me a note on the MULTILINK electronic mail system, or phone me.

...Barbara M. Wildemuth (TM)

PERSONNEL NEWS

NEW STAFF MEMBER AT ERIC/EC

Joan Flamm has joined the staff of ERIC/EC as a part-time secretary. Beverly Gardner is still with us, but has reduced her schedule to part-time. We welcome Joan to the ERIC family and hope Bev will find enjoyable ways to spend her new "free" time.

...Lynn Smarte (EC)

TWO NEW STAFF MEMBERS JOIN ERIC/FL

We reported in the June 1984 EAB that two of our staff, John Brosseau and Jeanne Rennie, had resigned. We are now pleased to report that FL now has two new staff members, both of whom started work on June 18th. Molly J. Silliman, our new Acquisitions Coordinator, was a French major at Middlebury, whose courses included a year at the University of Paris studying political science and literature. In addition to being a fluent speaker of French, with additional background in Spanish, Molly has had two years of experience in micro-computer work and dBase II programming, which should stand her in good stead with regard to document tracking and processing procedures. Laura K. Wenzel, our new User Services Coordinator, has a B.A. in Philosophy and French from George Washington University and has taken a journalism sequence (with French minor) at the Boston University School of Public Communication. Her pre-FL activities have included daily and weekly newspaper reporting, free-lance magazine reporting, and planning and production of both public service announcements and radio interview programs, all of which have helped her to develop the communicative and interpersonal skills called for in her new assignment. We are certainly happy to welcome both Molly and Laura to FL, and look forward to their help in continuing a very effective clearinghouse operation.

...John Clark (FL)

STAFF CHANGES AT TM

Patricia Noeth recently left TM to pursue a master's degree in reading at Rider College. The Indexer/Abstractor position has been filled by Elizabeth (Betsy) Smith. Betsy comes to us after recently receiving her MLS from Drexel University, and working as a librarian at the George School (PA) and Camden Catholic High School (NJ).

Louisa Coburn has also left the Clearinghouse in order to move to South Carolina with her family. The User Services position has been filled by Emma Gonzalez-Stupp. After receiving her MLS from the University of Texas at Austin, Emma spent two years as an information specialist at the National Clearinghouse on Bilingual Education and two years as a reference librarian for the Mercer County Library (NJ).

I know that you will want to join us in welcoming Emma and Betsy.

...Barbara Wildemuth (TM)

MARYELLEN LO BOSCO LEAVES UD

Maryellen Lo Bosco has left the ERIC Clearinghouse on Urban Education. She worked for the Clearinghouse for three years as editor (formerly on RIE and CIJE abstracts and more recently on Clearinghouse IAPs and user services products) and as public relations coordinator. She has moved to the American Management Association in downtown New York, where she will be an Associate Editor for four of AMA's human resources periodicals. We at the Clearinghouse will miss her, and we give her our very best wishes for the future.

...Michael Webb (UD)

FOOTNOTES

Table 1

Hrs	=	Connect Hours
\$Tot	=	Revenue Dollars (in thousands)
Rev Shr %	=	Revenue Share expressed as a percentage of the total market
BRS	=	Bibliographic Retrieval Services
DIS	=	DIALOG Information Services
SDC	=	System Development Corp.
Q	=	Quarter

Table 3

Time	=	Connect Time
Output	=	Prints, displays, types, etc.
Runs	=	SDI's, search units, computer resource units, and other non-hourly search charges
Store	=	Search saves, stored searches, etc.
Comm	=	Telecommunications
Other	=	Credits or charges not specifically attributable to any of the above categories, e.g., volume discounts, training, etc.
*	=	Value is low, has a high margin of error, and is therefore subject to misinterpretation.

Tables 6, 7, 8, 9

Growth Index	=	The connect time growth rate of the entire industry is treated as 100 and related to the growth of each database. Thus the value shown is the ratio of individual database growth to the growth of the industry as a whole.
Cum Share	=	Additive percent of market, progressing from the top of the column downward.

A Review of Databases for Education

by Anne M. Johnson

This review of databases treats searching in BRS or DIALOG. The databases most frequently searched by those in education have been included with an eye toward communicating information which may not appear in the database documentation. A label in parentheses following the title of a database indicates that a file is up through BRS only. Asterisks to the left of the beginning date of the file signify that an authority list or thesaurus exists for use in subject searching. Following this text is a description of three vendors with audiences wider than those of the academic or school library, plus blurbs on services offered by BRS and DIALOG which serve the home market. These vendors as well as AFTER DARK and KNOWLEDGE INDEX should be watched for potential use in traditional settings.

BILINGUAL EDUCATION BIBLIOGRAPHIC ABSTRACTS (BEBA)

National Clearinghouse for Bilingual Education 1555 Wilson Boulevard, Suite 605 Arlington, VA 22209	• 1978 — 800-336-4560 703-522-0710 (Washington area residents only)
--	---

Bilingual/bi-cultural education is the focus of this database. Six of the twelve major content areas are bilingual education history and legislation, bilingual programs (descriptions, effectiveness, evaluation); curriculum and instructional methodology; ESL; languages and linguistics; and tests, measurement and evaluation. Curricula materials account for some 38% of the database, non-curricula materials 46%, and journal articles the remaining 12%. Seventy-three percent of the material is in English with the remainder representing more than 50 languages. Some of the 10,000 records also appear in ERIC so that the multidatabase search strategy should follow protocol for eliminating duplicate material. Acquisition practice at the Clearinghouse is now making a concerted attempt to deal selectively with material known to be in ERIC.

Among the available search fields are language series titles, language, full name of language in which the document is written; institution, organizational source of the document; and sponsoring agency. The *ERIC Institutional Sources Directory* is used for assigning institution names and codes and *ERIC Thesaurus* terms are used in subject searching.

EDUCATIONAL RESOURCES INFORMATION CENTER

ERIC Processing and Reference Facility • 1966 —
4833 Rugby Avenue, Suite 303 301-656-9723
Bethesda, MD 20014

The mission of ERIC is to bring the literature of education under bibliographic control for access by and dissemination to all levels of the educational community. Database content, in terms of literature type, reflects a wide range of interests. There are more than one-half million items in ERIC, divided almost equally between entries in *Resources in Education* (RIE) and *Current Index to Journals in Education* (CIJE). The largest concentrations of literature types in RIE reveals the following: research and technical reports, 32%; conference papers, 20%; project and program descriptions, 11.2%; guides, 11%.

Although the database is nearly all English-language materials, there is a significant body of literature dedicated to education in other countries, especially developing nations. The system lends itself well to country searching via the title and identifier fields. Those areas peripheral to education — psychology and sociology — receive significant coverage in both the document and journal indexes. Literature useful for business applications can be found when there exist questions dealing with multi-disciplinary principles/procedures or for matters dealing with personnel and training and development.

Since documents and journal articles receive an average of eleven and seven terms, respectively, it is important that users be informed of the potential for and consequences of weighted versus unweighted searches. Given the indexing procedures and the size of the database, there exists the possibility for significant off-target literature if the preceding factors are not taken into consideration.

EDUCATIONAL TESTING SERVICE TEST COLLECTION (ETSF)

Educational Testing Service Test Collection Princeton, NJ 08541	• 1983 — 609-734-5737
---	--------------------------

ETSF has descriptions of more than 5000 test materials, evaluation tools and assessment/screening devices. Educational tests (achievement, aptitude, subject mastery, etc.)

Education Libraries 5

account for the preponderance of the materials; however, personality, attitude, self-concept, and aptitude tests and measures are found in the file. A particular effort is made to put research instruments in the database.

Currently the quarterly updates number some 600 records. Once the back-file has been input they will average some 100-500. Subject searching is done through ERIC descriptors. Tests from other countries — in particular England, Canada and Australia — may be excluded with the not operator and "foreign countries." Among the available search fields are title, subtest, author, descriptor, identifier (ERIC or ETS), abstract and target. In regard to this latter field, it is to be noted that anyone over 18 is described as "adults." Literals must be employed to search numbers and since number ranges have been exploded, searching "12" would retrieve the audience 10-13. Availability is included in the record and is searchable in different ways. Free text and truncation should be used since source names appear in varying formats.

EXCEPTIONAL CHILD EDUCATION RESOURCES

Council for Exceptional Children • 1966 —
1920 Association Drive 703-620-3660
Reston, VA 22091

ECER online corresponds directly to the quarterly print product with the same title. It is intended for use by those researchers, educators and psychologists who are concerned with all areas of exceptionality, including the handicapped and the gifted. Journal articles, curriculum materials, books, program descriptions, convention and conference papers, and dissertation citations are contained in the database. Significant percentage breakdowns which give an indication of these document types are journal articles: 55%; published books: 22%; ERIC documents: 20%; and dissertation citations: 3%. CIJE articles (some 28% of the journal literature) plus the ERIC documents combine to form almost half the database. When doing an ERIC and an ECER search, it is important to follow procedures to exclude duplicate material.

ERIC terms are used in subject searching. A significant application of subject terms is made for "special education" and "disabilities." The former is used for general literature/trends in the field while the latter is applied to articles which deal with three or more handicapping conditions. The capacity for weighting in ECER was first added in 1975. This file of over 50,000 items is updated monthly.

LANGUAGE AND LANGUAGE BEHAVIOR ABSTRACTS

Sociological Abstracts, Inc. • 1973 —
P.O. Box 22206 619-565-6603
San Diego, CA 02122

The total file of LLBA numbers some 66,000 documents of which the majority are journal articles. Association papers and book reviews are also included. Quarterly, approximately 1,800 records are added. An authority file presents terms available for subject searching. Natural language identifiers provide additional access points to the literature. Several of

the fields available for searching are author, document type, author affiliation, language, abstract, and year and country of publication.

Broad subject areas from LLBA of interest to educators are language acquisition, language disabilities and second language learning. Additional topics concern subjects such as reading readiness; materials and testing; adult language development; non-native language acquisition; language tests; and special education, including therapies, e.g., language and hearing therapies.

MENTAL MEASUREMENT YEARBOOK (MMYD)

Buros Institute of Mental Measurements 1978 —
University of Nebraska - Lincoln 402-472-1739
135 Bancroft Hall
Lincoln, NE 68588-0348

Approximately 1400 tests drawn from the eighth edition of the MMY plus tests to appear in the forthcoming ninth MMY are included in this database. The file is dynamic and contains new tests as well as those which have been revised since the 1978 eighth MMY. The complete record, with the exception of the references, is available for online or offline printing. Almost the entire record is available for searching. Monthly, approximately 40 records are added. Among available fields are test name, author(s), publishers, population, scores, manual information, and reliability and validity data.

MICROCOMPUTER INDEX

Microcomputer Information Services 1981 —
2464 El Camino Road, Suite 247 408-984-1097
Santa Clara, CA 95051

Microcomputer Index appeared online one year after the appearance of its print counterpart. It provides access to some 50 popular microcomputer magazines of which 30-35 are indexed cover to cover. File content numbers some 20,500 items with monthly updates of approximately 700 records. Representative of the topics covered are the broad areas of business, law and education. Of particular use is the capability of searching for reviews — hardware, software or book. Further, reviews are categorized as non-favorable, favorable, mixed or unfavorable. A search field is also available for programming languages.

NATIONAL COLLEGE DATABASE (PETE)

Peterson's Guides, Inc. 14th Edition
P.O. Box 2123 609-924-5338
166 Bunn Drive
Princeton, N.J. 08540

This file is the online counterpart to the two annual volumes which comprise *Peterson's Annual Guides to Undergraduate Study*. Full-text or field searching is available on the complete record and includes college name, state name, undergraduate profiles, freshman data, enrollment patterns, majors, etc. Category code searching permits access to information which includes admissions requirements and patterns, level of competitiveness, percentage of part-time

students, demographic information, etc. Hence, in addition to being useful to guidance counselors the file has potential for use by educational researchers and statisticians. Approximately 3,000 profiles of United States and Canadian two- and four-year colleges and universities are contained in the database.

ONTARIO EDUCATION RESOURCES (ONED)
MOWAT Block, 13th Floor 1970 —
Queens Park 416-965-4110
Toronto, Ontario, Canada M7A 1L2

The "Ontario Education Resources Information System" is online through this database. It contains approximately 6,000 records and is updated every other month. Material is contributed from a variety of sources; among them are the Ontario school boards, ministries of education, and ministries of colleges and universities. Educational research, reports and curriculum guidelines are included. Several of the searchable fields are material type (bibliographies, conference papers and proceedings, statistical tables and journal articles, etc.), educational level, target population, funding source and special features (literature reviews, appendices, and tables or charts).

PSYCHOLOGICAL ABSTRACTS
PsycINFO * 1967 —
User Services Department 800-336-4980
American Psychological Association 703-247-7829
1400 North Uhle Street (Virginia
Arlington, VA 22201 Residents Only)

Online since 1967, PsycINFO annually scans more than 1300 journals for incorporation into the database. Purporting to cover the world's literature in psychology, it also selectively treats the fields of education, sociology and business. Significant focuses of interest to those in education are educational psychology, curriculum, achievement, learning, teaching methods, testing and measurement, counseling, attitudes of students and teachers, and classroom dynamics. General behavioral articles as well as articles on special and remedial education can be found in PsycInfo when they may not have appeared in the educational literature.

As of 1980, dissertations are retrievable online only and books have been omitted. Journal and serial publications account for 75-80% of the database, dissertations about 20%, with the remainder devoted to miscellaneous publications and technical reports. Approximately 90% of the yield from PsycINFO will be in the English language; however, provision is made for capturing literature by language type. The average number of subject headings is 6-7, but, pre-1973 items can have as few as two. Since the database includes literature on both animals and humans, searchers must be cognizant of limiting capabilities as the search warrants it.

The time lag from publication date to an item's appearance in PsycINFO is 3 to 6 months or longer. As of February 1984, an attempt will be made to shorten this via a new file, PsycAlert. To date, arrangements have been made for this file

to be only through DIALOG. PsycAlert will be updated weekly; material will be accessible, in an abbreviated record, within one to two weeks of publication.

PUBLIC AFFAIRS
INFORMATION SERVICE
Public Affairs Information Service * 1972 — Foreign
11 West 40th Street Language Index
New York, NY 10018 1976 — Bulletin
212-736-6629

PAIS is an international social sciences database covering issues of public policy, international relations, education, economics, public administration, law, social welfare and social anthropology. Education is examined in terms of specific countries as well as in terms of broad issues, e.g., academic achievement and degrees, area studies, education of particular groups, and training and development. Both PAIS indexes combine to form a total of more than 202,000 records with a document type distribution of periodical articles; books; serials; conference proceedings; and federal, state and local documents. The indexes can be searched as separate subfiles.

Since foreign language material accounts for approximately 39% of the database, language type warrants attention during the search interview. Subject terms are assigned from a controlled vocabulary list of more than 9,000 main headings plus over 20,000 subject or geographic subheadings. Up to four subject descriptors are assigned to each item.

RESOURCES IN
COMPUTER EDUCATION (RICE)
Northwest Regional
Education Laboratory * 1979 —
300 S.W. Sixth Avenue 503-248-6800,
Portland, OR 97204 Ext 551

RICE is funded by NIE and operated by the Northwest Lab. It contains information on educational computer applications. Record type and the approximate number of entries are as follows: producers of application packages for computers in education, 2100; the software packages themselves, 280; computer literacy materials, 160-170; and projects, 80. These parameters should be included in most search strategies to avoid false drops.

Both ERIC descriptors and database supplier identifiers can be used for subject searching. Each record contains a range of information useful both as record access points or in locating specific types of material. These include contact information, hardware type, system requirements, grade level, and evaluations.

RESOURCES IN
VOCATIONAL EDUCATION (RIVE)
The National Center for
Research in Vocational Education * 1978 —
1960 Kenny Road 800-848-4815.
Columbus, OH 43210 Ext. 76

Education Libraries 7

RIVE provides information on state and federal curriculum development projects, ongoing or recently completed R & D efforts, and exemplary and innovative programs. ERIC descriptors serve as the basis for subject access to the 10,000 items in the file. Updating of the database occurs on a quarterly basis with the addition of some 500 records. It is to be noted that the descriptors used to conform to the most recent edition of the *ERIC Thesaurus*, available at the time of indexing, e.g., for FY 78 - FY 79 the 7th was in use. In some cases, therefore, "invalid" descriptors may work.

SCHOOL PRACTICES INFORMATION FILE (SPIF)
Education Service Group * 1981 —
1200 Route 7 518-783-1161
Latham, NY 12110

This file, updated monthly, contains some 20,000 records devoted to descriptions of educational programs, practices, materials and products. Subject descriptors are drawn from the *ERIC Thesaurus*. The informative record permits ease in follow-up for programs and materials. Among the items it includes are title, author, publisher, year of publication or operation, resource type, availability, contact person, grade level and target audience. At its inception, the database contained material from members of the SPIN network as well as government agencies, commercial publishers, and state departments of education. Currently, the file is augmented by contributions from any BRS customer. It is to be noted that all ETSF material is contained in SPIF.

SOCIAL SCIENCES CITATION INDEX
Institute for Scientific Information (ISI) 1972 —
325 Chestnut Street 800-523-1850
Philadelphia, PA 19106 215-923-3300,
Ext. 357 (PA)

Currently SSCI contains some 1,064,000 records drawn from some 5,200 journals, of which 1,400 are fully covered and the remainder treated selectively. The preponderance of retrievable literature is journal articles; however, book reviews, discussions, editorials, biographical items, letters, meetings and literature reviews are included.

Social science is broadly defined, so the Index includes much of particular interest to those in education such as communication, educational research, linguistics, psychology and sociology. Cited author, cited reference, author (personal or corporate), and subject searching are viable approaches to the literature; each reveals the relationship between people working in a field and those whom they cite or by whom they are cited. It is to be remembered that subject searching is drawn from a keywork-in-title index. ISI's computer-based operation permits database input within 2 weeks of item receipt.

SOCIOLOGICAL ABSTRACTS
Sociological Abstracts, Inc. * 1963 —
P.O. Box 22206 619-565-6603
San Diego, CA 92122

Sociological Abstracts screens 1,500 serials annually of which some 160 are core publications. Some areas which are of specific interest to those in education are the sociology of education, women's studies, social psychology, social structure, the family, social problems and community development.

After 1972 abstracts were added to the file. The majority of the literature is journal articles, but representative of other document types are book abstracts and association papers. Several of the available search fields are document type, language type, country of publication and abstract. Non-English language material accounts for 22% of the file content. An authority file of several thousand controlled vocabulary terms is available for subject searching. At the present time this file numbers approximately 135,000 records. Updating the file occurs five times a year with some 1,800 records.

VOCATIONAL EDUCATION CURRICULUM MATERIALS (VECM)
Curriculum Coordination Centers
and the National Center for
Research in Vocational Education * 1977 —
Ohio State University 800-848-4815,
1960 Kenny Road Ext. 76
Columbus, OH 43210

VECM contains information about current print and non-print curriculum materials. Subject terms are drawn from the *NCES Classification of Instructional Programs*. Entries are searchable by sponsoring agency, state, educational level, intended user, and student target population, etc. An availability statement is given for each record. Quarterly updates augment the file by approximately 250 records. Currently the file size stands at some 3,500 items.

Keep your eye on developments from the following vendors:

AFTER DARK
Bibliographic Retrieval Services 518-783-1161 or
1200 Route 7 800-833-4707
Latham, NY 12110

The AFTER DARK Search Service offers access to 34 databases in the broad areas of sciences/medicine, business/financial, reference, education and social sciences/humanities. Database coverage is the same as that for the regular search service. The system is designed for the layperson and is either command or menu driven. Commands are more limited than those available in the regular service. Access hours are Monday through Friday 6:00 p.m. - 4:00 a.m., Saturday 6:00 a.m. - 4:00 a.m., and Sunday 6:00 a.m. - 2:00 p.m. and 7:00 p.m. - 4:00 a.m. Charges are \$6.00/connect hour plus any producer connect hour royalties. A \$50.00 start-up charge includes documentation and a bi-monthly newsletter. Individuals pay for service through establishing a deposit account or by credit card while institutions pay

through either of these two mechanisms or institutional billing. No offline printing is available for either the full-text or bibliographic databases.

COMPU SERVE

CompuServe Information Service 800-848-8199
5000 Arlington Center Blvd. 614-457-0802
Columbus, OH 43220 (Ohio residents
only)

CompuServe is a utility offering a wide range of programs in information retrieval and communications. Representative of the types of information are financial (news reports, figures on securities, descriptive and financial facts about major publically-held companies, etc.), electronic encyclopedic, shopping, banking, and text editing. Of particular interest to those in education are Grolier's *Academic American Encyclopedia* (full-text, searchable by title only, but, soon to be enhanced) and the upcoming files of EPIE (initially, software reviews), ERIC (to be loaded for the last five calendar years), and the Minnesota Educational Computing Consortium (MECC) software catalog. Searching after 6:00 p.m. on week-ends or on holidays permits access at almost one-half the cost of week-day searches. There are no start-up, subscription or monthly fees entailed with CIS.

KNOWLEDGE INDEX

DIALOG Information Services, Inc. 800-528-6050,
3460 Hillview Avenue Ext. 415
Palo Alto, CA 94304

Twenty-two databases are available for searching through KNOWLEDGE INDEX. They cover the broad areas of medicine/psychology, corporate news/business and legal information, computers/electronics/engineering, magazines/news/books, and education and government publications. With the exception of two engineering databases retrospective coverage is the same as that for the regular search service. The system is designed for searching by the layperson. Knowledge Index is command driven, offering a simpler and more abbreviated array of commands than in the regular service. Access hours are Monday-Thursday 6:00 p.m.-5:00 a.m., Friday 6:00 p.m.-12 a.m., Saturday 8:00 a.m.-12:00 a.m., and Sunday 3:00 p.m.-5:00 a.m. A \$35.00 start-up fee includes documentation, two hours of free searching, and the quarterly newsletter. The hourly connect rate is \$24.00. Billing is done through major cards.

NEXIS

Mead Data Central 513-859-1611
9333 Springboro Pike
P.O. Box 933
Dayton, OH 45401

NEXIS searching permits access to the full text wide range of newspapers, magazines and wire services. One can elect to search the entire database, or to search specific files such as the Britannica 3 or the New York Times, plus yearbooks. This

latter "library" was loaded in full text from 1980 - retrospective coverage of NYT abstracts dates to 1969. In general, newspapers and wire services will be included from January, 1977 - and magazines will include material from January, 1975 -. New publications, with varying degrees of coverage, are added as agreements are made. The price structure is being changed to reduce connect rate and to make search charges predictable. Currently, NEXIS can be searched on custom terminals, on an IBM PC, an IBM Displaywriter, an IBM 3101, a Televideo 950 or a Hazeltine model. There is a monthly subscription fee. Training, follow-up and documentation are available without charge and whenever requested.

THE SOURCE

1616 Anderson Road 800-336-3366
McLean, VA 22102

The Source is a menu-driven multifaceted system of more than 700 programs. Areas fall broadly into the categories of news and information, business services, consumer services, entertainment, publishing, travel, career information, and word processing. The system permits storage, transfer and retrieval of information as well as communication. Searching after 6:00 p.m. affords a cost reduction of nearly two-thirds that incurred from 7:00 a.m.-6:00 p.m. A start-up fee includes the ID number, password, manual, and monthly newsletter. A minimum dollar amount must be used each month.

Anne Johnson, Head of Reference, Gutman Library, Harvard University; became Librarian, North Shore Community College, Beverly, MA on May 1, 1984.

Database News & Development

Computers in the classroom: Search in file ERIC shows how computers are changing the shape of education

Now *PROXIMITY*-searchable!

Computers are fast becoming standard equipment in many elementary and secondary schools, learning centers, colleges, and universities. Instructors are using computers and educational software and often programming their own software to aid in classroom instruction, to assist students with learning disabilities and, often, to equip students with the computer skills and applications so highly prized in the job market. The ERIC database contains the latest research on computers and education. Coverage includes computer-assisted instruction, computer literacy, computer uses in education, educational software, and microcomputer applications.

ERIC Sample Search: An instructor in the area of special education is designing a course curriculum for deaf children. The instructor would like to incorporate computer-aided instruction into the curriculum and wants to know what computer applications exist specifically for deaf children. A quick search of the ERIC database gives the instructor several useful citations:

Broad coverage in ERIC

ERIC covers the broad spectrum of education including emerging technologies such as computers. It covers report and periodical literature in education and education-related areas: counseling and personnel services; career education; early childhood education; educational management; exceptional children; information resources; languages and linguistics; reading and communications; rural education; tests, measurement, and evaluation; and teacher education. ERIC is supplied by the ERIC Processing & Reference Facility of the National Institute of Education. The database coverage corresponds to the printed publications *Resources in Education* (RIE) and *Current Index to Journals in Education* (CIJE). Coverage is from 1966 to the present, and the database is updated monthly.

UNIVERSITY OF MARYLAND
COLLEGE PARK 20742

COLLEGE OF EDUCATION
CURRICULUM LABORATORY
454-5466

July 24, 1984

Mr. Ted Brandhorst
ERIC Facility, Suite 301
4833 Rugby Avenue
Bethesda, MD 20014

Dear Mr. Brandhorst:

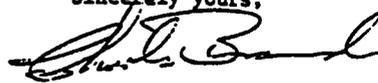

Presently the Curriculum Laboratory maintains a microfiche collection of approximately 130,000 ERIC research documents dating from 1966 through 1972 (incomplete) and from August 1972 through 1980 (complete). Unfortunately, however, we must soon remove the eight cabinets which house the collection in order to make room for additional book shelves.

Consequently, we are seeking another library interested in acquiring the documents to make their ERIC collection more complete or to fill in gaps of missing documents.

For only a modest negotiable compensation we can provide your library with this sizable ERIC microfiche collection plus eight steel, eight-drawer storage cabinets designed to store the documents.

If you are at all interested in the ERIC collection or the storage cabinets, please contact me by mail or by phoning (301)454-5467.

Sincerely yours,

Charles F. Brand, Director
The M. Lucia James Curriculum Lab

EDUCATION CONSOLIDATION AND IMPROVEMENT ACT (ECIA) CHAPTER NUMBERS

When the Elementary Secondary Education Act program went out of existence, all of its Title I, II, etc. parts went with it. In its place, the Education Consolidation and Improvement Act (ECIA) was created. Subdivisions of this new act are called Chapters 1, 2, etc. Please note that Arabic numbers are used for these chapters instead of Roman numerals.

If a document title references ECIA and mistakenly uses a Roman number for a Chapter, it is necessary to catalog the document in that manner. However, within the Abstract and Identifier fields, the correct Arabic numbers should be used.

NETWORK NEWS

RIE SEMIANNUAL INDEX (JANUARY - JUNE 1984)

The RIE Semiannual Index for January-June 1984 is 872 pages long (counting actual indexes only) and covers the indexing of 7,103 accessions. Even though it is a very attractive and informative index, it is almost as large as the RIE Annual Index used to be.

One of the reasons for this size is that the "discretionary" indexes, the Subject and Publication Type indexes, continue to be very large (492 pages and 138 pages, respectively).

We have observed that there seems to be a general tendency for document processors to "fill the vacuum" and to index up to the limit of seven major subject index terms and three Publication Types. This tendency needs to be controlled by Clearinghouse managers and supervisors. We urge the Clearinghouses to keep a critical eye on the indexing for these two fields and to do their best to avoid an RIE indexing "bloat" that could eventually cause publication problems.

...Central ERIC

NIE BROCHURE

Thanks to Pam McLaughlin's (IR) noticing a recent announcement of an NIE brochure, we were made aware that Clearinghouses may not have seen the Institute's latest booklet on its organization, priorities, and activities. A copy of the brochure accompanies this EAB. If additional copies are wanted please contact CERIC.

...Kevin Arundel (Central ERIC)

PCB CHANGE

As discussed at the ERIC Directors Meeting, a change has been made to the Performance Category Budget (PCB) form. The former category, "User Workshops", has been modified to "Outreach and User Training". The appropriate revisions to the Administrative Procedures Manual are attached. (See Attachment 1).

...Pat Coulter (Central ERIC)

WRITERS GROUP TO BE ADDED TO CLEARINGHOUSE MAILING LISTS

As agreed at the ERIC Directors Meeting, the following members of the NIE Writers Group should be added to each Clearinghouse mailing list:

Mr. Jim Bradshaw
Office of Public Affairs (OPA)
National Institute of Education (NIE)
1200 19th Street N.W., Room 816-E
Washington, D.C. 20208

Ms. Laurie Maxwell
Office of Public Affairs (OPA)

CE CLEARINGHOUSE CONTRACT WON BY OHIO STATE UNIVERSITY

Central ERIC is pleased to announce the award of a new 5-year contract to Ohio State University, Columbus, for the continued operation of the ERIC Clearinghouse on Adult, Career, and Vocational Education.

The new contract period extends from September 14, 1984 to September 13, 1989. During the first year of the contract, CE will develop major information analysis products on the following topics:

- Using Videodisc Technology in Vocational Education and Occupational Training
- Education and Improvement: Review and Synthesis of the Research
- Vocational Training and Adjustment of Immigrant Workers
- Use of Volunteers in Adult Literacy Programs
- Part-Time Teachers and Program Excellence in Adult and Post-secondary Vocational Education
- An Overview of Quick Start and Customized Training Programs
- Agricultural Education: Review and Synthesis of Research. Fourth Edition

...Mildred Thorne (Central ERIC)

"TABLE OF CONTENTS" - TYPE ABSTRACTS AND THE PROBLEM OF ABSTRACT SIZE

Sometimes when confronted by a large and complex conference proceedings document, the best solution to the abstracting problem is to simply do a "Table of Contents" type of indicative abstract. The titles of the papers presented often do the best possible job of conveying to the reader the content of the document.

When the list of titles and authors is extremely lengthy, however, such an abstract can easily exceed the ERIC guideline of 200 words per abstract. Three hundred words is not unusual for indicative abstracts of this type and we have seen some that have even reached 400 words, or twice the normal size. Several Clearinghouses have asked as to what should be done under such circumstances.

Let us start by saying that for this type of document we are of the firm opinion that a "Table of Contents" indicative abstract transmits the maximum possible amount of information about the document. Also, in these days of full text searching, such an abstract can be extremely productive in terms of providing key search terms and author names that can be retrieved using full text search techniques. Granted, it is sometimes possible to do informative-type abstracts for proceedings documents, especially when the papers fall into categories or conceptually-related clumps. However, when the papers can not be grouped, an attempt at an informative abstract for a large proceedings can become badly muddled.

Sometimes the education-related material represents only a part of the total proceedings and the abstract can, therefore, limit itself to listing solely those papers that are relevant to the Clearinghouse's scope. It is not a good idea, however, to be arbitrarily selective about the papers one lists in an abstract.

Sometimes a proceedings contains both full papers and mere abstracts (or even mere titles), in which case the RIE announcement can limit itself solely to the full papers that the user of the document would be able to actually read.

If a proceedings document is analyzed, the RIE records for the papers individually processed (i.e. the "analytics") will provide adequate title and author retrieval capability. An analyzed proceedings may, therefore, dispense with a "Table of Contents" type abstract because the individual papers are getting even more exposure than they would in such an abstract.

These devices, aimed at shortening the abstract field, should always be kept in mind by the abstractor as possible options, and when appropriate they should be used. However, when they cannot be used and the list of titles is long, the abstractor would seem to have little choice but to exceed the EPM guideline figure for abstract size.

During the recent Practice File project, Central ERIC set a limit of 500 words for the size of documents entered into the RIE abstract field in their entirety — so-called "full-text documents." With this in mind, perhaps 400 words would be a good upper limit to observe in the case of Table of Contents-type indicative abstracts. This has been discussed preliminarily with CERIC and they concur with most of the points made here. However, they stress that the existing emphasis in the EPM on informative abstracts over indicative abstracts must be retained. Any new EPM guidelines approved by CERIC will be reported to you in the EAB and via EPM revised pages. Meanwhile, the Facility will continue to make size exceptions for this particular kind of abstract.

Lurking over this entire discussion is the limitation imposed by the RIE annual page limitations. A small number of long abstracts can be accommodated across the year, but an excessive number could begin to threaten these limitations. Clearinghouses should try to make very long abstracts a relatively rare occurrence, hopefully compensated for somewhat by other more succinctly expressed abstracts for shorter documents.

NOTE: The preferred format for a Table of Contents listing in the abstract is to enclose the exact title in quotation marks followed by the author(s) within parentheses, e.g. "Title" (Authors); "Title" (Authors); etc.

...Ted Brandhorst (ERIC Facility)

PRACTICE FILE FINAL REPORT — EXECUTIVE SUMMARY

At the ERIC Directors Meeting on September 12-13, 1984, Kathy Clay of SMERC delivered a summary of the Practice File Final Report. The Executive Summary of the Final Report was a handout roughly corresponding to her oral presentation and is reproduced here as Attachment 2.

...Ted Brandhorst (ERIC Facility)

ACCESSING ERIC VIA COMPUERVE

The SE Clearinghouse has been working closely with the CompuServe Information Service to add the ERIC database to the information files offered by CompuServe. Attachment 3 provides a detailed description of exactly what ERIC services are currently available from CompuServe and what services will be available in the future. Instructions on how to subscribe are provided.

...Ted Brandhorst (ERIC Facility)

ORYX PRESS DEVELOPS "PERIODICAL FACT SHEETS"

Oryx Press has developed Periodical Fact Sheets for their product line. The sheets pertaining to CIJE and the microfiche cumulations of RIE and CIJE can be of great utility to ERIC user services staff responding to reference inquiries, and are reproduced here as Attachments 4 and 5.

...Ted Brandhorst (ERIC Facility)

BRS PROMISES TO RE-DEFINE LV FIELD

BRS has agreed to delete the Program Area field (long obsolete) and to re-define the LV field (incorrectly defined as Educational Level rather than Level of Availability) in its ERIC documentation. (See the exchange of correspondence in Attachment 6.) We will let you know when these changes have been completed by BRS.

...Ted Brandhorst (ERIC Facility)

NATIONAL INFORMATION CENTER FOR EDUCATIONAL MEDIA (NICEM)

NICEM has been purchased by Access Innovations Inc. Under its new Director, Jay Johnstone, NICEM plans in 1985 to offer a variety of new products and services. The new name, address, and telephone number for NICEM and its parent are:

NICEM/Access Innovations, Inc.
3716 South Hope Street, Suite 301
Los Angeles, CA 90007
(213) 743-6681
(800) 421-8711

Access Innovations, Inc.
P.O. Box 40130
Albuquerque, NM 87196
(505) 265-3591

...Ted Brandhorst (ERIC Facility)

ERIC CLEARINGHOUSE PUBLICATIONS BIBLIOGRAPHY COVERING 1984 OUTPUT

The current plan for the next edition of this publication is to restrict it to documents (IAP's) announced in RIE during the January-December 1984 issue year.

Some Clearinghouses have not yet announced any IAP's in 1984 RIE issues to date.

Please get any published IAP's into RIE at the earliest possible date if you want to see them in the next IAP Bibliography.

...Ted Brandhorst (ERIC Facility)

ERIC PROCESSING MANUAL (EPM) REVISIONS — ACQUISITIONS SECTION

Two changes have been made to the Acquisitions Section of the ERIC Processing Manual (EPM). Revised pages are being printed and will be sent to each Clearinghouse. We are describing the changes here for your information.

The first change involves NIE reports received by the Clearinghouses from a source other than the Facility (EPM, p. II-29). Under the former policy, Clearinghouses were requested to obtain clearance by sending a copy of the title page of such documents to the Facility, holding the document until notified of clearance by Central ERIC or the Facility. Under the revised policy, Clearinghouses may proceed with processing if no negative feedback is received from Central ERIC or the Facility within two weeks.

The second revision involves Clearinghouse Acquisition Requests to the Facility. A new form to better systematize Clearinghouse requests has been approved by Central ERIC and distributed to each Clearinghouse. The two revisions have been recorded on p. II-20, 21 and II-29, 31.

...Nancy Stewart (ERIC Facility)

ERIC CLEARINGHOUSE PUBLICATIONS BIBLIOGRAPHIES - "FIRE SALE"!

The ERIC Facility will be drastically reducing its stock levels of the annual bibliography of ERIC Clearinghouse publications. If you can use any copies of these bibliographies for conference handouts, training sessions, or other purposes, now is the time to get them. After the inventory reduction, large quantities of these publications will no longer be available.

The years 1980, 1981, and 1982 are available in the largest quantities. Call Al Hill at the ERIC Facility if you would like to obtain any of these "last chance" items.

...Al Hill (ERIC Facility)

CONFERENCE CALENDAR FOR 1985 (A REMINDER)

Sometime in late October the Facility is aiming to send out the annual questionnaire soliciting information from the ERIC Clearinghouses for the 1985 Conference Calendar.

Central ERIC likes to see this calendar available as close to the first of the year as possible. Requesting the information in October is the only way we can meet this schedule.

This is just an alert so you can start thinking about assembling the information.

...Joy Olson (ERIC Facility)

ANOTHER "NATION AT RISK" SPIN-OFF

The following special announcement has been prepared for appearance in the 4th quarter issues of RIE:

ALLIANCE FOR EXCELLENCE:
LIBRARIANS RESPOND TO "A NATION AT RISK"

Various groups have responded to the challenge posed by the National Commission on Excellence in Education in its report, A Nation at Risk (ED 226 006). The latest group to respond is librarians through a new document, Alliance for Excellence (ED 243 885).

Alliance for Excellence is a report of the Libraries and Learning Society Project funded by the Department of Education. The report contains 13 recommendations which show how libraries and librarians can support the findings and recommendations of A Nation at Risk and make major contributions toward the development of a "Learning Society" in the United States. The document is available at \$2.50 per copy from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402, as long as the supply lasts. It is also available from the ERIC Document Reproduction Service (EDRS), 3900 Wheeler Ave., Alexandria, Virginia 22304, in microfiche (\$.97) and paper copy (\$5.65).

...Carolyn Weller (ERIC Facility)

RIE AUGUST 1984 - ERRATA (p. 30)

Page 30 of RIEAUG84 was mis-composed by GPO and was not detected by their quality control unit. As a result, ED 241 845 - 241 851 (7 accessions) do not appear completely in RIE. GPO will be requested to issue an errata sheet (i.e. a new page 30) and to distribute it simultaneously with the next issue of RIE (probably the October issue).

...Carolyn Weller (ERIC Facility)

DIALOG UPDATE MEETING, JULY 12-13, 1984

ERIC was well represented (in both quality and quantity) at the DIALOG Update Annual Users Meeting, July 12-13 in Washington, D.C. Lynn Smarte (ERIC/EC) prepared the handouts on ERIC and Lynn Barnett and Laura Casal (ERIC/HE) performed as "pinch-hitters" when Lynn had to leave early. We also spied Ted Brandhorst, Carolyn Weller, and Jim Houston from the Facility and Bill Higgins and Mary Campbell from the NIE Library and Educational Reference Center.

...Lynn Smarte (EC)

ERIC--AN AWARD WINNER!

Most Helpful Reference Tools: In its long-standing efforts to support the publication of quality reference tools, the Reference and Adult Services Division (RASD) of the American Library Association (ALA) has annually recognized new resources through its awards program and its recommended lists. Last year the division sponsored its first RASD-MATAZZ award to give recognition to major, heavily-used reference works that have been around for some time. Ballots were printed in the Winter 1982 issue of Reference Quarterly, and distributed at the Public Library Association (PLA) national conference in Baltimore in March 1983. The following list is the result of a tabulation of the returned ballots.

The most helpful reference tools by type were:

1. Almanac: World Almanac and Book of Facts
2. Atlas: Rand-McNally Commercial Atlas and Marketing Guide
3. Biographic verification tool: Books in Print
4. Biographical source: Current Biography
5. Current events source: Facts On File
6. Dictionary: Webster's Third New International Dictionary, Unabridged
7. Directory: Encyclopedia of Associations
8. Encyclopedia: World Book Encyclopedia
9. Handbook: U.S. Government Manual
- 10. Online database: ERIC
11. Periodical index: Readers' Guide to Periodical Literature
12. Statistical data source: Statistical Abstract of the United States

The single most helpful reference tool: World Almanac and Book of Facts.

...Don Ely (IR)

EA PRESENTS PAPER, WORKSHOP AT COMPUTER CONFERENCE

Four personnel from the EA Clearinghouse participated in a conference held August 1-3 at the Hilton Conference Center in Eugene, Oregon on the theme of "The Computer: Extension of the Human Mind III." The conference, with approximately 260 registered entrants, was sponsored by the Center for Advanced Technology in Education (CATE) at the University of Oregon.

The meeting was aimed at classroom teachers, administrators, and educational specialists concerned about the rapid growth of technology in education and having serious questions about what is happening in that area in today's schools. It addressed the critical issue: "Do computers make a significant difference in education?" The 3-day conference included 5 general sessions and 30 special interest sessions on diverse topics. An extensive exhibit hall featured continuous presentations by hardware and software vendors. A theater showing the latest video and film materials related to computers in education was open throughout the conference.

Clearinghouse Director Philip Piele's address, "Local Area Networks for Microcomputers in Education," was one of five general presentations at the conference. Piele, who completed a six-month study program at Stanford University on the potential of networking in educational settings, discussed basic elements of networks and their potential for instruction, information services, and administration. Piele also directed a postconference all-day workshop on "Networking Microcomputers: An Introduction," held at the CATE facility.

Mary Lou Finne, document analyst, directed a session entitled "Online Searches of the ERIC Database." Approximately 30 persons attended her workshop, which began with an explanation of the ERIC system and displayed copies of RIE, CIJE, the ERIC Thesaurus, and other handouts. After several short demonstrations of database access, audience members were asked to suggest search topics relevant to their particular interests and at the end of the presentation, were presented with the printouts of 5 to 10 citations generated in response to their requests.

Clearinghouse staff brought their own Apple III computer, monitor, extra disk drive, modem, and Apple Dot Matrix printer. Cynthia Richardson, word processing specialist for the Oregon School Study Council and the Clearinghouse, supervised the operation. Tom Ellis, document analyst, also assisted by answering questions while Mary Lou was typing in the searches. During the conference, Clearinghouse personnel presided over a table in the lobby that displayed materials from ERIC and the CATE organizations, answered questions about ERIC, and responded to requests for other information related to the conference topics.

The conference proceedings are in the process of being entered in the ERIC database.

...Mary Lou Finne (EA)

PERSONNEL

IR STAFF MEMBER CHOSEN FOR LIBRARY OF CONGRESS (LC) SPECIAL INTERN PROGRAM

Elizabeth Reifsnyder, an IR Document Analyst for the past two years, is one of 12 persons nationwide chosen to participate in the 1984-85 Library of Congress Special Intern Program.

Participants were selected on the basis of their ability to make significant contributions to the library field. All candidates were required to hold a master's degree (M.L.S.) in Library Science and to rank in the upper 25% of their class.

ERIC CLEARINGHOUSE PUBLICATIONS

ERIC/IR ANNOUNCES NEW DIGESTS

The ERIC Clearinghouse on Information Resources has the following new ERIC Digests available:

- "Teleconferencing in Education"
- "Electronic Networks"
- "A Review of Reviews of Research on Computer Assisted Instruction"
- "Computer Literacy for Teachers"

...Pamela W. McLaughlin (IR)

LIST OF ATTACHMENTS

- Attachment 1: Performance Category Budget (PCB) Form Revisions
- Attachment 2: Practice File Final Report - Executive Summary
- Attachment 3: A Short Guide to Accessing ERIC on CompuServe
- Attachment 4: Oryx Press — Periodical Fact Sheet - Resources in Education/
Current Index to Journals in Education (RIE/CIJE)
- Attachment 5: Oryx Press — Periodical Fact Sheet - Current Index to
Journals in Education (CIJE)
- Attachment 6: BRS Promises to Re-define LV Field — Correspondence
- Attachment 7: Source Journal Index Revisions SEP84
- Attachment 8: Summary of CIJE Input By CH (For Sept. 84 issue)
- Attachment 9: EDRS Customer Service Report - September, 1984

each clearinghouse at the end of its contract year correspond exactly with the number estimated on the PCB at the onset of the contract year.

c. Outreach and User Training

All effort related to user workshops, presentations, or user training conducted locally, regionally, or nationally, involving multiple user audiences. The PCB should include here costs covering such items as:

- staff planning for workshops or training sessions
- correspondence
- staff and participant travel and per diem (if applicable)
- expendable materials
- production of workshop exhibit and handout materials
- space and equipment rental for workshop activities
- special consultant honoraria, travel, and per diem
- publicizing the workshop
- public relations costs not otherwise assignable

4. Major Clearinghouse Publications

This general category includes all activities associated with the preparation of major clearinghouse publications:

- Information Analysis Products (IAP's), e.g., state-of-the-art reports, syntheses of knowledge, comprehensive reviews of pertinent literature, and other substantive publications. Such products may be prepared inhouse, commissioned to an out-of-house author (or authors), or prepared jointly by clearinghouse staff and outside authors. In all cases, Information Analysis Products are subject to both internal and outside expert review.
- Other Major Clearinghouse Products, such as extensively annotated bibliographies drawing substantially on the ERIC database, comprehensive resource directories, etc.

All costs associated with the planning, conceptualization, preparation, review, production, distribution, and marketing of such publications, regardless of whether the products are prepared inhouse or out-of-house, should be included in this category. The PCB should include all costs associated with:

- staff planning and conceptualization related to the publications program
- selection of and negotiation with prospective authors
- liaison with professional organizations concerning products
- screening of literature and/or ERIC searches

Revised September 1984

NATIONAL EDUCATION PRACTICE FILE

Executive Summary

INTRODUCTION

The purpose of the National Education Practice File (NEPF) was: (1) to find out from the educational practitioner what types of information would be of value to the educational practitioner; (2) to locate the types of information identified; and (3) to make this information easily accessible to the educational practitioner through the development of a computerized file of practitioner-oriented materials. The NEPF was a two-year, four-phase project which took place from October 1, 1982 to September 30, 1984. The prime contractor was the San Mateo Educational Resources Center (SMERC), a program within the San Mateo County Office of Education, Redwood City, CA. There were two subcontractors: (1) the Social Science Education Consortium, contractor for the ERIC Clearinghouse on Social Studies/Social Science Education, which evaluated the NEPF; and (2) the ERIC Processing and Reference Facility which provided technical support.

PHASE I of the NEPF

Phase I of the NEPF was to produce clear and concise specifications of the types of materials which teachers and building level school administrators need to support improvement efforts at the classroom and building level. To find out from the practitioner what types of information are of value, a three-day Working Group meeting was held in Washington, D.C. on March 1-3, 1983. A diverse group of educators was selected to participate in the Working Group, including 7 teachers, 3 school librarians, 4 school principals, 4 representatives from federal education agencies and 5 representatives from national organizations which serve building level school personnel.

The Working Group analyzed 35 different document types (pre-identified by project staff) and recommended that the NEPF focus on the following top priority document types: (1) promising practices; (2) learning activities; (3) units of study; (4) resource and background materials; (5) compilations of ideas from journal articles; (6) brief research summaries/syntheses; (7) curriculum guides; (8) lesson plans; (9) fact sheets or ready reference materials; (10) games/puzzles; (11) annotated bibliographies; and (12) worksheets. The Working Group also developed criteria for selecting documents for the NEPF.

PHASE II of the NEPF

Phase II of the NEPF was to create a separate computerized file of all the materials contained in ERIC which met the specifications developed by teachers and administrators in Phase I. Project staff developed a computer strategy designed to pull from ERIC those documents meeting the specifications developed by the Working Group. This strategy

identified approximately 20,000 citations which were reviewed by project staff. Of these 20,000 citations, 14,470 (primarily from July, 1979 to April, 1983) were selected by information specialists for inclusion in the test file. This subset of the ERIC system (representing practitioner-oriented materials) was tagged PRACTITIONERS, using a Target Audience file partitioning data element developed jointly by project staff and the ERIC Facility. Subsequently, a second search of the ERIC system was conducted by the ERIC Facility; the results were reviewed by project staff; and practitioner-oriented documents were tagged with PRACTITIONERS. This resulted in an additional 13,325 ERIC documents (for a total of 27,795) tagged with PRACTITIONERS.

Practice File staff requested permission of Central ERIC to apply a similar search strategy to the CIJE backfile and to tag practitioner-oriented journal articles with the PRACTITIONERS Target Audience tag. Permission was granted; the search was run by the ERIC Facility; the results were reviewed by project staff and resulted in the tagging of approximately 16,000 CIJE documents with the PRACTITIONERS Target Audience Tag.

PHASE III of the NEPF

Phase III of the NEPF was to develop new sources of practitioner-oriented documents and to add these new types of documents to ERIC. The total number of documents acquired during the life of the NEPF was 2,548. The total number of documents selected for inclusion and processed into the NEPF was 1,234. All documents in the NEPF were reviewed by at least two professionals: the NEPF Project Director (or designee) and one ERIC Clearinghouse Director (or designee). The five categories containing the largest number of documents were (1) resource and background materials (283 documents); (2) promising practices (246 documents); (3) learning activities (194 documents); (4) units of study (120 documents); and (5) fact sheets or ready reference materials (113 documents).

The breakdown of the length of documents is: 1 page (6.8%); 2-3 pages (21.1%); 4-11 pages (23.9%); 11-100 pages (39.4%); 100+ pages (8.6%). There are 84 full text documents in the NEPF, each a maximum of 500 words in length. Most of the 6.8% one-page documents are these full text documents. Due to the initial problems in obtaining multiple reproduction releases, there are only 12 compilations of journal articles in the NEPF. However, obtaining reproduction releases was becoming increasingly easy toward the end of the project.

PHASE IV of the NEPF

Phase IV of the NEPF was to test the file and collect data related to its strengths and weaknesses in meeting the information needs of teachers and school administrators. Nine test sites were nominated by ERIC clearinghouses and Working Group members. In-depth telephone

interviews were conducted with personnel at each site, and the following official test sites were selected: INFORMS (Iowa State Department of Education); the Wayne County (Michigan) Intermediate School District; and the NYCTCC (New York City Teacher Centers Consortium). Online connect time, telecommunications time, DIALOG prints, a 2-day training session at SMERC, materials and recordkeeping forms, and on-site visits by project staff were provided to the test sites at no charge. The SMERC Information Center and the ERIC Clearinghouse on Social Studies/Social Science Education operated as unofficial test sites.

Evaluation was conducted using on-site observation; semi-structured, open-ended interviewing; and structured data collection through client search request forms and search evaluation cards. The total number of searches conducted was 563. Over half (51%) of the requesters were either K-12 teachers or school administrators. The remainder were librarians, counselors, students, coordinators, consultants, professors, or persons from intermediate agencies. Overall, the top three general request areas were social studies, handicapped and gifted, and science/math/environmental education. Urban education, rural and small schools, and junior colleges were the least requested scope areas. The search request form listed 20 types of materials that searchers could indicate were needed by their clients. The top ten types of materials requested (in rank order) were: (1) research summaries; (2) research syntheses; (3) curriculum guides; (4) resource materials; (5) learning activities; (6) annotated bibliographies; (7) Promising practices; (8) units of study; (9) lesson plans; and (10) handbooks.

Due to technical problems of varying magnitudes at both the ERIC Processing and Reference Facility and at DIALOG Information Services, the whole of the test file was not searchable during the whole of the test phase.

Twenty-seven conclusions were drawn from evaluation data. Following are some of the highlights:

1. The types of materials thought to be most needed by the Working Group were very similar to the actual types of materials requested by clients of the test sites.
2. At this stage of development of the NEFF, the File probably is not very useful to clients without additional materials from the larger ERIC database.
3. Across all sites, almost all clients were satisfied enough with the search information provided to use the system again.
4. Information recipients are less concerned with the source of the information in terms of a specific database than with the usefulness of the information received.

5. There is strong support for information service providers, but little knowledge of (and perhaps support for) the database searched.

6. Most users of the search services share their information with at least one other person; leadership persons often share the information they receive with numerous others.

7. Clients who received either full text documents or journal article compilations were favorably impressed. This is particularly true of classroom teachers who say they do not have the time to use microfiche. Searchers also felt the full text document input was a worthwhile endeavor, and that the journal compilations were very useful.

8. There is a continuing demand for more practical, "how to" documents that could be put to immediate use in the classroom/school.

9. As presently constituted, the NEPF is neither large enough nor does it have a sufficient variety of documents to stand alone in providing a full range of practitioner information.

10. A major concern as a result of the NEPF project, and a policy issue to be addressed by Central ERIC and clearinghouse directors, is the matter of selection and input quality for practitioner-oriented documents.

RECOMMENDATIONS

The following recommendations are an outgrowth of experiences with, and evaluation of, the NEPF project. Some are minor; some would require significant changes in ERIC policy. They fall into three major categories: (1) The Educational Practitioner as Audience of ERIC (2) Building a Database for Practitioners; and (3) Outreach. These are expanded upon in the Final Report.

The Educational Practitioner as Audience of ERIC

1. It is recommended that ERIC clearly define its intended audience(s), with all documents entered into the system justified in light of this defined audience.

2. It is recommended that ERIC locate new sources and re-activate old sources of documents targeted for the practitioner.

3. It is recommended that ERIC investigate mounting the NEPF on DIALOG's Knowledge Index and BRS After Dark once the file is large enough to provide a full range of practitioner information.

4. It is recommended that ERIC clearinghouses consider using the NEPF as a file partitioning device to monitor the type of input in their

scope areas.

5. It is recommended that consideration be given to funding an additional evaluation of the NEPF in six or eight months.

Building a Database for Practitioners

6. It is recommended that consideration be given to including full text documents.

7. It is recommended that compilations of journal articles continue to be included.

8. It is recommended that short documents (of high quality) continue to be included.

9. It is recommended that grade level be added as a data element.

10. If the full text of some documents continue to be included, it is recommended that a tag be applied to these documents to allow a searcher to exclude or include these documents in a search.

Outreach

11. It is recommended that the ERIC system consider the development of a sensing network.

12. It is recommended that an ERIC hotline be established.

13. It is recommended that a review be undertaken to determine who does and who does not receive information about the operation of the ERIC system.

14. It is recommended that a review be undertaken of all products (videotapes, filmstrips, print materials) which describe and explain the ERIC system.

CONCLUSION

It is clear that ERIC is a powerful and useful system for disseminating needed information to the educational community, yet it needs continuing client support. It is the belief of NEPF staff that by keeping in mind the needs of the user of the system, ERIC could be even more powerful and useful in the national push for excellence in education.

September, 1984

v

A SHORT GUIDE TO ACCESSING ERIC ON COMPU SERVE

Introduction

The Educational Resources Information Center (ERIC) is a nationwide information network in existence since 1966 and currently sponsored by the National Institute of Education, within the U.S. Department of Education. ERIC provides teachers, administrators, supervisors, librarians, researchers, media specialists, counselors, policymakers, parents, students, and anyone else interested in education with access to primarily the English-language literature related to education. Included in ERIC are references to journal articles as well as such materials as research and technical reports, speeches and presentations, syllabi, instructional materials, manuals, handbooks, bibliographies, legislation and regulations, teaching guides, and conference proceedings.

Although users have been able to search ERIC on such services as BRS and Dialog, ERIC is now available for on-line searching on the CompuServe Information Service (CIS). ERIC on CompuServe, produced by the SMEAC Information Reference Center, at the Ohio State University, contains the input of documents and journal references from all 16 ERIC Clearinghouses; thus, users can locate materials related to social studies/social science education, teacher education, information resources, science education, mathematics education, counseling and personnel services, etc. Currently, ERIC searches on CompuServe provide the EJ and/or ED numbers which can be used to locate and read abstracts in Resources in Education (RIE) and Current Index to Journals in Education (CIJE). Abstracts WILL be provided on CompuServe in the future!

This guide provides brief comments on: (1) the type of equipment needed to access CompuServe; (2) the type of modems available; (3) software requirements; (4) subscriptions to CompuServe; and (5) ERIC services on CompuServe.

Equipment

The basic equipment needed to access CompuServe includes a microcomputer, a modem, and display device (television or monitor). Although the type of equipment selected will depend on the personal preference of the user, the microcomputer of choice must be compatible with either an acoustic or direct-connect modem. Please note that CompuServe may also be accessed using a terminal or a communicating word processor.

A printer is also recommended (but not required) to obtain printed copies of information obtained during sessions on CompuServe. Printers are especially useful for obtaining (on paper) the results of ERIC searches.

Modems

The word "modem" is short for MODulator-DEModulator, which describes the electronic function of the device. There are two types of modems currently available, the acoustic modem and the direct-connect (DC) modem.

Acoustic Modems

These relatively inexpensive modems consist of a device which contains a speaker and a microphone. The speaker and microphone are usually surrounded by rubber cups which act as a seal to keep out extraneous noise which might cause errors in transmission or reception. While using the modem, the handset of a standard telephone is inserted into these rubber cups.

-2-

These modems are not only simple to use, but also may be used with portable systems at any location (such as in a hotel/motel room or in a telephone booth which does not have a modular jack). However, there are disadvantages in using these modems. Only standard telephone handsets can be used; telephones with non-standard handsets (e.g., octagonal-shaped mouthpieces) or such models as the Trimline cannot be used. In addition, the chance for transmission errors is greater than with DC modems.

Direct-Connect (DC) Modems

These modems do not require an acoustic cradle or telephone handset. Instead, they connect directly to the modular telephone jack. Because they tie directly into the telephone lines, there is less chance of error transmissions. In addition, many of these modems support such "built-in" features as call-receiving, call-answering, automatic dialing, and automatic log-on. DC modems range from \$300-\$400 and up depending on the features offered.

Interface Cards

...for acoustic modems- A serial interface card is needed to connect the modem to the computer. The card plugs into the expansion slot of the computer. In some cases, the card is sold with the modem as a single package; in other cases, the card must be purchased separately.

...for DC modems- An interface card is also needed to connect the modem to the computer. These cards may be included with the modem or purchased separately. In some cases, the entire modem is on the card, eliminating the external circuitry box characteristic of many of these modems.

Smart Terminal Software

Various types of software are available to enable the user's computer to act like a "smart terminal." A smart terminal offers capabilities above and beyond those needed to access CompuServe. Depending on the software selected, these capabilities include such features as: (1) downloading and/or uploading data files with error checking; (2) user direction of input to screen or printer while on-line; (3) text editing; (4) user definable key functions; (5) auto-dial/re-dial and auto log-on; (6) user-selectable terminal or local modes of operation; and (7) RAM buffer storage of on-line information so the user can store it to disk and print it out later.

Subscribing to CompuServe

A "starter kit" is needed to initially access CompuServe. This kit may be purchased (for approximately \$40) through many retail stores that sell computers and/or computer equipment or from such stores as Best Products, Computerland, Dolgins, Game Player, Great Western JAFCO, LaBelle's, Miller's, Sears, Service Merchandise, Target, Team Electronics, Toys 'R' Us, and Waldenbooks.

Starter kits include a temporary user identification number (ID), a temporary password, a user's guide, and a credit toward a CompuServe account. In addition, subscribers receive an introductory subscription to Today Magazine, a CompuServe publication. In some cases, access packages may be included as promotional items with communications equipment and/or software by selected manufacturers. Users are encouraged to ask their local computer store representative about such offers. (Note- if a user's guide is not included in a promotional package, it may be purchased separately from CompuServe).

After purchasing a starter kit and logging on, users will be able to obtain a regular subscription on-line. After entering the required information (including name, address, billing information, etc.) a new password will arrive in about one week.

-3-

On-Line CompuServe Rates

CompuServe currently has two connect charge rates. Standard connect charges are \$6.00/connect hour (300 Baud) and \$12.50/connect hour (1200 Baud). These charges are in effect 6 p.m. - 5 a.m. weekdays, all day Saturday, Sunday, and announced CompuServe holidays. Prime connect charges are \$12.50/connect hour (300 Baud) and \$15.00/connect hour (1200 Baud) from 8 a.m. - 6 p.m. weekdays. All rates exclude local telephone charges (i.e., message units, long distance, etc.).

CompuServe may be accessed using a CompuServe telephone number (no surcharge) or through Tymnet (Datapak/Tymnet in Canada) or Telenet. A surcharge is assessed for Tymnet and Telenet.

ERIC Services on CompuServe

Once you have subscribed to CompuServe and logged on, you will be able to use ERIC and the other services offered by CIS. Item 1 (What's New) on the User Information Menu will tell you how to access ERIC. Once accessed, you will see the menu ERIC DATABASE with two choices (1- What is ERIC? and 2- ERIC Database Items). Selecting item 1 will give you information about ERIC, the organizations that comprise ERIC, major ERIC products and services, on-line retrieval, and user assistance. Selecting item 2 will give you the opportunity to search ERIC and to search for locations with ERIC microfiche locations (a surcharge is assessed for these services).

Two additional services may be obtained by selecting item 2. They are a monthly newsletter and a feedback option. The feedback option allows users to receive assistance in using ERIC, to receive help with searching ERIC on CompuServe, and to offer comments and suggestions about the ERIC database on CompuServe.

Future ERIC services on CompuServe include: (1) ordering selected ERIC publications; (2) obtaining (on-line) annotated bibliographies on selected topics of interest to users; (3) receiving on-line instruction (CAI) on selected topics; and (4) purchasing or downloading ERIC (non-CompuServe) search software.

Important Numbers

Should you need help in using CompuServe, please call CompuServe's toll-free customer service office at 1-800-484-8890 or 614-457-8650 in Ohio. You may also write or call Dr. John A. Novak at the SMEAC Information Reference Center, 1200 Chambers Road, Room 310, Columbus, OH 43212; 614-422-6717.

A Final Note

Users are strongly encouraged to meet with a local computer representative to discuss their individual needs and the types of options available before purchasing hardware and/or software.

Resources in Education/ Current Index to Journals in Education (RIE/CIJE) Microfiche Cumulations and Annual Updates

Description:

The Educational Resources Information Center (ERIC), which provides the material for the Current Index to Journals in Education (CIJE), also publishes the monthly journal Resources in Education (RIE). RIE covers current educational research findings, technical reports, speeches, unpublished manuscripts, and books. The Oryx Press combines this coverage with that offered by CIJE, bringing the whole world of educational research together. Both are now accessible through these special microfiche cumulations. Covering more than a decade of important educational literature (1966-1980), these CUMULATIONS offer ease of use and tremendous savings of space and storage. A combined subject index provides a completely integrated cumulation of all document and journal article titles, arranged by major descriptors and identifiers, using the latest ERIC vocabulary. You can keep your valuable RIE/CIJE MICROFICHE collection completely up-to-date through ANNUAL UPDATES which contain Main Entry sections for RIE and CIJE, an accumulated Fiche Index from 1966 to the present, along with the useful Combined Subject Index.

Note:

RIE monthly editions are published by U.S. Government Printing Office, Washington, D.C. All CIJE publications prior to March 1979, published by Macmillan Inc., 866 Third Avenue, New York, NY 10022.

Prices are listed on the reverse side.

Current Index to Journals in Education (CIJE) Semiannual Cumulations

Publication Date: Semiannually in September and February

Size/Binding: 8 1/2 X 11 Clothbound

Description:

To consolidate the valuable information contained in the CIJE monthly issues in a format suitable for permanent reference, The Oryx Press publishes the CIJE SEMIANNUAL CUMULATIONS. Twice a year six monthly issues are integrated into a single clothbound volume with cumulated Subject, Author, and Journal Contents indexes, which enhance the usefulness of the work.

Yearly Subscription Rates

Year	U.S. & Canada	Postage	Foreign	Postage
1985	\$175.00	\$6.00	\$175.00	\$21.50
1984	\$150.00	\$6.00	\$150.00	\$21.50

Ms. Bette S. Brunelle
Bibliographic Retrieval Services (BRS)
1200 Route 7
Latham, New York 12110

Dear Bette:

We would appreciate it if two matters relating to the ERIC database at BRS would receive your attention:

1. Program Area Code (PA)

This is truly an obsolete data element. It has not been used by ERIC since 1977 and even before that time appeared very sporadically. It would be best if BRS would simply delete this data element and all reference to it in their documentation.

2. Age or Educational Level (LV)

The Level field in ERIC refers to the level of availability of the document from the ERIC Document Reproduction Service (EDRS).

Level 1 = Paper Copy or Microfiche

Level 2 = Microfiche Only

Level 3 = Not available from EDRS, but an external source is cited in the RIE citations.

Somehow, this data element has been completely misinterpreted by BRS and the three levels have been construed to refer to educational levels (see attached write-up in your ERIC documentation).

This anomaly has led to great confusion on the part of ERIC searchers. We are frankly amazed that you haven't been bombarded by enough users on this problem to lead you to change it much earlier, when it first appeared.

At any rate, since the information contained in the BRS write-up is completely wrong, we believe you owe it to your users and to ERIC to issue a revised description of the LV data element.

Please let me know what you plan to do on these two matters.

Sincerely yours,

Ted Brandhorst, Director
ERIC Processing and Reference Facility

4833 Rugby Ave. Suite 301
Bethesda, MD 20814-3073

Dear Ted:

Thank you for writing BRS regarding your concerns about ERIC.

I have processed a request to the Technical Department to delete the PA (Program Area Code) and will let you know when that will take place. This will also be removed from documentation.

I have also forwarded to our Documentation Department a request to rewrite the LV (age or education level) section of the database guide as well as inquired as to the difficulty of adding the text as a table to the actual display of the paragraph online.

We will follow up with you when these items are completed.

Thank you for bringing these items to our attention.

Sincerely,

Iris L. Rugoff

NETWORK NEWS

PAVAC Review of ERIC Clearinghouse Products

As you will probably have already heard by now, PAVAC has agreed to review ERIC Clearinghouse products in groups, by Clearinghouse. The review will involve two separate categories of products, major Clearinghouse products and user service products. The review will be done in the product planning stage, that is, 2-3 weeks before the beginning of a new contract period. Standardized forms for this purpose have been sent directly to all Clearinghouses, together with instructions on how to complete them.

...Kevin Arundel (Central ERIC)

EC Clearinghouse Contract Won by Council for Exceptional Children (CEC)

Central ERIC is pleased to announce the award of a new 5-year contract to the Council for Exceptional Children (CEC), Reston, Virginia, for the continued operation of the ERIC Clearinghouse on Handicapped and Gifted Children.

...Kevin Arundel (Central ERIC)

Facility Acquires New Microfiche Reader-Printer (Canon PC-70)

The Facility's collection of ERIC microfiche is one of the most complete and carefully inventoried outside of EDRS itself. The Facility has long had a need to reproduce selected pages of documents in the ERIC microfiche collection, e.g. to respond to reference inquiries, to interact with Clearinghouse document processing staff, and to illustrate selected situations to EDRS.

With the recent acquisition of a Canon PC-70 Reader-Printer, these functions will now be greatly facilitated. The Canon PC-70 is a new state-of-the-art dry process (xerographic) printer. It uses a closed cartridge of toner (good for 3000 copies) and regular bond paper. It is as simple to operate as any office copier.

The acquisition of this piece of hardware represents one step in an overall plan to gradually upgrade the Facility's capabilities with the most modern of automated office equipment, in order to better serve Central ERIC and the ERIC Clearinghouses.

...Ted Brandhorst (ERIC Facility)

ERIC/RCS Pleased Over Direct Mail Results

Don Boileau, associate director of the CS Speech Module, reports the success of a recent direct mail effort developed by Penny Demo. Penny sent a cover letter and flyer on Communication Consulting: Another Teaching Option to the domestic membership list (976 names) of the American Business Communication Association. During the first four weeks, the Module experienced a 9% response rate; by the end of six months, the rate grew to 12%.

...Anne Auten (CS)

ERIC/RCS Writers Reach Wide Audience

The third edition of Readings on Reading Instruction, an anthology edited by Albert J. Harris and Edward R. Sipay (Longman Inc., 1984), features articles authored by two CS staff writers and a former staffer who produced her article while with the Clearinghouse. The articles selected for the anthology are:

"Integrating Reading and Writing Instruction" by Fran Lehr

"Computer Literacy, Part II: Classroom Applications" by
Holly O'Donnell

"How Well Does the Average American Read? Some Facts, Figures
and Opinions" by Mary K Monteith

Charles Suhor, director of CS, also authored articles featured in recent publications of NCTE affiliates: "Curriculum Models: You Get What You Ask For" in Texas English, and "English Textbooks Based on Research and Theory--A Possible Dream" in Connecticut English Journal.

...Anne Auten (CS)

Electronic Transfer of Manuscript to IR

In August, the ERIC Clearinghouse on Information Resources received an electronically transmitted manuscript by way of a network called BITNET. Syracuse University is a member of BITNET, a national network of academic computing centers. The author, who was affiliated with another university in the BITNET system, sent his 50-page, single-spaced manuscript online to Syracuse University's academic computer. ERIC/IR was then able to have it downloaded to their XEROX-860, thereby eliminating the task of re-keying the text. There are many possibilities and advantages associated with the electronic transmission of text. For further information, please feel free to contact IR's Jane Klausmeier.

...Jane A. Klausmeier (IR)

SP Collecting National Commission on Excellence in Teacher Education Papers

The National Commission on Excellence in Teacher Education (sponsored by NIE) is working with ERIC/SP to coordinate input of testimony and hearings into the ERIC system. Other Clearinghouses which receive papers from the NCETE hearings are requested to forward them to Cathy Butler at SP. Hearings were as follows: Sept. 25-26 at the University of Minnesota; Oct. 4-5 at the University of Texas at Austin; Oct. 15-16 at Georgia State University; Oct. 18-19 at New York University; and Oct. 22-23 at San Francisco State University.

...Cathy Butler (SP)

The Paperless Search

ERIC/TM was recently asked to provide the output from a computerized literature search to the requester in machine-readable form. In response to this request, the combined ERIC and Psychological Abstracts output of the search was downloaded onto an IBM-PC diskette. This allowed the user to access and edit the information on her own IBM-PC in the privacy of her office and gave her the flexibility to print only what she considered relevant. This experience was a first for ERIC/TM, and we hope it marks the beginning of a new approach in servicing search requests.

...Emma Gonzalez-Stupp (TM)

PROCESSING ADVISORIES

CIJE Duplicates

Now that Oryx is receiving from the Facility a list of potential duplicates with each shipment of bibliographic data, they tell us that they are making more contacts with the Clearinghouses concerning duplicate input. The primary source of duplicates seems to be "oneshot" articles that either come from a journal already covered by another Clearinghouse or that another Clearinghouse has also put in as a "oneshot".

With this in mind, please do the following:

1. Before processing any journal on a "oneshot" basis, check the Source Journal Index in the front of the CIJE (and the list of changes to it regularly printed in the EIB). A journal listed as being regularly covered should never be processed as a "oneshot".
2. "Oneshot" articles, whether from new or previously uncovered journals, should always be processed with caution. When the subject matter of a potential "oneshot" article overlaps with that of other Clearinghouses, contact should be made with the other Clearinghouses to avoid possible duplicate processing efforts.

There is no Acquisitions Data Report (ADR) for CIJE and, therefore, the only way to prevent duplicate processing is to rely on the Source Journal Index (and its updates) and the very circumspect use of the "oneshot" option.

CIJE duplicates should not be minimized just because microfiche is not involved. They should be avoided with as much care as RIE duplicates. Duplicates in CIJE involve the unnecessary expenditure of Clearinghouse resources and Oryx editorial time to resolve, and, if they are not caught, searchers end up paying twice for the same hit.

...Jim Prevel (Central ERIC)

RIE/CIJE Shipment Schedule

Clearinghouses are reminded that the Master Schedule shows no transmission of bibliographic data or shipment of documents for either RIE or CIJE for the weeks of November 19-23 and December 24-28 (Thanksgiving and Christmas, respectively). Input for RIEFEB84 ended with the shipment of November 16. Input for RIEMAR84 starts November 30 and ends December 21. Input for RIEAPR84 begins with the January 4 shipment.

...Carolyn Weller (ERIC Facility)

Document Processing

1. Covers

Please do not remove cover pages from documents. In a number of cases covers have been destroyed and/or mutilated when it was later found they had valuable information that did not appear on the title page. If the cover and title page are identical, use a pencil and lightly mark "Do not film" on the cover page. If they differ in any way, both should be filmed.

2. "Window" - Type Covers

Some documents have covers with a "window" opening onto the inside Title Page. Unfortunately, when such a cover is filmed as a separate page, the window shows up simply as a hole without a title. If such a cover is to be filmed (and often they should be for they contain institutional or other information not repeated on the Title Page), then the "window" must be filled in so as to display the title.

This topic was covered in the EAB some months ago and an immediate improvement was noticed. However, with the passage of time, more and more window documents are being submitted without proper preparation.

3. Multi-Piece Documents

Occasionally a single item submitted for RIE consists of a number of distinct parts or pieces, e.g. a teachers guide, a student guide, handouts, activity sheet, pre-test/post-test, etc. In such cases, it is not necessary to put the same accession number and labels on each piece, but it is necessary to indicate clearly what the appropriate sequence of the pieces should be. Usually this will be the same as indicated in the table of contents or other front matter. In order to help the Facility retain the proper sequence for a multi-piece document, it is helpful if the Clearinghouse can lightly number (a light blue pencil is best) the first page of each piece, e.g. first piece -- 1, second piece -- 2, third piece -- 3, etc. Whatever the technique used, the objective is to avoid a multi-piece document where the Facility cannot determine the intended sequence of parts.

...Carolyn Weller (ERIC Facility)

PERSONNEL

CE Personnel Change

Sandra Kerka is now the Documents Coordinator at CE for both RIE and CIJE. The new Acquisitions Coordinator is Naomi Jacobs.

...Mildred Thorne (Central ERIC)

ERIC Facility Personnel

Please update your ERIC Directory to reflect the following additions and name changes:

Ms. Deborah Hottel	add as	Secretary (to Ted Brandhorst)
Ms. Deborah Hereford	change to	Mrs. Deborah Hereford Burk
Ms. Ruth Balkam	change to	Mrs. Ruth Balkam Chite

Ms. Hottel replaces Liz Pugh and will be in contact with the Clearinghouses on a wide variety of projects, e.g. ERIC Directory, Directory of ERIC Service Providers, ERIC Administrative Procedures Manual (revisions), etc.

Mrs. Burk has been an outstanding RIE editor for the past two years and is well-known for her diplomacy and gracious telephone work.

Mrs. Chite, who is a part-time RIE editor, was recently appointed the student representative to the Montgomery College Board of Trustees (see following article).

...Ted Brandhorst (ERIC Facility)

Ruth Balkam Chite Appointed to Montgomery College Board of Trustees

Ruth Balkam Chite, one of the ERIC Facility's RIE editors, was recently honored by being appointed as the student member of the Board of Trustees of Montgomery College (formerly Montgomery County Community College). The announcement below appeared in the Washington Post and other local papers:

Ruth Balkam Chite of Rockville recently took the oath of office as the student member of the Montgomery College Board of Trustees. The board oversees three campuses and 20,000 students. Chite was named to the eight-member board by Gov. Harry Hughes. Chite, an editor at the Educational Resources Information Center in Bethesda, attends Montgomery College's Rockville campus. She is preparing for a career as an elementary school teacher.

RUTH BALKAM CHITE
.. named to college trustees board

...Ted Brandhorst (ERIC Facility)

Sophia Behrens Retires from FL To Be Succeeded by Gina Doggett

After a total of ten years of extremely productive service to ERIC/FL in her capacity as editor and publications coordinator, Sophia Behrens has resigned from this position as of September 14, in order to begin to enjoy a retirement-cum-world travel life to which she has been looking forward for some time. Those of us who have known and worked with Sophia greatly appreciate the major role which she has played in making our IAPs and other Clearinghouse publications a household word among language teachers, supervisors, and linguistic researchers/curriculum developers, both in the U.S. and abroad. I am sure the entire ERIC family will join us in expressing heartfelt thanks for Sophia's contribution and wishing her all the best as she begins her exciting new "leisure time" activities.

While we will certainly miss Sophia's presence and collaboration, we are pleased to report that Ms. Gina Doggett has joined the FL staff as of mid-September in the editor/publications coordinator role. Gina earned a B.A. in French and Linguistics at Swarthmore and is completing work on an M.S. in Sociolinguistics at Georgetown University. Before joining the Clearinghouse, she was managing editor for periodicals at the Alexander Graham Bell Association for the Deaf, where she edited the bimonthly Volta Review and Newsounds, the association's newsletter. In addition to her editorial background, Gina has done work in typesetting and in publication layout and design, all of which should stand her in good stead in her new position. A warm welcome to Gina from all of us!

...John Clark (FL)

John Disinger Receives National Award from NAEF

Dr. John F. Disinger, Professor of Environmental Education in the Ohio State University's School of Natural Resources and Associate Director of the ERIC Clearinghouse for Science, Mathematics, and Environmental Education, has received the "Walter E. Jeske" award from the North American Association for Environmental Education (NAEE). The award was presented at the Association's 13th Annual Conference which was held October 5-9, 1984 at Chateau Lake Louise, Alberta, Canada.

The award is presented to an NAEE member based on his or her contributions to the Association and the field of environmental education. Dr. Disinger has contributed to the advancement of the field through his teaching, research, and public service activities in both the School and ERIC. He has written or edited nearly sixty publications in environmental education. Five years as treasurer of NAEE tops the list of his contributions to the Association. This list also includes his current positions as chairman of the program committee for the 1985 NAEE conference and president-lect of the organization.
